"(b) FLOOR CONSIDERATION IN THE SENATE.—

"(1) Debate in the Senate on any rescission disapproval bill and debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours. The time shall be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

"(2) Debate in the Senate on any debatable motion or appeal in connection with such a bill shall be limited to 1 hour, to be equally divided between, and controlled by, the mover and the manager of the bill, except that in the event the manager of the bill is in favor of any such motion or appeal, the time in opposition thereto shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from the time under their control on the passage of the bill, allot additional time to any Senator during the consideration of any debatable motion or appeal.

"(3) A motion to further limit debate is not debatable. A motion to recommit (except a motion to recommit with instructions to report back within a specified number of days, not to exceed 1, not counting any day on which the Senate is not in session) is not in order.

"(c) POINT OF ORDER.—(1) It shall not be in order in the Senate or the House of Representatives to consider any rescission disapproval bill that relates to any matter other than the rescission of budget authority transmitted by the President under section 1101.

"(2) It shall not be in order in the Senate or the House of Representatives to consider any amendment to a rescission disapproval bill.

"(3) Paragraphs (1) and (2) may be waived or suspended in the Senate only by a vote of three-fifths of the members duly chosen and sworn.".

Mr. COATS addressed the Chair.

The PRESIDING OFFICER (Mr. LIEBERMAN). The Senator from Indiana.

Mr. COATS. Mr. President, let me assure the managers of the bill and my colleagues that it is not my intent whatsoever to impede full consideration of the passage of this conference report. I do not intend in any way to engage in a long, drawn out attempt to withhold full consideration of what I consider to be a very important bill. It does include a number of important funding measures for all 50 of our States, including the State of Indiana.

The Senator from New Jersey and the Senator from New York who have worked long and hard on this appropriation measure and conference report are to be commended for their efforts and their work. I thank them for including what I think are a number of vital projects that affect the State of Indiana which were listed earlier by the Senator from New Jersey. I just wanted to assure my colleagues that my attempt here to offer this amendment is the result of failure on several other attempts to offer this amendment to other bills.

At the request of the leadership, the majority leader, as well as the Republican leader, I withdrew my efforts to add the amendment considered on a number of other measures because in order to expedite the work of the Senate and because the bills were deemed critical, in terms of time consideration, we initially thought to offer it on the urgent supplemental which this body discussed and debated several months ago because that was an urgent dire supplemental appropriation. And because we did not wish to hold up essential funding that was needed immediately, we agreed to

withhold consideration of our amendment at that time.

Second, we attempted to offer it to the short-term debt extension which occurred in early August, and again because the determination was made that this funding was needed immediately, we agreed to defer offering the amendment at that time with what most of us understood to be a clear understanding that we would offer it in the fall on the long-term debt extension measure.

In fact, on September 18, 1989, Senator MCCAIN, Senator ARMSTRONG, Senator HUMPHREY, and myself sent a letter to Senator MITCHELL and Senator DOLE indicating we wanted to put them on notice that it was our intention to offer the amendment on the line item veto authority, S. 1553, to the debt limit extension when it reached the Senate floor. Once again, because of the urgency of that particular measure and because that measure was not brought up until just hours before the United States might have been in default on its obligations, we agreed to withdraw that particular amendment from consideration under that bill.

We were then told and advised that the next best opportunity would be on one of the appropriations conference reports, and we have looked at a number of those and found this to be the most appropriate vehicle on which to offer this amendment. But again I want to assure my colleagues it is not our intention, certainly not my intention, in any way to delay consideration of this conference report. I really do not see why we cannot, after a reasonable time of debate, vote on this amendment, move forward, and pass this conference report yet today.

Mr. President, if I could, I would like to go back and give a brief history as to how we got to this particular point. Prior to 1974, the President had the power to impound appropriated funds. While few Presidents prior to President Nixon used that authority to any great degree, in the early seventies President Nixon used it to a considerable amount, and that brought a fair amount of concern to a number of Members of this body and to the House of Representatives as to the appropriateness of the President's use of that impoundment power.

As a result of that and other concerns about the budget, Congress went ahead and enacted the Budget Control and Impoundment Act of 1974 which, as part of that measure, was designed to ensure greater congressional budget control over the process and, in an attempt to retain some authority in the executive branch, provided a measure designed to allow the President to sent to Congress rescissions which had to be approved affirmatively by both bodies within a 45-day period of submittal.

The results of the 1974 actions by Congress have over the years proven just a little too convenient for this body to continue spending beyond the range of our ability to control the deficit.

For instance, from 1969 to 1974, domestic discretionary spending increased at a 7.3-percent average growth rate. But in the year subsequent to enactment of the Budget Control and Impoundment Act of 1974, changing the authority of the executive branch from impoundment authority to the rescission authority that had to be affirmatively approved by Congress, we saw a dramatic increase in spending. In fact, in 1975, the year subsequent to that act, spending rose at 26.4 percent and since enactment of the Budget Act of 1974 spending has been rising at a 9.6-percent average annual rate.

There are a number of causes for that, and what we are attempting to address today is not the single cause but it certainly has contributed and, that is simply that buried in most appropriations bills, in fact all appropriations bills, are a number of projects that many suspect would not stand on their own two feet were they subject to the spotlight of debate and vote on that particular entity itself.

We all know how that process works, and we have all engaged in that process, of attaching either nongermane or attaching other special projects that affect particular areas of our own representation or others to appropriations bills that we know the President is faced with a situation of either vetoing the entire bill or accepting the entire bill. It has become a very convenient way for Congress to attach a number of pet projects to bills and get them approved, projects that we would not necessarily like to debate in the light of the Senate floor for public scrutiny or have to vote on individually.

The result of this significant increase in spending and lack of check on the part of the executive branch has resulted in a massive Federal debt which we have been grappling with for more than a decade.

I was elected to the House of Representatives in 1980 and took office in 1981, and I dare say that well over two-thirds of our time has been devoted to budget matters. We are literally consumed with how to deal with the budget and the deficit spending that occurs. We go through this enormously time-consuming and complex budget resolution process every year and the appropriations process which follows. We have engaged in, as we all know, the distasteful, and I think somewhat irresponsible, process of going to continuing resolutions and loading up reconciliation bills with a number of items that have no relationship to the task at hand.

As a result, the United States has a Federal debt that is larger than the gross national product of 158 out of the world's 167 nations. Fifty-seven percent of the budget alone is spent just to finance the debt and that financing occurs at the rate of $5,000 a second.

This year we were attempting to comply with Gramm-Rudman requirements of the law to reduce the deficit not to zero but to somewhere near $100 billion, and we did not come close. As a result of that, we are currently in the situation where the most onerous part of Gramm-Rudman, in fact the part that admits we failed, is in place, the sequester, the across-the-board, totally nondiscretionary effort to eliminate, or reduce spending in all categories with a few exceptions. It is, as I said, an admission of failure and an admission of our inability to come to grips with the budget problem we face.

It has been said that to govern is to choose. But with the sequester process, we have outlawed choice and we have surrendered to a very impersonal machinery that is in operation.

Mr. President, there have been a number of attempts in this decade to try to redress what many see as an overaction to the President's impoundment authority that was enjoyed by Presidents up to 1974.

While I admit action is needed to be taken on the budget at that time, I think the point that a number of us will be making today is that we have tipped the scale too far in the other direction. As a result, the rescission process that was given to the executive branch has not been effective in any way.

As I said, there have been a number of attempts to redress that. It has been on a bipartisan basis. Members from both parties have offered amendments or resolutions before this body in an attempt to give the President one tool which they feel could be effective in addressing part of the problem that we face; that is, a line item veto authority.

We have titled our amendment that is before us and in the bill S. 1553 as "legislative line item veto." It could just as easily be called rescission process. That is consistent with a number of efforts that have taken place in this body, the most notable of which was in 1983 when Senator ARMSTRONG and Senator Russell Long of Louisiana jointly referred a rescission power amendment and was narrowly defeated on a tabling motion. But a number of others have been offered in subsequent years.

This year, in 1989, in an attempt to revive that process again, Senator MCCAIN, Senator ARMSTRONG, Senator HUMPHREY, and myself have met in extensive negotiations and discussions to

try to bring together the four separate proposals that each of us have introduced to find one measure around which we can all lend our support, and which advances the idea and the concept that we are talking about here today.

The result has been S. 1553 which is now here today offered in amendment form. It is a compromise version. It meets I think a number of objections that have been raised relative to the rescission and line item veto proposals that have been offered in this body before, and it has more than 30 cosponsors of this body that have sponsored that particular bill.

The amendment before us which outlines S. 1553 does a couple of important things. First of all, that bill reverses the presumption that currently exists relative to how a rescission is handled when it comes to the Senate floor. This is the most fundamental part of the bill.

Instead of saying that a rescission sent to this body by the President of the United States does not become effective unless affirmatively acted upon by this body, it reverses that presumption and says that it does become effective unless specifically through a resolution of disapproval it be disapproved by this and the other body.

That is the most fundamental diference in the rescission that we are offering today, and the rescission power that the President currently enjoys.

In an attempt to meet potential constitutional questions we have prescribed three basic standards which we think are important to be addressed and complied with before the President's rescission is valid. The first of those says that the President must determine that such rescission would help balance the Federal budget, reduce the Federal budget deficit, or reduce the public debts. The second standard says that such rescission will not impair any essential Government function. Third, such rescission will not harm the national interest.

Those were included to meet the objections and the possible constitutional considerations—that this rescission might leave in the hands of the President an authority that would harm the national interest or impair essential Government functions. The President must determine and certify to the Congress that these three tests are met.

The procedure is relatively simple. The President can notify the Congress by a special rescission message not later than 20 calendar days after the date of enactment of a regular or supplemental appropriation or a joint resolution making continuing appropriations. Thus, when the President receives an appropriation on his desk, he can within 20 days after the receipt of that send a special rescission to Congress rescinding part of that particular appropriation.

There is a second procedure whereby the President can submit a rescission, and that is accompanying the submission of the President's annual budget to Congress if the rescissions listed in his rescission message have not been proposed previously for that particular fiscal year. The President must submit a special separate rescission message for each appropriation bill. That rescission then becomes effective unless disapproved.

The disapproval must be all or nothing. Congress cannot divide it. They have to act on the entire rescission sent forward. Congress will have 20 days, congressional days, to review the rescission sent forward and, sending it back to the President, the President has 10 days then following that in which to accept or reject that particular resolution of disapproval.

Mr. President, let me just say a few other things here. In respect to the questions regarding the constitutionality, we do not under this amendment rescind the President's current rescission authority. We are adding a new title, title 11, to the Impoundment and Budget Control Act of 1974, retaining title 10. So the President would have his choice in terms of which rescission authority to use.

Second, as I mentioned before, we attached those three conditions to ensure that the rescission would not impair essential Government functions, would go toward reducing the deficit—needed for that particular purpose—and not harm the national interest.

Third, we have included a two-House action of disapproval on the measure so as to avoid any potential concerns raised in the Chadha decision. And finally we have asked the American Law Division of the Congressional Research Service to check this for constitutionality. Their indication is that it appears it is constitutional.

Mr. McCAIN. Will the Senator yield for a question?

Mr. COATS. Yes.

Mr. McCAIN. Is it true—I am sure this will be highlighted time and time again during this debate—that not only in this appropriations bill but on HUD and other appropriations bills there are included projects important to the Senator's State and, indeed, the State of Arizona? There are highway funds. There will be funds for the central Arizona project, and many other programs which some may classify as pork and unnecessary spending.

Is there any doubt in the Senator's mind that is the case? If so, is that any excuse or reason to do away with unnecessary spending? Is that any reason to say that we shouldn't fix a process which has caused these incredible deficits and has left us to face sequestration, which will slash so many important programs across the board.

Is it not a fact that the Senator from Indiana and I, and indeed each of the 100 Members of this body, have supported projects which may, to others, be either unnecessary or wasteful?

Is that sufficient reason, I ask my friend from Indiana, to abandon an attempt to do away with a process which has led us to the lamentable situation that we are in—when we are threatening vital programs on which veterans, the poor, the elderly, and defense, all depend?

I ask my friend from Indiana this because it will be pointed out to us, again and again during this debate, that there are parts of all the appropriations bills that fund projects in our States and which could be classified in the view of some as unnecessary, wasteful pork.

Mr. COATS. I thank my friend for his question. I certainly agree that that should not be the reason why we would not go ahead with this.

I would add to that the fact that those of us that seek appropriations for projects in our State believe that those projects are worthy projects, and we feel it is incumbent on us, and it is part of our duty, as a Senator representing our respective States, to come forward and go before the various appropriation committees and make the case for that spending.

If the debate ensues on this floor for additional debate on that particular project, we ought to be able to come here and justify that as an essential Government spending function.

All we are attempting to do here is—we are not attempting to limit spending projects. Appropriations are important. They are an essential part of what we do here on a day-to-day basis. We ought to be able to make sure that they stand the scrutiny of public exposure and debate on the particular appropriation.

Much of that will take place in the Appropriations Committee. Some of that should take place on the floor of the Senate and in the House of Representatives, and the President, we submit, ought to have a say in how that money is spent and whether they deem it is appropriate.

This procedure does not outlaw the possibility of this Congress coming back and disagreeing with the President. We do that on vetoed appropriations bills time and time again, and there is no reason we could not do it on a rescission.

What we are attempting to do here is redress what we think is a considerable imbalance in terms of how current appropriations processes are handled, and the President's inability to have his rescissions, some of which will be valid and some of which this

body will determine not to be valid, how those rescissions are handled.

The situation we now have is that very few, if any, are handled. If I could, I would like to outline the record in the past few years. I will skip a few of those, but the record is, in terms of the disapproval of rescissions sent to this body, we have not acted on most of the President's rescissions.

In fact, in 1976, under President Ford, 51 rescissions were sent to this body, and only 43 were acted on. Of the $3.608 billion submitted for rescission, $3.404 billion, $3.8 billion of that amount was not accepted.

Thus, 90 percent of what the President sent here was not accepted by this body. Under President Reagan, the record is even worse. In 1983, of 21 rescissions sent to the Congress, 21 were rejected; 100 percent of everything he sent was rejected.

In 1986, 83 rescissions were sent, totaling $10 billion. Seventy-nine were rejected, for a 97-percent rejection rate. In 1987, 73 rescissions were sent, and 71 were rejected—98 percent. In 1988, the President gave up and did not send any up here, because he saw what the record was going to be.

The questions raised as to the fact that by going through this process, we have to duplicate what we have done before, that is, we have gone through the process once; it has been through committee and through the House and the Senate; we voted on it, so why do we need to go back and do it again?

Admittedly, we will be making certain types of spending more difficult—not impossible, but more difficult. Admittedly, this body ought to be held accountable for some types of projects that go through that probably would not stand the scrutiny of public debate.

But because we have structured this in such a way that the Senate must deal with all or nothing of the rescission that is sent up, the President and the executive branch will certainly use discretion in terms of how they send a rescission forward. If the rescission includes a whole basket of things, some of which are meritorious and some which are not, it is very likely this body will not accept that rescission. They would vote a resolution of disapproval.

On the other hand, if the President selectively exercises his authority, his rescission authority, over egregious appropriations in pork barrel projects, then it is likely we could have some effect. It need not take a great deal of the time of this body. We have added the expedited procedures, which the Senator from Arizona had worked long and hard on, and which were included in his bill. We have added those as a way of expediting the process.

And without going into all the details, which I am sure my colleague from Arizona will on those particular procedures, I will just say that there is no reason why this need take up a great deal of the Senate's time.

Mr. SARBANES. Will the Senator yield for a question?

Mr. COATS. I am almost finished with my statement. If I could go ahead and finish the statement, I will be happy to yield for a question on this particular point.

Mr. President, the last objection that I want to talk about today is that this really does not save very much money, that our budget problem far exceeds our ability to deal with it through the rescission process.

I am the first to say I agree that this does not solve all the problems of deficit, but it can be an important tool in dealing with a significant contributor to the deficit. It is true, this does not cover entitlements; it does cover only appropriated amounts. But in a budget as big as ours, appropriated amounts are a significant portion.

You do not need to outlaw penicillin simply because it does not cure cancer. It has a very important effect on particular parts of disease, as does this particular measure of line item veto or against rescission authority.

In the last 13 years, $35 billion of rescissions have been sent to Congress and rejected. Had we accepted just half of those, or even less than half, we would not be in a sequester process today. If we would have met the Gramm-Rudman targets, we would not have been cutting across the board every discretionary account, which I submit will bring us back to this floor early next year in an attempt—if we do not deal with it through reconciliation—to respond to howls of protest which will arise across the country relative to the blindfolded way in which we slash across every account, without any discretion in terms of how we do that.

Mr. President, I will close here for the time being with this: I am not going to stand on this floor and single out what I consider to be pork-barrel projects in other Senators' States.

I think it is sufficient to say that we all know how to use the process. We all understand that there are ways in which we can attach spending projects which favor our particular areas, which might not stand the test of open debate.

We all have done this. I have done this. I am guilty. As the Wall Street Journal editorial said, there is to us a darker compulsion to do some things that, I think, deep down we know, in the name of sound fiscal policy and good government, we should not do.

Now, we heard some eloquent and articulate speeches on the floor of this Senate in the reconciliation process by Members of both sides, relative to the process that we had undertaken in reconciliation of attaching page after page after page of items that had no business being attached to that bill.

I think in one of the grander moves of this body, we agreed to strip that bill of those extraneous provisions and use reconciliation for what it was intended to be used for.

I appreciated the statements that were made by a number of Members as they came forward and said, Yes, I am guilty; I have my own special projects in there; I have my special spending, but I do not feel very good about it, and the thing has gotten out of hand, and sometimes we have to draw the line.

I thought that was one of the Senate's higher moments and better moments. My appeal to my colleagues here today is not to outline any particular projects that they do not think deserve the funding.

My appeal is in the name of good government, in the name of sounder fiscal policy, in the name of attempting to redress a decided imbalance that I think exists between the legislative branch and the executive branch in terms of how we deal with our spending, that we enact one tool that will help us, that will give us perhaps some courage and some fortitude not to continue the process we are under.

I fully believe that giving this authority to the executive branch will act as a check on us in the first place and that the appropriations bills that come before us will have fewer what we would describe as pork-barrel projects, fewer items that each of us knows deep down are probably not appropriate for that particular appropriations, simply because we know that the President has the authority to check that and we have to load up that vehicle, which we know the President has to sign or we know is necessary or essential funding for essential projects, with particular spending items that we know could not stand on their own two feet.

I think it is an important test of our commitment. I think the programs that do not stand the light of exposure ought to be subject to rescission, debate, and vote.

Mr. President, I close by asking unanimous consent that a letter, dated October 4, 1989, signed by the President, relative to his support for this provision, as well as an editorial from the Thursday, October 19, 1989, edition of the Wall Street Journal supporting this amendment, as well as a list of organizations supporting the amendment, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE,
Washington, October 4, 1989.

Hon. DAN COATS,
U.S. Senate, Washington, DC.

DEAR DAN: Let me take this opportunity to commend your personal efforts in develop-

ing the Legislative Line-Item Veto Act of 1989 (S. 1553), and to offer you my full and strong support in the push to enact this important legislation.

As you are aware, this legislation offers an important opportunity to reform the budget process by enabling the President to rescind wasteful and unnecessary appropriations and thereby reduce the Federal deficit.

Under current law, an appropriation can be cancelled only through a cumbersome rescission process that has proved to be largely ineffective. The fatal defect in the existing process is that the President's proposed rescissions can be thwarted simply by congressional inaction. And in fact, the vast majority of Presidential rescissions submitted since the present law was enacted in 1974 were never acted upon.

S. 1553 would solve this problem by allowing the President's rescissions to go into effect unless the Congress takes affirmative action to restore the appropriations. This simple but important change in the law will make both the Congress and the President more accountable for the responsible use of the public's money. For that reason, this bill deserves the support of all of us.

With best regards,

Sincerely,

GEORGE BUSH.

[From the Wall Street Journal, Oct. 19, 1989]

BUDGET THERAPY

Watching Congress sweat and grimace through its annual budget labors, fighting the urge to spend more, we're reminded of those late-night movies in which the anguished serial killer turns himself in to police and says, "Stop me before I kill again." The Members know they're doing wrong, but they need help to restrain their darker compulsions.

Arkansas Democrat David Pryor spilled his guts on the Senate floor the other day after he'd joined the Finance Committee's early-morning pork-barrel revels: "I must tell you . . . I come to the floor tonight as one who ended up with a busload of extraneous matter. It was nothing more or nothing less than a feeding frenzy." He was turning himself in.

"Frankly, as I was walking back to get in my car, I heard many, many people . . . opening champagne bottles and celebrating individual victories that some of us had accomplished in getting our little deal in the tax bill and winking at this person for slipping this in," he said. "As I was driving home, I did not feel very good about myself."

We can applaud Mr. Pryor's moment of epiphany, even as we understand that he and his confreres need restraint lest they kill again. A good place to start the rehabilitation is a "legislative line-item veto" bill now being offered by Indiana Senator Dan Coats. The Coats bill, which already has 32 Senate co-sponsors, isn't a pure line-item veto because it would apply only to spending bills. Instead it's a form of "enhanced rescission," giving a President a chance to rescind, or strike, specific spending items that just go too far.

Under the proposal, a President would have a chance twice each year to return a package of "rescissions" to the Hill—once when he proposes his budget and again after Congress disposes. Congress would have 20 days to reject the package with a 50% majority, but then a President could veto that rejection. Congress would then need the usual two-thirds majority to override any veto.

The proposal would restore some discipline erased from the budget process by the 1974 Budget "Reform" Act. Before 1974, a President could "impound," or refuse to spend, funds appropriated by Congress. Presidents Kennedy and Johnson were both big users of the impoundment power, but Congress saw its chance against a weakened President Nixon and stripped it away.

Today a President can still send up spending rescissions, but they're meaningless unless Congress has a guilty conscience and changes its mind. This is like asking foxes to feel remorse about chickens, and naturally rescissions are almost never approved. In 1987, President Reagan sent 73 rescissions back to the Hill, but only 3% of the spending total was approved by Congress. Senator Coats's proposal would let the proposed spending cuts take place automatically unless Congress acts. The Members could still try to serve their constituents with special-interest goodies, but the police (in the form of a President) would be there with a straitjacket if they really get crazy, as they do now.

Mr. Coats plans to offer his proposal as an amendment to a bill to raise the federal debt limit before the end of the month. President Bush has endorsed the idea, and as least 50 sitting Senators have voted to support enhanced rescission authority in the past. We're told Senator Pryor isn't yet a co-sponsor, but if he and his colleagues are serious about kicking their compulsions, they'll sign up.

COALITION FOR FISCAL RESTRAINT,
Washington, DC, October 27, 1989.

Following is the text of a letter endorsed by the attached list of COFIRE member-organizations and sent to members of the United States Senate on October 27, 1989:

"It is apparent to the Coalition for Fiscal Restraint (COFIRE), as well as to most Americans, that the federal budget process is in need of considerable repair to assure more responsible management of the nation's fiscal affairs.

"Those COFIRE member-organizations listed on the attachment believe that the budget process can be improved by placing more of the burden for fiscal restraint on the Executive Branch.

"For this reason, we urge your support of S. 1553 (the Legislative Line Item Veto Act of 1989).

"S. 1553 would amend the Congressional Budget and Impoundment Control Act of 1974 to provide the President with enhanced rescission authority. For your information, a fact sheet on S. 1553 is also attached.

"Frequently expressed concerns over the extension of presidential authority are addressed in the bill by giving Congress the power to reject a presidential rescission by a simple majority vote in both houses with such a rejection then subject to the constitutional veto process.

"Those COFIRE members listed believe this legislation represents a much-needed reform of the budget process, and we urge your support of S. 1553 as an important step toward this end."

The following member-organizations of the Coalition for Fiscal Restraint (COFIRE) support the passage of the Legislative Line Item Veto Act of 1989 (S. 1553):

Aluminum Association;
American Cyanamid Company;
American Farm Bureau Federation;
American Furniture Manufacturers Association;
American Legislative Exchange Council;
American Rental Association;
Americans for Tax Reform;
Amway Corporation;
Armstrong World Industries;
Associated Builders and Contractors;
Chamber of Commerce of the United States;
Citizens Against Government Waste;
Citizens for a Sound Economy;
Commercial Weather Services Association;
Committee for Private Offshore Rescue and Towing;
Consumer Alert;
Entrepreneurs of America;
FMC Corporation;
The Gap, Inc.;
Georgia-Pacific Corporation;
Independent Bakers Association;
International Ice Cream Association;
International Mass Retail Association;
Koch Industries;
Milk Industry Foundation;
National-American Wholesale Grocers' Association;
National Association of Brick Distributors;
National Association of Home Builders;
National Association of Manufacturers;
National Association of Truck Stop Operators;
National Candy Wholesalers Association;
National Federation of Independent Business;
National Grange;
National Independent Dairy-Foods Association;
National Limousine Association;
National Printing Equipment and Supply Association;
National Tax Limitation Committee;
National Taxpayers Union;
NL Industries;
Printing Industries of America;
Recreation Vehicle Industry Association;
Savers and Investors League;
Sears, Roebuck and Co.;
United Bus Owners of America;
U.S. Business and Industrial Council;
U.S. Federation of Small Businesses.

Mr. COATS. Mr. President, I appreciate my colleagues' patience with this. I hope that they understand that a number of us have been trying very hard for several months to bring this bill to the floor, either on a stand-alone basis or as an amendment, that we have agreed on three occasions and deferred to the wishes of the majority leader and the Republican leader to not impede what they considered essential measures that the Senate needed to consider on a very timely basis and that, as we are nearing the end of our session, it was important that we bring this forward, important that it be debated. But then we have no intent of holding up the process, and we have no intent of holding up this particular bill.

I think this can be adequately debated and examined in a relatively reasonable period of time, and there is no reason why we cannot finish on this today and stay right on schedule.

Mr. SARBANES. Mr. President, will the Senator yield for a question?

Mr. COATS. I am happy to yield for a question.

Mr. SARBANES. Under the Senator's proposal, is there any limitation or restraint on the President on how many and what budget authorities he can rescind?

Mr. COATS. The proposal says that the President may rescind any or all of any appropriations sent to him.

Mr. SARBANES. He can rescind anything or part thereof if he chooses; is that correct?

Mr. COATS. That is correct, within 20 days.

Mr. SARBANES. Second, I take it if he makes a rescission and sends it back to Congress and the Congress does not act, that rescission takes effect automatically; is that correct?

Mr. COATS. Mr. President, in response to the Senator, that is correct.

Mr. SARBANES. If the Congress, however, acts and disapproves the recission, in other words, the majority of Members in both bodies disapprove this Presidential rescission, does the recission then take effect?

Mr. COATS. If the Congress passes a resolution of disapproval, it then goes to the President, and the President has 10 days in which to accept or veto that resolution of disapproval.

Mr. SARBANES. In other words, it is not only that the Congress would be pushed to act on a rescission, but, if it acts on a rescission, which I take it by definition represents something that has passed the Congress and is signed into law by the President, otherwise, we would not have anything to rescind, if the Congress then disapproves it, the President can then veto that congressional action?

Mr. COATS. As the President currently has the authority to veto any appropriation, he has the same ability.

Mr. SARBANES. I know. But in this instance, by definition, he has already signed that or there would be no appropriations to rescind. So, in effect, it is not just a congressional disapproval of the rescission, the President could then veto the disapproval by the Congress; is that correct?

Mr. COATS. That is correct.

Mr. SARBANES. Therefore requiring two-thirds vote in order to put it onto place.

Mr. COATS. That is correct. Under the limited time procedures available under this bill, the President has the same veto authority that he now constitutionally has, and any appropriations or rescission subsequent to an appropriation is subject to the President's veto.

Mr. SARBANES. So, it is not merely a congressional disapproval. A disapproval must then either command the support of the President or, if not, I take it, would then come back to the Congress again to be considered in order to try to get a two-thirds vote; is that right? Once again it would come back to the Congress.

Mr. COATS. If the President chose to veto that resolution of disapproval.

Mr. SARBANES. I see. I thank the Senator.

The PRESIDING OFFICER. The Chair recognizes the Senator from Oregon [Mr. HATFIELD].

Mr. HATFIELD. Mr. President, I am not going to be long on this matter because I think we have more important business to consider than this ill-conceived proposal.

Mr. President, I never cease to be amazed at the proclivity of the Congress to do itself in. I simply do not understand why the proponents of this and similar proposals want the House of Representatives and the U.S. Senate to do the following:

No. 1, go through the prolonged consideration of the President's requests in lengthy and often tedious hearings.

No. 2, mark up 13 appropriation bills, open markups at both subcommittee and full committee levels.

No. 3, report these bills to the floor for extended debate and amendment by any Member.

No. 4, take those bills to conference and haggle out the multitudinous details day after day, in some cases.

No. 5, negotiate with the administration all the while and make sure the bills comply with the congressional budget requirements, 302(b) allocations, et cetera.

No. 6, bring back the conference reports to the floor for further debate and possible amendment by any Member on this floor.

And, last, send those bills to the President and ask for his signature.

And then, after each one of these steps where every Member of this body has a right to offer an amendment, challenge the pork, challenge anything they think is wasteful, every step of the way, as well as working with the White House every step of the way, after all of that, after all those opportunities to review the bills, and add this or subtract that, then the proponents of this idea would have the Congress say, when the President proposes to rescind something in a bill he has already signed into law: "Oh, yes, Mr. President; you are so right, Mr. President; how can we have been so stupid, Mr. President; we will correct that right away, Mr. President."

Mr. President, my Republican colleagues, unfortunately, have not read their history when they make this kind of a proposal.

Senator Charles L. McNary, Senator from Oregon, was the Republican leader sitting here in 1937 in this Republican leadership position. The only Republicans we had in the Senate at that time filled these first two rows, only 17. That is all we had on this side of the aisle. The Democrats sat clear across the back of this side of the Chamber in two rows. It was called the "Cherokee strip," and here were those 17 Republicans huddled down here in this part of the Chamber.

I wonder how many of my colleagues would propose giving that kind of power to the President at that time, Mr. Roosevelt.

I am surprised at my colleague from a Western State that would be a party to this. In January 1977, there was a Democratic President by the name of Mr. Carter. The first thing he offered as a major issue following his inauguration was the western water hit list.

Some 21 western water projects he considered wasteful and he asked the Congress to abolish them.

Would any western Senator, with the central Arizona project or with the Bonneville Dam project, have risked the possibility that the President of the United States could have excised those and the only way the Congress could have overridden that after they had voted for that, appropriated them, would be by a two-thirds vote, as the Senator from Maryland pointed out?

From my perspective, if this had been in place, under 8 years of President Reagan when I was fighting the SDI and the MX missile, the nerve gas and all these other things that I consider the ultimate of pork barreling—not many of my colleagues here on this side of the aisle, or a handful, 17 to 21, on that side that gave Mr. Reagan a victory on every one of those projects, coalescing. We had two tie votes on nerve gas in which then-Vice President Bush had to cast the deciding vote in a tie vote. The President could have had all of those things by a much bigger margin.

No, Mr. President, the opportunities to review these bills are in our possession now.

Mr. President, there is no mystery about this deficit. We just do not have the guts to stand up and face the reality that it is income in terms of revenues, and it is outflow in terms of expenditures. And we strain and we stress ourselves into all kinds of contortions and ridiculous positions by going through procedure after procedure after procedure, as if procedure will ever correct that deficit. It will not. Gramm-Rudman-Hollings is not going to correct it.

This is not going to correct it because it takes courage, and you cannot manufacture courage. This is one of the most gutless procedures I have ever seen in my life.

With all of these opportunities for the Members of this body to stand up and challenge the pork, they say, "Oh, I do not want to do that. I want to make the President do that. Then I will keep my head down in the herd and support the President. But I do not have the guts to stand up and challenge the pork. I can talk about it. I can take ads in newspapers and I can talk about pork and all that about

pork, but I really do not want to challenge the Senator from such and such a State, or my old friend who I sit next to, because, really, I think it is pork."

The $180 million in Indiana, there could be those who would say it was pork. The money that we have for the Bonneville Dam, it could be said was pork by some people in this body.

And let me also remind my good friends from the West, no longer does the Interior Committee, now the Energy and Water Committee, control the policy of the western public land States as we did historically. We have just gone through an exercise when the forests of the Northwest, the determination on the future of those forests was being determined not by western Senators, as has historically been the case, but by a national coalition of environmental groups that said we should shut down our forests; those groups that say we should not have projects that impound water, regardless of how many people are moving to Arizona and have to have water to stay alive for industrial uses, municipalities.

It was water impoundment that won the West, Mr. President, not the six-gun. Water impoundment. And today it is increasingly difficult to get any of those projects past the myriad of obstacles of environmental reports and studies and challenges in courts and so forth.

When it gets right down to it, the proponents of this scheme are saying that a willful minority in either House could force the rescisson of funds duly appropriated by a majority of each House and signed into law by the President. The President would find something in an appropriation measure that he did not like and propose its rescission. Having just acted on the funding in the first instance, Congress would have to act on a joint resolution of disapproval, essentially saying, "Yes, indeed, we really did mean to do what we did," and send that joint resolution to the President. He would veto that measure, assuming that he really meant what he said. Then one-third, plus one—one-third, plus one—of either House could sustain the veto and frustrate the will of the majority of the Congress.

Mr. SARBANES. Will the Senator yield on that point?

Mr. HATFIELD. Yes, I will.

Mr. SARBANES. It is one-third of just one of the two Houses, is that not correct,

Mr. HATFIELD. Correct.

Mr. SARBANES. So, in effect, the President and 34 Senators only, or the President and 146 Members of the House, either—not both, either—could make every budget decision to be made, is that not correct, under this procedure?

Mr. HATFIELD. That is correct.

Mr. McCAIN. Will the Senator yield for a question on along that line?

Mr. HATFIELD. Not at this moment. I, too, want to finish my statement.

Mr. President, what is at stake here is simply that we can criticize this proposal and its procedural complexities and its redundancy, but the real issue here—and I have been focusing on my criticism of the proposal—but the real fundamental issue here is the shift in the balance of power between the two branches of Government, namely the legislative and the executive branch. And I believe very strongly that we should not alter the current balance.

After those days when we had basically almost one branch of Government after the New Deal was established with its vast majorities in both the House and the Senate, after the President of the United States attempted to pack the court because he did not like the checks and balance of the court, and we had a docile Congress, we had practically a one-branch Government.

Now, we have today a balance, a good balance between the executive and the legislative. It does not come in every session of the Congress. There are cycles in which our Government moves. But I do not believe it is the time to shift the balance of power between the Congress and the President in order to achieve what is called deficit reduction when we really are not going to achieve it even with this.

What is the largest and fastest-growing element of the Federal budget? Let us get down to fundamentals. We have had the circus, let us get down to the fundamentals. What is the largest and fastest growing part of the budget? The entitlements and mandatory spending. Would this proposal apply to that spending? No. Over 50 percent of this budget today is entitlements. And that has grown 80 percent in the last 9 years. One hundred eighty-one billion dollars for the interest on the national deficit. Would it apply to that? No. That has grown 189 percent.

What about the next piece of that budget, $305 billion for defense? At least in the Reagan years and so far this time in the Bush years, I have not seen much evidence that the Republican administration wants to do much about cutting its budget as it relates to military spending. They are following the old New Deal philosophy, I hate to admit, that the more money you throw at something, the more you solve the problem. That is Roosevelt at his finest of fiscal irresponsibility, and yet we are saying the more money you spend for military, the more defense you buy.

Well, it is not going to be applied there, even to those $50 wrenches and all the other pork barrel that we can show the Pentagon has been guilty of by the character, the inferences and the philosophy of the Republican administration.

Would this proposal enable the President to strike from the tax bills the revenue-losing provisions that occasionally occur? It would not. This proposal would only apply to the funding provided in the appropriations bills and more realistically to the nonmilitary discretionary programs that amount to about $181.3 billion. And of all of the components of the budget, that is the one that has been decreasing.

Mind you, Mr. President, the very part of the budget that has been diminishing is the part of the budget that this would most likely be applied to by the President. This proposal violates the Willy Sutton rule for deficit reduction. It does not go to where the money is, it goes to where the money is not. It is not a deficit reduction tool. It is a political ploy.

Finally, Mr. President, I think we should reflect on our experience with the current rescission procedure under title X of the Budget Act before we fundamentally alter the balance between the two branches and impetuously embrace this ill-conceived proposal.

I asked the General Accounting Office to do a little research in this area, and the results are illuminating. Since the creation of the existing rescission procedure in 1974 the General Accounting Office records a grand total of $56,938,835,000 in rescissions have been proposed by the Presidents who held office during that time.

The Congress has enacted over $19 billion of those proposals and, in addition, has enacted another $31 billion in rescissions, for a grand total of over $50 billion in rescissions enacted into law during that time.

That means Congress has enacted rescissions totaling 88 percent of the amount recommended by the President. That suggests to me, Mr. President, that the Congress is not unresponsive to Presidential requests under the present system. We have not always agreed with the President's specific proposals but the President is not the seat of all wisdom in these matters. The point is to reduce spending by rescinding budget authority available for obligation, and the Congress has done that.

Let us look at this from another point of view. Let us say the Appropriations Committee has not agreed with the President. Any one Member on this floor can force a rescission action by this body. I hope Senators will look at section 1017 of the Budget Act. It provides for a procedure under which any Member of the House or the Senate may introduce a rescission bill incorporating all or part of the President's rescission proposals or entirely new ones. There again, any

Member can get to the so-called pork, if he has the guts to do so, or the courage.

That rescission bill is referred to the Committee on Appropriations. And if it has not been reported with or without amendments after 25 days, it is subject to discharge from the committee. The committee cannot bury it. The committee cannot hide it.

In the Senate the discharge motion must be supported by at least 20 Senators, the motion is privileged, it is not amendable, debate is limited for 1 hour and no motion to reconsider is in order.

Here again, any Senator so concerned about all of this wasteful spending has the power to address the problem, the only needed element is courage. Not another procedure. Not delegating congressional power to the executive. Not saying, "Mr. President, I do not have the courage to stand up and do something. I want you to do it. I want you to get the blame for it. And I will hide here and I will vote as part of that one-third plus one needed to sustain a veto, but that vote will be well, well camouflaged."

"Courage" is the key to the deficit; not another procedure—courage.

Mr. President, I felt in 1985, as we were considering the 1986 budget, that was an example of the ultimate in courage of the Republican Members of this body because we had 50 of the 54 Republican Members vote for a budget resolution that froze all expenditures across the board for 1 year to get control of the deficit. We only had one Democrat vote with us. Fifty-one votes.

That is courage. Because that spending freeze included the hot button items of Social Security, Medicare, all the entitlements, all the mandated spending. It included everything. That was courage.

But what happened the next day? The Republican President torpedoed the package. It was not the Democrats. They certainly exploited the across the board spending freeze in the next campaign. And we have exploited other issues on our side of the aisle. But the point is that it took courage for 50 Republicans out of 54 to stand up and vote for that budget resolution that would have taken us a major step toward correcting the deficit.

That is the element. There is no mystery. Gramm-Rudman-Hollings, enhanced rescissions, line item vetoes—all of these procedures are constantly raised because we do not have the courage to face up to the fact we need more taxes on the one hand, or more revenues such as an oil import tax or something of that kind—we have too few revenues—and we have too many expenditures. And we also do not have control over the entitlements.

I am going to close now. Let us look at this GAO report about rescissions. I think my colleagues would agree President Reagan was the most ferocious, tenacious opponent of Federal spending, in the nondefense spending area, who has come down the pike in a long time. Indeed, of the $56.9 billion that has been proposed for rescission since the implementation of the Budget Act, $43.4 billion of those proposals were made by President Reagan.

How did Congress respond? Here is the GAO report. We enacted $15.7 billion of his proposals, added $28 billion of our own, and came up with a grand total of rescissions enacted by Congress in the Reagan years of $43.7 billion. Congress rescinded more money than President Reagan requested. That is the fundamental bottom line. That is the conclusion of the Government Accounting Office. The Congress in the Reagan years rescinded more money than the President proposed.

So, Mr. President, I really fail to see the point of all this. This proposal would not achieve significant deficit reduction because it does not address the principal causes of the deficit. It attacks only the appropriations process when, in fact, Congress continues to appropriate less money than the President requests.

Let me emphasize that point again. I remember when Senator BYRD was holding the floor one evening and we were getting the same old claptrap about the big spenders in the Congress and the conservative, fiscally responsible Presidents. Senator BYRD recited the fact of history, that 36 at that time—this maybe 4 years ago—36 out of the last 37 years, Congress had appropriated fewer dollars than the Presidents had requested, through Republican and Democratic administrations alike.

If we add another few years to that we will find the record will be, as shown by the Government Accounting Office, the Congress has not been the big spender.

We have had disagreements with the White House. I know as former chairman, of the appropriations bills during my 6 years alone we stopped $60 billion of President Reagan's requests for military spending. We reduced it by that amount. And we reallocated it to meet the needs of people—the poor and the others who were being denied the kind of support their Government owes them.

We know how to shift the budgets around and we can take that responsibility. But in the grand total we appropriated fewer dollars in the Reagan years than President Reagan requested.

So, let us keep that balance, as we should.

I think we have, Mr. President, a system that works pretty well. It is not the appropriations process that is the problem. We are open, aboveboard. We present vulnerability on this floor more than any other committee of this Congress because any amendment proposed by any Senator at any time can delete, can add, can change any of the work of the subcommittees, 13 subcommittees of the Appropriations Committee, the full committee.

Mr. President, I am happy to yield to the Senator from Arizona for a question.

Several Senators addressed the Chair.

Mr. HATFIELD. The Senator asked me to yield for a question a moment ago and I asked him to delay and so now I make myself available.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. I say to my colleague, if it is a question of time, I withdraw my question. There are other speakers, and I do not want to hold them up.

Mr. HATFIELD. Mr. President, I yield the floor.

Several Senators addressed the Chair.

The PRESIDING OFFICER (Mr. BRYAN). The Senator from Arizona [Mr. MCCAIN].

Mr. MCCAIN. Mr. President, I think my colleague from Oregon just gave a very compelling and convincing argument. He made a compelling and convincing argument for the status quo. Obviously, the status quo is satisfactory in his view. He just said this is a system that works pretty well. He said our proposal is ill-conceived, and there are more important things than getting our budget in order to consider "a system that works pretty well." I will have to disagree, and say to all my colleagues the system does not work well. About 48 hours ago, we agreed to extending the debt limit to $3 trillion. I have to say to my friend from Oregon he may think the system works pretty well, but I can assure him that the people I represent not only do not think the system works "pretty well," they think the system is broken, and it is in drastic need of repair. They are appalled and horrified at the prospect of a $3 trillion national debt.

I remind my colleagues, thanks to the Constitution of this United States which gave Congress the power of the purse it is the President who proposes; it is the Congress that disposes. Every single penny of that national debt was just approved by the Congress of the United States.

Our proposal "ill-conceived"? Obviously, my friend from Oregon is in disagreement with the President of the United States. The President of the United States says in a letter dated October 4, 1989, to me:

As you are aware, this legislation offers an important opportunity to reform the budget process by enabling the President to rescind

wasteful and unnecessary appropriations and thereby reduce the Federal deficit.

So I point out to my friend from Oregon, he is in disagreement with this President and the previous President, President Reagan, who has stated that his No. 1 priority in his years of retirement is the enactment of a line-item veto.

Mr. HATFIELD. The Senator is correct in his observation that I have disagreed with the Presidents with regard to the line-item veto.

Mr. McCAIN. I thank the Senator.

I suggest that this proposal is well conceived—I suggest that the system does not work given that we have amassed a $3.3 trillion debt—every penny of that debt being the result of appropriations bills passed by this Congress and entitlement spending—I would say the system works pretty badly. I suggest that the system is broken.

Mr. HATFIELD. Will the Senator yield on that point?

Mr. McCAIN. I am always eager to be educated by my distinguished colleague from Oregon who has an intimate and deep knowledge of this issue and the history surrounding it.

Mr. HATFIELD. Did I understand the Senator to say that all this deficit he recites was due to appropriations bills?

Mr. McCAIN. I clarify my statement: It is due to actions that have been taken by the Congress of the United States which could have this terrible legacy to future generations of Americans who will have to pay this bill one way or the other.

Let me ask this.

Why does not the President of the United States send more rescissions over here to the Congress? Frankly, I am deeply disappointed, as I know other Members of this body are—Members who share my concerns about our fiscal state—that the President does not send over more rescissions. One of the reasons he does not is because he is very sure that very few of them will get acted on—and that is why our bill is designed to force Congress to act if they disapprove of those rescissions. This is, as you know, Mr. President the opposite of current law.

The GAO says that, since 1984, the President has submitted 415 rescissions, totaling $18.4 billion. Congress has enacted only 107 of these rescissions, totaling $400 million. Given this track record, if I were the President of the United States, I would have very little hope that rescissions sent over here under the present system would have an opportunity to succeed.

The Senator from Oregon also talked about the beginning years of the Carter administration where there were Draconian measures proposed to cut many Western water projects.

I say to the Senator from Oregon, I will be glad to have any project that I support withstand the scrutiny of this body. Perhaps there have been projects awarded to my State that are not appropriate and should not have been expended by the taxpayers' dollars. Perhaps that is the case.

Nevertheless, I want to reform the whole system so that will not happen in my State or in any other State because we have an obligation to all Americans to reform a system which is broken, as is evidenced by a $3.1 trillion national debt.

Mr. ARMSTRONG. Mr. President, if the Senator from Arizona will yield for a moment, it appears to me he is on the verge of making a statement. I am eager to hear that. I just want to—even before he makes his complete presentation—congratulate him and the Senator from Indiana for bringing this matter before us. It is obvious to me—it may not be obvious to all Senators but it is obvious to me, and I think it is to the vast majority of people at home—that the Senator from Arizona is right, the system is broken; it is out of kilter.

I do not know how this looks in the various offices and bureaus in Washington, DC, but beyond the beltway, at least in Colorado, Indiana, Arizona, and other places, people think we are nuts. In fact, within the last 2 or 3 days, one of my dearest friends said to me: Why do you guys make all of these pious statements and speeches on the floor of the Senate about how you are going to balance the budget, and the deficit goes further and further out of control?

I think the only answer to that, may I say to my friend from Arizona and my friend from Indiana, is that people should not watch what we say but what we do. The vote on the Coats-McCain amendment, in my opinion, is really an acid test of the determination of Senators of whether or not they want to give somebody the power to bring spending under control. I do not see this—some may think so—I do not see this as a contest of wills, as a legislative branch and executive branch.

I have been a member of this branch of government for a long time. I am proud of it. We have the power of the purse, and we should have. When we fail to exercise that power responsibly, then somebody has to have the right to line out some of these items. As has already been pointed out, that is the way it is done at the State level; that is the way it is done in every corporation. No board of directors would saddle its chief executive with the kind of restraints we put on the President. That was the way it was done by Presidents of the United States from Thomas Jefferson until about 15 years ago.

What the Senator proposes is not unusual, it is not radical. It is, in fact, a thoughtful and moderate response to a very serious problem.

I just rise to applaud what the Senator from Arizona is trying to do and associate myself with it.

Mr. DIXON addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona has the floor. Does he yield to the Senator from Illinois for purposes of a question?

Mr. McCAIN. I would like to respond briefly to the remarks of the Senator from Colorado, and then I would like to yield to the Senator from Illinois without sacrificing my right to the floor, if I may, Mr. President.

Mr. DIXON. Let me say to my friend that I would rather my friend conclude. This Senator would like to be heard on the issue. I am delighted to listen to my friend from Arizona at length and when he has concluded, I would like to be heard.

Mr. McCAIN. Mr. President, I would like to say to the Senator from Colorado, his early efforts, before the Senator from Indiana and I were Members of Congress, on this issue are well known. He has been a leader. He has been a moral compass on fiscal responsibility. We are very grateful for his efforts and his kind remarks. I thank the Senator from Colorado.

I also would like to thank my friend from Indiana whose leadership on this issue has been important. I would say his efforts have also been instrumental in gaining the support of the White House for this line-item veto because I do not believe that without the important and critical support of the President of the United States we would have made the progress we have.

I say to my friend from Illinois, I will try to be brief. I do have some important points to make. I know there are other speakers.

I would also like to say with great respect to the distinguished chairman of the Appropriations Committee, I extend my apologies for holding up the process at this time. I know this is an important piece of legislation, which embodies the hard work of the distinguished chairman and ranking member of the Appropriations Committee.

Mr. President, our line-item veto amendment might be one of the most important we consider.

Urgent consideration of this amendment is appropriate at a time when we have been forced to pass legislation to allow the Government to pile up a national debt of $3 trillion. As my friend from Indiana has indicated, it has the full and strong support of the President and 33 cosigners. Over 40 members of the Coalition for Fiscal Responsibility have also voiced the support of the measure and have worked hard to bring this issue to the public's

attention. I am grateful for their constant and committed efforts.

I ask unanimous consent that a list of these organizations be printed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

COALITION FOR FISCAL RESTRAINT,
Washington, DC, October 27, 1989.

The following member-organizations of the Coalition for Fiscal Restraint (COFIRE) support the passage of the Legislative Line Item Veto Act of 1989 (S. 1553):

Aluminum Association.
American Cyanamid Company.
American Farm Bureau Federation.
American Furniture Manufacturers Association.
American Legislative Exchange Council.
American Rental Association.
Americans for Tax Reform.
Amway Corporation.
Armstrong World Industries.
Associated Builders and Contractors.
Chamber of Commerce of the United States.
Citizens Against Government Waste.
Citizens for a Sound Economy.
Commercial Weather Services Association.
Committee for Private Offshore Rescue and Towing.
Consumer Alert.
Entrepreneurs of America.
FMC Corporation.
The Gap, Inc.
Georgia-Pacific Corporation.
Independent Bakers Association.
International Ice Cream Association.
International Mass Retail Association.
Koch Industries.
Milk Industry Foundation.
National-American Wholesale Grocers' Association.
National Association of Brick Distributors.
National Association of Home Builders.
National Association of Manufacturers.
National Association of Truck Stop Operators.
National Candy Wholesalers Association.
National Federation of Independent Business.
National Grange.
National Independent Dairy-Foods Association.
National Limousine Association.
National Printing Equipment and Supply Association.
National Tax Limitation Committee.
National Taxpayers Union.
NL Industries.
Printing Industries of America.
Recreation Vehicle Industry Association.
Savers and Investors League.
Sears, Roebuck and Co.
United Bus Owners of America.
U.S. Business and Industrial Council.
U.S. Federation of Small Businesses.

Mr. McCAIN. Mr. President, the line-item-veto amendment has been described by my friend from Indiana. I will not repeat that description or indulge in redundancy.

Some Members feel that Republicans would not support the line-item veto for a Democratic President.

Mr. President, that simply is not true. I would support giving any President this authority. If he is out of line, Congress can clearly overturn his rescission.

Mr. President, hard-working taxpayers are tired of having the "tax increase" sword of Damocles hang over their heads every year as Congress goes on its pork-barrel-spending sprees. They are tired of being nickled and dimed with tax increases here and there, instead of spending cuts.

This year the tax increase may be $5 billion; in 1987, it was $9 billion; in 1988 it was $14 billion in new revenues.

Raising taxes is not the answer.

Mr. President, let me remind you the America taxpayer works on the average of 2 hours a day just to pay his or her annual tax bill. Their paychecks from January until May are just enough to cover his or her tax liability, and they will continue to foot the bill for what I view is out-of-control spending. As long as the President lacks a line-item veto.

I will not, as my colleague from Indiana agreed not to do, point out projects which are well known to us. I think that would inflame the debate rather than give it the calm, rational deliberation it needs.

Mr. President, we are spending addicts and we cannot admit it. We need the "line-item veto cure" so we can "just say no" to special interests. Furthermore, we need to enact this bill in order to ensure that we focus on national priorities like the war on drugs, housing for the homeless, and education, instead of some of the other projects which are far less important. Let there be no doubt, Mr. President: Americans know what a line item veto is. Everywhere I go in my State and across this country I talk about the line item veto and without exception I get an enthusiastic reception. In fact, a recent Gallup Poll indicates 70 percent of the American people support the line-item veto.

Mr. President, 43 out of 50 States have managed to grant their chief executive some sort of constitutional line-item veto. Most States had it before the First World War. My State of Arizona adopted it the year it became a State, in 1912.

There is one significant difference between State governments and that of the Federal Government. They balance their budgets and we do not.

Mr. President, if a line item veto is what 70 percent of the American people want, let us defer to their judgment. I strongly urge the rest of my colleagues, if they are serious about combating unnecessary spending and want to prevent facing the Draconian situation of sequestration, to give consideration and support to this pending amendment.

Again, I thank my colleagues for their patience. I thank my colleague from Indiana for his dedication to this task. I yield the floor.

Mr. REID addressed the Chair.

Mr. HUMPHREY addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. HUMPHREY. That was a photo finish, I would observe. Mr. President, out of respect to my colleagues who also desire the floor, I will be brief.

Mr. President, this amendment represents a major initiative to control spending. I support it enthusiastically.

Inasmuch as last night's debt limit legislation increased the Federal statutory debt limit to $3.12 trillion, the time is obviously ripe to move on proposals which would increase the President's power to rescind funds appropriated by Congress. This amendment would allow the President to target specific programs to be rescinded.

Congress would have 20 days from receipt of those proposals to take action to disapprove the rescissions. Failing action, rescissions would go into effect.

A few weeks ago, Time magazine's cover story asked "Is Government Dead?"

The Premier example of a "can't do Government," according to time, is the budget. Quoting the article:

> As the 1990 budget is being crammed into a single 1,376 page package, the White House and [Budget Director Richard] Darman's Office of Management and Budget have joined Congress in a staggeringly cynical conspiracy to mask the actual size of the deficit. OMB says it will be $110 billion, in the next fiscal year, within the Gramm-Rudman-Hollings target zone. But nobody really believes that. At the same time, several long-term big-ticket items have been taken "off budget," including at least $30 billion of the $50 billion for bankrupt savings and loans over the next 3 years * * *.

Further quoting Time:

> Under the shadow of a massive Federal deficit that neither political party is willing to confront, a kind of neurosis of accepted limits has taken hold from one end of Pennsylvania Avenue to the other.

Mr. President, I think few would quarrel with the general premise Time presents, at least with regard to budget matters.

And if there is a "kind of neurosis," as Time describes it, I think it is fair to say that the so-called budget process under which we now operate is surely no cure for the sickness. Indeed, it may very well be a cause.

I do not suggest that the pending amendment will transform a "can't do" Government into an effective institution capable of dealing boldly and decisively with the deficit. It won't do that.

It is a modest step to give the executive the opportunity to identify specific spending items which might not be priorities, and make Congress vote on them. The President can't now identify wasteful or needless spending and be assured of a vote in Congress. If he could, we think it would make a difference.

The legislation is the product of much hard work on the part of many Senators interested in effecting meaningful budget reform. This proposal is also enthusiastically endorsed by the White House. Further, over two-thirds of the American people support giving the President line-item veto authority and we have numerous groups that have consistently backed our efforts.

When Congress created the Budget and Impoundment Control Act of 1974, it established a relatively weak rescission mechanism. The President could propose a rescission—either reducing or eliminating items appropriated—but the rescission would be implemented only if approved by Congress. By sheer inaction, Congress can kill a Presidential rescission request.

As Allen Schick, a scholar familiar with the budget process has said:

> The outcomes of rescissions (and deferrals) proposed since 1975 provide conclusive evidence that the branch that prevails in case of legislative inaction has the upper hand.

This amendment reverses the situation by allowing rescissions to go into effect unless disapproved by Congress.

Congress' track record on approving rescissions has been predictable. Of all the rescissions President Reagan promised from 1983 to 1988, Congress approved a mere 2 percent. Only 7 percent of President Ford's rescissions were approved, and less than 40 percent of President Carter's were approved.

The amount of money involved over the years in rescissions proposed by the President and not approved by Congress is significant. Of $8.6 billion in rescissions proposed by President Ford, Congress rejected $6 billion; Congress rejected $2.1 billion in rescissions proposed by President Carter; and Congress rejected $26.6 billion of President Reagan's rescissions.

Over 13 years, nearly $35 billion of rescissions requested by three President's were rejected—through inaction—by the Congress.

The legislation will put teeth in the rescission process. It is a significant step forward toward budget reform. I urge all Senators to support this amendment.

Mr. President, I congratulate our colleagues from Indiana and Arizona for bringing this matter to the floor. They have been preparing this legislation for months. Its pendency is something that many of us have looked forward to seeing. I support the amendment for this reason. The budget process, if you could even call it that, does not work. It does not work because Members of Congress will not let it work. As the Senator from Oregon said so well, the membership of Congress does not have the guts to make it work.

The measure that the Senators from Indiana and Arizona have presented to us is not a cure-all. It will not cure this very real problem of gutlessness and, may I say, lack of principle to which the Senator from Oregon alluded. It is not a cure-all, but it is a substantial step in the right direction. Yes, at least in my view it somewhat augments the President's power at some cost to the Congress but it is not a significant shift.

The Senator from Oregon, for example, tried to portray the fact that a third of the Senators upholding a President's veto of a resolution rejecting his rejection of certain items of expenditure is somehow extraordinary. Let us recall that a third of the Members of this body can vote to uphold a veto of an entire bill, thus thwarting the majority of both Houses. So there is nothing new in that. There is nothing remarkable about that at all. It happens all the time, a couple times a year. A minority of one House can thwart the majority of both Houses in upholding a Presidential veto. That is nothing new. It has been going on for 200 years.

So I hope Senators will not be persuaded by that argument.

I must say I agree with much of the sentiment expressed by the Senator from Oregon that it is a problem of lack of courage and, in my view, a problem of lack of principle. This measure before us, the Gramm-Rudman law, the Budget Act itself, these things are incapable of overcoming human nature. That is the fundamental problem, human nature.

Congress is a wonderful institution. What mucks things up is human nature, and thus it will always be until and unless we make certain structural reforms such as the one which is now before us, which to some degree combats human nature. It will not change human nature, but by taking it into account and changing the rules just slightly, it will help to combat those flaws of human nature which are responsible for that gutlessness and that lack of principle and in turn for the $3 trillion national debt growing, soaring, the interest costs which are now becoming the most expensive single item in the budget.

Indeed, to address the fundamental matter of human nature and what is fundamentally wrong with this institution, may I just quickly put in a plug for yet another proposal, and that is to limit the terms that Members of Congress can serve. If you want to deal with the fundamental problem of human nature, limit the terms anyone may serve, let us say two 6-year terms in the Senate, six 2-year terms in the House, 12 years, then back out; let in some fresh people; make it impossible that anyone can serve for a full career in this body and then retire.

Under those circumstances, you would see courage, you would see principle, because no one, however clever, could make a career of serving in the House or in the Senate. That is the fundamental problem today; you can make a career of this. If you vote for everything in sight, if you buy off every constituent group, if you offend no one, you can make a career of this. It is a wonderful job; you get all kinds of attention; you can be on television anytime you want to come to the floor; the salary is not bad—we are about to raise it—one of the best retirement systems in the world; all kinds of perquisites; people bow and scrape before you; it is a good deal; people do want to get elected, people will do any gutless, unprincipled thing to get reelected.

That is a fundamental problem. Perhaps that is a speech for another day.

The measure now before us makes a small institutional change that will combat the fundamental problem of human nature which has so badly eroded the procedures in the Congress to the very great detriment to our country.

Mr. President, with all due respect to our colleague from Oregon, whom I admire in so many ways, I could not help but think in the vehemence of his response and his opposition to this measure—and I know he will disagree with me—it is my opinion what we were seeing is the classic reaction of vested power.

The appropriators want their power untouched. It is enormous power they have. There is great competition to serve on the Appropriations Committee. They not only appropriate money that has been authorized, they appropriate money that has not even been authorized.

You talk about doing violence to the procedures; the Appropriations Committee are some of the most violent people toward procedures in this body. I do not mean that to be personal. I am just talking about the facts and the process.

If you look at those who use their position to pack the barrel with pork, the Appropriations Committee members are among the worst offenders—among the worst; not necessarily the worst—but among the worst.

So I cannot help but think—although I know the Senator from Oregon would not agree with me at all—that that is the expectation, the reaction you would expect from some of those who do not want their power touched, and to some degree this proposal would in fact dilute the power of the Appropriations Committee.

Great, I say do it. I say great. Let us change the balance of power slightly. Let us give to the President slightly more power over the budget. Congress has flunked the test. We do not deserve the status quo. We have flunked. We are dunces, we are truants, we are juvenile delinquents with the budget.

Yes, indeed, it makes changes, but they are badly needed. I believe we ought to support it.

Mr. President, I thank the Chair.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia [Mr. BYRD] is recognized.

Mr. BYRD. Mr. President, I can speak for 30 minutes or I can speak for several hours in opposition to this proposal. I can speak for 2 minutes and make a point of order against it. There are some Senators who wish to be accommodated who need to leave town for the evening.

So I did not want to make a point of order while the distinguished Senator from Indiana [Mr. COATS], the author of the amendment, was off the floor. But I am prepared to make that point of order. He can move to waive the point of order if he would like.

Mr. COATS. Mr. President, will the distinguished Senator yield for a question?

Mr. BYRD. I am happy to yield for a question.

Mr. COATS. Mr. President, I am aware of just a handful of Members on our side that wish to speak. I am not aware of anybody who wishes to speak at length.

In fact, only one is now currently on the floor waiting to speak: Senator LOTT. It is possible that we could come to some agreement and wrap this up fairly quickly. I would certainly not object to that.

Obviously, Mr. President, the distinguished Senator has the right to make a point of order at any time.

Mr. BYRD. Mr. President, no one, I think, on this side has spoken on the subject, but I am willing to forgo the opportunity at this point so I can accommodate Senators, maybe the point of order, and get on with other matters.

How much time does the distinguished Senator from Mississippi wish to have?

Mr. LOTT. Mr. President, I think 4 or 5 minutes would probably be adequate for me.

Mr. BYRD. Mr. President, I ask unanimous consent that I may yield to the distinguished Senator from Mississippi for 5 minutes so he may speak, and I am able to retain my right to the floor.

The PRESIDING OFFICER. Is there objection?

Mr. COATS. Reserving the right to object, Mr. President, I have been informed that Senator ROTH would also like to speak, but for no more than 5 minutes. That is the only other request at this time that I have.

I wonder if the Senator will amend his request? And the minority leader apparently also would like 5 minutes—10 minutes.

Mr. BYRD. I am sorry. I certainly would never want to take any action that would prevent those Senators from having the opportunity to speak. I understand that if that many Senators speak for that much time, Senators on this side who have plane reservations would miss the plane reservations or miss the votes.

So I think I will just take my seat and listen, and make my point of order later.

Mr. LOTT addressed the Chair.

The PRESIDING OFFICER. The Senator from Mississippi [Mr. LOTT] is recognized.

Mr. SASSER. Mr. President, will the Senator yield?

Mr. LOTT. I am happy to yield to the Senator from Tennessee.

Mr. SASSER. Mr. President, the amendment pending before us seeks to make a fundamental shift in power from the Congress to the Presidency. For this reason I rise to oppose it.

The amendment seeks to change what happens if no one acts after the President has sent up a rescission. Under current law, the rescission dies after 45 days and the appropriated funds become available. Under the amendment, the rescission would take effect unless Congress stopped it within 20 days.

Under the amendment, to stop a rescission from taking effect, Congress would have to adopt and the President sign a joint resolution disapproving the rescission. Since the President would have just sent up the rescission, he would be highly unlikely to sign the joint resolution of disapproval. Congress would thus need a two-thirds vote of both Houses to pass the joint resolution without the President's signature.

The amendment before us today has dire constitutional implications. If effective, the amendment would give the President the functional equivalent of a line-item veto, without having to pass a constitutional amendment enhancing the President's veto power. The President would in effect be able to take a scalpel to all appropriations bills and cut out what he did not like.

The amendment conflicts with the constitutional principle of separation of powers. Giving the President this power would yield additional legislative powers to an already powerful Executive. The President would be able to direct the writing of legislation under the threat of a rescission anytime he had 34 Senators on his side.

The proposal would also threaten the constitutional principle that the power of the purse—one of the few checks and balances Congress has on the Presidency short of impeachment—is vested in the Congress. The power of the purse is a power that legislatures in the English-speaking world have jealously guarded since the English civil war in the mid-1600's.

In one of the classic statements of the doctrine of checks and balances, Thomas Jefferson once wrote that—

> The powers of government should be so divided and balanced among several bodies of magistracy, as that none could transcend their legal limits, without being effectively checked and restrained by the others.

We must not tinker lightly with this fundamental doctrine of our Government.

As a practical matter this procedure will not balance the budget. After accounting for expenditures required by law—such as interest on the national debt and entitlements—the remaining discretionary expenditures subject to rescission amount to a small portion of the budget. The proposal would apply to appropriations bills, not to authorizations measures, not to revenue proposals.

This matter is clearly within the jurisdiction of the Budget Committee pursuant to the standing order on the referral of budget-related legislation. Although the committee has held a hearing in which Senator COATS testified, the Budget Committee has not marked up the amendment as a bill.

Under section 306 of the Congressional Budget Act, a point of order lies against legislation dealing with matters within the Budget Committee's jurisdiction that the Budget Committee has not reported out. Under section 904(c) of that act, the votes of 60 Senators would be necessary to waive that point of order.

Mr. President, a point of order clearly lies against the Coats amendment under section 306 of the Congressional Budget Act of 1974. I shall support the chairman of the Appropriation Committee when he raises that point of order and should a motion to waive be made I urge Senators to vote against waiving the Budget Act.

Mr. LOTT. Mr. President, I will be very brief because I feel there will be another day when we will debate this same issue, but I did want to rise in support of this legislation.

I am a cosponsor of the amendment introduced by the Senator from Indiana, and I want to commend him for his initiative and his persistence in bringing this matter of the line-item veto and enhanced rescission authority before the Senate. I know he has been wanting to do it for quite some time.

He has taken advantage of this opportunity, as any Senator is entitled to do, to offer this very important piece of legislation, although I would prefer that we do it on some other vehicle.

I think that the Appropriations Committee and the Subcommittee on Transportation have done an excellent job with this bill. Having observed this body over the year, I have learned that any Senator at any time can offer just about any amendment to any bill.

Of course, he is also subject to having a point of order raised or having his amendment tabled.

But I think that the Senator from Indiana is entitled to bring up this issue and we should debate it, and have a vote. Certainly, I am going to vote for his amendment and I am going to continue to speak out for the line-item veto and enhanced rescission authority.

Earlier this afternoon, this was referred to as ill-conceived. It may not be right. It may be right. But I think it is inappropriate to label either the amendment or the Senator offering the amendment as ill-conceived. It is not. It is a very, very serious matter that goes to basic constitutional questions.

Nor is this a partisan issue. There are some Democrats for it, and some Democrats against it. Some Republicans are for it, and I have some good friends who are conservative Republicans that are very much opposed to the concept of the line-item veto.

There is also a question about giving up some of the power of the Congress and turning over more power to the President. As a matter of fact, historically, the pendulum tends to swing back and forth; too much power perhaps in the Supreme Court, then too much for the President, then too much for the Congress. Frankly, right now, I think the Congress is abusing some of its powers in a number of areas.

I was amused at the great concern that was expressed earlier about the way that this line-item veto would work, and the concern about the fact that one-third of one body could sustain a veto.

Hey, is that not the way that Presidential vetoes work? Why is it OK when it might apply to a full appropriations bill, but it is not OK when it is a line-item veto, when the President has sent back the veto? That is the way veto overrides work. So I do not understand the concern there.

I remember when I first came to Washington in 1973 as a Member of the other body. There was a great debate raging about Presidents using impoundment. I was amused at that, too. Presidents had been impounding funds since Thomas Jefferson's time.

All of a sudden, the Congress felt as if the Presidents were abusing their impoundment authority. It was the President at that particular time that caused the Congress so much concern. Can we not admit, can we not acknowledge as Senators, that sometimes we put things in appropriations bills or authorization bills that are not needed? Can we not admit that circumstances change? Why should the President not have that authority? Forty-three Governors have this authority. What is the horror here?

I know we do not want to give up any of our power. We know how the system works. We all have to go one day to the Appropriations Committee and say, "Put in something here or there for me." We also put language in authorization bills. That is fine. I am saying, give the President an opportunity to review that and maybe knock it out with a line-item veto or a rescission.

In the 1973-74 period, we approved the Congressional Budget and Impoundment Control Act. I voted for it because I thought we needed to get a better handle on the budget process even though it took away the President's impoundment authority, basically.

Then there is the process for rescissions. I can remember in meetings that I attended in the House of Representatives in which the distinguished Republican leader, Mr. MICHEL, from Illinois, would ask the appropriators—the President had recommended billions of dollars in rescissions, 73 rescission requests in 1987—"Can we go with any of these rescission requests?" Dead silence. Nothing. Nobody wanted to take up the rescissions that had been recommended by the President of the United States. We approved only 3 percent of the amount requested by the President in 1987, and in the year before that, only 5 percent, and last year probably less than that.

The reason that the Congress has ignored Presidential rescissions, in most instances, under the present rescission process, is because there is no penalty for not following the President's recommendations.

The Coats-McCain amendment will remove that disincentive because there will now be a price to pay. And that price will be that the budget cuts recommended by the President will go into effect unless Congress passes a resolution of disapproval within 20 days.

When I was a Member of the other body, I used to talk about the BOMB, which stands for bloated omnibus money bills, or continuing resolutions. We have already had two CR's this year, and while they have been pretty clean ones we may well be faced with still a third continuing resolution if we do not complete action on the remaining appropriations bills by next Wednesday.

By approving this amendment, we will strengthen the President's hand and at the same time provide ourselves with an incentive to finish our work.

If we do not, and we end up with another continuing resolution, this next continuing resolution may well be a BOMB since we all know that the last train out of the station becomes a Christmas tree, or should I say, a turkey.

Everyone acknowledges that the budget process is not working as intended. Some suggest that we just scrap Gramm-Rudman-Hollings, and start over again. However, I think we should try to reinvigorate the budget process and breathe new life into what has become an annual exercise without real meaning.

So I think we ought to approve the Coats-McCain amendment for the following reasons:

First, we should do everything we can to discourage these omnibus continuing resolutions.

Second, we should give the President a choice so that he does not have to accept everything that Congress tries to ram down his throat.

Presidents are not all-knowing. They make mistakes. I realize that maybe I would have a different attitude at a different time. But I was for the line-item veto when President Carter was President, and I will be for it in the future.

If a President of the other party or of a different political or philosophical persuasion were in the White House, I would want him to have that authority, even though he might whack some of my projects. It is part of the process of trying to get a little better control over the budget, in my opinion.

Let us give the President a choice so that he can cut wasteful spending and exercise the discipline that the Congress itself so often fails to apply.

Let us give the President a choice so that he does not have to veto appropriations bills and shut down Federal Departments and agencies just because he opposes one provision of a bill.

And finally, I ask my colleagues to support the Coats-McCain amendment because it will force us to meet our fiscal responsibilities head on, and will restore an element of accountability and spending discipline to the budget process.

No longer will we be able to duck; no longer will we be able to hide. Instead, we will have to vote up or down on whether to accept or whether to reject the budget cuts recommended by the President.

By our vote on the Coats-McCain amendment, the American people will have a chance to find out how serious the U.S. Senate really is in dealing with our Nation's budget deficit.

I urge my colleagues to vote for the amendment.

The PRESIDING OFFICER. Who seeks recognition?

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Republican leader, Mr. DOLE, is recognized.

Mr. DOLE. Mr. President, I support Senator DAN COATS' legislative line-item veto bill that would give the President a chance to rescind specific spending items.

This proposal is before us due to the fact that the President has been denied item-veto authority so he can carve out what some call boondoggles and pork—those items that would never survive on their own. This proposal also would provide a potent weapon to attack fat in the Federal budget.

It may be, however, that the President already has the item-veto power, and is already able to eliminate the boondoggles and pork. The reason is simple: The Constitution in article I, section 7, clause 3, gives him that power.

From early on in American history, the main field of conservative advance—has been in the arena of legal ideas. Not long ago the leftward momentum in American law seemed unstoppable. When left-liberal ideas prevailed in the political branches, the courts would defer to the legislature.

When the political branches failed to adopt the left-liberal agenda, as they often did, the courts could be persuaded that this was because of some defect in the political process—and unconstitutional under ever-more-nebulous notions of a "living Constitution."

Let anyone suggest that these innovations lack support in the text, structure, or intention of the Constitution, and the answer would swiftly follow: The Constitution has to adapt to changing conditions; it must reflect evolving standards of a just and decent society. The adaptation and evolution, of course, proceeded in only one direction.

If anyone suggested, say, that the rights of contract, or of the unborn, or of a victim of crime, deserve some measure of protection, the indignant cry would go up: "You're attacking the Constitution."

No more. A new generation of scholars and Reagan-appointed jurists is asking questions that were out of bounds just 15 years ago.

In considering this subject of legal controversy, I am raising the question of the inherent power of the President to veto "orders, resolutions, and votes, as well as bills under the Constitution."

I ask that weight that should be given the original intention of the framers of the Constitution, so powerful has been the advance of conservative legal theory that we have seen a virtual reversal of roles in the legal debate.

Now it is the left that cherishes precedent while the right is seeking a new way of doing things.

TRADITIONAL CONSERVATIVE JURISPRUDENCE

Two principles form the heart, the common element, of conservative legal theory. First is commitment to the rule of law. Legal action and decisions must be grounded in neutral principles of general applicability.

Constitutional principles do not change with the political climate; the task of judges, to the extent possible, is to discern that the law is, not to advance their policy preferences. The second principle is a democratic adherence to the consent of the governed. The legitimacy of our laws, including our Constitution, arises from the deliberate decisions of the people, made through their representative institutions, laws, including the Constitution, must therefore be read, to the extent possible, as embodying the intentions of the people who adopted them rather than the opinions of those who hold judicial office today.

Restoring the proper relation between unelected courts and the elected representatives of the people is the foremost concern of traditional legal conservatives, exemplified by Chief Justice William H. Rehnquist. The central question is how to read the Constitution of the United States. Is the Constitution, as some content, an elastic and indefinite document that licenses judges to substitute their social and economic beliefs for the judgment of legislative bodies? Or does it have some fixed, reasonably ascertainable meaning, which constrains both legislatures and judges?

Traditional conservatives contend that the Constitution is principally a framework for democratic decisionmaking and not a blueprint for specific social and economic policies. Outside of a few, well-defined personal liberties set forth in the document, the Constitution allows the people to make public policy through their elected representatives. When the Court ventures into policymaking in the guise of constitutional interpretation, it oversteps the role assigned to it under the Constitution. A Constitution that is viewed as only what the judges say it is, is no longer a Constitution in the true sense.

James Madison, the principal framer of the Constitution, stated that, "If the sense in which the Constitution was accepted and ratified by the Nation is not the guide to expounding it, there can be no security for a faithful exercise of its powers."

Thomas Jefferson wrote that:

> On every question of construction, [we should] carry ourselves back to the time, when the Constitution was adopted; recollect the spirit manifested in the debates; and instead of trying [to find] what meaning may be squeezed out of the text, or invented against it, conform to the probable one, in which it was passed.

The Constitution, like statutes, contracts, and other legal documents, must be read in light of the intentions of those who adopted it. Justice William J. Brennan, Jr., stated in the school prayer cases, decided in 1963, that "the line we must draw between the permissible and the impermissible is one which accords with history and faithfully reflects the understanding of the Founding Fathers."

For some years, however, judges and academics came to disregard the original meaning of the Constitution, in favor of their preferred schools of political, economic, and moral theory.

In 1971, Yale Prof. Robert Bork, wrote an article, "Neutral Principles and Some First Amendment Problems." In it, he questioned the seeming anomaly of judicial supremacy in a democratic society. He noted that, the Courts are authorized to invalidate decisions by the elected representatives of the people if and only if the people have, through the deliberate act of Constitution making, placed certain matters beyond the cognizance of their representatives. The Court's power is therefore legitimate, Bork wrote, "only if it has, and can demonstrate that it has, a valid theory derived from the Constitution." If it merely imposes its own value choices it violates the democratic postulates of the Constitution. If a judge cannot conclude, in good faith, that the people have made a prior constitutional judgment against a given act of the legislature, there is only one alternative: The judge must defer to the legislature and enforce the law.

It cannot matter that the judge believes the law to be unwise, unfair, or oppressive. His job is not to make moral judgments, but to enforce constitutional principles that have been chosen by others.

An honest appraisal of the original meaning of constitutional provisions, many of them drafted and ratified 200 years ago, requires painstaking analysis and legal and historical judgment. It is not a mechanical process.

How are we to interpret a provision when the various framers had opposing views on the issue? How much weight should we give to the framers' opinions or actions on specific applications, as opposed to general meanings of the provisions?

When the Federalist Papers explain that executive officials may not be dismissed without senatorial consent, does that mean that the President cannot fire members of his Cabinet? One cannot assert that the Constitution must be interpreted in light of original meaning, and then retire from the fray.

Perhaps the most important sphere in which the original understanding of the Constitution has been invoked by the Supreme Court over the past 10 years to reverse its prior course has been the area of separation of powers—the way in which the Constitution maintains the mutual independence of the legislative, executive, and judicial branches of government. From the 1930's until recently, the Court had largely disregarded these features of the Constitution, despite the fact

that the framers of the Constitution believed that the separation of powers was the most important element of the constitutional design.

Thus, the Court approved such constitutional doctrines as independent regulatory agencies, had questioned the President's ability to obtain confidential advice from even his closest aides, and had watered down the Constitution's express limitations on judicial power, extending Court jurisdiction beyond actual cases and controversies, cases involving the concrete rights of individuals to include generalized grievances of a political nature. In a most interesting case, a group of law students was given standing to challenge railroad rates for recyclable materials on the theory that the amount of recycling that takes place would indirectly affect their use and enjoyment of the national parks.

Over the past 10 years, the Supreme Court has revived the doctrine of separation of powers in a series of important cases, often quoting at length from the Federalist Papers and other writings that demonstrate the original purpose and meaning of the constitutional provisions at issue. Among the most important were Immigration and Naturalization Service versus Chadha (1983), which invalidated the legislative veto, Buckley versus Valeo (1976), which reaffirmed the President's power to appoint subordinate executive officers, Allen versus Wright (1984), which limited the right of ideological plaintiffs to challenge executive decisions that do not affect their legal rights, and Bowsher versus Synar (1986), which precluded Congress from assuming the power to discharge officials who perform executive functions.

Adherence to original meaning is not only, or even primarily, a doctrine of constitutional interpretation. When courts read statutes, contracts, wills, and similar legal documents it is no less important to interpret them in light of the probable intentions of those who drafted and agreed to them. It is not the business of courts to decide what the law, or the terms of contract or will, ought to be, but to enforce rules and agreements made by others. Judicial disregard for legislative intent has therefore become an important issue in nonconstitutional cases as well.

In today's climate of opinion, however, the issue is far from settled. To quote Justice John Paul Stevens:

> The only problem for me is whether to adhere to an authoritative [judicial] construction of the act that is at odds with my understanding of the actual intent of the authors of the legislation.

Stevens concluded "without hesitation" that he must "answer that question in the affirmative."

Most important constitutional controversies have at least two sides. Conservative advocates may argue for the correctness of their positions, but principled conservatives must be prepared to accept that in some instances they may not prevail. A line-item veto is an example of an excellent idea that is contained in the Constitution which treats as a "bill, order, resolution or vote" as something that can be vetoed in accordance with article I, section 7.

Nonetheless, given the nature of our constitutional heritage, it is no coincidence that advocates of radical social change have more to lose from a jurisprudence of original meaning than those who wish to conserve and affirm the traditional values of the political community.

When Congress first began to tie unrelated items together, the President's right to veto was severely restricted. This has been recognized by a great number of Presidents. The Constitution, however, does not, itself, define what a bill is. As Harvard Law School Prof. Laurence H. Tribe, who has advised several leading Democrats, put in the Los Angeles Times, October 24, 1989:

> The fact that Congress doesn't really know what's in much of what it passes is a fact of political life.

His reaction to the assertion of an inherent line-item veto authority, however, is that:

> The courts would be unlikely to allow the President to so greatly expand his power at Congress expense.

The great need for the item veto is made obvious in the consideration of continuing appropriations bills. The bills teem with pork barrel projects for the Corps of Engineers, the Bureau of Reclamation, and hundreds of other agencies. Taking a closer look at appropriation bills, however, reveals accounts entitled "construction, general" it contains the lump sum of $864.5 million for river and harbor, floor control, shore protection and related projects authorized by law. The paragraph contains some earmarkings of funds for a project in New Jersey, another in Kentucky and a few others, all of which add up to $32.8 million. The remaining $831.7 million, however, is not to be spent on anything the President wants. No, it is to be spent on projects authorized by law and the projects identified in the conference report.

The report explains that the lump sum of $864 millions is to be allocated to the specific projects listed on pages 19 to 22 of the report. The projects are listed State by State. Here is where you find the items: $25,000 for Kake Harbor in Alaska, $200,000 for Lytle and Warm Creeks in California, $25,000 for Jonesport Harbor in Maine and so forth. Those items are not in the appropriations bill, however, and could not be eliminated by an item veto. The item veto functions at the State level because items are included in the bills presented to the Governor. Should Congress pattern itself after the States by restoring to line-itemization?

The results may not be all that attractive. Agency officials want the latitude and flexibility that accompany lump-sum funding. Members of Congress do not want the details frozen into public law either. The only way to adjust statutory details in the event of unexpected developments is to pass another public law, amending the first, and neither branch wants that rigidity.

Congress has enough problems passing public laws. For decades, Congress and the agencies have worked out a reasonable compromise. Funds are appropriated in lump-sum amounts to give officials some discretion and this is exercised throughout the fiscal year. In moving money around within these large accounts, the agencies are required in some cases to report to congressional committees and obtain their approval on reprogrammings. It is a workable system, but would be totally disrupted by locking specific amounts into public law. The President's regular veto power has been diluted because Congress passes omnibus measures instead of individual appropriations bills. The nightmare of monstrous continuing resolutions packing hundreds of billions of dollars of spending into one bill must be stopped. These massive bills inevitably handcuff the President. The framers undoubtedly anticipated that Congress would provide funds by passing separate appropriations bills for discrete programs or activities, rather than omnibus bills encompassing a variety of related and unrelated matters. Until about the time of the Civil War, congressional practice was in accordance with this expectation. Presidents were thus able to sign or veto appropriations bills based upon the merits of the programs being funded and the need for the particular amounts. However, it should be pointed out that the first appropriation bill passed in 1789 was an omnibus measure, containing all funds for civilian and military programs. The same kind of bills passed in 1790 and 1791.

The Members of the first Congress contained many of the framers who had participated in the Philadelphia Convention. Later Congresses, as in 1814, passed three separate appropriations bills—for the Army, the Navy and the civilian establishment—but even these were more of an omnibus nature than the 13 appropriations bills passed today. Granting the President an item veto is a legitimate goal, but the issue should not be obscured and confused by a misreading of history. Legally, experts on both sides of the issue say, the President's chances of success are 50-50. It would be an impressive move if President Bush tried to assert the power, but it's hard to

say whether the courts would uphold him, and it may be too late now to persuade the courts to change the status quo. What is clear, however, is that only if the President exercises his powers under the Constitution can they be tested in the courts. President Bush has proposed to do just this. I support him.

The PRESIDING OFFICER. The Senator from Delaware [Mr. ROTH] is recognized.

Mr. ROTH. Mr. President, I rise to express my support for the amendment being offered today by the Senator from Indiana to provide the President with line-item veto authority. I first want to commend the Senator from Indiana for pursuing this very important legislation. His diligence and leadership in pursuing the line-item veto power during this session has helped bring the issue to the forefront of the Senate.

As one who led the debate in 1974 to provide the President with greater authority to rescind unnecessary funding, I believe this type of legislation is more necessary than ever.

It is clear that our present efforts to significantly reduce the deficit have failed. This is made all the more clear as we recently passed an extension of the debt limit to $3 trillion. If ever there was a time for spending restraint, now is it.

Mr. President, I believe this legislation is necessary to break a pattern of budget deficits and spending growth beyond our means. Between 1980 and 1988 Federal revenues jumped 76 percent. Federal spending grew at even a faster rate. The source of our deficit is not that America is undertaxed, but that the Federal Government spends too much. It is critical that we restrain spending growth. And I strongly believe that we should provide the President with this authority if other means fail to cut the deficit.

In his budget message to Congress, President Bush expressed his support for line-item veto authority. While the President can now rescind spending, this authority is quite limited. Under the present process, Congress can simply reject the President's rescissions by inaction. Unfortunately, this allows the Congress to easily disregard the President's efforts.

Since the Budget Act was enacted, all too many times the Congress has used inaction to block the President's rescissions. I believe the President is entitled to an up-or-down vote by Congress. This is the minimum we must do in the quest for fiscal responsibility. And this is precisely what this legislation does.

I support line-item veto authority for the President. I urge my colleagues to support the amendment of the Senator from Indiana and urge its adoption.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

Mr. THURMOND. Mr. President, we have not balanced the budget in this country but once in the past 27 years. We cannot go on like we are doing. The debt has risen now to almost $3 trillion. The interest on this debt alone is about $170 billion. In my judgment if we are going to keep this budget balanced we have to do two things:

First, we have to pass a constitutional amendment to mandate a balanced budget. The Congress has now shown the fortitude to do this. We have to pass a constitutional amendment to make the Congress balance the budget.

The next thing we must do is enact a line-item veto. The amendment to this bill today is the same bill, I understand, as S. 1553, and that has the effect of enhanced rescission authority, which is equivalent to a line-item veto.

In my opinion we need to give the President this authority. This is not a partisan matter. It is not a Democratic matter; it is not a Republican matter. Regardless of who is President—a Democrat, Republican, or independent—they ought to have this authority. As Governor of South Carolina I had this authority, and I used that authority. Forty-two Governors today have this authority. The President ought to have it, of all people.

There is no question in my mind that special interests get items in the appropriations bills that should not be there. There is no question in my mind that items creep in somehow, in some way, that are not best for the public. There is no question in my mind that a lot of items in the appropriations bills could be eliminated. Some are duplicates and some have gotten in through various means. There should be some way that someone can stop spending this money, and the only one I know who can do it after the Congress acts, of course, is the President.

Mr. President, I feel very strongly that we ought to adopt this amendment. Let us give line item veto authority to the President. At the present we have a Republican President. We will have Democratic Presidents in the future, I am sure, sometime. Regardless of who the President is, he ought to have the power to exercise a process here that will save the people millions and millions of dollars. In fact, it could save billions of dollars in a few years.

As I have said, we have incurred this big debt. And the Congress has not shown the fortitude to stop spending. They still have not shown it. Therefore, we must have someone who has the courage to do it and the will to do it and who is willing to balance this budget.

Mr. President, it is not fair for us to spend, spend, spend, and put this debt on the next generation. And that is what we are doing. We are piling a heavy debt on the young people of this country. That is one reason I think the young people today are so interested in what we are doing in Congress, more than at any time I can think of in the past, because they see what is happening to them.

They are going to have to assume this debt, this $3 trillion, unless we take care of it soon and pay the interest on it. Young people are going to have to do it. Future generations are going to have to do it.

It is not fair. I think every generation ought to pay its own way as they go. We are not doing that. And if we are not going to do it, there ought to be some way somebody can force us to do it. Whether it is a Republican or Democratic President, let us give him the authority to keep this budget balanced. Let us give him the authority to eliminate these items that should not be in the appropriations bills—these items that are piling this debt on the young people in the future. Let us give him that authority. I think it would be a blessing to this country.

Mr. President, I hope this amendment will pass. I think it is vital. Frankly, I do not see how anybody would want to oppose this amendment because it is best for the country. It is best to bring about a balanced budget. It is best for the economy of this country.

Mr. President, I hope the Congress will see fit to act, and act today, and pass this line-item veto.

Mr. NICKLES. Mr. President, I do not know if the chairman of the Appropriations Committee wanted to speak. I just have a few general comments, but if he is seeking the floor.

Mr. BYRD. Mr. President, I wish to thank the distinguished Senator for his generous offer, but I will be very happy to wait.

Mr. NICKLES. Mr. President, I wish to compliment and congratulate my colleague Senator THURMOND from South Carolina for the speech that he has just made. I also wish to compliment my colleague, Senator COATS from Indiana, for this amendment today. We need this amendment to pass.

This may not be the right vehicle, and I will acknowledge that. But I will say that we need a line-item veto. Forty-three Governors have a line-item veto and the President of the United States does not. As Senator DOLE indicated, possibly he does under the Constitution and it has never been exercised. I hope this may test it so we will find out, but it has not be done yet and it may not be done this year.

That remains to be seen. We need to give the President the authority, the opportunity to be able to take out a lot of extraneous measures with a so-called line-item veto.

I think that the amendment of the Senator from Indiana does a great service, but it only deals with appropriations bills. I think we should also go further, and when we have omnibus bills that contain maybe as many as 20 or 30 or 50 bills in some cases— I think the crime control bill had as many as 60 or more separate bills packaged together—I think the President should have the opportunity to break those up individually and be able to sign or veto them separately.

Instead, Congress is getting to the point many times where—we actually have one appropriation for 2 years. We put it all in one big continuing resolution and send that to the President and say, "Sign it all or veto it all."

That is abuse in my opinion of congressional power. That is not the way the system works. We are not supposed to send the President a bill this big, $600 billion large, and say sign it all or veto it all. That is irresponsible in my opinion on the part of the Congress. That is not checks and balances. That is Congress holding all the checks, putting it in one big package and telling the President, "Take it all or leave it."

That is not a very good opportunity. That is not the way to have fiscal management. Anyone here that has been in the private sector, and certainly anyone in dealing with their households, knows you have to make individual decisions.

We have enough trouble. Even by having just 13 bills. We had the Department of Defense, it was $300 billion; we had Labor-HHS, it was $156 billion; and on and on. The HUD bill was something like $6 billion—it had HUD and VA and so on. There were a lot of different things in these bills, some of which were only appropriated amounts, but some of them are separate legislative items which may not even have a dollar amount. We often have a bill on appropriations that has legislative language inserted. Many of us have done it. Probably there are not too many people in the Chamber that have not inserted legislation on appropriation bills. The President should have the opportunity to sign or veto that legislation in addition to just the appropriated amount. He should have that opportunity. We have not given him that opportunity.

So again I want to compliment my colleague, Senator COATS, from Indiana, for his persistence, for his dedication, for his commitment to see that this is brought forward to a vote on the Senate floor. I am hopeful that we will have a good vote and that we will have at least some budget reform in the future that would encompass some of the Senator's proposals. We need budget reform. The budget process right now is broken and one of the best things that we could do would be to give the President the line-item veto. I hope that we will pass the Senator's amendment.

Mr. WILSON addressed the Chair.

The PRESIDING OFFICER. The Senator from California [Mr. WILSON], is recognized.

Mr. WILSON. Mr. President, much has been said and said well already. Let me just say that I think it probably must baffle a number of people, as the Congress routinely passes an extension of the debt limit—and this time one that puts our national debt ceiling above $3 trillion—they must be baffled as to how it is that State legislatures, city councils, boards of supervisors, all seem to be able to manage to live within their income, balancing revenue and expenditure, and somehow the Congress is unable to do so, historically unable to do so. And each year, before their unhappy eyes the taxpayers see amounting national debt.

I suggest that the reason is not so deeply sophisticated and mystifying as to defy analysis. It is really rather simple. In those States that manage to live within their income, manage each year to balance their budgets, it is because they are under a constitutional compulsion to do so. There is a provision in their State constitutions, in their city charters, that says they may not spend more than they take in in revenue. The result is that they do not. And the result is that they do not have mounting debt as we do that has now approached the point where, to paraphrase my friend from South Carolina, we are mortgaging our children's future. We have, in the form of the national debt, one of the very largest items of Federal expenditure because of the necessity to pay interest upon this mount of debt, this $3 trillion.

Mr. President, in those States that have that kind of a constitutional compulsion to live within a balanced budget, the Chief Executive is afforded a very useful tool—a line-item veto. Now, why is that? Well, very simply because in those legislatures, much as in the Halls of Congress, there is a very great difficulty in coming to a collective consensus on priorities. It is because we all have a different set of priorities. And those difficult, late night meetings that are supposed to produce consensus too often reach consensus by agreeing that we will spend for everything, all those good ideas. We do not cut as we perhaps should and as they do in the State legislatures because they are required by law or by constitution to do so. Instead, the consensus that we reach historically has been to spend more than we took in. We do not have balanced budget provision in the Constitution of the United States. And years after he had participated in drafting much of it, Thomas Jefferson said that was one egregious error that we had made, leaving it out.

Well, the fact is at the very least we should afford to the President, as the chief executive—the only one of us who was elected by all of the people of the United States, whose program and platform reflects a consensus nationally—the opportunity, with a very sharp scalpel or a blue pencil, to take out those things which in fact are not in his judgment a priority, those things that do not make the cut among the competing goods that we are asked to finance.

For those who are concerned that such a power would give to the President the ability to abuse the power and to, in effect, blackmail individual legislators, that is a legitimate concern, I suppose. On the other hand, I think the experience in those State legislatures where it does exist is that that power has not been terribly abused. And, very frankly, Mr. President, I am more concerned about rights of the taxpayers than I am about whether or not an individual legislator will be blackmailed on his particular pet project.

It seems in this particular vehicle there has been a very good compromise made because the legislation offered by Senators COATS and MCCAIN would address this problem by requiring Congress to cast an up-or-down vote within a specified 20-day period on all of a President's requested rescissions or, to put it another way, line-item vetoes.

In that regard, an individual legislator cannot be alone against the world and against the President of the United States. He will be in great company. He will be lined up with all those other legislators who have suffered line-item vetoes.

It strikes me this is a very good compromise and that addresses that concern that has been articulated by the opponents of the line-item veto for that reason.

So, Mr. President, let us at the very least, since we do not have a balanced budget amendment or provision in the Constitution of the United States, give to the President an enhanced rescission capability, a line-item veto, if you wish to call it that, that will give him the kind of tool necessary when he is faced—as he has been several times during my brief tenure in the Senate—with a massive spending bill, an all-or-nothing, take-it-or-leave-it continuing resolution which in one instance weighed about 30 pounds. I am sure we all recall President Reagan dropping it with dramatic effect upon a desk that shuddered in consequence of receiving that burden.

Even when the process works correctly, Mr. President, the President of the United States has only 13 separate opportunities. It seems to me he should have a sharper scapel, that he should not have to veto an entire spending bill for several agencies when, in fact, what he seeks to do is to eliminate lesser priorities which he could, by enhanced rescission, without totally sending back the measure to Congress. That is what we should give him. He needs it because the American people deserve it. That is what is at stake here.

This is a very sound compromise. We can argue this is not the right vehicle. Mr. President, it is never the right vehicle. This is as good a time as any and perhaps better than most, following, as it does, so closely upon an exercise in Congress of responsibility, having said we will pay our bills, having already spent the money, in increasing that national debt ceiling to over $3 trillion.

Mr. President, I yield the floor.

Mr. BOND. Mr. President, I am pleased to join with my colleagues Senators McCAIN and COATS in offering this amendment today. As one of the former governors serving in the Senate, I have very strong feelings on the issues of line-item veto and rescission authorities. I have used both, and I know they work.

Mr. President, too often this debate bogs down in the morass of executive versus legislative power. Some in Congress, not wanting to give up any authority, see the line-item veto as a direct attack on their ability to govern, and heels are immediately dug in.

Unfortunately, good government and common sense get lost in the shuffle.

The proposal we have before us today is a straightforward attempt to inject a bit of discipline and common sense into a process gone astray—and should not be seen as some plot to usurp authorities and powers.

In fact, in the early 1980's the Missouri State legislature included several million dollars for the construction of a new Harry S Truman office building for the State government. Then Gov. Joe Teasdale line-item-vetoed this provision, arguing it was unnecessary pork.

However, not too many days later the legislature enthusiastically overrode his veto, and construction was then completed during my second term. Clearly the legislature was not cowed by the Governor's veto power, and I cannot believe we would be either.

Mr. President, unfortunately we do not seem to see how far out of touch our so-called budget process has become. The battles over the reconciliation bill is only one example of how far we have gone in perverting the rules in order to find that little edge. If you were to try and explain to the American people how a bill—designed to reduce the deficit—becomes instead the favorite vehicle for those who wish to increase spending, why you would have a very tough time of it.

But that is what reconciliation has become. A spending cut here, a tax increase there, then a tax cut along with a new entitlement—and all of a sudden the focus of reconciliation isn't the tough deficit reduction choices, but it is child care, catastrophic health care, section 89, Medicaid expansions, and expiring provisions.

And we wonder why the folks back home do not believe us when we say we are doing everything we can to reduce the deficit.

Mr. President, the wags are right when they say Congress is starting to look like a State legislature—we cram all of our work into a few months and then pass only a couple of omnibus bills a year. All because Members are looking for a vehicle for provisions could not make it of their own accord.

When I became interested in the line-item veto, I went to various Missourians to ask for their views. In particular former Missouri Congressman Richard Bolling comments still stick out in my mind. Congressman Bolling was a congressional leader in the effort to reform the budget process, and when I asked him about the line-item veto, he thought about it for a bit and then noted that anything which brought sunshine to appropriations bills was a good thing, because too many little goodies were included every year.

This seemed like such good sense that I am not in the least bit surprised that years later Congress still refuses to enact it.

Thus I believe it is long past time to follow Dick Bolling's advice and take another step toward fiscal sanity.

Perhaps I will have a provision vetoed by the President some day—but I am certainly willing to take the chance, because like Representative Bolling, I believe the more light we allow into the process, the better off we will all be.

The Senate's action in stripping our reconciliation bill was a small first step, now let us build on that and pass this amendment today.

Mr. KASTEN. Mr. President, I rise in support of the Coats-McCain amendment to grant the President a limited form of line-item veto authority. This amendment would inject a much-needed dose of fiscal discipline in the budget process—and help us achieve the goal of a balanced budget by 1993.

Although the Gramm-Rudman deficit-cutting law has forced Congress to restrain the fiscal excesses of the past, the budget process is still biased toward higher spending. Throughout most of the history of the Republic, the President and the Congress were equal partners when it came to the expenditure of public funds.

The Constitution of 1787 empowered the President to veto spending bills passed by Congress. However, the boundaries of Presidential discretion over the expenditure of appropriated funds were not clearly defined by the Constitution's framers. From 1789 until the collapse of the Nixon Presidency, the President retained the power to "impound"—refuse to spend—money appropriated by Congress. Congress had no formal power to overturn this action. Presidents exercised this impoundment power—along with the veto—to check Congress' tendency to overspend. For example, Presidents Kennedy and Johnson used impoundments to reduce projected congressional spending by 6 percent and 5.4 percent during their respective administrations. For the most part, Congress grudgingly assented to these impoundments.

President Nixon pushed impoundment powers to their outer limits by reducing and terminating Federal programs against the explicit wishes of Congress. In response to Nixon's alleged abuse of his impoundment authority, Congress passed the Congressional Budget and Impoundment Control Act of 1974. This act eliminated the Presidential prerogative of impoundment and replaced it with weaker substitutes. The 1974 Budget Act also overhauled the entire budget process to promote planning and coordination in fiscal policy by creating the Congressional Budget Office and the House and Senate Budget Committees, which were charged with developing an overall budget plan that would serve as a guide for the Appropriations Committees of each Chamber.

The 1974 Budget Act has not worked well. Since 1974, Federal spending has almost quadrupled, from $269 billion to over $1 trillion. According to Dr. William Orzechowski, an economist with the U.S. Chamber of Commerce, congressional spending has surpassed its own budget resolutions by an average of $25 billion per year. Congress has exceeded its deficit goals over the same period by an average of $48 billion.

The 1974 Budget Act concentrated budget power in the Congress by severely limiting Presidential impoundments. In effect, the 1974 Budget Act removed any effective external check on Congress' tendency to overspend. Congressional use of multibillion dollar omnibus appropriations bills has further diluted the President's control over Federal spending. The unseemly combination of omnibus appropriations and restricted presidential impoundments has been an underlying

cause of the growth in Federal spending and deficits.

It is unlikely that the Founding Fathers envisioned the use of a single multibillion-dollar continuing resolution containing literally hundreds of spending programs, projects, and activities. The President's constitutional right to veto is not always practical because it requires him to reject necessary funding for a whole range of programs in an effort to cut wasteful spending in a few. Consequently, Presidents are reluctant to veto massive continuing resolutions that contain spending programs that would never pass on their own merits if voted on separately. In effect, the President's constitutional veto authority has been severely impaired.

Mr. President, I believe the legislative line-item veto would restore a lost Presidential prerogative, not create a new one. It would restore some of the balance of power between the executive and legislative branches in budget matters and mitigate the congressional bias toward higher spending.

I recognize that the legislative line-item veto is not a panacea to our budgetary ills. It will not guarantee a balanced Federal budget. However, I believe that it does give us one more weapon in the war against deficit spending.

A vote for the Coats-McCain amendment is a vote for fiscal responsibility. I yield the floor.

Mr. BURNS. Mr. President, I want to first thank Senator COATS and Senator MCCAIN for their leadership on this issue. I am pleased to be an original cosponsor of this amendment and their bill to establish an accountability process for congressional spending. It is called the legislative line-item veto.

This legislation allows the President to send up rescissions at the beginning of each fiscal year and for each appropriations bill which will go into effect unless Congress acts to stop them. As it currently stands, the President can submit rescissions, but they die when Congress fails to act. And Congress has failed to act 96 percent of the time since 1986.

We speak often of the broken budget process around here. The fact that we have failed to meet deadlines and, in many people's estimation, deficit targets for the last 3 years illustrates the fact that we need some additional tools. I view the legislative line-item veto as one of the most important tools because it does what Congress lacks the will to do—cut spending.

I recently saw a paper put out by the Committee for Economic Development called, "Battling America's Budget Deficits." The Committee for Economic Development is a group of presidents or board chairmen of corporations and presidents of universities. They came up with some suggestions on how Congress could get the deficit under control—some with which I agree and others which I don't.

What caught my attention most in this paper was one of the premises in their call for action. They state that:

> The case for reducing the Federal budget deficit is well understood within the Government. The problem is not the economic realties, but shortsighted political objectives, ideological divisions, and arguments about who should bear the pain—what is needed in these circumstances is political leadership to overcome the demands of narrow interest groups and short-term priorities of public officials and their constituents.

When I read that I thought to myself, that's a good suggestion, but it disregards the nature of the beast. The beast is Congress.

In my opinion, the legislative line-item veto is the weapon needed to overcome the beast. It gives someone who is outside the special interest reach of specific constituencies—the President—the authority to rescind spending. Or as the Wall Street Journal editorial in support of this legislative proposal on Friday, October 20, 1989, pointed out:

> The members could still try to serve their constituents with special-interest goodies, but the police (in the form of a president) would be there with a straitjacket if they really get crazy, as they do now.

The passage of the legislative line-item veto would being the Federal Government in line with the 43 States which already grant their Governors line-item veto power. It would be one giant step toward the fiscal accountability expected, and called for, by the American people. I urge my colleagues to support this important amendment.

Mr. LEVIN. Mr. President, I oppose the amendment offered by Senator COATS to give the President a line-item veto. I do this for two reasons.

First, the supporters of this amendment claim that this is a vital tool in the battle to reduce the deficit. I disagree. But, don't take my word for it. Let me quote OMB Director Richard Darman's words of about a month ago: The line-item veto "is not going to solve our deficit problem in the short term. In fact, it wouldn't even solve it in the long term. We need to do more fundamental things."

Or let's look to the actions of OMB Director Jim Miller during the Reagan administration. In following up on President Reagan's claim that the line-item veto would give him a powerful weapon on the war on the deficit, Jim Miller compiled a list of programs or projects that the President would have exercised the line-item veto in order to eliminate. However, the actual arithmetic contracted the alleged deficit reduction power of the line-item veto. According to OMB Director Miller's own numbers, almost 98 percent of the Federal deficit would have remained after the President line-item vetoed all of the projects to which he objected.

So, the line-item veto is a shadow of substantial deficit reduction and not the substance of it. But, I oppose the line-item veto for another reason as well. It represents a shift of power to the executive branch which should not be granted regardless of which political party is in control of it. Giving any President such power would enable him to threaten to veto projects of great importance to States or districts of Members of Congress unless those Members surrendered to the President's wishes on unrelated pieces of legislation. As a result, a Member of Congress could be inappropriately pressured to sacrifice the best interests of constituents.

We are in the bicentennial year of the Congress and not all that far beyond the bicentennial year of our independence. It is appropriate that we consider the debate on this amendment in that context. It is important that we remember the suspicion and the experience of overreaching Executive power which led to the fighting of that Revolution and to the drafting of the Constitution which established this Congress. Giving the President a line-item veto would require that we forget all of that in exchange for little more than a symbolic tool for substantial deficit reduction. For these reasons, I will vote against waiving the Budget Act with respect to the Coats amendment.

Mr. GRASSLEY. Mr. President, I commend the Senator from Indiana for bringing forth the line-item veto amendment.

The Presidential veto power was once described by Alexander Hamilton as "a salutory check upon the legislative body, calculated to guard against the effects of faction, or any impulse unfriendly to the public good. * * * " Hamilton was right 200 years ago and indeed, in these times of fiscal restraint and budget reform, a salutory check on the budget process is even more critical.

Today, the Federal budget process is in turmoil. Under current law, the President sends up his recommended cuts to Congress. But these recommendations are termed "dead on arrival" in Congress.

Congress seems to have developed an interesting budget process. First, Congress bunches all appropriations into a continuing resolution or an omnibus spending bill. Then, this trillion-dollar catch-all measure is amended and passed at the 11th hour of the legislative session. Tucked away in this trillion-dollar legislation are a variety of pork-barrel items that are barely detectable by the human eye. Further, this undisciplined practice increases the opportunity for a committee or subcommittee chair to include an item

that may not otherwise pass Congress on its own merit. In 1988, the spending measure weighed 43 pounds and consisted of 3,296 pages. This year's reconciliation bill was a 1,878-page monster.

When the continuing resolution or omnibus spending bill reaches the President, he must choose to accept all of it or reject all of it. This is not much of a choice: Accept the budget no matter what it includes, or shut down the Government.

The line-item veto would give the President the opportunity to veto items he believes are inappropriate. The line-item veto would ensure that congressional spending practices are responsible, and will restore some much needed discipline to congressional spending habits.

Some will argue that the line-item veto would give the President the ultimate check on congressional actions. But we know that Congress would still retain the final word. Congress still has the power to override any line-item veto. Rather, what the line-item veto does is inject much-needed and long-overdue accountability into the process.

It is the only solution for the branch of Government that can't say "No."

Mr. SIMPSON. Mr. President, I rise in support of Senator COATS' and Senator MCCAIN's proposal to allow the President to rescind budget authority, by use of a line-item veto.

Currently the President has the authority to request a rescission of a spending provision authorized by Congress.

However, before the President's request to reduce spending may become effective, Congress must take affirmative action and pass an approval resolution.

As an illustration of how ineffective this process is—consider that for the last 13 years, Presidents have proposed nearly $35 billion in rescissions, while the Congress has rejected all of them through inaction.

The legislative Line-Item Veto Act of 1989 would reverse this trend by requiring Congress to pass a disapproval resolution in order to stop the rescission from becoming effective.

Congress has repeatedly demonstrated the institutional inability to say no to special interest spending which has driven the statutory public debt limit to $3.12 trillion.

The amendment offered by my colleagues is but one step in the right direction of budget reform. I commend their efforts in bringing this issue to the floor.

The PRESIDING OFFICER (Mr. ROCKEFELLER). The majority leader.

UNANIMOUS-CONSENT REQUEST

Mr. MITCHELL. Mr. President, I understand momentarily the chairman of the Appropriations Committee will make a point of order, that the Senator from Indiana will make a motion to waive the Budget Act with respect to the pending amendment. I accordingly ask unanimous consent that the vote on that motion to waive occur at 5:15 p.m. this evening.

The PRESIDING OFFICER. Is there objection?

The Senator from Arkansas.

Mr. BUMPERS. Mr. President, reserving the right to object, I have come to the floor for two or three times this afternoon waiting for a time to speak on this and deliver one of my traditional barn-burning speeches in opposition. I assume both the chairman of the Appropriations Committee and the distinguished majority leader wish to speak in opposition to it, also.

Mr. MITCHELL. The chairman of the Appropriations Committee and myself are strongly opposed to the motion to waive, but we are attempting to accommodate the interests of a number of Senators, some coming, some going, and resolve this issue as promptly as possible so we can proceed to other matters.

I ask whether the Senator from Arkansas would forbear, either take the opportunity later to make remarks or place a statement in the RECORD?

Mr. BUMPERS. Mr. President, I would like to have 5 minutes at least reserved before the vote.

Mr. MITCHELL. The chairman of the Appropriations Committee has graciously not used his time so almost all the time, as I understand it, has been used by opponents of the amendment.

Why do I not suggest the Senator from Arkansas be recognized for 5 minutes, and the chairman of the Appropriations Committee be recognized for 5 minutes?

Mr. COATS. Mr. Leader, I wonder if I could be reserved for just 2 minutes to wrap up before the vote?

Mr. BYRD. Mr. President, I will do the wrapping up because I am going to make the point of order.

UNANIMOUS-CONSENT AGREEMENTS

MOTION TO WAIVE BUDGET ACT

Mr. MITCHELL. Mr. President, I modify my request to ask unanimous consent that following the making of the point of order, that the chairman of the Appropriations Committee be recognized to make a point of order; that the Senator from Indiana be recognized to make a motion to waive the Budget Act and for 2 minutes thereafter to speak in support of his motion to waive the Budget Act; that the Senator from Arkansas then be recognized for 5 minutes to speak in opposition to the motion; and that the chairman of the Appropriations Committee then be recognized for 5 minutes to speak in opposition to the motion, and upon the conclusion of the remarks of the chairman of the Appropriations Committee, the vote with respect to the motion occur.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, now with the distinguished Republican leader on the floor, I would like to make a brief statement, and then make an unanimous-consent request regarding another matter on which we have been talking for some days.

CAPITAL GAINS

Mr. MITCHELL. Senator DOLE and I have reached an agreement on a process for resolution of the capital gains issue. The House will pass and send to the Senate legislation which incorporates the capital gains provisions previously passed by the House—the so-called Jenkins bill—as part of the House reconciliation bill.

I ask unanimous consent that when the Senate receives from the House the bill that I have just referenced, that it be placed on the calendar. I further ask unanimous consent that on Tuesday, November 14, at 2:15 p.m., the Senate proceed to the consideration of this bill; that Senator PACKWOOD be immediately recognized to offer a substitute amendment which will be the text of subtitles A and B of title II of the Packwood-Roth amendment No. 1065, which may be modified by Senator PACKWOOD at any time prior to 3 p.m. on Monday, November 13, with 3 hours of debate on the amendment, equally divided and controlled between the two leaders or their designees, with no other amendments in order prior to the cloture votes that I will include. I further ask unanimous consent that at the conclusion of the time for debate on the amendment, there be a vote on a motion to invoke cloture on the substitute amendment, with the live quorum under rule XXII being waived; if cloture is invoked, the Packwood-Roth substitute will be before the Senate for consideration and passage.

If cloture is not invoked, I further ask consent that the bill be set aside until 2 p.m. on Wednesday, November 15, when it will again be brought before the Senate; that there be one hour of debate, equally divided, preceding another vote on a motion to invoke cloture to occur at 3 p.m., with the live quorum under rule XXII being waived. If cloture is invoked, the Packwood-Roth substitute will be before the Senate for consideration and passage; I further ask unanimous consent that if cloture is not invoked, the bill be returned to the calendar, and there be no other amendment relating to the issues of capital gains or IRA's to be offered in the Senate this year. I further ask unanimous consent

that the Packwood-Roth amendment No. 1065 be withdrawn from the Poland-Hungary aid bill when the Senate resumes consideration of that bill.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The text of the agreement is as follows:

Ordered, That when the Senate receives H.R. 3628, with respect to capital gains, it be placed on the calendar.

Ordered further, That at 2:15 p.m. on Tuesday, November 14, 1989, the Senate proceed to the consideration of this bill and that the Senator from Oregon [Mr. PACKWOOD] be immediately recognized to offer a substitute amendment which will be the text of Subtitles A and B of title II of the Packwood-Roth amendment No. 1065, which may be modified by Senator Packwood at any time prior to 3 p.m. on Monday, November 13, 1989.

Ordered further, That time for debate on the amendment be limited to 3 hours, to be equally divided and controlled between the two leaders or their designees, with no other amendments in order prior to the cloture votes mentioned below.

Ordered further, That at the conclusion of the time for debate on the amendment, there be a vote on a motion to invoke cloture on the substitute amendment, with the live quorum under rule XXII being waived.

Ordered further, That if cloture is invoked, the Packwood-Roth substitute be before the Senate for consideration and passage.

Ordered further, That if cloture is not invoked, the bill be set aside until 2 p.m. on Wednesday, November 15, 1989, when the bill will be brought before the Senate, and that there then be 1 hour debate, to be equally divided and controlled, preceding another vote on a motion to invoke cloture, which will occur at 3 p.m., with the live quorum under rule XXII being waived.

Ordered further, That if cloture is invoked, the Packwood-Roth substitute be before the Senate for consideration and passage.

Ordered further, That if cloture is not invoked, the bill be returned to the calendar, and that there be no other amendment relating to the issues of capital gains or IRA's to be offered in the Senate this year.

Ordered further, That the Packwood-Roth amendment, No. 1065, be withdrawn from the Poland-Hungary aid bill when the Senate resumes consideration of that bill. (Nov. 9, 1989)

Mr. MITCHELL. Mr. President, if I might state for the record, I discussed this matter with Senator PACKWOOD earlier today and he has assured me that he will provide me, in writing, not later than 2:15 p.m. on Monday, the modification, if any, which he will then make to his amendment, under the terms of this agreement that modification having to be made prior to 3 p.m. on Monday.

Senator PACKWOOD had not yet made a final decision on whether to make a modification and, if so, what the terms of the modification will be. He has assured me that if he is to make one, he will provide it in writing not later than 2:15 p.m. on Monday.

Mr. DOLE. I will just say, that is accurate. I have also discussed this with Senator PACKWOOD. If there is a modification, it will be very relevant to what is pending at this time. I say, finally, that this is the opportunity that many have been waiting for to indicate their support or objection to capital gains action this year. It is a very important vote. It is going to be capital gains versus capital gains, not capital gains on some other bill where someone will say, "I cannot vote for cloture because it is on Polish aid." It is going to be a test for those who support capital gains.

I thank the majority leader for helping to work it out together.

Mr. MITCHELL. I thank the distinguished Republican leader as well.

Mr. President, I now yield the floor.

Mr. BYRD. Mr. President, I make a point of order against the amendment of the Senator from Indiana on the ground that it violates section 306 of the Congressional Budget Act in that it deals with matter within the jurisdiction of the Committee on the Budget and the bill has not been reported by that committee.

Mr. COATS addressed the Chair.

The PRESIDING OFFICER. Under the order, the Senator from Indiana is recognized.

Mr. COATS. Mr. President, I move to waive the Budget Act with respect to the pending amendment.

The PRESIDING OFFICER. The Senator, under the unanimous-consent agreement, has 2 minutes.

Mr. COATS. Mr. President, I want Members to understand that there should be no mistake here as to what we are voting for, despite a lot of procedural argument and the arrangement that we are now in. The vote that we are about to make is a vote on the line-item veto. It is a vote to make spending harder. It is a vote to acknowledge that the present system is broken. It is a vote that says that the $3 trillion national debt, the $150 billion-plus deficit that we face every year and cannot seem to reduce, the effects of the Gramm-Rudman law that spread cuts in all programs across the board that are currently in place, all of that can be addressed, not cured, but addressed with a giving of the line-item veto authority to the President.

We all know that we load up these appropriations bills with our special little projects, with our porkbarrel projects. We know that when these 13-pound bills come before us that we have 15 or 30 minutes to analyze, there is no way a Member can come before this body and offer amendments to take out all that special little spending. That is impossible to do. We know how we load up these vehicles that the President has to sign at the last hour or the country is going to go bankrupt. So we slip in our little goodies.

This is a chance to say we are not going to continue that practice. This is an opportunity for all those Members who have traveled around their States saying the line-item veto is a good thing, this is a chance to vote for it. A vote for the motion to waive is a vote for the line-item veto, and I urge my colleagues to take this opportunity to express their position on this issue.

Mr. President, I ask unanimous consent to add Senators BOND, NICKLES, WILSON, and BOSCHWITZ as cosponsors to the Coast-McCain amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Under the unanimous-consent agreement, the Senator from Arkansas is recognized for 5 minutes.

Mr. BUMPERS. Mr. President, I hate to use my time this way, but I will start off asking the Senator from Indiana how much he anticipates, if this bill becomes law, it will save?

Mr. COATS. All I can say is in the last 13 years, $35 billion of rescissions have been sent up to this body and have been rejected. If we approved half of those, we would not now find ourselves in this sequester that is cutting across every program, many of them worthy programs.

Mr. BUMPERS. $35 billion?

Mr. COATS. The last 13 years.

Mr. BUMPERS. That comes to about $2.5 billion a year and the deficit last year was $157 billion. Actually, the structural deficit was about $250 billion and the Senator hopes he can save $2.5 billion, many of which are conservative, very meritorious projects. The reason the Senate did not agree to those is because we all had projects in there that we thought were just as meritorious as anything the President thought was meritorious.

Mr. President, there is not a single Member of this body who does not know where the politics of this issue is. I know how it sounds at those evening meetings back home, and I know how the President plays this, about that irresponsible Congress. But let me tell my colleagues, as Sam Ervin said, the mother tongue is English. The Constitution is written in the mother tongue, and here is what it says. I know this has been said before: "Every bill which shall have passed the House of Representatives and the Senate"—every bill—"shall, before it become a law, be presented to the President of the United States; if he approves he shall sign it, but if not he shall return it, with his objections to that House in which it shall have originated."

There is not one word in there about the President having a line-item veto. It says he shall approve or disapprove and return the bill. We have bills coming out of this body with thousands of line items in them. And all the people who vote for this today, if it becomes law, might as well resign

their seat in the Senate. We do not need you anymore; we will let the President decide what is meritorious and what is not. We will let the President decide about some of those items in Indiana that are in the transportation bill that are under consideration that this amendment is being attached to. We will let the President veto the money in the central Arizona project and other projects in Arizona and say this is pork, or we will let the President go ahead and whip Members into line. He will call you over to the White House and say, "Senator BUMPERS, we are having a little trouble with you on SDI. We understand you do not like SDI."

"Mr. President, you could not be more right."

He said, "I understand you have a parochial interest in the interior bill. I have been through the interior bill and there are 100 things in there ranging from $100,000 to $2 million and I do not like those projects. My people tell me they are not very meritorious."

What am I supposed to do? Tell the people of Arkansas that I knuckled under to the President on something that I believe very strongly? I have never been afraid to go home and talk about SDI to my people. But I will tell you what I would be afraid to do: I would be afraid to go home and tell the people of my State that I gave up seven very meritorious projects in Arkansas that may be I worked for years and years to get and which I thought they richly deserved and say I had to knuckled under to the President on something that I believe strongly in.

Why do you think James Madison put the separation of powers in the Constitution? He put it in there so we would be equal partners, equal branches of Government. If this ever becomes law, I am going to run for President. Strike it; I am going to run for king, because that is what the President will be.

This Congress, James Madison said, is the thing that stands between what would otherwise be a tyrannical government and the people. That is what we are supposed to represent. If the President finds something odious about a bill, let him veto it.

Yesterday, in defense appropriations, somebody said, "If you cut that, the President will veto it."

"How do you know?"

"We have this letter from the President." He said, "If you put that in or take that out, he will veto it."

Sometimes I think that is just fine. Sometimes we put it in and sometimes we take a chance. We take it out or put it in regardless of what his threat is.

Mr. President, I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BUMPERS. If the President of the United States can veto a $157 billion Health and Human Services bill that contains all the medical research, all the education money, all of those things, if he can veto a $157 billion bill because it has one paragraph on abortion, what is to prevent him from vetoing any bill that he finds to be odious, offensive, excessive, no matter what the amount, and send it back over to us?

That is what the Constitution says he must do, and we know what our responsibilities are, too. For God's sake, do your duty and vote against this or resign your seat and go home.

Thank you, Mr. President.

The PRESIDING OFFICER. Under the unanimous-consent request, the Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, most of the remarks on the subject have been made by those Senators who support the amendment. I recognize the constraints on the time of Senators, the fact that tomorrow the Senate will not be in session; Senators need to catch planes, and so on, so I will be very brief at this point because there is no doubt but that this matter will come up again one day in the future.

Mr. President, I am a little bit puzzled by the position that I have heard some Senators take today, saying that this power ought to be shifted to the President, that we ought to give the President a line-item veto.

First of all, Mr. President, under the Constitution of the United States, this Senate and the House cannot give the President a line-item veto. Only the people can do that, because only the people can amend the Constitution of the United States.

Read article I. How many Senators have read the Constitution lately? That is what makes me puzzled. Article I, section 1 says: All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives. That is where the constitutional framers vested the lawmaking powers.

Then under article I, section 9, we read that no money, no money may be drawn from the Treasury, but in consequence of appropriations made by law.

If only the Congress can pass the laws and if moneys drawn from the Treasury can be made only in consequence of appropriations made by law, then only the Congress can appropriate moneys.

Senators, however, are advocating a massive shift of power from the legislative to the executive. We could not do it if we wanted to by statute, Mr. President. That would require an amendment to the Constitution. But we ought not want to do it in any event.

I believe in this institution, and it has unique powers. Those framers of the Constitution foresaw a governmental system under a separation of powers which would be based on a system of checks and balances.

Mr. President, they would be surprised and disappointed to hear Members advocate that this power be shifted to the executive, no matter whether he be a Democrat or a Republican.

The line-item veto would advocate that the President could amend a bill. He could strike from the bill figures or language.

Every Senator here knows that to strike language from a bill is an amendment. We offer amendments to strike language from a bill.

It amazes me that Senators would stand on this floor and advocate that we do something, which I do not think we could do, to allow the President to amend bills passed by the Congress by striking out items. This would make him a super legislator. The bills that would be so altered after he had stricken the language to which he was opposed would be bills which had not passed the Congress. Congress would not have passed those bills in the altered form. The President would then be signing into a law a bill which the Congress never envisioned, never agreed to, and never passed.

I hope that Senators will demonstrate a little greater knowledge of the rules and a little greater knowledge of the Constitution than that, to advocate that one man downtown can amend bills and thus make laws which under the Constitution is a power vested only in this institution, the Senate and the House of Representatives. Only Congress can make the laws.

The constitutional framers left the President with two choices. He can either veto the entire bill or he can let it pass with or without his signature, and that is it.

Mr. President, I could speak much longer, but I shall simply say this in closing.

Byron said that "a thousand years scarce serve to form a state; an hour may lay it in the dust."

This matter will be back one day, and there will be more said about it. But a great deal has been written recently and said with respect to an article by New York lawyer Stephen Glazier, published in the Wall Street Journal on December 4, 1978, which advocated that the Constitution all along has given the power to the President to exercise a line-item veto.

Let me just say with regard to that argument, because the Wall Street Journal has gone on quite a binge in advocating a line-item veto, and it bases its editorials on that faulty premise, the article by Mr. Glazier. An additional argument against the rein-

terpretation of article I, section 7, clause 3, that Mr. Glazier advances is the fact that it has not happened in over 200 years of constitutional government or interpretation.

Mr. Justice Frankfurter devastated this idea more eloquently than I am able to do when he wrote in 1959 the Supreme Court's decision in Romero v. International Terminal Operating Company, et al., 358, U.S. 354,370, which denied a petitioner's request that the court reinterpret the Maritime Act of 1875, which has been unquestioned for 83 years.

Here is what he said:

The history of archaeology is replete with the unearthing of riches buried for centuries. Our legal history does not, however, offer a single archaeological discovery of new, revolutionary meaning in reading an old judiciary enactment. The presumption is powerful that such a far-reaching, dislocating construction as petitioner would now have us find in the Act of 1975 was not uncovered by judges, lawyers, or scholars for seventy-five years because it is not there.

For those who advocate that the President already has the line-item veto, I suggest that they should repair to Mr. Justice Frankfurter's statement. The framers did not intend for the President to have a line-item veto, and we are not going to discover it in the Constitution 200 years after they wrote it, because it is not there and never was there.

I ask for the yeas and nays, Mr. President.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. BYRD. Mr. President, under the agreement, is a motion to table the appeal in order?

The PRESIDING OFFICER. The motion to table the motion to waive.

Mr. BYRD. That is what I mean. Is a motion to table the motion to waive in order under the agreement presented?

The PRESIDING OFFICER. The Senator is right.

Mr. COATS. Parliamentary inquiry, Mr. President. I am just curious as to what the status is. Parliamentary inquiry. I am still uncertain as to what our status is. Are we operating under a motion to table or are we operating——

Mr. BYRD. Mr. President, I am not going to make a motion to table. The vote will be on the motion to waive by the distinguished Senator from Indiana, and I urge that Senators vote against the motion to waive the Budget Act.

The PRESIDING OFFICER. The pending question then is on agreeing to the motion to waive the Budget Act. The motion does require 60 votes. The yeas and nays have been ordered.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS], the Senator from Texas [Mr. BENTSEN], the Senator from Hawaii [Mr. MATSUNAGA], the Senator from Tennessee [Mr. SASSER], and the Senator from Colorado [Mr. WIRTH] are necessarily absent.

I further announce that, if present and voting, the Senator from Tennessee [Mr. SASSER] would vote "nay."

Mr. SIMPSON. I announce that the Senator from Missouri [Mr. BOND], the Senator from Minnesota [Mr. BOSCHWITZ], and the Senator from Vermont [Mr. JEFFORDS] are necessarily absent.

I further announce that, if present and voting, the Senator from Wyoming [Mr. WALLOP] would vote "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 40, nays 51, as follows:

[Rollcall Vote No. 294 Leg.]

YEAS—40

Armstrong	Hatch	Nickles
Boren	Heflin	Packwood
Burns	Heinz	Pressler
Chafee	Helms	Roth
Coats	Humphrey	Shelby
Danforth	Kassebaum	Simon
Dixon	Kasten	Simpson
Dole	Lott	Specter
Domenici	Lugar	Symms
Exon	Mack	Thurmond
Garn	McCain	Warner
Gorton	McClure	Wilson
Gramm	McConnell	
Grassley	Murkowski	

NAYS—51

Adams	Durenberger	Levin
Biden	Ford	Lieberman
Bingaman	Fowler	Metzenbaum
Bradley	Glenn	Mikulski
Breaux	Gore	Mitchell
Bryan	Graham	Moynihan
Bumpers	Harkin	Nunn
Burdick	Hatfield	Pell
Byrd	Hollings	Pryor
Cochran	Inouye	Reid
Cohen	Johnston	Riegle
Conrad	Kennedy	Robb
Cranston	Kerrey	Rockefeller
D'Amato	Kerry	Rudman
Daschle	Kohl	Sanford
DeConcini	Lautenberg	Sarbanes
Dodd	Leahy	Stevens

NOT VOTING—9

Baucus	Boschwitz	Sasser
Bentsen	Jeffords	Wallop
Bond	Matsunaga	Wirth

The PRESIDING OFFICER. On this vote, the yeas are 40, the nays are 51. Three-fifths of the Senators duly chosen and sworn not having voted to concur with the motion, the motion is rejected.

The amendment of the Senator from Indiana deals with a matter within the jurisdiction of the Senate Budget Committee and is being offered to a bill that was not reported from that committee in violation of section 306 of the Congressional Budget Act. The point of order is sustained. The amendment falls.

The Senator from New Jersey.

HOUSE AMENDMENT TO SENATE AMENDMENT NO. 1

Mr. LAUTENBERG. Mr. President, I now move that the Senate concur in the House amendment to the Senate amendment No. 1, which was the amendment that was being considered here, and move to reconsider and table that motion.

The PRESIDING OFFICER. The question is on the motion of the Senator from New Jersey.

The motion was agreed to.

Mr. LAUTENBERG. Mr. President, earlier today there was a group of amendments en bloc that were approved by a unanimous consent and I ask now that those amendments en bloc be reconsidered and tabled.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. LAUTENBERG. Mr. President, I yield the floor.

HOUSE AMENDMENT TO SENATE AMENDMENT NO. 136 IN DISAGREEMENT

The PRESIDING OFFICER. The clerk will report the remaining amendment in disagreement.

The assistant legislative clerk read as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 136 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert:

TITLE IV—EMERGENCY DRUG FUNDING

CHAPTER I

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $10,261,000 to enhance drug and criminal law enforcement efforts with special emphasis on improving drug law enforcement efforts among the various Justice Department agencies and on expedited deportation proceedings of convicted criminal aliens.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $41,476,000, to remain available until expended, to improve the effectiveness of the Department's legal activities, to improve coordination between law enforcement programs in this country and other countries, to improve efforts in extradition of drug cartel kingpins and to improve Criminal Division efforts in Federal/State task forces.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

To continue efforts begun in fiscal year 1989 to improve the ability of the United States Attorneys to prosecute drug and other crime related offenses, $80,699,000, for new assistant United States Attorneys, for annualization of new attorney positions funded in fiscal year 1989, and for automation enhancements necessary to improve

productivity and case mangement in the various United States Attorneys' offices.

SALARIES AND EXPENSES, UNITED STATES MARSHALS SERVICE

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $23,819,000 to improve the ability of the United States Marshals Service to pursue and apprehend alleged major drug and organized crime figures, and to improve the security required for anti-drug and organized crime judicial proceedings.

SUPPORT OF UNITED STATES PRISONERS

To fight the war on drugs, $23,000,000, to remain available until expended for enhancing the availability of jail space for unsentenced Federal prisoners in the custody of the United States Marshals Service; of which not to exceed $10,000,000 shall be available under the Cooperative Agreement Program to obtain guaranteed housing for Federal prisoners in State and local detention facilities.

ASSETS FORFEITURE FUND

To fight the war on drugs, $25,000,000 for awards for information in drug cases, purchase of evidence for drug violations, equipping conveyances for drug law enforcement, and other expenses as authorized by 28 U.S.C. 524 (c)(1)(A)(ii), (B), (C), (F) and (G), as amended, to be derived from the Department of Justice Assets Forfeiture Fund.

INTERAGENCY LAW ENFORCEMENT

ORGANIZED CRIME DRUG ENFORCEMENT

For carrying out efforts at National Drug Control $46,361,000 to strengthen the ability of the Federal Government to attack drug cartels and other organized crime groups through the eleven cooperating Federal agencies which participate in the organized crime drug enforcement task forces.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control $97,045,000, to strengthen Federal domestic law enforcement at the local level to include additional agents, support personnel and equipment, improvements in automation and telecommunications, and enhancements in field equipment and training.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control, $64,301,000, for additional agents, support personnel and equipment for improved domestic drug law enforcement; for expanded cleanup and disposal of toxic chemicals from clandestine laboratories; to expand State and local task forces; to complete the nationwide placement of asset removal teams; and to improve intelligence programs.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $16,891,000, for additional Border Patrol agents to improve drug interdiction efforts and for additional investigators and other staff needed to increase the apprehension and detention of criminal aliens.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $54,923,000, for additional staff to activate new prisons, to improve staffing at existing institutions, and to fund additional support costs associated with the projected increases in Federal prison populations.

BUILDINGS AND FACILITIES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $1,000,000,000, to remain available until expended, for acquisition and construction of new Federal prison facilities in order to handle the projected growth in prisoner populations resulting from the increased number of drug-related convictions.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

To fight the war on drugs, $308,821,000, to remain available until expended; of which $300,000,000 is for the Edward Byrne Memorial State and Local Law Enforcement Assistance Programs for State and local agencies to improve efforts in street-level and community-based drug law enforcement efforts; and of which $8,821,000 is for the Juvenile Justice and Delinquency Prevention Program in order to improve programs for the prevention, intervention and treatment of juvenile crime, especially where it relates to youth gangs and drugs.

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $59,550,000 for additional clerks office personnel, probation and pretrial services personnel, magistrates and related support personnel, and drug aftercare treatment services necessary to handle the growth in drug and crime related caseloads in the Federal courts.

DEFENDER SERVICES

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $41,373,000, to remain available until expended, for the increased expenses associated with Federal public defender and community defender organizations and private panel attorneys necessary to handle the growing drug and crime related caseload of the Federal courts.

FEES OF JURORS AND COMMISSIONERS

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $4,000,000, to remain available until expended, for the increased cost of grand and petit juries resulting from the growth in the drug and crime related caseload of the Federal courts.

COURT SECURITY

For carrying out efforts at National Drug Control and the President's initiative to combat violent crime, $15,400,000, to provide for expanded security and protective services for the Federal courts to handle the increase in drug and crime related judicial proceedings which require a higher level of security.

RELATED AGENCY

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

For carrying out the provisions of section 7321 of the Anti-Drug Abuse Act of 1988 (P.L. 100-690), $4,020,000, to remain available until expended, to allow the State Justice Institute to expand its programs to assist States in improving their court systems to allow them to handle the growing drug and crime related caseload.

CHAPTER II

DEPARTMENT OF THE INTERIOR

BUREAU OF INDIAN AFFAIRS

CONSTRUCTION

To fight the war on drugs, $4,000,000, to remain available until expended, for the provision of additional emergency shelters for Indian youth and for the construction of juvenile detention facilities.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

To fight the war on drugs, $7,250,000, for the Indian Health Service to increase after care services and provide for family outpatient care, expand community education and training efforts with a focus on prevention and training of program staff, expand alcoholism and drug abuse prevention efforts for adolescents through urban Indian health programs, and provide contract health services for substance abuse treatment and rehabilitation of Indian youth and their families.

INDIAN HEALTH FACILITIES

To fight the war on drugs, $1,500,000, to remain available until expended, to allow the Indian Health service to complete the construction or renovation of facilities to provide detoxification and rehabilitation services in youth regional treatment centers.

Chapter III

DEPARTMENT OF LABOR

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

For an additional amount for substance abuse employee assistance programs in the workplace, $2,000,000.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

ALCOHOL, DRUG ABUSE AND MENTAL HEALTH ADMINISTRATION

ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH

For carrying out activities to fight the war on drugs including substance abuse research, treatment, and prevention, $727,000,000: Provided, That of this amount, $415,000,000 shall be provided for block grants to States under title XIX of the Public Health Service Act to be used exclusively for substance abuse activities and shall remain available for obligation by the States until March 31, 1991, and such obligated funds shall remain available for expenditure by the States until March 31, 1992: Provided further, That of this amount, $40,000,000 shall be available for treatment waiting period reduction grants, if authorized in law.

FAMILY SUPPORT ADMINISTRATION

COMMUNITY SERVICES BLOCK GRANT

For an additional amount for anti-drug abuse activities under the Community Services Block Grant Act, $2,000,000.

ASSISTANT SECRETARY FOR HUMAN DEVELOPMENT SERVICES

HUMAN DEVELOPMENT SERVICES

To fight the war on drugs by providing assistance to runaway and homeless youth, by providing drug prevention activities related to youth gangs, and by providing temporary child care, crisis nurseries and abandoned infants assistance to children impacted by drugs, $23,750,000.

DEPARTMENT OF EDUCATION

SCHOOL IMPROVEMENT PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

To ensure a drug free learning environment for American students by carrying out the Drug-Free Schools and Communities Act of 1986, as amended, part F of title IV of the Elementary and Secondary Education act, as amended, and the Department of Education Organization Act, $183,500,000: Provided, That of this amount $170,000,000 shall be for State grants under part B, which shall become available on July 1, 1990, and remain available until September 30, 1991; $2,000,000 shall be for innovative alcohol abuse programs under section 4607; $7,500,000 shall be for teacher training under part C; $2,000,000 shall be for national programs under part D; and $2,000,000 shall be transferred to "Departmental Management, Program Administration" for administrative costs: Provided further, That of the amounts available for part B, not less than $25,000,000 shall be for section 5121(a) for urban and rural emergency grants: Provided further, That funds available under the "Department of Education Appropriations Act, 1990" for "Rehabilitation Services and Handicapped Research" shall also be available for activities under title II of Public Law 100-407; funds available for "School Improvement Programs" shall also be available for activities under title IX of the Education for Economic Security Act, as amended; and funds available for "Student Financial Assistance" shall be administered without regard to section 411F(1) of the Higher Education Act of 1965 (20 U.S.C. 1001 et. seq.), and the term "annual adjusted family income" shall, under special circumstances prescribed by the Secretary of Education, mean the sum received in the first calendar year of the award year from the sources described in that section.

RELATED AGENCY

ACTION

OPERATING EXPENSES

For an additional amount for substance abuse prevention and education activities under Part C of title I of the Domestic Volunteer Service Act of 1973 as amended, $1,500,000, of which not more than $150,000 may be used for administrative expenses.

CHAPTER IV

DEPARTMENT OF THE TREASURY

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

SALARIES AND EXPENSES

To fight the war against armed career criminals, an additional amount of $10,000,000 for the hiring, training and equipping of additional agents, and inspectors to enhance the arrest and conviction of armed career criminals who violate Federal firearms statutes.

UNITED STATES CUSTOMS SERVICES

SALARIES AND EXPENSES

To fight the war on drugs, an additional amount of $18,000,000, of which $15,000,000 shall be available to undertake investigations to counter drug-related money laundering or other law enforcement activities, and of which $3,000,000 shall be available to increase the air interdiction program staffing level to 960 permanent full-time equivalent positions: *Provided*, That none of the additional funds shall be made available for the establishment of the Financial Crimes Enforcement Network without the advance approval of the House and Senate Committees on Appropriations.

OPERATIONS AND MAINTENANCE, AIR INTERDICTION PROGRAM

To fight the war on drugs, an additional $35,800,000, to remain available until expended, for the procurement of interceptor and support aircraft, and to provide for the operation and maintenance expenses of these assets to more effectively interdict the illegal importation of drugs into the United States.

CUSTOMS FORFEITURE FUND

(LIMITATION ON AVAILABILITY OF DEPOSITS)

To fight the war on drugs, an additional amount of $5,000,000, to be derived from deposits in the Fund, for authorized law enforcement purposes.

INTERNAL REVENUE SERVICE

INVESTIGATION, COLLECTION, AND TAXPAYER SERVICE

To fight the war on drugs, an additional amount of $5,000,000 for criminal investigative activities to support a vigilant enforcement of Federal tax law violations and money laundering related to illegal narcotics activity.

EXECUTIVE OFFICE OF THE PRESIDENT

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

To fight the war on drugs, an additional amount of $25,000,000 for drug control activities related to the designation of high intensity drug trafficking areas: *Provided*, That from within available funds, the Office of National Drug Control Policy, in conjunction with other departments and agencies, shall undertake assessments of program effectiveness of all federally funded anti-drug programs for the purposes of determining their impact in reducing the illegal drug problem, including their impact on the production, importation, cost, availability, and use of drugs, as well as on the successful treatment and rehabilitation of users and addicts: *Provided further*, That said assessments shall contain cooperative cost-benefit and cost-effectiveness data to aid in determination of the absolute and relative value of each program in reducing the illegal drug problem.

SPECIAL FORFEITURE FUND

For Federal prison construction purposes to incarcerate drug traffickers and others who violate Federal statutes, an amount not to exceed $115,000,000, to be derived from deposits in the Fund, and to remain available until expended.

CHAPTER V

DEPARTMENT OF VETERANS AFFAIRS

VETERANS HEALTH SERVICE AND RESEARCH ADMINISTRATION

MEDICAL CARE

For providing necessary medical care and treatment to eligible veterans with alcohol or drug dependence or abuse disabilities, an additional $50,000,000, which shall be available only for programs and activities described in section 2502(b) of the Anti-Drug Abuse Act of 1988 (Public Law 100-690), and as authorized under chapter 17 of title 38, United States Code.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAMS

PAYMENTS FOR OPERATION OF LOW-INCOME HOUSING PROJECTS

To fight the war on drugs and eliminate drug-related crime in public housing projects, without regard to section 9(d) of the United States Housing Act of 1937 (42 U.S.C. 1437), an additional $50,000,000, which shall be available only for grants authorized under the Public Housing Drug Elimination Act of 1988 (42 U.S.C. 11901 et seq.) and subject only to the requirements of such Act for project security, physical improvements, enforcement activities, support for voluntary organizations, and innovative programs designed to reduce drug use in and around public housing projects: *Provided*, That $1,000,000 shall be available for contracts, including the provision of technical assistance to public housing officials and resident groups to better prepare and educate them to confront the widespread abuse of controlled substances in public housing projects, pursuant to the Drug-Free Public Housing Act of 1988 (42 U.S.C. 11922, 11923).

CHAPTER VI

DEPARTMENT OF ENERGY

NUCLEAR WASTE DISPOSAL FUND

In order to provide funds for the war on drugs, funds appropriated by the Energy and Water Development Appropriations Act for Fiscal Year 1990 (Public Law 101-101) for the "Nuclear Waste Disposal Fund" are reduced by $46,000,000.

CLEAN COAL TECHNOLOGY

The second paragraph under this head contained in the Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1990, is amended by striking "$450,000,000" and inserting "$419,000,000" and by striking "$125,000,000" and inserting "$156,000,000".

SPR PETROLEUM ACCOUNT

Outlays in fiscal year 1990 resulting from the use of funds appropriated to this account in the Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1990, shall not exceed $147,125,000: *Provided*, That for purposes of section 202 of Public Law 100-119 (2 U.S.C. 909) this action is necessary (but secondary) result of a significant policy change.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

LAND ACQUISITION AND DEVELOPMENT FUND

The authority to borrow from the Treasury of the United States provided under this heading in the Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1990, is hereby reduced to $100,000.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH CARE FINANCING ADMINISTRATION

PROGRAM MANAGEMENT

Notwithstanding the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1990, the amount available for Health Care Financing Administration Program Management shall include not to exceed $1,885,172,000 to be transferred to this appropriation as authorized by section 201(g) of the Social Security Act, from the Federal Hospital Insurance, the Federal Supplementary Medical Insurance, the Federal Catastrophic Drug Insurance, and the Federal Hospital Insurance Catastrophic Coverage Reserve Trust Funds.

LEGISLATIVE BRANCH

In order to provide funds for the war on drugs, each discretionary appropriation for fiscal year 1990 provided in the Legislative

Branch Appropriations Act, 1990 (H.R. 3014), shall be reduced by 0.43 percent: *Provided,* That $3,578,000 representing excess receipts from the sale of publications shall be transferred from the Government Printing Office revolving fund to the Salaries and Expenses Appropriation of the Office of the Superintendent of Documents, Government Printing Office.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES

Notwithstanding any other provision of this Act, each discretionary appropriation account, loan program, and obligation limitation in titles I and II of this Act is hereby reduced by 0.3 percent: *Provided,* That the reductions made pursuant to this paragraph shall not apply to "Federal-Aid Highways (Limitation on Obligations) (Highway Trust Fund)", the obligation limitation under "Grants-in-Aid for Airports", and to any appropriation account applicable to salaries and expenses in an amount less than $45,000,000: *Provided further,* That this paragraph shall not reduce the minimum amount specifically designated for drug enforcement activities under "Coast Guard, Operating Expenses": *Provided further,* That, notwithstanding any other provision of this paragraph, the obligation limitation under the head "Grants-in-Aid for Airports" is hereby reduced to $1,425,000,000 and the obligation limitation under the head "Federal-Aid Highways (Limitation on Obligations) (Highway Trust Fund)" is hereby reduced to $12,210,000,000: *Provided further,* That $25,000,000 of unobligated contract authority available for airport planning and development under section 505(a) of The Airport and Airway Improvement Act of 1982, as amended, is rescinded.

DEPARTMENT OF THE TREASURY

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $14,000,000 are rescinded.

INTERNAL REVENUE SERVICE

SALARIES AND EXPENSES

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $141,000 are rescinded.

PROCESSING TAX RETURNS

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $1,499,000 are rescinded.

EXAMINATION AND APPEALS

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $1,488,000 are rescinded.

INVESTIGATION, COLLECTION, AND TAXPAYER SERVICE

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $2,299,000 are rescinded.

GENERAL SERVICES ADMINISTRATION

REAL PROPERTY ACTIVITIES

FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

The limitation established under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, for the rental of space, as well as the aggregate limitation established thereunder, are reduced by $14,400,000.

FEDERAL PROPERTY RESOURCES SERVICE

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Of the funds appropriated under this head in the Treasury, Postal Service and General Government Appropriations Act, 1990, $945,000 are rescinded.

CHAPTER VII

OFFICE OF NATIONAL DRUG CONTROL POLICY

Not later than 30 days after the enactment of this Act, the Director of National Drug Control Policy shall report on how funds made available under Title IV of this Act have been allocated and shall, for each quarter of the fiscal year thereafter, within 45 days following the close of the quarter, report on how these funds have been obligated. Reports made under this section shall be filed with the House of Representatives and the Senate and made available to the Committees on Appropriations and other committees, as appropriate.

Mr. LAUTENBERG. Mr. President, unless this is a misunderstanding that is the only amendment that is being carried over. That amendment by virtue of a unanimous-consent agreement with the Republican leader is to be acted upon before the close of business on Tuesday, November 14. That was propounded in the unanimous-consent agreement.

The PRESIDING OFFICER. The Senator is correct.

Mr. LAUTENBERG. Therefore, it is fair to say that all of the other business related to the Transportation Appropriations Committee bill has been dealt with by both Houses and it is only now awaiting resolution of amendment No. 136 which we believe will take place on Tuesday, the week coming, and that will settle totally the appropriations bill dealing with transportation.

I thank the Chair.

The PRESIDING OFFICER. The Senator is correct.

Mr. LAUTENBERG. Mr. President, I suggest the absence of a quorum.

Mr. McCLURE. Mr. President, will the Senator withhold?

Mr. LAUTENBERG. Yes.

The PRESIDING OFFICER. The Senator from Idaho.

ORDER OF PROCEDURE

Mr. McCLURE. Mr. President, I ask unanimous consent that I may proceed out of order as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

KRASNOYARSK RADAR

Mr. McCLURE. Mr. President, what do the following people have in common?

The Arms Control Association, the Federation of American Scientists, Paul Warnke, McGeorge Bundy, George Kennan, Robert McNamara, Gerald Smith, three members of the U.S. House of Representatives who visited an obscure town in Siberia in 1987, and Mikhail Gorbachev.

The answer is, these are just a few of the people who denied, ridiculed, downplayed or otherwise pooh-poohed the Reagan administration's assertion that the Krasynoyarsk radar was a violation of the ABM Treaty.

And what about Ronald Reagan, Eduard Shevardnadze, and Mikhail Gorbachev?

These are three of the people who agree that the Krasnoyarsk radar is a violation of the ABM Treaty. Gorbachev has not said so himself, but I think we can assume from Mr. Shevardnadze's admission that the General Secretary has seen the error of his ways.

Mr. President, I hate to say I told you so. But I did. I was the author of the legislation requiring the administration to provide an annual report of Soviet noncompliance with arms control agreements. I did this because I believed—as I still believe—that refusing to acknowledge and face up to Soviet violations endangers our security and makes a mockery of the arms control process.

The Reagan administration, to its credit, ignored diplomatic business-as-usual and proceeded to certify Krasnoyarsk, the SS-25, telemetry encryption, and a number of other Soviet activities as treaty violations.

To their discredit, the arms control lobby, and the elite media and scientific communities, pooh-poohed these allegations. They accused the President of working to undermine the arms control process and other dire and nefarious schemes.

"Such accusations can only add to the already widespread concern that President Reagan has not been truly interested in nuclear arms control," complained the Arms Control Association.

The Federation of American Scientists said concerns about Krasnoyarsk were "more a product of faulty deduction than of analysis of the facts."

The three visiting Congressmen announced the radar was "not a violation of the ABM Treaty at this time."

Mr. President, I don't want to belabor this. We all make mistakes. But I think it is important at this time to set the record straight. Sticking your head in the sand and ignoring Soviet cheating does not help the arms control process. It does not make the world safer. In fact, by sending the Soviets the message that they can cheat with impunity, it does the opposite. If we have learned that lesson, and will abide by it, then Mr. Shevardnadze may have done us a great favor.

Let me quote from the Washington Post of October 25, which I think sums it up pretty well.

The Shevardnadze admission also makes a contribution to American politics. For taking a so-called hard-line approach to treaty violations—of which the Krasnoyarsk radar was the most conspicuous and the

most clear-cut case—President Reagan was widely criticized because he was said to be putting the whole arms control "process" at risk. But Mr. Reagan was entirely right to insist on faithful mutual compliance with old agreements. It was the essential way to earn American confidence in new ones. Leonid Brezhnev, for his cheating, deserved the criticism for endangering arms control. Too many Americans ignored his lies and offered him excuses—excuses that the Gorbachev team now sweeps away.

Mr. President, they say if you live long enough, you will see everything. I never expected to see the Krasnoyarsk radar torn down, but it looks like it might happen. I never hoped to see the Berlin Wall torn down, but God willing, I might. And I certainly never thought I would see the day JIM MCCLURE, Mikhail Gorbachev, the Washington Post, and Ronald Reagan all agreed on something.

ORDER OF PROCEDURE

The PRESIDING OFFICER (Mr. GORE). The Senator from New York.

Mr. D'AMATO. Mr. President, I ask unanimous consent that I may be permitted 5 minutes as if proceeding in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE MAYOR-ELECT OF NEW YORK CITY

Mr. D'AMATO. Mr. President, Tuesday's election of David Dinkins as the first black American to be elected mayor of the city of New York is a historic opportunity for all of us.

Although David Dinkins and I may have different political philosophies, the people of New York have a right to expect us to work together to make New York City and New York State a greater place to live in the decade to come.

I stand ready to work with David Dinkins in unifying the city and in bringing about a surge of good will to revitalize New York.

Drugs, crime, housing, homelessness, AIDS, and transportation—these are all complex and difficult problems. But the first problem in the city is getting people to work together—hand in hand—and not against one another.

I know that I stand with New Yorkers throughout the State in sending David Dinkins a message of good will and hope. As a U.S. Senator from the great State of New York, I will be there to help and support him.

Good luck, Mayor Dinkins.

I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AN EXPRESSION OF GRATITUDE TO VETERANS OF OUR COUNTRY

Mr. FOWLER. Mr. President, I rise to express my gratitude and unyielding commitment to our Nation's veterans. November 11, Veterans Day, marks the day in which Americans throughout this great Nation pay homage to those who have fought and died for our country.

It is appropriate that we are observing Veterans Day at a time when every American can clearly see the sacrifices that our servicemen and women are making and have made to preserve the freedoms that we all cherish. The efforts of those who died on the battlefield, and in service to this country and its allies, helped to ensure the freedoms that people all over the world, from Tiananmen Square, to Warsaw, to Moscow, to Johannesburg, to East Berlin, are fighting for today.

It is no accident that Veterans Day is a day on which we celebrate peace in America and throughout the world. In its initial observance, Veterans Day, or Armistice Day was marked as a day that would commemorate an end to all wars. Although that goal has too often been unfulfilled, the ideal is one in which every nation should strive to achieve.

President Lincoln spoke at Gettysburg of dedication to "unfinished work." As a Member of the U.S. Senate and a voice for approximately 650,000 veterans in my home State, Georgia, I am committed to that "unfinished work" which he referred to, not for a single day or single period, but throughout the year.

Although the fighting in World War I may have ended November 11, 1918, the peace you and I enjoy each and every day is due to the sacrifices of veterans who served then and throughout our history. I salute these men and women. They are the real heroes of this Nation.

VETERANS DAY 1989

Mr. CRANSTON. Mr. President, as Veterans Day nears, every American should pause to remember gratefully the millions of men and women who have served our Nation honorably, often at great sacrifice, in the U.S. Armed Forces.

We Americans have been richly blessed with the greatest democratic heritage the world has ever known. In a day when so much threatens the future of our Nation—drugs, violence, poverty, environmental degradation, AIDS, broken families and confused values—let us not lose sight of the reality that each of us, by birthright, enjoys the opportunity to speak, think worship, assemble, and travel as we choose. Let us humbly remember that the enabling power of freedom of choice, which we too often take for granted, is still not shared by many of our brothers and sisters around the world.

On Veterans Day, we should contemplate, too, the high price of safeguarding the ideals of democracy, freedom, and equal justice on which our Nation was founded. Of the 38 million veterans who have served our country during periods of war since its beginnings, over a million have lost their lives while in service. Today, another 2.2 million suffer from service-connected disabilities. We need only think of the emptiness felt by one child who grew up without a father who was killed in service to begin to understand the cost of maintaining our freedom.

This Veterans Day, let us remember the families and loved ones of all the military personnel who have died on active duty this year. The most publicized loss was the 47 men who perished tragically when a gunturret exploded aboard the U.S.S. *Iowa* on April 19. But there were altogether well over 100 active duty deaths we should remember.

It is the men and women in uniform—not the weapons or the technology—that are the heart of our Nation's defense. The U.S.S. *Iowa* tragedy, and similar tragedies in recent years in Beirut, Gander, and the Persian Gulf vividly demonstrate the difficulty and danger of military service, even in times of peace.

I would like to mention briefly the Department of Veterans Affairs' commendable response to the *Iowa* tragedy. Immediately after the incident, a network of VA and Navy personnel began working together in coordinating joint services to surviving family members. Within days, benefits totaling $2 million were paid to survivors. This quick and compassionate work of the dedicated VA employees with the surviving family members established a lasting memorial to the 47 sailors who perished.

It is not enough, however, to praise the valiant efforts of those who have shouldered and who now bear the heaviest of all burdens of citizenship—the defense of our country. We must tangibly honor our commitment to veterans by affording them and their families the benefits and services they deserve.

It has been my privilege to work on behalf of veterans for the past 20 years in the Senate and to serve—now as chairman—on the Veterans' Affairs Committee since its inception in 1971. Our 27.3 million living veterans need Congress' continued support for

health care and compensation for those with service-connected disabilities. Educational support, counseling, and employment-assistance programs for those readjusting to civilian life also must be sustained. These programs, and others to assist the survivors of those who made the ultimate sacrifice, help acknowledge a debt we can never truly repay.

As Americans, we must deal honestly with the personal pain and sacrifice of those who answered their Nation's call. We cannot hide from the truth that close to 30 percent of our Nation's homeless are veterans, many of whom suffer from chronic mental illness, that unemployment rates among service-connected disabled and recently discharged veterans remain unacceptably high, and that it is estimated that over 800,000 Vietnam veterans suffer symptoms of post-traumatic stress disorder.

No one can deny the trauma suffered by those who have fought in combat. It is time that all Americans participate in the healing of our veterans' wounds and that all citizens open their hearts to the returned warriors and say "Welcome home."

As we remember the women and men who have served in past wars to keep America strong so we can remain at peace, we must be mindful that a healed America is a stronger America. Let us work to ensure that the wounds of history will not give away to bitterness, anger, or preoccupation with symbolic patriotism, but that out of the pain and suffering of war will come an integrity and strength that can move us closer to achieving fully the ideals on which our great Nation was built.

Let us work tirelessly to support and encourage the peoples of the world who yearn for the precious freedoms and peace we enjoy. We live in a remarkable time in which waves of hope unprecedented in history are sweeping through the Soviet Union, Eastern Europe, and China. The uprisings in Tiananmen Square, the broken ceasefire in Nicaragua, and repressive governments, like those in South Africa and Panama, that are at odds with their people, serve as sobering reminders of how strong is the cry for justice in so many countries around the globe.

As we gratefully remember our veterans this November 11, let us rededicate ourselves to the democratic values they sacrificed so much to preserve and to the path to justice for all peoples of the world.

EAST GERMANY

Mr. KENNEDY. Mr. President, all of us are awed by the accelerating changes in East Germany. The irresistible desire of individuals for liberty has met the immovable object of a hostile government, and the immovable object has moved.

A quarter century ago, President Kennedy traveled to West Berlin. He spoke about the Berlin Wall and about the indivisibility of liberty. He understood that when people anywhere are unjustly denied their freedom, the rest of us are not truly free. With four simple majestic words—"Ich bin ein Berliner"—he touched the hearts and hopes of Berliners and millions of others everywhere who yearn for liberty and justice.

Now, the Government of East Germany has heeded that yearning and announced dramatic and historic steps toward its fulfillment. Friends of freedom everywhere welcome the announcement that the government will open its borders, will permit citizens to travel freely, and will move toward free and democratic elections.

For two and a half decades, the Berlin Wall has symbolized the repression of the people of East Germany and the other nations behind the Iron Curtain. But the forces of freedom are too powerful to be denied. Over the past few weeks, one astounding event after another has proved the validity of this enduring truth. The people of East Germany deserve their freedom, no less than their brothers and sisters in Poland, Hungary, and all the other nations of Eastern Europe.

Today's developments demonstrate again the invincibility of the human spirit. The concrete and barbed wire of the Berlin Wall are no match for the ideas of liberty and democracy—and soon, we hope, the Wall itself will come tumbling down as well.

I ask unanimous consent that the text of President John F. Kennedy's remarks in West Berlin on June 26, 1963, regarding the Berlin Wall be printed in the RECORD.

There being no objection, the President's remarks were ordered to be printed on the RECORD, as follows:

REMARKS IN THE RUDOLPH WILDE PLATZ, BERLIN—JUNE 26, 1963

I am proud to come to this city as the guest of your distinguished Mayor, who has symbolized throughout the world the fighting spirit of West Berlin. And I am proud to visit the Federal Republic with your distinguished Chancellor who for so many years has committed Germany to democracy and freedom and progress, and to come here in the company of my fellow American, General Clay, who has been in this city during its great moments of crisis and will come again if ever needed.

Two thousand years ago the proudest boast was *"civis Romanus sum."* Today, in the world of freedom, the proudest boast is *"Ich bin ein Berliner."*

I appreciate my interpreter translating my German!

There are many people in the world who really don't understand, or say they don't what is the great issue between the free world and the Communist world. Let them come to Berlin. There are some who say that communism is the wave of the future. Let them come to Berlin. And there are some who say in Europe and elsewhere we can work with the Communists. Let them come to Berlin. And there are even a few who say that it is true that communism is an evil system, but it permits us to make economic progress. *Lass' sie nach Berlin kommen.* Let them come to Berlin.

Freedom has many difficulties and democracy is not perfect, but we have never had to put a wall up to keep our people in, to prevent them from leaving us. I want to say, on behalf of my countrymen, who live many miles away on the other side of the Atlantic, who are far distant from you, that they take the greatest pride that they have been able to share with you, even from a distance, the story of the last 18 years. I know of no town, no city that has been besieged for 18 years that still lives with the vitality and the force, and the hope and the determination of the city of West Berlin. While the wall is the most obvious and vivid demonstration of the failures of the Communist system, for all the world to see, we take no satisfaction in it, for it is, as your Mayor has said, an offense not only against history but an offense against humanity, separating families, dividing husbands and wives and brothers and sisters, and dividing a people who wish to be joined together.

What is true of this city is true of Germany—real, lasting peace in Europe can never be assured as long as one German out of four is denied the elementary right of freemen, and that is to make a free choice. In 18 years of peace and good faith, this generation of Germans has earned the right to be free, including the right to unite their families and their nation in lasting peace, with good will to all people. You live in a defended island of freedom, but your life is part of the main. So let me ask you, as I close, to lift your eyes beyond the dangers of today, to the hopes of tomorrow, beyond the freedom merely of this city of Berlin, or your country of Germany, to the advance of freedom everywhere, beyond the wall to the day of peace with justice, beyond yourselves and ourselves to all mankind.

Freedom is indivisible, and when one man is enslaved, all are not free. When all are free, then we can look forward to that day when this city will be joined as one and this country and this great Continent of Europe in a peaceful and hopeful globe. When that day finally comes, as it will, the people of West Berlin can take sober satisfaction in the fact that they were in the front lines for almost two decades.

All free men, wherever they may live, are citizens of Berlin, and, therefore, as a free man, I take pride in the words *"Ich bin ein Berliner."*

NOTE: The President spoke at 12:50 p.m. from a platform erected on the steps of the Schöneberger Rathaus, West Berlin's city hall, where he signed the Golden Book and remained for lunch. In his opening remarks he referred to Mayor Willy Brandt, Chancellor Adenauer, and Gen. Lucius D. Clay.

NATIONAL TRAUMA AWARENESS MONTH

Mr. BYRD. Mr. President, on November 7, I introduced a joint resolution to designate May 1990 as "National Trauma Awareness Month." This is the third year I have sought this designation for the month of May. My purpose in this continuing effort is to make the American people more aware

of the enormity of the traumatic-injury problem in the United States.

Trauma is the medical term for any physical injury, accidental or intentional. Such traumatic injuries can be caused by motor-vehicle accidents, falls, fires, household accidents, and violent crimes. That list does not exhaust the causes of trauma, however. Those causes are myriad. Typically, those who died this year in Hurricane Hugo and the California earthquake succumbed more from trauma than any other cause. Indeed, more Americans under age 45 die from trauma than from any other single cause—more than heart attacks, cancer, strokes, or the countless other diseases to which mankind is subject. Each year, 60 million Americans suffer a traumatic injury—8 million seriously. Of this number, 340,000 people are permanently disabled and 93,000 die. In costs to our economy, annually more than $110 billion is lost in wages, medical expenses, disability payments, and other costs related to traumatic injuries.

And perhaps the worst, most frightening feature of trauma is that any one of us, or any one of our loved ones, could at any time become the victim of a crippling, painful, or deadly traumatic injury.

That does not mean, however, that we are helpless in fighting back against the occurrence or the effects of trauma.

Fortunately, through prevention programs and the establishing of comprehensive emergency medical systems, the impact of trauma and traumatic injury can be limited.

National programs to promote seatbelt use and to crack down on drunk driving can help. Education programs to make people more aware of the need for home safety—the proper use of ladders, care about leaving toys on dark stairways, careful handling of firearms, keeping dangerous medicines and other substances out of reach of small children, and the use of household smoke alarms are excellent examples of attempts at such awareness efforts. And across our country, increased numbers of hospitals and clinics are building and equipping special units to treat and heal trauma victims.

But those programs represent but a fraction of the education and services that ought to be in place to fight and treat trauma.

Encouragingly, after Congress designated the months of May 1988 and May 1989 as trauma awareness months, organizations such as the American Trauma Society were able to mount campaigns in every State to educate our citizens about trauma, the implications of trauma, and the means available to prevent or treat trauma.

I am heartened by the victories that we are gaining over trauma. Once again, then, I am enlisting the prestige of the Senate in advancing the national crusade against trauma. Let us hope that the continued nationwide focus on the issue of trauma nad traumatic injury will help to relieve increased numbers of Americans from the suffering, anguish, and loss that trauma has visited upon so many men, women, children, and their loved ones in our country.

THE WALLS COME TUMBLING DOWN

Mr. KASTEN. Mr. President, for 27 years the Berlin Wall has stood as a symbol of the forces that seek to oppress man and destroy his spirit. It is a montrous mass of stone that has laid a ponderous weight on the conscience of the world.

For three decades, men and women all over the free world have asked how a postwar era of progress and tolerance in one-half of the world could coexist with an era of brutal repression and nightmarish terror in the other half.

Mr. President, today, we have our answer: They cannot coexist—because the yearnings of the human heart will always triumph in the long run over the power of intolerance.

The Communist iceberg of hatred, mistrust and oppression is breaking up. The Berlin Wall that is falling today is just a symbol, but it is a very powerful one. So as we watch it crumble, let's reflect on the fact that just as we were all Berliners in 1962 when the Wall divided us, we are all Berliners today—so let's extend a hand to our East German brothers and sisters who are blinking in the powerful light of liberty.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Kalbaugh, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and a treaty which were referred to the appropriate committees.

(The nominations and treaty received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE RECEIVED DURING RECESS

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on November 8, 1989, during the recess of the Senate, received a message from the House of Representatives announcing that the House disagrees to the amendment of the Senate to the bill (H.R. 3607) to repeal Medicare provisions in the Medicare Catastrophic Coverage Act of 1988; it agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and appoints the following as managers of the conference on the part of the House:

From the Committee on Ways and Means, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Mr. ROSTENKOWSKI, Mr. STARK, Mr. DONNELLY, Mr. COYNE, Mr. PICKLE, Mr. LEVIN of Michigan, Mr. MOODY, Mr. CARDIN, Mr. RUSSO, Mr. ARCHER, Mr. VANDER JAGT, Mr. CRANE, Mr. FRENZEL, and Mr. SCHULZE.

From the Committee on Energy and Commerce, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Mr. DINGELL, Mr. WAXMAN, Mr. SCHEUER, Mr. WALGREN, Mr. WYDEN, Mr. BRUCE, Mr. ROWLAND of Georgia, Mrs. COLLINS, Mr. HALL of Texas, Mr. LENT, Mr. MADIGAN, Mr. DANNEMEYER, Mr. TAUKE, and Mr. BILIRAKIS.

MESSAGES FROM THE HOUSE

ENROLLED JOINT RESOLUTION SIGNED

At 11:57 a.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the Speaker has signed the following enrolled joint resolution:

S.J. Res. 215. Joint resolution acknowledging the sacrifices that military families have made on behalf of the Nation and designating November 20, 1989, as "National Military Families Recognition Day".

The enrolled joint resolution was subsequently signed by the Acting President pro tempore [Mr. ROBB].

At 1:51 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has agreed to the following concurrent resolution, without amendment:

S. Con. Res. 80. Concurrent resolution to correct technical errors in the enrollment of the bill H.R. 2710.

At 6:24 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the Clerk of the House be directed to request the Senate to return to the House the joint resolution (S.J. Res. 216) designating November 12 through 18, 1989, as "Community Foundation Week."

ENROLLED BILLS SIGNED

The message also announced that the Speaker has signed the following enrolled bills:

H.R. 1231. An act to establish a commission to investigate and report respecting the dispute between Eastern Airlines and the collective bargaining units, and for other purposes; and

H.R. 2710. An act to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes.

The enrolled bills were subsequently signed by the President pro tempore [Mr. BYRD].

MEASURES PLACED ON THE CALENDAR

The following bill, previously received from the House of Representatives for concurrence, was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 2144. An act to improve forest management in urban areas and other communities, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. KENNEDY, from the Committee on Labor and Human Resources, without amendment:

S. 1863. An original bill to amend the Public Health Service Act to provide grants for the expansion or renovation of biomedical and behavioral research facilities, and for other purposes (Rept. No. 101-194).

By Mr. PELL, from the Committee on Foreign Relations, without amendment:

S. 1868. An original bill to amend the Arms Control and Disarmament Act to authorize appropriations for fiscal year 1990 for the Arms Control and Disarmament Agency, and for other purposes (Rept. No. 101-195).

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 1310. A bill to eliminate illiteracy by the year 2000, to strengthen and coordinate literacy programs, and for other purposes (Rept. No. 101-196).

By Mr. PELL, from the Committee on Foreign Relations, without amendment and with a preamble:

S. Con. Res. 73. A concurrent resolution to express the support of the Congress for the Courageous people of Colombia.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. PELL, from the Committee on Foreign Relations:

Richard Huntington Melton, of Virginia, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federative Republic of Brazil:

Nominee: Richard H. Melton.

Post: Brazil.

(Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.)

Contributions, amount, date, and donee:

1. Self: None.
2. Spouse: Margaret A. Melton, none.
3. Children and spouses names: Craig H.; Cathleen M.; Pamela M., none.
4. Parents names: John W. Melton; Margaret H. Melton, none.
5. Grandparents names: All deceased more than four years ago, none.
6. Brothers and spouses names: John W. Melton; Chinrana Melton, none.
7. Sisters and spouses names: None.

Cresencio S. Arcos, Jr., of Texas, a Career Member of the Senior Foreign Service, Class of Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Honduras.

Nominee: Cresencio S. Arcos, Jr.

Post: Ambassador to Honduras.

(Contributions are to be reported for the period beginning on the first day of the fourth calendar year preceding the calendar year of the nomination and ending on the date of the nomination.)

Contributions, amount, date, and donee:

1. Self: none.
2. Spouse: Patricia, none.
3. Children and spouses names: Victoria & Nicolas, none.
4. Parents names: Cresencio & Guadalupe Arcos, none.
5. Grandparents names: Deceased, none.
6. Brothers and spouses names: Carols Arcos; Daniel Arcos, none.
7. Sisters and spouses names: Imelda and Miguel Villarreal, none.

(The above nominations were reported with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

Mr. PELL. Mr. President, for the Committee on Foreign Relations, I also report favorably two nomination lists in the Foreign Service which were printed in full in the CONGRESSIONAL RECORDS of October 31 and November 2, 1989, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar, that these nominations lie at the Secretary's desk for the information of Senators.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. BOREN:

S. 1860. A bill to amend title 38, United States Code, to require the Secretary of Veterans Affairs to furnish outpatient medical services for any disability of a former prisoner of war; to the Committee on Veterans' Affairs.

By Mr. REID:

S. 1861. A bill to amend the Clean Air Act relating to toxic chemicals; to the Committee on Environment and Public Works.

By Mr. CONRAD:

S. 1862. A bill to ensure the continued stability and viability of recreational opportunities on Lake Sakakawea in the State of North Dakota; to the Committee on Environment and Public Works.

By Mr. KENNEDY, from the Committee on Labor and Human Resources:

S. 1863. An original bill to amend the Public Health Service Act to provide grants for the expansion or renovation of biomedical and behavioral research facilities, and for other purposes; placed on the calendar.

By Mr. FOWLER (for himself, Mr. GRAHAM, Mr. MACK, and Mr. NUNN):

S. 1864. A bill to amend the Wild and Scenic Rivers Act to study the eligibility of the St. Mary's River in the States of Florida and Georgia for potential addition to the Wild and Scenic Rivers System; to the Committee on Energy and Natural Resources.

By Mr. DANFORTH (for himself, Mr. NUNN, and Mr. SANFORD):

S. 1865. A bill to require the Comptroller General of the United States to review and report on the effectiveness and fairness of agency policies and procedures for distributing Federal research funds; to the Committee on Governmental Affairs.

By Mr. SASSER (for himself and Mr. GORE):

S. 1866. A bill to extend the period during which certain property is required to be placed in service to qualify for transition relief under section 203 of the Tax Reform Act of 1986; to the Committee on Finance.

S. 1867. A bill to extend the period during which certain property is required to be placed in service to qualify for transition relief under section 203 of the Tax Reform Act of 1986; to the Committee on Finance.

By Mr. PELL, from the Committee on Foreign Relations:

S. 1868. An original bill to amend the Arms Control and Disarmament Act to authorize appropriations for fiscal year 1990 for the Arms Control and Disarmament Agency, and for other purposes; from the Committee on Foreign Relations; placed on the calendar.

By Mr. NICKLES (for himself, Mr. REID, and Mr. WILSON):

S. 1869. A bill to provide for a statement of costs for congressional mass mailings, and that no more mass mailings of franked mail may be mailed by a Member of Congress, if necessary additional funds are not appropriated, and for other purposes.

By Mr. BENTSEN:

S. 1870. A bill to establish the United States-Mexico Border Regional Commission and to assist in the development of the economic and human resources of the United States-Mexico border region of the United States; to the Committee on Environment and Public Works.

By Mr. DECONCINI:

S. 1871. A bill to amend the Food Security Act of 1985 to clarify the application of certain payment limitations to certain leases involving tribal landlords, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. DANFORTH (for himself, Mr. NUNN, and Mr. SANFORD):

S. Res. 206. A resolution to establish a point of order against material that earmarks research moneys for designated institutions without competition; to the Committee on Rules and Administration.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BOREN:

S. 1860. A bill to amend title 38, United States Code, to require the Secretary of Veterans Affairs to furnish outpatient medical services for any disability of a former prisoner of war;

to the Committee on Veterans' Affairs.

ELIGIBILITY OF FORMER PRISONERS OF WAR FOR OUTPATIENT MEDICAL SERVICES

● Mr. BOREN. Mr. President, today I am introducing legislation to clarify the statute that defines the prioritization of the eligibility of veterans for medical treatment by the Department of Veterans Affairs. This bill amends section 612(a)(1) of title 38, United States Code, to ensure that all POW's receive outpatient care.

In my view, every former prisoner of war captured while serving on orders from the U.S. Government should automatically be eligible for VA medical care.

The evolution of medical treatment for POW's has been a long slow process but has more recently grown into a comprehensive system meeting most of their needs. Much of the credit goes to Members presently serving on the Senate Veterans Committee.

In the early 1940's, the VA procedures for determining compensation and health care eligibility did not yet recognize former POW's as a separate group with special needs. Congress took a small step in the War Claims Act of 1948 by providing $1 a day imprisoned for "inadequate food rations" in violation of the Geneva Convention. After a study in 1950, Congress added another $1.50 per day for "inhumane treatment" and included benefits for survivors. POW's from the Korean conflict or their survivors were authorized, in 1954, payments of $2.50 per day of internment. More recently in 1970, Congress provided $5 per day of confinement, $2 per day for inadequate rations, and $3 per day for inhumane treatment to Vietnam POW's or their survivors.

Recognizing in 1946 the difficulty in defining service-connection for compensation and medical treatment because of lack of official records in POW cases, it was established that the benefit of every reasonable doubt should be resolved in favor of the veteran. This may have eased the ability to assess severe physical and mental damage from brutality, torture, hunger, and disease but there is no way to quantify the stresses of capture—fear, uncertainty, loneliness—on the health and emotions of POW's throughout their lives.

The Congress, during the late 1970's and 1980's, has made significant progress to ensure the provision of adequate health care and compensation for POW's. An example is the broadening of the law to allow the presumption of service-connection in 15 diseases for POW's detained or interned for not less than 30 days.

My bill will correct a problem arising in Public Law 100-322 which included prioritization of veterans for medical care by the DVA. Although for the first time POW's are named as entitled to inpatient care, the problem occurs in that outpatient care is restricted to POW's with 50 percent or more disability.

I am told that, as of June 1989, there are 78,000 former prisoners of war. The provision of outpatient care to these deserving individuals with less than 50 percent disability is estimated by CBO to be less than $1 million of the more than $11 billion in the VA medical care annual budget.

Since I believe the U.S. Government must be committed to provide the health care needs resulting from internment as a prisoner of war, I have introduced this bill to make certain that we never deny medical treatment to a former prisoner of war. I urge quick action on this measure by my colleagues.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1860

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ELIGIBILITY OF FORMER PRISONERS OF WAR TO RECEIVE OUTPATIENT MEDICAL SERVICES FROM THE DEPARTMENT OF VETERANS AFFAIRS.

Section 612(a)(1) of title 38, United States Code, is amended—

(1) by striking out "and" at the end of clause (B);

(2) by striking out the period at the end of clause (C) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new clause:

"(D) to any former prisoner of war for any disability.".●

By Mr. REID:

S. 1861. A bill to amend the Clean Air Act relating to toxic chemicals; to the Committee on Environment and Public Works.

TOXIC POLLUTION DETECTION ACT OF 1989

Mr. REID. Mr. President, on May 8, 1988, a severe fire and explosion occurred at an industrial complex near Henderson, NV. This disaster at the Pacific Engineering and Production Co. [PEPCON] caused massive damage to public and private property in Clark County and the City of Henderson. In addition, the accident generated a chemical reaction which dispersed a large toxic cloud over the area where it remained for several hours. Officials evacuated schools, parks and other facilities.

When the cloud dispersed to the northeast contiguous counties and States were further threatened.

The shock waves from these explosions, which registered 3.5 on the Richter Scale, overturned automobiles, knocked pedestrians to the ground and created property damage totaling $73 million.

There were 350 injuries. Miraculously only 2 people died.

In 1984, poisonous gas leaked from the Union Carbide plant in Bhopal, India and killed 3,400 people. Five years after that unprecedented chemical disaster, an average of two people still die every day. Sadly, Mr. President, both disasters may have been avoided.

Today, I am introducing the Toxic Pollution Detection Act of 1989 to require continuous monitoring of hazardous substances emitted into the workplace at industrial facilities nationwide. Monitoring systems would avert unnecessary disasters; enable us to learn more about the effects of different kinds of air pollution; and reduce worker exposure to dangerous levels of environmental contaminants.

Our production processes have become so advanced, and our technologies have multiplied to such a degree, that we are able to do more in the industrial arena than we ever thought possible. Scientific innovations continue to enhance our capabilities.

But, at some point, we have to step back and eliminate the side-effects of our progress. In too many cass, workers and residents are exposed to toxic chemicals at a level that is entirely unacceptable. Often, the company is also not aware of these chemical emissions.

Reports required by title III of the Superfund legislation indicate that more than 2.4 billion pounds of hazardous chemicals are released into the air every year. But we report the extent of all this pollution after it has done its damage.

I propose we go one step further. My bill calls for the continuous monitoring of emissions as they flow into the air of our workplaces and communities.

If monitoring technology was used in Henderson, NV or Bhopal, India, plant managers would have been alerted to the release of toxic gas, and could have taken action to avert the ensuing disaster. Lives could have been saved. Senseless tragedies could have been avoided.

Because the monitoring data is stored, it can be retrieved and analyzed to determine any correlation between an increased incidence of illness and the release of particular environmental contaminants.

Monitoring data also provides a record that corporations can use in the event of liability actions taken against them. If companies are not guilty as accused, they will be able to absolve themselves with documentation. Companies can use this data to conclusively demonstrate that they were not the source of specific contaminants.

The available chemical monitoring technology can measure and report

the magnitude, frequency, and chemical specifically of emissions.

The few systems in use today permit the monitoring of a many as 25 different toxic gases at as many as 50 points in a facility. The system analyzes the levels of each pollutant at each location every 6 minutes. This information is then stored in a computer with the capacity to trigger a low level alert, or to sound an alarm if any monitored contaminant exceeds its threshold limit value. The system also can tell emergency teams what contaminants have leaked beyond their set safety limit.

Too often, these emergency response teams face unnecessary risks because plant managers are unable to identify the leaked contaminant. There is far too little chemical monitoring by the private sector. Only a few companies have installed monitoring equipment. This slow response represents unnecessary environmental danger and worker exposure.

The toxic Pollution Detection Act requires industries that use certain toxic chemicals to invest in and utilize these chemical monitoring systems. The only monitoring information available now are the reports which tell us what happened yesterday—or last month—or last year. By that time, the damage may already have been done.

In the past few months, I have heard evidence that confirms the necessity of my bill, I have chaired hearings in Washington, DC, and Los Angeles, CA, to investigate health problems stemming from toxic substance exposure in the workplace. I heard evidence that raises serious questions on how prepared we are to utilize our most important scientific advances. Our economy and defense will not thrive without these new chemicals and materials. But their very existence threatens the lives and health of those exposed to such substances.

My bill will enable us to use advanced materials and chemicals without jeopardizing workers in factories or residents of nearby neighborhoods. I urge my colleagues to support this measure. I ask unanimous consent that the text of my bill accompanied by a section-by-section analysis, be printed in the CONGRESSIONAL RECORD following my statement.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1861

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Toxic Pollution Detection Act of 1989".

SEC. 2. FINDINGS.

The Congress finds that—

(1) there have been numerous releases of toxic chemicals into the environment and the workplace;

(2) these releases are hazardous to the health of the public, workers, and emergency response personnel;

(3) these hazards should be minimized and prevented to the maximum extent possible;

(4) technology is available to provide early detection of such releases through the use of continuous monitoring systems;

(5) such continuous monitoring systems are not required by Federal environmental or occupational protection laws; and

(6) the installation of such technologies should be required at all facilities which use toxic chemicals that may be released into the environment or the workplace.

SEC. 3. AMENDMENT.

Section 114 of the Clean Air At (42 U.S.C. 7414) is amended by adding the following new subsection:

"(e)(1) Not later than 6 months after the date of enactment of this subsection, the Administrator shall promulgate regulations for the detection of releases into the environment and the workplace of covered substances capable of being monitored at any facility subject to this subsection, which if released may present an actual or potential risk to human health or the environment. Such regulations shall be adequate to assure protection of human health and the environment. The Administrator shall consult with the Administrator of the Occupational Safety and Health Administration prior to the promulgation of regulations that may affect the workplace environment.

"(2) For the purposes of this subsection, the term 'covered substance' means—

"(A) an extremely hazardous substance listed under section 302 of the Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. 11002) present above a threshold planning quantity established under such section;

"(B) a toxic chemical listed under section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. 11023) present above a threshold amount for reporting established in such section;

"(C) a hazardous chemical listed under section 311(e) of the Emergency Planning and Community Right-to-Know Act of 1986 (42 U.S.C. 11021) present above a threshold quantity established under section 311 of such Act; or

"(D) a hazardous pollutant listed under section 112 of the Clean Air Act (42 U.S.C. 7412) which is subject to an emission standard under such section.

"(3) For the purposes of this subsection, the Administrator or a State may designate additional facilities which shall be subject to the requirements of this subsection after public notice and opportunity for comment. Any facility so designated shall be promptly notified.

"(4) Regulations promulgated pursuant to paragraph (1) shall require continuous monitoring of all devices and systems (including but not limited to pumps, compressors, valves, flanges, pipes and pipelines, connectors, processes, containers, and vessels), storage, facilities, and transfer points in which covered substances are present. For the purposes of this subsection continuous monitoring means the use of an automated system which provides—

"(A) readings of ambient concentrations of all covered substances present, at intervals of not more than 30 minutes, at all locations at which such covered substances are present at the facility;

"(B) continuous records of such monitoring results to a central location within the facility and capacity to store and retrieve such records;

"(C) a low level alarm before the ambient level of a covered substance exceeds the applicable threshold limit value or other legally applicable limitation, whichever is more stringent; and

"(D) a high level alarm which notifies the facility operator and the appropriate emergency response agencies of an emergency situation relating to a catastrophic release or other malfunction of a device or system, and differentiates between an early warning and a situation presenting a present or potential risk to human health or the environment.

"(5) Not later than 9 months after the enactment of this subsection or 9 months after the date on which a facility becomes subject to the requirements of this subsection, the owner or operator of each facility to determine the location and condition of all interior and exterior systems and devices (including pumps, compressors, valves, flanges, pipes and pipelines, connectors, containers, and vessels), storage facilities, and transfer points in which covered substances are present.

"(6) Not later than 24 months after the enactment of this subsection or 24 months after the date on which a facility becomes subject to the requirements of this subsection, the owner or operator of each facility subject to this subsection shall be in compliance with regulations promulgated pursuant to paragraph (e)(1) and shall so certify such compliance to the State in which the facility is located and the Administrator, together with the results of the audit required to be performed under paragraph (5).

"(7) The report required under paragraph (6) of monitoring results shall be filed annually thereafter with the State, the Administrator, the State Emergency Response Committee established under section 301 of the Emergency Planning and Community Right-to-Know Act and the local emergency planning committee established under such section. Such report shall be made available to the public upon request.".

SEC. 4 AMENDMENT.

(a) Section 114(a) of the Clean Air Act is amended as follows:

"(1) in paragraph (1), by striking "may" and inserting in lieu thereof "shall" after "the Administrator";

(2) by amending paragraph (1)(D) to read as follows:

"(D) sample such emissions on a continuous basis both prior to and after treatment before being emitted into the ambient air (in accordance with such methods, at such locations and in such manner as the Administrator shall require), and".

(3) by adding at the end thereof the following new paragraph:

"(3) The Administrator shall promulgate revised regulations to implement the requirements of subsection (a)(1)(D) not later than 12 months after the date of enactment of this paragraph.".

(b) Section 304(a)(1) of the Clean Air Act (42 U.S.C. 7604) is amended by striking "or" before "(B)" and inserting in lieu thereof "or (C) a monitoring requirement under section 114 of this Act,".

SECTION-BY-SECTION ANALYSIS TOXIC POLLUTION DETECTION ACT OF 1989

The purpose of this bill is to require the installation of continuous monitoring systems at facilities that use certain toxic chemicals, which when released into the at-

mosphere or the workplace may cause serious harm to human health or the environment. The bill is written as a new subsection (e) to section 114 of the Clean Air Act, the generic monitoring provision of the law.

Paragraph (e)(1) requires the Administrator of the Environmental Protection Agency (EPA) to promulgate regulations for the detection of releases into the environment and the workplace of certain specified substances. The Administrator is given six months to do so, and is required to consult with the Occupational Safety and Health Administration on matters relating to the workplace.

SUBSTANCES AND FACILITIES COVERED

Paragraph (e)(2) specifies the substances covered by the regulations:

(1) *Substances listed under section 302 of the Emergency Planning and Community Right to Know Act of 1986.* Section 302 covers 406 chemical substances in specified quantity thresholds, which are derived from EPA's "Chemical Emergency Preparedness Program Interim Guidelines". They are designated as "extremely hazardous substances" under Section 302. Under existing law, if a listed substance is present at a facility in a quantity greater than the listed threshold, the facility must notify the local "Emergency Response Commission" that it is covered by section 302. Releases of listed substances must be reported to a local emergency committee and the state.

Under the proposed legislation, these substances are made subject to the continuous monitoring requirement because they are extremely hazardous in nature, and early knowledge of a release will provide warning not now available for workers and the community through early detection.

(2) *"Hazardous chemicals" so categorized by regulations promulgated pursuant to the Occupational Safety and Health Act.* Section 311 of the Emergency Planning and Community Right-to-Know Act applies to any facility at which a hazardous chemical is present, as defined by 29 CFR 1910.1200(c) of the OSHA Hazard Communication Standard, and which is required to prepare an MSDS. (A hazardous chemical is defined as a "chemical which is a physical hazard or a health hazard"; a "chemical" is defined as any element, chemical compound or mixture of elements and/or compounds".) Any such facility must also file its MSDS with the local emergency planning committee, the local fire department and the state.

Section 312 of the Emergency Planning and Community Right-to-Know Act requires these facilities at which hazardous chemicals are present to file a chemical inventory form annually that estimates the annual maximum and average daily amounts of each category of hazardous chemicals at the facility and their general location. The categories to be used for the reports are the categories of health and physical hazards established under the OSHA Act of 1970 and its implementing regulations, i.e., carcinogens, corrosives, irritants. These initial reports are to be filed with the local and state emergency response organizations and the local fire department, starting on March 1, 1988 annually thereafter.

Authority is also provided under section 312 for disclosure of more detailed information about the manner of storage of a specific chemical at a specific facility upon request of a local or state entity or the public. This information can be kept confidential at the request of the facilty owner or operator.

The proposed legislation would require continuous monitoring of these substances, which are by definition a hazard in the workplace.

(3) *Toxic chemicals listed under section 313 of the Emergency Planning and Community Right-to-Know Act.* Section 313 lists 329 toxic chemcials which are routinely released into the environment as a result of normal business operations, as distinct from abnormal, emergency releases. The statutorily listed toxic chemicals are those which cause, or can reasonably be anticipated to cause, significant adverse human health effects, various chronic human health effects, and significant adverse effects on the environment.

Section 313 applies to any facility within SIC Codes 20-39 at which 75,000 or more pounds of one or more of these toxic chemicals is manufactured, or processed each year, and any facility that uses more than 10,000 pounds of a listed toxic chemical a year for purposes other than manufacturing or processing. (The threshold decreases to 50,000 lbs. in 1989, and to 25,000 lbs. thereafter.) Each such facility must file a yearly report starting on July 1, 1988 which details an estimate of the quantity of each chemical present, and for each wastestream, the method(s) of treatment or disposal used, as well as an estimate of the treatment efficiency of each method, and an estimate of the annual amount of the toxic chemical entering each environmental medium (air, water, land, waste treatment and storage facilities).

The bill would take the next step beyond reporting of events that have occurred in the distant past, by requiring continuous monitoring to detect releases so that they can be remedied.

(4) *Air pollutants subject to section 112 of the Clean Air Act.* This provision regulates air pollutants known to cause or which may reasonably be anticipated to cause adverse effects on human health or the environment. Although only eight substances are now regulated under section 112, all of the pending clean air proposals would require EPA to promulgate technology-based standards for scores of additional substances which have toxic characteristics.

FACILITY AUDIT

Each facility subject to this bill is required to perform an audit to determine the location of each system or device, storage facility and transfer point which must be monitored continuously. The audit must be performed no later than nine months after enactment of this legislation.

INSTALLATION OF MONITORING SYSTEM

Within twenty-four (24) months after enactment, each covered facility must have installed a continuous monitoring system, and be in compliance with all requirements of the detection regulations promulgated by EPA.

STACK MONITORING

Section 3 of this bill amends the existing monitoring provision of the Clean Air Act to require the sampling of the input and output of stack emissions on a continuous basis. EPA is required to promulgate revised monitoring regulations to implement this continuous monitoring provision within twelve months.

These regulations will apply to any stationary source subject to an emissions limitation under the Clean Air Act, including requirements of State Implementation Plans.

ENFORCEMENT

Enforcement of the continous monitoring requirements is provided through the existing authorities of the Clean Air Act. These include enforcement by the federal government or a state through an administrative order, or judicial action. Civil penalties of up to $25,000 per day of violation and injunctive relief may be sought.

In addition, this bill authorizes citizen suits to enforce the proposed new continuous monitoring requirements. Any person may bring a civil action against a person alleged to be in violation of the continuous monitoring requirements, or against EPA for failure to take the actions required by the new legislation, such as failure to promulgate the mandated monitoring regulations within the specified deadline.

By Mr. CONRAD:

S. 1862. A bill to ensure the continued stability and viability of recreational opportunities on Lake Sakakawea in the State of North Dakota; to the Committee on Environment and Public Works.

NORTH DAKOTA RESERVOIR MANAGEMENT IMPROVEMENT ACT

Mr. CONRAD. Mr. President, I am introducing the North Dakota Reservoir Management Improvement Act of 1989.

As my colleagues know, the Plains states have suffered from a serious drought during 1988 and 1989. Perhaps no State has been harder hit than North Dakota. The primary impact of the drought has certainly been upon agriculture, but Lake Sakakawea—the impoundment behind the Garrison Dam and one of the Nation's largest man-made lakes—has also been affected dramatically.

As of August 31, storage in Lake Sakakawea, which has a capacity for about 23 million acre feet of water, totaled 14.2 million acre feet, or about 69 percent of the average storage in the reservoir for the period 1967 to 1988.

The lake's level is now down to 1,823 feet above mean sea level, and it continues to drop. It plummeted to 1,820 earlier this year—5 feet below the previous low. The Corps of Engineers predicts that it could drop to as low as 1,816 by next spring. That is more than 30 feet below the optimum operating level of 1,850 feet.

Tourism in the area is down dramatically because recreational use of the reservoir has been made difficult. Many businesses along the lake have closed and will not reopen. Others have serious financial problems and are hanging on by their bootstraps. The water is now 1 mile from one popular resort, and if projections hold, it will be 2 to 3 miles from the water by spring.

Visitation at another popular location along the lake, Fort Stevenson State Park, was down 55 percent in May, 17 percent in June, and 6 percent in July, resulting in a decrease in

income for the marina there of 78 percent from last year.

Mr. President, those declines were in our centennial year when we had literally hundreds of thousands of visitors to North Dakota. Residents are understandably upset by what they view as adverse management of the reservoir by the Corps of Engineers. Low water levels work an obvious hardship on all users of the lake, not just marina owners and others who make their living from tourism on the lake, but also weekend boaters and fishers, cities who get their drinking water from the lake, and all of us who benefit from lower electric rates from hydropower generated at Federal dams.

Recreational users have a difficult time presenting their case because they lack an adequate legal footing to compete with other interests. This bill attempts to remedy that problem by adding recreation and water conservation as authorized purposes at Garrison Dam and Lake Sakakawea.

The bill also requires that the Corps of Engineers establish a drought management plan to cover the reservoir during times of low rainfall and runoff from the Rocky Mountains. Specifically, the bill requires the corps to notify residents of lake level changes due to drought, as well as optimal strategies for meeting all project purposes, especially recreation and water conservation, during rainfall and runoff shortages. These reports are due by October 1, 1990, and must be available for public comment for at least 60 days.

The final section of the bill requires the Secretary of the Army to form a citizens' advisory council to act as a channel of communication between the corp and local residents in resolving disputes. The council would be composed of persons representing recreation; flood control; irrigation; hydroelectric power; municipal, rural, and industrial water use; and navigation.

Although recreation and water conservation were not original purposes when Lake Sakakawea was authorized, the economic impact of the lake cannot be ignored. It is a very significant source of commerce and tax revenue for nearby cities and counties. An industry contributing that much to an area deserves to be recognized and deserves a platform from which to make its case in reservoir management questions.

The measure that I am introducing today is not intended to weaken other functions of Garrison Dam and Lake Sakakawea, such as flood control, irrigation, municipal and industrial water development, and hydropower generation. Rather, it is designed to recognize the significance of recreation and provide a means for recreational interests to have input into reservoir management decisions.

Mr. President, let me just conclude by saying that at the hearing I held in North Dakota about a month ago we learned for the first time that in the midst of this drought, the most serious drought in 50 years, that in 3 of the last 4 months for which the records are complete, the Corps of Engineers has allowed the highest levels of release from that lake in the last 7 years. That is a policy that simply cannot be defended in the face of the adverse economic consequences to my State.

Mr. President, this bill is an attempt to start to rectify the damage that has been done.

Mr. President, I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1862

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "North Dakota Reservoir Management Improvement Act of 1989".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) public demand for recreational use of the reservoir created by the Garrison Dam project in North Dakota, known as Lake Sakakawea, has increased substantially in recent years;

(2) the project, which was originally authorized for flood control, navigation, and hydroelectric power, has brought many benefits to North Dakotans in the form of increased recreational opportunities;

(3) these recreational uses in turn are a significant source of commerce and tax revenue for the counties and municipalities near the lake;

(4) the recent droughts in North Dakota and across the upper Great Plains have increased the importance and difficulty of managing Federal water impoundment projects with a variety of competing purposes;

(5) despite the efforts of managing authorities to balance these project purposes, additional studies and public involvement are needed to ensure consideration of recreational uses;

(6) the possibility remains that future shortages of rain will adversely affect the recreational use of the lake, and steps must be taken in advance to prepare for such shortages; and

(7) the project would be better managed with public opinion taken into account.

(b) PURPOSES.—The purposes of this Act are—

(1) to ensure the consideration of recreational benefits and water conservation in the management of the Garrison Dam project;

(2) to provide for proper planning for droughts in the future; and

(3) to strengthen existing mechanisms for public involvement in the management of water levels in Lake Sakakawea.

SEC. 3. DEFINITIONS.

For the purposes of this Act—

(1) the term "Act" means the Act entitled "An Act authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes", approved December 22, 1944 (70 Stat. 881, chapter 665) (commonly known as the Flood Control Act of 1944);

(2) the term "lake" means Lake Sakakawea, the reservoir of the Garrison Dam project;

(3) the term "project" means the Garrison Dam project in North Dakota, authorized by the Act;

(4) the term "Secretary" means the Secretary of the Army, acting through the Corps of Engineers; and

(5) the term "water conservation" means the management of the lake's water levels through reduced usage or measured usage to build capacity of water in order to ensure the highest possible fulfillment of all project purposes.

SEC. 4. PROJECT PURPOSES.

In addition to the purposes for which the project is managed under the Act and other laws, the Secretary shall manage the project for the purposes of recreation and water conservation.

SEC. 5. DROUGHT MANAGEMENT.

(a) DROUGHT MANAGEMENT PLAN.—The Secretary shall establish, revise, and develop for the project a drought management plan to cover the project in times of low rainfall and low water runoff from the Rocky Mountains.

(b) PLAN CONTENTS.—The plan required by subsection (a) shall include—

(1) mechanisms for notifying lake residents and users of impending drought conditions; and

(2) strategies for meeting all designated project purposes in times of water shortages, including reduced usage or measure usage to build capacity of water.

(c) DRAFT REPORT.—(1) Not later than October 1, 1990, the plan required by subsection (a) shall be included in a draft report to the appropriate district engineer and shall be submitted to—

(A) the Congress;

(B) officials of the State of North Dakota concerned with water supply and water quality management;

(C) local officials in areas immediately adjacent to the project; and

(D) other interested parties deemed appropriate by the Secretary.

(2) The Secretary shall conduct public meetings on the draft plan and invite public comment for a period of at least 60 days.

(d) FINAL REPORT.—Not later than January 1, 1991, a final report of the district engineer including the plan required by subsection (a) shall be submitted to the persons named in subsection (c)(2).

SEC. 6. PUBLIC PARTICIPATION.

(a) PUBLIC OPINION.—In managing the water levels of the lake, the Secretary shall, to the extent feasible, take into consideration the views of the public.

(b) CITIZENS' ADVISORY GROUP.—(1) In furtherance of the purpose of subsection (a), the Secretary shall form a citizens' advisory group to advise the Secretary in project management decisions that will affect the public.

(2) The citizens' advisory group formed pursuant to paragraph (1) shall be comprised of persons representing the following interests in the use of water from the Garrison Dam project:

(A) Flood control.

(B) Irrigation.

(C) Hydroelectric power.

(D) Municipal, rural, and industrial water use.

(E) Navigation.

(F) Recreation.

(3) Persons who serve on the citizens' advisory group formed pursuant to paragraph (1) shall receive no compensation or reimbursement of expenses for such service.

(4) The citizens' advisory group formed pursuant to paragraph (1) shall not be an advisory committee under the Federal Advisory Committee Act (5 U.S.C. App.).

By Mr. FOWLER (for himself, Mr. GRAHAM, Mr. MACK, and Mr. NUNN):

S. 1864. A bill to amend the Wild and Scenic Rivers Act to study the eligibility of the St. Marys River in the States of Florida and Georgia for potential addition to the Wild and Scenic Rivers System; to the Committee on Energy and Natural Resources.

POTENTIAL ADDITION OF THE ST. MARYS RIVER TO THE WILD AND SCENIC RIVERS ACT

● Mr. FOWLER. Mr. President, I rise to introduce the St. Marys Wild and Scenic Rivers Study Act.

This legislation would amend section 5(a) of the Wild and Scenic Rivers Act to include the St. Marys River for study as a potential addition to the National Wild and Scenic Rivers System.

The Wild and Scenic Rivers System was created in 1968 to prevent the despoiling of America's last remaining pristine and free-flowing waterways—in particular those with outstanding scenic, fish and wildlife, recreational, geological, historical, cultural, or other similar values.

Mr. President, I believe that if any river in this country qualifies to be studied for this purpose, the St. Marys does. It has already been included in the Nationwide Rivers Inventory published by the National Park Service in 1982. It is described in the inventory as an attractive, clear, subtropical swamp river with varied and colorful flora and white sandbars—and was noted for having remarkable values in every category.

The river, which forms the boundary between Georgia and Florida, flows for 120 miles from the Okefenokee Swamp directly into the Atlantic Ocean near the Cumberland Island National Seashore.

It is home to varied wildlife, including many threatened and endangered species—from the bald eagle to the red-cockaded woodpecker, from the Florida black bear to the West Indian manatee.

Presently human population and development are sparse for most of the length of the river, until it reaches St. Marys, GA, and Fernandina, FL, at the coast. We have an excellent opportunity to maintain the higher reaches of this natural treasure in a condition very close to their wild state.

This is, however, a limited opportunity. Time is running out on this rare unspoiled blackwater river system as development pressures close in from both sides of the river. These forces will be very difficult to control in this fragile watershed that bounds two separate State jurisdictions.

Enactment of this legislation would postpone any Federal water projects until completion of the study. It would have no effect on private lands, hunters, or fishermen. The bill provides for completion of the study within 3 years of enactment.

The study would be conducted by the Department of the Interior and presented to the President along with recommendations from other Federal agencies and the Governors of Georgia and Florida. The President of the United States would then submit a recommendation to Congress whether the St. Marys should be incorporated into the Wild and Scenic Rivers System.

The St. Marys River is one of the very few nearly unspoiled rivers left in this Nation. I believe the least we can do is give it the consideration for protection it deserves because of its natural beauty and its ecological importance.

I also think we owe it to the children of Florida and Georgia, who may be denied any remnant of their natural birthright—and who run a real risk of never experiencing the wild and scenic beauty of an unmolested, free-flowing river in their home States, in their lifetimes.●

By Mr. NICKLES (for himself, Mr. REID, and Mr. WILSON):

S. 1869. A bill to provide for a statement of costs for congressional mass mailings of franked mail may be mailed by a Member of the Congress, if necessary additional funds are not appropriated, and for other purposes; to the Committee on Rules and Administration.

STATEMENT OF COSTS OF CONGRESSIONAL MAILINGS

Mr. NICKLES. Mr. President, today, Senator REID, Senator WILSON, and I are introducing legislation which would require all Members of Congress to disclose their mass mail costs and would shut down mass mailings once appropriations for official mail has been exhausted. The lack of these provisions in the fiscal year 1990 legislative branch appropriations conference report, which passed earlier today, has left significant loopholes in a worthy official mail reform effort.

Mr. President, the Senate has passed legislation to achieve these needed reforms before, but the House has, as of yet, refused to go along. As chairman and ranking member of the Senate Legislative Branch Subcommittee, Senator REID and I included such provisions in the subcommittee's fiscal year 1990 appropriations bill. It was in conference with the House that the two provisions we are reintroducing today, disclosure and limiting mass mail to the appropriated amount, were dropped.

Mr. President, the disclosure provisions are nearly identical to the provisions which passed the Senate with one exception. In addition to requiring the per capita mail costs to be published, this legislation would also require the number of pieces of mail per capita to be disclosed.

The provision limiting mass mailing to the appropriated amount is a variation of what passed the Senate. The provision I am offering would not allow any Member of the House or Senate to mail any more mass mailings once the Postal Service determined that the appropriation for the Member's Chamber had been exhausted and so notified the House or the Senate, as the case may be. By distinguishing between the two Chambers we take advantage of the separate mail accounts for each Chamber established under the fiscal year 1990 appropriations measure.

One positive note of the conference that will provide increased accountability between the House and Senate appropriations for the two Chambers. In and of itself, this change accomplishes little in the way of reducing mail costs and abuse. But if the House continues past practices of running up mail costs and the Senate can stay within the appropriated amount, the finger of blame will point squarely at the House and its members. With the increased accountability, needed reforms such as these I am introducing will surely be demanded by the American people and adopted by Congress.

Due to a lack of accountability for mail costs, it is a little known fact that on average, House Members have been spending four times as much as Senators on congressional mail per constituent.

Perhaps it is this information which causes the House to be so averse to disclosing individual Member's mail costs. Disclosure of mail costs is nothing new to the Senate. Senators' individual costs of mailing to constituents has been publicized since 1985. It's an honest, up-front practice that has helped curb the use and abuse of the frank.

The conferees on the fiscal year 1990 legislative branch spending bill also rejected the proposal to stop congressional mailings once the appropriated funds have been exhausted. Oddly enough, current law requires the Postal Service to continue accepting and delivering congressional mail even after funds for such mail have run out.

During fiscal year 1990, $68.5 million will remain available for official mail costs by the House and Senate with $44.5 million allocated to the House and $24 million allocated to the

Senate—$31.7 million provided in the bill will pay for fiscal year 1989 arrearages.

The amount of official mail funds available for use during fiscal year 1990 is a significant, but perhaps meaningless, reduction from the actual levels for previous years. The amount provided for fiscal year 1990 use is lower than the actual costs incurred in every even-numbered year since 1980. But, as I have stated, this reduction is meaningless unless the House and Senate stay within these limits. History shows this isn't likely to happen unless Congress is legislatively required to do so.

Mr. President, I ask unanimous consent that a document comparing the original or regular appropriation for official mail with the actual cost for fiscal years 1972–89 be included in the RECORD at this point.

There being no objection, the document was ordered to be printed in the RECORD, as follows:

I. CONGRESS' OFFICIAL MAIL ORIGINAL APPROPRIATION COMPARED TO ACTUAL COST

Fiscal year	Original appropriation	Total cost	Cost compared to regular appropriation
1972	14,594,000	23,206,337	8,612,337
1973	21,226,480	26,285,410	5,058,930
1974	30,500,000	31,302,243	802,243
1975	38,756,015	35,976,325	(2,779,690)
1976	46,101,000	52,973,703	6,872,703
Transition quarter [1]	11,525,000	19,174,774	7,649,774
1977	46,904,000	41,419,599	(5,484,401)
1978	48,926,000	48,926,000	0
1979	64,944,000	42,942,642	22,001,358
1980	50,707,000	61,905,902	11,198,902
1981	36,633,000	53,862,013	17,229,013
1982	75,095,000	100,038,225	24,943,225
1983	55,196,000	72,432,960	17,236,960
1984	107,077,000	110,957,336	3,880,336
1985	73,944,000	85,160,794	11,216,794
1986	100,000,000	95,938,635	(4,061,365)
1987	91,423,000	63,624,912	(27,798,088)
1988	82,163,000	113,359,647	31,196,647
1989 [2]	53,926,000	85,626,000	31,700,000

[1] Transition quarter when fiscal year shifted from July to October.
[2] Fiscal year 1989 actual cost is based on the Postal Service's arrearage estimate.

Source: 1972–88 figures and 1989 regular appropriation figure from "U.S. Congress Official Mail Costs: Fiscal Year 1972 to Present," by John Pontius, Congressional Research Service, June 13, 1989.

Mr. NICKLES. Mr. President, earlier I mentioned that House Members have been incurring mail costs four times that of Senate Members. Simply put, the cost figures demonstrate that for each congressional mailing constituents receive from their U.S. Senator, they are getting four from their Representative.

Under the funding levels provided under the fiscal year 1990 legislative branch appropriations bill, the House will receive $44.5 million for official mail while the Senate will have $24 million available for its use. In reality, the Senate mail account should be twice as large as the House mail account as two Senators represent the same constituent represented by a single House Member.

When considering House and Senate Members' mail costs, comparing on a per constituent or per capita basis is the only way to fairly assess mail costs as total dollar figures do not reflect the difference in population between a congressional district and a State.

In order to compare mail costs on a per constituent basis, the Senate account must be divided by one-half to compare with the House as each U.S. citizen from a State is represented by three elected officials in Congress, one in the House and two in the Senate.

In recent years, House Members, on average, have been spending approximately four times the amount being spent by Senators on a per constituent basis. Mr. President, I ask unanimous consent that a historical summary of these mail costs appear in the RECORD at this point.

There being no objection, the document was ordered to be printed in the RECORD, as follows:

II. COMPARISON OF HOUSE AND SENATE OFFICIAL MAIL COSTS

The following statistics show House mail costs averaged among Members compared to Senate mail costs averaged among Members on a per constituent basis.

An examination of the actual total mail costs of the House of Representatives and the Senate for fiscal years 1972 to 1988 demonstrates that House Members, on average, have spent more than Senators by the factor listed below:

1972	7.7
1973	4.9
1974	4.6
1975	4.3
1976	5.2
1977	4.1
1978	5.1
1979	3.7
1980	4.7
1981	4.7
1982	3.0
1983	2.5
1984	3.1
1985	2.3
1986	3.4
1987	4.6
1988	4.4

Source: Statistics derived from "U.S. Congress Official Mail Costs: Fiscal Year 1972 to Present," by John Pontius, Congressional Research Service, June 13, 1989.

Mr. NICKLES. Mr. President, it is because of these figures that the other body prefers to hide when it comes to mail costs. It is unfortunate that these costs and their actions to hide these costs has evaded public scrutiny for so long. This is not to suggest that disclosure will result in the elimination of mass mailings. It will not. But it will enhance accountability which has been desperately lacking.

These changes are simple and straightforward. And they are sorely lacking in the conference report.

Mr. President, I ask unanimous consent that a copy of the bill be printed in the RECORD following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1869

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. STATEMENT OF COSTS AND RELATED EXPENSES OF CONGRESSIONAL MASS MAILINGS.

(a) Two weeks after the close of each calendar quarter, or as soon as practicable thereafter, the Sergeant at Arms and Doorkeeper of the Senate shall send to each Senator a statement of the cost of postage and paper and of the other operating expenses incurred as a result of mass mailings processed for such Senator during such quarter. The statement shall separately identify the cost of postage and paper and other costs, and shall distinguish the costs attributable to newsletters and all other mass mailings. The statement shall also include the total cost per capita in the State. A compilation of all such statements shall be sent to the Committee on Rules and Administration. A summary tabulation of such information shall be published quarterly in the CONGRESSIONAL RECORD and included in the semiannual Report of the Secretary of the Senate. Such summary tabulation shall set forth for each Senator the following information: the Senator's name, the total number of pieces of mass-mail mailed during the quarter, the total cost of such mail, and the number of pieces and the cost of such mail divided by the total population of the State from which the Senator was elected.

(b) Two weeks after the close of each calendar quarter, or as soon as practicable thereafter, the House Commission on Congressional Mailing Standards shall send to each Member of the House of Representatives a statement of the cost of postage and paper and of the other operating expenses incurred as a result of mass mailings processed for such Member during such quarter. The statement shall separately identify the cost of postage and paper and other costs, and shall distinguish the costs attributable to newsletters and all other mass mailings. The statement shall also include the total cost per capita in the area from which such Member was elected. A compilation of all such statements shall be sent to the House Committee on House Administration. A summary tabulation of such information shall be published quarterly in the CONGRESSIONAL RECORD and included in the quarterly Report of the Clerk of the House. Such summary tabulations shall set forth for each Member of the following information: the Member's name, the total number of pieces of mass-mail mailed during the quarter, the total cost of such mail, and the number of pieces and cost of such mail divided by the total population of the area from which the Member was elected.

SEC. 2. RESTRICTIONS ON FRANKED CONGRESSIONAL MASS MAILINGS EXCEEDING APPROPRIATED FUNDS.

Section 3216(c) of title 39, United States Code, is amended by inserting "(1)" after "(c)" and adding at the end thereof:

"(2)(A) If, at any time during a fiscal year, the Postal Service determines that the postage on and fees and charges in connection with matter mailed under the frank by the House of Representatives during that year have exhausted the amount appropriated for use by the House of Representatives, then no more mass mailings (as defined in section 3210(a)(6)(E)) may be mailed by any Member of the House of Representatives during the remainder of that fiscal year, unless additional funds are appropriated for

use by the House of Representatives and paid to the Postal Service.

"(B) If, at any time during a fiscal year, the Postal Service determines that the postage on and fees and charges in connection with matter mailed under the frank by the Senate during that year have exhausted the amount appropriated for use by the Senate, then no more mass mailings (as defined in section 3210(a)(6)(E)) may be mailed by any Member of the Senate during the remainder of that fiscal year, unless additional funds are appropriated for use by the Senate and paid to the Postal Service.".

By Mr. BENTSEN:

S. 1870. A bill to establish the United States-Mexico Border Regional Commission and to assist in the development of the economic and human resources of the United States-Mexico border region of the United States; to the Committee on Environment and Public Works.

UNITED STATES-MEXICO BORDER REGIONAL DEVELOPMENT ACT

● Mr. BENTSEN. Mr. President, I am pleased to introduce today legislation to bring badly needed development assistance to the United States-Mexico border areas. This legislation, the United States-Mexico Border Regional Development Act, has been introduced in the House of Representatives by my distinguished colleague Congressman RON COLEMAN of El Paso. This bill would establish a southwest border regional commission to spur economic development along the border and to help meet the pressing health and infrastructure needs of that area of our Nation.

Mr. President, there are few if any areas of our country more in need of economic assistance. This area has the dubious distinction of having the county with the lowest per capita income in the United States—Starr County, TX. In fact, 4 of the 10 lowest per capita income counties in the Nation are along the United States-Mexico border.

The border areas have a large supply of good labor, unfortunately, because the unemployment rate is extremely high in these areas. In addition to high unemployment and low per capita income, the border also suffers from a severe lack of infrastructure and poor health conditions. A large part of the health problems stem from the fact that tens of thousands of people along the border live in unincorporated communities known as colonias. Many of these colonias lack even basic water and sewer services. As a result the disease problems in these areas are severe.

In addition, along the border we are less able to cope with these increased health hazards since there is only one doctor for every 1,150 patients—compared to 600 patients per physician in the rest of Texas.

The border between the United States and Mexico is the only place in the world where a major industrialized country shares a boundary with a developing nation.

That single fact compounds all the problems confronting people who live along the border in Texas.

Tens of millions of gallons of raw sewage are pumped into the Rio Grande every day by cities on the Mexican side of the border, compounding the health problems that we have in Texas, particularly in the colonias which have no water or sewer systems.

Along the border unemployment is higher and per capita income lower than anywhere else in Texas, or most of the rest of the United States.

The border is also the third fastest growing region in America. The population is projected to double by the year 2000, compounding the difficulty and magnitude of the problem.

This proposal is a major, dramatic initiative to offer Texans who live along our border with Mexico a bigger share in the American dream.

No one is suggesting that the United States-Mexico Border Regional Commission will have the power or resources to bring prosperity to the border, but I am convinced it can help set the stage for economic development. It can help us overcome inertia, solve problems and realize the potential of the region.

This proposal is a classic example of how our public and private sectors can work together to solve problems in America. The way I see it, the Regional Commission would help direct resources toward infrastructure, education and public health. The border area is rich in opportunity, and with a healthy, well-educated work force and the infrastructure to support modern industry the private sector will see to it that the economic opportunity that has so long bypassed this region is finally brought in. This Commission can be the catalyst that sparks the private sector interest and investment this area so desperately needs.

The United States-Mexico border unites as well as divides two great nations. It is a logical, attractive place to site manufacturing facilities and start up joint ventures to meet the growing needs of American and Mexican markets. The Regional Commission can get the ball rolling by building up the infrastructure and developing the human capital along the border. Then it will be up to the private sector to move in, broaden the tax base, create jobs, help train people to fill them and seek markets on both sides of the border.

I want to compliment RON COLEMAN for his leadership on this issue in the House.

I am pleased to work with him on this issue. I was born on that border, in the Rio Grande Valley of south Texas, and many members of my family are still there. My roots run deep there. The valley is my home.

But the issue here is much more than the old home ties. The issue is whether tens of thousands of U.S. citizens are going to have a share of the hope and opportunity that we call the American dream. The issue is whether children will continue to walk through ankle-deep sewage after a hard rain, and whether we as a nation want to endure the expense to taxpayers and the suffering to sick children and their families of the rampant disease problems resulting from the lack of the most basic amenities. Amenities that most Americans take for granted—a sink with running water, a flush toilet. The issue is whether the citizens of these areas will continue to be the poorest of the poor, consigned to third-world living and economic conditions, or whether they will have an opportunity to be one of those thousand points of light.

Mr. President, I urge my colleagues to join me in supporting passage of this needed legislation.●

By Mr. DECONCINI:

S. 1871. A bill to amend the Food Security Act of 1985 to clarify the application of certain payment limitations to certain leases involving tribal landlords, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

CLARIFICATION OF THE FOOD SECURITY ACT OF 1985

● Mr. DECONCINI. Mr. President, today I am introducing legislation which addresses some of the problems that Indian tribes are facing under current agricultural restrictions on the payment limitation to Indian farming ventures.

In 1978, the Department of Agriculture [USDA] exempted Indian tribes from payment limitation requirements for the number and amount of payments which could be received under USDA programs. This exemption placed an upper limit on the amount of payments based upon tribal members. From 1978 to 1988, Indian tribal ventures participated in USDA programs without regard to the payment limitation provisions. Tribal farming operations were planned and conducted in reliance on the existence of this exemption.

In 1987, the Food Security Act of 1985 was amended in the Agricultural Reconciliation Act. Nothing in the 1987 Act or in its legislative history even suggested that it was intended to alter the existing treatment of Indian farming ventures. However, in 1988, as a result of the act, USDA repealed the Indian tribe exemption. This repeal resulted in onerous restrictions on the Indian farming operations particularly with respect to the leasing of farmland to or from nontribal farmers.

I took great steps to resolve the problems administratively. Through

exhaustive meetings with the representatives from the various tribes, the Bureau of Indian Affairs, and the Department of Agriculture, we worked to find solutions to these problems. After a discussion with Secretary Yeutter and thanks to the able assistance of the Senate Agriculture Committee most of the problems have been resolved.

However, one very serious problem remains. Under the new USDA regulations a tribe is now penalized if they lease tribal farmland to a nontribal farmer, and if the tenant farmer fails to comply with the payment limitation requirements then the tribe is penalized for the noncompliance of this third party. It is the considered opinion of USDA that this problem can only be corrected by legislation.

The legislation that I am proposing is designed to prevent tribes from being penalized for the action of third-party tenants. The legislation would amend 7 U.S.C. 1308(5)(D) by providing that where a tribe cash rents land on the reservation to a tenant, the tribe will not be penalized if the tenant subsequently is found to be out of compliance, so long as (a) the land was leased pursuant to Federal statutes governing the leasing of lands on Indian reservations, (b) the lease was approved by the Secretary of the Interior, and (c) the tenant has a farm operating plan approved by the Secretary of Agriculture prior to its participation during the lease term in any program under the Food Security Act of 1985.

The Congress has continually sought to assist the severely underdeveloped and poverty stricken tribal economies to achieve economic self-sufficiency. This legislation will work to this end by restoring the protection previously afforded to Indian farm operations.●

ADDITIONAL COSPONSORS

S. 219

At the request of Mr. MOYNIHAN, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 219, a bill to exclude the Social Security Trust Funds from the deficit calculation and to extend the target date for Gramm-Rudman-Hollings until fiscal year 1997.

S. 346

At the request of Mr. WIRTH, the name of the Senator from Georgia [Mr. NUNN] was added as a cosponsor of S. 346, a bill to amend the Alaska National Interest Lands Conservation Act, and for other purposes.

S. 419

At the request of Mr. SASSER, his name was added as a cosponsor of S. 419, a bill to provide for the collection of data about crimes motivated by race, religion, ethnicity, or sexual orientation.

S. 747

At the request of Mr. DECONCINI, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 747, a bill to amend chapter 44 of title 18, United States Code, regarding assault weapons.

S. 1270

At the request of Mr. MCCAIN, the names of the Senator from South Dakota [Mr. DASCHLE], the Senator from Washington [Mr. GORTON], and the Senator from North Dakota [Mr. CONRAD] were added as a cosponsors of S. 1270, a bill to provide an Indian mental health demonstration grant program.

S. 1277

At the request of Mr. FORD, the name of the Senator from Nevada [Mr. REID] was added as a cosponsor of S. 1277, a bill to amend the Federal Aviation Act of 1958 to prohibit the acquisition of a controlling interest in an air carrier unless the Secretary of Transportation has made certain determinations concerning the effect of such acquisition on aviation safety.

S. 1333

At the request of Mrs. KASSEBAUM, the name of the Senator from Tennessee [Mr. SASSER] was added as a cosponsor of S. 1333, a bill to amend the International Air Transportation Competition Act of 1979.

S. 1430

At the request of Mr. KENNEDY, the name of the Senator from Vermont [Mr. JEFFORDS] was added as a cosponsor of S. 1430, a bill to enhance national and community service, and for other purposes.

S. 1457

At the request of Mr. HATFIELD, the name of the Senator from Mississippi [Mr. COCHRAN] was added as a cosponsor of S. 1457, a bill to amend the Older Americans Act of 1965 to authorize demonstration projects to provide innovative volunteer opportunities to older individuals to provide nursing aide services to residents of nursing homes.

S. 1613

At the request of Mr. BRADLEY, the name of the Senator from New York [Mr. MOYNIHAN] was added as a cosponsor of S. 1613, a bill to temporarily suspend the duty on tamoxifen citrate.

S. 1622

At the request of Mr. HEINZ, the name of the Senator from Tennessee [Mr. GORE] was added as a cosponsor of S. 1622, a bill to promote environmental sector lending by the World Bank.

S. 1630

At the request of Mr. BAUCUS, the name of the Senator from California [Mr. WILSON] was added as a cosponsor of S. 1630, a bill to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes.

S. 1661

At the request of Mr. PRYOR, the names of the Senator from Arizona [Mr. MCCAIN] and the Senator from Michigan [Mr. LEVIN] were added as cosponsors of S. 1661, a bill to amend the Internal Revenue Code of 1986 to provide for a tax credit for qualifying disability expenses.

S. 1710

At the request of Mr. BRADLEY, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 1710, a bill to temporarily suspend the duty on iohexol.

S. 1749

At the request of Mr. BRADLEY, the names of the Senator from Georgia [Mr. NUNN], and the Senator from Georgia [Mr. FOWLER] were added as cosponsors of S. 1749, a bill to restore previous exemption for edible molasses containing more than six percent (6%) non-sugar solids.

S. 1758

At the request of Mr. GLENN, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of S. 1758, a bill to provide for the establishment of an Office for Small Government Advocacy and for other purposes.

S. 1791

At the request of Mr. ROCKEFELLER, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 1791, a bill to amend the International Travel Act of 1961 to assist in the growth of international travel and tourism into the United States, and for other purposes.

S. 1823

At the request of Mr. BENTSEN, the name of the Senator from Iowa [Mr. GRASSLEY] was added as a cosponsor of S. 1823, a bill to amend the Social Security Act to increase the amount of earnings exempt from reduction under the retirement test under title II of such Act.

SENATE JOINT RESOLUTION 140

At the request of Mr. GLENN, the names of the Senator from Kansas [Mr. DOLE], the Senator from Pennsylvania [Mr. HEINZ], the Senator from Missouri [Mr. BOND], the Senator from Hawaii [Mr. INOUYE], and the Senator from New York [Mr. MOYNIHAN] were added as cosponsors of Senate Joint Resolution 140, a joint resolution designating November 19-25, 1989, as "National Family Caregivers Week."

SENATE JOINT RESOLUTION 212

At the request of Mr. BURNS, his name was withdrawn as a cosponsor of Senate Joint Resolution 212, a joint resolution designating April 24, 1990, as "National Day of Remembrance of

the Seventy-Fifth Anniversary of the Armenian Genocide of 1915-1923."

SENATE JOINT RESOLUTION 218

At the request of Mr. INOUYE, the names of the Senator from California [Mr. WILSON], the Senator from South Dakota [Mr. PRESSLER], and the Senator from Minnesota [Mr. DURENBERGER] were added as cosponsors of Senate Joint Resolution 218, a joint resolution to designate the week of December 3, 1989, through December 9, 1989, as "National American Indian Heritage Week."

SENATE CONCURRENT RESOLUTION 52

At the request of Mr. HATFIELD, the name of the Senator from Alaska [Mr. MURKOWSKI] was added as a cosponsor of Senate Concurrent Resolution 52, a concurrent resolution to express the sense of the Congress that science, mathematics, and technology education should be a national priority.

SENATE CONCURRENT RESOLUTION 73

At the request of Mr. MOYNIHAN, the names of the Senator from North Carolina [Mr. SANFORD], the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Rhode Island [Mr. CHAFEE], the Senator from California [Mr. CRANSTON], the Senator from West Virginia [Mr. ROCKEFELLER], the Senator from Montana [Mr. BURNS], the Senator from New Hampshire [Mr. HUMPHREY], the Senator from Indiana [Mr. LUGAR], the Senator from Minnesota [Mr. DURENBERGER], the Senator from Utah [Mr. GARN], the Senator from Tennessee [Mr. GORE], the Senator from Indiana [Mr. COATS], the Senator from South Dakota [Mr. DASCHLE], the Senator from Vermont [Mr. JEFFORDS], the Senator from Michigan [Mr. LEVIN], the Senator from Kentucky [Mr. MCCONNELL], the Senator from Oklahoma [Mr. NICKLES], and the Senator from Delaware [Mr. ROTH] were added as cosponsors of Senate Concurrent Resolution 73, a concurrent resolution to express the support of the Congress for the courageous people of Colombia.

SENATE RESOLUTION 113

At the request of Mr. HEINZ, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of Senate Resolution 113, a resolution to discontinue the use of polystyrene foam products in the Senate Food Services.

SENATE RESOLUTION 206—EARMARKING OF UNIVERSITY RESEARCH FUNDS

Mr. DANFORTH (for himself, Mr. NUNN, and Mr. SANFORD) submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 206

Resolved, That (a) during consideration by the Senate of a bill, resolution, or conference report or amendments between the Houses—

(1) the Presiding Officer shall sustain a point of order made by any Senator against material that—

(A) designates by name or other means of description a particular public or private college, university, nonprofit institution, or group or consortium of such institutions as the recipient of research funds (including funds for the construction, operation, or maintenance or research facilities); or

(B) otherwise interferes with or precludes award or allocation of research monies in accordance with—

(i) the requirements contained in section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) and section 2304 of title 10, United States Code, in the case of a contract; and

(ii) the use of procedures other than competitive or other merit-based procedures, in the case of a grant;

(2) any part of the measure that contains such material shall be stricken from the bill; and

(3) it shall not be in order to offer such material as an amendment from the floor.

(b) An affirmative vote of three-fifths of the Senators duly chosen and sworn shall be required to sustain an appeal of the ruling of the Presiding Officer on a point of order raised hereunder or to waive or suspend the provisions of this resolution.

● Mr. DANFORTH. Mr. President, on June 18, 1989, the Washington Post disclosed a scandal. Taxpayers' hard-earned dollars are being recycled to lawmakers in a wasteful, damaging chain of events. Universities hire lobbyists. The lobbyists persuade Members of Congress to earmark Federal funds for home State projects. The universities receive their funding and pay the lobbyists. The lobbyists contribute to the Members' campaigns. The Members are reelected. The universities seek more funds. They hire the lobbyists and the cycle starts all over again.

Mr. President, I ask unanimous consent that the Washington Post article be printed in the RECORD immediately following these remarks.

In response to this exposé, the chairman of the Senate Appropriations Committee acted immediately. He authored language in the fiscal year 1990 Interior appropriations bill to break this endless round of earmarked funds, lobbyists' fees, and campaign contributions. This provision, which was recently passed by Congress, requires the registration of all lobbyists who attempt to obtain earmarked university research dollars. Furthermore, it prohibits the use of Federal funds to pay for such lobbying. During debate on this legislation, Senator BYRD eloquently made his case, and I quote from his floor statement of July 26.

Every Senator in this body ought to be repulsed by the perception that we will dole out the bucks if stroked by the right consultant. * * * The American people are fed up. We cannot afford to have scarce resources frittered away on wasteful projects, simply because they are being promoted by well-connected lobbyists. The erosion of the public trust in government officials, and, indeed, trust in the entire government structure will continue if steps are not taken to curb rampant abuses * * *.

Mr. President, the distinguished senior Senator form West Virginia is second to none in his love for the Senate. During his 40 years of loyal Senate service, Senator BYRD has been majority leader and minority leader. He is the President pro tempore. He is the chairman of the Appropriations Committee. He is the distinguished author of a definitive history of the Senate. Time and again, he reminds us, through words and example, of our duties as representatives of the people. He willingly fights unpopular battles to protest the integrity of this body. It should come as no surprise to anyone that, when the honor of the Senate was threatened, ROBERT BYRD took up arms.

I commend Senator BYRD for his timely action. He saw a dangerous practice impugning the integrity of this body and he responded posthaste. Senator BYRD's bill is a good one. Precious Federal dollars should not be lining the pockets of greedy middlemen.

But, Mr. President, upon reflection, I have come to the conclusion that we must go further. The relationship between Congress and the people should be a fiduciary relationship—one based on trust and confidence. The people expect Congress to spend their tax dollars wisely, even frugally. The practice of congressional earmarking of Federal research funds is not consistent with our obligation to the people to manage their money carefully. Once again, it is Senator BYRD who has said it best:

Even when tax dollars are not used to pay lobbyists, the awarding of Federal contracts * * * on any basis other than merit is not in the best interests of the country and should not be tolerated.

Mr. President, we must have the courage to face the root of the problem. Pork-barrel politics is the root of the problem. Until we change our way of doing business, we will continue to jeopardize the integrity of this institution and the people's trust in it.

Congressional earmarking of Federal research funding is an insidious practice. First, it squanders limited research money. Second, it weakens our Nation's impressive research infrastructure—and, consequently, our ability to compete in the international marketplace. Third, it creates a no-win conflict of interest for Members of Congress. Fourth, it undermines public trust in government. And finally, it hurts the very constituents we seek to help. The only solution is to eliminate this practice. Today Senator NUNN and I are submitting a Senate resolution to restore integrity to the Federal research grant process. We must show the American people that

their trust in Congress is not misplaced.

The Federal Government spends over $60 billion annually on research and development. That sounds like a lot, but two-thirds is for defense research and development. Only 14 percent goes to academic institutions. During this decade, Federal R&D spending has increased at a declining rate. The growth from 1988 to 1989 is the lowest rate of real R&D growth since 1975. During the past two decades, other countries have boosted their R&D spending rates faster than the United States. Our biggest competitors spend about the same proportion of their GNP on R&D, but there is a big difference in the kind of R&D that is purchased. As a percentage of GNP, Japan and West Germany heavily outspend the United States in nondefense R&D. In 1989, for example, Japan is expected to spend 2.8 percent of its GNP on nondefense R&D, West Germany will spend 2.6 percent, and the United States will spend 1.7 percent.

Earmarking squanders our precious research dollars. The Federal Government has a finite amount of money. That money should be spent in the most productive way. We should be buying only the highest quality research. Resources available for university research are so scarce that many meritorious proposals go unfunded. We cannot afford congressional porkbarreling of pet projects.

Members of Congress are policymakers. We are not qualified to evaluate and choose among competing scientific research proposals. None of us is a practicing physicist, engineer, chemist, or biologist. None of us knows what revolutionary idea is waiting in the laboratory, unknown to any but a few brilliant scientists, but soon to be the next technology of the future—the next superconductor, the next high definition television. American taxpayers deserve the best research their money can buy. To get the best return on our research, spending decisions must be based on merit, not politics. When research money is spent on the basis of politics, on the basis of who sits on what committee, on the basis of self-serving lobbying, we are wasting the public's money.

America's research institutions are the best in the world. The quality of our basic science and technology is essential to the national defense, public health, economic vitality, and competitiveness. Since the end of World War II, we have built and sustained a capacity for basic research—mostly in our universities—that is the envy of the world. This academic infrastructure was built on the peer review process. We maintain its excellence through careful review by experts who ensure that support goes to our best scientists and engineers. But this merit-based system is undermined by congressional earmarking. In the words of former Secretary of Defense Casper Weinberger:

> The competition process which has been supported by Congress has contributed to the preeminence that our nation's universities enjoy * * * earmarking of research funds for specific universities, without merit competition, establishes a precedent that could jeopardize this preeminence.

Earmarking does not just reallocate funding that would otherwise go to Harvard, Stanford, and MIT. Rather, it takes money from competitive research universities—large and small, private and public, in all regions. As National Science Foundation Director Eric Bloch stated in a speech last year:

> [Earmarking] is the wrong way to make these decisions. A political approach squanders scarce resources and the result may be a weaker national science and technology capability and a weaker nation.

Unfortunately, earmarking is on the rise. In fiscal year 1989, Congress earmarked at least $289 million to specific colleges and universities for pet projects. This is a 1-year increase of 23 percent over the fiscal year 1988 total of $225 million. In fiscal year 1989, nearly 17 percent of the total Department of Agriculture appropriation of $337.3 million for university research was earmarked, half of it for research and the other half for facilities construction. Similarly, 15 percent of the Department of Energy's university research budget of $489.9 million was earmarked. The research and development budget of the National Institute of Standards and Technology [NIST] is only $159 million in fiscal year 1989, of which nearly 10 percent was earmarked. What should be an objective academic decision is becoming a political one.

Because every good research project cannot be funded, politicians find it irresistible to slice up the hog when it comes their way. The system creates a terrible dilemma for every one of us. A Senator is expected to promote the interests of his constituents by bringing home the bacon. Everyone is tempted to play the earmarking game. The mentality is akin to a run at the bank. "If others are doing it, I have to do it too, or my State won't get anything."

However, by succumbing to the temptation, by acting in the narrow interest, Members are undermining our great university system—including their own States' universities. Earmarking shrinks the amounts of research funds available for the truly deserving projects at all universities, including those schools that receive earmarked money. When we fund one special research project, pressure from other universities grows. As they see the pie getting smaller, panic sets in. More institutions seek earmarked funding. Each time an institution successfully bypasses the normal merit procedure, more schools and Members are persuaded that political maneuvering is necessary.

In the end, this creates a no-win situation for Members, as well as for constituents. If Members do not earmark funds, they risk being accused of neglecting their constituents. If they do earmark, they are criticized by the press for serving parochial interests at the expense of the Nation. Recent news headlines highlight this problem. "Legislators Dunk For Plums in Federal Pork Barrel," Boston Globe, July 5, 1989; "Hog Heaven," Common Cause magazine, July/August, 1986; "Select Few in Congress Decide How the Money Will Be Spent," Washington Post, May 30, 1989; "Biggest Pork Barrel Ever: $225 Million For Projects That Bypassed Merit Review," the Chronicle of Higher Education, January 27, 1988; "Science Gets Political; Congress' Pork-Barrel Grants Threaten Our Progress," Los Angeles Times, March 29, 1987. The press continually challenges the validity of these decisions—as indeed it should. Even as Congress attempts to please the voters, the voters are further convinced of Congress' venality and ineptitude.

Interestingly, earmarking does not even help the States that lose in the merit review process. From fiscal 1980 through fiscal 1989, five States received nearly 42 percent of all earmarked money. Three of the five, Massachusetts, New York, and Illinois, are also among the top 10 recipients of Federal research grants based on merit review. Overall, the 10 States that rank the lowest in merit-based research support have won less than 8 percent of the earmarked funds. Those who argue that congressional earmarking rewards the have-nots are mistaken.

The solution is to eliminate the pressure to earmark. The only way to eliminate the pressure is to prohibit earmarking altogether. Academic research is facing a funding crisis. By eliminating the incentive to earmark, we restore objectivity and integrity to the grant process.

The resolution that we are introducing establishes a point of order against any legislation which earmarks civilian or defense research funds, or research facilities construction or operations moneys. When the point of order is sustained, the offending provision is automatically deleted and cannot be offered as a floor amendment. The point of order could only be overruled by a supermajority of the Senate.

Mr. President, the Washington Post article did not impugn the integrity of the universities. It did not even impugn the integrity of the lobbyists. But it did challenge the integrity of this institution. We can change that.

Taxpayers can continue to get quality research. And our universities and scientists can still have the best kind of incentive—good, old-fashioned competition on the merits. Universities won't be pitted against each other to woo Congressmen.

If this resolution is enacted, only the best, most technically qualified research will be funded. Our university system will benefit. America's research base will be stronger. Congressmen will be released from the no-win conflict-of-interest dilemma.

Mr. President, a number of my colleagues may agree that a system based on merit is preferable to a system based on politics, but they may not trust the present merit review system. I have heard it said that the merit review system is an old boys' network, that we need earmarks to help generate research in our smaller, less advantaged schools. Mr. President, I submit that these arguments are shortsighted. University research is too important, too critical to our economic future, to be left to politics.

The merit review system works. We have been using it in this country for over 50 years, beginning with the establishment of the National Cancer Advisory Council. Merit review provides an equitable, objective means for qualified, impartial scientists to select worthwhile research project applications for Federal funding. Although specific merit review procedures vary among the Federal agencies, scientific excellence lies at the heart of these decisions. In recent years, with scarce Federal funding, more agencies have adopted the merit review system because it is the fairest method to allocate limited funds.

For instance, the National Science Foundation has developed an external peer review system to ensure that the best proposals receive awards. External reviewers are selected from approximately 60,000 scientists throughout the country, representing every State. These men and women come from large universities and small colleges, industry, and government and foreign research organizations. Once a proposal is received, it is categorized according to its scientific field and given a preliminary assessment by the NSF program officer for that field. Then several peer review scientists review the proposal, either through a mail review, a panel review, or a combination of the two. The merit recommendations are sent to the NSF program officer who compiles the peer review information and makes an award recommendation to the NSF directors. The directors make the final funding decision. The National Science Foundation's merit review process has been in existence for nearly 40 years. It has worked well. It is the appropriate way to conduct business.

Is it an old boys' network? Does it ensure that the established east and west coast universities receive the major share of Federal research funds? Mr. President, there is no evidence to suggest such a conspiracy. The only old boys' network is here in Congress, where Members who don't know their way around a test tube or a Bunsen burner are making critical, long-range funding decisions based on political pressures and parochial interests.

But let us not ignore these concerns. Where criticisms are legitimate, they must be corrected. We should audit the process. We should require regular and periodic reviews of the system used in each agency to ensure fairness and effectiveness. To this end, we are also introducing S. 1865, legislation to require a General Accounting Office [GAO] audit of the agencies' award policies and procedures, a review of the implementation of those policies and procedures, and an evaluation of their effectiveness. The GAO would report its findings at the beginning of each Congress. If the deck is stacked in favor of a few established institutions, or a select group of prominent scientists, we can eliminate bias and ensure that all qualified researchers can compete on an equal footing.

Some Members may be concerned that the less advantaged schools will never have an opportunity to compete in the merit system if we don't build them up first through earmarks. But the situation we are facing in the international marketplace is too serious to neglect the best research. You don't go into battle unprepared. We are in an economic war, fighting for America. How can we compete with the best and brightest of Japan and Europe if we don't support our own? Our scientists and students cannot win the competitiveness war without resources. If we squander our limited research dollars on projects that have not been subject to merit review, that have not been scrutinized by the experts, we doom the entire system to mediocrity.

If we want to help the less advantaged institutions—and I think we should—we should do it through established programs, not by picking winners and losers based on political horse trading. We have a responsibility to provide high-quality educational opportunities for our young scientists and engineers throughout the Nation. Congress has created such programs to develop local high-quality institutions, like the Experimental Program to Stimulate Competitive Research [EPSCOR]. That program was started in 1978 to improve the quality of science and engineering and to increase the number of scientists and engineers able to compete successfully for Federal grants. Awards based strictly on merit, totaling millions of dollars and benefiting hundreds of scientists, have been made to institutions in many States. The National Science Foundation's merit review process takes geographic factors into consideration. These are legitimate policy choices that we in Congress should make. But impartial scientific review by experts must be the larger context for funding decisions.

As Robert Rosenzweig, president of the Association of American Universities, said:

> We can't build quality and intellectual worth simply by putting money in places where the foundation for quality doesn't exist.

Unless research projects and facilities are awarded to universities based on a competitive scientific review, the quality of science in the United States will deteriorate. In an era of budget deficits and annual squabbles over desperately needed research funding, congressional earmarking makes a difficult dilemma even worse. If we expect to keep our lead in research and development, we must get the most out of every research dollar.

The resolution we are submitting today allows the merit review system to do its job: Choose those proposals eligible for Federal aid based on their technical and scientific merit. Only then can we be assured that research facilities are not being built without adequate staff to support them. Only then can we be assured that moneys are being distributed fairly to universities throughout the Nation. To quote my distinguished colleague, Senator NUNN:

> If we accept earmarking, the pressure on every Senator to take care of his state's universities will be enormous. Is that what we want? To pit our schools against one another at the pork barrel?

The answer is a resounding "No." The time to act is upon us. To keep our lead in research and technology, American universities must receive the dollars they deserve based on merit, not on politics. To accomplish this, we have to stop earmarking. The time to stop it is now.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

AS FEDERAL FUNDING TIGHTENS, LOBBYISTS FIND A SURER WAY

(By Dan Morgan)

Until 1985, the National Defense Stockpile Transaction Fund was a little-known entity in the federal bureaucracy that bought and sold scarce commodities such as chrome and titanium for the country's strategic needs.

That was before the Washington lobbying firm of Cassidy and Associates figured out that it could be a useful device for getting money out of the Appropriations committees of Congress for its university clients.

Gerald S.J. Cassidy, a former congressional staffer who heads the lobbying firm, persuaded the appropriators to pass millions of dollars through the Stockpile Fund to finance the construction of "strategic materi-

als research centers" at universities in their home states and districts.

Since 1985, they have used this method to set aside $78 million for nine universities—including four Cassidy clients. The annual amount has been growing. As markups of the 1990 spending bills get under way this month, the Cassidy firm has two new university candidates for the pass-through funds and is seeking a second $3 million for Loyola College's still-unfinished "Center for Advanced Information and Resource Management Studies"—a project whose relevance to the stockpile is not clear.

Under Cassidy's tutelage, the appropriators have come to appreciate the potential of the Stockpile Fund as a vehicle for justifying appropriations for construction of university facilities. Management of the stockpile itself was transferred from the General Services Administration to the Defense Department in February 1988. But the Appropriations subcommittees on Treasury, Postal Service and general government, which have jurisdiction over GSA, have refused to relinquish control over the stockpile to the defense appropriations subcommittees.

The stockpile story points up one of the legislative ironies of the 1980s. As domestic programs have been cut or held at low levels, some lobbyists have prospered as never before.

As universities, research labs, towns and counties found it increasingly difficult to get funds from the executive branch, pressure mounted to obtain grants the sure way—through line items written directly into appropriations legislation by Congress.

These pressures have brought Capitol Hill lobbyists into the picture as seldom before. And those developments, in turn, connected with the insatiable demand of members of Congress for ever larger campaign war chests to ward off challengers. In some cases, Washington lobbyists, law firms and corporate representatives became an extension of the fund-raising operations of congressional offices as those offices were becoming more crucial to the lobbyists for funds-starved clients.

"The whole atmosphere was entirely different in the '70s," when money seemed less important, said a lobbyist who asked not to be identified. But in the 1980s, he added, "Everything got ginned up. People came to work in government to make contacts and then went out and sold those contacts. And the whole thing was driven by the rising cost of campaigns."

"Self-interest is the name of the game," said another lobbyist. "It's a difficult way to establish national policy."

Few if any lobbying firms have been more successful at exploiting the new era of budgetary austerity than Cassidy and Associates. Cassidy, 48, is a liberal Democrat who twice served as general counsel of the Senate Select Committee on Nutrition and Human Needs, chaired by then-Sen. George S. McGovern (D-S.D.). Cassidy was a founder in 1975 of what is now Cassidy and Associates.

Since 1983, it has helped place language in appropriations bills that allocated more than $400 million in grants to at least 38 clients—mostly for construction.

Cassidy does not reveal his fees, but a spokesman said that the firm has charged as much as $50,000 a month to a client who received "a much broader representation than the majority of our clients." One new client, Western Townships Utilities Authority of Plymouth, Mich., is charged $300 an hour, according to a recent lobbying report.

The firm grossed $15 million last year, and expects to reach $21 million to $22 million this year, having added 30 clients since Jan. 1. Cassidy reports.

PUTTING MONEY BACK INTO POLITICS

Some of this money circulates back into politics.

Cassidy, his wife, members of his staff and his clients have contributed $100,000 to $200,000 to congressional campaigns since 1983, according to Federal Election Commission reports. In 1987-88 alone, Cassidy and his wife, Loretta P. Cassidy, contributed $49,250 to dozens of incumbents and challengers, most of them Democrats.

Several of Cassidy's non-university clients, including Ocean Spray Cranberries and Pirelli Cable Co., have political action committees and have given heavily in the last five years. In addition, Cassidy and his clients have contributed generously to university chairs named for members of Congress, and have participated in numerous testimonials and fund-raisers for charities.

At the same time, Cassidy has unabashedly used his congressional connections. Since 1982, he has hired a steady stream of Appropriations Committee staffers and aides of top House and Senate members.

Cassidy established close relations in the House with then-Speaker Thomas P. "Tip" O'Neill Jr. (D-Mass.) and then-Majority Leader Jim Wright (D-Tex.). In 1984, the firm hired one of O'Neill's top aides, Carl F. Godfrey. Two years later, as Wright was about to replace O'Neill as speaker, Cassidy gave a job to Richard M. Pena, a foreign policy adviser to Wright.

In early 1987, Cassidy hired Donald P. Smith from the staff of the House Appropriations subcommittee on energy and water development, where the Cassidy firm had scored some of its most impressive legislative successes. From fiscal 1984 through fiscal 1988, 16 Cassidy clients were allocated several hundred million dollars in legislation cleared by the subcommittee.

Cassidy described Smith as a "very good friend" of the subcommittee chairman, Rep. Tom Bevill (D-Ala.) There is no House rule against former House employees lobbying their former employers, but Cassidy said Smith was assigned to other duties when he first joined the firm.

Cassidy also gave a part-time job to the wife of Rep. Doug Walgren (D-Pa.) for 21 months beginning in September 1985. Carmala Walgren said she did no lobbying and performed mainly pro bono work for the Children's Inn at the National Institutes of Health.

At the time, Walgren was chairman of a subcommittee that has jurisdiction over the National Science Foundation and played a role in making policy for federal support of university research. That job gave him a critical position in deciding whether it was appropriate for Congress to earmark funds for favored academic research projects. Walgren said he took the position that it was "not wrongful" for Congress to earmark funds in that way.

Cassidy defends his aggressive style of operation as a means to a beneficial end—getting federal money for deserving academic and scientific projects.

"I think it's positive and I applaud the members [of Congress] who are taking the lead in doing that," he said during an interview in his Metropolitan Square building offices, where the firm occupies 14,000 square feet. "The dollars would not be spent if they were not being pushed through by members who had an interest in seeing technology advanced."

"The term 'pork barrel science' really sticks in the craw," said Roy Meyers, Cassidy's comunications director, responding to suggestions that the projects are without value. "These things are up and going. They are good, viable projects that contribute to the national interest."

Defenders of the system of earmarking funds for congressionally favored research argue that although the system may not be ideal, even haphazard allocation of funds for basic research can produce useful results.

However, that view is challenged by critics such as the Association of American Universities, which said that lobbyist and members of the Appropriations Committees are not the best judges of the nation's academic and scientific needs.

Evaluating the congressionally mandated projects is difficult. Congress's watchdog arm, the General Accounting Office, seldom if ever tries.

Others suggest that the earmarking of funds for favorite projects in their home states spares members of the key Appropriations panels from feeling the full pain of the budget squeeze and may make it easier for Congress to postpone the tough choices on taxes, spending and national priorities necessary to end massive federal deficits.

A STRATEGY IS BORN

The Stockpile Fund story illustrates how a successful lobbying idea can mushroom from a brainstorming session in a downtown Washington office into a multimillion-dollar spending program.

As Cassidy's president and chief operating officer, James P. Fabiani, recalled the story, it involved a little luck.

A client, the University of Massachusetts at Amherst, was losing scientists and urgently needed new ideas, he said. Cassidy officials learned that the scientists specialized in work on plastic-like materials that could substitute for rare metals such as titanium. Using computerized compilations of appropriations laws, researchers matched up the word "titanium" with the National Defense Stockpile Transaction Fund, and a strategy was born, according to Fabiani.

It was a natural fit. Rep. Silvio O. Conte, the ranking Republican on the powerful House Appropriations Committee, represented the town of Amherst, and had been Fabiani's boss on Capitol Hill until 1982. Fabiani held an education degree from the university.

As ranking minority member of the full committee, Conte is a member of the subcommittee that originated spending legislation for GSA and the stockpile. Cassidy had contributed $500 to Conte's campaign in 1984, and Fabiani had given $1,000.

The idea was for Amherst to create a "strategic and critical materials research facility" and have money passed through the Stockpile Fund to finance its construction. Conte had $9.5 million inserted in the House subcommittee's version. To balance it, then-Sen. Paul Laxalt (R-Nev.) put in the same amount on the Senate side for a similar center at the University of Nevada in Reno.

Each facility received another $5 million the following year.

In the fiscal 1988 spending measure, five projects were added and the Amherst center got a final $5 million.

One of the new recipients was the University of Hawaii at Manoa, a Cassidy client

that was allocated $19 million over the next two years for a "strategic ocean minerals research facility." Hawaii was well-positioned on the Appropriations Committees to get the funds. Rep. Daniel K. Akaka (D-Hawaii) is a senior member of the Appropriations subcommittee on Treasury, Postal Service and general government, and Sen. Daniel K. Inouye (D-Hawaii) sits on the Senate Appropriations Committee.

Both members have received campaign contributions from the Cassidy and Associates staff, Vincent M. Versage, a former aide to Hawaii's other Democratic senator, Spark M. Matsunaga, contributed $2,000 to Akaka in 1987-88. Versage works on the Hawaii account at the Cassidy firm.

A NEW IMAGE FOR LOYALA PROJECT

Early last year, Loyola College in Maryland hired Cassidy and Associates. Officials of several other Jesuit colleges that were Cassidy clients recommended the firm, according to Loyola Provost Thomas Scheye. At the time, Loyola College's planned computing center was still not much more than a hole in the ground. The college had raised only $5.5 million of the $13.5 million it needed to complete the building.

But in the hands of two of Cassidy's lobbyists, the project was given a stylish new image.

In the presentation shaped by Fabiani and Versage, the center became more than just a place to train college and graduate students in computers. It was also to house a Center for Advanced Information and Resources Management Studies."

Scheye said he felt this description was justified. Loyola had a business school, and had trained defense contractors and employees of the Social Security Administration in management techniques and computers, he noted.

But even the Cassidy firm had to stretch to see how such a center could be funded through the national stockpile. The link was made thanks to a House Armed Services Committee report expressing concern about the management of the Stockpile Fund.

According to language drafted by Cassidy and Associates and congressional staff, and inserted into a Senate Appropriations subcommittee report on June 17, 1988, the new Loyola center would "begin to address these and other federal systems management problems on a government-wide basis."

The report of the Senate subcommittee stated that "specialized management education and training" should be made available to the National Defense Stockpile and recommended $4 million for the Loyola center for this purpose.

On Aug. 12, House and Senate conferees approved $3 million for Loyola.

Scheye said the college had been in contact with the Maryland congressional delegation earlier about getting federal money, but that Fabiani and Versage focused particularly on Sen. Barbara A. Mikulski (D-Md.), an adjunct professor at Loyola, and Rep. Steny H. Hoyer (D-Md.). Both serve on the Appropriations subcommittees that oversee the stockpile.

Scheye said he considered the fee of "close to" $10,000 a month that Loyola is still paying the Cassidy firm as money well spent. "They taught us things about how you deal with members of Congress," he said. "But I think Congress helped because our representatives are convinced we can make a contribution in this area."

Meanwhile, advocates and critics of the stockpile earmarking continue their debate. The Bureau of Mines, whose modest, competitive program of research grants to 32 colleges and unversities in 32 states used to be only a vehicle for supporting research in this area, maintains that these earmarked funds passed through the stockpile fund are being spent "absent clearly defined national needs or peer review of the research projects proposed."

The stockpile fund itself has not been affected by the earmarking. It continues to buy and sell reserves of strategic materials and is essentially self-supporting. The earmarked appropriations are simply passed through the fund, which does not even administer or oversee them.

This year, the Cassidy firm is seeking another $3 million for Loyola and is representing two new applicants, Rochester Institute of Technology and Michigan Technological University.

A recent round of hiring appears to be taking the firm in new directions, toward lobbying of the executive branch and different congressional areas. Among recent additions to Cassidy's staff are retired general P.X. Kelley, former Marine Corps commandant; Peter O. Murphy, former special U.S. trade negotiator; Robert A. Farmer, chief fund-raiser in Massachusetts Gov. Michael S. Dukakis's 1988 presidential campaign who will keep his job as treasury of the Democratic National Committee; and Robert K. Dawson, former associate director of the Office of Management and Budget.

At OMB, Dawson oversaw the Energy Department budget and was a steady critic of congressional earmarks for favorite projects within the budget.

THE CASSIDY CLOUT

Funds earmarked to Cassidy clients by House and Senate Appropriations subcommittees since 1983:

Subcommittees on Energy and Water:

Catholic U., laboratory, $13.9 million.

Columbia U., laboratories, $23.7 million.

Atlanta U., technology center, $12 million.

Brown U., technology center, $9.8 million.

U. of Alabama, nuclear research center, $12.3 million.

St. Christopher's Hospital, Philadelphia, $14.8 million.

Arizona State, engineering center, $15 million.

Indiana U., education center, $3 million.

Children's Hospital, Pittsburgh, $15 million.

Mount Sinai Medical Center, gene institute, $12.7 million.

Medical U. of S. Carolina, cancer research center, $16 million.

U. of Alabama at Huntsville, applied optics center, $10.6 million.

Drexel U., technology center, $12 million.

Boston U., physics institute, $8.5 million.

Boston College, multipurpose center, $4 million.

Loma Linda U., cancer research center, $19.6 million.

Northwestern U., research institute, $25.3 million.

Northwestern U., science center, $6 million.

W. Virginia U., energy center, $6 million.

Pirelli Cable Co., more than $5.4 million.

Subcommittees on Transportation:

Barry University, airway management facility, $4 million.

Subcommittees on Defense:

Rochester Institute of Technology, microelectronics, $11 million.

Lehigh U., innovation center, $7.5 million.

Subcommittees on Treasury and Postal Service:

U. Mass at Amherst, critical materials center, $19.5 million.

U. of Hawaii at Manoa, material research center, $19 million.

U. of Utah, polymer center, $11 million.

Loyola College, Md., resource management center, $3 million.

Subcommittees on Commerce, Justice and State:

Boston U., science and engineering building, $19 million.

Pirelli Cable Co., $4 million.

Subcommittees on Rural Development and Agriculture:

U. Nebraska, technology center, $50,000.

Gonzaga U., technology center, $1.875 million.

U. of S. Mississippi, polymer institute, $10 million.

U. of Hawaii and Oceanic Institute, aquaculture centers, $3 million.

Louisiana Public Facilities Authority, $13 million.

Subcommittees on Veterans Affairs, HUD, Independent Agencies:

Challenger Space Center, $10 million (pro bono client).

Subcommittees on Labor, Health and Human Services and Education:

U. of Bridgeport; technology institute, $5 million.

Subcommittees on Foreign Operations:

Fudan Foundation, $4 million (no figure specified by subcommittee).

American Hospital in Shanghai, $3 million (no figure specified by subcommittee).

Subcommittees on Interior:

West Virginia University, energy research center, small amount.

Northwestern University, energy research center, small amount.

THE REVOLVING DOOR

The Cassidy and Associates employees listed here were hired from Appropriations Committees and key congressional offices. Their date of hire appears in parentheses.

James P. Fabiani, House Appropriations subcommittee on labor, health and human services. (1982)

Donald P. Smith, House Appropriations subcommittee on energy and water. (1987)

George A. Ramonas, staff of Sen. Pete V. Domenici (R-N.M.), member, Senate Appropriations Committee. (1985)

Elliott M. Fiedler, staff of Rep. David R. Obey (D-Wis.), chairman, Appropriations subcommittee on foreign operations. (1987)

Julia M. Jones, staff of Rep. Joseph M. McDade (R-Pa.), member, House Appropriations Committee.

Carl F. Godfrey, executive assistant to then Speaker Thomas P. O'Neill Jr. (D-Mass.). (1984)

Richard M. Pena, foreign policy aide to then-Majority Leader Jim Wright (D-Tex). (1985)

Jonathan M. Orloff, staff of Sen. Edward M. Kennedy (D-Mass.), chairman, Committee on Labor and Human Resources. (1985)

James H. Johnson, staff of then-Rep. Trent Lott (R-Miss.), GOP Whip. (1984, hired as consultant)

Willard F. Cox, staff of then-Rep. Don Fuqua (D-Fla.), chairman, Committee on Science and Technology. (1983)

Vincent M. Versage, staff of Sen. Spark M. Matsunaga (D-Hawaii), member, Committee on Energy and Natural Resources. (1984)

Peter Glavas, staff of Sen. David L. Boren (D-Okla.), member, Finance Committee. (1988)●

● Mr. NUNN. Mr. President, by introducing this resolution, Senator DANFORTH continues to demonstrate his leadership in the effort to eliminate earmarking of Federal funds to universities, colleges, and other institutions. The Senate Armed Services Committee has consistently opposed any earmarking of Defense funds. Senator DANFORTH, while not a member of our committee, has always been a strong partner in our fight. In fact, he has been the leader in the Senate in this effort. I have welcomed his support in the past and I now fully support the resolution he has introduced.

Last year, the House and the Senate agreed to a provision in the Defense Authorization Act which directs that grants and contracts to universities and colleges be competitively awarded based strictly on merit. This legislation took effect on October 1. Both the House and Senate Armed Service Committees reaffirmed their opposition to earmarking in their actions on this years Defense authorization bill. In addition, the Senate recently defeated an attempt to introduce three new earmarking projects using defense research funds.

Research funds are becoming harder to find to support any federally funded research at universities and colleges. This does not imply, however, that there is any less need for this research. Today, U.S. industry and commerce are being challenged around the world, in both development of new products and in producing them for the marketplace. Further, while there recently has been a warming in our relations with the Soviet Union, it would be foolish indeed to reduce our defense research programs that help maintain our warfighting technological superiority. The foundation of our Nation's lead in science and technology lies in the research done by our colleges and universities. Where that work should be performed must be decided on the basis of institutional merit by those best qualified to decide. I believe that congressional earmarking is not the way to allocate these funds. Merit-based competition is the best way to make these allocations.

Senator DANFORTH's resolution enhances the antiearmarking provisions already in place for the Defense Department. It provides the Senate with a straightforward method to oppose earmarking by permitting a point of order to be raised whenever an earmarking occurs. Further, it expands the fight against earmarking beyond the Defense Department to extend across the entire scope of federally funded research projects. The Federal Government funds about two-thirds of all research performed in universities and colleges. The Defense Department ranks third as a provider of these funds, contributing between 10 and 15 percent of the total. There definitely is a need to enforce merit-based awards of grants and contracts for all federally funded programs and Senator DANFORTH's resolution provides us with just such a mechanism.

Mr. President, the future of the Nation resides in our colleges and universities. They are the pillars that support the Nation's research and technology infrastructure. They produce both the new ideas and the scientists and engineers vital to our Nation's security and economic prosperity. Our universities and colleges are unmatched in their accomplishments and they must be properly supported if we are to maintain our position as a world leader. The academic community has made clear its opposition to statutory earmarking. The presidents of the National Science Foundation and the National Academy of Science have spoken out against this practice. The Secretary of Defense recently stated his opposition to earmarking of research funds in a letter he sent to me. Pork barrel politics has no place today in funding Federal research at colleges and universities. I urge our colleagues to support the DANFORTH resolution and provide this body with an effective tool to stop this unnecessary practice.●

AMENDMENTS SUBMITTED

LEGISLATIVE BRANCH APPROPRIATIONS, FISCAL YEAR 1990

WILSON AMENDMENT NO. 1091

Mr. WILSON proposed an amendment to the amendment of the House to the amendment of the Senate numbered 6 to the bill (H.R. 3014) making appropriations for the legislative branch for the fiscal year ending September 30, 1990, and for other purposes, as follows:

In Amendment number 6, in the text proposed by the House to be inserted, strike out all up to and including *"Provided,* That, of the amounts" and insert in lieu thereof the following:

"$100,229,000 of which $8,978,000 is available only for Senate official mail costs, to be disbursed by the Secretary of the Senate, $14,530,000 is available only for House official mail costs, to be disbursed by the Clerk of the House, $31,721,000, which may only be expended in fiscal year 1990, and $45,000,000 is available for Model Projects Program for Pregnant and Post Partum Women and their Infants to be spent pursuant to 42 U.S.C. 290aa-13 to remain available until expended;

"Provided, That subsection (c) of section 3216 of title 39, United States Code, is repealed;

"Provided further, That notwithstanding any other provision of this Act, there is hereby prohibited the use of the franking privilege for unsolicited mass mailings, as described in section 3210(a)(6)(E) of title 39, United States Code;

"Provided further, That only monies appropriated by law for official mail costs of the Senate and the House of Representatives may be used to defray such costs;

"Provided further, That the Committee on Rules and Administration may establish a minimum allocation of funds for mail costs of Senators representing states with fewer than three million residents and may allocate funds for the mail costs incurred by Senators prior to the date of enactment of this Act prior to making an allocation of funds to each Senator for authorized mail costs; and

"Provided further, That of the amounts".

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS, FISCAL YEAR 1990

COATS (AND OTHERS) AMENDMENT NO. 1092

Mr. COATS (for himself, Mr. DOLE, Mr. MCCAIN, Mr. ARMSTRONG, Mr. HUMPHREY, Mr. NICKLES, Mr. MACK, Mr. HELMS, Mr. BURNS, Mr. ROTH, Mr. KASTEN, Mr. DANFORTH, Mr. MURKOWSKI, Mr. WILSON, Mr. THURMOND, Mr. GORTON, Mr. SYMMS, Mr. BOND, and Mr. BOSCHWITZ) proposed an amendment to the bill (H.R. 3015) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1990, and for other purposes, as follows:

At the appropriate place, insert the following:

SEC. . LEGISLATIVE LINE ITEM VETO ACT OF 1989.

(a) SHORT TITLE.—This section may be cited as the "Legislative Line Item Veto Act of 1989".

(b) ENHANCEMENT OF SPENDING CONTROL BY THE PRESIDENT.—The Impoundment Control Act of 1974 is amended by adding at the end thereof the following new title:

"TITLE XI—LEGISLATIVE LINE ITEM VETO RESCISSION AUTHORITY

"PART A—LEGISLATIVE LINE ITEM VETO RESCISSION AUTHORITY

"GRANT OF AUTHORITY AND CONDITIONS

'SEC. 1101. (a) IN GENERAL.—Notwithstanding the provisions of part B of title X and subject to the provisions of part B of this title, the President may rescind all or part of any budget authority, if the President—

"(1) determines that—

"(A) such rescission would help balance the Federal budget, reduce the Federal budget deficit, or reduce the public debt;

"(B) such rescission will not impair any essential Government functions; and

"(C) such rescission will not harm the national interest; and

"(2)(A) notifies the Congress of such rescission by a special message not later than 20 calendar days (not including Saturdays, Sundays, or holidays) after the date of enactment of a regular or supplemental appropriations Act or a joint resolution making continuing appropriations providing such budget authority; or

"(B) notifies the Congress of such rescission by special message accompanying the submission of the President's budget to

Congress and such rescissions have not been proposed previously for that fiscal year.

The President shall submit a separate rescission message for each appropriations bill under paragraph (2)(A).

"(b) RESCISSION EFFECTIVE UNLESS DISAPPROVED.—(1)(A) Any amount of budget authority rescinded under this title as set forth in a special message by the President shall be deemed canceled unless during the period described in subparagraph (B), a rescission disapproval bill making available all of the amount rescinded is enacted into law.

"(B) The period referred to in subparagraph (A) is—

"(i) a Congressional review period of 20 calendar days of session under part B, during which Congress must complete action on the rescission disapproval bill and present such bill to the President for approval or disapproval;

"(ii) after the period provided in clause (i), an additional 10 days (not including Sundays) during which the President may exercise his authority to sign or veto the rescission disapproval bill; and

"(iii) if the President vetoes the rescission disapproval bill during the period provided in clause (ii), an additional 5 calendar days of session after the date of the veto.

"(2) If a special message is transmitted by the President under this section during any Congress and the last session of such Congress adjourns sine die before the expiration of the period described in paragraph (1)(B), the rescission shall not take effect. The message shall be deemed to have been retransmitted on the first day of the succeeding Congress and the review period referred to in paragraph (1)(B) (with respect to such message) shall run beginning after such first day.

"DEFINITIONS

"SEC. 1102. For purposes of this title the term 'rescission disapproval bill' means a bill or joint resolution which only disapproves a rescission of budget authority, in whole, rescinded in a special message transmitted by the President under section 1101.

"PART B—CONGRESSIONAL CONSIDERATION OF LEGISLATIVE LINE ITEM VETO RESCISSIONS

"PRESIDENTIAL SPECIAL MESSAGE

"SEC. 1111. Whenever the President rescinds any budget authority as provided in section 1101, the President shall transmit to both Houses of Congress a special message specifying—

"(1) the amount of budget authority rescinded;

"(2) any account, department, or establishment of the Government to which such budget authority is available for obligation, and the specific project or governmental function involved;

"(3) the reasons and justifications for the determination to rescind budget authority pursuant to section 1101(a)(1);

"(4) to the maximum extent practicable, the estimated fiscal, economic, and budgetary effect of the rescission; and

"(5) all facts, circumstances, and considerations relating to or bearing upon the rescission and the decision to effect the rescission, and to the maximum extent practicable, the estimated effect of the rescission upon the objects, purposes, and programs for which the budget authority is provided.

"TRANSMISSION OF MESSAGES; PUBLICATION

"SEC. 1112. (a) DELIVERY TO HOUSE AND SENATE.—Each special message transmitted under sections 1101 and 1111 shall be transmitted to the House of Representatives and the Senate on the same day, and shall be delivered to the Clerk of the House of Representatives if the House is not in session, and to the Secretary of the Senate if the Senate is not in session. Each special message so transmitted shall be referred to the appropriate committees of the House of Representatives and the Senate. Each such message shall be printed as a document of each House.

"(b) PRINTED IN FEDERAL REGISTER.—Any special message transmitted under sections 1101 and 1111 shall be printed in the first issue of the Federal Register published after such transmittal.

"PROCEDURE IN SENATE

"SEC. 1113. (a) REFERRAL.—(1) Any rescission disapproval bill introduced with respect to a special message shall be referred to the appropriate committees of the House of Representatives or the Senate, as the case may be.

"(2) Any rescission disapproval bill received in the Senate from the House shall be considered in the Senate pursuant to the provisions of this section.

"(b) FLOOR CONSIDERATION IN THE SENATE.—

"(1) Debate in the Senate on any rescission disapproval bill and debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours. The time shall be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

"(2) Debate in the Senate on any debatable motion or appeal in connection with such a bill shall be limited to 1 hour, to be equally divided between, and controlled by, the mover and the manager of the bill, except that in the event the manager of the bill is in favor of any such motion or appeal, the time in opposition thereto shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from the time under their control on the passage of the bill, allot additional time to any Senator during the consideration of any debatable motion or appeal.

"(3) A motion to further limit debate is not debatable. A motion to recommit (except a motion to recommit with instructions to report back within a specified number of days, not to exceed 1, not counting any day on which the Senate is not in session) is not in order.

"(c) POINT OF ORDER.—(1) It shall not be in order in the Senate or the House of Representatives to consider any rescission disapproval bill that relates to any matter other than the rescission of budget authority transmitted by the President under section 1101.

"(2) It shall not be in order in the Senate or the House of Representatives to consider any amendment to a rescission disapproval bill.

"(3) Paragraphs (1) and (2) may be waived or suspended in the Senate only by a vote of three-fifths of the members duly chosen and sworn.".

COMMODITY EXCHANGE ACT AUTHORIZATION

GORTON AMENDMENT NO. 1093

(Ordered to lie on the table.)

Mr. GORTON submitted an amendment intended to be proposed by him to the bill (S. 1729) to amend the Commodity Exchange Act to reauthorize such act, and for other purposes, as follows:

At the end of title VIII, add the following new section:

SEC. . TRANSFER OF AUTHORITY FOR STOCK INDEX FUTURES.

(a) IN GENERAL.—Section 2(a) (7 U.S.C. 4a) is amended by adding at the end the following new paragraph:

"(12) Notwithstanding any other provision of law—

"(A) contracts of sale (or options on such contracts) for future delivery of a group or index of securities (or interest therein or based on the value thereof) shall be deemed to be securities under the Federal securities laws and subject to the exclusive jurisdiction of the Securities and Exchange Commission; and

"(B) the functions of the Commodity Futures Trading Commission relating to the regulation of stock index futures under this Act are transferred to the Securities and Exchange Commission.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall become effective on March 1, 1990.

NIOBRARA RIVER DESIGNATION AS WILD AND SCENIC RIVER

JOHNSTON AMENDMENT NO. 1094

Mr. MITCHELL (for Mr. JOHNSTON) proposed an amendment to the bill (S. 280) to amend the Wild and Scenic Rivers Act by designating a segment of the Niobrara River in Nebraska as a component of the Wild and Scenic Rivers System, as follows:

On page 11, line 2, strike "With" and insert in lieu thereof "Within".

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AUTHORIZATION

GORE (AND HOLLINGS) AMENDMENTS NOS. 1095 AND 1096

Mr. MITCHELL (for Mr. GORE, for himself and Mr. HOLLINGS) proposed two amendments to the bill (S. 916) to authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, as follows:

AMENDMENT NO. 1095

On page 31, at the end of line 21, insert the following: "None of the NASA Small Business Innovation Research Program funds may be used for travel or civil service salaries."

AMENDMENT NO. 1096

On page 32, line 19, delete the "." and insert the following: ": *Provided*, That the National Space Council shall reimburse other agencies for not less than one-half of

the personnel compensation costs of individuals detailed to it.

SEC. 302. Not more than six individuals may be employed by the National Space Council without regard to any provision of law regulating the employment or compensation of persons in the government service, at rates not to exceed the rate of pay for Level VI of the Senior Excutive Schedule, as provided pursuant to section 5382 of title 5, United States Code.

SEC. 303. Section 5314 of title 5, United States Code is amended by adding at the end thereof.

"EXECUTIVE SECRETARY, NATIONAL SPACE COUNCIL

SEC. 304. The National Space Council may, for the purposes of carrying out its functions employ experts and consultants in accordance with section 3109 of title 5, United States Code, and may compensate individuals so employed for each day (including travel time) at rates not in excess of the maximum rate of pay for grade GS-18 as provided in section 5332 of title 5, United States Code.

SEC. 305. (1) The National Space Council is requested to initiate a review of United States launch policy including the Nation's expendable launch vehicle and satellite industries, their current and projected markets, the existing and projected level of foreign competition in these industries, the extent and level of support from foreign governments in these markets and industries, the consequences of the entry of nonmarket providers of launch services and satellites into the world market, restrictions on the use of foreign launch services and the export of United States satellites, and the importance of the United States launch vehicle and satellite industry to the national and economic security.

(2) The findings of this review and any policy recommendations are to be submitted to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation in the Senate by August 1, 1990.

GORE (AND OTHERS) AMENDMENT NO. 1097

Mr. MITCHELL (for Mr. GORE, for himself, Mr. HOLLINGS, and Mr. BENTSEN) proposed an amendment to the bill S. 916, supra, as follows:

On page 32, immediately after line 19, insert the following:

TITLE IV—NATIONAL SPACE GRANT COLLEGE AND FELLOWSHIP PROGRAM

SEC. 401. Section 203(1) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 U.S.C. 2486a(1)) is amended by inserting "and undergraduate" immediately after "graduate".

SEC. 402. Section 209(a) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 U.S.C. 2486g(a)) is amended by inserting "and undergraduate" immediately after "graduate".

GORE (AND OTHERS) AMENDMENT NO. 1098

Mr. MITCHELL (for Mr. GORE, for himself, Mr. HOLLINGS, and Mr. METZENBAUM) proposed an amendment to the bill S. 916, supra, as follows:

Strike all on page 29, line 11, through page 30, line 24.

HOLLINGS (AND GORE) AMENDMENTS NOS. 1099 THROUGH 1106

Mr. MITCHELL (for Mr. HOLLINGS, for himself, and Mr. GORE) proposed eight amendments to the bill, S. 916, supra, as follows:

AMENDMENT No. 1099

On page 17, line 18, delete "$894,500,000" and insert in lieu thereof "$903,500,000".

AMENDMENT No. 1100

On page 18, line 6, delete "$625,500,000" and insert in lieu thereof "$631,500,000".

AMENDMENT No. 1101

On page 19, line 14, delete "$35,000,000" and insert in lieu thereof "$38,000,000".

AMENDMENT No. 1102

On page 19, line 25, delete "$1,305,300,000" and insert in lieu thereof "$1,340,300,000".

AMENDMENT No. 1103

On page 24, line 8, delete "$2,032,200,000" and insert in lieu thereof the following: "$2,049,200,000".

AMENDMENT No. 1104

On page 24, immediately after line 4, insert the following:

(38) Construction of the Advanced Solid Rocket Motor Facility, Yellow Creek, Mississippi, $90,000,000.

(39) Construction of a Space Station Orbital Debris Radar Facility, $15,000,000.

(40) Construction of a Wake Shield Facility, $2,500,000.

AMENDMENT No. 1105

On page 32, immediately after line 3, insert the following new sections:

FUNDING FOR SPACE SHUTTLE STRUCTURAL SPARES

SEC. 110. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space shuttle structural spares.

FUNDING FOR EXTENDED DURATION ORBITER DEVELOPMENT

SEC. 111. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for continued development of an extended duration orbiter.

FUNDING FOR SPACE TRANSPORTATION SYSTEM

SEC. 112. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space transportation system requirements.

AMENDMENT No. 1106

On page 20, line 2, after the word "motor" insert the following: ", of which $35,000,000 is authorized only for tooling and equipment associated with the Advanced Solid Rocket Motor Facility authorized in subsection (c)(38) of this section,".

NOTICES OF HEARINGS

COMMITTEE ON VETERANS' AFFAIRS

Mr. CRANSTON. I announce, for the information of Senators, that the Committee on Veterans' Affairs, which I am privileged to chair, has rescheduled its Wednesday, November 15, 1989, hearing on Department of Veterans' Affairs health care for rural veterans to begin at 8 a.m. in SR-418.

COMMITTEE ON SMALL BUSINESS

Mr. BUMPERS. Mr. President, I would like to announce that the Small Business Committee will hold a full committee hearing on Wednesday, November 15, 1989, to consider the nomination of Kyo R. Jhin to be chief counsel for advocacy for the Small Business Administration. The hearing will be held in room 428A of the Russell Senate Office Building and will commence at 1:30 p.m. This hearing was originally scheduled for November 14, 1989. For further information, please call John Ball, staff director of the committee at 224-5175, or Tracy Crowley at 224-3099.

AUTHORITY FOR COMMITTEES TO MEET

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Select Committee on Indian Affairs be authorized to meet on November 9, 1989, beginning at 11 a.m., in 485 Russell Senate Office Building, to consider for report to the Senate S. 1096 (S. 1336), to provide for the use and distribution of funds awarded the Seminole Indians; S. 1270, to provide an Indian mental health demonstration grant program; S. 1526, to authorize the State of Oklahoma and the Kiowa, Comanche, and Apache Tribes to enter into an agreement regarding the exercise of State jurisdiction over a portion of Indian country located in Comanche County, OK; S. 1781, the Native American Language Act; S. 1783, to regulate Indian child protection and prevent child abuse on Indian reservations and S. 1813, to ensure that funds provided under section 4213 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 may be used to acquire land for emergency shelters.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEES ON LABOR AND HUMAN RESOURCES AND THE JUDICIARY

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committees on Labor and Human Resources and the Judiciary be authorized to meet during the session of the Senate on Thursday, November 9, 1989, at 10 a.m. for a hearing on "The Impact of Drugs on Children and Families."

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Thursday, November 9, 1989, at 3:30 p.m. to hold a closed meeting on intelligence matters.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SCIENCE, TECHNOLOGY AND SPACE

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Subcommittee on Science, Technology, and Space, of the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on November 9, 1989, at 10 a.m. to hold a hearing on the human genome initiative and the future of biotechnology.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE AND TRANSPORTATION

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on November 9, 1989 at 2 p.m. to hold a hearing on the nomination of Deborah Wince-Smith, of Ohio, to be Assistant Secretary of Commerce for Technology Policy.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON AGRICULTURE, NUTRITION AND FORESTRY

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on Thursday, November 9, 1989, at 10 a.m. to hold a hearing on S. 712, Puerto Rico status referendum.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the full committee of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate November 9, 1989, at 9:30 a.m. for a hearing to receive testimony on amendment 267 to S. 406, the Competitive Wholesale Electric Generation Act of 1989.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committee on Governmental Affairs be authorized to meet on Thursday, November 9, at 9:30 a.m. for a hearing on the subject: Crisis in science and math education.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on November 9, 1989, at 9:30 a.m., to hold a hearing on the nomination of Vaughn R. Walker to be U.S. district judge for the northern district of California.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet on Thursday, November 9, 1989, at 2:30 p.m. to consider the nomination of: Christopher Jehn to be Assistant Secretary of Defense for force management and personnel; G. Kim Wincup to be Assistant Secretary of the Army for Manpower and Reserve Affairs; and Barbara S. Pope to be Assistant Secretary for the Navy for Manpower and Reserve Affairs.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. MOYNIHAN. Mr. President, the Committee on Veterans' Affairs would like to request unanimous consent to hold a meeting to consider the nomination for the Department of Veterans Affairs of David E. Lewis to be Assistant Secretary for Aquisition and Facilities, Ronald E. Ray to be Assistant Secretary for Human Resources and Administration, and Edward G. Lewis to be Assistant Secretary for Information Resources Management on Thursday, November 9, 1989, at 10:30 a.m. in SR-418.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

NETHERLANDS ENVIRONMENTAL CONFERENCE

● Mr. BIDEN. A 2-day international conference of environmental ministers from 70 countries recently concluded in The Netherlands. Proposals that dared to push the world toward concrete agreements to address global warming were put forward. A strong consensus of the environmental ministers supported a resolution committing each country to freeze carbon dioxide emissions and then reduce them by 20 percent. The initiative demonstrates how seriously the threat of global warming is taken by countries around the world.

But that resolution was not adopted because three countries—the United States, Japan, and the Soviet Union—objected, and instead, insisted on a watered-down resolution stating that emissions should be stabilized at an unknown level following an unknown timetable. The effect is a gutting of the resolution. Intentions are expressed, but firm targets and dates are omitted.

One of our representatives to the meeting, Environmental Protection Agency Administrator William Reilly, explained our Nation's position in the following manner:

> We did not come here prepared to make a commitment to stabilize emission by the year 2000.

It is that simple. They were not prepared.

But let us be clear by what was meant by "not prepared." It does not mean the proposal came as a surprise, that there was no inkling of it prior to the meeting. It was well-known that the Dutch hosts were planning to place just such a proposal before the environmental ministers. An article in the Washington Post of October 25 stated:

> At the Nov. 6-7 meeting in the Netherlands, the Dutch government is expected to propose an international freeze on carbon dioxide at current levels by the year 2000.

Instead of "not prepared," a more accurate description is "not willing."

In Mr. Reilly's defense, news reports prior to the meeting also made clear that he supported a more aggressive position on global warming, but others within the administration fought strongly against him. In fact, Mr. Reilly had to overcome objections just to be able to attend the meeting.

Events surrounding the United States' participation in The Netherlands meeting continue a disturbing pattern. In January, Secretary of State James Baker promised action from our Nation on global warming. In the 10 months since that meeting, Secretary Baker has sought to bring that promise into reality. Unfortunately, he has run into the same resistance as has Mr. Reilly. Delay has become the hallmark of our Nation's global environmental policy.

What is President Bush doing while these reversals of his avowed policies are occuring? His commitment to use the "White House effect" to combat the greenhouse effect has proven hollow. His promise to host an international meeting on global warming has given new meaning to the word "host."

In his press conference 2 days ago, in response to a question on The Nether-

lands meeting, President Bush pointed to the leadership of the United States' science on global warming. There is much that will never be known about the effects of global warming, but there is no dispute over the scientific underpinning of the greenhouse theory. Our science has been a leader in charting the rise in greenhouse gasses.

But while praising our Nation's science, the President ignores the implications of its findings. The standards set by advocates of delay will never be met. It is not a serious approach to dealing with this problem. It is an invitation to disaster.

Some observers may point to the President's chief of staff or his science adviser as the leading advocates of delay, but responsibility clearly rests with the President. Strong sentiments to do something about global warming and calls for a meeting in the White House have come a cropper. It is time he made the actions of the administration more consistent with its pronouncements.

The isolation of the United States on this issue was highlighted by a speech of British Prime Minister Margaret Thatcher yesterday before the United Nations General Assembly. In that speech, Mrs. Thatcher called for completion, by 1992, of an international treaty to address global warming.

In contrast, prior to The Netherlands meeting, Mr. Reilly's proposal for the United States to offer to host the first meeting of a framework convention for a global warming treaty was rejected. Our influence and prestige were reduced accordingly.

What are the risks of the United States rejection of action on global warming? An editorial in the Wilmington News-Journal yesterday put it well:

> If we plead that a modest reduction in the rate at which we pollute will impose economic suffering for us, what can we say to developing countries seeking to burn fossil fuels for earlier stages of development?

That is what makes the retreat of the administration on global warming so damaging, and why it must be reversed.

The next major opportunity for the United States to demonstrate its official commitment to provide the crucial leadership will come in February, when a meeting of the Response Strategies Working Group is to be held in Washington. There is plenty of time for the administration to prepare for the meeting. It is my hope the preparations will be for action, not for delay.●

S. 1542—PERTAINING TO CERTAIN EMPLOYEES OF THE NATIONAL WEATHER SERVICE

● Mr. HATFIELD. Mr. President, recently, I introduced S. 1542, legislation to amend title 5 of the United States Code, to allow certain employees of the National Weather Service to be included under a bill passed last year to assist emergency forest firefighters. S. 1542 ensures that fire weather meteorologists of the Department of Commerce will receive full compensation for their overtime work.

In the last 3 years, 13 million acres of forest land throughout the United States have been consumed by fire—the worst this country has endured in almost a century. Unfortunately, many of the brave people involved in fighting these fires have actually worked many long, strenuous hours without receiving any compensation for their overtime efforts. Because of a cap on overtime pay, many Federal workers are paid substantially less than the men and women with whom they work alongside.

Last year, we were successful in passing the Forest Wildfire Emergency Pay Equity Act. The intention of this bill was to compensate all Federal employees involved in emergency firefighting activities for their overtime activities. Thus, it was our understanding that all firefighting services were provided by either the Department of Agriculture or the Department of Interior.

The purpose and need for this bill was clear—the overtime pay cap that was in place at the time had the potential to destroy firefighters' morale and commitment at the very time that these intangible assets were needed the most. I am pleased to say that the rights of these firefighters are now secured.

Unfortunately, fire weather meteorologists employed by the National Weather Service are still burdened by the same overtime pay cap, and all of its related problems. Under the current law, such employees who work beyond their regular hours do not necessarily receive their full overtime pay. One meteorologist may receive compensation for the hours worked beyond his normal work schedule while another has reached his overtime pay limitation and may be working without compensation.

When onsite at a wildfire, these meteorologists routinely work from 15 to 18 hours a day. Long-term deployments often extend 10 days or longer. Although most fire weather meteorologists do receive all the pay to which they are entitled, the forecasters who, under current law, "max out" their overtime hours cannot exceed the GS-15 level in any 2-week pay period.

Thus, this bill will amend the Forest Wildfire Emergency Pay Equity Act to fully resolve the longtime problem of inequity in emergency overtime pay. It will effect a very small number of employees of the U.S. Department of Commerce and will apply only to wildfire situations.

Mr. President, the National Weather Service supplies specially trained fire weather meteorologists who play a vital role in support of efforts to control wildfires. For example, the consistency, and thus reliability, of field weather services is often adversely affected merely due to pay considerations. National Weather Service meteorological personnel form a team in which local weather forecast expertise is translated into management decisions associated with fire suppression tactics, firefighting field placement, and total resource management at the fire site.

Usually only one meteorologist is assigned to a wildife incident. This meteoroligist is tasked with providing continuous weather support to the suppression agency. The NWS meteorological input to wildfire suppression minimizes the time and resources necessary to bring a fire under control, and helps to prevent the loss of life and property. The meteorologist provides regular weather forecast information to the fire behavior analyst and the fire management team. In addition, he reconnoiters the fire area to learn what local features might be affecting the fire behavior.

The working hours of the fire weather meteorologist are not completely under his control but must meet the needs of the fire management team. He may be called upon at any time of the day or night to provide input to help develop and implement the fire suppression strategy. Thus, applying standard workweek principles to fire weather forecasting situations simply does not make sense. Theirs is not a 9-to-5 job. The fires need to be fought, and we cannot have personnel leaving fire sites just because we are concerned about how much money they are making.

We expect these people to spend long periods away from their families, enduring difficult living conditions, working in the heat and smoke, and subjecting themselves to life-threatening hazards for 15 to 18 hours a day. Shall we also expect them to work for free?

Mr. President, we have paid our debt poorly to these men and women. It is inexcusable that bureaucratic technicalities actually force some meteoroligists to work for free. If the bill currently before us was in place during the devastating 1987 fire season, the cost in overtime to the Treasury would have amounted to about $14,000. An average year would cost only about $5,000.

However, the cost of this bill is not the issue. It is a matter of equity. It is simply not fair to expect these men and women who place their lives on the line to work for free. Fire weather meteorologists who work overtime should be paid overtime.

Although we cannot predict the future budgetary impact of this legislation, we do know that it is relatively small compared to the grandeur of the services performed.

I urge the Senate to quickly adopt this effort to provide economic justice to these hardworking people.●

VETERANS DAY 1989

● Mr. DOMENICI. Mr. President, this Saturday, November 11, is Veterans Day. I know my colleagues will join me in paying tribute to the millions of men and women who have proudly served our country in the U.S. Armed Forces.

Since the very beginning of our country, American men and women have defended our land during times of peace and times of war. They gave us our freedom, and they kept our freedom.

In the name of that freedom and democracy, they have sacrificed so very much to preserve our country and to protect others in the free world.

As we take time to honor America's veterans, let us celebrate the peace that they have secured.

Celebrated on the anniversary of Armistice Day, Veterans Day truly denotes a day dedicated to peace. It was 71 years ago—on the 11th hour of the 11th day of the 11th month—that the "war to end all wars" came to a close.

In 1958, Congress changed Armistice Day to Veterans Day, but the purpose of honoring the contributions and sacrifices of our veterans remained intact. Every November 11, the people of this country pause to honor those who have helped keep our Nation strong and our freedoms secure.

And today, we are very fortunate. Our Nation and the world are experiencing a period of extraordinary peace. We have not been involved in a major conflict since the Vietnam war ended, and we see what might be called the triumph of freedom spreading throughout Eastern Europe.

Changing views and attitudes in the Soviet Union bring great hope of world peace for years to come.

While we have experienced relative peace throughout our 200-year history as a Nation, we never hesitated to call our citizens to arms when the founding precepts of our country have been threatened. And, generously, Americans have answered.

I think President Bush hits the nail right on the head when he states in his Veterans Day proclamation that each American veteran is a source of strength and pride for our country. Over 27 million veterans remind us of this every day.

In my own State, New Mexicans have contributed more than a fair share of troops in all major conflicts since World War II. Currently over 170,000 veterans live in New Mexico. One out of every nine New Mexicans is a veteran.

I am proud of them, and I am proud of our State's support of the Armed Forces.

American veterans have given us the ultimate gift by securing the blessings of liberty for the United States. For this, we owe our veterans our gratitude and deepest thanks.

As we take a moment to honor America's veterans, recalling their sacrifices and achievements, let us remember how fortunate we are to call ourselves Americans. Let us reaffirm our commitment to keep faith with those who have faithfully served America.●

REV. WALTER L. BATTLE

● Mr. DURENBERGER. Mr. President, earlier this year, we in Congress passed a joint resolution declaring the week of September 24, 1989, "National Religious Freedom Week." Rev. Walter L. Battle, of Minnesota, was one of those who dedicated to establishing this national recognition. Today, I wish to honor Reverend Battle, for four decades of dedicated, caring service to humanity.

For the past 40 years, Reverend Battle and his wife Rev. Willa Battle have faithfully served the Minneapolis/St. Paul community in many capacities. In 1949, Reverend Battle founded the Gospel Temple Church in St. Paul, a truly successful beginning to a stellar career of devout service. Nine years later, he founded the House of Refuge in Minneapolis, and most recently established a modern day radio congregation, with a Sunday morning program "Your Church of the Air."

In addition to ministering to his congregations, Reverend Battle has also been active outside the church, working with local youths extensively. In addressing the need for inner city youth to obtain experience necessary to land decent jobs, he was key in organizing "Institute of Learning," an on-the-job training program.

Battle's service extends far beyond the Twin City Metro area, for in 1957 he started a mission to help the spiritually needy in Haiti. This mission has expanded from 100 churches in the beginning, to a current count of 642.

Through his infinite capacity to care, and endless patience to listen, Rev. Walter Battle has enriched our community. His service to the Lord is both admirable and commendable, and reflects a genuine, selfless love of a very special individual.●

A GLIMMER OF HOPE IN LEBANON

● Mr. PELL. Mr. President, the situation in Lebanon remains both desperate and serious. There is hope that the fragile cease-fire will remain intact, that the political settlement sponsored by the Arab League will hold, and that the election of a new Lebanese President will lead to the development of a unified government and the reconstruction of Lebanon. Yet, there is also fear that the opposing forces in Lebanon will prove irreconciliable, and still another vicious cycle of violence, suffering and death will be unleashed.

When viewed together, the dropoff of the shelling of Beirut and the significant movement toward a political settlement in Lebanon justify a degree of optimism. Tempered against this positive spirit, however, is the underlying recognition that the war in Lebanon has been ongoing for more than 14 years; there have been countless intermittent cease-fires, most of which have proved fleeting at best.

The Arab League effort to broker a settlement in Lebanon finally produced a full-fledged agreement at Taif, Saudi Arabia. The Taif accord led directly to the election of Lebanon's first leader since the term of former President Amin Gemayel expired. President Rene Moawad's election was rightly hailed by President Bush and the leaders of other interested Arab and European nations. The Taif accord also provides for a much-needed realignment of Lebanon's legislature.

It is regrettable that Gen. Michel Aoun, leader of the Lebanese Christian forces in Beirut, has announced his opposition to the accord on grounds that it does not provide for a concrete withdrawal of Syrian forces from Lebanon. The manner in which Aoun and his supporters have manifested their opposition has offended sensibilities and raised the specter of the accord's immediate demise. It also leads to the question of whether General Aoun is reflecting the views of his allies and Syria's implacable enemies—the Iraqis—rather than the true interests of the Lebanese.

Mr. President, the Syrian occupying presence in Lebanon serves no legitimate or useful purpose, and I understand that many Lebanese justifiably insist on more concrete assurances for its departure. Yet, I would caution that the all-or-nothing tenor of these objections runs the risk of destroying what little hope there is for Lebanon. While the Taif proposal does not provide an explicit timetable for a Syrian withdrawal, the delegates at Taif reached an understanding that the Syrians would regroup in the Bekaa Valley within 2 years. From there, the status of the agreement and the presence of the Syrian occupiers would be assessed. While there is room for discussion on this point, the overall agreement should not be placed in jeopardy grounds that some find this understanding insufficient.

Now is the time for diplomacy in Lebanon. Granted, diplomacy is a term that seems out of context in Lebanon, given the belligerent state of affairs that has existed for so long. Nonetheless, the opportunity is there, and we would be remiss if we did not seize it. The various parties in Lebanon, now that they have a breathing space, must make a reasoned judgment about their situation and decide to work within the framework that they have before them.

For far too long, the cedar has been hewn into pieces by conflict. Beirut, once a shining example of prosperity and development in the Middle East, has been razed into dust and rubble. Now that a true settlement is within the grasp of Lebanon, it would be tragic to let it fail. I would urge all of the interested parties in Lebanon to heed the call of peace and begin the process of rebuilding. I call upon our own President to focus his efforts on Lebanon and reengage the United States into the drive to restore order. Finally, despite the lessons of experience, I remain hopeful that the Lebanese will unite under their new leader and work together for the sake of the continued existence of their country.●

PAKISTAN'S TEST OF DEMOCRACY

● Mr. McCAIN. Mr. President, democracy in Pakistan was tested this week in the parliamentary confrontation between Prime Minister Bhutto's government and the Islamic Democratic Alliance over a no-confidence motion. It has been only a little more than a year since Pakistan began the transition from military rule to democracy, yet this week's events show how far democracy in Pakistan has come in so little time.

Never before in the Nation's 42-year history has a no-confidence vote been held. In previous confrontations, civilian rule has often been replaced by military rule. What we have witnessed this week marks a fundamental shift for Pakistan, away from contests between democratic and antidemocratic forces, and toward democratic opposition.

Prime Minister Bhutto and the Islamic Democratic Alliance are to be applauded for choosing democratic means to resolve their differences. By confining their confrontation to the National Assembly, they have demonstrated their democratic convictions. They have also shown those who doubt the durability of Pakistan's democracy that it has the resilience to withstand open democratic debate.

The results of the vote show that a viable democratic opposition exists in Pakistan. It is important for us in dealing with emerging democracies to recognize and encourage the development of democratic alternatives. And it is important for Pakistan to know that we recognize and appreciate the vitality of its democracy. A divergence of views is fundamental to democracy; but so also is the tolerance of democratic opposition. This week Pakistan has demonstrated its ability to develop, and tolerate democratic alternatives. In so doing, Pakistan has passed the test of democracy.●

VIOLENCE IN EL SALVADOR

● Mr. SIMON. Mr. President, in the September 20 CONGRESSIONAL RECORD, I mentioned a phone call and a conversation I had with Bishop Merardo Gomez of El Salvador, the Lutheran Bishop of El Salvador.

Unfortunately, less than a month later, there was a bombing of the house next to the bishop's residence, a house that was scheduled to become a church school.

I hope that what happened was not in response to the bishop's talking candidly to an American Senator.

I have written to the El Salvador Ambassador to the United States, and I ask to print that letter in the RECORD.

The letter follows:

U.S. SENATE,
Washington, DC, November 3, 1989.

His Excellency MIGUEL SALAVERRIA,
Embassy of El Salvador, Washington, DC.

DEAR MR. AMBASSADOR: On September 20, in an exchange on the floor of the United States Senate with Senator TOM HARKIN, I quoted Bishop Merardo Gomez, the Lutheran Bishop, as saying: "Stop sending down these weapons that are killing us. Let us solve our problems down here."

I hope that the bombing was not in reprisal to a frank statement by the Lutheran Bishop to a United States Senator.

I would appreciate your notifying the government of El Salvador that protecting Bishop Gomez, and others who may differ with government policy, is extremely important if a reasonable relationship is to be maintained between the United States and El Salvador.

I look forward to hearing from you.

Cordially,

PAUL SIMON,
U.S. Senator.●

THE IMPORTANCE OF CARRIERS IN AN ERA OF CHANGING STRATEGIC PRIORITIES

● Mr. McCAIN. Mr. President, on Veterans Day, we will commission the U.S.S. *Lincoln*, our fifth Nimitz-class aircraft carrier. The *Lincoln* will be the largest ship ever built for the U.S. Navy. It will displace 100,000 tons. It is 1,040 feet long, and 134 feet wide, and its flight deck has an area of 4½ acres. It will be 244 feet from keel to mast top, the height of a 24-story building.

The U.S.S. *Lincoln's* importance does not, however, lie in its size. It lies in the fact that the *Lincoln* symbolizes the kind of power projection capability we need in an era of glasnost and changing strategic priorities. The *Lincoln* symbolizes the kind of flexible and global power projection we need to deal with future contingencies, it symbolizes the kind of force that needs to be given priority in an era of declining real defense resources, and it symbolizes the kind of capability that must be preserved in an era where we must make major changes in the roles and missions of our forces.

We often talk about scenarios and contingencies, but we often ignore the way in which we actually use our military power. As a result, I recently asked the U.S. Navy to prepare an analysis of how we have used military power since the end of World War II. I ask that the full text of this analysis be included in the record, but some of the key statistics involved virtually speak for themselves.

We have used military force well over 200 times since the end of World War II. While some controversy exists over the precise number of incidents that should be counted, and fully up-to-date figures are not available, it is clear that seapower was used in over 80 percent of these incidents, and that carrier forces were used in over half of these cases.

If we look at the use of naval power in the period between 1945 and 1989, we have more precise figures. There have been 187 times we have used seapower in the period between 1945 and November 1989. The vast majority of these uses have been to prevent war, to limit its escalation, or to protect American citizens or America's friends and allies. There have, however, also been many cases where seapower has had to play a critical role in combat. These cases include South Korea, Vietnam, Grenada, and the raid on Libya—just to name a few.

Mr. President, I ask that two tables outlining these 187 incidents be printed in the RECORD at the conclusion of my statement.

Mr. President, we used our carriers in 125 of these cases, or 67 percent. What is equally important is that we also relied on the U.S. Navy and Marine Corps team. We used amphibious ships in 101 cases, or 54 percent. In virtually all of the cases where we used Marine Corps forces, some 97 percent, we used U.S. Navy forces as well. The U.S. Navy also worked closely with the power projection elements of the U.S. Air Force and U.S. Army. U.S. Navy and U.S. Air Force units were involved in 54 of the 187 cases, or 29 percent. U.S. Army forces were involved in 34 cases, or 18 percent.

It seems almost certain that these trends will continue in the future, with the important change that there will be fewer and fewer cases which involve NATO, and particularly the central region, and fewer cases that involve any element of confrontation

with Soviet or other Warsaw Pact forces.

Regardless of what glasnost finally proves to mean, the world is still unfortunately a very troubled place. Our strategy, our force mix, and the roles and missions of our forces must change to reflect both the decline in our real defense resources and the fact that most of the threats to our interests, and our friends and allies, outside Europe will remain and often intensify.

Glasnost does not change the fact that there have been an average of more than 25 civil and international conflicts in the developing world in every year since the end of World War II. It will not change our growing dependence on trade.

Our energy dependence on imports is growing again, and is currently projected to grow steadily well into the next century. More than 35 percent of our petroleum products came from abroad last year. We are heavily dependent on imports of virtually all our critical minerals and most of our other raw materials.

Equally importantly, we are now critically dependent on the smooth flow of world trade. The total volume of U.S. imports rose from $16.3 billion in 1960 to $42.6 billion in 1970, and $257 billion in 1980. U.S. imports have virtually doubled again since 1980, and reached $460 billion in 1988. Further, global trade in high technology has more than doubled in the last 5 years. Trade in the five most critical technologies has risen from less than $90 billion in 1984 to more than $200 billion today.

Our strategy must reflect the fact that our economy is interdependent with that of our friends and allies, and they are even more dependent on global stability and the free flow of trade than we are. At the same time, it must reflect the fact that they will not suddenly develop power projection forces, or replace the role we play. The United States may not be the world's policeman in an era of détente, but its power projection forces will remain the free world's insurance policy in what will often be less than a kind of gentle world.

Further, we must shape our power projection forces around the reality that carrier task forces are our only insurance against the loss of, or restrictions in our use of, fixed oversea bases. We still have very important overseas bases, and many reliable friends and allies. We continue to improve our ability to project land-based airpower and use cruise missiles. Nevertheless, it is the carrier and amphibious forces that offer the only guarantee we have of full independence of action.

I do not mean in raising these points to imply that we need all of the forces that the U.S. Navy has sought in the past. I feel that we will need major adjustments in the now outdated concept of a 600-ship Navy, and in our naval aviation plan. Further, I strongly feel that we need to strengthen the power projection capabilities of the U.S. Air Force as we reduce the forces we have formerly shaped to meet contingencies required for a NATO-Warsaw Pact conflict.

If we focus on cutting back the large number of Active and Reserve Forces in the United States whose only real mission lay in refighting World War II, and a prolonged general war in Europe, we can afford to do this and will still keep our defense spending at the present level in constant dollars, or even make limited cuts.

We cannot, however, suddenly act as if the degree of resolution and dedication that led us to spend the resources to buy the U.S.S. *Lincoln* is no longer necessary. We are already in our fifth year of real cuts in defense spending. As a result, we will have cut defense expenditures by 11 percent in real terms relative to the peak levels reached under President Reagan.

We cannot afford to act as if we do not need to spend the money to remain a world power, and we need to clearly understand that we can easily afford the capabilities we need. For all the often careless talk about the strains we face in remaining a major power, we need to take full account of the following facts:

Defense spending will soon be only about 5 percent of our GNP. This compares with 39 percent of our GNP in World War II, 14 percent at the time of the Korean conflict, 10 percent in Vietnam, and 6.5 percent at the peak of the Reagan buildup.

Defense spending has dropped from over 90 percent of Federal spending in World War II to 70 percent during the Korean war, and 30 percent during most of the cold war, to levels of less than 25 percent.

Our Armed Forces now are only about 1.7 percent of the labor force, versus 2.2 percent in 1975, and 4.3 percent at the peak of the postwar buildup.

Military R&D has dropped from over 60 percent of all R&D in 1960, to less than 30 percent today.

In short, Mr. President, we not only can afford the power projection forces symbolized by the U.S.S. *Lincoln*, we must sustain those forces. It was our strength and resolution that forced the Warsaw Pact to accept the need for glasnost and Perestroika. It has been our strength and resolution that has prevented or limited conflict after conflict elsewhere in the world since 1945, and it will be that strength and resolution that will be essential to our security in the years to come.

The tables follow:

Notes.—This table is the result of preliminary research. It is likely that specific items in the table will be adjusted during future work.

Column headings:

Begin date: Date of first known movement of U.S. Navy surface forces in response to crisis. In some cases (primarily in the 1946–1954 period from the Brookings Force Without War database), the begin date is for the first use of U.S. armed forces in the response. When the date is given in the form "Mon-Yr" rather than "M/D/Yr," it is because a specific starting date of operations is not known.

Length: In days, from "Begin date" to known (or the best estimate of the) release date of forces to normal operations. In some cases the date that operations became institutionalized, continuing operatins was used as the end of the crisis response.

OAC: U.S. Navy Ocean Area Code as displayed in figure 1. This is the location of the crisis or of the main portion of the crisis response.

CVs: Largest number of carriers known to be operating in the crisis response at any one point. (Both CVAs and CVSs are counted in this column.) A "?" indicates that carrier involvement is assumed but that exact vessel(s) are not known.

Am: Are amphibious ships know to have been involved in the crisis response? A "?" indicates that amphibious ship involvement is assumed but that exact vessel(s) are now known.

USMC: Are U.S. Marine Corps forces known to have been involved in the crisis response?

USAF: Are U.S. Air Force forces known to have been involved in the crisis response? (This column relies heavily upon the Brookings (and Zelikow) Force Without War data for the 1946–1982 period. If "USAF" or "Transport" aircraft were indicated in the Force Without War database, then a "Y" has been entered. There are a number of cases in which information available indicates USAF involvement even when the Brookings data do not indicate such involvement. In those cases a "Y" was also entered.)

USA: Are U.S. Army forces known to have been involved in the Crisis Response? (This column relies heavily upon the Brookings (and Zelikow) Force Without War database for the 1946–1982 period. If "USA" involvement is indicated in the Brookings data base, then a "Y" has been entered. There are a number of cases in which information available indicates USA involvement even when the Brookings data do not indicate such involvement. In those cases a "Y" was also entered.)

Sources: See Selected Bibliography.

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
1	Coup Haiti	1/12/46	2	A3	0	N	N	N	N
On 10 January 1946, a military junta overthrew the government of President Elie Lescot in Haiti. USN forces in the Caribbean moved toward Honduras but were soon recalled as the situation quickly stabilized.									
2	Security of Turkey	3/22/46	19	A6	0	N	N	N	N
Amidst Soviet pressure on Turkey and tension over the Soviet presence in Iran, the U.S. Government decided to use the battleship Missouri to return the body of the deceased Turkish ambassador to the United States to Turkey for burial. The Missouri, which departed the U.S. on 22 March, arrived in Istanbul on 5 April. This was taken as a strong sign of U.S. support for and commitment to Turkey.									
3	Greece, Pol. Conflict	4/10/46	5	A6	0	N	N	N	N
On 10 April 1946, following her visit in Istanbul, USS Missouri entered Piraeus harbor. This was during a period of significant Eastern Bloc pressure on Greece and was meant to signal U.S. resolve to support the Greek Government.									
4	China Civil War	Apr–46	1038	P4	?	Y	Y	Y	Y
On 9 January 1946, Communist and government troop movements were suspended in accordance with a truce agreement. In April, the truce collapsed as Communists forces attacked Nationalist-held towns and all-out conflict renewed. Following the breakdown of the truce in China, the U.S. Navy resumed transporting Nationalist troops within the country. Over the next years, significant U.S. force movements occurred within China. For example, in November 1948, 1,250 Marines from Guam reinforced the USMC garrison at Tsingtao and, in mid-December, a contingent of Marines moved from Tsingtao to Shanghai to protect the 2,500 U.S. nationals in the city.									
5	Security of Trieste	6/3/46	65	A6	0	N	Y	N	N
On 2 June 1946, the Governments of the U.S. and U.K. formally protested Yugoslavian obstruction of the Allied Military Government in Trieste. The next day, the U.S. Navy confirmed that the cruiser Fargo was en route to Trieste. In late June, as many as ten Allied warships, including USN and RN battleships, lay off the coast.									
6	Turkey/Greece	8/16/46	148	A6	1	Y	Y	N	N
On 7 August 1946, following Turkish elections, the Soviet Union renewed its demands for a revision of the Montreaux Convention governing access to the Black Sea, and Soviet naval activity in the region began. On 10 August, the Turkish Premier reaffirmed Turkey's intent to continue opposition to the Soviet demands. In the coming months, U.S. and U.K. naval activity in region greatly increased, and on 18 October Turkey rejected the Soviet demands. In the same period the Communist insurgency in Greece grew dramatically. On 5 September CVB Franklin Delano Roosevelt and four escorts arrived in Piraeus to underscore the U.S. support for the Greek Government. On 9 September, as Roosevelt left port, 78 U.S. aircraft flew over the task force. On 30 September, the U.S. Government announced that U.S. Navy units would be permanently stationed in the Mediterranean to carry out American policy and diplomacy.									
7	Chilean Inauguration	11/1/46	6	P5	1	N	N	N	N

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
Following a leftist victory in the September election and a month of tensions over the results, the United States announced that a five-ship squadron would visit Chile for the inauguration. The USN ships arrived on 1 November.									
8	Lebanon	12/1/46	4	A6	1	Y	Y	N	N
Just prior to the withdrawal of the last French troops from Lebanon (which occurred in late December), elements of the U.S. Mediterranean Fleet made a well-publicized port visit in Beirut.									
9	Uruguayan Inaug	2/22/47	9	A4	0	N	N	Y	N
To emphasize U.S. support for the new Uruguayan Government, a Navy and Army Air contingent was sent to Montevideo for the 1 March 1947 inauguration. On 23 February seven B–29 Superfortresses representing the Army left Salina, Kansas. The Navy contingent consisted of the light cruiser Fresno and four destroyers.									
10	Greek Civil War	4/16/47	412	A6	1	Y	Y	N	N
On 30 January 1947, the Government of Greece declared martial law amidst the worsening conflict with the Communist insurgents. On 21 February, the United Kingdom announced that it could no longer afford to give military aid to Greece and Turkey. Amidst the debate in the U.S. Congress over an aid package to the two countries, elements of the U.S. Navy's Mediterranean Fleet, including the carrier Leyte, visited Greece ports.									
11	Security of Turkey	5/2/47	396	A6	1	Y	N	N	N
Amidst a significant reduction in the U.K. Eastern Mediterranean presence and continued pressure from the USSR upon Turkey, the U.S. government offered a large aid package to Turkey. In what was seen as linked to the aid package issue, four USN ships (including the aircraft Leyte) made a week-long port visit in Istanbul.									
12	Cuban Sup, Anti-Truj	Aug–47	59	A3	0	N	N	N	N
The Cuban Government began supporting anti-Trujillo forces as early as January 1946. In July 1947, the Trujillo regime began to perceive the exiles as a major threat and, on 18 August, the Dominican Republic's armed forces were put on alert. Following this, USN operations in the Caribbean increased as part of growing U.S. pressure on Cuba. On 28 September, the revolutionary forces were disbanded by Cuba.									
13	Security of Trieste	8/16/47	122	A6	0	N	N	N	Y
In August 1947, there was evidence of progress on the questions surrounding the division of Trieste. On 3 September, an accord for withdrawal from Trieste was signed; 5000 U.S. troops along with equal contingents of British and Yugoslav soldiers were to remain, with the city divided into two zones. Despite the agreement, tension continued as Yugoslavia tested the Anglo-U.S. commitment. For example, on 16 September, 12 U.S. Army troops, who were soon reinforced, blocked the movement of 2,000 Yugoslavian troops into the western zone of the city.									
14	Elections in Italy	11/2/47	94	A6	1	N	N	N	N
Amidst growing fears of a Communist victory and increasing domestic violence, the United States announced a delay to late November of the departure of the last occupation troops in Italy. USN ships were moved to the area as the troops remained through mid-December following President Truman's 12 December pledge that the U.S. would defend Italy despite the withdrawal of the last 1,600 troops.									
15	Relations w/Argentina	Nov–48	7	A4	0	N	N	N	N
In the fall of 1948, a period of gradually worsening U.S. relations was generally linked to the 9 September speech by the Argentinian leader in which he threatened to hang his opponents. Relations improved in November following a two-ship USN port visit.									
16	Arab-Israeli War	1/5/48	466	A6	1	Y	Y	N	N
In early January 1948 the Sixth Fleet began patrol operations in the Eastern Mediterranean as the situation in Palestine deteriorated as the end of the British Mandate period approached. On 15 May Israel declared its independence and Arab forces invaded. On 19 June, the Chief of Naval Operations assigned three destroyers to the U.N. mediator for the Palestinian truce. On 23 July, USS Putnam evacuated the U.N. team from Haifa and became the first USN ship to fly the U.N. flag.									
17	Security of Trieste	1/16/48	88	A6	?	Y	Y	N	N
In early January 1948, Yugoslav Communist labor unions called for a general strike in Trieste. Shortly thereafter, 1,000 Marines of the 2d USMC division left for the Mediterranean one day ahead of schedule. This was perceived as a warning for Yugoslav troops not to molest U.S. Army troops in Trieste. The departure of the marines being replaced was postponed, thereby doubling the USMC presence in the Mediterranean for a period.									
18	Interests in Persian Gulf	1/20/48	1	A7	0	N	N	N	N
To underscore the U.S. commitment to the Persian Gulf region, the USN Persian Gulf Area Command was formally established (the name was changed to Middle East Force in August 1948) with a seaplane tender as the flag (and only) ship. This formalized a deployment that has continued, at some force level, to this day. The Soviet Union criticized the establishment of the command within a few days.									
19	Security of Norway	4/29/48	4	A5	1	N	N	N	N
Amidst fears of a Communist coup in Norway and growing Soviet press attacks on Norway and Sweden, a U.S. ship visit to Oslo was announced in early April. On 29 April, the aircraft carrier Valley Forge and three escorts arrived for a four-day port visit.									
20	Security of Berlin	6/26/48	401	A5	1	Y	Y	Y	Y
On 1 April 1948, the Soviet Union temporarily restricted Western access to Berlin. On 24 June, all Western transportation to the city was cut-off. On 26 June 1948, the Berlin airlift was initiated to offset the blockade. In addition to USN air units that participated in the airlift, a carrier battle group (CVBG) was moved into the North Atlantic. The blockade was declared lifted by the Soviets on 12 May 1949. The airlift continued through 30 September 1949.									
21	Gov Change, China	12/9/49	38	P4	1	N	N	N	N
On 8 December 1949 the Nationalist government and forces withdrew to Taiwan and formally established the Republic of China (ROC). The next day, the U.S. Navy announced that the Pacific Fleet was understrength and would be reinforced by vessels from the Atlantic. On 29 December, "Boxer" was assigned to the Western Pacific in the first aircraft carrier deployment there since April 1949.									
22	Kor War, For Straits	6/27/50	951	P4	1	N	N	N	N
During the Korean War, USN forces were ordered to the Formosa Straits on a number of occasions to counteract threats of a People's Republic of China (PRC) invasion of Taiwan. For example, at the very beginning of the war, aircraft from the carrier "Valley Forge" flew over Taipei in a demonstration of U.S. commitment to the Republic of China. In April 1951, TF 77 was ordered to the Taiwan Straits from Korean waters to counteract a threatened invasion of Taiwan from Communist China. TF 77 operated in the Straits from 11 to 14 April, then returned to Korean waters.									
23	Kor War, Sec Europe	7/16/50	715	A5	2	Y	Y	Y	Y
With the outbreak of war on the Korean peninsula, it was feared that the Soviets would invade Western Europe. Over the next two years, U.S. forces were built up in Europe.									
24	Lebanon	8/14/50	1	A6	1	N	N	N	N
At the request of the Lebanese Government, USS Midway (CVB), Leyte (CVL), Salem (CA), Columbus (CA), and destroyers visited Beirut and gave a carrier aircraft demonstration. This demonstrated U.S. presence in the Mediterranean in spite of the deep U.S. involvement in Korea.									
25	Security of Yugoslavia	3/15/51	869	A6	2	Y	Y	N	N
In the Summer of 1948 Yugoslavia was expelled from the Comintern. Over the next several years, there were serious tensions between Yugoslavia and its Communist neighbors. In March 1951, Tito claimed that Romania, Hungary, Bulgaria, and the Soviet Union were massing forces along Yugoslavia's border. In mid-March, a reinforced Marine Corps battalion arrived in the area. Later in March, the relief force for the Mediterranean arrived six weeks early to cover "the politically critical spring period." In the last week of May, the Fleet was augment with another aircraft carrier. In September 1952, President Tito went to sea aboard the carrier Coral Sea (a demonstration to the Soviet Union that American aid was available and acceptable to Yugoslavia).									
26	China-Taiwan Conflict	2/2/53	2	P4	?	N	N	N	N
Three years after President Truman gave TF77 orders to operate in the Formosa Straits to both prevent an attack by the PRC on Taiwan and by the ROC against the mainland, President Eisenhower ordered that TF72 should cease the blockade of Taiwan. Eisenhower's goal was to "de-neutralize" the island.									
27	Dien Bien Phu	3/13/54	90	P4	2	N	N	N	N
On 13 March 1954, the battle for Dien Bien Phu began in earnest as the Viet Minh launched their first major assaults on the French garrison. On 19 March, USN forces in the region, including the carriers Wasp and Essex were put on alert. The carrier task group steamed on 22 March for a position off the Indochina coast. On 18 April, USN pilots flew 25 aircraft from Saipan (CVL–48) to a French airfield in Indochina. On 7 May, Dien Bien Phu fell.									
28	Honduras-Guatemala	5/20/54	14	A3	1	Y	Y	N	N
In January 1954, the leftist Guatemalan Government requested arms from the Soviet Bloc in reaction to a U.S. decision to support an anti-Government "liberation" movement. On 20 May the first Soviet arms shipment arrived. On that day, the Caribbean Sea Frontier established air-sea patrols in the Gulf of Honduras to protect Honduras from invasion and to control arms shipments to Guatemala. On 3 June, the U.S. airlifted arms to Honduras, and on 18 June, the U.S. announced a complete arms embargo against Guatemala. The crisis ended after a 29 June coup that led to an anti-Communist government in Guatemala.									
29	PRC ShDo U.K. A/C	7/24/54	6	P4	2	N	N	N	N
On 23 July 1954, aircraft shot down a Cathay Pacific (U.K.) airliner, killing 10 of 18 aboard (including 6 Americans). USN aircraft from the carriers Philippine Sea and Hornet provided air cover to the rescue operations. On 26 July, three aircraft from Philippine Sea shot down two PRC fighters that had fired upon them.									
30	Vietnam Evacuations	Aug–54	305	P4	0	Y	Y	N	N
Acting under the terms of the Indochina accords of 1954, the USN and USMC assisted in the relocation of civilians and materiel from North to South Vietnam. Over the course of operation "Passage to Freedom," over 310,000 civilians, 88,000 tons of cargo, and 8,100 vehicles were transported. The operation involved 109 ships and craft, 59 of which were from the amphibious forces.									
31	Accord in Trieste	10/7/54	20	A6	0	N	N	N	Y
On 5 October 1954, an agreement settling the nine-year-old Trieste discord was signed. Ships from the Sixth Fleet moved into the Adriatic Sea as the 3,000 U.S. Army occupation troops were withdrawn. The withdrawal was completed on 26 October.									
32	Tachen Islands	2/8/55	6	P4	6	Y	Y	Y	N
In January 1955, PRC forces began to bombard the Tachen Islands, and, in early February, the ROC decided to evacuate of the islands. The U.S. Navy evacuated over 15,000 civilians and 11,000 military personnel from the islands.									
33	Red Sea Patrols	Feb–56	183	A7	0	N	N	N	N

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
In response to the growing tension in the Middle East (which centered around the Suez Canal), a destroyer patrol was formed in the Red Sea.									
34	Jordan	Mar-56	62	A5	2	Y	Y	N	N
Following a period of growing internal tension and foreign policy turmoil, King Hussein dismissed British General Glubb as Commander of the Jordanian Arab Legion. In reaction to this move, two carriers (Coral Sea and Randolph) and an amphibious force were moved into the Eastern Mediterranean. The formation of a new cabinet in May effectively ended this crisis.									
35	Pre-Suez	Aug-56	69	A6	2	Y	Y	N	N
Egypt nationalized the Suez Canal on 26 July 1956. Tensions immediately rose as both France and the United Kingdom began preparations for military operations. Two carriers (Coral Sea and Randolph) and an amphibious force (which was reinforced in early September) were moved into the Eastern Mediterranean. The fleet dispersed in mid-September as the level of tension in the area appeared to subside.									
36	Suez War	10/30/56	8	A6	3	Y	Y	Y	N
On 29 October 1956, Israel attacked Egypt and, the next day, the United Kingdom and France joined in the invasion. The United States opposed the invasion. Major portions of the Sixth Fleet, including three carriers, were moved into the Eastern Mediterranean. Amphibious forces evacuated over 2,000 endangered Western nationals from the region.									
37	Post-Suez	11/6/56	38	A6	8	Y	Y	N	N
On 5 November 1956, the Soviet Union sent threatening diplomatic notes to Israel, France, and the United Kingdom. The next day, a ceasefire took effect and Egyptain President Nasser requested the assistance of the Sixth Fleet to forestall Soviet intervention. On 7 November, Washington received reports that the USSR would transit six ships from the Black Sea to the Mediterranean. In response, the CNO ordered that a three carrier task force to sail from the U.S. to the Western Pacific and a two-carrier task force was directed to the Azores. USN forces worldwide were ordered to maintain readiness to execute emergency war plans. Surveillance operations in the Mediterranean were intensified as well. Tensions continued at a high level until U.N. forces were brought into Egypt to serve as a "buffer" on 15 November. The Sixth Fleet was removed from 24-hour alert status on 13 December.									
38	Cuban Civil War	Dec-56	435	A3	1	Y	Y	N	N
During the final phases of Castro's campaign from late 1956 through early 1959, U.S. Navy and Marine forces deployed intermittently to the area. The most significant event came following a 23 October 1958 request by the State Department for the evacuation of U.S. nationals from the Cuban port of Nicaro. The next day Kleinsmith (APD-134) conducted the evacuation without incident. The carrier Roosevelt stood by farther out to sea as a contingency force to cover the operation.									
39	Jordon Unrest	4/25/57	9	A6	2	Y	Y	N	N
On 15 April 1957, King Hussein dismissed the Jordanian cabinet, leading to urban demonstrations on the 22nd through the 24th. On the 25th, the new royalist government declared martial law. On the same day, major elements of the Sixth Fleet deployed towards the Eastern Mediterranean to demonstrate American support for the King.									
40	Haiti	6/14/57	18	A3	0	Y	Y	N	N
On 14 June 1957 Haiti's provisional government was overthrown by a military coup. The United States responded with a theater alert of amphibious and surface units of the Caribbean Ready Amphibious Squadron.									
41	PRC-ROC tension	Jul-57	63	P4	3	Y	Y	N	N
In June 1957, a build up of PRC forces opposite Taiwan was reported. In response, Navy forces were deployed to the region with a maximum concentration (three aircraft carriers) occurring in September.									
42	Syria	8/21/57	118	A6	4	Y	Y	Y	N
Because of changes in the Syrian Government, Syria's relations with both the United States and neighboring countries deteriorated. Major portions of the Sixth Fleet were moved to the Eastern Mediterranean, and aircraft were redeployed from Western Europe to Adana, Turkey, as the U.S. made assurances to Syria's neighbors that the U.S. would support them against external aggression.									
43	Indonesia	12/10/57	174	P4	2	Y	Y	N	N
From December 1957 through June 1958, there were a number of revolts against the authority of the Sukarno regime. Primarily because of concern over the safety of U.S. citizens and their property, a contingency evacuation force operated north of Sumatra for much of this period. The standby force was disbanded after the central governmenmt contained the rebellions in June 1958.									
44	Venezuela	5/13/58	3	A3	0	Y	Y	N	Y
On 13 May 1958, a mob attacked the motorcade carrying Vice President Nixon from the airport to Caracas. Two companies of the 2nd Marine Division were airlifted from Camp Lejeune to Guantanamo, Cuba, where they boarded an amphibious ship. Two Army companies of airborne infantry were moved from Ft. Campbell, Kentucky, to Puerto Rico. The alert was cancelled on the 15th, following the Vice President's departure from Venezuela.									
45	Lebanon	5/15/58	48	A6	3	Y	Y	N	N
On 15 May 1958, Lebanese President Chamoun informed the U.S. ambassador that U.S. assistance might be requested because of the entrance of Syrian partisans into Lebanon. Three aircraft carriers and a reinforced Marine force were deployed off Lebanon's coast. By 1 July, reports that there had been no massive infiltration of forces led to the withdrawal of most of the forces from the area.									
46	Lebanon	Jul-58	93	A6	3	Y	Y	Y	Y
On 14 July 1958, following a turn for the worse with serious rioting in Beirut, Lebanese President Chamoun requested U.S. assistance. On the same day there was a coup in Iraq that overthrew a pro-Western government. The first Marine Corps unit landed the next day. The supporting naval force included over 60 vessels, including 3 carriers and an 8-ocean-going minesweeper (MSO) mine force.									
47	Jordan Iraq	7/17/58	138	A7	0	N	N	N	N
Following the coup against the pro-Western Iraqi Government, Jordan's King Hussein requested and received a contingent of British paratroopers. Several surface vessels were redeployed in connection with the British operation.									
48	Quemoy	Aug-58	67	P4	6	Y	Y	Y	N
On 23 August 1958, PRC forces began to shell the Quemoy Islands group, raising the possibility that the islands be cut off from Taiwan. By the first week of September, a Marine Amphibious Ready Group and six CVs were in the area, and three USMC fighter squadrons had moved from Japan to Taiwan. Elements of the Seventh Fleet escorted ROC resupply vessels to within 3 miles of the islands. Tensions eased with a ceasefire on 6 October.									
49	Panama	4/30/59	5	A3	0	N	N	N	N
On 25 April 1959, a small force landed on Panama's Caribbean coast. The United States offered the Panamanian Government small arms, and a small surveillance patrol was established off Panama's coast to deter additional landings. The invaders surrendered on 1 May.									
50	Berlin Crisis	May-59	145	A5	2	N	Y	Y	Y
From fall 1958 on, there was a growing tension over Berlin as the Soviets threatened to turn control of access to the city over to the German Democratic Republic. From April through September 1959, the Soviets interfered with the transit of supply trains to West Berlin. There was a general alert of Navy forces throughout the world during most of the May through September timeframe. The most immediate and visible part of the Navy's response came in the Mediterranean, where the carrier force was brought to an advanced state of readiness and deployed in an alert posture. The response terminated on 30 September 1959 following the end of Soviet harassment along the access routes to West Berlin.									
51	Laos	Jul-59	103	P4	1	Y	Y	Y	Y
In early July 1959, the Laotian Government requested U.S. civilian technicians to assist in the training of the Royal Laotian Army and, later that month, Pathet Lao forces launched an offensive along the North Vietnamese border. In mid-July elements of the Seventh Fleet (including one CVBG and an amphibious force) were deployed near the Vietnamese coast for possible intervention in Laos. The Seventh Fleet returned to normal operations in October after tensions subsided.									
52	PRC-ROC	7/5/59	6	P4	2	?	N	N	N
In relation to growing tensions between the PRC and ROC, and in support of U.S. operational activity off the coast of China, a two-carrier battle group (Ranger and Lexington) conducted operations in the vicinity of Taiwan.									
53	Panama	Aug-59	93	A3	0	N	N	N	N
In reaction to growing civil disorder in Panama, surface combatants were used for surveillance operations. The surveillance operations continued through November 1959.									
54	Congo	7/1/60	124	A4	1	Y	Y	Y	Y
The former Belgian Congo (now Zaire) became independent on 30 June 1960. Elements of the army quickly revolted, and widespread civil disorder resulted. CVS Wasp with a Marine company aboard, was dispatched to assist in the evacuation of Western nationals. During the remainder of the year, the USN supported U.N. forces in the Congo by providing sealift for U.N. force contingents.									
55	Guatemala	11/14/60	27	A3	2	N	N	N	N
At the request of the Nicaraguan and Guatemalan Governments, President Eisenhower ordered the Navy to establish a patrol off of their Caribbean coasts to guard against possible infiltration. The patrol force included one CVA (Shangri-La), one CVS (WAsp), and eight surface ships.									
56	Laos	1/1/61	6	P4	3	Y	Y	Y	Y
Following the Pathet Lao capture of strategic positions on the central plain of Laos, Seventh Fleet forces (including two CVAs (Lexington and Coral Sea), one CVS (Bennington), and an amphibious force) were ordered to the South China Sea. After the situation in Laos stabilized, the units were directed to withdraw on 6 January.									
57	Gulf of Guinea-Congo	2/2/61	34	A4	0	Y	Y	N	N
In early February 1961, the Amity I task force (two amphibious ships, and two destroyers) provided troop lift for U.N. forces in the Congo. As the situation deteriorated, the Amity I force was rerouted to the area on 5 March, apparently at the request of the U.S. Ambassador. On 7 March, the force was released from contingency operations.									
58	Laos	3/21/61	85	P4	3	Y	Y	N	N
Because of the deteriorating position of government forces in Laos, elements of the Seventh Fleet were ordered to the South China Sea. While on station, U.S. Navy aircraft conducted reconnaissance missions over Laos. The alert status of the force was relaxed following the start of ceasefire negotiations in mid-June.									
59	Bay of Pigs	Apr-61	62	A3	2	Y	Y	Y	N
On 17 April 1961, American-trained and -supported Cuban exiles invaded Cuba. By 20 April, Cuban forces had decisively defeated the exiles. Carrier task forces and at least one Marine Corps battalion stood by during the operation. USN units remained in the vicinity as the U.S. attempted to ensure that the captured exiles were not abused by the Cuban Government and tried to negotiate terms for their release.									
60	Dominican Republic	5/30/61	12	A3	3	Y	Y	Y	Y

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
General Rafael Trujillo was assassinated on 30 May 1961. The Caribbean Ready Amphibious Squadron was reinforced by two additional amphibious squadrons, and a three-carrier task force deployed to the region. The alert was cancelled on 10 June as the Dominican Republic's domestic situation stabilized.									
61	Zanzibar	Jun-61	31	P6	0	Y	Y	N	N
In response to rioting on Zanzibar, the vessels of the Amity II force moved to the vicinity of the island. The safety of the U.S. space tracking station on the island was a principal concern.									
62	Kuwait	7/4/61	4	P6	0	Y	Y	N	N
Shortly following Kuwait's independence (19 June 1961), Iraq claimed that Kuwait had been improperly withheld from Iraq and that Iraw planned to annex Kuwait. On 30 June Kuwait requested assistance from the United Kingdom, and Royal Marines landed within 24 hours. On 4 July, the five vessels of the Amity II cruise were directed to sail to the vicinity of Aden to serve as a contingency force. This order was cancelled on 7 July.									
63	Berlin Crisis	Jul-61	102	A5	3	Y	Y	Y	Y
Following a period of increased Soviet pressure over the status of Berlin, German Democratic Republic forces established barriers along the border between the two sectors of Berlin on 13 August 1961. In response, the U.S. sent reinforcements to the Berlin Brigade. Prior to this, in response to the mounting Soviet pressure, the Navy's forces were augmented with 33 reserve ships and approximately 8,000 Naval Reserve personnel. Elements of the Sixth Fleet were put on alert and a CVS group was moved to the Northeast Atlantic.									
64	Dominican Republic	11/18/61	32	A3	1	Y	Y	N	N
On 18 November, Dominican President Balaguer declared a state of emergency following the return to the Dominican Republic of two brothers of the slain Trujillo (see response 60). The Caribbean Ready Amphibious Squadron was deployed off the coast and was reinforced by the Roosevelt CVBG. Operational activity included amphibious force feints directed at the beach and flyovers of A-4Ds just outside Dominican territorial waters to underscore Secretary of State Rusk's statement that the U.S. would not "remain idle" if the Trujillos attempted to reestablish the dictatorship. The Navy's response ended following the formation of a Council of State on 19 December.									
65	South Vietnam	Dec-61	244	P4	0	N	N	N	Y
During the December 1961 through August 1962 period, the U.S. increased its military involvement in Vietnam. In December, for example, the first major U.S. Army contingent arrived. On 22 December, a newly formed USN anti-infiltration coastal patrol began operations. These patrols terminated on 1 August 1962.									
66	Dominican Republic	1/18/62	2	A3	0	Y	Y	N	N
On 18 January 1962, a coup ousted the regime in the Dominican Republic. Within six hours, a USN force was ready for a planned show-of-force operation. The deployment was cancelled on 19 January, apparently because the U.S. was satisfied with the course of events in the Dominican Republic.									
67	Guatemala Riots	3/14/62	9	A3	1	Y	Y	N	N
Following student rioting on 13 March 1962 which led to an outbreak of more general civil disorder, the U.S. established a precautionary deployment off the coast of Guatemala. The force included CVA Midway and the Caribbean Ready Amphibious Squadron.									
68	South Vietnam	4/15/62	849	P4	0	Y	Y	N	N
On 15 April 1962, a Marine company arrived in Saigon. It was the first USMC advisory unit to arrive in the Republic of Vietnam, and its arrival denoted a qualitative change in Navy/Marine Corps operations in South Vietnam.									
69	Thailand	5/10/62	90	P4	2	Y	Y	N	N
Following major victories by Pathet Lao forces that moved their units closer to the Thai border, the U.S. carried out an administrative landing of Marine forces in Thailand at the request of the government of Thailand. About 3,400 Marines moved to Thailand between 17 and 20 May. The United Kingdom, Australia, and New Zealand sent forces to Thailand as well.									
70	Guantanamo	7/25/72	3	A3	0	Y	Y	N	N
For the first eight months of 1962, there was a particularly serious period of harassment of the U.S. base at Guantanamo. A major response took place in July when it was feared that the security of the installation might be threatened in conjunction with Cuban celebration of the 26th of July revolutionary holiday. The Caribbean Ready Amphibious Squadron deployed to Guantanamo on 25 July, and major air demonstrations were conducted over the base that evening. The alert was terminated on the 27th.									
71	Haiti Civil Disorder	Aug-62	14	A3	1	Y	Y	N	N
In early August 1962, U.S. decision-makers were apprehensive concerning potential civil disorders in Haiti. In response the Caribbean Ready Amphibious Squadron was positioned for possible employment and a two-destroyer patrol was established in the Gulf of Gonave.									
72	Cuban Missile Crisis	10/14/62	38	A3	8	Y	Y	Y	Y
A 14 October overflight provided evidence that Soviet MRBMs were deployed in Cuba. On 22 October, President Kennedy announced a quarantine of the island nation. Approximately 180 U.S. Navy ships, including 8 carriers and a 60-ship amphibious force, were involved in the response. The blockage was lifted on 20 November.									
73	Sino-Indian War	11/19/62	2	P6	1	N	N	N	N
During the Sino-Indian War, Indian Prime Minister Nehru requested U.S. fighters for possible combat operations against the PRC. In response, an American aircraft carrier was dispatched from the Pacific towards Indian waters; but the crisis passed 24 hours after Nehru made this appeal, and the CV turned back before it reached the Bay of Bengal.									
74	Laos	Apr-63	35	P4	2	Y	Y	N	N
After Pathet Lao forces had inflicted serious defeats on the neutralist faction in Laos, U.S. forces deployed to the area. The two carriers (Ticonderoga and Ranger) and a three-ship amphibious group returned to normal Seventh Fleet assignments on 5 May, two weeks after a cease-fire agreement was reached.									
75	Haitian Unrest	4/29/63	34	A3	1	Y	Y	N	N
On 16 April 1963, the Haitian Government announced it had uncovered a plot to overthrow the Duvalier regime. Over the coming weeks, tension continued to mount. On 29 April, a 30-man USMC training force was withdrawn from Haiti. On 8 May, Navy ships evacuated 2,279 civilians. Both the United Kingdom and France deployed ships during the crisis. On 17 May, the U.S. broke diplomatic relations with Haiti. On 3 June, following stabilization of the situation, the U.S. resumed diplomatic relations and the Navy forces were released from contingency tasking.									
76	Haiti Civil War	8/6/63	17	A3	1	Y	Y	N	N
Groups of Haitian exiles invaded Haiti on 5 and 15 August 1963. On 6 August the Caribbean Ready Amphibious Squadron sailed to the Gulf of Gonave, where it remained until 22 August. The Haitian Government easily defeated the rebels.									
77	Vietnam Civil Disorder	8/25/63	93	P4	2	Y	Y	N	N
U.S. Navy forces responded to domestic disturbances in South Vietnam that culminated in the 1 November 1963 coup overthrowing President Diem. On 25 August, CINCPACFLT was ordered to station Naval forces off the South Vietnamese coast prepared to evacuate American nationals. On 11 September, CINCPAC returned all Navy forces to normal operations. This deployment was the first of several in the worsening South Vietnamese internal crisis. Shortly following the coup, two aircraft carriers (Hancock and Oriskany) and an amphibious force were operating off the Vietnam coast. On 7 November, the last units were released for normal operations.									
78	PRC-ROC	9/20/63	5	P4	1	N	N	N	N
On 20 September 1963, the CVA Hancock was directed to move to a position off Taiwan in anticipation of a PRC bombardment of the offshore islands. This followed a period of active ROC raiding of the mainland.									
79	Dominican Republic	9/25/63	81	A3	0	Y	N	N	N
On 25 September 1963, a coup overthrew the government of President Bosch. The United States suspended diplomatic relations and cut off economic aid. The Caribbean Ready Amphibious Squadron was alerted for the response. The alert was cancelled on 14 December.									
80	Indonesia-Malaysia	Oct-63	78	P4	1	N	N	N	N
The Federation of Malaysia was created on 16 September. The Sukarno regime in Indonesia laid claim to some of Malaysia's territories and conducted a guerilla war in provinces on the island of Boreno. The Western response was carried out primarily by the United Kingdom. There were, however, a number of demonstrative actions taken by the U.S. included a 29 November through 17 December port visit by the seaplane carrier AV Salisbury Sound to Singapore.									
81	Zanzibar	1/12/64	2	P6	0	N	N	N	N
On 12 January, a rebel movement overthrew the regime in Zanzibar. On 13 January, the U.S. DD Manley evacuated 54 U.S. citizens and 36 nationals of other countries to Tanganyika.									
82	Tanganyika	1/20/64	7	P6	0	N	N	N	N
On 20 January 1964, there was an army mutiny in Tanganyika. The DD Manley was directed to return there for possible evacuations. On 25 January, British forces landed and put down the mutiny.									
83	Carib. Surveillance	1/15/64	92	A3	0	N	N	N	N
As a result of possible arms smuggling, a two-destroyer patrol was stationed in the southern Caribbean for surveillance and interception operations.									
84	Panama	Jan-64	101	A3	0	Y	Y	Y	Y
Following serious rioting in the Canal Zone (which left 4 U.S. soldiers and 20 Panamanians dead), the Government of Panama suspended diplomatic relations with the United States on 9 January. An amphibious force was kept in the region until a week following the 3 April U.S.-Panamanian agreements that restored diplomatic recognition.									
85	Venezuela	Jan-64	310	A3	0	N	N	N	N
The U.S. established special surveillance operations in response to reports that Cuba was supplying Venezuelan rebels with arms and personnel. The patrol aircraft and surface ship patrols were terminated on 7 November, after observing more than 200 vessels.									
86	Cyprus	1/22/64	269	A6	1	Y	Y	Y	N
After conflict between Greek and Turkish factions renewed on 21 January 1964, elements of the Sixth Fleet were deployed to the vicinity of Cyprus. While U.S. Navy vessels conducted patrols off Cyprus throughout this period, there were several phases to this conflict. Aircraft carriers were deployed off Cyprus for most of March, early June, and from 8 August to 2 September									
87	Brazil	3/31/64	4	A4	1	N	N	N	N

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
	Following domestic unrest, the Forrestal CVBG moved off Santos, Brazil. This unit was on station from 31 March to 3 April. There was a military coup, and a new President was sworn in on 2 April.								
88	Laos	4/21/64	42	P4	2	N	Y	Y	N
	Following an abortive rightist coup attempt on 19 April, Pathet Lao units made gains. On 21 April the Kitty Hawk CVBG was ordered to a position in the South China Sea. On 18 May carrier aircraft began low-level aerial reconnaissance missions over Laos. Following the 7 and 8 June shooting down of Navy reconnaissance aircraft, planes from Constellation and Kitty Hawk flew air strikes against Pathet Lao antiaircraft positions. On 21 May, the standing carrier presence at Yankee Station in the South China Sea was initiated.								
89	Guantanamo	5/1/64	7	A3	0	Y	Y	N	N
	In the midst of serious Cuban harassment of the Guantanamo base, on 27 April 1964, there were indications that the Government of Cuba intended to have demonstrations take place along the base's perimeter. The Caribbean Ready Amphibious Squadron deployed to the base for the period 1–7 May.								
90	Panama	5/7/64	14	A3	0	Y	Y	N	N
	Because of fears that violence might accompany the Panamanian presidential elections, the Caribbean Ready Amphibious Squadron was deployed off the coast of Panama. It remained there for a week following the 13 May certification of the election results.								
91	Dominican Republic	7/24/64	5	A3	0	N	N	N	N
	U.S. Navy surface ships and patrol air craft conducted four days of special patrol operations designed to detect Cuban arms shipments directed at the Dominican Republic.								
92	Gulf of Tonkin	8/2/64	9	P4	2	N	N	N	N
	On 2 August 1964, North Vietnamese MTBs engaged USS Maddox; two of the patrol boats were sunk. On 4 August, two destroyers were engaged, and again two patrol boats were sunk. On 5 August, aircraft from the carriers Ticonderoga and Constellation carried out retaliatory strikes against the North Vietnamese mainland. The Gulf of Tonkin Resolution of 10 August 1964 is used as the starting point for the Vietnam-Indochina War. U.S. Navy activity in the region from this point through the evacuations in April 1975 are considered to be part of the conflict and thus are excluded from consideration in this work.								
93	Haiti	8/7/64	3	A3	0	N	N	N	N
	On 7 August 1964, CINCLANT initiated a two-day surveillance operation designed to locate a ship that was believed to be connected with Haitian military forces.								
94	Panama	1/7/65	6	A3	0	Y	N	N	N
	In anticipation of possible rioting that might accompany the first anniversary of the 9 January 1964 riots, forces in USCINCSO were put on alert. One LST was put on alert for the 9–12 January period.								
95	Tanzania	1/17/65	1	P6	0	N	N	N	N
	On 17 January 1965, a destroyer was ordered to move to a position off Tanzania following the request by the Department of State for a ship for potential evacuation of U.S. nationals from the country. The alert was cancelled later that same day.								
96	Venezuela-Colombia	Jan–65	91	A3	0	N	N	N	N
	In response to reports of clandestine arms shipments and movement of personnel, surface ship and patrol aircraft surveillance patrols were established in the Caribbean.								
97	British Guiana	Apr–65	11	A3	0	N	N	N	N
	In response to domestic violence, air and surface patrols were established. On 11 April Navy aircraft located a Cuban ship that was believed to be carrying arms to rebel forces within British Guiana. Surveillance was held until a Royal Navy vessel arrived on the scene.								
98	Dominican Republic	4/25/65	515	A3	2	Y	Y	Y	Y
	Following a period of mounting tension in the Dominican Republic, on 25 April 1965, the U.S. Embassy indicataed that a landing might be required to protect American lives and conduct evacuations. Between 27 and 30 April, some 2,400 evacuees were removed by the deployed amphibious force. The first troops went ashore on 28 April, and by 1 May, a total of 1,580 Marines and 2,262 Army troops were on the island. On 28 June 1966, U.S. forces began to be withdrawn from the country.								
99	Yemen	Jul–65	32	P6	0	N	N	N	N
	July and August 1965 were critical months in the Yemeni civil war. MIDEASTFOR surface combatants carried out surveillance and presence missions during this period.								
100	Cyprus	8/3/65	30	A6	1	Y	Y	N	N
	During a period of growing tension on Cyprus that centered on proposed changes to the electoral system, a CVBG and an amphibious force operated off the island.								
101	Indonesia	10/2/65	8	P4	0	Y	Y	N	N
	On 30 September 1965, there was an abortive rebellion involving elements of the Indonesian Communist Party and the Indonesian army. An amphibious task force stood by as a contingency evacuation force following the attempted coup.								
102	Indo-Pakistani War	9/11/65	25	P6	0	N	N	Y	N
	The Indo-Pakistani War broke out in the first week of September 1965. On 11 September, two ships from MIDEASTFOR left Bahrain en route to Karachi, Pakistan, to act as a contingency evacuation force. On the 15th, USAF planes evacuated U.S. civilians from West Pakistan.								
103	Greek Coup	4/21/67	23	A6	1	Y	Y	N	N
	The military coup occurred on 21 April 1965. In response, the America CVBG was immediately dispatched to the Ionian Sea. Two amphibious groups were included in the contingency task force.								
104	Six Day War	6/6/67	6	A6	2	Y	Y	Y	Y
	On 13 May 1967, Egypt reinforced its forces in the Sinai border and Israel mobilized in response. Following several weeks of growing tension, the war commenced on 5 June. The fleet was initially held back to indicate American noninvolvement in the fighting. On 6 June, two carrier task forces moved closer to the fighting. On 10 June, the President ordered a high-speed carrier movement toward Syria to facilitate a cease-fire agreement.								
105	Eliat Sinking	10/21	67	12	A6	2	N	N	N
	On 21 October 1967, Egyptian ships sunk the Israeli destroyer Eilat using surface-to-surface missiles. In response, two carrier task forces were ordered to a position 100 miles north of Egypt.								
106	Cyprus	11/15/67	24	A6	1	Y	Y	N	N
	On 15 November 1967, there was renewed communal violence on Cyprus. This led to a contingency deployment of Sixth Fleet units in anticipation of possible evacuations. On the 24th, U.S. citizens were evacuated by commercial aircraft with no military involvement.								
107	USS Pueblo	1/24/68	59	P4	3	N	N	Y	N
	On 23 January 1968, North Korean Forces seized USS Pueblo in international waters. On the 24th, TG 70.6 (CVA Enterprise) was directed to Korea. Through 22 March, a standing two-carrier force was maintained off Korea, and intermittent deployments were maintained after that point until the release of Pueblo's crew on 22 December.								
108	EC–121 Shootdown	4/15/69	26	P4	4	N	N	Y	Y
	On 15 April 1969, a U.S. Navy reconnaissance plane was shot down by Democratic Republic of Korea (DPRK, North Korean) fighters over the Sea of Japan. SAR efforts began immediately and TF 71 was activated, drawing units from South-East Asia (including four aircraft carriers). After 26 April, the force was reduced to a one carrier battle group.								
109	Curacao Civil Unrest	5/31/69	1	A3	0	Y	Y	N	N
	Because of riots in Curacao, the fast element of the Caribbean Ready Force (one cruiser and three amphibious ships) was reconstituted on 31 May 1969 and ordered to a position off Curacao in anticipation of possible evacuations. Order was quickly restored and, at sunset on 31 May, the group was ordered to return to normal operations.								
110	Lebanon-Libya Ops	10/26/69	5	A6	2	Y	Y	N	N
	On 1 September 1969 a coup overthrew the Libyan monarchy. At the same time conditions were very unsettled in Lebanon, leading to the 22 October resignation of the Lebanese Prime Minister. Contingency forces in the period 26–30 October included two carrier task forces and the Mediterranean Amphibious Ready Group.								
111	Trinidad	4/22/70	6	A3	0	Y	Y	Y	N
	The Government of Trinidad and Tobago declared a state of emergency on 21 April in response to civil unrest and a munity of 80 troops. The Caribbean Ready Group was ordered to sail to the vicinity in preparation for evacuation operations.								
112	Jordan	6/11/70	7	P6	1	Y	Y	Y	N
	On 9 June 1970 the Popular Front for the Liberation of Palestine (PFLP) seized 32 hostages in a hotel in Amman; 14 Americans were among those held. In addition, on the same day, there was an unsuccessful assassination attempt against King Hussein. CVA Forrestal moved to the Eastern Mediterranean to provide air cover for potential evacuation operations. While the situation in Jordan abated, tensions flared in neighboring Beirut, with an attack on the Jordanian embassy on 12 June. The situation in Lebanon calmed on the 15th, and U.S. forces returned to normal operations on 17 June.								
113	Jordan	9/2/70	60	A6	3	Y	Y	Y	Y
	Sixth Fleet units were put on alert on 3 September 1970 because of rising tensions in the region. On 6 September, the PFLP hijacked civilian airliners and took them to Dawson Field. Fighting soon broke out between Jordanian and Palestinian forces. Two CVs and the Mediterranean Amphibious Ready Group (MARG) were in the Eastern Mediterranean. Following Syrian intervention on 18 September, CVA Kennedy and elements of the 8th Marine Amphibious Brigade (MAB) were ordered form the East Coast to the Mediterranean. On the 19th, troops in Germany and CONUS (82nd Airborne Division) were alerted for movement. By 24 September, all Syrian forces were out of Jordanian territory and, by 5 October, only one carrier was on station in the Eastern Mediterranean.								
114	Haiti succession	4/22/71	37	A3	0	N	Y	N	N

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA

Haitian President Francois Duvalier died on 21 April 1971 and was succeeded as chief of state by his 19-year-old son Jean-Claude. A surface patrol was established in the Windward Passage because of the possibility that the situation might be exploited by Haitian exiles and/or Cuban forces. Additionally, USMC BLT 2/3, in the U.S., was alerted and carried out a contingency reaction drill (no amphibious ships were diverted to support this).

115	Indo-Pakistani War	12/10/71	30	P6	1	Y	N	N	N

The Bangladesh war began on 3 December 1971 and, on 7 December, the head of the U.N. relief mission in East Pakistan (Bangladesh) indicated that evacuation of foreign civilians might be required. On 10 December, a CVBG (CVAN Enterprise) and an amphibious ready group were ordered to the Indian Ocean. On 12 December, the Royal Air Force evacuated Western nationals from East Pakistan, thereby eliminating the requirement for an American evacuation operation.

116	Bahama Lines	12/15/71	52	A3	0	N	N	N	N

Following seizure of the steamer Johnny Express by Cuban naval forces on 15 December 1971, two U.S. Navy destroyers were put on alert. The remaining four ships of the exile-owned Bahama lines were escorted through the end of January 1972.

117	Lebanon	5/3/73	7	A6	2	Y	Y	N	N

On 3 May 1973, the Palestinian Yarmuk Brigade entered Lebanon from Syria. Two CVBGs (Forrestal and Kennedy) were alerted for potential evacuation operations. By 9 May, the situation had stabilized.

118	Middle East War	10/6/73	48	A6	3	Y	Y	Y	Y

On 6 October 1973 Egyptian and Syrian forces launched a surprise attack on Israel. U.S. Navy forces quickly sortied in response to the war, with two CVBGs (Independence and Roosevelt) and an amphibious force in the Mediteranean and a CVBG (Kennedy) in the Eastern Atlantic. On 25 October U.S. forces went on Defense Condition (DEFCON) III alert status, as possible intervention by the Soviet Union was feared. The Kennedy CVBG and additional amphibious forces entered the Mediterranean. On 26 October, CINCSAC and CINCONAD reverted to normal DEFCON status. On 31 October USEUCOM (less the Sixth Fleet) went off DEFCON III status. The Sixth Fleet resumed its normal DEFCON status on 17 November.

119	Middle East Force	10/24/73	22	A7	0	N	N	N	N

On 24 October, the U.S. merchant ship LaSalle was shot at at the mouth of the Red Sea. Over the next month, a MIDEASTFOR destroyer escorted U.S. merchant ships in the lower Red Sea.

120	Oil Embargo-IO Ops	10/25/73	159	A6	1	N	N	N	N

Following the initiation of the oil embargo in the midst of the October War, a CVBG (Hancock) was ordered from the South China Sea to the Indian Ocean.

121	Cyprus	7/15/74	39	A6	2	Y	Y	Y	Y

On 15 July 1974, immediately after a coup on Cyprus, the carrier America was ordered to augment the Sixth Fleet instead of returning to the U.S. At the same time, port calls for the Forrestal CVBG and the Sixth Fleet amphibious groups were cancelled. On 22 and 24 July, evacuees from Cyprus were brought aboard USN vessels. For the next month, Sixth Fleet units remained on a high state of readiness in the area as the situation remained tense on the island. On 2 September, the last units were released from contingency tasking.

122	Cyprus Unrest	1/18/75	4	A6	1	Y	Y	N	N

Following violent Greek Cypriot demonstrations, some of which were outside the American Embassy in Nicosia, the Joint Chiefs ordered a precautionary deployment of a carrier group to a position southwest of Cyprus. In addition, units of the Sixth Fleet's amphibious force were alerted for possible evacuation duty. By 21 January, the situation had quieted and the alert situation was relaxed.

123	Ethiopia	2/3/75	4	A7	0	N	N	N	N

In 1974, elements of the Ethiopian military seized control of the government and overthrew Emperor Haile Selassie. As the Ethiopian civil war intensified, a two-ship contingency force took position in the Red Sea for potential evacuation of American citizens who operated the U.S. Navy Communications Station in Asmara. On 4 February, these civilians were evacuated by commercial airliners. On 6 February, the contingency force was released.

124	Mayaguez	5/13/75	3	P4	2	Y	Y	Y	N

On 12 May 1975, the SS Mayaguez was seized by Cambodian gunboats and escorted to Koh Tang Island. On 14 May, U.S. Marines recaptured the Mayaguez and went ashore on Koh Tang Island, releasing the crew. Air cover was flown by USAF fighters operating from Thailand and by aircraft operating off Coral Sea.

125	Lebanon	Aug–75	367	A6	1	Y	Y	N	N

During 1974 and 1975, the situation in Labanon generally deteriorated as the nation headed toward civil war. In late June, a U.S. Army colonel was kidnapped and held for two weeks. Starting in August, a contingency evacuation force was maintained for the potential evacuation of the approximately 100 U.S. Government employees and 1,000 U.S. citizens in Lebanon.

126	Polisario Rebels	1/5/76	18	A5	0	Y	N	N	N

On 3 January 1976, the Moroccan Navy stopped a Soviet cargo ship off the Spanish Sahara and found a cargo of arms. In response to the evidence of increased Soviet support for the Polisario rebels, U.S. Navy vessels made three port visits in Morocco during January 1976.

127	Tunisia	7/27/76	25	A6	0	N	N	N	N

To reassure Tunisian officials following Libyan threats against Tunisia, the U.S. Embassy at Tunis requested that the port visit by two vessels to Tunis be extended. A frigate made a port visit at Sfax several weeks later at the request of the State Department.

128	Kenya-Uganda	7/8/76	20	P6	1	N	N	N	N

Because of the possibility of Ugandan military operations against Kenya following the Israeli raid on Entebbe airport, the Ranger CVBG was ordered from the South China Sea to the Western Indian Ocean. In addition, two MIDEASTFOR frigates made successive port calls in Mombassa in mid-July. Ranger was released on 27 July.

129	Korean Tree Incident	8/19/76	21	P4	1	N	N	Y	Y

Following the murder of two U.S. Army officers (and wounding of four U.S. and five South Korean soldiers) on 18 August 1976 in the demilitarized zone, a general buildup and alert of forces occurred in South Korea. The Midway CVBG was ordered from Yokosuka to an operating area in the approaches to the Korea Strait, where it remained until released on 8 September.

130	Uganda	2/25/77	6	P6	1	N	N	N	N

In response to restrictions placed on Americans in Uganda by President Amin, the Enterprise CVBG was ordered to move to a position off the coast of Kenya. The CVBG was released to normal operations after Amin lifted all travel restrictions on Americans.

131	Ogaden War	FEb–78	51	P6	1	N	N	Y	N

In late February 1978, surface ships from MIDEASTFOR began surveillance operations of the Somali invasion of the Ogaden region of Ethiopia. Following the collapse of the Somali army in the Ogaden, the Kitty Hawk CVBG was ordered to a holding point north of Singapore. On 23 March, the CVBG was released without having been sent into the Indian Ocean.

132	Sea of Okhotsk	6/15/78	10	P4	0	N	N	N	N

Following increased Soviet military activity in the Far East, Secretary of Defense Harold Brown asserted that the U.S. did not recognize the Sea of Japan as a Soviet sanctuary. A week later, three USN ships began operations in the Sea of Japan to underscore the Secretary of Defense's comments and to demonstrate the right of free navigation in international waters.

133	Afghanistan	Jul–78	31	P6	1	N	N	N	N

During the growing unrest in Afghanistan, the Enterprise CVBG was ordered to remain in the vicinity of Diego Garcia. Enterprise was released as of 31 July.

134	Nicaragua	9/16/87	16	A3	0	N	N	Y	N

Following a period of growing civil strife in Nicaragua, on 16 September 1978 CINCLANTFLT ordered surface ship surveillance operations off the west coast of Nicaragua. The operations commenced on 20 September and continued to 1 October.

135	Iran Revolution	12/6/78	86	P6	1	Y	Y	Y	N

On 6 December 1978, following a deterioration in the internal situation in Iran, three surface vessels were ordered to remain in the Persian Gulf/Arabian Sea region following completion of exercise "Midlink." From 28 December through 28 January 1979, the Constellation CVBG was kept in the Singapore area for possible deployment to the Indian Ocean. On 14 February, armed leftists briefly took over the American Embassy in Tehran. On 18 and 21 February, Western nationals were evacuated from Bandar Abbas and Chah Bahr by RN and commercial ships (many of the evacuees were transferred to USN ships in international waters).

136	China-Vietnam	2/25/79	6	P4	1	N	N	N	N

In response to the 22 February 1979 PRC invasion of North Vietnam and a large Soviet deployment of vessels to the region, USN vessels including the Constellation CVBG entered the South China Sea to monitor the situation.

137	Yemen	3/6/79	93	P6	1	N	N	Y	N

On 6 March 1979, the Constellation CVBG was ordered from the South China Sea to the Gulf of Aden. The deployment to monitor the fighting between North and South Yemen was, most likely, meant to reassure the Saudis that the U.S. intended to remain in the region despite the fall of the Shah. A carrier presence was kept in the region until 6 June.

138	Soviet Troops in Cuba	10/2/79	46	A3	1	Y	Y	Y	N

On 2 October, the JCS issued an executive order directing the establishment of a Caribbean contingency task force, following a month of news reports about the presence of Soviet troops in Cuba. On 11 October, 1,800 Marines left Morehead City en route to Guantanamo as part of REINFORCEX. In mid-October, the Forrestal CVBG transited close to Cuba in conjunction with the U.S. policy of an increased Navy presence in the Caribbean.

139	Afghan/Iran Hostages	10/9/79	472	P6	2	Y	Y	Y	Y

In October 1979 the U.S. relationship with the Islamic Republic worsened as riots and massive demonstrations outside the American Embassy in Tehran became a common occurrence. On 9 October, a 20 October deployment of the Midway CVBG to the region was ordered. On 4 November, Iranian students seized the U.S. Embassy and took the personnel hostage. On 20 November, the President ordered the Kitty Hawk CVBG into the Indian Ocean. The Soviet invasion of Afghanistan in late December reinforced the decision to maintain two CVBGs in the Indian Ocean. On April 24, an attempted rescue mission failed, with eight U.S. servicemen dead. On 21 January 1981, the hostages were released, after 444 days in captivity.

140	Park-Chung Hee	10/26/79	9	P4	1	N	N	Y	Y

Following the assassination of South Korean President Park Chung Hee, DEFCON 3 was declared on 26 October 1979. The Kitty Hawk CVBG was ordered to a position south of Korea. On 5 November, the DEFCON alert returned to normal.

141	Korea	5/27/80	33	P4	1	N	N	Y	Y

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
In 1980 a growing storm of protest calling for democratic reforms led to the declaration of martial law in South Korea and the massacre of several hundred people in the town of Kwangju. A carrier moved to the area in late May and a carrier presence was maintained through 28 June.									
142	Iran-Iraq War	9/30/80	125	P6	2	N	N	Y	N
Following the Iraqi invasion of Iran on 22 September 1980, four USAF AWACS aircraft were deployed to Saudi Arabia on 30 September. On 11 October a reinforcement of the MIDEASTFOR was announced. In mid-October about 60 U.S. British, French, and Australian warships were in the region to prevent potential Iranian interference with oil traffic through the Straits of Hormuz. In February 1981, a decision was made no maintain two CVBGs in the Indian Ocean even though the hostages had been released.									
143	Poland	12/9/80	24	A5	0	N	N	Y	N
Because of instability along the Polish/Soviet border, the chairman of the NATO Military Committee ordered that STANAVFORLANT would not be released for the Christmas holiday. At the same time, the U.S. decided to supply NATO with four AWACS aircraft to monitor the border situation.									
144	Morocco	1/29/81	10	A5	0	N	N	N	N
The Secretary of State, with the concurrence of the Department of Defense, decided that a well-publicized U.S. Naval visit to Agadir would be desirable to send a signal to the Soviets in response to the positioning of three Soviet Navy ships in the region. A three-day visit by CG-20 Turner (CG-20) early in February followed.									
145	Liberia	4/1/81	15	A5	0	N	N	N	Y
On 1 April President Reagan ordered a company of Green Berets and a Navy destroyer to Liberia to show support for the government of Samual K. Doe. On 10 April the Green Berets arrived for 30 days of training exercise with Liberian troops. On 12 April, DD-988 Thorn arrived in Monrovia, Liberia, for a three-day port visit.									
146	Syria	5/3/81	135	A6	2	Y	Y	N	N
Following Israeli reprisal raids against Syrian SAM positions in southern Lebanon, the Forrestal CVBG and the Mediterranean Amphibious Ready Group were ordered into the Eastern Mediterranean on 3 May 1981. In mid-May, the Independence CVBG was retained in Eastern Mediterranean on 3 May 1981. In mid-May, the Independence CVBG was retained in Eastern Mediterranean following a transit through the Suez Canal from the Indian Ocean. On 26 May, Independence was released. On 14 September, the response posture for amphibious forces to conduct evacuation operations was cancelled.									
147	Libya	8/1/81	20	A6	2	N	N	N	N
In response to extensive Libyan claims of sovereignty over international waters, the President authorized Naval exercises in the Gulf of Sidra. During the Freedom of Navigation (FON) operations, two Libyan Air Force fighters were shot down by USN fighters on 18 August.									
148	Sadat-Sudan	10/7/81	24	A6	1	Y	Y	Y	N
Following the 6 October 81 assassination of Egyptian President Sadat at a military parade, a CVBG and the Mediterranean Amphibious Ready Group were ordered to a position 120 n.mi. north of Egypt. The forces were sent to the region because of the possibility of Libyan involvement in the assassination and because of fears of Libyan aggression against either Egypt or the Sudan.									
149	Central America	10/16/81	47	A3	2	Y	Y	N	N
Amidst growing official concern over arms shipments to rebels in El Salvador, a series of maneuvers began in the Caribbean. On 23 December, DD-989 Deyo was tasked to sortie to the coast of El Salvador to conduct surveillance operations. On 2 February, because of the mining of Nicaraguan harbors, the Defense Mapping Agency issued Special Warning #57 warning mariners to avoid Nicaraguan harbors. On 16 Fedruary, DD-970 Caron completed turnover with Deyo, and surveillance operations were to continue in the region for the indefinite future.									
150	Israeli Invasion	6/8/82	45	A6	1	Y	Y	N	N
On 6 June 1982 Israeli forces entered Lebanon in operation "Peace for Galilee." On 8 June the Secretary of Defense ordered the MARG at Rota to the Eastern Mediterranean for potential evacuation of American citizens from Beirut. On 28 June, Israeli forces began a seige of West Beirut. On 20 July, the MARG response posture was relaxed.									
151	Peacekeeping Force	8/10/82	30	A6	2	Y	Y	N	N
On 10 August the alert posture of the Mediterranean Amphibious Ready Group was heightened in light of a likely deployment as part of a peacekeeping force to oversee the evacuation of Palestine Liberation Organization (PLO) forces from West Beirut. On 24 August (EDP), the first of 800 Marines began going ashore at Beirut as part of a joint U.S.-French peacekeeping force. On 8 September, following the removal of the PLO forces from West Beirut, the Marines redeployed aboard the MARG ships.									
152	Palestinian Massacre	9/22/82	143	A6	2	Y	Y	N	N
On 22 September 1982, following the Phalangist Christian force massacre of Palestinians in the Sabra and Shatilla refugee camps, the Mediterranean Amphibious ready Group was ordered to the Eastern Mediterranean. From 27 September through 21 January 1983, two carriers were tethered to Lebanon to provide support for the Marine Corps forces ashore. On 11 February, the response posture for carrier support was relaxed as the situation had stabilized.									
153	Libya-Sudan	2/14/83	11	A6	1	N	N	N	N
Following Libyan threats against Sudan, the Enterprise CVBG moved from a position off Lebanon to a position north of Libya. USN aircraft from Nimitz operated in the Tripoli Flight Information Region and the Nimitz closed to within 85 miles of the Libyan coast.									
154	Honduras	6/14/83	131	3	1	Y	Y	N	Y
In 1983, the U.S. Government expressed great concern over the safety of Honduras, citing the threat of invasion from neighboring Nicaragua. On 14 June, 100 Green Beret military advisors arrived in Honduras. On 18 July, the Ranger CVBG was diverted from a planned Indian Ocean deployment to the vicinity of Central America through 12 August. On 16 August, the Coral Sea CVBG arrived off the east coast of Nicaragua and, on 26 August, New Jersey arrived on station west of Nicaragua. These vessels departed the region in mid-September.									
155	Marine Barracks Bomb	8/29/83	170	A6	2	Y	Y	Y	N
The Eisenhower CVBG was ordered to return at "best speed" to the Eastern Mediterranean on 29 August as the situation in Beirut worsened with more frequent gun battles and growing numbers of USMC casualties. On 12 September, ARG Alpha, the Pacific Amphibious Ready Group, arrived off Beirut. On 4 October, the Eisenhower CVBG was authorized to leave the Beirut area and, on 9 October, ARG Alphas return to PACOM via the Suez was authorized. On 23 October 1983, a suicide bomber struck the Marine Corps barracks in Beirut, killing 241. On the same day, another suicide car bomb killed 85 French paratroopers. Various Sixth Fleet units were ordered to Beirut, both to reassert the U.S. presence and to assist in rescue operations. Following the attack, the Ranger CVBG was diverted from port calls in Australia to the North Arabian Sea, where it operated for 122 days. On 26 February 1984, the withdrawal of the USMC contingent of the international peacekeeping force was completed.									
156	Libya-Chad	8/1/83	16	A6	1	N	N	N	N
Following Libyan aggression against Chad, aircraft from CVN-69 Eisenhower operated in the Gulf of Sidra. CV-43 Coral Sea's departure from the Mediterranean was delayed for a day because of uncertaigty over the situation.									
157	KAL 007	9/1/83	66	P4	0	N	N	Y	N
On 1 September 1983, a Soviet air defense fighter shot down Korean Air Lines flight 007 (KAL 007), killing all 267 aboard. USN surface ships were moved to the vicinity to search for debris and provide an American presence.									
158	Iran-Iraq	10/8/83	92	P6	1	Y	Y	Y	N
Following an 18 September 1983 Iranian threat to block oil exports from the Persian Gulf, ARG Alpha was ordered from the Eastern Mediterranean to the Indian Ocean on 8 October. On 10 October, the Ranger CVBG arrived in the northern Arabian Sea. Ranger, which had been scheduled to depart the region on 18 October, remained through the new year.									
159	Korea-Burma	10/11/83	3	P4	1	N	N	Y	N
During the Secretary of Defense's attendance of funeral ceremonies for the 21 South Korean officials killed by a North Korean bomb in Burma, the Vinson CVBG's departure for the U.S. was delayed. The CVBG operated in waters off Pusan, South Korea, to underscore the U.S. commitment to South Korea.									
160	Syria	12/3/83	37	A6	1	Y	Y	N	N
On 3 December, two F-14s flying over Lebanon were fired upon by Syrian antiaircraft artillery. On 4 December 82, aircraft from Kennedy and Independence were launched against Syrian targets; two were shot down, and one U.S. airman was taken prisoner by Syrian troops.									
161	Grenada	10/20/83	23	A3	1	Y	Y	Y	Y
On 19 October, in response to mounting political strife in Grenada, the JCS issued a warning order indicating the possible requirement for U.S. military assistance to evacuate U.S. citizens from the island. On 20 October, the Independence CVBG and the Amphibious Ready Group en route to the Mediterranean from CONUS were diverted to sail to the vicinity of Grenada to signal U.S. concern regarding evens on the Island. On 25 October Marines and Rangers landed on the island and, by 27 October, all major objectives were secured. On 4 November, Independence and the Amphibious Ready Group renewed their transit to the Mediterranean.									
162	Central America	3/13/84	264	A3	1	Y	Y	Y	Y
In late January 1984, the Secretary of Defense authorized an increase in U.S. Navy presence operations off Central America during the period of 1 February through 31 July to demonstrate support for El Salvador during elections, deter Nicaraguan aggression, and build confidence in the U.S. commitment to Central America. On 13 March, America left for operations off the east coast of Central America that coincided with Salvadoran elections on 25 March. Similar operations through the year included battleship, carrier, and amphibious warfare operations.									
163	Persian Gulf	Apr-84	245	A7	1	N	N	Y	N
Following Iraqi initiation of a major antishipping campaign, the commitment to a continuous CV presence in the North Arabian Sea was renewed. In late May, MIDEASTFOR ships began to escort U.S. flag merchant ships because of the escalating violence in the region. On 4 June, DOD officials announced that the U.S. had sent AWACS planes to Saudi Arabia. (The next day, Saudi warplanes, guided by an AWACS, shot down an Iranian plane in Saudi airspace.)									
164	Red Sea Mines	8/3/84	46	A7	0	Y	N	N	N
On 9 July 1984 a Soviet merchant ship was struck by an unidentified explosion in the Red Sea. On 3 August, following a number of additional mine strikes and an Islamic Jihad announcement that it had laid 190 mines in the Red Sea, a small U.S. mine-countermeasures team was sent to the Red Sea. On 9 August, U.S. minesweeping operations using helicopters operating off USN ships began. In addition to the U.S. efforts, vessels from France, Italy, the United Kingdom, and the Soviet Union conducted minesweeping operations.									
165	Beirut Embassy	9/21/84	42	A6	0	Y	N	N	N

TABLE 2.—DESCRIPTIONS OF U.S. CRISIS RESPONSES—Continued

Number	Name	Begin date	Length	OAC	CVs	Am	USMC	USAF	USA
On 21 September, amidst renewed terrorist threats against the U.S. Embassy in Beirut, three ships were ordered off Lebanon to provide a sea-based contingency response capability. On 18 October, Sixth Fleet units in the Cyprus area were placed on alert because of a terrorist threat to the U.S. Embassy in Nicosia.									
166	Saudi Hijacking	11/6/84	1	46	1	N	N	N	N
Following the 5 November hijacking of a Saudi airliner to Iran, the Enterprise CVBG was ordered to the northern Arabian Sea. On 6 November, the order was cancelled									
167	Cuba	11/30/84	1	A4	1	N	N	Y	N
On 30 November, Nimitz (CVN–68) and an escorting cruiser were ordered from Charlotte Amalie to an area just off the Cuban coast when a Navy-chartered vessel broke down and drifted into Cuban water. The response was cancelled when the USCG ship Reliance took the stricken vessel under tow and removed it from Cuban waters.									
168	U.S. Pers. in Lebanon	Mar–85	32	A6	1	?	N	N	N
Following threats against U.S. personnel at the U.S. Embassy in Beirut, the Eisenhower CVBG was diverted from Majorca to the Eastern Mediterranean while U.S. personnel were evacuated by helicopter to Cyprus.									
169	TWA 847 Hijacking	6/14/85	41	A6	1	Y	Y	N	N
On 14 June 1985, TWA Flight 847 was hijacked to Beirut by Shiite terrorists. The Nimitz CVBG was ordered from Italy to the Eastern Mediterranean, along with the Mediterranean Amphibious Ready Group with 1,800 Marines embarked. Nimitz was on station in the Eastern Mediterranean until 24 July, following the release of the passengers and aircraft.									
170	Persian Gulf	9/13/85	19	A7	0	N	N	N	N
On 13 September 1985, COMIDEASTFOR ordered the escort of an MSC ship because of recent Iranian seizures of merchant vessels. On 22 September, two vessels were diverted from an ASW exercise with the Kitty Hawk CVBG to resume Persian Gulf surveillance operations.									
171	Achille Lauro	10/7/85	4	A6	1	Y	N	N	N
On 7 October 1985, following the Palestinian terrorist hijacking of the Italian cruise ship Achille Lauro, Sixth Fleet vessels (including CV–60 Saratoga) moved to the Eastern Mediterranean. On 10 October, F–14s from Saratoga forced an Egyptian airliner with the hijackers aboard to Italy, where the hijackers were taken into custody.									
172	Egpyt-Air Hijacking	11/23/85	3	A6	1	N	N	N	N
On 23 November 1985, an Egyptian airlines was hijacked to Malta. USN ships, including CV–43 Coral Sea responded to the hijacking and moved toward Malta for contingency purposes.									
173	Persian Gulf Escort	1/12/86	141	A7	0	N	N	N	N
The tension in the Persian Gulf persisted as the Tanker War continued unabated. The 12 January 1986 Iranian boarding of the SS President Taylor led to closer USN escort of U.S. merchant vessels. On 12 May, the destroyer David R. Ray deterred an Iranian Navy attempt to board another U.S. merchant ship.									
174	Yemen Civil War	Jan–86	32	P6	0	N	N	N	N
In January 1986, amidst the bloody civil war in South Yemen, vessels from the Middle East Force, including the flagship La Salle, moved off the Yemeni coast for potential evacuation operations. An RN vessel carried out endangered Western nationals.									
175	OVL–FON Ops	Jan–86	85	A6	3	N	N	N	N
Following terrorist attacks on 27 December 1985 in the Rome and Vienna airports, a series of Freedom of Navigation operations in the Gulf of Sidra (Operations in the Vicinity of Libya, OVL) were approved. Code-named "Attain Document," the first two (26–30 January and 12–15 February) occurred without incident. During "Attain Document III (23–29 March 1986), two SA–5 missiles were shot at U.S. aircraft by a SAM Site on 24 March. Over the next 16 hours, two Libyan patrol boats were sunk by USN aircraft.									
176	Lebanon hostages	Mar–86	1	A6	0	N	N	N	N
A USN vessel was diverted from a point off the coast of Lebanon to stand by to pick up hostages. The vessel was soon returned to scheduled operations as no hostages were released.									
177	LaBelle Disco, Libya	4/10/86	6	A6	2	N	N	Y	N
On 5 April, the La Belle Discotheque in the Federal Republic of Germany was bombed, resulting in the death of one U.S. serviceman and many injured. On 14 April, aircraft from the carriers Coral Sea and America, as well as USAF FB–111s from Lakenheath AFB in the U.K., struck targets in Libya.									
178	Pakistan Hijacking	Sep–86	1	A6	1	N	N	N	N
Following the hijacking of a Pakistani airline, the Forrestal CVBG was ordered to head toward the Eastern Mediterranean in case the aircraft took off for Larnica in Cyprus or Beirut. The vessels were soon released for normal operations as this did not occur.									
179	Persian Gulf Ops	Jan–87	579	A7	2	Y	Y	Y	Y
The U.S. operations in the Persian Gulf were perhaps the most involved use of USN forces since the Vietnam War. U.S. operations increased in intensity during 1987, as the U.S. agreed to reflag and escort ten Kuwaiti oil tankers. Notable points in the operations include: 17 May 1987, an Iraqi Exocet missile hit the frigate Stark, killing 37 U.S. sailors; 21 July 1987, "Earnest Will" escort operations began; 22 July, the tanker Bridgeton struck a mine; 21 September, US forces captured an Iranian vessel laying mines; 6 October, the destruction of three Iranian small boats; 19 October, the destruction of an Iranian oil drilling platform; 14 April 1988, FFG–58 Roberts struck a mine; 18 April, retaliation operations against two Iranian oil platforms led to a day-long naval battle in which many Iranian naval units were damaged or sunk, and, on 3 July 1988, in the midst of a surface engagement, CG49 Vincennes shot down an Iran Air Airbus, killing all 290 passengers and crew. On 20 August 1988, a U.N.-sponsored cease-fire went into effect, ending the nearly eight-year-long war.									
180	Hostages in Lebanon	Feb–87	29	A6	1	N	N	N	N
In response to growing tension over hostages in Lebanon, the Kennedy CVBG was ordered to a MODLOC off Lebanon for potential evacuation operations.									
181	Summer Olympics	Sep–88	31	P4	2	N	Y	Y	Y
During the Summer Olympics in Seoul, South Korea, the U.S. deployed forces to deter North Korean disruption of the Olympics. At one point, two CVBGs (Nimitz and Midway) were operating in the Sea of Japan providing Olympic presence.									
182	Burma Unrest	Sep–88	31	P6	0	Y	Y	N	N
During unrest in Burma, Amphibious Ready Group ALPHA was sent to a MODLOC off Burma for possible evacuation of U.S. citizens. The endangered U.S. citizens finally left Burma by commercial air.									
183	Maldives Coup	11/17/88	1	P6	1	N	N	N	N
The Nimitz battle group was put on alert to provide a U.S. presence near the Maldives. The movement was cancelled after Indian troops sent to the island chain quickly repelled the attempted coup by an armed group of "probable" Sri Lankan Tamil mercenaries.									
184	Lebanon Civil War	Feb–89	45	A6	?	Y	Y	N	Y
During February 1989, fighting in Beirut intensified. In mid-February, following the outbreak of fighting in close proximity to the U.S. Embassy, the Mediterranean Amphibious Ready Group was ordered to move to the Eastern Mediterranean for potential evacuation operations.									
185	China Civil Unrest	Jun–89	31	P4	1	N	N	N	N
During the demonstrations in China and through the military crackdown in Beijing, a carrier battle group steamed in the South China Sea.									
186	Panama Elections	5/11/89	52	A3	1	Y	Y	Y	Y
Following a violent election campaign and annulment of the results by Panamanian President Noriega, President Bush ordered a reinforcement of U.S. forces in Panama. A light infantry battalion from the U.S. Army's 7th Infantry Division and a company from the 2nd USMC division were flown to Howard Air Force Base outside Panama City. U.S. Navy vessels alerted in support of this contingency response included an aircraft carrier.									
187	Hostages in Leb	8/1/89	32	A6	2	Y	Y	N	N
Following the Israel capture of Sheik Obeid and claims that Lt. Col. William R. Higgins, USMC, had been killed, USN forces were ordered to steam toward Lebanon and Iran. The America CVBG was ordered from Singapore to the Arabian Sea; the Coral Sea CVBG left a port call in Alexandria, Egypt, ahead of time; and BB–61 Iowa broke off a port call in Marseilles, France, to steam east toward Lebanon. The cruiser Belknap, with the Sixth Fleet commander aboard, headed to the waters off Lebanon, canceling its participation in a port call in the Soviet Union.									

Note.—See table 1 for notes.

ARTICLES OF IMPEACHMENT AGAINST JUDGE WALTER L. NIXON, JR.

INTRODUCTION

● Mr. JEFFORDS. Mr. President, the analysis of this matter must start with the realization that it is factually a far more complex case than the prior perjury conviction and resulting incarceration of Judge Nixon could easily lead one to believe. Mere reliance by the Senate on the determination of the jury in his criminal trial would constitute an abdication of the solemn obligations placed upon us by the Constitution. Rather, we are charged to examine the facts independently and make our own determinations as to whether the conduct of this Federal judge was such that his removal from office is required. I find that such removal is mandated by the proven facts.

THE ARTICLES

The articles of impeachment charge Judge Nixon with knowingly making false or misleading statements, first to Justice Department officials and the FBI during an interview in his chambers, and later during sworn testimony before a grand jury investigating; First, the judge's financial relationship with Wiley Fairchild; and second, the peculiar handling of the State criminal prosecution of Wiley's son Drew Fairchild for drug smuggling.

Impeachment article I charges that the judge's statement to the grand jury on July 18, 1984, that Forrest County District Attorney Paul "Bud" Holmes never discussed the Drew Fairchild case with him was materially false or misleading in that such a discussion had taken place. Judge Nixon was convicted of perjury for this statement.

Impeachment article II alleges that the judge's testimony before the grand jury on July 18, 1984 that he had nothing to do with Drew's case and that he "never handled any part of it, never had a thing to do with it at all, and never talked to anyone, State or Federal, prosecutor or judge, that in any way influenced anybody" with respect to the Drew Fairchild case was also false or misleading. Judge Nixon was also convicted for perjury based on this statement.

Impeachment article III alleges that Judge Nixon has raised substantial doubt as to his judicial integrity, violated the public trust and generally brought disrepute upon the judiciary by uttering 14 false statements during the Justice Department interview and grand jury testimony. The two false statements alleged in article I are repeated in this article as part of the judge's design to conceal his conversations with Wiley Fairchild, Carroll Ingram and Paul "Bud" Holmes regarding the Drew Fairchild drug smuggling case.

ANALYSIS

Reduced to their basics, the allegations against Judge Nixon are that, while under oath to tell the truth and against his oath of office, he lied about having conversations with several persons regarding the State court drug smuggling case against Drew Fairchild. Judge Nixon does not deny that the conversations did take place or that he was a participant. Rather, his defenses are: First, that at the times he was questioned he had no recollection or recall of these insignificant conversations and/or second, that he gave narrow, but technically truthful responses to the questions put to him on these occasions.

The House points out that the "no recollection" defense is raised for the first time before the Senate. In the prior proceedings on this matter only the "technically true" defense had been asserted. In fact, the House notes that in his prior sworn testimony Judge Nixon specifically stated that he was aware of the conversations when he was answering the grand jury's questions. Thus, they urge the discrediting of Judge Nixon on this point, if for no reason other than his inconsistency. I agree. Obviously, the adoption of an entirely new tact at this late date does nothing to enhance the judge's credibility. Further, given the known facts, any questioning, no matter how general, should have triggered his recollection of these conversations and he should have revealed them to the grand jury and the Justice Department officials. Any other conclusion is simply untenable.

A similar factor working against the judge's credibility is the inconsistency of his testimony regarding the date on which the critical conversations took place. At his criminal trial, Judge Nixon testified that he was positive that he had not been in Hattiesburg at all on May 14, 1982. Thus he argued that the conversations could not have occurred that day and must have been on March 11, 1983, as he proposed. However, records produced after the criminal trial reveal that Judge Nixon was in fact in Hattiesburg on May 14 to visit his dentist. Before the Impeachment Trial Committee the judge explained this discrepancy by stating that his criminal trial testimony had been "an honest mistake."

However, my rejection of this element of Judge Nixon's defense has at least one other basis. By his own account, the subject conversations were called to Judge Nixon's mind by Bud Holmes during a parking lot meeting with him in February 1985. At that time Judge Nixon had not yet been indicted (he would not be until the following August) and the grand jury was still sitting. Accepting for the moment that he did not connect the conversations to the topic of the grand jury investigation until that point, why did he not come forward to clear up any remaining confusion about the issue? He could have returned to the grand jury and offered exculpatory testimony. He could have held his own press conference to bring this matter to full and final light. He took neither these nor any other actions, but rather chose to sit back and allow the grand jury to proceed on the basis (from his perspective) of erroneous facts. The direct results of this choice have been his criminal conviction, incarceration and now impeachment.

For my part I cannot fathom why someone in Judge Nixon's asserted position would fail to come forward. He states that he was completely innocent, his conversations and actions having been entirely appropriate. He had supervised numerous grand juries and thus was fully aware of the broad nature of the investigations which they conduct. He was charged on a daily basis with enforcement of the primary tenet of American criminal justice, that a person is innocent until proven guilty. Did he lack faith in the system when he, rather than another, was the potential accused? Why would he choose not to supply accurate information which would aid the grand jury in reaching a correct conclusion in its investigation?

Judge Nixon has no response to these questions which is satisfactory to me. He first asserts that he would have returned and testified openly had the grand jury recalled him. However, there was no reason for the grand jury to think that he had anything to say in addition to what he had previously testified. The onus clearly was on him to change the status quo created by his prior sworn testimony. His excuse for not taking that step is that the grand jury was out to get him (he was the prize) and any additional testimony only would have been used against him. However, the basis for his perjury convictions was already in place based on his earlier testimony. He could only have made his situation better, not worse, by clearing up the confusion regarding whether the conversations took place and whether there was anything improper about them. Given these facts, I can reach no other conclusion than that Judge Nixon was attempting to coverup something by his silence.

What did Judge Nixon have to hide? This question leads us back to the oil and gas deal with Wiley Fairchild. Judge Nixon was not convicted in connection with this deal, nor do the articles of impeachment include a charge based upon it. However, I agree with the House that the existence and nature of the deal forms the necessary background for understanding Judge Nixon's motivations.

From start to finish this was a sweetheart deal inherently unavailable to the public. Judge Nixon purchased from Wiley Fairchild interests in three oil wells, but he first, laid out none of his own money, second, received a loan from Fairchild at below market rate interest for the amount of the required down payment, third, paid off the loan only after receiving proceeds from the wells in amounts far exceeding his loan indebtedness, and fourth, offered to be of help to Fairchild if he ever could. Further, the deal was also inherently suspect on the issue of its timing. Even viewed most favorably to Judge Nixon, the facts establish that the deal was first discussed before the drug bust but not consummated until afterwards; and that when supporting documents were executed they were backdated. I am not aware, nor do I accept that backdating documents is appropriate legal procedure. All of these facts combined to create an overwhelming body of in-

criminating circumstantial background evidence.

The evidence does not conclusively establish that Judge Nixon believed there was anything improper about his deal with Fairchild or that he otherwise tried to hide its existence. However, Fairchild was charged with and plead guilty to making an unlawful gratuity for the deal. He obviously thought that something more than an arms-length transaction had taken place. I cannot believe Judge Nixon was so naive that he did not recognize that there were strings attached to the deal, or at the very least that its terms were extremely suspect. Rather, I conclude that he was fully aware of the unusual nature of his investment and that it would readily lead any investigator looking into the situation to suspect that some impropriety had occurred. Revelation of the fact that the Judge, Holmes and Fairchild had discussed the drug case, no matter how innocent the discussions may have been, would only serve to confirm such suspicions. Thus, fear that his professional standing and reputation would be damaged, coupled with a desire to maintain and perhaps expand upon this very favorable relationship with Wiley Fairchild, were the predominant factors motivating Judge Nixon to conceal the conversations.

This conclusion brings me foresquare to Judge Nixon's second line of defense, that is, that his answers to the questions of the grand jury and the Justice Department officials were technically true. Unfortunately for the judge, I find this argument to be nothing more than a semantic shell game, which is totally dependent upon an overly minute parsing of the term "discussion" and which ignores the commonsense interpretation of the known facts. Judge Nixon would have us believe that although he knew of his business relationship with Wiley Fairchild, his close personal relationship with Bud Holmes and the conversations which he had with the two of them about Drew Fairchild's care (or at least about matters closely associated with Holmes' handling of that case), his response that he had never "discussed the case" with anyone was technically true.

By no stretch of the imagination can I accept this position. Rather, I must conclude that these responses were clearly false and misleading as charged by the House. Further, as discussed above, I reject Judge Nixon's argument that he simply did not recall the conversations at the time he was being questioned. Thus, my guilty votes on articles I and III are based on the conclusions that Judge Nixon did have discussions regarding the Drew Fairchild drug case, that he was aware of them when questioned by the grand jury and Justice Department investigator and that, by his denials and statements in response to these questions, he intended to conceal their existence.

As to article II, my vote of not guilty reflects the conclusions that Judge Nixon really did not intend to influence the handling of the Drew Fairchild case and that he in fact did not influence it. Applying the "clear and convincing" standard of proof, there simply was not sufficient evidence to establish either proposition. Thus, the midtrial modification of the article, which shifted the focus from whether Judge Nixon intended to influence Bud Holmes' handling of the case to whether he had any actual influence on the case, was immaterial to my determination.

This is undoubtedly a sad case. The oil and gas deals, which prompted the Justice Department investigation, while they were suspect and ill advised, were not proven to be unlawful. Further, the conversations or discussions which Judge Nixon had with Holmes and Fairchild were relatively innocent and not connected in any meaningful way to the business deals. This matter would not be before us but for Judge Nixon's choice to obstruct the ability of the investigators to look for connections between these two events by lying about whether the conversations took place. It is only the lies which have caused his demise. While sad, I submit that there was no other possible outcome, for a judge who has demonstrated complete disregard for the sanctity of his oath is no longer fit to administer and enforce the oaths of others.●

EAST GERMANY

● Mr. ROTH. Mr. President, yesterday Fidel Castro made a speech lamenting "very sad things" happening in the Soviet Union and Eastern Europe.

Evidently, free speech, free elections, and free travel do not win the approval of the great dictator. Well, Mr. President, if Castro was sad yesterday, he must be weeping tears of deep sorrow today, because we have now received word that the icon of the cold war, the Berlin Wall, has been transformed into a useless monument to the foolishness of communism.

The East German politburo has announced that East Germany's heavily armed, bristling frontier with the West will be opened prior to passage of a law enabling all East Germans to travel to the West.

No longer will the East German Communist Party be able to boast to its own people of the so-called achievements of socialism, for East Germans will be free to cross the border with West Germany and to compare and contrast the achievements of democracy and of communism.

However, as we applaud the opening of the Berlin Wall and as we look forward to the hopeful demolition of this symbol of national imprisonment, it is only proper that we remember the many men and women who died on the Berlin Wall.

We now see thousands exiting East Germany with their possessions, but let us not forget an earlier generation of East Germans who faced a much more daunting task in seeking entry into the West, men and women who tunnelled under, climbed over and flew over the Berlin Wall. Sadly, many died on the barbed wire, killed by border guards, mines, and cowardly booby traps.

If the Berlin Wall is ever truly demolished, I would hope a small piece would be allowed to remain as a monument to these brave men and women.

However, Mr. President, I do not mean to cast a somber note on today's news. To the contrary, I wish to applaud our accelerated progress toward a major goal of United States and NATO policy—the end of the arbitrary division of Europe.

Each day brings us fascinating new developments in the Soviet Union, Poland, Hungary, and now East Germany. The attempt to bind the freedom of mankind in the shackles of a sterile ideology is a clear and apparent failure. Let us now evince the vision and the maturity to capitalize on these dramatic developments.●

OBSERVANCE OF VETERANS DAY, NOVEMBER 11, 1989

● Mr. McCAIN. Mr. President, this Saturday, November 11, our Nation will observe Veterans Day. This is the occasion when Americans show their deep gratitude to the men and women who have served as members of our country's Armed Forces. It is the occasion to honor all those whose devotion to their country has ensured the success of liberty in our country and throughout the free world.

The dedication to our national ideals that these faithful Americans have demonstrated and the sacrifices they have endured in service to their country have secured for America a proud and special place in history. We commend all Americans who served in our Armed Forces. But today, I also want to pay a special tribute to those veterans who fought for their country in that divisive conflict, the Vietnam war. Although honorable men and women can debate the merits of our involvement in Vietnam, the valor and devotion of those who fought there should never be dismissed.

In addition, special attention must continue to be focused on those Americans who did not return from Vietnam and whose fate remains uncertain. Let there be no doubt, our na-

tional determination to understand what has become of our missing in action will not waver. This Nation continues to vigorously pursue this issue, and we will have our answers. It is the least we owe to these brave Americans, and to their families who have waited so long to learn what has become of their fathers, sons, and brothers.

Mr. President, our deep concern for missing Americans pervades all strata of our society. We have not forgotten those who served this Nation. The individuals who are still listed as missing in action are very much in our hearts and prayers. Mr. President, I ask that two letters given to me which demonstrate the spirit and depth of this emotion be printed in the RECORD.

Mr. President, our country has not forgotten and will never forget the sacrifices made by our veterans so that all Americans can live free and self-determined lives. On this Veterans Day, let us show our respect to veterans by redoubling our efforts to ensure full accountability for Americans still missing in action. And finally, Mr. President, let us recall on Saturday our sincere gratitude to the men and women of the American Armed Forces who have done so much to preserve the ideals that America stands for.

The letters follow:

DEAR MRS. HUDDLESTON: I am writing to you somewhat reluctantly but in the hopes that you will understand my motivation.

I don't even know where or how to begin. I am writing to you on behalf of your former husband-Maj. H.W. Smith.

My name is Darrah McCann. I'm 27 years old and live in Washington D.C. I've been wearing your husbands bracelet since I was in the sixth grade. At first I guess I didn't realize what I was wearing on my wrist, all I knew is my dad went out and bought this bracelet, one for me—"Bud Smith" and one for my sister. Years after I always talked about "finding out who this bracelet really belongs to." I went down to the Vietnam Memorial wall and I looked in the book-no luck—My bracelet says, Capt. Bud Smith, 1-8-68.

As I was leaving a Vietnam vet. was protesting and camping out by the wall. I stopped and he looked up the year and found out that he was William Hallie, a pilot, same missing date 1-8-68. I went back to the wall (the book) and found the name. I guess by then I felt at peace with it until now.

I work in a restaurant. Our clientele is pretty much military. Well I started talking about it again and a customer Mary Jean went a step further and helped me with all the information.

It's not that I was to stop wearing it or that I don't want it anymore, as a matter of fact it will be hard to give this bracelet up. I don't think of this silver band as a bracelet. Its really just a part of me. I never met Capt. Bud Smith, but I think I fell in love with his spirit, and yet I know nothing about him. I know that probably sounds wierd, and honestly I'm not that deep. All I want to say is the bracelet is yours. It's my gift to your past husband.

If you ever have the time and don't feel that it's too personal, I'd really love to hear a little about him.

Until then,

DARRAH MCCANN.

SEPTEMBER 19, 1989.

DEAR DARRAH: Your letter arrived today having been forwarded to me by the Air Force. I am pleasantly surprised to know there are folks like you in America—still caring about an unknown person. My favorite topic is still my late husband. Even though he was only 26 years old when he was shot down, he did a lot of good things in his short life.

His real name was Hauie William Smith. We met in college and I thought he was the most handsome man in my freshman class. He didn't know how handsome he was which made him seem even nicer. He adored sports, especially baseball and basketball and he played both of those sports in college. He majored in Business and Accounting but his first love was flying! He always wanted to be a pilot. Because he had asthma as a child, passing the rigid AF physical was difficult—but he managed and became a candidate for pilot training. We married and he headed for a year of pilot training at Reese AFB, TX. I taught 6th grade and Bud learned to fly T-37's and T-38's—AF training planes. Bud spent spare time volunteering in a nearby orphange working with small groups of boys and teaching them baseball skills. From Reese AFB we headed south and east to Shaw AFB, So. Carolina and then on to England for a fantastic tour of duty! Once again Bud found homeless youngsters to be with. He planned outings for a small group of teenagers once a month. Sometimes we went to the movies or a concert in London and other times we came to our small rented English cottage and had popcorn. Bud received orders for Vietnam in 1967 and was sent to South Vietnam in Nov. of 1967. He was 25 years old (soon to be 26). His goal was to be an airline pilot and had already interviewed with PanAm. They liked him and agreed to a second interview when he got home—Oct. 1968. As you know, he never made that second interview. His RF4-C plane was shot down Jan. 8, 1968. Parts of his plane were found but he was never found. It is assumed he may have been captured because the area in which his plane went down was heavily infiltrated with VietCong soldiers.

Even though he's been gone nearly 22 years, there isn't a day that doesn't go by that I don't think of him. I am enclosing a photo of Bud taken at his graduation from pilot training. I only have 2 of the pictures left but felt you might like to see the man whose memory we both share.●

THE AMERICAN FARM SCHOOL IN THESSALONIKI, GREECE AND DIRECTOR BRUCE LANSDALE

● Mr. DIXON. Mr. President, I rise before you today to commemorate the American Farm School in Thessaloniki (Salonica), Greece, on the occasion of the retirement of its director of 35 years, Mr. Bruce Lansdale.

Founded in 1904, the school's mission is to train small-scale farmers to be agriculturally self-sufficient. Mr. Lansdale, who is honored throughout Greece, guided the school's growth from an isolated, rural vocational school to an internationally recognized institution for the teaching of vocational agriculture and modern farming. Indeed, the school's grassroots approach has contributed greatly to the positive transformation of Greece's rural sector and set a much-followed example for rural development procedure all over the world.

Mr. President, Bruce Lansdale and the American Farm School in Thessaloniki are to be commended for their "bottom up" approach to rural development training and for their underlying commitment to world peace and understanding through development.●

● Mr. BRADLEY. Mr. President, with the death of Arthur Holland, New Jersey has lost a great friend and a devoted public servant.

Arthur Holland was mayor of New Jersey's capitol city for over a quarter of a century. He was truly the dean of our mayors. His life and work has left an indelible mark on the city. Under Mayor Holland's leadership, Trenton has been in the forefront of confronting major urban problems such as drugs and homelessness. Trenton is on the upswing—due in large part to Arthur Holland's hard work and devotion.

Mayor Holland genuinely cared about our urban areas, not just in New Jersey but throughout the United States. As the president of the U.S. Conference of Mayors, he reminded the country of the needs and strengths of our cities. He was a forceful spokesman for their interests.

With the passing of Mayor Holland, we have lost a public servant whose dedication, hard work, and unbending pride in Trenton and in New Jersey has made our State a better place to live. I have also lost a friend. He will be deeply missed.●

WHO SPEAKS FOR THE DEPARTMENT OF ENERGY?

● Mr. PRYOR. Mr. President, Monday I held a hearing on the Department of Energy's [DOE] use of consultants. For the first time in the 10 years I have spent examining this issue, a high-ranking agency official admitted that DOE has turned over to an invisible private work force much of its basic work, and as a result, the agency faces "a very real danger of slippage in its knowledge, institutional memory and decisionmaking."

Ms. Donna Fitzpatrick, Assistant Secretary for Management and Administration, agreed that consultants are increasingly performing work that she would be more comfortable with Federal workers doing.

What are consultants doing that makes the Assistant Secretary uncomfortable? They wrote Secretary Watkins' testimony without his knowl-

edge, they conduct administrative hearings on security clearances for DOE employees and other contractors, they determine if DOE is in compliance with its own orders, and they perform the Government's work on international treaties while at the same time they work for other countries with an interest in those treaties.

Furthermore, Mr. President, Ms. Fitzpatrick stated that not only are we turning over the basic work of Government to consultants and contractors, but we are doing so at a higher cost to the Government. Ms. Fitzpatrick revealed that, according to a DOE study, DOE is paying consultants and contractors doing these jobs 20 percent more then they would pay a Federal employee to do comparable work.

The Assistant Secretary was very candid about these matters and I felt that DOE might begin to address this overreliance on consultants.

Mr. President, imagine my disappointment when I learned of the comments made by the second highest DOE official, Deputy Secretary of Energy, W. Henson Moore, shortly after the hearing ended. Mr. Moore stated that, since the days of David Stockman, the decision has been to use private consultants, and not Federal officials, to do the basic work of Government. He declared that the purpose of this policy was to save money.

Mr. President, within a few hours of Ms. Fitzpatrick testifying that consultants and contractors cost the Government 20 percent more, Mr. Moore said that according to David Stockman, it is cheaper to use consultants.

Just hours after Ms. Fitzpatrick admitted that prior to the congressional investigation, management officials were unaware that consultants prepare testimony and perform other inherently governmental tasks, Mr. Moore claimed that consultants do not make policy at DOE.

Mr. President, it was Secretary Watkin's decision to send Ms. Fitzpatrick to the hearing Monday. I assume that her testimony on DOE's use of consultants represents DOE's position.

Frankly, Mr. President, I am not interested in David Stockman's views on consultants and contractors. I prefer the candor of Secretary Watkins on the problems within DOE. I ask to have printed in the RECORD a New York Times article of June 28, 1989, that bears the headline, "Energy Chief Says Top Aides Lack Skills to Run U.S. Bomb Complex." I commend it to my colleagues and to Mr. Moore.

Despite the Secretary's candor and the admissions of his designated spokesperson at Monday's hearing, Mr. Moore's comments cause me to question whether all senior DOE officials are aware of the extent of the involvement of consultants and contractors in the basic work of that agency, and further, that by DOE's own admission, it costs more to use consultants and contractors.

The article follows:

[From the New York Times, June 28, 1989]

ENERGY CHIEF SAYS TOP AIDES LACK SKILLS TO RUN U.S. BOMB COMPLEX

(By Matthew L. Wald)

WASHINGTON, June 27.—Energy Secretary James D. Watkins said today that managers and supervisors in his department lacked technical skills needed to run the bomb production system and were presenting him with unreliable information on problems at the plants. Some, he said, lacked the discipline needed for safe operation of nuclear reactors.

Announcing a 10-point plan to improve operations in the department, Mr. Watkins said special "tiger teams" of auditors would look at two other bomb production plants for violations of environmental law like those alleged at the Rocky Flats plant near Denver. Scores of Federal agents are investigating whether the workers in Colorado secretly dumped and burned radioactive and chemical wastes.

He also said that awards to the contractors who run the plants would be based primarily on environmental performance, not production quotas. The plan will include a hot line for citizens to alert the department to problems.

UNUSUALLY BLUNT LANGUAGE

In his most comprehensive comments yet on the nation's nuclear weapons industry, Mr. Watkins acknowledged, as his predecessor had, that that plants were in disrepair. But he dwelled heavily on the disarray within his department, in language that was unusually blunt for a Cabinet secretary.

Alternating frustration with contribution, Mr. Watkins said, "I am certainly not proud or pleased with what I have seen over my first few months in office." Referring to a production system whose major parts are all at least 25 years old, some dating from the development of the atom bomb, Mr. Watkins said. "The chickens have finally come home to roost and years of inattention to changing standards and demands regarding to the environment, safety and health are vividly exposed to public examination, in fact, almost daily."

Mr. Watkins, a retired admiral, said he would like to bring credibility to the department so that when it sought to open a new plant or operate an old one, the public would not feel the department was "jamming something down somebody's throat out there."

But he said his efforts had been slowed because of an insufficient number of technically qualified people on the department's staff. And he said he was involving himself in every major decision because of unreliably optimistic information he was receiving.

"When I get the briefing, I only get one side, so I have to dig in myself, Mr. Watkins said. "I don't have the database coming to me that I need. I have omissions in the database. So I am making decisions today on a crisis basis, and I don't like that. That's not my way of doing business."

As he spoke, an influential environmental group, the Natural Resources Defense Council, released a study showing an even grimmer picture of environmental problems in the bomb plants, with 14 of the 17 major plants found to be in violation of hazardous waste laws. The council and 20 other environmental groups filed suit today against the Department of Energy, seeking to foster a public debate about the cleanup and rebuilding of the bomb production system, by compelling the Government to prepare an environmental impact statement.

'WE ARE NOT IN COMPLIANCE'

A spokesman for the department, Christina Sankey, said she could not confirm the number of plants with serious pollution problems but agreed, "we are not in compliance."

Mr. Watkins said he was ordering a review to see whether the department was complying with the National Environmental Policy Act, the law that calls for environmental impact statements, and that he was personally reviewing each decision on whether to order such a statement, which can entail substantial delay in a project.

But he refused to say whether he would order an environmental statement for the overhaul of the whole system of bomb production, a project that would take decades and may cost more than $100 billion.

He also said his department would get an additional $300 million in the fiscal year that begins Oct. 1 for cleanup. The Reagan administration's budget called for $1.8 billion, which was increased by President Bush $2.1 billion and now to $2.4 billion.

Mr. Watkins said he was surprised to learn last week that his department had ignored recommendations made by the National Academy of Sciences from 1983 to 1987 on the Waste Isolation Pilot Plant near Carlsbad, N.M. The opening of the plant, which is meant for disposal of plutonium-contaminated wastes, has been delayed for months because of questions about its quality. Now, he said, the department will ask the academy for its endorsement of a plan to open the repository, "They're going to tell us, I'm sure, you didn't listen to us from 83 to 87." Mr. Watkins said.

He said the plant would not open until next year, a delay that creates a crisis as wastes continue a pile up at temporary storage sites in Rocky Flats.

'A NIGHTMARE FOR ME'

Mr. Watkins said another waste disposal project, the plan to store highly radioactive wastes from military reactors and civilian ones at Yucca Mountain near Las Vegas, Nev., had been hamstrung by shortcomings of the Energy Department staff. "It has been a nightmare for me to try to unravel the background sufficient to make some decision," Mr. Watkins said. "It's been very confusing, and each day is revealed some new technical data."

He said he had found "serious flaws" in the procedures needed to assure that the department's reactors were safe to operate.

The department will have an entirely new management team, he said, under Victor Stello Jr., now executive director for operations at the Nuclear Regulatory Commission.

"Mr. Stello will assure that conformance to environmental laws and attention to these requirements are developed through a safety-conscious culture that will assure production objectives are met without violation of environmental safety or health standards," he said.

The White House has announced that it plans to nominate Mr. Stello as Assistant Secretary for defense programs, but opposition is expected in the Senate because of unorthodox procedures he used at the Nuclear Regulatory Commission in approving cash payments to obtain information. The money was paid to a former utility employee who

said he had information implicating a commission official in connection with allegations that have not been disclosed.

Mr. Watkins also said he had asked the academy to establish a committee on epidemiologic research to advise the department on ways to study worker health issues. The department plans to create a database on the health histories of its workers who have been exposed to radiation for use by outside researchers.●

TARGETED JOBS TAX CREDIT

● Mr. BOREN. Mr. President, as each day passes, I grow more and more apprehensive that we will run out of time before Congress reauthorizes the targeted jobs tax credit. TJTC provides employers with an incentive to hire the structurally unemployed. It would truly be a shame if while we wrangle over macrodeficit issues, Congress were to allow one of the only true effective job programs for the unemployed to expire on December 31.

Many of my colleagues may believe that if TJTC laspes, it is a simple matter to retroactively reauthorize the program next year. This just is not so. Past experience has demonstrated that if TJTC expires, employers lose the tax incentive for those they hire during the expiration period. Retroactivity does not and cannot work in the case of TJTC.

As recently as 1986, Congress allowed TJTC to expire for 10 months. While it was retroactively reenacted as part of tax reform, program participation was dramatically reduced that year. This is primarily because the job services, which administers TJTC, would not, because of their financial constraints, accept requests for certification of TJTC workers from employers while the program was not reauthorized. In 1990, the financial constraints on the job services will be even more severe than the ones in 1986. In addition, the law requires that requests for TJTC-eligible workers be filed on or before the first day of work. Thus, a retroactive reauthorization does not work for TJTC. This is borne out by the fact that in 1985, approximately 625,000 structurally unemployed Americans obtained jobs through TJTC, but despite retroactive reauthorization in 1986, only 87,102 certifications were issued.

Furthermore, the 10-month program hiatus and the inability to certify the TJTC hires during that period resulted in significant disillusionment among many employers which used TJTC to offset the extra costs of hiring, training and supervising structurally unemployed workers. Employers increasingly believe that TJTC is too volatile a Government program to justify incorporating into their annual business plans.

Employers' disappointment with 1-year extension adopted in 1988, combined with uncertainty about reauthorization beyond 1989, resulted in further decline in participation: in 1988 there were only 497,000 certifications a decrease of 101,000 from 1987.

Despite continued high unemployment among targeted groups—inner city youth, welfare recipients, workers with disabilities, ex-offenders—the number of certifications for 1989—annualized, is estimated to be only 400,000—a decline of nearly 225,000 from its high in 1985.

If TJTC is to remain a viable program, it is critical that a multiyear extension be adopted this year. The House reconciliation bill includes a 2-year extension of TJTC, as did the reconciliation bill reported by the Senate Finance Committee. Therefore, because of the time sensitivity surrounding a TJTC extension, I believe a multiyear extension should and would appropriately be included in the final budget reconciliation package.●

POSITION ON VOTE

● Mr. SIMON. Mr. President, on October 31 the Senate voted on Senate Concurrent Resolution 79, a resolution deploring the Nicaraguan Government's unilateral abrogation of the 18-month-old Nicaraguan cease-fire. I was unavoidably absent for the vote, but if I had been present, I would have voted in favor of the resolution.●

EXECUTIVE CALENDAR

EXECUTIVE SESSION

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations:

Calendar 376, Dennis B. Underwood, to be Commissioner of Reclamation;

Calendar 390, Jane A. Kenny, to be Director of the ACTION Agency;

Calendar 476, Melva G. Wray, to be Director of the Office of Minority Economic Impact; and

Calendar 477, William H. Young, to be an Assistant Secretary of Energy (Nuclear Energy).

I further ask unanimous consent that the nominees be confirmed, en bloc, that any statements appear in the RECORD as if read, that the motions to reconsider be laid upon the table, en bloc, that the President be immediately notifed of the Senate's action, and that Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF THE INTERIOR

Dennis B. Underwood, of California, to be Commissioner of Reclamation.

ACTION AGENCY

Jane A. Kenny, of Virginia, to be Director of the ACTION Agency.

DEPARTMENT OF ENERGY

Melva G. Wray, of Connecticut, to be Director of the Office of Minority Economic Impact.

William H. Young, of New Jersey, to be an Assistant Secretary of Energy (Nuclear Energy).

STATEMENT ON THE NOMINATION OF DENNIS B. UNDERWOOD TO BE COMMISSIONER OF RECLAMATION

Mr. McCLURE. Mr. President, on October 4, 1989, the Committee on Energy and Natural Resources favorably reported the nomination of Dennis B. Underwood to be Commissioner of Reclamation by a unanimous vote.

Mr. Underwood's extensive background in water resource management will serve him well in the position of Commissioner of Reclamation. He has worked for more than 10 years for the Colorado River Board of California and currently serves as its executive director and executive secretary. From 1969-78, Mr. Underwood was with the California Department of Water Resources; and in 1975 served as a consultant to the United Nations, conducting water resources quantity and quality management training for a team of engineers from Spain. From 1966 to 1969, he served with the United States Army Corps of Engineers in Thailand and in New England.

Mr. President, I urge my colleagues to join me in supporting Mr. Underwood's confirmation as Commissioner of Reclamation.

STATEMENT ON THE NOMINATION OF JANE KENNY TO BE THE DEPUTY DIRECTOR OF THE ACTION AGENCY

Mr. HATCH. Mr. President, I urge my colleagues to confirm the nomination of Jane Kenny to be the Director of the ACTION Agency. She is eminently qualified to carry out the administrative responsibilities of this agency and to move it forward toward its goals of providing volunteer opportunities for Americans and of helping those in our society with special needs.

Her past position as the Director of VISTA and ACTION's Deputy Director has given her good insight and understanding into this agency's functions.

As I have worked with her on the reauthorization of ACTION, I have found her to be very knowledgeable about these programs, and she has the management skills to carry them out.

Ms. Kenny is a person that has constantly demonstrated her commitment to voluntarism and is committed to the promotion of the ACTION agency. Her previous work in Government has helped her to realize the benefits that many can realize through programs such as ACTION.

I applaud President Bush's nomination of Jane Kenny for their key position, and I am looking forward to working with Ms. Kenny as she as-

29-059 O-90-11 (Pt. 20)

sumes the head of this important agency.

STATEMENT ON THE NOMINATION OF MELVA G. WRAY

Mr. McCLURE. Mr. President, on November 8, 1989, the Committee on Energy and Natural Resources favorably reported the nomination of Melva G. Wray to be Director of the Office of Minority Economic Impact at the Department of Energy by a vote of 18 to 0.

Ms. Wray has an educational background in economics and good experience in business. For the past 8 years, she has worked for IBM in various capacities, to include marketing representative, office systems manager, and systems engineer. Ms. Wray also has experience with the Federal Government, having worked as an economist for the Bureau of Labor Statistics at the Department of Labor. Her qualifications are appropriate for the position of Director of Minority Economic Impact.

Mr. President, I urge my colleagues to join me in supporting Ms. Wray's confirmation as Director of the Office of Minority Economic Impact.

STATEMENT ON THE NOMINATION OF WILLIAM H. YOUNG

Mr. McCLURE. Mr. President, on November 8, 1989, the Committee on Energy and Natural Resources favorably reported the nomination of William H. Young to be an Assistant Secretary of Energy for Nuclear Energy by a vote of 18 to 0.

Mr. Young has a great deal of background and experience in the field of nuclear energy. He holds an M.S. in engineering, a B.S. in naval architecture and marine engineering, and is certified as a reactor engineer. From 1985 to 1989, as president of his own company, he was involved in management consulting for electric utilities. From 1971 to 1985, he was employed by Burns and Roe, Inc. and served as its vice president for nuclear and fossil projects. From 1962 to 1971, he served in the Division of Naval Reactors for the U.S. Atomic Energy Commission, and prior to that was with the Nuclear Propulsion Division of the Department of the Navy. These qualifications make him well suited for the position of Assistant Secretary for Nuclear Energy.

Mr. President, I urge my colleagues to join me in supporting Mr. Young's confirmation as Assistant Secretary for Nuclear Energy.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

APPROVING THE SOUTHEAST INTERSTATE LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT COMPACT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of H.R. 2642, a bill granting approval to the Southeast Interstate Low-Level Radioactive Waste Management Compact, and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2642) granting the consent of the Congress to amendments to the Southeast Interstate Low-Level Radioactive Waste Management Compact.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. BIDEN. Mr. President, late last week, the Senate Judiciary Committee approved a bill to grant congressional consent to two changes in the southeast interstate low-level radioactive waste compact. That bill, S. 1563, introduced by our colleague from North Carolina [Mr. SANFORD] passed the Senate on November 3.

The purposes of that bill, as with the one before us, are to change the terms of the southeast compact so North Carolina, and all future hosts of the compact's disposal site, will have greater assurances regarding how long it will be the host and how much waste it will have to manage, and that other member States will not drop out of the compact if they are selected as the host in the future.

The changes are noncontroversial. Each of the eight member State of the compact has passed legislation substantially similar to that passed by North Carolina. All that remains to bring the changes into effect is congressional consent, which is required because North Carolina made it a condition of its legislation, and also because changes to the compact itself must be approved by Congress.

The Nuclear Regulatory Commission has no objection to the changes. The Congressional Budget Office projects that the changes will result in no significant cost to Federal, State, or local governments.

The bill passed by the House differs only in the most minor, technical aspects. The House amendments conform the bill to the drafting style used in the southeast compact. No substantive changes were made in the bill.

In order to expedite enactment, and because the Senate has already expresed its position on the matter, the Judiciary Committee decided that passage of the House bill is the best course of action. I commend my colleagues on the Judiciary Committee, the ranking member, Senator THURMOND, as well as the Senator from Alabama [Mr. HEFLIN] for their assistance in facilitating passage of this bill. I also commend Senator SANFORD for his effort to move this bill quickly through Congress and to the President's desk.

Mr. SANFORD. Mr. President, I rise in strong support of H.R. 2642. This legislation would accomplish the same purposes as S. 1563, which I was pleased to introduce on behalf of a number of my colleagues from the southeastern States. The Senate has already conferred its blessing upon S. 1563, and I think my colleagues for their support in passing that legislation on Friday. However, since there are a few minor differences in the wording of the two bills, we can now send the measure on to the President most quickly simply by passing H.R. 2642. I'm pleased that we have the opportunity to do so at this time.

Like S. 1563, this bill will simply confer congressional approval on amendments to the articles of the southeast low-level radioactive waste management compact. The compact's member States—Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia—have already acted to ratify these amendments, and the entire Senate delegation representing these States has joined me in supporting congressional approval.

The amendments provide that:

First, no host facility shall be required to operate for more than 20 years, or to accept more than 32,000,000 cubic feet of waste during its operating life; and

Second, no member State shall be allowed to withdraw from the compact, beginning 30 days after the first new host State facility has opened, unless all other member States and the Congress consent to that withdrawal.

These amendments will make certain that no host State will bear a disproportionate responsibility for disposal of the region's low-level waste, and that each State will meet its obligations under the articles of the compact in turn. By passing H.R. 2642, we can ensure that these responsible and noncontroversial amendments are allowed to enter into force.

I would like to thank my good friend, the majority leader, and the distinguished Republican leader, for their assistance in bringing this measure to the floor in an expeditious manner. I also greatly appreciate the assistance of my distinguished colleague from Delaware [Mr. BIDEN] and my friend from South Carolina [Mr. THURMOND], together with their staffs, in steering this measure through the Judiciary Committee.

I would note that this legislation, which was introduced by Congressman ALEX MCMILLAN in the House, was passed without controversy by the other body. The bill is also strongly supported by North Carolina Gov. Jim Martin and the Governors of the other compact member States.

Again, I thank my colleagues for supporting H.R. 2642, which will help ensure equitable treatment for all the southeast compact member States.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the bill.

The bill (H.R. 2642) was ordered to a third reading, was read the third time, and passed.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

REMOVAL OF INJUNCTION OF SECRECY

Mr. MITCHELL. As in executive session, I ask unanimous consent that the injunction of secrecy be removed from Annex III to the 1973 Convention for the Prevention of Pollution From Ships (Treaty Document No. 101-7), transmitted to the Senate today by the President.

I also ask that the treaty be considered as having been read the first time; that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed; and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The message of the President is as follows:

To the Senate of the United States:

I transmit herewith, for the advice and consent of the Senate, Annex III (Regulations for the Prevention of Pollution by Harmful Substances Carried by Sea in Packaged Forms or in Freight Containers, Portable Tanks or Road and Rail Tank Wagons), an optional annex to the 1973 International Convention for the Prevention of Pollution from Ships, as modified and incorporated by the 1978 protocol relating thereto (MARPOL 73/78). I also transmit, for the information of the Senate, the report of the Department of State with its attached analysis of Annex III.

MARPOL 73/78 is the global agreement to control pollution from ships. Annex III establishes uniform regulations for the transport of packaged harmful substances, including packaging, marking/labelling, documentation, and stowage requirements and, if necessary, quantity limitations. It complements the other annexes to MARPOL 73/78, which relate to the transport of oil (Annex I) and harmful substances carried in bulk (Annex II), and to ship-generated sewage (Annex IV) and garbage (Annex V).

The United States ratified MARPOL 73/78 on August 12, 1980, along with Annexes I and II, and it entered into force for the United States on October 2, 1983. U.S. ratification of Annex III at this time would bring the annex into force. Moreover, agreement has been reached that, once in force, the Parties will adopt U.S.-sponsored amendments to the annex that will strengthen its provisions and make it a more effective environmental instrument.

U.S. ratification of MARPOL Annex III will be an important step in minimizing pollution of the world's oceans from discharges of packaged harmful substances. I recommend the Senate give early consideration to Annex III of MARPOL 73/78 and give its advice and consent to ratification.

GEORGE BUSH.

THE WHITE HOUSE, *November 9, 1989.*

THE CALENDAR

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of calendar Nos. 249 and 314 en bloc; that the substitute amendment, where appropriate, be agreed to; that the bills be deemed read a third time and passed; and motions to reconsider the passage of the bills be laid upon the table.

I further ask unanimous consent that any statements in reference to these calendar items appear at the appropriate place in the RECORD, as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

FEDERAL TRADE COMMISSION ACT AMENDMENTS

The Senate proceeded to consider the bill (S. 1249) to amend the Federal Trade Commission Act to provide authorization of appropriations, and for other purposes.

Mr. HOLLINGS. Mr. President, I am glad that the Senate, once again, is taking up the reauthorization of the Federal Trade Commission. I am pleased to be a cosponsor of this legislation, which was reported without objection by the Commerce Committee.

Unfortunately, the last formal authorization of the Federal Trade Commission was through legislation passed in 1980, which expired in 1982. The Senate has passed legislation since that time, but the measures have failed in conference. I am hopeful that we will remedy this situation in the 101st Congress, beginning with expedited passage of S. 1249.

Needless to say, the FTC has an extremely important mission, including prevention of anticompetitive conduct in the marketplace, and protection of consumers from unfair or deceptive acts or practices. We in Congress must reemphasize the importance of that mission by passage of authorization legislation.

S. 1249 would provide a 3-year authorization for the Agency. It also would make changes in the FTC's authority and procedures based on bills adopted by the Commerce Committee and reported in the 97th through 100th Congresses. In addition, in preparing this bill, the Committee was assisted in its review of the Agency by the report of the American Bar Association's special committee to study the role of the Federal Trade Commission, commonly referred to as the Kirkpatrick Committee, and thus I believe the bill contains thoughtful and necessary measures to insure the effectiveness of the FTC's operations.

For example, the bill would codify a statutory definition of unfairness to be used by the FTC in carrying out its authority to prohibit unfair acts or practices. The definition is the one currently used as a matter of FTC policy, and the bill would insure that the definition is adhered to in the future.

Additionally, the bill reflects the committee's concern with the potential for unbounded regulation of nondeceptive commercial advertising on the basis of unfairness. In order to prevent abuse in this area, the bill would prohibit rulemakings to regulate advertising on the basis of unfairness. The FTC, however, would retain the authority to address individual cases of unfairness advertising. The bill also permits the Congress to monitor the FTC's role in preventing anticompetitive practices, by requiring reporting on predatory pricing and resale price maintenance.

Mr. President, this legislation reflects years of work by the Commerce Committee. It authorizes an agency with an extremely important mission. I encourage my colleagues to vote favorably for this important legislation.

Mr. BRYAN. Mr. President, I am pleased that the Senate is today considering S. 1249, legislation to provide authorization of appropriations for the Federal Trade Commission.

On June 7 and 8, I chaired hearings on the consumer subcommittee into the effectiveness of the FTC in fulfilling its statutory mandate. Witness after witness reaffirmed the importance of the FTC. The increasing number of mergers and filing under the Hart-Scott-Rodino Act, the burgeoning problem of consumer fraud, including telemarketing fraud, and the

growing need for heightened consumer protection activities were topics consistently cited by witnesses as appropriate functions for the FTC.

Now some would question why I have continued to press for an authorization bill for the FTC, especially in view of the fact that things go on at the agency without an authorization bill. I can answer, as did some witnesses, that Congress through the authoriation process has the opportunity to redirect and instruct the FTC regarding its efforts and the manner in which its mandate should be interpreted. For this reason, the full Commerce Committee approved S. 1249, without amendment, on July 25.

Recently, an analysis of the FTC was undertaken by the antitrust division of the American Bar Association. The so-called Kirkpatrick Committee submitted its report in April of this year. The Kirkpatrick Committee looked into issues of leadership, antitrust activities, consumer protection, guidance to business, competition and consumer advocacy, economic theory, resources, organization and structure, and relationships with Congress and the States. This thoughtful examination suggested no dramatic restructuring or reorienting of the FTC. Rather, it found that the FTC has existing statutory authority for a satisfactory role in antitrust and consumer protection areas, but it needs more clarity in certain areas and greater dedication to its mission. In addition, the committee pointed to the continuing resource drain on the FTC, which is being asked to act more and more aggressively with fewer and fewer employees.

The legislation we consider today is similar to bills previously approved by the Senate. Included in the bill are provisions to define the statutory parameters of the FTC act a bit more precisely; to require that the FTC act in rulemaking matters only where actions have been prevalent in an industry—so as to utilize the FTC's resources in those areas that are especially active—and to require the FTC to provide information on its activities regarding certain competitive practices, so that Congress can evaluate the FTC's performance in these areas.

In addition, the bill contains a provision which will help to prevent the FTC from using its limited resources in pursuit of areas that can be effectively dealt with on the State or local level, or are assigned to other departments or agencies at the Federal level.

The FTC is an important agency, with an important mission. Reauthorizing the agency will indicate Congress' concern that the FTC have sufficient resources and direction to accomplish its objectives. I urge my colleagues to support the bill.

Mr. DANFORTH. Mr. President, today the Senate will consider S. 1249, legislation to reauthorize the Federal Trade Commission [FTC]. I congratulate the Consumer Subcommittee Chairman, Senator BRYAN, and Senator GORTON, the ranking Republican member of the subcommittee, for their fine work in crafting this legislation.

Congress has not passed FTC authorizing legislation since 1980. That bill, the FTC Improvements Act of 1980, expired in 1982. Since that time, efforts to resolve the differences between House and Senate FTC bills have failed in conference. As a result, some of the most important issues regarding the FTC's mission have been addressed during the appropriations process.

The principal issue facing the Commission is how best to focus its resources. During the 1970's, the FTC entered new and innovative areas, mainly through the promulgation of trade regulations. This new emphasis was controversial, and the Congress responded by prohibiting rulemakings on advertising and investigations of Agricultural cooperatives and marketing orders. Congress redirected what it considered to be an improperly focused Commission.

In recent years, the FTC has concentrated more of its resources on individual transactions and practices. Much of this effort has been in the form of challenges to mergers and consumer fraud, and the imposition of civil penalties for violations of rules. At the same time, some have criticized the Commission for failing to recognize the appropriate role for State law enforcement officials in the consumer protection area.

These issues require substantive resolution in authorization legislation. By relying solely on the appropriations process for congressional direction, the Commission lacks a clearly defined mission. It is essential that an independent agency reflect the will of the Congress. S. 1249 contains provisions that will enhance enforcement capabilities, allocate resources efficiently, and, most importantly, provide new direction.

The Federal Trade Commission has two new members, including a new chairman. This is the time for the Congress to renew its commitment to guiding the Commission. The FTC must be a law enforcement agency for the marketplace. I am pleased that it will have the resources to carry out its mission with the establishment of a filing fee for firms that seek review of proposed mergers under the Hart-Scott-Rodino Act. With direction from this authorizing legislation, the Commission will fulfill its mandate.

Mr. President, I urge my colleagues to support S. 1249.

Mr. GORTON. Mr. President, I am pleased to support S. 1249, legislation to reauthorize the Federal Trade Commission [FTC]. I wish to commend the distinguished chairman of the Consumer Subcommittee, Senator BRYAN, for his fine work in drafting this important legislation.

The FTC has a wide array of responsibilities ranging from antitrust to consumer protection. In the 1970's, the FTC devoted a great deal of its resources to the promulgation or rules on trade regulation. More recently, the Commission has focused its attention on challenging mergers and consumer fraud and seeking civil penalties for violations of rules and statutes.

I am particularly interested in the forcus and scope of the Commission's activities. The Consumer Subcommittee received testimony from the American Bar Association and others indicating that the FTC has insufficient personnel in investigative line positions. According to this testimony, there are too many people in supervisory positions. This legislation directs the FTC to study how its resources are allocated and report its findings to the Congress. This information will be invaluable in assisting the Congress to make future determinations about the structure of the Commission's mandate.

There has been considerable controversy in recent years over the enforcement of Baby FTC Acts by individual States. Some State attorneys-general have been very active in this area. In testimony to the Consumer subcommittee, the National Association of Attorneys-General stated that the FTC has not enforced its consumer protection laws with sufficient vigor, and that the States are merely filling the void. The FTC maintains that interstate commerce should be regulated by the Federal Government. They argue that fragmented regulation will result in uneven applications of the consumer protection laws, and this situation may pose problems to those whose businesses are operating nationwide. This legislation requires the FTC to identify those areas within its jurisdiction that are most appropriately enforced by States and localities, rather than the FTC. This recognizes that the State attorneys-general have a very important role to play in the national effort to protect consumers. This study will encourage a healthy working relationship between State and Federal officials. The findings in this study will assist the Congress in future decisions regarding possible changes to the FTC's statutory mandate.

The bill also contains two important provisions that will assist the Commission in combating consumer fraud. Perpetrators victimize innocent consumers for billions of dollars each year. S. 1249 establishes a new venue provision which would permit the FTC to bring defendants from different districts into a single Federal district

court. Another provision will allow the FTC to issue civil investigative demands for physical evidence. The Commission is limited now to securing documents as evidence in enforcement efforts. The FTC has requested these enhanced enforcement tools. I wish to point out also that our colleague from Arizona [Mr. MCCAIN] my predecessor as ranking member of the Consumer Subcommittee, has supported these provisions in the past, and he has been a forceful advocate for legislation to combat consumer fraud.

Mr. President, this legislation is important to re-establishing the direction of the FTC. I urge my colleagues to support S. 1249.

The bill was ordered to be engrossed for a third reading, read the third time, and passed; as follows:

S. 1249

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal Trade Commission Act Amendments of 1989".

UNFAIR METHODS OF COMPETITION

SEC. 2. Section 5 of the Federal Trade Commission Act (15 U.S.C. 45) is amended by adding at the end the following:

"(n) The Commission shall not have any authority to find a method of competition to be an unfair method of competition under subsection (a)(1) if, in any action under the Sherman Act, such method of competition would be held to constitute State action.".

AGRICULTURAL COOPERATIVES

SEC. 3. The Federal Trade Commission Act (15 U.S.C. 41 et seq.) is amended by redesignating section 24 and section 25 as sections 25 and 26, respectively, and by inserting immediately after section 23 the following new section:

"SEC. 24. (a) The Commission shall not have any authority to conduct any study, investigation, or prosecution of any agricultural cooperative for any conduct which, because of the provisions of the Act entitled 'An Act to authorize association of producers of agricultural products', approved February 18, 1922 (7 U.S.C. 291 et seq., commonly known as the Capper-Volstead Act), is not a violation of any of the antitrust Acts or this Act.

"(b) The Commission shall not have any authority to conduct any study or investigation of any agricultural marketing orders.".

COMPENSATION IN PROCEEDINGS

SEC. 4. (a) Section 18(h) of the Federal Trade Commission Act (15 U.S.C. 57a(h)) is repealed, and subsections (i), (j), and (k) of section 18 are redesignated as subsections (h), (i), and (j), respectively.

(b) Section 18(a)(1) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)) is amended by striking "subsection (i)" and inserting in lieu thereof "subsection (h)".

KNOWING VIOLATIONS OF ORDERS

SEC. 5. (a) Section 5(m)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 45(m)(1)(B)) is amended by inserting ", other than a consent order," immediately after "order" the first time it appears.

(b) Section 5(m)(2) of the Federal Trade Commission Act (15 U.S.C. 45(m)(2)) is amended by adding at the end the following: "Upon request of any party to such an action against such defendant, the court shall also review the determination of law made by the Commission in the proceeding under subsection (b) that the act or practice which was the subject of such proceeding constituted an unfair or deceptive act or practice in violation of subsection (a).".

PREVALENCE OF UNLAWFUL ACTS OR PRACTICES

SEC. 6. Section 18(b) of the Federal Trade Commission Act (15 U.S.C. 57a(b)) is amended by adding at the end the following new paragraph:

"(3) The Commission shall issue a notice of proposed rulemaking pursuant to paragraph (1)(A) only where it has reason to believe that the unfair or deceptive acts or practices which are the subject of the proposed rulemaking are prevalent. The Commission shall make a determination that unfair or deceptive acts or practices are prevalent under this paragraph only if it has issued cease and desist orders regarding such acts or practices, or any other information available to the Commission indicates a pattern of unfair or deceptive acts or practices.".

EFFECTIVE DATE OF ORDERS

SEC. 7. (a) Paragraph (2) of section 5(g) of the Federal Trade Commission Act (15 U.S.C. 45(g)) is amended to read as follows:

"(2) Upon the sixtieth day after such order is served, if a petition for review has been duly filed, except that any such order may be stayed, in whole or in part and subject to such conditions as may be appropriate, by—

"(A) the Commission;

"(B) an appropriate court of appeals of the United States, if (i) a petition for review of such order is pending in such court, and (ii) an application for such a stay was previously submitted to the Commission and the Commission, within the thirty-day period beginning on the date the application was received by the Commission, either denied the application or did not grant or deny the application; or

"(C) the Supreme Court, if an applicable petition for certiorari is pending; or".

(b) Section 5(g)(3) of the Federal Trade Commission Act (15 U.S.C. 45(g)(3)) is amended to read as follows:

"(3) For purposes of section 19(a)(2) and section 5(m)(1)(B), if a petition for review of the order of the Commission has been filed—

"(A) upon the expiration of the time allowed for filing a petition for certiorari, if the order of the Commission has been affirmed or the petition for review has been dismissed by the court of appeals and no petition for certiorari has been duly filed;

"(B) upon the denial of a petition for certiorari, if the order of the Commission has been affirmed or the petition for review has been dismissed by the court of appeals; or

"(C) upon the expiration of thirty days from the date of issuance of a mandate of the Supreme Court directing that the order of the Commission be affirmed or the petition for review be dismissed; or".

(c) Section 5(g)(4) of the Federal Trade Commission Act (15 U.S.C. 45(g)(4)) is amended to read as follows:

"(4) In the case of an order requiring a person, partnership, or corporation to divest itself of stock, other share capital, or assets, if a petition for review of such order of the Commission has been filed—

"(A) upon the expiration of the time allowed for filing a petition for certiorari, if the order of the Commission has been affirmed or the petition for review has been dismissed by the court of appeals and no petition for certiorari has been duly filed;

"(B) upon the denial of a petition for certiorari, if the order of the Commission has been affirmed or the petition for review has been dismissed by the court of appeals; or

"(C) upon the expiration of thirty days from the date of issuance of a mandate of the Supreme Court directing that the order of the Commission be affirmed or the petition for review be dismissed.".

CIVIL INVESTIGATIVE DEMANDS

SEC. 8. (a) Section 20(a) of the Federal Trade Commission Act (15 U.S.C. 57b-1(a)) is amended—

(1) in paragraph (2), by striking "unfair or deceptive acts or practices in or affecting commerce (within the meaning of section 5(a)(1))" and inserting in lieu thereof "act or practice or method of competition declared unlawful by a law administered by the Commission";

(2) in paragraph (3), by striking "unfair or deceptive acts or practices in or affecting commerce (within the meaning of section 5(a)(1))" and inserting in lieu thereof "acts or practices or methods of competition declared unlawful by a law administered by the Commission"; and

(3) in paragraph (7), by striking "unfair or deceptive act or practice in or affecting commerce (within the meaning of section 5(a)(1))" and inserting in lieu thereof "act or practice or method of competition declared unlawful by a law administered by the Commission".

(b) Section 20(b) of the Federal Trade Commission Act (15 U.S.C. 57b-1(b)) is amended by striking "unfair or deceptive acts or practices in or affecting commerce (within the meaning of section 5(a)(1))" and inserting in lieu thereof "any act or practice or method of competition declared unlawful by a law administered by the Commission".

(c) Section 20(c)(1) of the Federal Trade Commission Act (15 U.S.C. 57b-1(c)(1)) is amended by striking "unfair or deceptive acts or practices in or affecting commerce (within the meaning of section 5(a)(1))" and inserting in lieu thereof "any act or practice or method of competition declared unlawful by a law administered by the Commission".

(d) Section 20(j) of the Federal Trade Commission Act (15 U.S.C. 57b-1(j)) is amended by inserting immediately before the semicolon the following: ", any proceeding under section 11(b) of the Clayton Act, or any adjudicative proceeding under any other provision of law".

DEFINITION OF UNFAIR ACTS OR PRACTICES

SEC. 9. Section 5 of the Federal Trade Commission Act (15 U.S.C. 45), as amended by section 2 of this Act, is further amended by adding at the end the following:

"(o) The Commission shall have no authority under this section or section 18 to declare unlawful an act or practice on the grounds that such act or practice is unfair unless the act or practice causes or is likely to cause substantial injury to consumers which is not reasonably avoidable by consumers themselves and not outweighed by countervailing benefits to consumers or to competition.".

COMMERCIAL ADVERTISING

SEC. 10. Section 18(h) of the Federal Trade Commission Act (15 U.S.C. 57a(h)), as so redesignated in section 4(a) of this Act, is amended by adding at the end the following: "The Commission shall have no authority under this section to initiate any new rulemaking proceeding which is intended to

or may result in the promulgation of any rule by the Commission which prohibits or otherwise regulates any commercial advertising on the basis of a determination by the Commission that such commercial advertising constitutes an unfair act or practice in or affecting commerce.".

VENUE; SERVICE OF PROCESS

SEC. 11. (a) Subsections (a) and (b) of section 13 of the Federal Trade Commission Act (15 U.S.C. 53) are each amended by adding at the end thereof the following: "Whenever it appears to the court that the interests of justice require that any other person, partnership, or corporation should be a party in such suit, the court may cause such person, partnership, or corporation to be summoned without regard to whether they reside or transact business in the district in which the suit is brought, and to that end process may be served in any district.".

(b) Section 13 of the Federal Trade Commission Act (15 U.S.C. 53) is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting immediately after subsection (b) the following:

"(c) Any process of the Commission under this section may be served by any person duly authorized by the Commission—

"(1) by delivering a copy of such process to the person to be served, to a member of the partnership to be served, or to the president, secretary, or other executive officer or a director of the corporation to be served;

"(2) by leaving a copy of such process at the residence or the principal office or place of business of such person, partnership, or corporation; or

"(3) by mailing a copy of such process by registered mail or certified mail addressed to such person, partnership, or corporation at his, her, or its residence, principal office, or principal place of business.

The verified return by the person serving such process setting forth the manner of such service shall be proof of the same, and the return post office receipt for such process mailed by registered mail or certified mail as provided in this subsection shall be proof of the service of such process.".

PHYSICAL EVIDENCE AND CIVIL INVESTIGATIVE DEMANDS

SEC. 12. (a) Section 20(a) of the Federal Trade Commission Act (15 U.S.C. 57b-1(a)) is amended—

(1) by redesignating paragraph (7) as paragraph (8); and

(2) by inserting immediately after paragraph (6) the following:

"(7) The term 'physical evidence' means any object or device, including any medical device, food product, drug, nutritional product, cosmetic product, or audio or video recording.".

(b) Section 20(c)(1) of the Federal Trade Commission Act (15 U.S.C. 57b-1(c)(1)) is amended—

(1) by inserting "physical evidence or" immediately after "any" the second time it appears;

(2) by inserting "to produce such physical evidence for inspection," immediately before "to produce";

(3) by inserting "physical evidence," immediately after "concerning"; and

(4) by inserting "evidence," immediately before "material, answers,".

(c) Section 20(c)(3) of the Federal Trade Commission Act (15 U.S.C. 57b-1(c)(3)) is amended—

(1) by inserting "physical evidence or" immediately before "documentary material";

(2) in subparagraph (A)—

(A) by inserting "physical evidence or" immediately before "documentary"; and

(B) by inserting "evidence or" immediately after "permit such";

(3) in subparagraph (B), by inserting "evidence or" immediately before "material"; and

(4) in subparagraph (C), by inserting "evidence or" immediately before "material".

(d) Section 20(c)(10) of the Federal Trade Commission Act (15 U.S.C. 57b-1(c)(10)) is amended by inserting "physical evidence or" immediately before "documentary material" each place it appears.

REPORT ON RESALE PRICE MAINTENANCE

SEC. 13. (a) The Federal Trade Commission shall submit to the Committee on Commerce, Science, and Transportation of the Senate and to the Committee on Energy and Commerce of the House of Representatives the information specified in subsection (b) of this section every six months during each of the fiscal years 1990, 1991, and 1992. Each such report shall contain such information for the period since the last submission under this section.

(b) Each such report shall list and describe, with respect to instances in which resale price maintenance has been suspected or alleged—

(1) each complaint made, orally or in writing, to the offices of the Commission;

(2) each preliminary investigation opened or closed at the Commission;

(3) each formal investigation opened or closed at the Commission;

(4) each recommendation for the issuance of a complaint forwarded by the staff to the Commission;

(5) each complaint issued by the Commission pursuant to section 5 of the Federal Trade Commission Act (15 U.S.C. 45);

(6) each opinion and order entered by the Commission;

(7) each consent agreement accepted provisionally or finally by the Commission;

(8) each request for modification of an outstanding Commission order filed with the Commission;

(9) each recommendation by staff pertaining to a request for modification of an outstanding Commission order; and

(10) each disposition by the Commission of a request for modification of an outstanding Commission order.

Such report shall include the sum total of matters in each category specified in paragraphs (1) through (10) of this subsection, and copies of all such consent agreements and complaints executed by the Commission. Where a matter has been closed or terminated, the report shall include a statement of the reasons for that disposition. The description required under this subsection shall be as complete as possible but shall not reveal the identity of persons or companies making the complaint or those complained about or those subject to investigation that have not otherwise been made public.

REPORT ON PREDATORY PRICING PRACTICES

SEC. 14. (a) The Federal Trade Commission shall submit to the Committee on Commerce, Science, and Transportation of the Senate and to the Committee on Energy and Commerce of the House of Representatives the information specified in subsection (b) of this section every six months during each of the fiscal years 1990, 1991, and 1992. Each such report shall contain such information for the period since the last submission under this section.

(b) Each such report shall list and describe, with respect to instances in which predatory pricing practices have been suspected or alleged—

(1) each complaint made, orally or in writing, to the offices of the Commission;

(2) each preliminary investigation opened or closed at the Commission;

(3) each formal investigation opened or closed at the Commission;

(4) each recommendation for the issuance of a complaint forwarded by the staff to the Commission;

(5) each complaint issued by the Commission;

(6) each opinion and order entered by the Commission;

(7) each consent agreement accepted provisionally or finally by the Commission;

(8) each request for modification of an outstanding Commission order filed with the Commission;

(9) each recommendation by staff pertaining to a request for modification of an outstanding Commission order; and

(10) each disposition by the Commission of a request for modification of an outstanding Commission order.

Such report shall include copies of all such consent agreements and complaints executed by the Commission referred to in such report. Where a matter has been closed or terminated, the report shall include a statement of the reasons for that disposition. The descriptions required under this subsection shall be as complete as possible but shall not reveal the identity of persons or companies making the complaint or those complained about or those subject to investigation that have not otherwise been made public. The report shall include any evaluation by the Commission of the potential impacts of predatory pricing upon businesses (including small businesses).

INTERVENTION BY COMMISSION IN CERTAIN PROCEEDINGS

SEC. 15. (a) The Federal Trade Commission shall not have any authority to use any funds which are authorized to be appropriated to carry out the Federal Trade Commission Act (15 U.S.C. 41 et seq.) for fiscal years 1990, 1991, and 1992, for the purpose of submitting statements to, appearing before, or intervening in the proceedings of, any Federal or State agency unless the Commission advises the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives, at least sixty days before any such proposed action, or, if such advance notice is not practicable, as far in advance of such proposed action as is practicable.

(b) The notice required in subsection (a) of this section shall include the name of the agency involved, the date upon which the Federal Trade Commission will first appear, intervene, or submit comments, a concise statement regarding the nature and purpose of the proposed action of the Commission, and, in any case in which advance notice of sixty days is not practicable, a concise statement of the reasons such notice is not practicable.

RESOURCE ALLOCATION STUDY

SEC. 16. The Federal Trade Commission shall conduct an evaluation of the level of its personnel resources and the manner in which such resources are allocated. The Commission shall study—

(1) whether overall resources at the Commission are adequate to fulfill the Commission's responsibilities in the areas of competition and consumer protection;

(2) the distribution of personnel to individual offices of commissioners, departments, bureaus, and other units within the Commission, and whether the current allocation of personnel most efficiently enables the Commission to fulfill its statutory mandate;

(3) the number of personnel in supervisory positions, contrasted with those personnel in nonsupervisory positions; and

(4) whether the amount of workyears devoted to research activities should be increased, and what results (if any) such an increase would produce.

The Commission shall transmit the results of such study, together with any recommendations that the Commission determines appropriate, to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives not later than six months after the date of enactment of this Act.

FEDERAL-STATE COOPERATION

SEC. 17. The Federal Trade Commission shall review its statutory responsibilities to identify those matters within its jurisdiction where Federal enforcement is particularly necessary or desirable, and those areas that might more effectively be enforced at the State or local level. In identifying such areas, the Commission shall—

(1) consider the resources available to the Commission and the States, as well as particular rules that have been promulgated by the Commission;

(2) consult with the attorneys general of the States, representatives of consumers and industry, and other interested parties; and

(3) consider such other issues as will result in more efficient implementation of the statutory responsibilities of the Commission.

Not later than six months after the date of enactment of this Act, the Federal Trade Commission shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives the information identified in paragraphs (1) through (3) of this section, together with specific recommendations for methods of achieving greater cooperation between the Commission and the States.

AUTHORIZATION OF APPROPRIATIONS

SEC. 18. Section 25 of the Federal Trade Commission Act, as so redesignated by section 3 of this Act, is amended—

(1) by striking "and" after "1981;"; and

(2) by inserting immediately before the period at the end the following: "; not to exceed $69,580,000 for the fiscal year ending September 30, 1990; not to exceed $72,780,000 for the fiscal year ending September 30, 1991; and not to exceed $76,128,000 for the fiscal year ending September 30, 1992, and such additional sums for the fiscal years ending September 30, 1990, and September 30, 1991, as may be necessary for increases in salary, pay, and other employee benefits as authorized by law".

EFFECTIVE DATE

SEC. 19. (a) Except as provided in subsections (b), (c), (d), and (e) of this section, the provisions of this Act shall take effect on the date of enactment of this Act.

(b) The amendment made by section 2 of this Act shall apply only with respect to proceedings under section 5 of the Federal Trade Commission Act after the date of enactment of this Act. This amendment shall not be construed to affect in any manner a cease and desist order which was issued, or a rule which was promulgated, before the date of enactment of this Act. This amendment shall not be construed to affect in any manner a cease and desist order issued after the date of enactment of this Act, if such order was issued pursuant to remand from a court of appeals or the Supreme Court of an order issued by the Federal Trade Commission before the date of enactment of this Act.

(c) The amendments made by section 7 and 9 of this Act shall apply only with respect to cease and desist orders issued under section 5 of the Federal Trade Commission Act (15 U.S.C. 45), or to rules promulgated under section 18 of the Federal Trade Commission Act (15 U.S.C. 57a), after the date of enactment of this Act. These amendments shall not be construed to affect in any manner a cease and desist order which was issued, or a rule which was promulgated, before the date of enactment of this Act. These amendments shall not be construed to affect in any manner a cease and desist order issued after the date of enactment of this Act, if such order was issued pursuant to remand from a court of appeals or the Supreme Court of an order issued by the Federal Trade Commission before the date of enactment of this Act.

(d) The amendments made by sections 6 and 10 of this Act shall apply only to rulemaking proceedings initiated after the date of enactment of this Act. These amendments shall not be construed to affect in any manner a rulemaking proceeding which was initiated before the date of enactment of this Act.

(e) The amendments made by section 8 of this Act shall apply only with respect to compulsory process issued after the date of enactment of this Act.

TRANSPORTATION EMPLOYEE TESTING ACT

The Senate proceeded to consider the bill (S. 561) to provide for testing for the use, without lawful authorization, of alcohol or controlled substances by the operators of aircraft, railroads, and commercial motor vehicles, and for other purposes, which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

That this Act may be cited as the "Transportation Employee Testing Act of 1989".

FINDINGS

SEC. 2. The Congress finds that—

(1) alcohol abuse and illegal drug use pose significant dangers to the safety and welfare of the Nation;

(2) millions of the Nation's citizens utilize transportation by aircraft, railroads, trucks, and buses, and depend on the operators of aircraft, railroads, trucks, and buses to perform in a safe and responsible manner;

(3) the greatest efforts must be expended to eliminate the abuse of alcohol and use of illegal drugs, whether on duty or off duty, by those individuals who are involved in the operation of aircraft, railroads, trucks, and buses;

(4) the use of alcohol and illegal drugs has been demonstrated to affect significantly the performance of individuals, and has been proven to have been a critical factor in transportation accidents;

(5) the testing of uniformed personnel of the Armed Forces has shown that the most effective deterrent to abuse of alcohol and use of illegal drugs is increased testing, including random testing;

(6) adequate safeguards can be implemented to ensure that testing for abuse of alcohol or use of illegal drugs is performed in a manner which protects an individual's right of privacy, ensures that no individual is harassed by being treated differently from other individuals, and ensures that no individual's reputation or career development is unduly threatened or harmed; and

(7) rehabilitation is a critical component of any testing program for abuse of alcohol or use of illegal drugs, and should be made available to individuals, as appropriate.

TESTING TO ENHANCE AVIATION SAFETY

SEC. 3. (a) Title VI of the Federal Aviation Act of 1958 (49 App. U.S.C. 1421 et seq.) is amended by adding at the end thereof the following:

"ALCOHOL AND CONTROLLED SUBSTANCES TESTING

"TESTING PROGRAM

"SEC. 613. (a)(1) The Administrator shall, in the interest of aviation safety, prescribe regulations within twelve months after the date of enactment of this section. Such regulations shall establish a program which requires air carriers and foreign air carriers to conduct preemployment, reasonable suspicion, random, and postaccident testing of airmen, crewmembers, airport security screening contract personnel, and other air carrier employees responsible for safety-sensitive functions (as determined by the Administrator) for use, in violation of law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, for the conduct of periodic recurring testing of such employees for such use in violation of law or Federal regulation.

"(2) The Administrator shall establish a program applicable to employees of the Federal Aviation Administration whose duties include responsibility for safety-sensitive functions. Such program shall provide for preemployment, reasonable suspicion, random, and postaccident testing for use, in violation of law or Federal regulation, of alcohol or a controlled substance. The Administrator may also prescribe regulations, as the Administrator considers appropriate in the interest of safety, for the conduct of periodic recurring testing of such employees for such use in violation of law or Federal regulation.

"(3) In prescribing regulations under the programs required by this subsection, the Administrator shall require, as the Administrator considers appropriate, the suspension or revocation of any certificate issued to such an individual, or the disqualification or dismissal of any such individual, in accordance with the provisions of this section, in any instance where a test conducted and confirmed under this section indicates that such individual has used, in violation of law or Federal regulation, alcohol or a controlled substance.

"PROHIBITION ON SERVICE

"(b)(1) No person may use, in violation of law or Federal regulation, alcohol or a controlled substance after the date of enactment of this section and serve as an airman, crewmember, airport security screening contract personnel, air carrier employee responsible for safety-sensitive functions (as determined by the Administrator), or employee of the Federal Aviation Administration with responsibility for safety-sensitive functions.

"(2) No individual who is determined to have used, in violation of law or Federal regulation, alcohol or a controlled substance after the date of enactment of this section shall serve as an airman, crewmember, airport security screening contract personnel, air carrier employee responsible for safety-sensitive functions (as determined by the Administrator), or employee of the Federal Aviation Administration with responsibility for safety-sensitive functions unless such individual has completed a program of rehabilitation described in subsection (c) of this section.

"(3) Any such individual determined by the Administrator to have used, in violation of law or Federal regulation, alcohol or a controlled substance after the date of enactment of this section who—

"(A) engaged in such use while on duty;

"(B) prior to such use had undertaken or completed a rehabilitation program described in subsection (c) of this section;

"(C) following such determination refuses to undertake such a rehabilitation program; or

"(D) following such determination fails to complete such a rehabilitation program,

shall not be permitted to perform the duties relating to air transportation which such individual performed prior to the date of such determination.

"PROGRAM FOR REHABILITATION

"(c)(1) The Administrator shall prescribe regulations setting forth requirements for rehabilitation programs which at a minimum provide for the identification and opportunity for treatment of employees referred to in subsection (a)(1) of this section in need of assistance in resolving problems with the use, in violation of law or Federal regulation, of alcohol or controlled substances. Each air carrier and foreign air carrier is encouraged to make such a program available to all of its employees in addition to those employees referred to in subsection (a)(1) of this section. The Administrator shall determine the circumstances under which such employees shall be required to participate in such a program. Nothing in this subsection shall preclude any air carrier or foreign air carrier from establishing a program under this subsection in cooperation with any other air carrier or foreign air carrier.

"(2) The Administrator shall establish and maintain a rehabilitation program which at a minimum provides for the identification and opportunity for treatment of those employees of the Federal Aviation Administration whose duties include responsibility for safety-sensitive functions who are in need of assistance in resolving problems with the use of alcohol or controlled substances.

"PROCEDURES

"(d) In establishing the program required under subsection (a) of this section, the Administrator shall develop requirements which shall—

"(1) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

"(2) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—

"(A) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards which require the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

"(B) establish the minimum list of controlled substances for which individuals may be tested; and

"(C) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

"(3) require that all laboratories involved in the controlled substances testing of any individual under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

"(4) provide that all tests which indicate the use, in violation of law or Federal regulation, of alcohol or a controlled substance by any individual shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

"(5) provide that each specimen sample be subdivided, secured, and labeled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent test within three days after being advised of the results of the confirmation test;

"(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in consultation with the Department of Health and Human Services;

"(7) provide for the confidentiality of test results and medical information (other than information relating to alcohol or a controlled substance) of employees, except that the provisions of this paragraph shall not preclude the use of test results for the orderly imposition of appropriate sanctions under this section; and

"(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

"EFFECT ON OTHER LAWS AND REGULATIONS

"(e)(1) No State or local government shall adopt or have in effect any law, rule, regulation, ordinance, standard, or order that is inconsistent with the regulations promulgated under this section, except that the regulations promulgated under this section shall not be construed to preempt provisions of State criminal law which impose sanctions for reckless conduct leading to actual loss of life, injury or damage to property, whether the provisions apply specifically to employees of an air carrier or foreign air carrier, or to the general public.

"(2) Nothing in this section shall be construed to restrict the discretion of the Administrator to continue in force, amend, or further supplement any regulations issued before the date of enactment of this section that govern the use of alcohol and controlled substances by airmen, crewmembers, airport security screening contract personnel, air carrier employees responsible for safety-sensitive functions (as determined by the Administrator), or employees, of the Federal Aviation Administration with responsibility for safety-sensitive functions.

"(3) In prescribing regulations under this section, the Administrator shall only establish requirements applicable to foreign air carriers that are consistent with the international obligations of the United States, and the Administrator shall take into consideration any applicable laws and regulations of foreign countries. The Secretary of State and the Secretary of Transportation, jointly, shall call on the member countries of the International Civil Aviation Organization to strengthen and enforce existing standards to prohibit the use, in violation of law or Federal regulation, of alcohol or a controlled substance by crew members in international civil aviation.

"DEFINITION

"(f) For the purposes of this section, the term 'controlled substance' means any substance under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)) specified by the Administrator.".

(b) That portion of the table of contents of the Federal Aviation Act of 1958 relating to title VI is amended by adding at the end thereof the following:

"Sec. 613. Alcohol and controlled substances testing.
"(a) Testing program.
"(b) Prohibition on service.
"(c) Program for rehabilitation.
"(d) Procedures.
"(e) Effect on other laws and regulations.
"(f) Definition.".

TESTING TO ENHANCE RAILROAD SAFETY

SEC. 4. Section 202 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431) is amended by adding at the end thereof the following:

"(r)(1) In the interest of safety, the Secretary shall, within twelve months after the date of enactment of this subsection, issue rules, regulations, standards, and orders relating to alcohol and drug use in railroad operations. Such regulations shall establish a program which—

"(A) requires railroads to conduct preemployment, reasonable suspicion, random, and postaccident testing of all railroad employees responsible for safety-sensitive functions (as determined by the Secretary) for use, in violation of law or Federal regulation, of alcohol or a controlled substance;

"(B) requires, as the Secretary considers appropriate, disqualification for an established period of time or dismissal of any employee determined to have used or to have been impaired by alcohol while on duty; and

"(C) requires, as the Secretary considers appropriate, disqualification for an established period of time or dismissal of any employee determined to have used a controlled substance, whether on duty or not on duty, except as permitted for medical purposes by law and any rules, regulations, standards, or orders issued under this Act.

The Secretary may also issue rules, regulations, standards, and orders, as the Secretary considers appropriate in the interest of safety, requiring railroads to conduct periodic recurring testing of railroad employees responsible for such safety sensitive functions, for use of alcohol or a controlled substance in violation of law or Federal regulation. Nothing in this subsection shall be construed to restrict the discretion of the Secretary to continue in force, amend, or further supplement any rules, regulations, standards, and orders governing the use of alcohol and controlled substances in railroad operations issued before the date of enactment of this subsection.

"(2) In carrying out the provisions of this subsection, the Secretary shall develop requirements which shall—

"(A) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

"(B) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—

"(i) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this Act, including standards which required the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

"(ii) establisah the minimum list of controlled substances for which individuals may be tested; and

"(iii) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this subsection;

"(C) require that all laboratories involved in the controlled substances testing of any employee under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

"(D) provide that all tests which indicate the use, in violation of law or federal regulation, of alcohol or a controlled substance by any employee shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

"(E) provide that each specimen sample be subdivided, secured, and labeled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent test within three days after being advised of the results of the confirmation test;

"(F) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in consultation with the Department of Health and Human Services;

"(G) provide for the confidentiality of test results and medical information (other than information relating to alcohol or a controlled substance) of employees, except that the provisions of this subparagraph shall not preclude the use of test results for the orderly imposition of appropriate sanctions under this subsection; and

"(H) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

"(3) The Secretary shall issue rules, regulations, standards, or orders setting forth requirements for rehabilitation programs which at a minimum provide for the identification and opportunity for treatment of railroad employees responsible for safety-sensitive functions (as determined by the Secretary) in need of assistance in resolving problems with the use, in violation of law or Federal regulation, of alcohol or a controlled substance. Each railroad is encouraged to make such a program available to all of its employees in addition to those employees responsible for safety sensitive functions. The Secretary shall determine the circumstances under which such employees shall be required to participate in such program. Nothing in this paragraph shall preclude a railroad from establishing a program under this paragraph in cooperation with any other railroad.

"(4) In carrying out the provisions of this subsection, the Secretary shall only establish requirements that are consistent with the international obligations of the United States, and the Secretary shall take into consideration any applicable laws and regulations of foreign countries.

"(5) For the purposes of this subsection, the term 'controlled substance' means any substance under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)) specified by the Secretary.".

TESTING TO ENHANCE MOTOR CARRIER SAFETY

SEC. 5. (a) The Commercial Motor Vehicle Safety Act of 1986 (App. U.S.C. 2701 et seq.) is amended by adding at the end the following:

"SEC. 12020. ALCOHOL AND CONTROLLED SUBSTANCES TESTING.

"(a) REGULATIONS.—The Secretary shall, in the interest of commercial motor vehicle safety, issue regulations within twelve months after the date of enactment of this section. Such regulations shall establish a program which requires motor carriers to conduct preemployment, reasonable suspicion, random, and postaccident testing of the operators of commercial motor vehicles for use, in violation of law or Federal regulation, of alcohol or a controlled substance. The Secretary may also issue regulations, as the Secretary considers appropriate in the interest of safety, for the conduct of periodic recurring testing of such operators for such use in violation of law or Federal regulation.

"(b) TESTING.—

"(1) POSTACCIDENT TESTING.—In issuing such regulations, the Secretary shall require that postaccident testing of the operator of a commercial motor vehicle be conducted in the case of any accident involving a commercial motor vehicle in which occurs loss of human life, or, as determined by the Secretary, other serious accidents involving bodily injury or significant property damage.

"(2) TESTING AS PART OF MEDICAL EXAMINATION.—Nothing in subsection (a) of this section shall preclude the Secretary from providing in such regulations that such testing be conducted as part of the medical examination required by subpart E of part 391 of title 49, Code of Federal Regulations, with respect to those operators of commercial motor vehicles to whom such part is applicable.

"(c) PROGRAM FOR REHABILITATION.—The Secretary shall issue regulations setting forth requirements for rehabilitation programs which provide for the identification and opportunity for treatment of operators of commercial motor vehicles who are determined to have used, in violation of law or Federal regulation, alcohol or a controlled substance. The Secretary shall determine the circumstances under which such operators shall be required to participate in such program. Nothing in this subsection shall preclude a motor carrier from establishing a program under this subsection in cooperation with any other motor carrier.

"(d) PROCEDURES FOR TESTING.—In establishing the program required under subsection (a) of this section, the Secretary shall develop requirements which shall—

"(1) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

"(2) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—

"(A) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards which require the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

"(B) establish the minimum list of controlled substances for which individuals may be tested; and

"(C) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

"(3) require that all laboratories involved in the testing of any individual under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

"(4) provide that all tests which indicate the use, in violation of law or Federal regulation, of alcohol or a controlled substance by any individual shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

"(5) provide that each specimen sample be subdivided, secured, and labeled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent test within three days after being advised of the results of the confirmation test;

"(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in con-

sultation with the Department of Health and Human Services;

"(7) provide for the confidentiality of test results and medical information (other than information relating to alcohol or a controlled substance) of employees, except that the provisions of this paragraph shall not preclude the use of test results for the orderly imposition of appropriate sanctions under this section; and

"(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

"(e) EFFECT ON OTHER LAWS AND REGULATIONS.—

"(1) STATE AND LOCAL LAW AND REGULATIONS.—No State or local government shall adopt or have in effect any law, rule, regulation, ordinance, standard, or order that is inconsistent with the regulations issued under this section, except that the regulations issued under this section shall not be construed to preempt provisions of State criminal law which impose sanctions for reckless conduct leading to actual loss of life, injury, or damage to property, whether the provisions apply specifically to commercial motor vehicle employees, or to the general public.

"(2) OTHER REGULATIONS ISSUED BY SECRETARY.—Nothing in this section shall be construed to restrict the discretion of the Secretary to continue in force, amend, or further supplement any regulations governing the use of alcohol or controlled substances by commercial motor vehicle employees issued before the date of enactment of this section.

"(3) INTERNATIONAL OBLIGATIONS.—In issuing regulations under this section, the Secretary shall only establish requirements that are consistent with the international obligations of the United States, and the Secretary shall take into consideration any applicable laws and regulations of foreign countries.

"(f) APPLICATION OF PENALTIES.—

"(1) EFFECT ON OTHER PENALTIES.—Nothing in this section shall be construed to supersede any penalty applicable to the operator of a commercial motor vehicle under this title or any other provision of law.

"(2) DETERMINATION OF SANCTIONS.—The Secretary shall determine appropriate sanctions for commercial motor vehicle operators who are determined, as a result of tests conducted and confirmed under this section, to have used, in violation of law or Federal regulation, alcohol or a controlled substance but are not under the influence of alcohol or a controlled substance, as provided in this title.

"(g) DEFINITION.—For the purposes of this section, the term 'controlled substance' means any substance under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)) specified by the Secretary.".

(b) The table of contents of the Commercial Motor Vehicle Safety Act of 1986 (Public Law 99-570; 100 Stat. 5223) is amended by adding at the end thereof the following:

"Sec. 12020. Alcohol and controlled substances testing.".

PILOT PROGRAM FOR TESTING OF COMMERCIAL MOTOR VEHICLE OPERATORS

SEC. 6. (a) The Secretary of Transportation shall design, within nine months after the date of enactment of this section and implement, within fifteen months after the date of enactment of this Act, a pilot test program for the purpose of testing the operators of commercial motor vehicles on a random basis to determine whether an operator has used, in violation of law or Federal regulation, alcohol or a controlled substance. The pilot test program shall be administered as part of the Motor Carrier Safety Assistance Program.

(b) The Secretary shall solicit the participation of States which are interested in participating in such program and shall select four States to participate in the program.

(c) The Secretary shall ensure that the States selected pursuant to this section are representative of varying geographical and population characteristics of the Nation and that the selection takes into consideration the historical geographical incidence of commercial motor vehicle accidents involving loss of human life.

(d) The pilot program authorized by this section shall continue for a period of one year. The Secretary shall consider alternative methodologies for implementing a system of random testing of operators of commercial motor vehicles.

(e) Not later than thirty months after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a comprehensive report setting forth the results of the pilot program conducted under this section. Such report shall include any recommendations of the Secretary concerning the desirability and implementation of a system for the random testing of operators of commercial motor vehicles.

(f) For purposes of carrying out this paragraph, there shall be available to the Secretary $5,000,000 from funds made available to carry out section 404 of the Surface Transportation Assistance Act of 1982 (49 App. U.S.C. 2304) for fiscal year 1990.

(g) For purposes of this paragraph, the term "commercial motor vehicle" shall have the meaning given to such term in section 12019(6) of the Commercial Motor Vehicle Safety Act of 1986 (49 App. U.S.C. 2716(6)).

Mr. HOLLINGS. As I rise yet again in support of a bill that would require drug and alcohol testing in the commercial aviation, railroad, bus and trucking industries, I am reminded of Sisyphus, the character in Greek mythology whose fate it was to push a boulder up a steep mountain in perpetuity.

Mr. President, over 2 years ago Senator DANFORTH and I introduced a virtually identical testing bill. It was debated, reported favorably out of the Commerce Committee and passed on the Senate floor by a vote of 83 to 7. Last year, our bill was included in the Senate omnibus drug bill, at which time it passed without objection. I stayed up to the wee hours of the morning in an attempt to persuade my House colleagues to accept this measure, yet we still failed to gain final approval of this legislation.

Undaunted, Mr. President, Senator DANFORTH and I reintroduced testing legislation, S. 561, in this Congress. The measure was again favorably reported by the Commerce Committee and approved by the Senate by unanimous consent last month as part of the Senate transportation appropriations bill. However, when it was apparent that the House conferees would not support these provisions, the Senate's testing and other drug provisions were stripped out of the transportation appropriations bill and introduced as a separate drug bill, S. 1735, which was then approved without objection by the Senate. However, the House has given no indication of any intent to move on the testing provisions included in S. 1735. These provisions once again sit there languishing in a legislative morass.

While the House fails to act, the carnage continues. Last week, Federal officials announced that traces of cocaine were found in the blood stream of the engineer of a CSX freight train that collided head on with another freight train in Albermarle County, VA. Nine people were injured in that crash.

In September, a USAir jet skidded off the runway at La Guardia Airport. One person died and several others were injured. The pilot and copilot mysteriously disappeared for 42 hours, yet no regulation specifically required that the pilots be subjected to drug and alcohol testing.

Last year, every 12½ days the railroad industry had an accident in which either drugs or alcohol were involved. In the aviation industry, the inspector general of the Depatment of Transportation [DOT] has reported that between 1980 and 1987, 10,300 certified airmen have had their driver's licenses suspended or revoked for driving while intoxicated. In the motor carrier industry, a 1984 test conducted by the Insurance Institute for Highway Safety found that 30 percent of a random sample of truckdrivers tested positive for drugs and alcohol.

And, we cannot forget the tragic Chase, MD, crash in 1987 where an Amtrak train collided with three Conrail locomotives, leaving 16 dead and 174 injured. In this unfortunate situation both the Conrail engineer and brakeman tested positive for marijuana use.

Mr. President, our efforts have borne some fruit, however. Last year DOT issued final rules mandating testing of safety sensitive employees for illegal drug use in the rail, motor carrier, aviation, maritime, pipeline and mass transit industries.

While I welcome these DOT rules, they do not go far enough, however. Right to the point, they totally exclude alcohol in industry testing programs. Accident statistics show that alcohol abuse is a big threat to public safety as illegal drugs, if not a bigger threat. You do not need statistics to prove this point. Just ask the residents of the coastal towns in Alaska, where the shoreline has been soiled by the *Exxon Valdez* oilspill.

Furthermore, Mr. President, we cannot leave the fate of these important regulations to the whim of some DOT official. The only way to ensure the safety of the traveling public is to mandate legislatively the random drug

and alcohol testing of those employees engaged in safety sensitive positions.

Our bill does just that. It mandates four types of drug and alcohol testing, including random, preemployment, post accident, and reasonable suspicion testing of employees such as airline pilots, air traffic controllers, railroad engineers, brakemen, and commercial bus and truckdrivers, as well as others. It also authorizes DOT to require periodic recurring testing, such as in connection with annual physicals.

In order to ensure the protection of individual rights, the bill specifically incorporates the Department of Health and Human Services guidelines that established laboratory accuracy, as well as protections for the individual privacy of innocent employees. Finally, the bill requires carriers to establish rehabilitation programs for employees who voluntarily step forward to seek help.

The key component of our legislation is random testing. Random testing is the only method I know of that will serve as an adequate deterrent to drug and alcohol abuse by those transportation employees who hold in their hands the lives of the traveling public. Experience bears this out—random testing in the military, in the Coast Guard and in the private sector has resulted in a substantial decrease in the use of drugs and alcohol.

Some have questioned the constitutionality of testing. I am heartened by recent Supreme Court decisions which have upheld the constitutionality of postaccident testing without the need for a showing of individualized suspicion. I have long been convinced that given the compelling need to protect public safety, a carefully crafted testing program, including the use of random testing, would be found to be constitutional.

Mr. President, if we are serious about winning the war on drugs and alcohol abuse, then it is time that we bring up the heavy artillery to this battle front. I urge my colleagues to join us in supporting once again this essential safety legislation. I further urge my House counterparts to resolve to act in a comprehensive fashion to approve this multimodel testing program for the rail, aviation, and motor carrier industries.

Mr. DANFORTH. Mr. President, today we are asking the Senate to send the Hollings-Danforth drug and alcohol testing legislation to the House for the fifth time—this time in the form of S. 561.

S. 561 provides for five types of drug and alcohol testing for airline and railroad crews and commercial drivers of trucks and buses; preemployment, periodic, postaccident, reasonable cause and random testing.

The bill also provides that testing follow HHS guidelines to protect employee rights and ensure the accuracy of test procedures and analysis. Initial screening tests must be followed up by highly reliable confirmatory tests by laboratories that meet rigorous certification standards.

Similar testing provisions were approved twice by the Senate during the 100th Congress—once by voice vote, and once by a rollcall vote of 83 to 7. The House refused to accept them.

Identical legislation has been approved by the Senate twice during this Congress. First, our drug and alcohol testing provisions were included as an amendment to H.R. 3015, the Department of Transportation appropriations bill. Later they were approved as part of S. 1735, which was introduced and passed by the Senate after the House refused to conference on H.R. 3015 unless the Senate agreed to consider such provisions in a separate bill.

While action has been delayed, evidence of the deadly consequences of substance abuse in transportation continues to mount.

TRUCKDRIVERS

Last October, near Fort Hancock, TX, a truckdriver forced several motorists off the road, killing a woman. After shooting a police officer, the driver tried to run him over with his truck. Police said the driver was on drugs.

Last December, a tractor-trailer driver went on an 80-mile rampage down Interstate 10 in San Antonio. He crashed into more than 20 vehicles and seriously injured two people. The driver was disoriented and the police filed drug charges after finding cocaine in his cab.

RAILROAD WORKERS

The Federal Railroad Administration reports that one or more railroad employees have tested positive for alcohol or drug use after 13 accidents so far this year.

AVIATION PERSONNEL

On February 1, 1989, the National Transportation Safety Board ruled that one cause of the January 1988 crash of a commuter plane near Durango, CO, was the pilot's cocaine use. Nine people died in that crash.

Since the Department of Transportation [DOT] started its own employee testing program in September 1987, 114 air traffic controllers have been removed from their safety sensitive positions after testing positive for drug use.

Last month, USAir flight 5050 flew into the East River. The pilot and copilot avoided any effective drug or alcohol testing by disappearing for 36 hours.

DRUG AND ALCOHOL TESTING OF TRANSPORTATION WORKERS NEEDS TO BE THE LAW

Last year, DOT published rules to require testing for drugs, but not alcohol, starting in December. This week DOT is publishing an Advance Notice of Proposed Rulemaking to determine whether alcohol testing is necessary.

DOT should not need a 6-month prerule process to answer that question. Alcohol is the drug of choice for many transportation professionals. During Commerce Committee hearings last year, the engineer and brakeman of the Conrail train that caused the Chase, MD, tragedy testified that railroad workers often drink beer on the locomotive, as much as a case per person per day.

The Airline Pilots Association has admitted that 800 of its pilots have entered alcohol rehabilitation. DOT's inspector general found that 10,300 airmen, including 500 commercial pilots, had their drivers' licenses suspended for drunk driving convictions.

This week, DOT also will publish a Federal Register notice deferring indefinitely the implementation of its rule requiring random and postaccident drug testing in the motor carrier industry. This action arises from the extension in October of a temporary stay against such testing issued by the Ninth Circuit Court in San Francisco.

Enactment of S. 561 will put the court on notice that we will not tolerate further delays in the implementation of drug and alcohol testing in the transportation industry. We need postaccident testing to ensure that drugged or drunk transportation workers are removed from safety sensitive positions before they cause further destruction or death.

We need random testing because it works. Since the Coast Guard started random testing in 1983, it has seen a drop in the numbers of individuals testing positive from 10.3 to 2.8 percent in 1988. After the Department of Defense instituted testing, positive test results for military personnel dropped from 27 percent in 1980 to 4.8 percent in 1988.

What we do not need is more evidence, more tragedies. Drug and alcohol testing for transportation workers needs to become law. American lives depend on it. I urge my colleagues to support S. 561.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment.

The committee amendment was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

BILL PLACED ON CALENDAR—H.R. 2144

Mr. MITCHELL. Mr. President, I ask unanimous consent that H.R. 2144, the Urban and Community Forestry

Act of 1989, just received from the House, be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

NIOBRARA RIVER SCENIC RIVER DESIGNATION ACT

Mr. MITCHELL. Mr. President, I ask unanimous consent the Senate proceed to the immediate consideration of Calendar Item No. 332, S. 280, a bill to amend the Wild and Scenic Rivers Act by designating a segment of the Niobrara River in Nebraska as a component of the National Wild and Scenic Rivers System.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 280) to amend the Wild and Scenic Rivers Act by designating a segment of the Niobrara River in Nebraska as a component of the National Wild and Scenic Rivers System.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources with an amendment to strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Niobrara River Scenic River Designation Act of 1989".

SEC. 2. DESIGNATION OF RIVER.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)), as amended, is further amended by adding at the end thereof the following:

"(111) NIOBRARA, NEBRASKA.—(A) The 40-mile segment from Borman Bridge southeast of Valentine to its confluence with Chimney Creek and the 30-mile segment from the river's confluence with Rock Creek to the bridge crossing the Niobrara on State Highway 137; both segments to be administered by the Secretary of the Interior, in consultation with the Niobrara Scenic River Advisory Council established pursuant to subparagraph (F), as scenic rivers.

"(B) After consultation with the Niobrara Scenic River Advisory Council, State and local governments, and with the interested public, and within two years after the date of enactment of this Act, the Secretary shall prepare a comprehenisive management plan for the designated river segments pursuant to subsection (d) of this Act. In addition to those values specified in subsection (d), the plan shall provide for the protection of the pastoral landscape, and the established farming and ranching lifestyles.

"(C)(i) The authority of the Secretary to acquire lands in fee for purposes of this paragraph shall be limited to acquisition by donation or purchase with the consent of the owner. The Secretary may acquire easements for purposes of this paragraph in accordance with section 6 of this Act except that easements acquired by condemnation shall not affect more than 5 percent of the privately owned land within the designated river corridors and easements may be acquired by condemnation only if—

"(1) activities are occurring or threatening to occur which pose a significant threat to the values for which the river was protected, or

"(2) the easements to be acquired are reasonably necessary to give the public access to the river and to permit its members to traverse the length of the area or selected segments thereof.

"(ii) Notwithstanding any provision of this paragraph, easements acquired for providing river access to the public may only be acquired with the consent of the owner when the interest in land to be acquired is—

"(1) within one-quarter mile of a residence and adjacent to the Berry Bridge, Allen Bridge, Brewer Bridge, Rockford Bridge, Norden Bridge, Highway 183 Bridge, Riverview Bridge, Carns Bridge, or Highway 137 Bridge; or

"(2) located between the Borman Bridge and the Cornell Dam.

Any such easement shall provide for day use only.

"(iii) With the river corridors designated by this paragraph, the Secretary shall not acquire subsurface rights, including but not limited to oil and gas rights, without the consent of the owner. Exploration for the development of oil and gas shall be permitted pursuant to section 9 of this Act and applicable law.

"(D) The Secretary is authorized to enter into cooperative agreements with local units of government for maintenance of existing access and other roads within the designated river corridors.

"(E) The Secretary is further authorized to contribute to the costs of instituting conservation and streambank erosion control practices on private land within the river corridors which will enhance the scenic or natural values of the river segments or contribute to the protection of established bridges, and resources which are of historical or archaeological significance within the river corridors.

"(F)(i) In order to carry out the provisions of this paragraph, the Secretary shall establish the Niobrara Scenic River Advisory Council (Advisory Council) to consist of eleven members appointed by the Secretary—

"(1) three of whom shall be owners of farm or ranch property within the upper portion of the designated river corridor between the Borman Bridge and the Meadville Bridge;

"(2) three of whom shall be owners of farm or ranch property within the lower portion of the designated river corridor between the Meadville Bridge and the bridge on Highway 137;

"(3) one of whom shall be a canoe outfitter who operates within the river corridors;

"(4) one of whom shall be chosen from a list submitted by the Governor of Nebraska;

"(5) two of whom shall be representatives of the affected county governments or natural resources districts; and

"(6) one of whom shall be a representative of a conservation organization who shall have knowledge and experience in river conservation.

At least five of the six landowners appointed to the Advisory Council pursuant to phrases (1) and (2) shall be residents of Brown, Cherry, Keya Paha, or Rock Counties.

"(ii) The term of appointment to the Advisory Council shall be five years and no individual shall serve more than two terms.

"(iii) The Secretary shall consult with the Advisory Council in the development and review of the management plan prepared pursuant to subparagraph (B) and in the formulation and review of subsequent plans including annual operation and maintenance plans.

"(iv) The Secretary shall designate one of the members of the Advisory Council, who is a permanent resident of Brown, Cherry, Keya Paha, or Rock Counties, to serve as Chairperson. Vacancies on the Advisory Council shall be filled in the same manner in which the original appointment was made. Members of the Advisory Council shall serve without compensation, but the Secretary is authorized to pay expenses reasonably incurred by the Advisory Council in carrying out its responsibilities under this Act on vouchers signed by the Chairperson.

"(G)(i) Except as provided by subparagraph (C), nothing in this Act shall prohibit current or future uses of privately owned land within the river corridors, including agricultural and livestock operations, timber management practices, operation of private campgrounds, hunting, fishing, camping, accessing private property, construction of facilities or structures, and repair or replacement of residences, farmsteads, agricultural or recreational facilities, bridges, or fish hatcheries.

"(ii) Nothing in this Act shall prohibit the continued operation and maintenance of the Cornell Dam.

"(H) There are hereby authorized to be appropriated $3,500,000 for acquisition of lands and interests therein, and $1,000,000 for purposes authorized by subparagraphs (D), (E), and (F). Funds authorized pursuant to this paragraph shall be available only to the extent and in such amounts as are provided in advance in Appropriation Acts.".

SEC. 3. STUDY OF RIVER SEGMENT.

Section 5(a) of the Wild and Scenic Rivers Act, as amended (16 U.S.C. 1276(a)), as amended, is further amended by adding the following new paragraph:

"(106) NIOBRARA, NEBRASKA.—The 6-mile segment of the river from its confluence with Chimney Creek to its confluence with Rock Creek. The study authorized in this paragraph shall include an analysis of alternative methods of protecting the values and natural resources of the river. The study authorized in this paragraph shall be completed not later than one year from the date of enactment of this paragraph.".

Mr. EXON. Mr. President, S. 280 provides meaningful protection to a very beautiful area of Nebraska. After lots of hard work and compromise, it is a well-balanced bill that recognizes the need to protect those things in life that are worth protecting; those places that might otherwise be lost to the vagaries of the busy world in which we live.

The section of the river protected under this bill is a biological crossroads where the low plains meet the high plains. The natural beauty of its water, its ponderosa pines, its waterfalls, and its cliffs have made it a favorite for many throughout Nebraska and the Nation. It is truly a canoeist's and outdoors persons' paradise. With this protection, we can be assured those things that make it special will be protected for years to come.

God's beautiful and unblemished gift to mankind must not be subject to

desecration. This bill assures the true "jewel" of northern Nebraska will live.

Mr. President, I was in the Niobrara River Valley again not long ago. My visit reaffirmed my commitment to see it protected. It is a place I want Nebraska's children and grandchildren and those that follow them to see and enjoy as our Maker created it.

Passage of S. 280 is the right thing to do and I am glad this body is about to move forward to protect the Niobrara. I look forward to working with my colleagues in the House of Representatives to pass similar legislation already introduced there to accomplish the same.

I thank my colleagues, Senator KERREY and Representative PETER HOAGLAND for their enthusiastic support for this important environmental legislation. I also salute the sizable Nebraska citizens group headed by Dick Spelts of Grand Island, NE, for their valued assistance.

Mr. KERREY. Mr. President, I am pleased to join Senator EXON today in supporting S. 280, a bill that will finally provide Nebraska's Niobrara River with the designation that it deserves. S. 280 grants scenic status to the Niobrara and marks the culmination of years of hard work and give and take between the various interests involved in this issue. It is also a tribute to the local landowners and others who have pushed to protect this natural treasure for all Nebraskans and for future generations.

The Niobrara River Valley is a unique setting in the Great Plains. It marks an ecological crossroads where the ponderosa forests of our country's West meet the broad leaf forests of the East. Its canyons hold birch trees that are a living remnant island of the Northern Boreal Forest from the last glacial period. The Niobrara has been one of our country's richest sources of information on the ancient species that roamed the North American Continent.

I have on numerous occasions done what thousands of Nebraskans and Nebraska visitors have done: canoed the Niobrara. In our State this river is unparalleled as a recreational river.

I am pleased that we have managed to work out a version of this bill that is sensitive to the various interests, while protecting existing land uses and the way of life of Nebraska families who have lived in that region for generations.

I also want to commend Senator EXON for his leadership on this bill. Without him the Niobrara River would not receive the protection it deserves. I look forward to similar action in the House where a similar bill has been introduced by Representative PETER HOAGLAND.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment.

The committee amendment was agreed to.

The PRESIDING OFFICER. The bill is open to further amendment.

AMENDMENT NO. 1094

(Purpose: To make a technical correction in S. 280 as reported from the Committee on Energy and Natural Resources)

Mr. MITCHELL. Mr. President, on behalf of Senator JOHNSTON, I send a technical amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maine (Mr. MITCHELL), for Mr. JOHNSTON, proposes an amendment numbered 1094.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 11, line 2, strike "With" and insert in lieu thereof "Within".

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment of the Senator from Louisiana.

The amendment (No. 1094) was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendments to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill (S. 280) as amended was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 280

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Niobrara River Scenic River Designation Act of 1989".

SEC. 2. DESIGNATION OF RIVER.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)), as amended, is further amended by adding at the end thereof the following:

"(111) NIOBRARA, NEBRASKA.—(A) The 40-mile segment from Borman Bridge southeast of Valentine to its confluence with Chimney Creek and the 30-mile segment from the river's confluence with Rock Creek to the bridge crossing the Niobrara on State Highway 137; both segments to be administered by the Secretary of the Interior, in consultation with the Niobrara Scenic River Advisory Council established pursuant to subparagraph (F), as scenic rivers.

"(B) After consultation with the Niobrara Scenic River Advisory Council, State and local governments, and with the interested public, and within two years after the date of enactment of this Act, the Secretary shall prepare a comprehensive management plan for the designated river segments pursuant to subsection (d) of this Act. In addition to those values specified in subsection (d), the plan shall provide for the protection of the pastoral landscape, and the established farming and ranching lifestyles.

"(C)(i) The authority of the Secretary to acquire lands in fee for purposes of this paragraph shall be limited to acquisition by donation or purchase with the consent of the owner. The Secretary may acquire easements for purposes of this paragraph in accordance with section 6 of this Act except that easements acquired by condemnation shall not affect more than 5 percent of the privately owned land within the designated river corridors and easements may be acquired by condemnation only if—

"(1) activities are occurring or threatening to occur which pose a significant threat to the values for which the river was protected or;

"(2) the easements to be acquired are reasonably necessary to give the public access to the river and to permit its members to traverse the length of the area or selected segments thereof.

"(ii) Notwithstanding any provision of this paragraph, easements acquired for providing river access to the public may only be acquired with the consent of the owner when the interest in land to be acquired is—

"(1) within one-quarter mile of a residence and adjacent to the Berry Bridge, Allen Bridge, Brewer Bridge, Rockford Bridge, Norden Bridge, Highway 183 Bridge, Riverview Bridge, Carns Bridge, or Highway 137 Bridge; or

"(2) located between the Borman Bridge and the Cornell Dam.

Any such easement shall provide for day use only.

"(iii) Within the river corridors designated by this paragraph, the Secretary shall not acquire subsurface rights, including but not limited to oil and gas rights, without the consent of the owner. Exploration for and the development of oil and gas shall be permitted pursuant to section 9 of this Act and applicable law.

"(D) The Secretary is authorized to enter into cooperative agreements with local units of government for maintenance of existing access and other roads within the designated river corridors.

"(E) The Secretary is further authorized to contribute to the costs of instituting conservation and streambank erosion control practices on private land within the river corridors which will enhance the scenic or natural values of the river segments or contribute to the protection of established bridges, and resources which are of historical or archaeological significance within the river corridors.

"(F)(i) In order to carry out the provisions of this paragraph, the Secretary shall establish the Niobrara Scenic River Advisory Council (Advisory Council) to consist of eleven members appointed by the Secretary—

"(1) three of whom shall be owners of farm or ranch property within the upper portion of the designated river corridor between the Borman Bridge and the Meadville Bridge;

"(2) three of whom shall be owners of farm or ranch property within the lower portion of the designated river corridor between the Meadville Bridge and the bridge on Highway 137;

"(3) one of whom shall be a canoe outfitter who operates within the river corridors;

"(4) one of whom shall be chosen from a list submitted by the Governor of Nebraska;

"(5) two of whom shall be representatives of the affected county governments or natural resources districts; and

"(6) one of whom shall be a representative of a conservation organization who shall have knowledge and experience in river conservation.

At least five of the six landowners appointed to the Advisory Council pursuant to phrases (1) and (2) shall be residents of Brown, Cherry, Keya Paha, or Rock Counties.

"(ii) The term of appointment to the Advisory Council shall be five years and no individual shall serve more than two terms.

"(iii) The Secretary shall consult with the Advisory Council in the development and review of the management plan prepared pursuant to subparagraph (B) and in the formulation and review of subsequent plans including annual operation and maintenance plans.

"(iv) The Secretary shall designate one of the members of the Advisory Council, who is a permanent resident of Brown, Cherry, Keya Paha, or Rock Counties, to serve as Chairperson. Vacancies on the Advisory Council shall be filled in the same manner in which the original appointment was made. Members of the Advisory Council shall serve without compenation, but the Secretary is authorized to pay expenses reasonably incurred by the Advisory Council in carrying out its responsibilities under this Act on vouchers signed by the Chairperson.

"(G)(i) Except as provided by subparagraph (C), nothing in this Act shall prohibit current or future uses of privately owned land within the river corridors, including agricultural and livestock operations, timber management practices, operation of private campgrounds, hunting, fishing, camping, accessing private property, construction of facilities or structures, and repair or replacement of residences, farmsteads, agricultural or recreational facilities, bridges, or fish hatcheries.

"(ii) Nothing in this Act shall prohibit the continued operation and maintenance of the Cornell Dam.

"(H) There are hereby authorized to be appropriated $3,500,000 for acquisition of lands and interests therein, and $1,000,000 for purposes authorized by subparagraphs (D), (E), and (F). Funds authorized pursuant to this paragraph shall be available only to the extent and in such amounts as are provided in advance in Appropriation Acts.".

SEC. 3. STUDY OF RIVER SEGMENT.

Section 5(a) of the Wild and Scenic Rivers Act, as amended (16 U.S.C. 1276(a)), as amended, is further amended by adding the following new paragraph:

"(106) NIOBRARA, NEBRASKA.—The 6-mile segment of the river from its confluence with Chimney Creek to its confluence with Rock Creek. The study authorized in this paragraph shall include an analysis of alternatives methods of protecting the values and natural resources of the river. The study authorized in this paragraph shall be completed not later than one year from the date of enactment of this paragraph.".

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION .AUTHORIZATION ACT, FISCAL YEAR 1990

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar item No. 284, S. 916, a bill to authorize appropriations for the National Aeronautics and Space Administration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 916) to authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes, which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and insert the following:

That this Act may be cited as the "National Aeronautics and Space Administration Authorization Act, Fiscal Year 1990".

TITLE I—FISCAL YEAR 1990 NASA AUTHORIZATION

NASA AUTHORIZATION

SEC. 101. (a) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Research and development", for the following programs:

(1) Space Station Freedom, $2,050,200,000, of which $80,000,000 is authorized only for development of the flight telerobotic servicer.

(2) Space transportation capability development, $635,500,000, of which $6,000,000 is authorized only for the Advanced Communications Technology Satellite upper stage development, plus such additional funds as may be transferred to the Administration from any other agency pursuant to a fiscal year 1990 appropriations Act.

(3) Physics and astronomy, $894,500,000, of which $25,000,000 is authorized only for the Gravity Probe B space shuttle flight experiment.

(4) Life sciences, $122,700,000.

(5) Planetary exploration, $396,900,000, of which $30,000,000 is authorized only for the CRAF and CASSINI missions if a cost containment plan is formulated for those missions and submitted to the Committee on Commerce, Science, and Transportation of the Senate, to the Committee on Science, Space, and Technology of the House of Representatives, and to the Committees on Appropriations of the Senate and House of Representatives.

(6) Space applications, $625,500,000, of which $62,000,000 is authorized only for the Advanced Communications Technology Satellite and $10,000,000 is authorized only for the Total Ozone Mapping Spectrometer.

(7) Earth Observing System of Mission to Planet Earth, $24,200,000 in order to complete Phase B activities and to initiate Phase C/D of this program in fiscal year 1990.

(8) Technology utilization, $22,700,000.

(9) Commercial use of space, $38,300,000.

(10) Aeronautical research and technology, $462,800,000, of which $25,000,000 is authorized only for the initiation of the environmental technologies research required for a high speed commercial transport and $10,000,000 is authorized only for the initiation of a high performance computer initiative.

(11) Transatmospheric research and technology, $127,000,000, if a new National Aerospace Plane management plan is submitted to the Committee on Commerce, Science, and Transportation and Committee on Armed Services of the Senate and to the Committee on Science, Space, and Technology and Committee on Armed Services of the House of Representatives within 60 days after the date of enactment of this Act.

(12) Space research and technology, $325,100,000.

(13) Safety, reliability, maintainability, and quality assurance, $23,300,000.

(14) Tracking and data advanced systems, $19,900,000.

(15) University Space Science and Technology Academic Program, $35,000,000, of which $5,000,000 is authorized only for the National Space Grant College and Fellowship Program.

Notwithstanding paragraphs (1) through (15), the total amount authorized by this subsection shall not exceed $5,786,600,000.

(b) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Space flight, control and data communications", for the following programs:

(1) Space shuttle production and operational capability, $1,305,300,000, of which $121,300,000 is authorized only for development of an advanced solid rocket motor and of which such sums as may be necessary are authorized to ensure a safe, reliable space shuttle and an extended duration orbiter capability.

(2) Space transportation operations, $2,732,200,000.

(3) Space and ground network, communications and data systems, $1,077,100,000.

Notwithstanding paragraphs (1) through (3), the total amount authorized by this subsection shall not exceed $5,104,600,000.

(c) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Construction of facilities", including land acquisition, as follows:

(1) Construction of addition for Space Systems Automated Integration and Assembly Facility, Johnson Space Center, $10,500,000.

(2) Construction of addition to Mission Control Center, Johnson Space Center, $17,800,000.

(3) Construction of addition to Simulator/Training Facility, Johnson Space Center, $3,800,000.

(4) Modifications for Expanded Solar Simulation, Johnson Space Center, $2,000,000.

(5) Modifications of Process Technology Facility for Space Station, Marshall Space Flight Center, $4,000,000.

(6) Replacement of Cooling Towers, Launch Complex 39 Utility Annex, Kennedy Space Center, $4,600,000.

(7) Replacement of Launch Complex 39, Pad A Chillers and Controls, Kennedy Space Center, $1,200,000.

(8) Replacement of Roofs, Launch Complex 39, Kennedy Space Center, $11,000,000.

(9) Replacement of Vehicle Assembly Building Air Handling Units, Kennedy Space Center, $1,800,000.

(10) Upgrading of Orbiter Modification and Refurbishment Facility to Orbiter Processing Facility 3, Kennedy Space Center, $26,000,000.

(11) Modifications of High Pressure Industrial Water System, Stennis Space Center, $2,000,000.

(12) Replacement of High Pressure Gas Storage Vessels, Stennis Space Center, $3,000,000.

(13) Construction of natural resource protection at various locations, $3,800,000.

(14) Refurbishment of bridges, Merritt Island, Kennedy Space Center, $4,500,000.

(15) Rehabilitation of Spacecraft Assembly and Encapsulation Facility II, Kennedy Space Center, $3,500,000.

(16) Rehabilitation of Central Heating/Cooling Plant, Johnson Space Center, $2,800,000.

(17) Construction of Data Operations Facility, Goddard Space Flight Center, $12,000,000.

(18) Construction of Quality Assurance and Detector Development Laboratory, Goddard Space Flight Center, $7,500,000.

(19) Modernization of South Utility Systems, Jet Propulsion Laboratory, $5,400,000.

(20) Construction of 40 x 80 Drive Motor Roof, Ames Research Center, $1,000,000.

(21) Modifications to Thermo-Physics Facilities, Ames Research Center, $4,600,000.

(22) Modifications to 14 x 22 Subsonic Wind Tunnel, Langley Research Center, $1,000,000.

(23) Modifications to National Transonic Facility for Productivity, Langley Research Center, $7,600,000.

(24) Modifications to 20-Foot Vertical Spin Tunnel, Langley Research Center, $1,900,000.

(25) Rehabilitation of Central Air Systems, Lewis Research Center, $2,400,000.

(26) Rehabilitation of Central Refrigeration Equipment, Lewis Research Center, $7,200,000.

(27) Rehabilitation of 8 x 6 Supersonic and 9 x 15 Low-Speed Wind Tunnels, Lewis Research Center, $6,800,000.

(28) Rehabilitation of Hypersonic Tunnel, Plum Brook, $4,100,000.

(29) Repair and Modernization of the 12-Foot Pressure Wind Tunnel, Ames Research Center, $27,600,000.

(30) Construction of Automation Sciences Research Facility, Ames Research Center, $10,600,000.

(31) Construction of Supersonic/Hypersonic Low Disturbance Tunnel, Langley Research Center, $6,900,000.

(32) Modifications for Seismic Safety, Goldstone, California, Jet Propulsion Laboratory, $2,600,000.

(33) Repair of facilities at various locations, not in excess of $750,000 per project, $28,000,000.

(34) Rehabilitation and modification of facilities at various locations, not in excess of $750,000 per project, $36,000,000.

(35) Minor construction of new facilities and additions to existing facilities at various locations, not in excess of $500,000 per project, $10,000,000.

(36) Environmental compliance and restoration, $30,000,000.

(37) Facility planning and design not otherwise provided for, $26,300,000.

(d) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Research and program management", $2,032,200,000.

(e) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Inspector General", $8,795,000.

(f) Notwithstanding the provisions of subsection (i), appropriations authorized in this Act for "Research and development" and "Space flight, control and data communications" may be used (1) for any items of a capital nature (other than acquisition of land) which may be required at locations other than installations of the National Aeronautics and Space Administration for the performance of research and development contracts, and (2) for grants to nonprofit institutions of higher education, or to nonprofit organizations whose primary purpose is the conduct of scientific research, for purchase or construction of additional research facilities; and title to such facilities shall be vested in the United States unless the Administrator of the National Aeronautics and Space Administration (hereinafter referred to as the "Administrator") determines that the national program of aeronautical and space activities will best be served by vesting title in any such grantee institution or organization. Each such grant shall be made under such conditions as the Administrator shall determine to be required to ensure that the United States will receive therefrom benefit adequate to justify the making of that grant. None of the funds appropriated for "Research and development" and "Space flight, control and data communications" pursuant to this Act may be used in accordance with this subsection for the construction of any major facility, the estimated cost of which, including collateral equipment, exceeds $500,000, unless the Administrator or the Administrator's designee has notified the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives of the nature, location, and estimated cost of such facility.

(g) When so specified and to the extent provided in appropriations Acts, (1) any amount appropriated for "Research and development", for "Space flight, control and data communications", or for "Construction of facilities" may remain available without fiscal year limitation, and (2) contracts may be entered into under the "Research and program management" appropriation for maintenance and operation of facilities and for other services for periods not in excess of 12 months beginning at any time during the fiscal year.

(h) Appropriations made pursuant to subsection (d) may be used, but not to exceed $35,000, for scientific consultations or extraordinary expenses upon the approval or authority of the Administrator, and the Administrator's determination shall be final and conclusive upon the accounting officers of the Government.

(i)(1) Funds appropriated pursuant to subsections (a), (b), and (d) may be used for the construction of new facilities and additions to, repair of, rehabilitation of, or modification of existing facilities, except that the cost of each such project, including collateral equipment, shall not exceed $100,000.

(2) Funds appropriated pursuant to subsections (a) and (b) may be used for unforeseen programmatic facility project needs, except that the cost of each such project, including collateral equipment, shall not exceed $500,000.

(3) Funds appropriated pursuant to subsection (d) may be used for repair, rehabilitation, or modification of facilities controlled by the General Service Administration, except that the cost of each project, including collateral equipment, shall not exceed $500,000.

ADMINISTRATOR'S REPROGRAMMING AUTHORITY

SEC. 102. Authorization is granted whereby any of the amounts prescribed in section 101(c) (1) through (37)—

(1) in the discretion of the Administrator or the Administrator's designee, may be varied upward by 10 percent, or

(2) following a report by the Administrator or the Administrator's designee to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives on the circumstances of such action, may be varied upward by 25 percent, to meet unusual cost variations.

The total cost of all work authorized under paragraphs (1) and (2) shall not exceed the total of the amounts specified in section 101(c).

SPECIAL REPROGRAMMING AUTHORITY FOR CONSTRUCTION OF FACILITIES

SEC. 103. Where the Administrator determines that new developments or scientific or engineering changes in the national program of aeronautical and space activities have occurred; and that such changes require the use of additional funds for the purposes of construction, expansion, or modification of facilities at any locations; and that deferral of such action until the enactment of the next authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities; the Administrator may transfer not to exceed one-half of one percent of the funds appropriated pursuant to section 101 (a) and (b) to the "Construction of facilities" appropriation for such purposes. The Administrator may also use up to $10,000,000 of the amounts authorized under section 101(c) for such purposes. The funds so made available pursuant to this section may be expended to acquire, construct, convert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No such funds may be obligated until a period of 30 days has passed after the Administrator or the Administrator's designee has transmitted to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a written report describing the nature of the construction, its cost, and the reasons therefor.

LIMITATIONS ON AUTHORITY

SEC. 104. Notwithstanding any other provision of this Act—

(1) no amount appropriated pursuant to this Act may be used for any program deleted by the Congress from requests as originally made to either the Committee on Commerce, Science, and Transportation of the Senate or the Committee on Science, Space, and Technology of the House of Representatives;

(2) no amount appropriated pursuant to this Act may be used for any program in

excess of the amount actually authorized for that particular program by section 101 (a), (b), and (d); and

(3) no amount appropriated pursuant to this Act may be used for any program which has not been presented to either such committee,

unless a period of 30 days has passed after the receipt by each such committee, of notice given by the Administrator or the Administrator's designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

PRIVATELY FINANCED FACILITY PROJECTS

SEC. 105. Title III of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2451 et seq.) is amended by adding at the end the following new section:

"PRIVATELY FINANCED FACILITY PROJECTS

"SEC. 312. Notwithstanding the provisions of any other law, the Administration is authorized to enter into contracts, leases, or agreements providing for private financing of the Space Station Processing Facility at the Kennedy Space Center, the Neutral Buoyancy Laboratory at the Johnson Space Center, and the Observational Instrument Laboratory at the Jet Propulsion Laboratory for the use of the Administration, its contractors, or its subcontractors, except that—

"(1) such authorization may not be utilized unless the Administrator determines that such privately financed construction or modification is in the best interests of the Government and results in net cost savings to the Government;

"(2) no project considered for private financing shall be initiated unless the Administration has submitted to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committees on Appropriations of the Senate and House of Representatives a notice of intent to initiate the project, along with a description of the project, and thirty days have passed after such submission; and

"(3) if, pursuant to this section, the Administrator authorizes privately financed construction or modification, the Administration is authorized, notwithstanding any provision of law to the contrary, to assume in the resulting contract, lease, or agreement contingent liability in excess of available appropriations relating to the Government's potential termination for its convenience of such contract, lease, or agreement, if such contract, lease, or agreement limits the amount of the payments that the Federal Government is allowed to make under such contract, lease, or agreement to amounts to be provided in advance in appropriations Acts.".

GEOGRAPHICAL DISTRIBUTION

SEC. 106. It is the sense of the Congress that it is in the national interest that consideration be given to geographical distribution of Federal research funds whenever feasible, and that the National Aeronautics and Space Administration should explore ways and means of distributing its research and development funds whenever feasible.

PEACEFUL USES OF SPACE STATION

SEC. 107. No civil space station authorized under section 101(a)(1) of this Act may be used to carry or place in orbit any nuclear weapon or any other weapon of mass destruction, to install any such weapon on any celestial body, or to station any such weapon in space in any other manner. This civil space station may be used only for peaceful purposes.

SMALL BUSINESS INNOVATION RESEARCH PROGRAM

SEC. 108. The Administrator of the National Aeronautics and Space Administration may utilize up to five percent of the funds provided for the Small Business Innovation Research Program for program management and promotional activities.

EXPORTS OF UNITED STATES-BUILT SATELLITES

SEC. 109. It is the sense of the Congress that the current prohibition on the export of United States-built satellites to the Soviet Union for launch on rockets of the Soviet Union shall continue to be the policy of the United States and that the policy shall be expanded to prohibit the export of United States-built satellites to other nations for launch on rockets of the Soviet Union.

TITLE II—COMMERCIAL SPACE LAUNCH ACT

AUTHORIZATION FOR SECRETARY OF TRANSPORTATION

SEC. 201. Section 24 of the Commercial Space Launch Act (49 App. U.S.C. 2623) is amended to read as follows:

"AUTHORIZED APPROPRIATIONS

"SEC. 24. There is authorized to be appropriated to the Secretary to carry out this Act $4,392,000 for fiscal year 1990. Sums appropriated for research and development shall remain available until expended.".

TITLE III—NATIONAL SPACE COUNCIL

COUNCIL AUTHORIZATION

SEC. 301. There is authorized to be appropriated to carry out the activities of the National Space Council established by section 501 of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1989 (42 U.S.C. 2471), $1,200,000 for fiscal year 1990.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD:)

● Mr. GORE. Mr. President, the bill that stands before the Senate today authorizes appropriations for fiscal year 1990 for the National Aeronautics and Space Administration, the Department of Transportation's Office of Commercial Space Transportation, and the National Space Council.

This bill is the result of many hours of meetings, many weeks of hearings, and many hours of deliberations.

Mr. President, realizing the fact the fiscal year 1990 VA, HUD, independent agencies appropriations bill that appropriates funds for NASA has already passed the Senate and is in conference with the House, some Members might ask why the Senate Commerce Committee is bringing the authorization bill to the floor at this late date.

The answer to that question comes in three parts.

First, and most important, the bill before the Members today gives the Members the committee's best estimate of the real fiscal year 1990 budget requirements of NASA and the committee's best judgment as to the mix of programs that are required to retain U.S. technological leadership in space.

The bill before the Members today was not constrained in its formulation by an inadequate 302(b) allocation that forced deep and troubling cuts in NASA by the Appropriations Committee.

The bill before the Senate today informs this body of the minimum level of funding required if we are to implement the Civil Space Program that we all espouse and support.

Second, the bill before the Senate includes a variety of policy matters that require legislation. It establishes cost containment measures for NASA's fiscal year 1990 new start in space science, the CRAF/Cassini mission; it includes language that permits the private financing of three NASA facilities provided that such a proposal results in a net cost savings to the Federal Government; it includes a provision that would extend the current limitation on the launch of United States-built satellites on Soviet launch vehicles in the Soviet Union to the launch of such satellites on Soviet launch vehicles in other countries; and a provision that makes the committee's support of the national aerospace plane contingent upon the submission of a joint NASA/DOD management plan for this program.

Furthermore, the committee intends to offer four floor amendments today that would clarify existing legislation regarding the National Space Grant College and Fellowship Program, give the National Space Council much needed staffing and administrative authorities, bring the bill's private financing proposal into compliance with the Budget Act, and clarify its language on the Small Business Innovation Research Program to make it clear that none of these funds may be used for travel or civil service salaries.

Simply put, the authorizing committees still have a very important policy role to play, and this bill includes many provisions that are required if the committee is to fulfill its obligations and if NASA and the National Space Council are to be able to carry out their missions.

Third, and finally, since the National Aeronautics and Space Administration was established in 1958, there has only been 1 year when a NASA authorization bill was not enacted, and that was in 1987 when President Reagan vetoed the final bill because he objected to the establishment of the National Space Council.

Mr. President, that is a laudable record, and a record that this subcommittee chairman intends to keep intact.

I realize that in the current environment, it is hard to get an authoriza-

tion bill through the system. And, I realize that there are substantial differences between the proposed Senate authorization bill for NASA and the recently passed House version of the bill. But, it is important for the Congress to continue to enact authorization bills because these bills are the primary vehicles for congressional policy formulation and because these bills have become credible barometers of the real resource requirements of the Federal agencies. In a time of severely constrained budgets, the Senate's authorization committees have adopted a fiscal discipline of their own, and in many instances that has resulted in an excellent working relationship with their counterparts on the Appropriations Committee.

For the last decade, we have been trying to do things in the Civil Space Program on the cheap or with inadequate resources—budgetary, personnel, facilities, and equipment. And I am here to tell you that if the administration does not get more honest about the budget and resource requirements of NASA and if the Congress cannot provide the necessary resources to implement the proposed Civil Space Program, the Congress in the future is going to be required to terminate ongoing programs and projects and to reject new starts. And that would be a terrible situation and a tragic event. Unfortunately, the realities of Gramm-Rudman-Hollings conflict with the dreams and visions of the Space Program.

Mr. President, I ask unanimous consent to print in the RECORD a summary of the major provisions included in S. 916, a table that summarizes the budget provisions, and a section-by-section analysis.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SUMMARY OF MAJOR PROVISIONS

For FY 1990, the Committee would authorize $13,273,995,000 for NASA, $4,392,000 for the Office of Commercial Space Transportation in DOT and $1,200,000 for the National Space Council. Of the amount authorized for NASA, $5,786,600,000 is authorized for research and development, $5,104,600,000 for space flight, control and data communications, $341,800,000 for construction of facilities, $2,032,200,000 for research and program management, and $8,795,000 for the activities of the Inspector General's Office.

A. TITLE I—NASA AUTHORIZATIONS

Space station

The reported bill provides full funding for the space station (known as "Space Station Freedom") in FY 1990, $2,050,200,000, as a signal of its commitment to the program and to the agreement with our international partners. There is a concern with the pace of the space station program and with the inability of the Congress to provide adequate funds for this Presidential initiative. Unless the Congress is willing to recognize this program as a national priority and a budget priority, the Committee is concerned that this program will not be successfully implemented and that the United States will be forced to withdraw from this initiative.

The bill as reported does not include multi-year funding for the space station program, and it does not put a cap of $13,300,000,000 on the program as requested by the Administration. The Committee believes that it would be premature to put a cap on the space station program. As for multi-year funding, while there is a need for multi-year funding and Congress should provide full funding for the program and instruct NASA to manage the program to that cost and the associated schedule, the current budget situation makes full funding highly unlikely. Furthermore, multi-year authorizations may not add stability to the NASA budget or its programs, and multi-year authorizations without multi-year appropriations only serve to minimize the role of the authorization committees in the annual budgetary and policy deliberations.

Space transportation capability

The Space Transportation Capability Development budget of $635,500,000 is $3,500,000 below the President's FY 1990 budget request. This reduction is for activities associated with the integration of the Commercially Developed Space Facility in the space shuttle. The reports of the National Research Council and the National Academy of Public Administration raising questions about this effort both compel the Committee to defer any activities associated with the Commercially Developed Space Facility until a later date.

In addition, NASA will be instructed to absorb the cost of development of the upper stage for the Advanced Communications Technology Satellite (ACTS), $6,000,000, in this account. This should not adversely affect ongoing engineering activities nor should it affect adversely the spacelab or orbital maneuvering vehicle program activities.

Finally, the reported bill assumes authority to NASA to utilize funds transferred from the Department of Defense (DOD) for activities related to the Advanced Launch System program. It is estimated that DOD will transfer $100 million in FY 1990 to NASA for activities associated with this program.

Space science and applications

For Space Science activities, the substitute authorizes $1,414,100,000 in FY 1990—Physics and Astronomy, Life Sciences, and Planetary Exploration—which is $1,500,000 below the level requested in the President's budget request.

The $894,500,000 provided for Physics and Astronomy will support ongoing activities related to the deployment of the Hubble Space Telescope and the Gamma Ray Observatory and to the development of the Global Geospace Science spacecraft and Advanced X-Ray Astrophysics Facility (AXAF). This level of funding fully supports the FY 1990 request for mission operations and data analysis, as well as research and analysis—the lifelines of the university research communities.

The $122,700,000 provided for Life Sciences in FY 1990 is a substantial increase over the FY 1989 baseline of $79,100,000. The substantial increase recommended for life sciences activities is consistent with the Committee's strong support of the space station program and development of an extended duration orbiter capability. If the United States is to increase substantially the level of manned activity in space, it is absolutely essential to have a robust life sciences program.

The $396,900,000 provided in FY 1990 for Planetary Exploration is the full amount requested by the Administration and gives new start status to the CRAF and Cassini missions. The new start approval for the CRAF and Cassini missions is contingent upon the establishment and implementation of a cost containment plan for these two missions. This is intended to ensure that NASA learns to manage projects to cost—the CRAF and Cassini missions offer a unique opportunity to test this new approach. The last space science mission done within cost was Voyager, launched in 1977. NASA has agreed that its inability to contain the cost of the CRAF and Cassini missions would result in the termination of the CRAF mission. NASA also has agreed that the cost containment plan would be based on an annualized basis, as well as a total project cost basis.

For Space Applications activities the substitute authorizes $625,500,000—$420,100,000 for Earth Science and Applications, $90,700,000 for Materials Processing, $80,600,000 for Communications, and $34,100,000 for Information Systems.

For Earth Science and Applications, the reported bill provides $420,100,000 in FY 1990, $10,000,000 more than the President's request. The additional funding provided is to initiate the Earth Probe program as an FY 1990 new start and as a new line item in the NASA budget. The Earth Probe program will consist of a series of Explorer Class missions that will assess the level of ozone depletion, measure tropical rain forests, and monitor the oceans to understand better global change. The first mission to be funded is the Total Ozone Mapping Spectrometer (TOMS).

The reported bill authorizes $90,700,000 for Materials Processing in Space in FY 1990, a reduction of $2,000,000 from the President's request, and $34,100,000 for Information Systems, the same level as requested by the President. The bill also authorizes $80,600,000 for Communications in FY 1990, an increase of $62,000,000 above the President's budget request. The proposed increase in this latter account is to accommodate ACTS, which is strongly endorsed by the Committee. The Committee is concerned that the Administration has failed to fund the Acts program for the fourth straight year despite Congressional support for this program, which is designed to ensure sustained U.S. leadership in communications technology.

Mission to planet Earth

After months of review, the reported bill includes a new line item and instructions to NASA to initiate the Mission to Planet Earth, starting with the Earth Observing System (EOS) in FY 1990. The bill provides $24,200,000 for the initiative, which is the same amount of funding that the Administration proposed for advanced technology definition activities for EOS in FY 1990. The initiation of a Mission to Planet Earth should be viewed as part of a comprehensive Global Change Research Program and as a high national priority and reflects the hope that the Administration will work with the Congress to expedite implementation of this program as proposed in this bill.

Commercial programs/safety and reliability

The reported bill authorizes $61,000,000 for Commercial Programs, $23,300,000 for Safety, Reliability, Maintainability and

Quality Assurance, and $19,900,000 for Tracking and Data Systems—the same levels as the President's request.

Aeronautical research and technology

The reported bill also includes $462,800,000 for Aeronautical Research and Technology, including $25,000,000 to initiate technology efforts related to the development of an environmentally and economically sound high speed commercial transport. This level of funding represents full support for the President's budget request, which assumes funding for a high speed commercial transport and reflects great concern by the Committee about the United States maintaining its lead in aeronautics and a positive balance of trade. However, if a high speed commercial aircraft is to be marketable, it must be environmentally sound. It must be able to meet all existing environmental standards and have enough margin to meet future standards. In light of the growing concern about the ozone layer and other environmental issues, the bill endorses NASA's proposal to focus its technology activities on the critical environmental challenges of a high speed commercial aircraft program.

In the same vein, the bill earmarks $10,000,000 for a high performance computer initiative that will accelerate the development and application of high performance computing technologies. This initiative should consist of the following program elements:

1. massively-parallel scalable testbed facilities; 2. algorithms and advanced software development; and 3. basic research infrastructure.

National aerospace plane

The reported bill authorizes $127,000,000 for Transatmospheric Research and Technology, the National Aerospace Plane (NASP) program, in FY 1990.

This level of funding represents full funding of the Administration's request for the NASA portion of this joint NASA-DOD program. The NASP program is calculated to develop the technologies in materials processing, propulsion systems, and other areas needed to produce a plane capable of taking off from a conventional runway, accelerating into low earth orbit, and then landing conventionally. The Committee sees NASP as crucial to our national effort to maintain and enhance competitiveness in the aerospace industry. Some in Congress fully expect NASP to lay the technological groundwork for major improvements in our military aircraft, an alternative launch system to the space shuttle, and eventually hypersonic commercial transports.

Since NASP is a joint program shared by NASA and DOD, DOD's participation is essential if the program is to produce two experimental aircraft, X-30s, for flight test purposes. In that connection, the Committee is aware of the continuing debate within the Administration about the appropriate role of DOD in the NASP program. However, the Committee wants to do its part in advancing aerospace technology by authorizing full funding for NASA's portion of the NASP program.

The authorization of funds in the reported bill is contingent upon the submission of a revised management plan, including goals, objectives, milestones, and proposed budgets, for the NASP program.

Space research and technology

The reported bill authorizes $325,100,000 for Space Research and Technology in FY 1990. This is $13,000,000 less than the President's budget request. While there continues to be strong support for NASA's efforts to enhance its technology base, due to the extreme budget pressures that exist and NASA's inability to obtain funding for ongoing programs strongly endorsed by the Committee, it is necessary to reduce the FY 1990 budget request for Space Research and Technology. This figure assumes that the Pathfinder Program would be funded at the FY 1989 level of $40 million and that the proposed new start for the In-Space Flight Experiments would be funded at $10,200,000 instead of the $16,200,000 requested.

Academic programs

The reported bill includes a new line item for the University Space Science and Technology Academic Program, which reflects the full-funding Administration budget request for this program of $35,000,000. An amount of $5,000,000 is provided in this account for the National Space Grant College and Fellowship Program, which NASA initiated in FY 1989. NASA's efforts to broaden the participation of our Nation's educational institutions in the civil space program are very important.

General reduction/research and development account

To maintain a total level of spending for research and development activities of $5,786,600,000 in FY 1990, a general reduction of $17,000,000 has been applied against the account.

Space flight

The reported bill authorizes $5,104,600,000 for Space Flight, Control and Data Communications in FY 1990. This is $35,000,000 less than the President's budget request. This reduction represents a $25,000,000 general reduction to the Space Tracking and Data Acquisition account and a general reduction of $10,000,000 to the entire Space Flight Control and Data Communications Account. The amount provided for the Space Shuttle Productions and Operations Capability account, as well as the Space Transportation Operations account in FY 1990, should sustain operation of a safe and reliable space shuttle—NASA's highest priority.

The updated bill also provides $121,300,000 for the advanced solid rocket motor program in this account and gives NASA the authority to use the funds in the Space Shuttle Production and Operational Capability account as may be necessary to ensure operation of a safe and reliable space shuttle and development of an extended duration orbiter capability.

Construction of facilities

The reported bill fully authorizes the budget request for Construction of Facilities, $341,800,000, and provides additional legislative authority that permits NASA to secure private sector financing for the space station processing facility at the Kennedy Space Center, the neutral buoyancy laboratory at the Johnson Space Center, and the observational instrument laboratory at the Jet Propulsion Laboratory. The proposed Administration language for such service or lease contracts has been amended by the reported bill to require that such contracts result in net cost savings to NASA and are in the national interest. Some type of shared use agreement or equity investment on the part of the private sector should be required to make such proposals advantageous. While such projects should be funded by the Federal Government in the traditional manner, it is not feasible to provide additional funds for such activities in the current budget environment.

Research and program management inspector general

The reported bill authorizes $2,032,200,000 for research and program management in FY 1990. The value of NASA personnel to the success of the Nation's space program must be recognized, and this account reflects that view.

The reported bill includes $8,795,000 for the Office of the Inspector General in FY 1990, the level of funding requested by the President. This is the first time that this Office has been identified as a separate line item and as a separate appropriations account.

TITLE I—OTHER PROVISIONS

As previously indicated, Section 105 of the reported bill amends the National Aeronautics and Space Act to authorize the Administrator of NASA to enter into contracts, leases, or service agreements providing for private sector financing of the space station processing facility at the Kennedy Space Center, the neutral buoyancy laboratory at the Johnson Space Center, and the observational instrument laboratory at the Jet Propulsion Laboratory, provided that such activities are in the best interest of the goverment and result in net cost savings. If such contracts are entered into, the Administrator is allowed to use NASA's unobligated balances as a contingent liability in case of Government terminates one of these projects for its convenience. The Administration had requested a generic private financing authority, but the substitute reflects the view that a more limited authority as provided in section 105, contingent upon specified conditions, is in the best interest of the civil space program.

As has been the case with prior year authorization bills, section 106 of the reported bill instructs NASA to distribute research funds on a geographical basis where possible. Also, section 107 directs that the space station may be used only for peaceful purposes.

Section 108 gives the Administrator of NASA the authority to use up to 5 percent of the funds provided for the Small Business Innovation Research Program for program management and promotional activities. This should make NASA's implementation of the program consistent with that of other Federal agencies and promote the transfer of technology to commercial applications.

Section 109 indicates that it is the sense of the Congress that the current prohibition on the export of U.S.-built satellites to the Soviet Union for launch on rockets of the Soviet Union shall continue to be the policy of the United States and that the policy shall be expanded to prohibit the export of U.S.-built satellites to other nations for launch on rockets of the Soviet Union.

C. TITLE II—OTHER AUTHORIZATIONS

The reported bill includes the FY 1990 Authorization for the Office of Commercial Space Transportation at DOT. The bill provides $4,392,000 for these activities, the full amount requested by the Administration.

D. TITLE III

The reported bill also authorizes the activities of the National Space Council, established by P.L. 100-685 (the FY 1989 NASA Authorization Act). For FY 1990, $1,200,000 has been provided for these activities, which reflects an assumed 50% reimbursement to Federal agencies for detailees assigned to the National Space Council.

SECTION-BY-SECTION ANALYSIS

TITLE I

SECTION 101-104-NASA

Overview

Section 101(a), (b), (c), (d), and (e) authorizes $13,273,995,000 for NASA in FY 1990. These monies are distributed in five appropriations accounts:

Subsection (a), relating to research and development—$5,786,600,000 for space station, space science and applications, space transportation capability development, commercial programs, aeronautics research and technology development, transatmospheric research and technology, and space research and technology, as well as other programs.

The major assumptions in this area are full funding ($2,050,200,000) and a strong endorsement of the space station program; restoration of funding for ACTS; initiation of a new space technology initiative—In-Space Flight Experiments—but at a reduced level of funding; approval of the new start requests for the CASSINI mission and for the CRAF mission; endorsement of a new aeronautics research and technology program for high speed commercial transportation; initiation of a high performance computing program; continued support of the NASP program, contingent upon submission of a new program management plan; sustained support of the Gravity Probe B program; and approval of new start status for two programs at the initiation of the Committee—Earth Probe and Mission to Planet Earth (EOS).

Subsection (b), relating to space flight, control and data communications.—$5,104,600,000, including funds for space shuttle productions and operations capability ($1,305,300,000), space transportation operations ($2,732,200,000), and space tracking and data acquisition ($1,077,100,000).

The funds provided for these activities reflect this Committee's strong support of this program and its commitment to maintain a safe and reliable transportation system.

The reported bill reflects an endorsement of the initiation of the Advanced Solid Rocket Motor Program in this section. In this connection, the Committee also has agreed to permit private sector financing of the facility portion of this program. The authority has been granted in a separate bill that the Committee has ordered reported, S. 663.

Subsection (c), relating to construction of facilities.—$341,800,000 for a variety of repair, rehabilitation, and new construction activities required for a robust civilian space program.

Subsection (d), relating to research and program management—$2,032,200,000 for all civil service staff, maintenance of facilities, and support of research and development programs and contract activities, as well as technical and administrative support of research and development programs.

Subsection (e), relating to Inspector General.—$8,795,000 for the activities of the Office of the Inspector General of NASA. This is a new line item and a new appropriations account.

Section 101 (f), (g), (h), and (i) and Sections 102, 103, and 104 establish strict parameters for the Administrator of NASA concerning the amount of flexibility he or she has with construction of facilities activities, the transfer of funds from one account to another, and the use of funds for activities not approved by the Committee. These provisions are included in the NASA authorization bill every year.

SECTION 105

This section amends the National Aeronautics and Space Act of 1958 to give NASA the authority to enter into contracts, leases or agreements providing for private financing of three NASA facilities—the Space Station Processing Facility at the Kennedy Space Center, the Neutral Buoyancy Facility at the Johnson Space Center, and the Observational Instrument Laboratory at the Jet Propulsion Laboratory.

As was the case with the proposed private financing of the ASRM Production Facility, NASA requires legislative authority to be able to provide the necessary contingent liability/termination liability to ensure investor confidence in the private financing of such facilities. This language provides that authority and permits NASA to use its unobligated funds as collateral in case the Government terminates a contract for its convenience.

Based on its review of these and other private financing proposals contained in the President's FY 1990 NASA Authorization bill, the Committee became concerned that there were no clear standards by which to assess such private offerings. The Committee, therefore, asked the Congressional Budget Office (CBO) to assess the seven commercialization proposals that were contained in the NASA budget request. The CBO Staff Memorandum, "Preliminary Analysis of NASA Commercialization Initiatives," stated that:

" . . . if the lease or service contract arrangement is to be less expensive to the government than direct procurement, the government will have to share the use and cost of the facilities or hardware with other customers. An example would be a space station facility that the government uses fully during the deployment—thus, a smaller, lower-capacity alternative would not do—but thereafter shares with another user. For the government to realize cost saving from private financing, the lower 'principal' payments permitted by sharing with a non-U.S. Government user must be sufficient to offset the higher interest cost of borrowing at the private, as opposed to the government, rate."

Based on its analysis of the Administration's private financing proposals, the Committee has decided that it will assess each proposal on a case-by-case basis. The Committee, therefore, has not given NASA generic authority for such proposals as requested in the Administration's proposed FY 1990 NASA Authorization bill. In light of some reservations about the value and benefits of private sector financing, the Committee has established three standards that must be met by the three facilities that are addressed in this section before the use of such financing is authorized.

First, the Administrator of NASA must determine that the privately financed facility is in the best interest of the Government.

Second, the Administrator of NASA must determine that the privately financed facility will result in net cost savings to the Government.

Third, no project considered for private financing shall be initiated unless the Administration (NASA) has submitted to the Committee a notice of intent to initiate the project, along with a description of the project, and thirty days have passed after each submission.

As noted above, the Government's financial obligations under such contracts, leases, or agreements would be limited to amounts provided in advance in appropriations Acts.

SECTION 106

This section instructs NASA to distribute its research and development funds on a geographical basis where possible. The Committee has annually legislated this requirement, believing it is in the national interest.

SECTION 107

This section reiterates the past Committee position that the space station may be used only for peaceful purposes. This language is consistent with existing U.S. treaty obligations (the Outer Space Treaty) and current law—P.L. 100-685.

SECTION 108

This section allows the Administrator of NASA to utilize up to five percent to the funds provided for the Small Business Innovation Research Program for program management and promotional activities. None of these funds may be used for travel or civil servant salaries. This would make NASA's implementation of the program consistent with other Federal agencies and ideally would result in more commercial spinoffs and applications.

Presently, NASA is not allowed to use any of the Small Business Innovative Research Program funds for administrative, program management, or promotional activities. During its review of the Program, the Committee was advised that this constraint, which was upheld by the Comptroller General in decision B-217925 of July 29, 1985. (64 Comp. Gen. 711), severely constrains the program and the dissemination of its technical findings. The Committee was advised by the program officer that a small set-aside for program management and promotional activities such as proposal review costs, support contract costs, automated data processing costs, and outreach activities costs could assist the program and heighten the commercial potential of the innovative research being performed by small businesses.

SECTION 109

This section indicates that it is the sense of the Congress that the current prohibitation on the export of U.S. built satellites to the Soviet Union for launch on rockets of the Soviet Union shall continue to be the policy of the United States and that the policy shall be expanded to prohibit the export of U.S. built satellites to other nations for launch on rockets of the Soviet Union.

TITLE II

SECTION 201—OFFICE OF COMMERCIAL SPACE TRANSPORTATION

Section 201 of the bill amends section 24 of the Commercial Space Launch Act (49 U.S.C. 2623) to provide $4,392,000 for FY 1990 for the Office of Commercial Space Transportation (OCST) of DOT. This conforms to the President's request, will enable OCST to fulfill responsibilities pursuant to the Commercial Space Launch Act, and will ensure that OCST meets projected demand in FY 1990 from entities seeking a DOT license to launch commercial ELVs.

OCST was established pursuant to P.L. 98-575, with the specific purpose of establishing and enforcing the licensing and regulatory regime necessary for commercial space transportation operations. These activities include safety research and planning and licensing procedures.

To date, OCST has issued three commercial launch licenses and currently has under review and in process six commercial launch applications. The Office anticipates that 20 more requests for licensing actions will be

received before the end of the calendar year.

To review properly and thoroughly these applications, the Committee supports the FY 1990 budget request and the efforts of the Office to augment its staff with people with engineering and technical backgrounds.

Adequate resources to oversee and regulate properly the commercial ELV industry is essential to ensure that the United States can fulfill its obligations under international treaties, as well as to protect fully the health and safety of the public.

The Committee notes the role of the OCST in the effort to formulate model government contracts and requests for proposals for launch services on domestic ELVs. The Committee supports these efforts.

The Committee also notes the report submitted by the Secretary of DOT concerning "A Study of the Scheduling of Commercial Launch Operations at National Ranges." This report raises a variety of issues and concerns that the Committee intends to address as it assesses the viability and marketability of domestic ELVs.

TITLE III

SECTION 301—NATIONAL SPACE COUNCIL AUTHORIZATION

Section 301 of the bill authorizes $1,200,000 for the activities of the National Space Council in FY 1990. The Council was established pursuant to section 501 of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1989 (42 U.S.C. 2471). The Committee has reviewed this authorization with the Council and OMB and believes the prescribed level of funding is adequate for FY 1990.

The Committee notes that the proposed level of funding in FY 1990 would provide for a 50 percent reimbursement for any Executive Branch employee detailed to the National Space Council. Concerning detailees, the Committee also notes that in establishing the Council, it did not envisage a prominent role for detailees. The Committee saw the Council as "lean and mean" with a professional staff of not more than seven people as required by section 501(C) of P.L. 100-685—FY 1989 NASA Authorization Act. Detailees were seen as "temporary" staff who would bring a specific expertise to the Council for a limited period of time—not permanent employees who would head up directorates. The Committee wants to remind the Council of this intent.

SENATE COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION NASA BUDGET SPREAD SHEET FOR FISCAL YEAR 1990

[In millions of dollars]

	Fiscal year 1989 operating plan	Fiscal year 1990 request	Proposed Fiscal year 1990 Senate authorization	Comments
I. Research and Development	4,256.6	5,751.6	5,786.6	Reflects general reduction of $17m to R&D account.
1. Space Station	900.0	2,050.2	2,050.2	
2. Space Transportation Capability Development	681.0	639.0	635.5	Assumes absorption of the $6m required for ACTS upper stage activities.
Spacelab	88.6	98.9		
Upper Stages	133.6	88.6		
Engineering and Tech. Base	160.6	189.8		
Payload Ops and Sup. Equip.	64.7	81.1	−3.5	Delete funding for CDSF integration.
Advanced Programs	52.7	48.7		
Advanced Launch Systems	81.4	5.0		
Tethered Satellite System	26.4	19.9		
Orbital Maneuvering Vehicle	73.0	107.0		
3. Space Science	1,237.8	1,415.6	1,414.1	
A. Physics and Astronomy	742.1	894.5	894.5	Assumes absorption of $25m for Gravity Probe B.
Hubble Space Telescope Dev.	104.9	67.0		
Gamma Ray Observatory Dev.	50.9	26.7		
Global Geospace Science	64.4	112.3		
Advanced X-Ray Astrophysics Fac.	16.0	44.0		
Payload and Instrument Dev.	71.7	71.4		
Shuttle/Spacelab Payload Mgt.	69.7	86.1		
Sp. Station Integrated Planning and Attached Payloads	8.0	23.0		
Explorer Development	82.1	93.2		
Mission Operation and Data Analysis	143.2	204.8		
Research and Analysis	85.8	112.5		
Suborbital Program	45.4	53.5		
B. Life Sciences	79.1	124.2	122.7	General reduction of $1.5m.
C. Planetary Exploration	416.6	396.9	396.9	
Galileo Development	73.4	17.4		
Magellan	43.1			
Ulysses	10.3	14.5		
Mars Observer	102.2	100.5		
Missions Ops and Data Analysis	110.7	155.4		
Research and Analysis	76.9	79.1		
CRAF/CASSINI	(1)	30.0		Assumes new start status for the CRAF and Cassini. Missions in final fiscal year 1990.
4. Space Applications	592.4	555.5	625.5	
A. Earth Science and Applications	404.7	410.1	420.1	
Geodynamics	32.9	38.0		
Research and Analysis	106.0	124.8		
Mission Operations and Data Analysis	17.6	24.8		
Earth Science Payload Instrument Dev.	46.4	42.3		
Scatterometer	10.6	13.8		
Earth probe	(1)	0	10.0	Assumes new start for Earth Probe Program—+10m for Total Ozone Mapping Spectrometer.
Upper Atmos. Res. Satellite (UARS)	85.2	73.9		
Ocean Topography Experiment (TOPEX)	83.0	72.8		
Airborne Science and Applications	23.0	19.7		
B. Materials Processing in Space	75.6	92.7	90.7	General reduction of $2m.
C. Communications	92.2	18.6	80.6	+$62m for ACTS.
D. Information Systems	19.9	34.1	34.1	
5. Mission to Planet Earth—Earth Observing System	(1)	24.2	24.2	Assumes fiscal year 1990 New Start Status for Mission to Planet Earth–EOS (Administration assumes a fiscal year 1991 New Start).
6. Commercial Programs	44.7	61.0	61.0	
Technology Utilization	16.5	22.7		
Commercial Use of Space	28.2	38.3		
7. Aeronautical Research and Technology	404.2	462.8	462.8	Includes $25m to initiate research for a high speed commercial aircraft. Absorb $10m to initiate a High Performance Computing Initiative.
Research and Technology Base	315.6	335.7		
Systems Technology Programs	88.6	127.1		
8. Transatmospheric Research and Technology	69.4	127.0	127.0	Requires submission of a new management plan within 60 days of enactment.
9. Space Research and Technology	285.9	338.1	325.1	General reductions to Pathfinder (−$7m) and In-Space Flight Experiments (−$6m).
10. Safety, Reliability, Maintainability and Quality Assurance	22.4	23.3	23.3	
11. Tracking and Data Advanced Systems	18.8	19.9	19.9	
12. University Space Science and Technology Academic Program	(1)	35.0	35.0	
II. Space Flight Control and Data Communications	4,452.6	5,139.6	5,104.6	Reflects general reduction of $10m to SFC&DC account.
1. Space Shuttle Productions/Operations Capability	1,121.6	1,305.3	1,305.3	
Orbiter Operational Capability	281.8	237.0		
Launch and Mission Support	257.6	341.0		
Propulsion Systems	582.2	727.3		
2. Space Transportation Operations	2,385.7	2,732.2	2,732.2	
Flight Operations	687.7	772.6		
Flight Hardware	1,121.7	1,236.5		
Launch and Landing Operations	509.8	553.6		
Expendable Launch Vehicles	66.5	169.5		

SENATE COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION NASA BUDGET SPREAD SHEET FOR FISCAL YEAR 1990—Continued

[In millions of dollars]

	Fiscal year 1989 operating plan	Fiscal year 1990 request	Proposed Fiscal year 1990 Senate authorization	Comments
3. Space Tracking and Data Acquisition	945.3	1,102.1	1,077.1	General reduction of $25M.
Space Network	483.9	582.3		
Ground Network	228.1	269.6		
Communications and Data Systems	233.3	250.2		
III. Construction of Facilities	281.7	341.8	341.8	
IV. Research and Program Management	1,906.6	2,032.2	2,032.2	
V. Inspector General	([1])	8.8	8.8	
Total NASA	[2] 10,897.5	13,274.0	13,274.0	

[1] New line items proposed for fiscal year 1990.
[2] The fiscal year 1989 Operating Plan includes $175 million in funds transferred from DOD to NASA for the Advanced Launch System and Space Shuttle Programs.

Mr. GORE. Mr. President, the bill before the Senate today has been thoughtfully formulated in a very bipartisan manner. I am hopeful that the Senate will approve this measure, that the Senate will be able to successfully negotiate an authorization bill with the House, and that in fiscal year 1990 there will be a NASA authorization bill.●

Mr. HOLLINGS. Mr. President, I rise in support of S. 916, the fiscal year 1990 NASA authorization bill, and I would like to associate myself with the remarks of the distinguished chairman of the Subcommittee on Science, Technology, and Space.

Mr. President, this has not been an easy year for the subcommittee or for the Civil Space Program. At the same time the subcommittee was trying to grapple with the budget realities of the fiscal year 1990 budget request, a new initiative for the Moon and Mars was proposed by the President and reassessment and subsequent rephasing of the space station was initiated by NASA. These two events best typify the dilemma facing my committee and the Congress—how to turn the dreams of today into the realities of tomorrow during a time of severe fiscal constraint.

Mr. President, I might note with a certain degree of dismay that the bill before the Senate today would authorize $13.3 billion for NASA, the same level of funding as the President's fiscal year 1990 budget request, but almost $1 billion more than we were able to provide recently in the Senate-passed fiscal year 1990 appropriations bill. I might also note that the administration's request of $13.3 billion in fiscal year 1990 was described by then-Administrator Dr. James C. Fletcher in March as "marginal to submarginal."

Mr. President, I have stood on the floor of the Senate on many different occasions and have discussed our budget situation. And I do not intend to do that again today. But I do want the Members of the Senate to realize that until we make our Civil Space Program a national priority, it will be hard to make it a budget priority.

Despite the heroic efforts of the chairman of the VA, HUD, Independent Agencies Appropriations Subcommittee this year to find additional funds for NASA in fiscal year 1990, she was not able to fund fully the budget request, nor was the former chairman of the subcommittee last year or the year before. As a matter of fact, if you look at a table that compares the final appropriations level to the administration's budget request over the last 5 years, you will see that there was only 1 year where the final appropriation exceeded or met the President's budget request, and that was fiscal year 1987, the year of the *Challenger* tragedy and the year when the Congress added full funding for a new orbiter.

Mr. President, I would ask unanimous consent that a table showing this relationship be printed in the RECORD.

(The material requested to be printed in the RECORD is not reproducible.)

Mr. HOLLINGS. Mr. President, I also ask unanimous consent that a table that depicts the budget requirements for a variety of space spectaculars be printed in the RECORD.

(The material requested to be printed in the RECORD is not reproducible.)

Mr. HOLLINGS. Mr. President, as you can see in the NASA budget option table, the cost of implementing a Mars base, a lunar base and the mission to planet Earth will be substantial. As you also can see in this table, there is a considerable gap between where we are today, slightly above the CBO baseline for fiscal year 1990, and the funding requirements of these grand initiatives. As a matter of fact, there are some of us who worry we will not be able to find the resources in the future to fund the core NASA program of currently ongoing activities including the space station.

Mr. President, the fact of the matter is that if we want to turn the dreams of the Paine Commission, the Ride Report, and the Bush initiative into realities, it is going to take an almost incomprehensible increase in the NASA budget. If we are going to make the space station and Mission to Planet Earth a reality, it is going to take a substantial budget increase.

Mr. President, the fiscal year 1990 NASA authorization bill identifies the minimum fiscal year 1990 budget requirements of NASA. It tells us what we should be doing. I would hope that the Members of the Senate would support this measure, and I would hope that next year the Members of the Senate will work with me, the distinguished chairman of the subcommittee, and other Members of Congress to increase funding for science, technology, and space in the budget resolution and in the 302(b) allocation to the Appropriations Committee. The simple fact of the matter is that you can't get there from here, and we have a long way to go if we are going to implement this program and if we are going to retain our leadership in space.

Mr. DANFORTH. Mr. President, I am pleased to support S. 916, the 1990 NASA authorization. This legislation authorizes $13.2 billion for NASA in fiscal year 1990, thus providing the full amount of the President's budget request. This funding level represents an increase of approximately 20 percent over last year's NASA budget.

The Commerce Committee's support of the President's budget request reflects its belief that NASA must have adequate funding to continue its important mission to explore outer space, expand man's presence in the solar system, and produce technological breakthroughs which enhance the quality of life.

Mr. President, this is a landmark juncture in the history of our space program. On July 20, President Bush declared his commitment to a lunar base and a manned mission to Mars. This bold mandate has given our space program an exciting new direction and purpose. But to realize this distant goal, we must fund NASA's current programs adequately and I believe that S. 916 does just that.

For instance, S. 916 provides the full $2.05 billion requested by the administration for space station "Freedom." The space station will be essential for any planned lunar or Mars mission. The space station will also educate us about man's ability to stay in space for the extended time period necessary to reach Mars. Beyond that, the space station will make possible challenging space science experiments, space com-

mercialization opportunities, and advanced technologies with promising spinoff potential. The space station also provides an opportunity for the United States to join with Europe, Canada, and Japan in demonstrating to the world how countries can combine forces ambitious civil space projects.

Mr. President, I am also pleased that S. 916 provides the full $127 million requested by the President for the National Aerospace Plane [NASP]. I am convinced that NASP is the future of aeronautical technology. It is amazing to contemplate a plane capable of taking off from a conventional runway, accelerating into low orbit at mach 25, and then landing on a conventional runway. NASP will produce dramatic advances in commercial aviation, the space program, and our national defense. With Japan, Germany, and the U.S.S.R. racing to develop their own space planes, we must provide NASP with maximum support or will find ourselves on the ground gazing up at the hypersonic transports of other countries. As NASP struggles for survival in the appropriations process, this authorization sends a clear signal that the Commerce Committee considers NASP a national priority.

Mr. President, I am pleased to note that this legislation authorizes several new starts. Prime among these are the Comet Rendezvous-Asteroid Flyby CRAF and Cassini space science missions. The CRAF mission will send an analytical probe into a comet and provide a closeup observation of an asteroid. The Cassini mission will send an orbiter to Saturn to analyze its atmosphere, rings, and Moons. I expect these missions to have the same success as the Voyager mission and thereby reaffirm U.S. dominance in solar system exploration.

Finally, Mr. President, S. 916 provides full funding for Mission to Planet Earth and instructs NASA to complete the design phase and move to initiate the program. Mission to Planet Earth is part of a larger U.S. Global Change Research Program to evaluate the dynamics of the Earth's atmosphere and surface. With global warming and ozone depletion threatening the future of mankind, Mission to Planet Earth will give us the important information necessary to develop strategies for stopping or reversing these kinds of alarming global trends.

Mr. President, S. 916 gives us a strong space program. This is imperative to the Nation's future. By exploring the universe, the planets, and other bodies, we learn how the Earth evolved, how it operates, and what the future holds for us. In addition, if the past is prelude, the space program can be expected to produce countless functional spinoffs just as earlier space initiatives gave us Velcro, Teflon, pacemakers, and microminiature computers.

Mr. President, for the future of our space station, I urge my colleagues to join me in supporting S. 916.

Mr. PRESSLER. Mr. President, I strongly urge adoption of the NASA authorization bill S. 916 for fiscal year 1990. The bill authorizes $13.2 billion for NASA, which was the funding level requested by the President.

I believe that adequate funding for NASA is critical to enable it to carry out its important missions. This is especially true now in light of President Bush's recently announced plan for a lunar base and a manned mission to Mars. Our Space Program helps us unlock the secrets of the universe, gathering information about Earth's origins, the dynamics of its surface and atmosphere, and the future of mankind. It also extends man's presence in the solar system—an extension of the pioneering spirit that founded this country. Equally important is the way in which the program has traditionally lead to technological spinoffs that have enhanced our quality of life. Modern water filtration systems, pacemakers, miniature computers were all outgrowths of the NASA Space Program.

Some of the programs authorized by the bill deserve special mention. The bill directs NASA to complete the design phase of Mission to Planet Earth and initiate the program this fiscal year. Scientists tell us that global warming, ozone depletion, and other adverse global trends may result in an ecological crisis within the next 50 years. Mission to Planet Earth will employ orbiting platforms, as well as suborbital and ground-based instruments, to gather critical data about the processes underlying these global trends and thus enable policymakers to fashion remedies. The data from the space elements of Mission to Planet Earth will be received, processed, and archived in a central ground-based facility accessible to global change scientists all over the world. I am pleased that the bill enables NASA to take a lead role in heading off global disaster.

This legislation provides $2.05 billion for the space station—the full amount requested by the President. With the administration's commitment to a mission to Mars, expedited development of the space station will be needed for an operational base for that effort. But beyond its role in the Mars mission, the space station will provide useful data about man's ability to live and perform rules duties in space for extended periods. Further, it will permit microgravity and other scientific experiments only possible in outer space. I also believe that the cooperation of our foreign partners in developing the station's structure will hopefully pave the way for future joint ventures in space. But this will only happen if the United States honors its commitment to its space station partners, who have already invested millions in the project.

From the perspective of the Commerce Committee, the bill also gives appropriate support for the fledgling space commercialization effort in the United States. Space is the next international marketplace. Its economic potential is limitless. This fact is not lost on spacefaring countries like France, Japan, and Germany. France's commercial remote sensing service and commercial launch industries give us some indication of the business opportunities in space. By contrast, Landsat is not expected to become self-sufficient until after the year 2000 and our commercial launch industry is still in its infancy.

We have a long way to go in space commerce. For this reason, I am pleased that S. 916 fully funds both NASA's Office of Commercial Programs and the Department of Transportation's Office of Commercial Transportation. Both offices are mandated to promote and develop domestic space opportunities. The bill also addresses the problem of our commercial launch efforts being undercut by predatory pricing by nonmarket economy countries. to that end, this legislation bars the export of United States satellites for launch on Soviet rockets. It is imperative that the United States become competitive in the space market. If it does not, France, Japan and others will preempt this fertile area before our industry ever gets off the ground.

I am mindful that the final appropriations legislation for NASA will be less than the funding level we have authorized in S. 916. That is a function of fiscal realities and NASA having to compete with equally worthwhile programs in housing and veterans benefits falling under the jurisdiction of the same Appropriations subcommittee. However, Commerce Committee believes that the funding level herein authorized is necessary for NASA to accomplish its important missions that have traditionally enhanced the quality of life and the breadth and depth of our understanding.

Accordingly, I strongly support S. 916 as an investment in the future of mankind.

AMENDMENTS NOS. 1095, 1096, AND 1097

Mr. MITCHELL. Mr. President, I send three amendments to the desk, en bloc, in behalf of Senator GORE, and I ask for their immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maine [Mr. MITCHELL] for Mr. GORE, proposes amendments numbered 1095, 1096, and 1097, en bloc.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT NO. 1095

On page 31, at the end of line 21, insert the following: "None of the NASA Small Business Innovation Research Program funds may be used for travel or civil service salaries."

AMENDMENT NO. 1096

On page 32, line 19, delete the "." and insert the following: ": *Provided*, That the National Space Council shall reimburse other agencies for not less than one-half of the personnel compensation costs of individuals detailed to it.

SEC. 302. Not more than six individuals may be employed by the National Space Council without regard to any provision of law regulating the employment or compensation of persons in the government service, at rates not to exceed the rate of pay for Level VI of the Senior Executive Schedule, as provided pursuant to section 5382 of title 5, United States Code.

SEC. 303. Section 5314 of title 5, United States Code is amended by adding at the end thereof.

"EXECUTIVE SECRETARY, NATIONAL SPACE COUNCIL

SEC. 304. The National Space Council may, for the purposes of carrying out its functions employ experts and consultants in accordance with section 3109 of title 5, United States Code, and may compensate individuals so employed for each day (including travel time) at rates not in excess of the maximum rate of pay for grade GS-18 as provided in section 5332 of title 5, United States Code.

SEC. 305. (1) The National Space Council is requested to initiate a review of United States launch policy including the Nation's expendable launch vehicle and satellite industries, their current and projected markets, the existing and projected level of foreign competition in these industries, the extent and level of support from foreign governments in these markets and industries, the consequences of the entry of nonmarket providers of launch services and satellites into the world market, restrictions on the use of foreign launch services and the export of United States satellites, and the importance of the United States launch vehicle and satellite industry to the national and economic security.

(2) The findings of this review and any policy recommendations are to be submitted to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation in the Senate by August 1, 1990.

AMENDMENT NO. 1097

On page 32, immediately after line 19, insert the following:

TITLE IV—NATIONAL SPACE GRANT COLLEGE AND FELLOWSHIP PROGRAM

SEC. 401. Section 203(1) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 U.S.C. 2486(a)(1)) is amended by inserting "and undergraduate" immediately after "graduate".

SEC. 402. Section 209(a) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 U.S.C. 2486g(a)) is amended by inserting "and undergraduate" immediately after "graduate".

AMENDMENT NO. 1095

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, the amendment is meant to clarify the committee's intent in section 108 of the bill that addresses the Small Business Innovation Research [SBIR] Program.

This amendment, suggested by the senior Senator from New Hampshire, incorporates into the bill language that is currently contained in the committee report. This language indicates that NASA may not use any of the SBIR Program funds for travel or civil service salaries.

Mr. President, I urge the Senate accept this amendment.●

AMENDMENT NO. 1096

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, the proposed amendment pertains to the National Space Council and gives it certain administrative authorities that are required for the Council to fulfill its mission. It designates the executive secretary position at the Council to be an Executive Level III slot and indicates that not more than six individuals may be employed at the Council at pay rates not to exceed Executive Level VI. Members will recall Public Law 100-685 that established the National Space Council limited the total number of staff slots at the Council to seven. The amendment also gives the Council the authority to hire experts and consultants.

I might note that some members of the committee have some reservations about this latter provision because of recent press accounts about "potential" candidates for these slots and because of concern about the appropriate role and responsibility of the National Space Council. The committee, therefore, will keep a close eye on the use of this authority.

The committee fought long and hard to establish the National Space Council and to raise the visibility of space matters in the White House. And the committee intends to support the Council and to make it work because the committee sees that it is in the national interest. However, I am concerned that recent National Space Council policy statements were not followed up with detailed budget requests and visible support on Capitol Hill. I also am concerned to understand that the staff of the National Space Council, as part of the Moon/Mars review, is initiating its own comprehensive review of the NASA technical proposal institutional issues, and alternative financing proposals. There are important matters and issues that require a thorough review. However, I do not believe the staff of the National Space Council is equipped to handle these issues nor do I believe the Council was established to undertake such matters. I would prefer to see the Council working on near-term policy matters and budget issues. We need a lot of White House support with these matters.

At the same time, section 305 of this amendment requests the National Space Council to thoroughly review the Nation's space launch policy and to submit its findings and policy recommendations to the Congress by August 1, 1990.

Mr. President, having expressed these reservations, I urge that the amendment be approved.●

AMENDMENT NO. 1097

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, when the Congress enacted the National Space Grant College and Fellowship Program in Public Law 100-147, it appears that we created a degree of ambiguity as to the eligibility of undergraduate and graduate schools to participate in the program. To correct this problem, the proposed amendment will insert the word "undergraduate" in the appropriate places in the act so that it reads "undergraduate and graduate."

I should note that NASA recently designated 17 universities and consortia as "Designated Space Grant Colleges/Consortia," which gets this program off to an excellent start.

Mr. President, I recommend the Senate accept this provision.●

The PRESIDING OFFICER. The question is on agreeing to the amendment, en bloc.

The amendments (Nos. 1095, 1096, and 1097) were agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the amendments were agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1098

Mr. MITCHELL. Mr. President, I send an amendment to the desk on behalf of Senators GORE, HOLLINGS, and METZENBAUM, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maine [Mr. MITCHELL] for Mr. GORE, (for himself, Mr. HOLLINGS,

and Mr. METZENBAUM), proposes an amendment numbered 1098.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike all on page 29, line 11, through page 30, line 24.

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, the amendment that I am proposing is cosponsored by the distinguished chairman of the Senate Committee on Commerce, Science, and Transportation, Senator HOLLINGS, and the distinguished Senator from Ohio [Mr. METZENBAUM].

The amendment would delete the privately financed facility projects language, section 105, of S. 916, as reported by the Commerce Committee.

Mr. President, for the past few years, the Subcommittee on Science, Technology, and Space has struggled with private financing schemes that were proposed for NASA by the Office of Management and Budget. After many hours of review and many years of consternation, I now am convinced that these initiatives just will not work.

As most of the Members know, the subcommittee was recently forced to withdraw its request for consideration of S. 663, the contingent liability bill for the advanced solid rocket motor facility, because of the degree of opposition in the Senate to a private financing scheme that was not available for other high priority projects and was described by some as costing the Federal Government more than the traditional Government procurement process. I am pleased to say that thanks to the cooperation of the distinguished chairman of the VA, HUD, and Independent Agencies Appropriations Subcommittee that project has been funded as a Government-owned facility in the fiscal year 1990 VA, HUD, and independent agencies appropriations bill, H.R. 2916. However, the ASRM facility debate turned out to be only the tip of the iceberg as regards private financing for NASA programs.

With respect to private financing in general, committee members have expressed reservations about the administration's private financing scheme for the seven projects proposed in fiscal year 1990. Nevertheless, the committee pursued the private financing option to try to ensure the development of much needed facilities and technologies at a time of severe budgetary pressures. However, the facts now are very clear—private financing will not work. The economies of scale and economic efficiency gains that were promised by OMB do not exist. Quite frankly, there is little or no interest in the private sector to get into the business if such economies or efficiencies are required.

To illustrate this, Mr. President, at this point I would ask unanimous consent that a letter to the committee from Adm. Richard Truly, the Administrator of NASA, dated October 23, 1989, concerning NASA's assessment of the feasibility of private financing be inserted in the RECORD. I also would ask unanimous consent that a technical memorandum prepared for the committee by the Congressional Budget Office be submitted in the RECORD at this time.

Mr. President, as the Members can see from both of these documents, it takes a unique set of circumstances and conditions to make private financing a winner for the Federal Government. While some clever budgeteers at OMB might like to think these circumstances and conditions exist, it now is clearer than ever to the committee that they don't. It also is clear to the committee that OMB did not go out of its way to assess the feasibility of these private financing proposals before they were submitted to the Congress. I think one could easily make the case that these proposals were just another element of the budget game that goes on each and every year—support everything but don't provide the funding. Hopefully, the new Director of OMB will establish higher standards for the budget submissions that are formulated on his watch.

It is clear to me that if NASA is to have a neutral buoyancy tank, a space station processing facility, or an observational instrument laboratory, the Federal Government is going to be required to pay for these facilities. There is no rich uncle when it comes to Federal facilities, and it is time for OMB to realize that. It also is time for OMB to realize that the success of the Civil Space Program is not just a measure of the level of funding that one gets for research and development. The construction of facilities and the research and program management budgets are important elements of the Civil Space Program, and implementation of the Space Station Program and the Mission to Planet Earth will require significant augmentations in these accounts.●

Mr. METZENBAUM. Mr. President, I am pleased to join my distinguished colleagues in offering an amendment to strike those provisions in the NASA reauthorization bill dealing with private financing for three NASA projects.

It is no secret that I have been an outspoken critic of such private financing arrangements. They subvert the budget process and generally cost the Government—that is, the taxpayers—more than if we paid for the projects directly through the Treasury. That is because these deals typically involve borrowing money from private lenders at interest rates which are higher than Federal financing.

If a project is truly meritorious we should fund it up front through the Treasury. We should count it on the budget. We should not succumb to the temptation that private financing presents.

Our Space Program is an important one. I look forward to working with my distinguished colleagues in finding ways to provide funding for those projects which can improve and strengthen the program.

Mr. HOLLINGS. Mr. President, I thank the distinguished subcommittee chairman, and I would like to indicate that I fully endorse his remarks. The success of the Civil Space Program requires more than gamesmanship and budget gimmicks; it requires the commitment of the administration and the Congress to the people, facilities, and budgetary resources that are required. We learned the hard way that you cannot operate a space program on the cheap. The Space Program already presents enough risks without budgeting gimmicks adding to those risks.

Mr. President, over the course of the last few years, I have waged many a battle with OMB over their private financing schemes for Landsat, expendable launch vehicles and the commercially developed space facility. I think the time has come to end these games, to provide the funds required to implement the Civil Space Program, and to put the focus of the debate on the issues that deserve it—for example, the space station and space science programs of NASA including the Mission to Planet Earth.

The Truly letter, previously mentioned by the subcommittee chairman, further illustrates that private finacing will not work. It states that

"In view of the responses and comments received on the draft RFP's, coupled with the restrictions contained in the pending fiscal year 1990 legislation, that is, that the project must result in net cost savings, it is NASA's assessment that private sector investment in these projects is not feasible."

Thus, I support this amendment, and I thank the Senator from Ohio for constantly questioning the logic of these financing schemes and the assumed cost savings.

Furthermore, I would recommend that NASA and OMB include a funding request for these projects in the fiscal year 1991 NASA budget request. I will work with the Agency to ensure Federal funding for these projects in fiscal year 1991, but I am no longer willing to try to secure private financing. It's time to acknowledge our mistake and to correct it. It's time to indicate that our experiment has failed and that the conditions do not yet

exist to support private financing initiatives for NASA programs.

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, I would like to thank the Senator from Ohio for his comments and the Senator from South Carolina for his assistance in this matter.

Mr. President, I urge that this amendment be accepted.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1098) was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENTS NOS. 1099, 1100, 1101, 1102, 1103, 1104, 1105, AND 1106

Mr. MITCHELL. Mr. President, I send a series of technical amendments to the desk, en bloc, on behalf of Senators HOLLINGS and GORE, and ask for their immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maine [Mr. MITCHELL] for Mr. HOLLINGS (for himself and Mr. GORE) proposes amendments numbered 1099, 1100, 1101, 1102, 1103, 1104, 1105, and 1106, en bloc.

AMENDMENT NO. 1099

On page 17, line 18, delete "$894,500,000" and insert in lieu thereof "$903,500,000".

AMENDMENT NO. 1100

On page 18, line 6, delete "$625,500,000" and insert in lieu thereof "$631,500,000".

AMENDMENT NO. 1101

On page 19, line 14, delete "$35,000,000" and insert in lieu thereof "$38,000,000".

AMENDMENT NO. 1102

On page 19, line 25, delete "$1,305,300,000" and insert in lieu thereof "$1,340,300,000".

AMENDMENT NO. 1103

On page 24, line 8, delete "$2,032,200,000" and insert in lieu thereof the following: "$2,049,200,000".

AMENDMENT NO. 1104

On page 24, immediately after line 4, insert the following:

(38) Construction of the Advanced Solid Rocket Motor Facility, Yellow Creek, Mississippi, $90,000,000.

(39) Construction of a Space Station Orbital Debris Radar Facility, $15,000,000.

(40) Construction of a Wake Shield Facility, $2,500,000.

AMENDMENT NO. 1105

On page 32, immediately after line 3, insert the following new sections:

FUNDING FOR SPACE SHUTTLE STRUCTURAL SPARES

SEC. 110. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the first year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space shuttle structural spares.

FUNDING FOR EXTENDED DURATION ORBITER DEVELOPMENT

SEC. 111. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for continued development of an extended duration orbiter.

FUNDING FOR SPACE TRANSPORTATION SYSTEM

SEC. 112. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space transportation system requirements.

AMENDMENT NO. 1106

On page 20, line 2, after the word "motor" insert the following: ", of which $35,000,000 is authorized only for tooling and equipment associated with the Advanced Solid Rocket Motor Facility authorized in subsection (c)(38) of this section,".

AMENDMENTS NOS. 1099 THROUGH 1103

Mr. HOLLINGS. Mr. President, on October 31, 1989, the House of Representatives agreed to an amendment of the Senate, and the fiscal year 1990 VA-HUD-independent agencies appropriations bill, H.R. 2916, was cleared for signature by the President. This appropriations bill contains $12.4 billion for NASA in fiscal year 1990, in addition to funding for other agencies. Today, after several delays, the Senate finally has before it the fiscal year 1990 NASA authorization bill, S. 916, that also addresses the budget requirements of NASA. I regret that this bill has not been considered by the Senate before now, but this has been a difficult year for this bill in light of questions surrounding private financing mechanisms.

In light of the fact the appropriations bill that funds NASA has already passed the Senate, I thought that it made good sense to offer a series of amendments today to increase the levels of funding prescribed in the authorization bill to those in the appropriations bill in those few cases where the appropriations bill does or could exceed the authorization bill. In particular, this includes physics and astronomy, space applications, university academic programs, space shuttle production and operational capability, and research and program management. As the Members know, I have worked closely with the Senator from Maryland on the NASA and National Science Foundations portions of the VA-HUD-independent agencies appropriations bill, and I think that at this point in the process, it makes sense to make these adjustments.

Normally, I would suggest that we wait until the NASA bill was in conference and then adjust the spending levels in the bill to the NASA operating plan levels, except in those cases where the Members feel NASA needs; First, increased flexibility; second, more funding to meet program requirements; or third, a signal as to areas they should be funding. However, this year, it appears that the Congress could adjourn before the operating plan is available. Therefore, I would like to make these minor adjustments with the expectation that the final authorization bill would not underfund any of the already appropriated programs.

Mr. President, I urge that these amendments be accepted en bloc.

AMENDMENTS NOS. 1104 THROUGH 1106

Mr. HOLLINGS. Mr. President, there were three other provisions in the fiscal year 1990 VA-HUD-independent agencies appropriations bill that require a change in the fiscal year 1990 authorization bill.

In particular, the authorization must include an authorization of appropriations for three facilities that were included in the appropriations bill. One of these facilities, the advanced solid rocket motor facility, was not included in the fiscal year 1990 NASA authorization bill because the committee thought that the private financing scheme contained in S. 663 would prove fruitful. However, it did not, and the Appropriations Committee was gracious enough to include funding for this facility in their bill.

The other two facilities, the wake shield facility and the space station orbital debris radar facility, are both included in the fiscal year 1990 NASA authorization bill in the research and development portions of the bill. However, the Appropriations Committee was correct in including these facilities as new line items in the construction of facilities account.

The first amendment in this package takes care of these three items.

Furthermore, the committee agrees with the Appropriations Committee that $75 million of prior year unobligated orbiter production funds should be used to fund space shuttle structural spares, an extended duration orbiter and additional space transportation operational activities. The committee, therefore, has authorized $25 million for each of these activities in the second amendment.

Finally, the last amendment in this package earmarks $35 million in the space shuttle production and operational capability account for the tool-

ing and equipment associated with the advanced solid rocket motor facility. As was the case with the authorization for the facility, the committee did not originally include money for tooling and equipment in the space flight budget because it assumed these expenses would be part of the privately financed portion of the program.

Mr. President, the intent of these amendments is once again to conform the fiscal year 1990 NASA authorization bill to the basic provisions of the fiscal year 1990 VA-HUD-independent agencies appropriations bill. Unfortunately, there will still be many more issues that will require consideration by the House and the Senate as we strive to finalize the final bill for fiscal year 1990. But making these few adjustments is important and will go a long way in making the fiscal year 1990 authorization and appropriations bills consistent.

Mr. President, I move that these amendments be accepted en bloc.

The PRESIDING OFFICER. The question is on agreeing to the amendments.

The amendments (Nos. 1099, 1100, 1101, 1102, 1103, 1104, 1105, and 1106) were agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the amendments were agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

(By request of Mr. MITCHELL, the following statement was ordered to be printed in the RECORD.)

● Mr. GORE. Mr. President, before final consideration of S. 916, let me indicate that we stand at a critical juncture in the U.S. Civil Space Program. With the return to flight of the space shuttle, we are back in space. But we have yet to decide to what extent.

Despite the fact the Space Station Program has survived another budget threat, the Congress has yet to give NASA the resources—the people, the dollars, or the facilities—required to implement this program, and we have needlessly concerned our partners and allies over our commitment to the Space Station Program. Most recently, NASA was forced to reassess the content and schedule of the Space Station Program due to the reduction of the fiscal year 1990 space station budget request by the House Appropriations Committee. This reassessment has brought a new-found reality to the Space Station Program, but it also has resulted in a rephasing of the program that further delays some critical milestones and delays the incorporation of needed capabilities. The good news is that the rephasing confirms the merit of the space station configuration. The bad news is, 6 years into the program we are still debating the cost and configuration. Quite frankly, the time has come to quit talking and to start building.

Mr. President, during the rephasing study, NASA was forced to eliminate some of the program content in order to minimize the schedule impacts. I am pleased to say that the final proposal includes adequate power levels, crew size, and data management systems.

However, the most recent proposal also includes a slip of 2 years in the deployment of the space station polar platform, the first element of a comprehensive Mission to Planet Earth. This is very troubling to me and other Members of the committee and Congress who actively support this initiative and who believe that the data from this and other space-based systems will substantially improve our knowledge about the fragile planet Earth. I intend to pursue this matter with NASA aggressively, and I intend to work to ensure the initiation of the Mission to Planet Earth and a comprehensive U.S. Global Change Research Program as soon as possible.

Mr. President, the environmental crisis that faces the United States and the world is a threat to our national and economic security, and we must not wait to address these problems. The time to act was yesterday, and we cannot in good conscience justify any further delays.

Mr. President, when I was first made the chairman of the Subcommittee on Science, Technology, and Space, I asked the staff what the primary issues were likely to be in the 101st Congress. The answer was budget, budget, and budget. The problem is, we have failed to date to correct the budget problem, and as a result programs in NASA and other federal agencies have been adversely affected. It is critical that this trend be corrected. It is critical that we provide the necessary resources to implement the Space Station and Mission to Planet Earth Programs in an orderly and predictable manner.

Mr. President, I believe that next year will be critical to the future of the Civil Space Program. And I believe the Congress will need to do three things next year in order to signal to the world that we are committed to retaining our leadership in space in deed as well as in rhetoric.

First, the Congress and the administration must provide the necessary resources to implement the ongoing NASA programs. The budget resolution, the 302(b) allocations and the authorization and appropriations bills must contain the funds required to meet our commitments.

Second, there must be a multiyear appropriation for the Space Station Program. I am convinced that if we fail to provide multiyear funding for this program that we will continue to reassess the content and schedule of the program due to budget pressures, and we will further alienate our partners and allies in this program. The United States has signed agreements with the European Space Agency, Canada, and Japan, and we have given our commitment to the American people. I intend to work to make sure that we honor these agreements and that the space station becomes a reality.

Finally, we must initiate a well designed and responsible Mission to Planet Earth. We need to have in place a program that will provide good scientific data in a reasonable timeframe, and we need to have in place a data management system that will facilitate the dissemination and utilization of this data.

Mr. President, the challenges that face the Civil Space Program are great. But I am convinced that the Nation and the Congress will support the Civil Space Program and that the United States will continue to retain its leadership in space. The race for space is a race for the markets and technologies of tomorrow. It is a race that we must run, and it is a race that we cannot afford to lose.

Mr. Preisdent, I move for immediate consideration of S. 916, the fiscal year 1990 NASA authorization bill, and I would hope that the Senate would strongly endorse this bill as a sign of its commitment to the Civil Space Program.●

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 916

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Aeronautics and Space Administration Authorization Act, Fiscal Year 1990".

TITLE I—FISCAL YEAR 1990 NASA AUTHORIZATION

NASA AUTHORIZATION

SEC. 101. (a) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Research and development", for the following programs:

(1) Space Station Freedom, $2,050,200,000, of which $80,000,000 is authorized only for development of the flight telerobotic servicer.

(2) Space transportation capability development, $635,500,000, of which $6,000,000 is authorized only for the Advanced Communications Technology Satellite upper stage

development, plus such additional funds as may be transferred to the Administration from any other agency pursuant to a fiscal year 1990 appropriations Act.

(3) Physics and astronomy, $903,500,000, of which $25,000,000 is authorized only for the Gravity Probe B space shuttle flight experiment.

(4) Life sciences, $122,700,000.

(5) Planetary exploration, $396,900,000, of which $30,000,000 is authorized only for the CRAF and CaSSINI missions if a cost containment plan is formulated for those missions and submitted to the Committee on Commerce, Science, and Transportation of the Senate, to the Committee on Science, Space, and Technology of the House of Representatives, and to the Committees on Appropriations of the Senate and House of Representatives.

(6) Space applications, $631,500,000, of which $62,000,000 is authorized only for the Advanced Communications Technology Satellite and $10,000,000 is authorized only for the Total Ozone Mapping Spectrometer.

(7) Earth Observing System of Mission to Planet Earth, $24,200,000 in order to complete Phase B activities and to initiate Phase C/D of this program in fiscal year 1990.

(8) Technology utilization, $22,700,000.

(9) Commercial use of space, $38,300,000.

(10) Aeronautical research and technology, $462,800,000, of which $25,000,000 is authorized only for the initiation of the environmental technologies research required for a high speed commercial transport and $10,000,000 is authorized only for the initiation of a high performance computer initiative.

(11) Transatmospheric research and technology, $127,000,000 if a new National Aerospace Plane management plan is submitted to the Committee on Commerce, Science, and Transportation and Committee on Armed Services of the Senate and to the Committee on Science, Space, and Technology and Committee on Armed Services of the House of Representatives within 60 days after the date of enactment of this Act.

(12) Space research and technology, $325,100,000.

(13) Safety, reliability, maintainability, and quality assurance, $23,300,000.

(14) Tracking and data advanced systems, $19,900,000.

(15) University Space Science and Technology Academic Program, $38,000,000, of which $5,000,000 is authorized only for the National Space Grant College and Fellowship Program.

Notwithstanding paragraphs (1) through (15), the total amount authorized by this subsection shall not exceed $5,786,600,000.

(b) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Space flight, control and data communications", for the following programs:

(1) Space shuttle production and operational capability, $1,340,300,000, of which $121,300,000 is authorized only for development of an advanced solid rocket motor, of which $35,000,000 is authorized only for tooling and equipment associated with the Advanced Solid Rocket Motor Facility authorized in subsection (c)(38) of this section, and of which such sums as may be necessary are authorized to ensure a safe, reliable space shuttle and an extended duration orbiter capability.

(2) Space transportation operations, $2,732,200,000.

(3) Space and ground network, communications and data systems, $1,077,100,000.

Notwithstanding paragraphs (1) through (3), the total amount authorized by this subsection shall not exceed $5,104,600,000.

(c) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Construction of facilities", including land acquisition, as follows:

(1) Construction of addition for Space Systems Automated Integration and Assembly Facility, Johnson Space Center, $10,500,000.

(2) Construction of addition to Mission Control Center, Johnson Space Center, $17,800,000.

(3) Construction of addition to Simulator/Training Facility, Johnson Space Center, $3,800,000.

(4) Modifications for Expanded Solar Simulation, Johnson Space Center, $2,000,000.

(5) Modifications of Process Technology Facility for Space Station, Marshall Space Flight Center, $4,000,000.

(6) Replacement of Cooling Towers, Launch Complex 39 Utility Annex, Kennedy Space Center, $4,600,000.

(7) Replacement of Launch Complex 39, Pad A Chillers and Controls, Kennedy Space Center, $1,200,000.

(8) Replacement of Roofs, Launch Complex 39, Kennedy Space Center, $11,000,000.

(9) Replacement of Vehicle Assembly Building Air Handling Units, Kennedy Space Center, $1,800,000.

(10) Upgrading of Orbiter Modification and Refurbishment Facility to Orbiter Processing Facility 3, Kennedy Space Center, $26,000,000.

(11) Modifications of High Pressure Industrial Water System, Stennis Space Center, $2,000,000.

(12) Replacement of High Pressure Gas Storage Vessels, Stennis Space Center, $3,000,000.

(13) Construction of natural resource protection at various locations, $3,800,000.

(14) Refurbishment of bridges, Merrit Island, Kennedy Space Center, $4,500,000.

(15) Rehabilitation of Spacecraft Assembly and Encapsulation Facility II, Kennedy Space Center, $3,500,000.

(16) Rehabilitation of Central Heating/Cooling Plant, Johnson Space Center, $2,800,000.

(17) Construction of Data Operations Facility, Goddard Space Flight Center, $12,000,000.

(18) Construction of Quality Assurance and Detector Development Laboratory, Goddard Space Flight Center, $7,500,000.

(19) Modernization of South Utility Systems, Jet Propulsion Laboratory, $5,400,000.

(20) Construction of 40 x 80 Drive Motor Roof, Ames Research Center, $1,000,000.

(21) Modifications to Thermo-Physics Facilities, Ames Research Center, $4,600,000.

(22) Modifications to 14 x 22 Subsonic Wind Tunnel, Langley Research Center, $1,000,000.

(23) Modifications to National Transonic Facility for Productivity, Langley Research Center, $7,600,000.

(24) Modifications to 20-Foot Vertical Spin Tunnel, Langley Research Center, $1,900,000.

(25) Rehabilitation of Central Air Systems, Lewis Research Center, $2,400,000.

(26) Rehabilitation of Central Refrigeration Equipment, Lewis Research Center, $7,200,000.

(27) Rehabilitation of 8 x 6 Supersonic and 9 x 15 Low-Speed Wind Tunnels, Lewis Research Center, $6,800,000.

(28) Rehabilitation of Hypersonic Tunnel, Plum Brook, $4,100,000.

(29) Repair and Modernization of the 12-Foot Pressure Wind Tunnel, Ames Research Center, $27,600,000.

(30) Construction of Automation Sciences Research Facility, Ames Research Center, $10,600,000.

(31) Construction of Supersonic/Hypersonic Low Disturbance Tunnel, Langley Research Center, $6,900,000.

(32) Modifications for Seismic Safety, Goldstone, California, Jet Propulsion Laboratory, $2,600,000.

(33) Repair of facilities at various locations, not in excess of $750,000 per project, $28,000,000.

(34) Rehabilitation and modification of facilities at various locations, not in excess of $750,000 per project, $36,000,000.

(35) Minor construction of new facilities and additions to existing facilities at various locations, not in excess of $500,000 per project, $10,000,000.

(36) Environmental compliance and restoration, $30,000,000.

(37) Facility planning and design not otherwise provided for, $26,300,000.

(38) Construction of the Advanced Solid Rocket Motor Facility, Yellow Creek, Mississippi, $90,000,000.

(39) Construction of a Space Station Orbital Debris Radar Facility, $15,000,000.

(40) Construction of a Wake Shield Facility, $2,500,000.

(d) There are authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Research and program management", $2,049,200,000.

(e) There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1989, for "Inspector General", $8,795,000.

(f) Notwithstanding the provision of subsection (i), appropriations authorized in this Act for "Research and development" and "Space flight, control and data communications" may be used (1) for any items of a capital nature (other than acquisition of land) which may be required at locations other than installations of the National Aeronautics and Space Administration for the performance of research and development contracts, and (2) for grants to nonprofit institutions of higher education, or to nonprofit organizations whose primary purpose is the conduct of scientific research, for purchase or construction of additional research facilities; and title to such facilities shall be vested in the United States unless the Administrator of the National Aeronautics and Space Administration (hereinafter referred to as the "Admininstrator") determines that the national program of aeronautical and space activities will best be served by vesting title in any such grantee institution or organization. Each such grant shall be made under such conditions as the Administrator shall determine to be required to ensure that the United States will receive therefrom benefit adequate to justify the making of that grant. None of the funds appropriated for "Research and development" and "Space flight, control and data communications" pursuant to this Act may be used in accordance wtih this subsection for the construction of any major facility, the estimated cost of which, including collateral equipment, exceeds $500,000, unless the Administrator or the Administra-

tor's designee has notified the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives of the nature, collection, and estimated cost of such facility.

(g) When so specified and to the extent provided in appropriations Acts, (1) any amount appropriated for "Research and development", for "Space flight, control and data communications", or for "Construction facilities" may remain available without fiscal year limitation, and (2) contracts may be entered into under the "Research and program management" appropriation for maintenance and operation of facilities and for other services for periods not in excess of 12 months beginning at any time during the fiscal year.

(h) Appropriations made pursuant to subsection (d) may be used, but not to exceed $35,000, for scientific consultations or extraordinary expenses upon the approval or authority of the Administrator, and the Administrator's determination shall be final and conclusive upon the accounting officers of the Government.

(i)(1) Funds appropriated pursuant to subsections (a), (b), and (d) may be used for the construction of new facilities and additions to, repair of, rehabilitation of, or modification of existing facilities, except that the cost of each such project, including collateral equipment, shall not exceed $100,000.

(2) Funds appropriated pursuant to subsections (a) and (b) may be used for unforeseen programmatic facility project needs, except that the cost of each such project, including collateral equipment, shall not exceed $500,000.

(3) Funds appropriated pursuant to subsection (d) may be used for repair, rehabilitation, or modification of facilities controlled by the General Services Administration, except that the cost of each project, including collateral equipment, shall not exceed $500,000.

ADMINISTRATOR'S REPROGRAMMING AUTHORITY

SEC. 102. Authorization is granted whereby any of the amounts prescribed in section 101(c)(1) through (37)—

(1) in the discretion of the Administrator or the Administrator's designee, may be varied upward by 10 percent, or

(2) following a report by the Administrator or the Administrator's designee to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives on the circumstances of such action, may be varied upward by 25 percent, to meet unusual cost variations.

The total cost of all work authorized under paragraphs (1) and (2) shall not exceed the total of the amounts specified in section 101(c).

SPECIAL REPROGRAMMING AUTHORITY FOR CONSTRUCTION OF FACILITIES

Sec. 103. Where the Administrator determines that new developments or scientific or engineering changes in the national program of aeronautical and space activities have occured; and that such changes require the use of additional funds for the purposes of construction, expansion, or modification of facilities at any locations; and that deferral of such action until the enactment of the next authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities; the Administrator may transfer not to exceed one-half of one percent of the funds appropriated pursuant to section 101 (a) and (b) to the "Construction of facilities" appropriation for such purposes. The Administrator may also use up to $10,000,000 of the amounts authorized under section 101(c) for such purposes. The funds so made available pursuant to this section may be expended to acquire, construct, convert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No such funds may be obligated until a period of 30 days has passed after the Administrator or the Administrator's designee has transmitted to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a written report describing the nature of the construction, its cost, and the reasons therefor.

LIMITATIONS ON AUTHORITY

Sec. 104. Notwithstanding any other provision of this Act—

(1) no amount appropriated pursuant to this Act may be used for any program deleted by the Congress from requests as originally made to either the Committee on Commerce, Science, and Transportation of the Senate or the Committee on Science, Space, and Technology of the House of Representatives;

(2) no amount appropriated pursuant to this Act may be used for any program in excess of the amount actually authorized for that particular program by section 101 (a), (b), and (d); and

(3) no amount appropriated pursuant to this act may be used for any program which has not been presented to either such committee,

unless a period of 30 days has passed after the receipt by each such committee, of notice given by the Administrator or the Administrator's designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

GEOGRAPHICAL DISTRIBUTION

SEC. 105. It is the sense of the Congress that it is in the national interest that consideration be given to geographical distribution of Federal research funds whenever feasible, and that the National Aeronautics and Space Administration should explore ways and means of distributing its research and development funds whenever feasible.

PEACEFUL USES OF SPACE STATION

SEC. 106. No civil space station authorized under section 101(a)(1) of this Act may be used to carry or place in orbit any nuclear weapon or any other weapon of mass destruction, to install any such weapon on any celestial body, or to station any such weapon in space in any other manner. This civil space station may be used only for peaceful purposes.

SMALL BUSINESS INNOVATION RESEARCH PROGRAM

SEC. 107. The Administrator of the National Aeronautics and Space Administration may utilize up to five percent of the funds provided for the Small Business Inovation Research Program for program management and promotional activities. None of the NASA Small Business Innovation Research Program funds may be used for travel or civil service salaries.

EXPORTS OF UNITED STATES-BUILT SATELLITES

SEC. 108. It is the sense of the Congress that the current prohibition on the export of United States-built satellites to the Soviet Union for launch on rockets of the Soviet Union shall continue to be the policy of the United States and that the policy shall be expanded to prohibit the export of United States-built satellites to other nations for launch on rockets of the Soviet Union.

FUNDING FOR SPACE SHUTTLE STRUCTURAL SPARES

SEC. 109. The administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space shuttle structural spares.

FUNDING FOR EXTENDED DURATION ORBITER DEVELOPMENT

SEC. 110. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1987, and for other purposes", approved October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for continued development of an extended duration orbiter.

FUNDING FOR SPACE TRANSPORTATION SYSTEM

SEC. 111. The Administrator is authorized to use up to $25,000,000 of the funds appropriated in section 101(g) of the Joint Resolution entitled "Joint Resolution making continuing apppropriations for the fiscal year 1987, and for other purposes", approved, October 30, 1986 (Public Law 99-591; 100 Stat. 3341-242), for space transportation system requirements.

TITLE II—COMMERCIAL SPACE LAUNCH ACT

AUTHORIZATION FOR SECRETARY OF TRANSPORTATION

SEC. 201. Section 24 of the Commercial Space Launch Act (49 App. U.S.C. 2623) is amended to read as follows:

"AUTHORIZES APPROPRIATIONS

"SEC. 24. There is authorized to be appropriated to the Secretary to carry out this Act $4,392,000 for fiscal year 1990. Sums appropriated for research and development shall remain available until expended.".

TITLE III—NATIONAL SPACE COUNCIL

COUNCIL AUTHORIZATION

SEC. 301. There is authorized to be appropriated to carry out the activites of the National Space Council established by section 501 of the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1989 (42 U.S.C. 2471), $1,200,000 for fiscal year 1990 : *Provided,* That the National Space Council shall reimburse other agencies for not less than one-half of the personnel compensation costs of individuals detailed to it.

SEC. 302. Not more than six individuals may be employed by the National Space Council without regard to any provision of law regulating the employment or compensation of persons in the government service, at rates not to exceed the rate of pay for level VI of the Senior Executive Schedule, as provided pursuant to section 5382 of title 5, United States Code.

SEC. 303. Section 5314 of title 5, United States Code is amended by adding at the end thereof.

"EXECUTIVE SECRETARY, NATIONAL SPACE COUNCIL"

SEC. 304. The National Space Council may, for the purposes of carrying out its functions employ experts and consultants in accordance with section 3109 of title 5, United States Code, and may compensate individuals so employed for each day (including travel time) at rates not in excess of the maximum rate of pay for grade GS-18 as provided in section 5332 of title 5, United States Code.

SEC. 305. (1) The National Space Council is requested to initiate a review of United States launch policy including the Nation's expendable launch vehicle and satellite industries, their current and projected markets, the existing and projected level of foreign competition in these industries, the extent and level of support from foreign governments in these markets and industries, the consequences of the entry of nonmarket providers of launch services and satellities into the world market, restrictions on the use of foreign launch services and the export of United States satellites, and the importance of the United States launch vehicle and satellite industry to the national and economic security.

(2) The findings of this review and any policy recommendations are to be submitted to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation in the Senate by August 1, 1990.

TITLE IV—NATIONAL SPACE GRANT COLLEGE AND FELLOWSHIP PROGRAM

SEC. 401. Section 203(1) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 USC 2486a(1)) is amended by inserting "and undergraduate" immediately after "graduate".

SEC. 402. Section 209(a) of Public Law 100-147, the National Aeronautics and Space Administration Authorization Act of 1988, (42 USC 2486g(a)) is amended by inserting "and undergraduate" immediately after "graduate".

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill as amended, was passed.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

DIRECTING THE SECRETARY OF THE SENATE TO TAKE CERTAIN ACTIONS REGARDING SENATE JOINT RESOLUTION 216

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Secretary be directed to return to the House of Representatives its message informing the Senate that the House has passed the joint resolution (S.J. Res. 216), a joint resolution designating November 12-18, 1989, as "Community Foundation Week," in compliance with a request of the House for the return thereof.

The PRESIDING OFFICER. Without objection, it is so ordered.

VETERANS' DISABILITY COMPENSATION

Mr. MITCHELL. Mr. President, I understand that the veterans' disability compensation bill, Calendar item No. 288, H.R. 1335, has been cleared on this side, and I inquire of the distinguished Republican leader whether that bill has been cleared for action on the Republican side.

Mr. DOLE. It has not yet been cleared for action on this side. We did have a meeting today of all ranking members of committees. The matter was discussed with Senator MURKOWSKI, of Alaska. I think there are still problems so that I cannot clear it at this time.

Mr. MITCHELL. I thank the Senator.

NOMINATIONS

Mr. DOLE. Mr. President, since the beginning of the 101st Congress I have from time to time inserted in the RECORD the status of the Bush administration's nominations that remain in the Senate awaiting confirmation.

According to the Senate executive clerk, he has indicated to me, through staff, that the average length of time which a nomination is confirmed by the Senate once received from the White House is 30 days. With that in mind, I have tried to compile a list of nominations remaining in the Senate awaiting conformation. In fairness to both the majority and the minority, we have holds on some and some are not yet reported, I ask unanimous consent that the list be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. DOLE. To summarize the list, there are now 101 nominations that are in the Senate awaiting confirmation, most of which still need committee action. Of those 101 nominations, 32 have not been in the Senate longer than 30 days. Therefore, in fairness to committee chairmen and others, they will not be included in the total number of nominations that have not, in this Senator's opinion, moved in a timely fashion.

However, there are 69 nominations that have been in the Senate for more than 30 days and have not been confirmed, only two or possibly three of which are being held by a Member on this side of the aisle. If there is any indication we may adjourn in the next week or two, hopefully all these can be cleared. I understand that a large group are in the clearance process now.

I raised this with all Senators in the hope we could expedite the confirmation process so that we can be helpful to these nominees.

Again, I point out, as I have done to colleagues on my this side of the aisle, many of these nominees have families. Many of them are going to have to relocate. Some have relocated. It just seems to me, if there is any way possible—and if we are the problem, we are going to try to resolve it on this side; if the White House is a problem, we are going to try to resolve it there and, hopefully, if the majority is the problem, we will try to resolve it there. I know in one or two cases nominees are being held because there has not been a designation of who should be chairman of, for example, the National Transportation Safety Board, and therefore the other Members of the Board are still being held. I relayed that just moments ago to the President's Chief of Staff, John Sununu, and hopefully, if there are other problems of that kind, they can be resolved.

I want to assure the majority leader that I want to work closely with him in confirming as many of these nominees as possible. I am not making this statement in criticism of anyone. I am just suggesting if, in fact, we may be departing here in the next couple of weeks, I hope that we can expedite wherever possible the nomination process so that these good men and women can be confirmed and do what they need to do as far as their family concerns and starting their job efficiently.

EXHIBIT

NOMINEES AWAITING CONFIRMATION

Name and title	Date nominated
Morton I. Abramowitz, Personal Rank of Career Ambassador.	Oct. 17, 1989.
William P. Albrecht, Commissioner, Commodity Futures Trading Commission.	Aug. 1, 1989.
Martin Lewis Allday, Chairman, Federal Energy Regulatory Commission.	Oct. 17, 1989.
Duane Perry Andrews, Asst. Secretary of Defense	Sept. 8, 1989.
Cresencio S. Arcos, Jr., Ambassador, Republic of Honduras.	Oct. 6, 1989.
Tony Armendariz, Member, Federal Labor Relations Authority.	Sept. 6, 1989.
Bernard W. Aronson, Member, Board of Directors of the Inter-American Foundation.	Oct. 17, 1989.
Richard G. Austin, Administrator of General Services	Oct. 17, 1989.
Pearl Bailey, U.S. Representative, 44th Session of the U.N. General Assembly.	Sept. 26, 1989.
Barbara Everitt Bryant, Director of the Census	Oct. 6, 1989.
Allan V. Burman, Administrator for Federal Procurement Policy.	Oct. 25, 1989.
James E. Cason, Asst. Secretary of Agriculture (Special Services).	May 2, 1989.
Philip Lawrence Christenson, Asst. Administrator of AID (Food for Peace).	Oct. 6, 1989.
Don R. Clay, Asst. Administrator, Office of Solid Waste, EPA.	Oct. 17, 1989.
Hilary P. Cleveland, Member of International Joint Commission.	Nov. 1, 1989.
Brian W. Clymer, Urban Mass Transportation Administrator.	June 16, 1989.
Frances D. Cook, Ambassador, Republic of Cameroon	Oct. 25, 1989.
Susan M. Coughlin, Member, National Transportation Safety Board.	June 21, 1989.
Jerry Ralph Curry, Administrator, National Highway Traffic Safety Administration.	Sept. 6, 1989.
Cindy Shinga Daub, Commissioner of the Copyright Royalty Tribunal.	Sept. 6, 1989.
Edmund DeJarnette, Jr., Ambassador to United Republic of Tanzania.	Oct. 10, 1989.
Bernard DeLury, Federal Mediation and Conciliation Director.	Sept. 27, 1989.
Dennis M. Devaney, Member, National Labor Relations Board, remainder of expiring term.	Sept. 14, 1989.
Five-year term	Sept. 29, 1989.
Michael Bruce Donley, Asst. Secretary of the Air Force (Financial Management).	Oct. 6, 1989.

NOMINEES AWAITING CONFIRMATION—Continued

Name and title	Date nominated
Robert Clifton Duncan, Director of Operational Test and Evaluation, Department of Defense.	Aug. 4, 1989.
Edward Martin Emmett, Member, Interstate Commerce Commission.	June 8, 1989.
Edwin G. Foulke, Jr., Member, Occupational Safety and Health Review Commission.	Sept. 26, 1989.
Barbara Hackman Franklin, U.S. Alternate Representative, 44th Session of the U.N. General Assembly.	Oct. 6, 1989.
Michael Paul Galvin, Asst. Secretary of Commerce	Aug. 4, 1989.
Joyce J. George, U.S. Attorney, Northern District of Ohio.	Oct. 6, 1989.
Stephen J. Hadley, Commissioner-Observer to Commission on Security and Cooperation in Europe.	Nov 6, 1989.
Barry L. Harris, Deputy Administrator of FAA	Nov. 6, 1989.
Ronald G. Hein, U.S. Marshal for the D.C. Superior Court.	Sept. 15, 1989.
Robert W. Houk, Public Printer	Nov. 6, 1989.
Jerry M. Hunter, General Counsel, National Labor Relations Board.	May 12, 1989.
Eric M. Javits, Ambassador to Venezuela	July 11, 1989.
Christopher Jehn, Asst. Secretary of Defense (Force Management and Personnel).	Sept. 6, 1989.
Kyo Ryoon Jhin, Chief Counsel for Advocacy, Small Business Administration.	June 23, 1989.
Jacqueline Jones-Smith, Commissioner, Consumer Product Safety Commission Chairman.	Oct. 12, 1989.
Richard T. Kennedy, U.S. Alternate Representative, 33rd Session of the General International Atomic Energy Agency.	Oct. 25, 1989.
Jane A. Kenny, Director of the ACTION Agency	July 11, 1989.
Craig S. King, General Counsel, Navy Department	Sept. 6, 1989.
Donald E. Kirkendall, Inspector General, Treasury Department.	Oct. 10, 1989.
Kathleen Day Koch, General Counsel, Federal Labor Relations Authority.	July 11, 1989.
Hilda Gay Legg, Alternate Federal Co-chairman of the Appalachian Regional Commission.	Oct. 4, 1989.
Timothy D. Leonard, U.S. Attorney, Western District of Oklahoma.	Oct. 25, 1989.
David E. Lewis, Asst. Secretary of Veterans Affairs (Acquisition and Facilities).	Oct. 12, 1989.
Edward G. Lewis, Asst. Secretary of Veterans Affairs (Information Resources Management).	Sept. 18, 1989.
Susan M. Livingstone, Assistant Secretary of Army for Installations and Logistics.	Nov. 2, 1989.
Edward J. Lodge, U.S. District Judge for District of Idaho.	Oct. 30, 1989.
Antonio Lopez, Associate Director of FEMA	May 18, 1989.
Robert C. McCormack, Asst. Secretary of the Navy (Financial Management).	Oct. 10, 1989.
Jean McKee, Chairman, Federal Labor Relations Authority.	July 11, 1989.
Robert R. McMillan, Member, Board of the Panama Canal Commission.	Oct. 6, 1989.
Gary Edward MacDougal, U.S. Alternate Representative, 44th Session of the U.N. General Assembly.	Oct. 6, 1989.
Margot E. Machol, Commissioner, Commodity Futures Trading Commission.	Sept. 8, 1989.
Harry F. Manbeck, Jr., Commissioner of Patents and Trademarks.	Oct. 12, 1989.
Hart T. Mankin, Associate Judge, U.S. Court of Veterans Appeals.	Sept. 29, 1989.
Gordon H. Mansfield, Asst. HUD Secretary (Fair Housing & Equal Opportunity).	Oct. 3, 1989.
Larry K. Mellinger, U.S. Executive Director for Inter-American Development Bank.	Oct. 30, 1989.
Richard H. Melton, Ambassador, Federative Republic of Brazil.	Sept. 20, 1989.
Zinora M. Mitchell, Associate Judge, D.C. Superior Court.	Sept. 29, 1989.
Jerry Alexander Moore, Jr., Ambassador, Kingdom of Lesotho.	July 11, 1989.
Edwin L. Nelson, U.S. District Judge, Northern District of Alabama.	Sept. 13, 1989.
Michael H. Newlin, Alternate U.S. Representative to General Conference of International Atomic Energy Agency.	Oct. 30, 1989.
Michael J. Norton, U.S. Attorney, District of Colorado	Sept. 15, 1989.
Edward W. Nottingham, U.S. District Judge, District of Colorado.	Oct. 10, 1989.
Clifford R. Oviatt, Jr., Member, National Labor Relations Board.	July 20, 1989.
Ann Christine Petersen, General Counsel, Department of the Air Force.	Oct. 3, 1989.
Bill R. Phillips, Deputy Director, Office of Personnel Management.	Sept. 6, 1989.
Jacqueline L. Phillips, Federal Co-chairman, Appalachian Regional Commission.	Sept. 6, 1989.
Barbara Spyridon Pope, Asst. Secretary of the Navy (Manpower and Reserve Affairs).	Sept. 6, 1989.
J. Thomas Ratchford, Associate Director, Office of Science and Technology Policy.	Oct. 3, 1989.
Ronald E. Ray, Asst. Secretary of Veterans Affairs (Human Resources and Administration).	Sept. 6, 1989.
Forrest J. Remick, Member, Nuclear Regulatory Commission.	Aug. 4, 1989.
Donald F. Rodgers, Member, National Labor Relations Board.	July 20, 1989.
Abraham N.M. Shashy, Jr., Assistant General Counsel-IRS.	Nov. 2, 1989.
Scott Alan Sewell, U.S. Marshal for District of Maryland	Nov. 7, 1989.
Joy A. Silverman, Ambassador to Barbados, Dominica, Saint Lucia, and to Saint Vincent and the Grenadines.	July 11, 1989.

NOMINEES AWAITING CONFIRMATION—Continued

Name and title	Date nominated
Daniel Howard Simpson, Ambassador, Central African Republic.	Oct. 17, 1989.
Leon Snead, Inspector General, Department of Agriculture.	Oct. 3, 1989.
Frank B. Sollars, Member, Board of Directors of the National Consumer Cooperative Bank.	Sept. 6, 1989.
Ronald J. Sorini, Rank of Ambassador during tenure as U.S. Negotiator on Textile Matters.	Aug. 2, 1989.
Arthur D. Spatt, U.S. District Judge, Eastern District of New York.	Oct. 25, 1989.
Victor Stello, Jr., Asst. Secretary of Energy (Defense Programs)	July 24, 1989.
James J. Strock, Asst. Administrator of EPA	Aug. 4, 1989.
Robert W. Sweet Jr., Administrator, Office of Juvenile Justice and Delinquency Prevention.	Oct. 13, 1989.
Pamela Talkin, Member, Federal Labor Relations Authority.	July 31, 1989.
Clarence Thomas, U.S. Circuit Judge for District of Columbia.	Oct. 30, 1989.
Dennis B. Underwood, Commissioner of Reclamation	Sept. 6, 1989.
G. Thomas Van Bebber, U.S. District Judge, District of Kansas.	Sept. 13, 1989.
Adis Maria Vila, Asst. Secretary of Agriculture (Administration).	Sept. 14, 1989.
Catalina V. Villalpando, Treasurer of the United States	Sept. 26, 1989.
Edward S. Walker, Jr., Ambassador, United Arab Emirates.	Oct. 20, 1989.
John M. Walker, Jr., U.S. Circuit Judge, Second Circuit	Sept. 21, 1989.
Vaughn R. Walker, U.S. District Judge, Northern District of California.	Sept. 7, 1989.
Ruth V. Washington, Ambasssador to Gambia	Oct. 10, 1989.
James D. Watkins, U.S. Representative, 33rd Session of the International Atomic Energy Agency.	Sept. 20, 1989.
David C. Williams, Inspector General, Nuclear Regulatory Commission.	July 24, 1989.
Jennifer Joy Wilson, Asst. Secretary of Commerce for Oceans and Atmosphere.	Sept. 8, 1989.
Deborah Wince-Smith, Asst. Secretary of Commerce for Technology Policy.	June 13, 1989.
Melva G. Wray, Director, Office of Minority Economic Impact.	Sept. 6, 1989.
Susan Webber Wright, U.S. District Judge, Eastern and Western Districts of Arkansas.	Sept. 21, 1989.
James B. Wyngaarden, Associate Director, Office of Science and Technology Policy.	Oct. 3, 1989.
William H. Young, Asst. Secretary of Energy (Nuclear Energy).	Sept. 29, 1989.

Mr. MITCHELL. Mr. President, I thank the Republican leader for his comments. Since I was not aware of the subject prior to his statement, I am not able to respond in detail, but I will be prepared to do so on Monday when we convene.

I am not aware of all of the 69 that he mentioned. After a quick look at the pending Executive Calendar, I am advised that there are five holds in place, three by Republicans and two by Democrats. I am unaware of the additional numbers which make up the 69, but will review them over the weekend and be prepared to comment on Monday.

But I will say that, as the distinguished Republican leader knows, it is my policy to move these nominations as rapidly as possible. We will certainly make every effort to do that.

Mr. DOLE. As I said, I did not intend any criticism. I raised this today with Members on our side. We had a meeting today. I know at least in one case we are holding. A Republican has a hold on a certain nominee, which has brought forth maybe a hold on four others; National Labor Relations Board, for example. So it is four for one.

I indicated to the ranking members on those committees that we need to resolve these differences where we can. That does happen from time to time. I think sometimes nominations are overlooked in the rush maybe to close business.

I say for the record as I have before that the majority leader has been most helpful when the nominees were here. We have had our disputes, and we have had our debates. We voted. So I am just making a plea that we can resolve any other problems that may exist between now and midweek next week.

Mr. MITCHELL. I look forward to that, Mr. President.

SUPPORT FOR EAST EUROPEAN DEMOCRACY ACT

Mr. MITCHELL. Mr. President, I now call for the regular order.

The PRESIDING OFFICER. Regular order is S. 1582 which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1582) to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland.

The Senate resumed consideration of the bill.

AMENDMENT NO. 1065 WITHDRAWN

The PRESIDING OFFICER. Under the previous agreement, amendment No. 1065 by Senator PACKWOOD is withdrawn.

ORDERS FOR MONDAY, NOVEMBER 13, 1989

RECESS UNTIL 2:30 P.M., MONDAY, NOVEMBER 13, 1989

Mr. MITCHELL. Mr. President, I now ask unanimous consent that when the Senate completes its business today it stand in recess until 2:30 p.m. on Monday, November 13; and, that following the time for the two leaders, there be a period for morning business until 3 p.m. with Senators permitted to speak therein for up to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. MITCHELL. Mr. President, at 3 p.m. on Monday, the Senate will resume consideration of S. 1582, the Poland-Hungary assistance bill.

I might say for the benefit of all Senators—and I hope that their staffs will communicate this to them for those who are not aware of it—I have discussed this matter with the distinguished Republican leader, and I believe that the most appropriate and expeditious way to handle this will be to conclude debate on all remaining amendments to the Poland-Hungary bill on Monday.

There will be no rollcall votes on Monday, but we intend to complete

action, short of voting, on all matters pending or relating to that bill on Monday. So if any Senator has an amendment to the Poland-Hungary bill, he or she must be present on Monday at 3 p.m. or shortly thereafter to offer that amendment.

Once we complete the debate, then the votes on the Poland-Hungary bill will be scheduled for Tuesday morning.

So Senators should be aware that there will be no session of the Senate tomorrow. The Senate will be in session on Monday, to complete action up to but not including voting on all amendments to the Poland-Hungary bill; that the votes on those amendments and final passage will be set for Tuesday morning, the time to be decided on Monday after full consultation with the distinguished Republican leader.

Then on Tuesday we hope to have resolved the remaining questions with respect to the transportation appropriations conference report, and to complete action on that Tuesday morning.

Under the previous order already entered, there will be debate and a vote on cloture on the capital gains provision on Tuesday afternoon. Following that, we will attempt to return to and complete action, as much as possible, on remaining appropriations conference reports.

That is the schedule that we have agreed upon for the early days of next week. I invite any comment by the distinguished Republican leader, if he has any.

Mr. SARBANES. Will the leader yield for a question?

Mr. MITCHELL. Yes.

Mr. SARBANES. Did I understand that any amendments that might be offered on the Poland-Hungary bill will be voted on on Tuesday morning and then the bill itself on final passage?

Mr. MITCHELL. Yes; that is correct.

Mr. SARBANES. Before the break for the conference, is that correct?

Mr. MITCHELL. Yes. Indeed, as I indicated, it is my hope that we will be able to do that relatively early Tuesday morning, and then if we have been able to work out the remaining matter on the transportation appropriations, then we will be able to complete action on that prior to the Tuesday noon break, as well. Then immediately after the break we go, under a previous order, to the capital gains debate and vote at 5:15 p.m.

Mr. SARBANES. I thank the leader.

Mr. DOLE. Mr. President, I will just indicate that I hope we can accommodate that schedule and that request. There are negotiations ongoing, as the majority leader knows, to try to resolve many of the policy differences, and again, dollar differences. I am not certain that we can do all that, but there is a good-faith effort being made. That should limit the number of amendments.

I understand there will be an amendment on cargo preference, and there may be a number of players on each side of the aisle that may be involved in that. Perhaps, there is some indication that there might even be a revenue item attached to the Polish aid bill. The only request I have, which I think can be accommodated, is that one Member on this side, Senator MURKOWSKI, does not get back until late Monday, and he would like to speak for at least 5 minutes on Tuesday morning.

Mr. MITCHELL. I can see no problem with that, if he is not arriving until late, and we are not in session, certainly I would be prepared to accommodate him for a brief period of time on Tuesday, just to make a speech, as I understand.

Mr. DOLE. Right. He has some amendments that will be accepted, and they will be offered by someone else on his behalf.

RECESS UNTIL 2:30 P.M., MONDAY, NOVEMBER 13, 1989

Mr. MITCHELL. Mr. President, if the distinguished Republican leader has no further business, and if no other Senator is seeking recognition, I now ask unanimous consent that the Senate stand in recess under the previous order until 2:30 p.m., Monday, November 13, 1989.

There being no objection, the Senate, at 6:35 p.m., recessed until Monday, November 13, 1989, at 2:30 p.m.

NOMINATIONS

Executive nominations received by the Senate November 9, 1989:

DEPARTMENT OF STATE

STEPHEN J. LEDOGAR, OF CONNECTICUT, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF MINISTER-COUNSELOR, FOR THE RANK OF AMBASSADOR DURING HIS TENURE OF SERVICE AS U.S. REPRESENTATIVE TO THE CONFERENCE ON DISARMAMENT.

THE JUDICIARY

GERALD E. ROSEN, OF MICHIGAN, TO BE U.S. DISTRICT JUDGE FOR THE EASTERN DISTRICT OF MICHIGAN VICE PHILIP PRATT, DECEASED.

DONALD J. LEE, OF PENNSYLVANIA, TO BE U.S. DISTRICT JUDGE FOR THE WESTERN DISTRICT OF PENNSYLVANIA VICE HUBERT I. TEITELBAUM, RETIRED.

INTERSTATE COMMERCE COMMISSION

EDWARD J. PHILBIN, OF CALIFORNIA, TO BE A MEMBER OF THE INTERSTATE COMMERCE COMMISSION FOR A TERM EXPIRING DECEMBER 31, 1993, VICE HEATHER J. GRADISON, TERM EXPIRED.

CONFIRMATIONS

Executive nominations confirmed by the Senate November 9, 1989:

JANE A. KENNY, OF VIRGINIA, TO BE DIRECTOR OF THE ACTION AGENCY.

DEPARTMENT OF THE INTERIOR

DENNIS B. UNDERWOOD, OF CALIFORNIA, TO BE COMMISSIONER OF RECLAMATION.

ACTION AGENCY

DEPARTMENT OF ENERGY

MELVA G. WRAY, OF CONNECTICUT, TO BE DIRECTOR OF THE OFFICE OF MINORITY ECONOMIC IMPACT.

WILLIAM H. YOUNG, OF NEW JERSEY, TO BE AN ASSISTANT SECRETARY OF ENERGY (NUCLEAR ENERGY).

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

HOUSE OF REPRESENTATIVES—*Thursday, November 9, 1989*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Teach us, O God, to see in our lives the opportunities to be Your saints in this world, going about doing good and being ministers to all with any need. May our faith, the faith of ordinary people, be tied to Your eternal promises, strengthened by Your power and forgiveness, and made whole by Your ever present spirit. In Your name, we pray. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentlewoman from New York [Ms. SLAUGHTER] please come forward and lead the House in the Pledge of Allegiance.

Ms. SLAUGHTER of New York led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment a bill of the House of the following title:

H.R. 2710. An act to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes.

The message also announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 2748. An act to authorize appropriations for fiscal year 1990 for intelligence and intelligence-related activities of the U.S. Government, the intelligence community staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The message also anounced that the Senate insists upon its amendment to the bill (H.R. 2748) "An act to authorize appropriations for fiscal year 1990 for intelligence and intelligence-related activities of the U.S. Government, the intelligence community staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. BOREN, Mr. NUNN, Mr. HOLLINGS, Mr. BRADLEY, Mr. CRANSTON, Mr. DECONCINI, Mr. METZENBAUM, Mr. GLENN, Mr. COHEN, Mr. HATCH, Mr. MURKOWSKI, Mr. SPECTER, Mr. WARNER, Mr. D'AMATO, and Mr. DANFORTH; from the Committee on Armed Services: Mr. EXON and Mr. THURMOND, to be the conferees on the part of the Senate.

The message also announced that the Senate had passed a concurrent resolution of the following title, in which the concurrence of the House is requested:

S. Con. Res. 80. Concurrent resolution to correct technical errors in the enrollment of the bill H.R. 2710.

The message also announced that the Senate agrees to the further report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the amendments of the House to the amendments of the Senate numbered 53, 171, and 191, to the bill (H.R. 2991) "An act making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1990, and for other purposes."

CORRECTING ENROLLMENT OF H.R. 2710, FAIR LABOR STANDARDS AMENDMENTS OF 1989

Mr. HAWKINS. Mr. Speaker, I ask unanimous consent to take from the Speaker's table, the Senate concurrent resolution (S. Con. Res. 80), to correct technical errors in the enrollment of the bill, H.R. 2710, and ask for its immediate consideration.

The SPEAKER. The Clerk will report the Senate concurrent resolution.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 80

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 2710) to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) Amend section 6(g)(1)(A)(ii) to read as follows:

(ii) has not attained the age of 20 years; and

(2) In section 6(g)(1)(B)(i) insert before the period "at such wage".

(3) In section 6(g)(1)(B)(ii) strike out "if a certificate is issued under subsection (h) by the Secretary for the employment of such employee" and insert in lieu thereof "if the employer meets the requirements of subsection (h)".

(4) Amend subsection (h) to read as follows:

(h) EMPLOYER REQUIREMENTS.—An employer who wants to employ employees at the wage authorized by subsection (a) for the period authorized by subsection (g)(1)(B)(ii) shall—

(1) notify the Secretary annually of the positions at which such employees are to be employed at such wage.

(2) provide on-the-job training to such employees which meets general criteria of the Secretary issued by regulation after consultation with the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives and other interested persons,

(3) keep on file a copy of the training program which the employer will provide such employees,

(4) provide a copy of the training program to the employees,

(5) post in a conspicuous place in places of employment a notice of the types of jobs for which the employer is providing on-the-job training, and

(6) send to the Secretary on an annual basis a copy of such notice.

The Secretary shall make available to the public upon request notices provided to the Secretary by employers in accordance with paragraph (6).

(5) In sections 8(a)(1) and 8(b), strike out "section 2(a)" and insert in lieu thereof "section 2".

(6) In section 2, strike out "December 31, 1989" and insert in lieu thereof "March 31, 1990".

Mr. HAWKINS (during the reading). Mr. Speaker, I ask unanimous consent that the Senate concurrent resolution be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentleman from California?

There was no objection.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

EVERYONE LOSES WITH SEQUESTRATION

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, last week the President bashed the Congress for the budget reconciliation package that he negotiated several months ago. Upon failure to agree today, sequestration, or cutting across-the-board 5.3 percent for all spending takes place.

Let Members stop the games, because remember what sequestration means. Less than 50 percent of eligible kids now get Head Start, and yet now this will mean that of 100 of those who are getting Head Start, 5 will have to step out of class. Soon Americans can fly on "Sequester Airways." While true, it may be the only one that Frank Lorenzo has not driven into bankruptcy, it flies without the same number of FAA controllers it had last week. Sequestration over safety.

If citizens thought it was unfair because the FDA did not inspect fish like it does red meat, rest easy, because now red meat will not get inspected. If sequestration comes, the Pentagon says 170,000 active duty people must be discharged. Sequestration is neither prudence nor policy. I urge the President to get serious about a real budget.

LEGISLATION TO IMPLEMENT THE NATIONAL DRUG POLICY OF PRESIDENT BUSH

(Mr. BAKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BAKER. Mr. Speaker, since September 5, 1989, we have been patiently waiting for the opportunity to follow through on our promise to the citizens of this Nation, and to the citizens of all nations plagued by drugs. What is this promise? That the U.S. Congress give expedient consideration of the legislation President Bush needs to implement his national drug policy. Under the leadership of Director William Bennett, we have been presented with a well targeted strategy which includes:

A single individual charged with coordination of the dozens of Federal agencies involved in the war on drugs, and

A single individual to coordinate our domestic and international antidrug efforts, and

A single individual to direct resources for the most effective utilization.

But, Mr. Speaker, this is not enough. There remains much to be done. Resolutions are pending that will give much needed authority to the Director to fight the war, but time is running out, not just for the Congress, but for the children of America.

□ 1010

MAKING IN ORDER TODAY A MOTION TO SUSPEND THE RULES AND PASS CAPITAL GAINS LEGISLATION

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that it shall be in order to consider today a motion, if offered, by the gentleman from Illinois [Mr. ROSTENKOWSKI] to suspend the rules and pass a bill relating to capital gains.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

PERMISSION FOR COMMITTEE ON FOREIGN AFFAIRS TO FILE REPORT ON H.R. 3611, INTERNATIONAL NARCOTICS CONTROL ACT OF 1989

Mr. FASCELL. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs have until midnight tonight, November 9, 1989, to file its report on H.R. 3611, the International Narcotics Control Act of 1989.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 1487, FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL YEARS 1990 AND 1991

Mr. FASCELL. Mr. Speaker, I ask unanimous consent that the managers have until midnight tonight, November 9, 1989, to file the conference report on H.R. 1487, the Foreign Relations authorization, fiscal years 1990 and 1991.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

BUDGET GAMES MUST END

(Mr. WOLPE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLPE. Mr. Speaker, I welcomed President Bush's appeal earlier this week for an end to budget gimmickery.

The games must end. All of the games. Including the game of hypocrisy.

Mr. Speaker, I want President Bush to succeed. This country needs strong, effective Presidential leadership. But for President Bush to be a credible leader, he must repudiate the budget gimmicks he himself has advocated.

After all, who asked the Congress to shift the date the military gets paid, so as to create an illusion of a $3 billion savings in the next year's budget?

Who wanted to claim a phoney savings of $1 billion in agriculture payments from fiscal year 1990 back to fiscal year 1989?

Who wanted to create a short-term paper savings by selling off $2.5 billion of loan assets?

Who asked that $50 billion of the savings and loan bailout be off-budget?

Most recently, who was pushing a capital gains tax cut that would increase the deficit by over $20 billion?

And now, incredibly, who is attempting to lay the entire blame for the deficit crisis at the feet of the Congress?

Mr. Speaker, if there is one thing we should have learned from the Reagan years, it is that the executive branch must be willing to take the leadership in proposing a balanced, responsible budget to Congress with real savings, real revenue measures, no smoke and mirrors, no voodoo economics. All we need is a willingness to negotiate with the legislative branch in a cooperative, bipartisan fashion.

Mr. Speaker, we are faced with a monumental budgetary task. The White House can best serve the public, not by posturing and blame throwing, but by setting an example, by presenting responsible solutions to our budget crisis, and by talking straight to the American people.

Let the games end.

NAVY SUBMARINE BARELY AVOIDS TRAGEDY

(Mr. SCHULZE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHULZE. Mr. Speaker, yesterday the U.S. Navy barely avoided adding yet another tragic twist to the Armed Forces slogan, "It's not just a job, it's an adventure."

The latest incident sounds similar to the plot of the recent movie "The Abyss," but this episode should be entitled "The Abysmal."

Three crewmen of a Navy research and recovery submarine were trapped 1,300 feet underwater off the coast of San Clemente Island from Tuesday afternoon until early Wednesday morning. The vessel had become entangled in cables.

Fortunately, after 9 hours of effort, the crew managed to break the submarine free from the cables. Unfortunately, a Navy spokesman—when asked how the three who were trapped had saved themselves—used the Navy's now standard, all-purpose response. He said, "we don't know how."

29-059 O-90-12 (Pt. 20)

JAPANESE GET THE ELEVATOR; AMERICANS GET THE SHAFT

(Mr. ECKART asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. ECKART. Mr. Speaker, once again there is another deal in the making, and it is not good news for workers in America. American chip makers have announced their agreement to produce the chips and let the Japanese manufacturers produce the new high definition television estimated to revitalize America's electronic industry.

Earlier this year Secretary of Commerce Mosbacher actually said he thought we should have a policy to help develop high definition television and restore consumer electronic supremacy to this Nation. But no, Mr. Mosbacher was not allowed to proceed. The nay sayers in the administration stepped on his initiative, and, once again, like Rip Van Winkle sound asleep, the world is going to pass us by.

Once again, Japan gets the jobs, we get the unemployment. Once again, Japan gets the technology, we get the loss.

Mr. Speaker, if this was Otis Manufacturing they would get the elevator, we have got the shaft.

WHERE SOCIAL SECURITY TAXES GO

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, this year America's workers will pay a total of $265 billion in FICA and SECA taxes to the Social Security System; $211 billion will be paid out in benefits to current retirees. The remaining $54 billion, Mr. Speaker, was spent by Congress on water projects, defense, agricultural subsidies, and the like.

You thought that money was saved in a trust fund for future retirees? No, it is lent to Congress and spent.

Congress gives only one guarantee in return. We promise that we will tax the next generation enough in the future to make the trust fund whole again when we need it to pay today's workers retirement benefits.

Some deal.

Mr. Speaker, we need to reorganize the Social Security system to truly guarantee benefits. We need a vested, fully funded Social Security System, Mr. Speaker.

We should create an Individual Social Security Retirement Account, an ISSRA, for each American worker and refund the annual reserves of the trust fund into these accounts. Workers would then invest these accounts in certain types of safe investments. The worker would own their ISSRA account. Congress would have no access to these investments and they would be there for the workers when they retire. Not a promise from Congress but cash on hand.

CIA COVERUP ALLEGED ON PAN AM FLIGHT 103 BOMBING

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, in 1960 the Central Intelligence Agency vehemently denied and labeled nonsense any involvement in the U-2 incident. In 1961 the Central Intelligence Agency vehemently denied and labeled nonsense any involvement in the Bay of Pigs scandal. In 1984 the CIA vehemently denied and labeled nonsense any involvement in the mining of the harbors of Nicaragua. In 1984 the CIA vehemently denied and labeled nonsense any involvement in the death threat manual in Nicaragua.

Today the Central Intelligence Agency denies and labels nonsense the report that the CIA had at least bungled and possibly even turned their back on the heroin smuggling ring from Frankfort to New York which played a key role in the bombing of Pan Am flight 103.

The Central Intelligence Agency has been consistent, I will give them that credit, but I think the American people and the world ought to know what happened to Pan Am flight 103 not another national security "coverup."

IN SUPPORT OF COMPLETING CHILD CARE LEGISLATION

(Mrs. SAIKI asked and was given permission to address the House for 1 minute.)

Mrs. SAIKI. Mr. Speaker, I share the hope that we can adjourn this session before Thanksgiving to go home to our districts for the holidays—but we must not—cannot leave until we pass critical legislation which affects so many American families.

The legislation I speak of is child care. It has been 20 years since a comprehensive child care bill was this close to passage. In the meantime the need for quality, affordable child care has intensified.

We have done a lot of posturing, expressing our concern for all those children who need our help. These children should be our No. 1 priority. They are the future of America.

Mr. Speaker, I urgently request that a child care conference report be brought to the floor of the House of Representatives for a vote before we go home for the holidays. I along with many others, will be willing to stay here until Christmas if necessary.

THE CONSEQUENCES OF SEQUESTRATION

(Mr. MINETA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MINETA. Mr. Speaker, I came to Washington to do a job: to make tough choices. I did not come to Washington to allow people to be hurt by the heavy hand of expedience.

President Bush says that he wants to throw up his hands and let automatic Gramm-Rudman-Hollings budget cuts take over our duty to decide our national priorities.

Mr. Speaker, nothing could do more damage to the American people.

We need to make choices. We do not need to abrogate our duty in favor of an arbitrary butcher's knife.

Could you tell 50,000 Head Start children that the United States can't help them? President Bush can. I can't.

Could you tell 3,600 very-low-income families that the United States can't build them a decent home? President Bush can. I can't.

Could you tell 176,000 needy students that college is out because the United States can't afford to give them a Pell Grant? President Bush can. I can't.

Mr. Speaker, It looks like President Bush would have us destroy the future supposedly in order to save it.

The President may be able to turn his back on Americans who need his help—but I won't.

Mr. Speaker, sequestration must end.

□ 1020

THE LINCOLN SAVINGS SCANDAL

(Mr. ROTH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROTH. Mr. Speaker, every Member of this House and in the other body should pay close attention to the investigation going on in our Committee on Banking, Finance and Urban Affairs. It deals with the investigation of the Lincoln Savings scandal.

In sworn testimony thus far, our Federal and State regulators have described how a federally insured thrift was turned into a quasi-criminal enterprise with political protection from right here in Washington. The sworn testimony—the sworn testimony—was received on Tuesday and has raised the role of political influence to center stage in this investigation. The gentleman from Texas [Mr. GONZALEZ], the chairman, has said that any persons, including Members of their House of

Congress, who wish to testify before our committee can do so.

Mr. Speaker, the Lincoln scandal has left the American taxpayer with a $2½ billion price tag. That is $10 for every man, woman, and child in America, and that is only one savings and loan. We have 600 savings and loans that must be closed.

This is no small problem. This is not a problem we can ignore. We have a duty to get to the bottom of this mess, and I hope that every Member of Congress will support our committee in this investigation.

TEXAS APPROVES CONSTITUTIONAL AMENDMENT TO ASSIST COLONIA RESIDENTS

(Mr. COLEMAN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLEMAN of Texas. Mr. Speaker, I rise today to commend Texas voters who on Tuesday approved proposition 2, a constitutional amendment to provide assistance to the neediest areas of my State.

I say to my colleagues, years ago I brought to them the plight of communities in my congressional district and along the rest of the United States-Mexico border commonly known as colonias, where residents live without access to running water or sewage service. In these communities, the rates of disease for many illnesses largely eradicated nationwide are higher than they would be in the many underdeveloped countries. Along with several of my colleagues from Texas, I have introduced various pieces of legislation to provide Federal assistance to these communities, but I also have always asserted that bringing these communities to acceptable living conditions would require a partnership, a partnership of the Federal, State, city, and county government as well as the private sector.

This proposition will provide $100 million of water development bond revenue for border colonias. I supported this amendment because it will help provide a clean water supply for Texans. I also supported proposition 2 because I believe that a clean water supply is the best way to address many of the problems found in our area; it is the best way, for instance, to improve the deplorable health conditions in the area and to provide for our children the opportunity to excel in school without having to worry about their drinking water supply or where they will take their next shower.

Texas voters yesterday indicated they consider the conditions in the colonias unacceptable, and that they are willing to do something to alleviate the plight of colonia residents.

I want to commend all those individuals in my State who endeavored so hard to ensure passage of this proposition. Not only have you ensured that colonia residents will have an opportunity to improve their living conditions, but you have indicated to the Federal Government that you're willing to contribute your fair share to this effort. I will continue my efforts in Congress to bring Federal relief to these areas, and I urge my colleagues to join me in this cause.

A PATRIOTIC POEM

(Mr. RIDGE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RIDGE. Mr. Speaker, as we return home to celebrate Veterans Day and remind ourselves of the importance of the sacrifices made by this country's veterans, I would like to share with my colleagues the thoughts of a young, obviously very thoughtful and very patriotic grade school student from my home. Her name is Rae Ann Testi, and her words are entitled, "A Patriotic Poem."

What does America mean to me?
It means the right to be free!
The right to life and liberty.
The right to be the only me!

When I think of the past and wonder why
All those soldiers had to die
I remember they died for you and me.
They gave their lives to keep us free.

I have the right to make a speech
In the street or on the beach!
I can say what I believe
And then I have the right to leave.

I can worship where I please
And when I'm down on bended knees
I thank the Lord that I am
Free to be an American.

Have a good Veterans Day.

MY GREATEST DREAM

(Mr. DELLUMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DELLUMS. Mr. Speaker and Members of the House, my greatest dream is to not draw my breath, my last breath, in a nation that has not gotten beyond race as a negative factor and that we realize that our strength lies in our capacity to come together as one people. I say that because I am disturbed by the nature of the news accounts in the aftermath of Tuesday's historic elections where the press and too many have focussed upon the so-called cloud hanging over the election or focussed on the people who have defected from the ranks of the party that did not elect blacks of the governorship of the State of Virginia or the mayor of New York.

I would suggest, Mr. Speaker, that our strength lies not in our cynism, but in our optimism. It is my fervent hope that we begin to focus not on those persons who are motivated by fear and anger, but rather those persons who are motivated by courage, and compassion and wisdom. It is only in that regard that we become a great Nation, not when we continue to focus on those factors that divide us.

There is only and ultimately one race, and that is the human race, and this country is ostensibly designed to raise a great, splendid flag of freedom, and the only way to do that is when we begin to move beyond this adversity.

That is my hope, and that is my dream.

TOUCH FOOTBALL VERSUS TEA AND TOAST

(Mr. WALSH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WALSH. Mr. Speaker, I rise today to express my great disappointment. After negotiating for weeks, the freshmen Republicans were set to play the freshmen Democrats in a game of touch football at 7:00 a.m. this morning. What made things so difficult was their leadership's inability to keep to a set schedule. And then we ran out of daylight savings time—thus the morning start. We Republicans were all set to reclaim our party's honor after coming close, but losing last Tuesday's big 3.

There we were, standing in the fog at the Capitol steps, waiting for our noble adversaries, the Democrats. But alas, we were waiting for Godot—who like the Democrats, never came. Perhaps it was the day's weather—certainly a frightful prospect for our chauffeur-driven friends. Or perhaps it was the hour, since many of them are lawyers whose days begin at 9:00 a.m. with tea and toast. Perhaps it was fear itself—with veritable Monsters of the Midway, like myself, on the other side of the line. That would be understandable.

But whatever the reason, they didn't show, and we went home unmuddied and unbloodied—a forfeit victory in hand—muttering, "Where were the Democrats?"

VETERANS DAY

(Mr. MONTGOMERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONTGOMERY. Mr. Speaker, I would like to follow up on what the gentleman from Pennsylvania [Mr. RIDGE] was talking about a few minutes ago, about our veterans' holiday which starts tomorrow through November 11 honoring our veterans.

Mr. Speaker, let me point out that for over 200 years the veterans have been defending this country, have

marched off to war and some didn't come back. We have lost over a million young Americans who have given their lives in defense of this great country.

Mr. Speaker, we now have over 27 million living veterans, even back to World War I and moving on through to the Vietnam era. We have over 50 million dependents of these veterans Mr. Speaker, this Congress, especially this House of Representatives, has really tried to do their best for veterans. Of course we never get enough funding for all departments of the Government, but over the years we have done what we thought was best for these veterans.

Mr. Speaker, if any Members need additional information about November 11, 1989, about the veterans' holiday, about the veterans' programs, they can call the Committee on Veterans' Affairs. We will give them that information.

BEST OF THE BEST

(Mr. SCHIFF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHIFF. Mr. Speaker, recently, Tactical Air Command of the U.S. Air Force completed its "Gunsmoke '89" exercise at Nellis Air Force Base in Nevada. This exercise was a worldwide competition between outstanding tactical air units based throughout the world.

I want to report that the top team flying the F-16, which was also the top team of the entire exercise, was the 169th Tactical Fighter Group. The overall "Top Gun" pilot was Capt. Pat Shay of the 944th Tactical Fighter Group. The 944th Tactical Fighter Group was the second highest rated F-16 unit and also the second highest unit for the entire exercise.

The highest rated unit flying the A-7 was the 150th Tactical Fighter Group. The "Top Gun" among the A-7 pilots was Col. Thomas Wittman of the 150th Tactical Fighter Group.

Mr. Speaker, I rise to congratulate all of the winners and participants in "Gunsmoke '89". But I also want to point out that each of these winning units and pilots are part of the Guard and Reserve.

The 169th Tactical Fighter Group is part of the South Carolina Air National Guard, stationed at McIntire Air Guard Base in South Carolina; the 944th Tactical Fighter Group is part of the U.S. Air Force Reserve, stationed at Luke Air Force Base in Arizona, and the 150th Tactical Fighter Group is part of our own New Mexico Air National Guard, stationed at Kirtland Air Force Base in New Mexico.

These units and pilots were not competing solely against other Air National Guard and Air Force Reserve units. To the contrary, the best units of the active Air Force were also participants in this exercise.

From the beginning of our Republic to the most recent conflicts, members of the Guard and Reserve have served shoulder-to-shoulder with their active duty counter-parts as full participants in our national defense. This exercise shows that the Guard and Reserve remain prepared to accomplish that mission at any time.

□ 1030

EXTENSION OF VIETNAM ERA GI BILL

(Mr. BATES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BATES. Mr. Speaker, tomorrow we celebrate Veterans Day, a day honoring the many Americans who have served their country in its time of need. I can think of no finer way of paying tribute to our veterans than to extend the educational opportunities provided to them under the GI bill.

The GI bill provides educational benefits to attract quality young men and women to the armed services. A large number of young recruits enlist in the Armed Forces for educational benefits. I believe that it is our responsibility to see that these programs serve them well.

The benefits earned by Vietnam era veterans will expire in December of this year. Those veterans who have earned the full 3 years and 9 months worth of benefits may have inadequate time to use all of the benefits that they are entitled to. I encourage all of my colleagues to support H.R. 2192, which would extend the termination date of the Vietnam era GI bill by 3½ years, to June 30, 1993.

NINETY PERCENT OF PRESIDENT'S ETHICS BILL ACHIEVED

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, as the sponsor of the President's "Governmentwide Ethics Act of 1989," it was heartening to see media reports this week that we have—through the efforts of the House bipartisan task force—accomplished 90 percent of what the President originally proposed.

We are acting to restore public confidence in the institutions of our representative government; these efforts will do much to reinforce the credibility of the laws we enact.

Mr. Speaker, even as consideration of ethics law reform continues to move forward, I think it appropriate that we recognize the untiring efforts of the members of the House bipartisan task force. They and the President are to be commended for their leadership and commitment to ethics law reform.

NASA'S CHOICES ARE NO CHOICES

(Mr. TRAXLER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAXLER. Mr. Speaker, this is my second 1-minute speech in 15 years, so I was uncertain as to the procedure. I am grateful and a little nervous.

Mr. Speaker, I rise today to inform my colleagues of the possible consequences of a permanent 1990 sequestration of 5.3 percent of NASA's budget. I believe that in the case of NASA, we can see very clearly the foolhardy nature of the "make my day" and "read my lips" approach to Federal budgeting. Tragically, the same scenario can be painted for each and every one of our domestic agencies. Most especially the Veterans' Administration which may have to dismiss as many as 6,000 employees with devastating consequences to veterans' health care. If sequestration is permitted to be carried out for the remainder of fiscal year 1990, NASA officials will be presented with choices that none of them wants to make. First off, NASA will be faced with laying off some 1,200 of its 22,000 civilian work force, a work force already stretched thin. Or, they might choose to transfer funds from important research and development programs to keep personnel levels at an acceptable level. But, what R&D programs shall be cut? Which one might be eliminated altogether in order to keep the others on a responsible and effective development course?

Similarly, about half of all university research funded by NASA may be cut or deferred under a strict application of the 5.3-percent across-the-board cut.

Mr. Speaker, I submit to you and my colleagues that the Congress and the administration, speaking for the American people, have now firmly committed our Nation to building a space station. Are we now, through artificial budget devices and an illogical premise for trying to finance our Government, painting NASA into a corner in which the only answer for maintaining a reasonably balanced space program is to take all of sequestered cuts from one program?

I hope not. The answer is for the President and the Congress to agree on a responsible reconciliation bill.

THE URGENT NEED FOR DAY CARE LEGISLATION

(Mrs. JOHNSON of Connecticut asked and was given permission to ad-

dress the House for 1 minute and to revise and extend her remarks.)

Mrs. JOHNSON of Connecticut. Mr. Speaker, in the next week we have a historic opportunity to directly attack the poverty that dogs the life of so many millions of America's children and assure our families access to both affordable and high-quality day care; and, my colleagues, we must not adjourn until we have passed and the President has signed day care legislation. We are, after all, in broad agreement in both Houses that we must expand the earned income tax credit to attack poverty among children in America in the way we have successfully attacked poverty among seniors through the Social Security Income Expansion Program.

Second, we are in broad agreement on what kind of programmatic expansion of child care is possible and acceptable to all of us. If you look at the debate on day care in the House, you look at the debate on the Stenholm amendment, you can see broad concurrence among us as to how we can satisfactorily expand services, high-quality services. If you look at the debate on the Senate side, you can see how willing the President is to cooperate.

Let us not look for veto bait. Let us look for help for America's children and families. Let us stay here until we get a day care bill signed by the President.

LOUISVILLE, KY, DESIGNATED AS BOOM TOWN

(Mr. MAZZOLI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MAZZOLI. Mr. Speaker, I just rise to call the attention of my colleagues in the House and the people around the Nation watching this television that my home town in my congressional district of Louisville, KY, has just been designated by the U.S. News and World Report in its current issue as a boom town in the United States. Now, for a long, long time Louisville has been designated as one of the most livable and one of the most pleasant areas in the Nation in which to live and raise your family, but now "boom" in the sense of business opportunities has also caught up with our livability; So, I just want to invite all my colleagues if you are ever passing through Kentucky, stop in Louisville. I think you are going to like what you see.

INTRODUCTION OF H.R. 3603, TO PROVIDE FOR A FULL ACCOUNTING OF OUR MISSING SERVICE PERSONNEL

(Mr. SMITH of New Hampshire asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of New Hampshire. Mr. Speaker, I am pleased to join my colleague, the gentleman from Oregon [Mr. DENNY SMITH] this week in introducing H.R. 3603, to provide for a full accounting of our missing service personnel.

World War II, Korea, and Vietnam are events of the past for most Americans—something you remember when you are watching "The Winds of War" or a movie like "Platoon," or maybe you have a loved one who served in one of these wars. This coming weekend we will be honoring thousands of veterans who served our country.

But, Mr. Speaker, what about the missing? What about those Americans who were still listed as prisoners of war after Operation Homecoming in Vietnam? What about the 78,000 men and women still unaccounted for from World War II or the 8,000 still listed as missing in action from Korea?

For the families of those who are missing, wars that officially ended years ago are not over. There are too many unanswered questions. That is why it is long overdue for us to declassify and release to the public information which can help us determine the fate of the thousands of brave American service personnel who never came home.

Mr. Speaker, the American people and the families of these men and women deserve to know and have the right to know what happened. This bill protects sources and methods of intelligence collection and doesn't release sensitive personal information without the expressed permission of the family. So for what reason should we keep information on our missing classified? Why should Al Ziegler, a Vietnam combat veteran from Salem, OR, have to starve himself for 34 days in a bamboo cage at the Vietnam Wall to get this information? The answer is he shouldn't have to. But he did because he hasn't forgotten about the men he fought with who never came home.

So Al, this legislation is for you and for all veterans and for all Americans who have the right to see this information.

Mr. Speaker, I urge my colleagues to cosponsor H.R. 3603.

SUPPORT H.R. 3603, TO PROVIDE FOR A FULL ACCOUNTING OF OUR MISSING SERVICE PERSONNEL

(Mr. DREIER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, there are literally thousands of Americans still classified as missing in action in World War II, the Korean war, and Vietnam, and their names have not even been released yet.

Mr. Speaker, I am privileged to join with my colleagues, the SMITH twins, the gentleman from New Hampshire, Mr. ROBERT C. SMITH, and the gentleman from Oregon, Mr. DENNY SMITH, in cosponsoring H.R. 3603. The legislation is designed to release this information. There is no reason in the world, Mr. Speaker, that it should be held.

The sacrifice which Al Ziegler has made, as my colleague, the gentleman from New Hampshire [Mr. SMITH] has just said, was that he starved himself from 34 days so that this information could be released.

Think of the loved ones, think of the friends who desperately want to know about the plight of these people. As Veterans Day approaches this weekend, Mr. Speaker, I hope that all our colleagues will join in cosponsoring H.R. 3603.

□ 1040

CHILD CARE PACKAGE MUST BE APPROVED BEFORE ADJOURNMENT

(Mrs. MORELLA asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MORELLA. Mr. Speaker, Congress should not adjourn until a child care package is finalized. There is a desperate shortage of affordable and quality child care in this country, and we simply cannot afford to further delay the approval of child care legislation until next year.

National statistics clearly demonstrate the urgency of this need. According to the Children's Defense Fund, almost two-thirds of all mothers in the work force are single, widowed, divorced, separated, or have husbands who earn less than $15,000 per year. Nationally, the average cost of child care is approximately $3,000 per child annually, with infant care significantly higher. Working parents with children rate child care as their fourth highest expense after food, housing, and taxes. In a family with two children in which both parents earn the minimum wage, more than half of family income is spent on child care.

Clearly, this situation must be addressed immediately. The House and Senate have approved bills which have more similarities than differences. Surely, we can develop a compromise bill, with the support of Congress and the President, before adjournment this year. This issue is just too important to hold over until next year. We should stand firm and delay adjournment until a final child care package is approved.

THANK YOU FOR CONTRIBUTING TO THIS GREAT COUNTRY

(Mr. MACHTLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MACHTLEY. Mr. Speaker, I rise today in tribute to this Nation's veterans. We certainly owe these brave Americans a special honor on this Veterans Day, November 11.

Many people, unfortunately, cling to the belief that veterans, a group of which I am proud to be a member, are only responsible for past actions, for keeping our Government and our borders intact. However, I think every American should take the time this Saturday to stop and think about the tremendous impact that veterans have had on our present American system of government. Our right to choose our leaders in this democratic country would not exist but for the fact that millions were willing to give their lives in the defense of our ability to vote and for our freedom.

Those who have died for our Nation can only fail to the extent that we fail them. We must do nothing less than to give them our best.

This weekend, if you happen to see a veteran, take the time to say, "Thank you for contributing to this great country."

POW/MIA PUBLIC ACCOUNTABILITY BILL

(Mr. DENNY SMITH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DENNY SMITH. Mr. Speaker, I have introduced a bill, the POW/MIA public accountability bill, that would require all Federal agencies to disclose information concerning United States personnel classified as prisoners of war or missing in action from World War II, Korea, and Vietnam. It would not force the Government to reveal sources and methods of intelligence collection, nor would it automatically release sensitive personal information without the express permission of the family.

This legislation also makes exceptions in the case of particularly promising, ongoing investigations so that they will not be compromised.

A constituent of mine, Mr. Al Zeigler, spent 34 days down in the tiger cage at the Vietnam Memorial, and it was through his courage and his patience that it came to my attention that we were not able to get this information. I have long been one who felt that we left people behind in Vietnam and Laos, and I think there are reasons to have this bill passed through the House.

Since wars are such public events, their final accounting should be, as well.

I urge my colleagues to support H.R. 3603.

TRIBUTE TO THE LATE HONORABLE EDWARD STACK

(Mr. SHAW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHAW. Mr. Speaker, distinguished colleagues in the House, it is with regret that I bring you the news of the death of Edward Stack, a former Member of this body.

Representative Stack died last week at a hospital in my home district of Broward County—but not without leaving a mark on south Florida.

Representative Stack completed a successful law career in New York and a 4-year stint with the U.S. Coast Guard before he moved to south Florida to begin an impressive political career. He began on the charter review board of Pompano Beach, and then worked his way to the city commission of that city, and later onto the county sheriff's seat.

As Broward County Sheriff, Stack made his mark by modernizing the sheriff's office. He created a crime lab, improved pay and benefits for deputies, initiated the 911 emergency system, and established the county's first drug rehabilitation program.

He is known for making some of the greatest strides in the areas of mental health and drug dependency as anyone in the history of south Florida. Fittingly, Representative Stack was later appointed to the position of administrator of the Broward County Commission on Alcoholism, now called the Court Alcohol and Substance Abuse Program. He held that post until he died.

During his political career, Stack drew endorsements from Barry Goldwater and later served as Richard Nixon's State campaign chairman. He came to this body as a Democrat.

Then in 1978, Mr. Stack landed in this body at the age of 68, making him the oldest freshman ever to serve in the U.S. House of Representatives.

Ed Stack was admired by Democrats and Republicans alike, and he will be sorely missed.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2273

Mr. ROBINSON. Mr. Speaker, I ask unanimous consent that my name be removed from the list of cosponsors of H.R. 2273.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). Is there objection to the request of the gentleman from Arkansas?

There was no objection.

CONFERENCE REPORT ON H.R. 2461, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEARS 1990 AND 1991

Mr. BONIOR. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 285 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 285

Resolved, That upon the adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, and all points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentleman from Michigan [Mr. BONIOR] is recognized for 1 hour.

Mr. BONIOR. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Tennessee [Mr. QUILLEN], pending which I yield myself such time as I may consume.

Mr. Speaker, the conference report on H.R. 2461 authorizes $302.8 billion for the Department of Defense for fiscal years 1990 and 1991.

These funds will be used for the whole range of our Nation's security needs, including procurement, research and development, military personnel, construction, and housing.

Since this legislation was first considered last June, events have accelerated dramatically within the Soviet Union and the Eastern bloc.

Poland has had free elections, in which the Solidarity-led opposition overwhelmingly defeated the Communist Party.

Hungary has opened its borders, adopted dramatic internal reforms, and set the course for elections next summer.

In East Germany, tens of thousands have fled for democracy in the West, and the ruling Cabinet has resigned in the face of the mounting crisis.

We can scarcely keep up with the pace of change and the significance of these events. The world seems weary of war and hungry for democratic reform.

By overwhelming margins, Americans fear the threat of a drug war in their streets far more than nuclear war with the Soviet Union.

We face a crisis in health care, declining educational standards, an assault by drug lords, and a crumbling infrastructure.

We cannot continue to build redundant nuclear systems, pay billions in

cost overruns, and ignore defense contractor ripoffs.

We need a new direction in our Nation's defense policy.

This conference report represents a compromise, however, and I recognize that as such it will not please everyone. After months of negotiation with the other body, it is probably the best we can do. To unravel any part of it could well mean the demise of the whole.

In less than a month, President Bush will meet with Secretary Gorbachev, and again next spring. The chance for dramatic cuts in strategic weapons and conventional forces has never been greater.

Perhaps our best hope for reordering our Nation's defense priorities lies in these talks.

The President will carry the full support of Congress and of the American people in his attempts to assess the prospects for peace. We urge him to be bold in his leadership.

Mr. Speaker, House Resolution 285 provides for consideration of the conference report on H.R. 2461.

The rule simply waives all points of order against the conference report and against its consideration.

As with any bill of this magnitude, various waivers of the rules are necessary including those for germaneness, scope, budget, and the rule requiring a 3-day layover before legislation can be considered on the floor.

The rule also provides that the conference report is considered as having been read when called up for consideration.

I urge the adoption of House Resolution 285 so we may proceed to consideration of the conference report on H.R. 2461.

□ 1050

Mr. Speaker, I reserve the balance of my time.

Mr. QUILLEN. Mr. Speaker, I yield myself such time as I may use.

Mr. QUILLEN. Mr. Speaker, I would like to commend the chairman and ranking Republican member of the Committee on Armed Services, the gentleman from Wisconsin [Mr. ASPIN], and the gentleman from Alabama [Mr. DICKINSON], for their long hours of hard work in putting together this massive and complex conference report. This is one of the largest bills we will consider this year.

Most Members of this House profess to want a strong defense, but then when some domestic need arises, the first solution for many is just to take it out of Defense. Mr. Speaker, it has always been difficult to determine precisely what is the right amount of Defense. But there will come a point if we cut too much that we may undercut the goal of international peace. After World War I, this Nation cut Defense drastically, and proceeded to disarm. Our disarmed condition made it seem more plausible to men like Hitler and Mussolini that they could succeed in their goal of world domination.

Since World War II, on the other hand, this Nation has generally followed a policy of peace through strength. It has not been cheap. But it has deterred other nations from attacking the United States. In this time of tight budgets, we need to keep in mind that weakness which leads to war is not an economy in the long run.

I am aware that not everyone is happy with all the provisions in this bill. But on balance, it represents a reasonable solution. We have come to the point in this session when we need to wrap up this authorization bill, so that we can then complete action on the Defense appropriation bill. Completion of action on the remaining appropriation bills is one of the few items which has to be finished by this Congress before adjournment sine die.

Mr. Speaker, my colleague on the Rules Committee, the gentleman from Michigan [Mr. BONIOR] has ably described the provisions of this rule. I will not repeat that explanation.

I support this rule which waives all points of order so that the House may proceed to complete action on this Defense authorization conference report.

Mr. Speaker, I have no requests for time, but I reserve the balance of my time.

Mr. BONIOR. Mr. Speaker, for purposes of debate only, I yield 8 minutes to the distinguished gentleman from California [Mr. DELLUMS].

Mr. DELLUMS. Mr. Speaker, first let me thank my distinguished colleague for yielding time to me. Let me at the outset make it very clear that I do not rise in opposition to the rule that brings the DOD conference report for the military budget for fiscal year 1990, but rather I take this opportunity to speak specifically to the conference report simply because time does not permit any expanded discussion when we get into the conference report itself, but we will only have a couple of minutes. So I take this opportunity.

Mr. Speaker, the Bush administration at the outset of their presentation of the DOD budget for fiscal year 1990 made the very straightforward comment that we cannot cut to appropriate spending levels without at least killing some weapons systems. Our former colleague and present Secretary of Defense, Mr. Cheney, placed two weapons systems on the cutting board, the V-22, and the F-14 program and said we have to kill some programs to get to appropriate levels; here are two programs that we believe you should kill. That was their approach.

We are the legislative branch of government. They made the statement, and I concur, that if we do not agree with those particular weapons systems that have to be cut, we have a fiduciary responsibility to substitute other cuts. But Mr. Speaker, this conference report did not kill anything. Not only did it not accept Secretary Cheney's two weapons systems that he chose to kill in their wisdom, but we did not assume our responsibility to substitute any weapons systems to be cut.

This gentleman, along with others, said there are other weapons systems that we can cut. We can kill the SDI, euphemistically referred to as star wars. We can kill the B-2 bomber program that will cost us in excess of $70 billion. They are weapons systems.

But this conference report allows us to spend money on every single weapons system. It, therefore, is the worst of both worlds. We are buying everything.

The House, I would suggest, Mr. Speaker, in its negotiations with the other body lost on too many points. Consider, for example, with respect to the strategic defense initiative, the House voted a substantial cut in the strategic defense initiative. We voted to cut that program to the $2.8 billion on an amendment offered by my distinguished colleague, the gentleman from Florida [Mr. BENNETT].

I would also remind my colleagues, Mr. Speaker, that the majority of the Democratic Party on the floor of this House voted for the Dellums-Boxer amendment which would have eliminated the strategic defense initiative organization and cut that program to $1.3 billion for research only.

The other body, in a blatant effort to engage us in a negotiating posture, knowing that we often end up splitting the difference, escalated the price of the strategic defense initiative to $4.3 billion without mandating one single dollar of cuts in other programs to determine how they would get to the $4.3 billion. So we come to the floor today with a conference report bragging that we made this extravagant cut in the strategic defense initiative program to the incredible figure of $3.57 billion.

I would suggest, Mr. Speaker, once we begin to get beyond $3 billion, what glory is there in $100, $200, or $300 million on a program of dubious value and dubious worth, as the majority of the Members of this body already recognize?

With respect to the stealth bomber, the so-called B-2 program, remember in this body that program was on the ropes. The Dellums-Kasich-Roland amendment received 145 votes to put this program to sleep. I would suggest had it not been for the Aspin-Synar amendment that postponed the controversial decision to stop this incredibly expensive program, we would have stopped this program on the floor of

the House, and even then the majority of the Members placed some serious limitations on the B-2 program. It said we can go forward with buying two bombers in fiscal 1990, and we can have advanced procurement for three additional bombers in fiscal year 1991, but the Congress of the United States would have to then approve it.

□ 1100

The conference report, I would suggest, brings back two bombers in fiscal year 1990, three bombers in fiscal year 1991. However, colleagues, if we read the conference report, we have lost our prerogative in voting to determine whether it ought to go forward.

The so-called restrictive language that called for "fly before we buy" is gone. It is now vanished.

My colleagues said we should go forward buying a bomber until we determine whether it is a stealth bomber. Those hurdles are not there. There are 14 pages of information regarding the B-2 bomber that was written after the conference report was signed. I would dare say that without fear of contradiction that probably less than 1 percent of my colleagues in the House of Representatives have ever had a chance to read the conference report on any language regarding the B-2 bomber.

With respect to the mobile missiles, we are again engaged in a Noah's Ark syndrome. We need both. However, I remind my colleages that the business of the House, when it came to the question of the MX missile and the so-called small mobile missile, when the bill left the House, we had cut the MX Program to $600 million for research only, and we had stopped the Midgetman. We killed that program.

However, what is before Members? Both middle missile systems, for we have only cut the minute amount of $150 million. However, even beyond that we did not make a decision about how we are going to spend the money on both systems. Do Members know what happened, Mr. Speaker? Members of the House, the conference report said we will take $150 million out of the MX and the small mobile system, and we will give the decision to the administration as to how the administration will choose to spend the money, so we have again abrogated our responsibility to make a decision.

We do not need two mobile systems. I would add, parenthetically, I do not think we need any of these mobile systems. Peace is trying to break out all over the world.

Finally, if Members even accept the assumption of the Reagan administration which said we will send the Soviet Union to the negotiating table, I would suggest, Mr. Speaker, the Soviets are at the table. Why are we not there? Why are we not there negotiating against the madness of nuclear war, against the insanity of a $300 billion military budget, and begin to redirect the priorities to solve the human problems of this country and help citizens enhance the quality of human life in the world?

In conclusion, I would say, Mr. Speaker, with all due respect, I continue to oppose the assumption upon which this conference report is built. For those Members who voted against this budget when it left the House, it is worse than when it left the House. Members should continue to vote no. For those Members who voted because they thought there were positive things in it, most of those positive things are gone. If Members do not believe the comments I have made, read the report, look at the so-called arms control provisions, and Members will find that they are gone.

I rise in opposition to the conference report. In the few minutes that I have, during that period of time I would try to convince my colleagues to vote against this conference report. It is not in the best interests of this country. It is not marching in tune with the rest of the world.

Mr. QUILLEN. Mr. Speaker, I yield 6 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Speaker, as far as I am concerned, this is a very sad day on the floor of the House of Representatives because of the bill that we have before Members.

Let me give Members a little background. I came to Congress in 1983 and had to sit through committee hearing after committee hearing with the Congress of the United States of the Committee on Armed Services, beating up Casper Weinberger because Weinberger refused ever to have any priorities in terms of what the defense budget ought to look like. We would pummel Cap day and night telling him, "Please establish some priorities," and Weinberger would say, "I cannot do that because everything is a priority." Therefore, we would bash Cap, and he had no credibility on Capitol Hill, according to many members of the Committee on Armed Services.

With the end of Weinberger, we then end up with Frank Carlucci, who perhaps was a little bit more of a prioritizer. Frank was kind of here, and then he was gone, and everybody reached a crisis point. How are we going to make tough decisions up here?

So we get a new Secretary of Defense by the name of Dick Cheney, and he comes up here and says, "We will have a giant budget shortfall over the next 5 years. We have shrinking resources, and we have to make some hard choices.

Now, we have Members who had been here for a long time, who deserve some credit. One of them is the gentleman from Wisconsin [Mr. ASPIN], and the other is the gentleman from Alabama [Mr. DICKINSON]. Do Members know what they said? They said that Cheney was right, that this is an era of limited resources, and that we should turn away from having a defense bill that was a job bill, and we ought to have a defense bill that is a defense bill, and we ought to make some hard choices.

Honestly, sometimes during the debate, both in the House and in the conference committee, I became convinced that the relationship between national security and the Defense authorization bill is purely coincidental. See, it is not supposed to be coincidental. The Defense authorization bill is supposed to be designed to meet the threat that is presented out there, not to be a jobs bill.

So, Cheney comes up here. Imagine that the Secretary of Defense of the United States in the Pentagon, comes across the river, and tells the Congress, "I want to eliminate weapon systems." Imagine that. That has not happened before in probably 25 years that the Pentagon actually found a system they did not like. Do Members know what the Congress of the United States said? "Well, we know you don't like that system, Mr. Secretary, but we are going to give it to you anyway, whether you want the F-14 or not, you are going to build it. Whether you want the B-22 at the cost of $28 billion or not, does not matter what you think, Mr. Secretary. You will build it. It does not matter whether you want the AHIP or not, the helicopter. If you don't want it, that is tough. You are going to build it."

The Congress of the United States turned the Defense authorization bill into a jobs bill and rejected all the program determinations that the Secretary of Defense made except for a smattering of a few that add up to a few pennies.

The gentleman from Wisconsin [Mr. ASPIN] and the gentleman from Alabama [Mr. DICKINSON], in the Committee on Armed Services, led the fight to make decisions and make terminations and have priorities. They were all rejected. It is a sad day.

Let me tell Members where we are going to end up. Reagan spent a trillion dollars in rebuilding the defense of the country. The gentleman from Wisconsin [Mr. ASPIN] had hearings, and those hearings indicated that, maybe we made some bad decisions, but overall, we made wise decisions. Let me tell Members where it will end up. This Defense bill with 14's and 22's and AHIP's and everything else from A to Z that the Pentagon did not want but we forced them to have, we are like a newly married couple who goes out and buys a home that they cannot afford, and a person goes inside the

home and they do not have any furniture. They have a bunch of lawn chairs inside because they have overextended themselves. That is what we are doing with the Defense bill. We are going to reverse the investments that we made under Ronald Reagan. We are reversing them because we are creating a hollowed military that buys all these big ticket items: LH-X helicopters, $40 billion; B-2 bomber, $535 million a copy; of course, no person but the tooth fairy believes it will be $535 million a copy. It will be far more than that. We have more 414's, a poison pill. Without the gentleman from Wisconsin [Mr. ASPIN] and the Gentleman from Alabama [Mr. DICKINSON], there would not be a poison pill.

Do Members know what will happen? We will have no money left for training. We will have no money left for spare parts. We will have no money left for fuel. We will have all these shiny, beautiful Pentagon objects, and no ability to make them work. We are going to hollow out this military force, and it is the soldier and the sailor and the flier that will pay the penalty for this. It is a tragedy.

We have been reading about these Navy pilots crashing on the decks, and some people say maybe it is because they do not have all the readiness money they need. I asked the staff member of the Subcommittee on Readiness, "Have we been cut back in readiness?" "Yeah, we have, and we will be cut back more." We have seen the dramatic cuts that are coming in the future, because big ticket items are not the building blocks of the military. We did not make any hard choices, and we did not make them because we put parochialism ahead of what national security concerns should have been. It is not the gentleman from Wisconsin, Mr. ASPIN's fault, and it is not the gentleman from Alabama, Mr. DICKINSON's fault. They walked to the edge of the plank in an effort to make hard decisions, and we rejected it. It is tragic. I talked to the Chair, and perhaps next year we will be willing to make hard choices and establish priorities, but it is a missed opportunity. It is a tremendous missed opportunity to actually establish security policy based on the threat and matching them with limited resources. Instead of doing it, we bought everything, and we forgot the basics of what gives citizens real national security and real national strength.

As a Republican, I salute Dick Cheney, the high priest of budgetary reform, the high priest of Pentagon reform, a Republican who said we cannot afford everything, folks, we have to make hard choices.

□ 1110

You know what? Republicans and Democrats alike rejected the notion of making hard choices and accepted the notion of having the defense jobs authorization bill, pork authorization bill, rather than the defense security authorization bill. I hope that next year at least we will have an opportunity to get back to that and make some hard choices.

I intend to vote no on the bill. I expect it is going to pass, but I have no choice but to vote no.

I do want to salute the gentleman from Wisconsin [Mr. ASPIN] and the gentleman from Alabama [Mr. DICKINSON] for leading the good fight in the committee and doing the best that they could possibly do. It is just not good enough.

Mr. BONIOR. Mr. Speaker, I yield 3 minutes to the able and distinguished gentleman from Florida [Mr. BENNETT], a member of the committee.

Mr. BENNETT. Mr. Speaker, like the gentleman who just spoke, I want to congratulate the efforts that have been made by the gentleman from Wisconsin [Mr. ASPIN] and the gentleman from Alabama [Mr. DICKINSON] to get a strong bill and a good bill.

Unfortunately, this is not that kind of a bill. It does not address the things that this country needs most. What has been lacking is partly a matter of process.

Under the Constitution it is said that the Congress has the responsibility to provide for the national defense.

Well, are we doing that? We took Mr. Cheney's approval of a package that he sent to us, and the subcommittee never changed it. They just took exactly what he wanted. It took the actions of the House Armed Services Committee and the further actions of the Congress as a whole to give us a bill that was somewhat livable.

Now, Members can talk about which things are parochial and which are not. I do differ with the gentleman from Ohio [Mr. KASICH] about the parochiality of the F-14, which the media has rated as being parochial, but actually is a plane needed on Navy carriers. If we do not build it in sufficient numbers, we are not going to have any need for the carriers, because they will not have anything with which to distribute the weapons that might be needed to be distributed against enemies.

The thing that is mostly wrong about what has happened has been a procedural matter. In the first place, Congress has not given the leadership. It is our responsibility. It is not Cheney's responsibility, it is not the President's responsibility, it is the responsibility of Congress to provide for the national defense.

We are not doing it. Our subcommittee just washed its hands and took what came from the Pentagon 100 percent. They did not cross a T, did not dot an I. That is a great mistake. We should never do that again.

Another thing, in the conference itself, I was there for every minute of the conference and I do not remember a single vote being taken by the conference, not a single vote being taken. Certainly not many were.

The conference really abrogated its responsibility. The conference really became the big four, the chairman and minority leaders on both sides. That is not a very democratic process.

As a result, although the House by a vote turned down the Midgetman, we now have the Midgetman. Members ought to be able to make a decision to get rid of one of the mobile land-based ICBM's. We have a very fine one at sea in the submarine. Why do we need more? Certainly we do not need two more.

The B-2 the House position was to have two and cut it off and look at it in the future before we went any further. What the conference did was give us five long-lead items in addition to the two in the bill.

All the way through the bill, things Congress decided they did not want to have were given away by the conference procedures.

So, Mr. Speaker, I appreciate the opportunity to be able to speak in this period of time. We only have a very few minutes in the actual debate. We are using the rule not because there is something wrong with the rule, but because we are disturbed about the bill.

Mr. QUILLEN. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Speaker, this conference report contains several provisions which create new entitlement authority and new budget authority. These provisions will cause the Armed Services Committee to exceed their 302(b) allocations of new entitlement authority and new budget authority in violation of section 302(f)(1) of the Budget Act. The bill also contains several entitlement provisions which will become effective in fiscal year 1991; since Congress has not yet adopted a budget resolution for fiscal year 1991 these provisions violate section 303(a) of the Budget Act.

Specifically, this bill creates a variety of new pay entitlements including the 3.6 percent pay raise, annual muster duty pay for reservists, military physician special pay, aviation career incentive pay, and adjustments to the variable housing allowance [VHA] to be effective in fiscal year 1991.

The bill expands the benefits offered under the Montgomery GI bill at a cost to the Government of some $35 million in the first year, which becomes effective in fiscal year 1991.

This bill also contains several provisions which allow the Department of Defense to sell properties and use the

proceeds to acquire or build other facilities. These provisions create budget authority—some $177 million—which are outside the appropriations process.

One additional issue, changes to the Survivors Benefit Plan, has arisen since the House last saw this bill. It violates the Budget Act and stands to cost the Government quite a bit of money over the next several years. The impact of proposed changes in the Survivors Benefit Plan is that military retirees will pay less in premiums to participate in the program, thereby requiring the Government to pay more. In fiscal year 1990, outlays from the trust fund used to cover these expenses will rise by $67 million. In fiscal year 1991, additional outlays will be somewhere around $101 million. To fund its contributions to the trust fund that supports this program, DOD will require an additional $173 million in budget authority in fiscal year 1991—a figure that will climb to $213 million in 1994.

These issues are all serious ones that will add to our problem of achieving deficit targets in the future. Therefore, I oppose the waiver of these Budget Act points of order, and intend to vote against the rule.

Mr. Speaker, with respect to the substance of the military bill, we have heard a good deal of talk lately about the evil effects of the sequester. The Pentagon's Comptroller gave us I think a bit of an overblown look at disaster yesterday in the presentation before the other body.

As a matter of fact, some of the worst hits that are occurring to the Pentagon are occurring by reason of the changes by our Appropriations Committee. If one takes what has been passed so far, some of the worst hits occur in military construction of family housing, RDT&E under DOT and Air Force. None of those are likely to be sequestered. All of those serious hits are going to occur because the Appropriations Committee gave those accounts a lower priority.

So in most cases sequester is not the villian, it is the Committee on Appropriations.

Mr. BONIOR. Mr. Speaker, I yield 5 minutes to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, first I want to thank my distinguished colleague, the gentleman from Michigan [Mr. BONIOR] for yielding this time.

Mr. Speaker, I do not think I have come to the well to oppose a rule more than perhaps twice in my entire 15 years congressional committee career, but I am going to do so today.

I rise in strong opposition to the rule for the consideration of the conference report on H.R. 2461, the National Defense Authorization Act of 1990 and 1991.

The rules waives all points of order against the conference report. This waiver denies me the right to raise a point of order against section 1215 of the conference committee bill, which is a nongermane Senate amendment. I object to the substance of the Senate amendment. I object to the fact that the managers of the conference committee thought they had jurisdiction and competence to repeal laws within the responsibility of other committees, laws which the Congress passed more than a year ago and reaffirmed less than a month ago.

I most strongly object to the process by which the House managers agreed to accept this Senate amendment. Like my colleague from Florida, I was a conferee. I do not remember voting on anything in the conference. I have never attended a conference where we did not have an opportunity to vote on issues. It was decided by the big four.

Section 1215 would effectively repeal a provision of the Anti-Drug Abuse Act of 1988 relating to the distribution of the proceeds of drug forfeitures by the Department of Justice.

Section 1215 has no business being in the defense authorization bill. There are enough controversial issues in the bill that are within the special province of the Committee on Armed Services without trying to get into things that are not within their expertise or province or jurisdiction, and over which they have no interest.

It is not only a nongermane Senate amendment, but it is a bad amendment. Judiciary members of the conference committee maintained that stance from the onset, while at the same time attempting to develop a workable compromise. The Senate, however, insisted upon its version, and the leadership of the House Committee on Armed Services capitulated. They caved in to the demands of one Senator.

In fact, unlike any other conference committee I have ever served on, the issues in dispute were never discussed in any detail by the full conference. Instead they were resolved by the chairman and ranking minority members of the two committees, the big four, who then offered to brief the other conferees on the resolution of those issues.

Section 6077 of the Anti-Drug Abuse Act of 1988, which the Senate amendment would repeal, was designed by the Judiciary Committee to protect States, to insure that they could determine how the proceeds of purely State investigations, State seizures, State prosecutions, would be distributed within a State.

□ 1120

Mr. Speaker, since the passage of the Comprehensive Drug Penalty Act of 1984, Federal laws encourage the Justice Department to give State and local law enforcement agencies their fair share of the fruits of joint Federal, State, and local enforcement actions which result in Federal forfeiture. In recent years, however, some States have attempted to abuse the Federal process by running State forfeitures through Federal courts to avoid State law.

California is noteworthy. In California, the police in that State took State seizures and ran them through the Federal courts to avoid the State law which requires that two-thirds of the proceeds would go to law enforcement, and one-third to education and treatment. Now California in the interim has changed that to make it a three-quarters to law enforcement, one-quarter to other needs. The States should decide how States deal with their assets, not the Federal Government, and the Federal courts, which are already congested with matters that are rightfully before the Federal courts, and Federal process should not be used to circumvent State laws that deal with the disposition of State assets. That was the issue.

Mr. Speaker, I really do not understand how my colleague from Wisconsin, the chairman of the Committee, who I think would concede knows very little about adoptive forfeiture, who really has no interest in adoptive forfeiture, could cave to the Senate. The answer is that he had no interest because he does not work on forfeiture, never participated in the 1982 Forfeiture Act, the 1984 Forfeiture Act, never participated in the tightening amendments, and has very little knowledge, of forfeiture generally. He would also concede, I suspect, if he came to the well, that he really knew very little about adoptive forfeiture when he gave the issue away. I think he would also concede that there is very little chance of local police departments in my State or any other State seizing the B-1 bomber or otherwise having one forfeited to the Government. It does not belong in this conference report.

Mr. Speaker, it is a sad day when we basically savage the process of the House. Rule XXVIII was designed to deal with just this type of legislating and arrogance of power which runs roughshod over the committees that have the expertise.

I urge the defeat of the rule.

Mr. QUILLEN. Mr. Speaker, I yield 4 minutes to the gentleman from Alabama [Mr. DICKINSON].

Mr. DICKINSON. Mr. Speaker, I have listened to all of the preceding speakers, both pro and con, about the adoption of the rule, and I would have to admit that there are many legitimate claims of unhappiness. There are many things about the bill itself that I am not happy with, and I will speak to that when we get to the bill itself.

Mr. Speaker, the gentleman from New Jersey [Mr. HUGHES], who just

preceded me in the well speaking about forfeitures, has a justifiable complaint. We had a very difficult conference. As a matter of fact, it was as long as any conference I have ever sat on, and I think it lasted something like 9 weeks. The conference was very difficult, and those matters which could not be resolved by all of the conferees finally were resolved by the chairmen and ranking members of the House and Senate Armed Services Committees.

Mr. Speaker, I am not particularly proud of the product of this conference. But I will have to say to the gentleman from New Jersey [Mr. HUGHES] and all of those who have discussed the bill so far, that we did the best we could with what we had. It was not easy. We labored long and hard over it. We had night sessions, and we had Friday morning sessions, when everybody else was going home, trying to resolve the seemingly unsolvable issues that we were faced with.

I can only say, in answer to some of the charges and in defense of what the conferees did, that we acted in good faith and we tried to consider everyone's point of view. On those that were not reconcilable, we had to make tough decisions, which we did. When we went to the Committee on Rules yesterday asking for this rule, we asked for waivers to get around some of the objections that have just recently been made. We finally put together a package by brute strength and the will of the conferees. Ultimately, conferees agreed to the package because, if we did not, we would not get a bill.

Mr. Speaker, we are expecting to get out of here by Thanksgiving. The appropriators have deferred their action, waiting on the authorizing committees. I think in our good faith they waited an additional 2 weeks, hoping to get the product of our efforts before they started their appropriations process. This time crunch ultimately forced us to make decisions.

My colleagues in the House, just let me say that we came up with the best bill we could. If we do not approve the rule, we are not going to improve the bill, and we will open the package up again, and for that reason I urge Members to approve the rule.

Mr. BONIOR. Mr. Speaker, I yield 5 minutes to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, let me just say that I think that some of the complaints that I hear, not the complaints about the rule, but the complaints about the conference report itself, are really more complaints that ought to be directed to the bill that we sent over from the House rather than the conference report. The gentleman from Ohio was going through the problems, that Mr. Cheney asked for a lot of program termination and the conference report is not giving it to him. Well, the House did not give it to him, as the gentleman from Ohio correctly pointed out. The gentleman from Alabama [Mr. DICKINSON] and I tried in the committee to get the Committee on Armed Services to go along with the Cheney budget cuts, the procurement items that he wanted to terminate. I thought we ought to vote for that not because I thought that Cheney had any particular philosophy behind his proposals. I thought that was a weakness, not because I would have picked those programs to terminate as my choice, but because it is important to terminate programs, and I think we are going to revisit that issue again next year.

The gentleman from New Jersey [Mr. HUGHES], who was in the well, is at least correct in saying that we have to terminate programs. The budgets are going down. I believe that we are dealing with this year the last deficit-driven defense budget, which is a defense budget that is coming down a few percentage points in real terms due to the deficit. What we are likely to face next year is the first of a series of Gorbachev-driven defense budgets, and it is going to make coming down 1 or 2 percent in real terms look like fat funding. If we had problems dealing with program terminations this year, just wait until next year, but, as I say, the conference report has to deal with the two bills that were sent over from both Houses.

□ 1130

The Senate did terminate some programs. The House bill terminated very few.

I think, to echo the comments of the gentleman from Alabama who just preceded me, we were dealing with what we had and I think we in effect came up with a pretty good compromise on the program terminations.

Likewise, the gentleman from California [Mr. DELLUMS] was making reference to the fact that we did not terminate any other programs when we failed to terminate the programs that Mr. Cheney wanted to terminate. The gentleman is right. He is right, but we did not do it in the House bill that we sent over, either.

The point is that we did have the Dellums amendment which cut the SDI Program further. It did not pass.

We did have a Dellums-Kasich amendment which would have terminated the B-12. It did not pass.

We did have a vote on a motion to recommit by the gentleman from Alabama to terminate the Midgetman, but before that we had a vote on the amendment of the gentleman from Massachusetts [Mr. FRANK] which failed to terminate the Midgetman. So we do have a problem with program terminations, there is no question.

The issue is, what do you do in conference? What you do in conference is deal with the two bills, that are before us, one from the House and one from the Senate.

Mr. FRANK. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Massachusetts.

Mr. FRANK. Mr. Speaker, I thank the gentleman for yielding to me.

I will concede that when I offered the motion to terminate the Midgetman, it was defeated. With the superior persuasive ability that I gained from my friend, the gentleman from Alabama, it carried by a very large majority.

Frankly, if you look at costs, had we gone ahead with keeping the Midgetman terminated, we would have saved more money on the projection than in all the terminations we did not do, because if you look at the Midgetman, it was far more expensive than the ones we continued.

So I understand the gentleman's dilemma. I think the gentleman did a reasonable job, but in fact the House did vote by a large majority, better than 2 to 1, to terminate the Midgetman. That termination, had it been maintained, would have saved more money than all the other terminations.

So we did make some conscious decisions in the conference to unterminate. We were willing to terminate some small stuff, but they insisted on continuing the big dollars.

Mr. ASPIN. If the gentleman will permit, let me just make one correction. The cost of the Midgetman termination is above all except for the V-22. The Midgetman is a $25 billion program.

Mr. FRANK. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I yield to the gentleman from Massachusetts.

Mr. FRANK. The $25 billion on the Midgetman is the lowest by far that I have heard. How many Midgetmen are you going to buy for $25 billion?

Mr. ASPIN. On top of what has already been spent. If we were to terminate now the Midgetman, let me just make this statement.

Mr. FRANK. Will the gentleman promise me that we are only going to spend $25 billion more on the Midgetman if we take it forever?

Mr. ASPIN. If the gentleman will let me reclaim my time, if we are looking at the costs of these programs, the cost of the Midgetman is less than the cost of the V-22. You can buy both the Midgetman and the V-22——

The SPEAKER pro tempore. The time of the gentleman from Wisconsin has expired.

Mr. BONIOR. Mr. Speaker, I yield 2 additional minutes to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, we are talking of differences on a big order of magnitude.

The ones that you save the least by terminating the programs are those that are at the end of their life; mature programs like the F-14, the AHIP Program, the Apache Program, you terminate those and you do not save a lot of money.

The V-22, if you terminate that, you save a lot of money because that is a program which is beginning. If you terminate the Midgetman, you save a lot of money, because that is a program that is beginning.

I will contend and I will show the gentleman the figures that the V-22 is more expensive.

Let me finish my statement. Of course, the most expensive program of all of them, with one exception is, of course, the B-2 program. The B-2 program, you are talking about $74 billion.

In fact, you can buy both the Rail MX and the Midgetman for about half the cost of the B-2.

And of course, the most expensive program of all which dwarfs even the B-2 is the SDI Program, and nobody knows where that program is going in terms of cost.

Mr. DELLUMS. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. I am happy to yield to the gentleman from California.

Mr. DELLUMS. Mr. Speaker, I thank the gentleman for yielding to me, but I think my distinguished chairman's disposition is exactly my point.

We are always talking dollars here. We are not talking policy. The world is alive with peace, and we are still pursuing nuclear weapons and a $300 billion military budget. That is the whole point of it. All we are doing is talking dollars and not policy.

Mr. ASPIN. I was talking policy and dollars, because that was the issue that came up in connection with these program terminations. I am not arguing the question of policy raised by the gentleman from California.

What I am saying is when you are dealing with a conference report, you are dealing with a budget that has been sent over from the two Houses.

I believe next year we are going to have a very different configuration of that budget sent over from the two Houses; but basically, we are dealing with the budget of the two Houses. It is a conference report. It is a good conference report, and I hope we approve it.

Mr. QUILLEN. Mr. Speaker, I yield 3 minutes to the gentlewoman from Maryland [Mrs. BENTLEY].

Mrs. BENTLEY. Mr. Speaker, I join with my colleague, the gentleman from Minnesota [Mr. FRENZEL], the distinguished minority leader on the Budget Committee, and with the gentleman from New Jersey [Mr. HUGHES], who is also on the Merchant Marine and Fisheries Committee, where I sit, because I question with them this rule.

I feel that this rule is wrong and that for purposes of expediency we will waive all points of order, including germaneness, scope, and requirements of the Budget Act.

I have to ask myself, why do we pass rules of the House? Why did we pass the Budget Act if we have no intention of living up to the intent of these measures?

These are laws. Are we saying that Congress by a majority vote is beyond the law?

I believe this is a very bad signal to the country, especially in these days of the drug war, when we are telling the Nation to tow the line, we are saying that drug laws must be enforced, and yet we ignore the structures of every measure that was passed to limit the whims—of shall I say just the majority.

Is this the kind of message we wish to give the Nation in the year of the 200th anniversary of the Bill of Rights? Are the rights only for the majority?

Mr. Speaker, I urge my colleagues to vote against the rule and what it represents.

Mr. QUILLEN. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. WELDON].

Mr. WELDON. Mr. Speaker, I thank the gentleman for yielding this time to me.

I want to respond to some points raised by the chairman of our committee, who worked very hard in this conference process, along with our ranking Republican member.

While I am not totally satisfied with the conference report. I think a deliberate attempt was made to reach a consensus position, so I will support this delicate compromise and the rule. Still, I am concerned about some of the comments made in reference to two specific programs in this bill, the first being the Midgetman. We have not heard today in the discussion of this rule, from the chairman or the members who have spoken, about the add on in this bill. We heard that Secretary Cheney came in and made some tough decisions in 39 days to cut programs.

But what about the Midgetman? That was not a part of the Reagan defense budget. That was an add on by Secretary Cheney. The Midgetman cost estimates of $25 billion are conservative estimates. The costs over the life cycle of the program have been cited as high as $40 billion. Even at a conservative cost estimate of $25 billion the Midgetman is still an add-on program. A program that was not a priority of the previous administration. Why do we not hear that point being made, that there were Cheney add ons? Just as many have accused us of doing, Secretary Cheney added in funding for his favored programs and initiatives. I think we have to be honest about what really happened.

The other point that was made is that the V-22 was cut and would have resulted in a savings of $26 billion.

Well, that is perception, that is not substance. Anyone who has followed this issue through the committee and the subcommittee process knows that no one agrees with that premise, no one from General Gray to the budget people in the Pentagon. Eliminating the V-22 program will not save $26 billion, because Secretary Cheney proposed a costly alternative to the V-22. The alternative also maintains a jobs program in those districts where alternative helicopters are manufactured. We never seem to hear that mentioned. Furthermore, we have in fact been able to document, on the record, that the alternatives to the V-22 are equal in cost to the V-22 over the 20-year life cycle.

What we are really doing here is playing a game to see where we can save the most money in the shortest period of time over the next 2 or 4 years. That is what we are doing. Let us be honest with the American people and tell them that. Let us not play these perceptual games and think we are going to get away with it.

Mr. QUILLEN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BONIOR. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts [Mr. FRANK].

□ 1140

Mr. FRANK. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I wanted to take this time primarily to welcome the statement that was made by the chairman of the Committee on Armed Services when he talked about what he sees as the difference between the set of budgets we have had which have culminated in this one and next year's and when he talked about a budget being driven next year not just by the deficit but by international events and by our ability to deal with international events. I was very heartened by that.

Mr. Speaker, I am going to vote against the conference report. I will vote for the rule. I will vote against the conference report today because I think the time has come to make the changes, but in fairness to the Committee on Armed Services, we ought to understand that they operated under a constraint, that is, an arrangement that was made earlier this year, so much for defense, and so much for

other areas. I hope we have seen the last of those.

With Gramm-Rudman next year, we face a situation in which we are going to be in dollar-for-dollar choices, not as a political matter, but as a matter of reality between Medicare and the environment and housing on the one hand and unnecessary weapons systems on the other. In that context, I particularly welcome the chairman's efforts on program terminations. As long as we are going to have two strategic airplanes, two strategic mobile missiles, we are not going to be able to save the money. I hope the House will be willing next year to make those choices, one or the other.

Finally, we have those extraordinary changes that are taking place in Eastern Europe. It is a little bit as if we have been playing a kind of touch football game where we have had so many people covering the people on the other side. As I read it, Hungary and Poland have quit the game, and it seems to me that we are able to bench whoever was playing Hungary and Poland and maybe save some money. It does not mean that we think that everything is over, but with the changes that are taking place, clearly a reduction in the extraordinary degree to which the American taxpayer has had to bear our international burden for other people is reasonable.

I am going to vote against this conference report. It has some good parts. I was particularly pleased by what the chairman said, and next year we have to look at the ability to save some money, readjust to a new set of world realities, and in particular, yes, program terminations are going to be important. I hope we will start in the area of duplication in strategic systems.

Mr. BONIOR. Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 282, nays 130, not voting 21, as follows:

□ 1200

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Mr. ASPIN. Mr. Speaker, pursuant to House Resolution 285, I call up the conference report on the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). Pursuant to House Resolution 285, the conference report is considered as having been read.

(For conference report and statement see proceedings of the Senate of Monday, November 6, 1989, at page S 14717.)

The SPEAKER pro tempore. The Gentleman from Wisconsin [Mr. ASPIN] will be recognized for 30 minutes, and the gentleman from Alabama [Mr. DICKINSON] will be recognized for 30 minutes.

For what purpose does the gentleman from Florida [Mr. BENNETT] seek recognition?

Mr. BENNETT. Mr. Speaker, may I inquire of the gentleman from Alabama [Mr. DICKINSON] whether he is opposed to the conference report in its present form?

The SPEAKER pro tempore. The Chair inquires, is the gentleman from Alabama [Mr. DICKINSON] opposed to the report?

Mr. DICKINSON. Only partially, Mr. Speaker.

The SPEAKER pro tempore. Did the gentleman sign the report?

Mr. DICKINSON. I signed the report, Mr. Speaker, and I intend to vote for it.

Mr. BENNETT. Mr. Speaker, in that case I would like to claim one-third of the time since I am opposed to the conference report. Those are the rules of the House.

The SPEAKER pro tempore. The Chair announces that the time will be apportioned in three ways: The gentleman from Wisconsin [Mr. ASPIN] will be recognized for 20 minutes, the gentleman from Alabama [Mr. DICKINSON] will be recognized for 20 minutes, and the gentleman from Florida [Mr. BENNETT] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, on behalf of the Committee on Armed Services I am pleased to bring to the floor the conference report on the bill, H.R. 2461, the National Defense Authorization Act for fiscal years 1990 and 1991.

This conference report represents the culmination of some tough negotiations that began with our counterparts in the Senate shortly after Labor Day. Nearly 100 Members of the House of Representatives participated in this conference, representing the interests of many committees.

I have included in my full statement a list of major items in this conference report, but let me just touch upon a couple of points. At $305.5 billion in budget authority and $299.2 billion in outlays this conference report meets the fiscal targets set forth in the congressional budget resolution. I must also note, however, that this budget authority figure represents a 1-percent decline in real defense purchasing power over the fiscal year 1989 appropriations, marking the fifth consecutive year that the Defense budget will have drecreased in real terms.

Let me also say that this bill is based on an amended Department of Defense budget that was put together by our former colleague, Dick Cheney, at the President's request and after he had been in office as the Secretary of Defense for less than 2 months. We all anticipate that the Defense budget submission for fiscal year 1991 will contain a more clearly discernable strategic underpinning that the amended budget on which we have just completed action.

Mr. Speaker, let me now turn to the major provisions of the conference report.

MAJOR PROVISIONS

Strategic defense initiative: The conference report would authorize $3.804 billion for SDI including $220 million for DOE and $11 million for MilCon. This would be a 7-percent cut from fiscal year 1989 and a 22-percent cut from the request.

Bombers: The conference report would reduce B-2 funding by 9 percent, restrict funding until critical flight test standards are met, and require an alternative force structure report. Proposed B-1B electronic countermeasure recovery program would be contingent upon successful flight test program.

MX missiles: The conference report would prohibit the deployment of more than 50 MX missiles, regardless of basing mode. The previous deployment cap of 50 MX missiles, passed as part of the 1985 Defense authorization bill, applied only to silo-basing of the MX. The $1.3 billion request for Midgetman and MX rail garrison would be pooled and cut by $150 million.

Program terminations: The conference report would delay termination of new F-14D production by providing a final 18 aircraft; delay termination of AHIP helicopters with a final 36 modifications; continue R&D for the V-22 Osprey tilt-rotor aircraft and address procurement in 1991. Also addressed would be the proposed termination of the Phoenix missile next year. Terminations approved for 1990 and 1991: M88 tank recovery vehicle, HEMTT 10-ton truck; SSN 688 submarine; AH-64 Apache helicopters; F-15E aircraft; and LANTIRN aircraft pod system.

Drug interdiction: The conference report would clarify and strengthen DOD's role as the lead agency for detection and monitoring of the aerial and maritime transit of illegal drugs into the United States. $450 million—(up from $300 million in fiscal year 1989)—would be earmarked for increased DOD operations and cooperation with Federal, State, and local agencies with counternarcotics responsibilities. The prohibition on military involvement in direct law enforcement would be strengthened.

Cleanup at Department of Energy nuclear facilities: The conference report would authorize $1,659 million for defense waste and environmental restoration at Department of Energy defense nuclear facilities, an increase of $357 million over the budget request.

ABM Treaty interpretation: During fiscal year 1990 the administration would be required to follow its announced policy that the only SDI tests that can be conducted are those consistent with the narrow interpretation of the ABM Treaty.

ASAT negotiations: The conference report would include a Sense of the Congress that the President should explore the feasibility of the "strictest possible limitations" on ASAT's consistent with U.S. national security interests.

MIRACL: The conference report would accept the Secretary of Defense's commitment not to test the MIRACL—the Mid Infra-Red Advanced Chemical Laser—against an object in space during fiscal year 1990 and until the Congress has had the opportunity to consider the implications of any such test during action on the fiscal year 1991 authorization bill.

National aerospace plane: The conference report would authorize the transfer of up to $225 million from the Department of Defense R&D account to NASA for the national aerospace plane and restore the program to a joint defense and NASA venture.

Follow-on to Lance: The conference report would direct the Pentagon to conduct the development of the follow-on to Lance in a manner that preserves the option of producing this nuclear missile with observable differences from conventional missiles to allow arms control verifiers to distinguish nuclear missiles from nonnuclear missiles.

Technology base: The conference report would provide an additional $210 million for projects associated from the technology base and to authorize an increase in this account of 2 percent for fiscal year 1991. These funds will be used for high-definition television, x-ray lithography, superconductivity, et cetera.

Submarine and antisubmarine warfare technology: The conference report would add $82.5 million for ASW technology to gain a better understanding of the more fundamental phenomenology involved in ASW to help ensure the United States advantage in ASW in coping with the quieter Soviet submarine threat. An additional $95 million would be provided to DARPA to continue work in advanced submarine technology.

Shipbuilding: The conference report would authorize appropriations for 5 *Arleigh Burke*-class guided missile destroyers and multiyear procurement authority for a total of 25 ships over 5 years. Other authorizations would include one Trident submarine, long-lead for two SSN-21 submarines, and both research and initial procurement for a new class of fast sealift ships.

Operation and maintenance: The conference report would reprioritize the request to increase authorization for Army helicopter repairs, supply operations and overocean transportation, Navy aviation depot maintenance and ship repairs, and environmental restoration programs. The report would also prohibit severance payments to foreign nationals when foreign countries close U.S. bases on their territory; provide DOD assistance to certain school districts supporting military installations; clarify the prohibition on depot maintenance workload competition; establish new environmental restoration provisions; continue the authority of base commanders over contracting-out decisions; and provide authority to repair or replace property damaged by Hurricane Hugo.

Technology transfer: The conference report would extend to all Government-owned, contractor-operated laboratories performing research for the Federal Government, including Department of Energy weapons laboratories, authority to enter into cooperative research and development agreements to transfer technology developed in government laboratories to the private sector.

Military personnel: The conference report would provide a 3.6-percent increase in basic pay, basic allowance for quarters, and basic allowance for subsistence. The report would also extend and/or increase bonuses and special pays for pilots, physicians, and nurses; include new provisions for child care at military bases; revise the survivor benefit plan; and require a major study on total force policy, force mix and force structure.

Military construction and family housing: The conference report would authorize $8 billion for military construction including $3.3 billion for family housing and $75.4 million for 43 child care centers. Authorization for overseas construction would be reduced by 38 percent while authorization for construction within the United States would be increased by about 16 percent. A legislative provision capping the amount the United States can expend for construction of a peacetime base proposed for Crotone, Italy, at $360 million would also be included.

Mr. Speaker, certain tables were apparently omitted from the operation and maintenance section of the joint explanatory statement of the committee of conference on H.R. 2461 as printed in the CONGRESSIONAL RECORD on November 6, 1989. I am including these tables herein.

Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma [Mr. SYNAR] for the purpose of a colloquy.

Mr. SYNAR. I thank the gentleman for yielding.

Mr. Speaker, in July, I joined with the distinguished chairman of the Armed Services Committee, Mr. ASPIN, in offering a compromise amendment to H.R. 2461 which placed certain restrictions on the obligation of funds for procurement of B-2 production aircraft. The amendment passed the House overwhelmingly, giving the House conferees a strong position for the conference in this area. Unfortunately, the test-before-you-buy language in the conference report is not as strong as it was in the House-passed bill.

It is my understanding that the Air Force may propose a 1-year shift in the milestones included in the B-2 full performance matrix. If the Secretary of Defense agrees, and the delay goes into effect, the Air Force would then have no testing and evaluation requirements to satisfy before it could obligate funds for the production of B-2 aircraft in 1991. Such a shift would thus create a 1-year break in the annual test-before-you-buy requirements endorsed by the House. I would like to engage in a colloquy with Chairman ASPIN at this time to see if we can avoid this scenario.

If the Secretary of Defense does propose such a shift in the milestones included in the B-2 full performance matrix, will the chairman on behalf of the Armed Services Committee, resist this effort?

Mr. ASPIN. Mr. Speaker, the answer to that question is yes.

Mr. SYNAR. Mr. Speaker, If, despite the chairman's efforts, the Secretary's is successful in shifting the B-2 full performance matrix milestones, will be then, on behalf of the Armed Services Committee, take the lead in including language in the defense authorization bill for fiscal year 1991 which is identical to the language which he and I cosponsored in the House-passed version of H.R. aircraft in any given fiscal year unless and until the Secretary certifies that all of the performance milestones for that fiscal year have been met?

Mr. ASPIN. Again, the answer is yes.

Mr. SYNAR. Mr. Speaker, I thank the distinguished chairman for his assurance. I realize, however, that the chairman cannot guarantee that he will be successful in his efforts. If not, I will have to give serious consideration to joining with those who may wish to kill the B-2 program on the floor next year, because it is clear that the Department of Defense will resist to the bitter end any and all efforts at putting teeth into the test-before-you-buy concept.

Mr. ASPIN. Mr. Speaker, I reserve the balance of my time.

Mr. DICKINSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, if I may have the attention of the chairman, in order not to mislead anyone, I would like to emphasize that the chairman was speaking for himself and not for the full committee because I do not think that I agree with everything that was said.

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. DICKINSON. I yield to the chairman.

Mr. ASPIN. I thank the gentleman for yielding.

Mr. Speaker, the gentleman is correct.

Mr. DICKINSON. The chairman is speaking for himself, not for the full committee.

Mr. ASPIN. The gentleman is correct.

Mr. DICKINSON. Mr. Speaker, I reserve the balance of my time.

Mr. BENNETT. Mr. Speaker, I yield 2 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I thank the gentleman from Florida for yielding time to me. He has been wonderful in all of this.

Mr. Speaker, when I learned of the contents of the conference report, I asked myself three questions:

First, in its negotiations with the Senate, did the House get a good deal?

Second, does the agreement represent sound defense policy?

Third, does the agreement protect the taxpayer, now and in the future?

And, to each question, the answer came back "no". So, despite the fact that I think Chairman ASPIN made a credible effort and despite the fact that there is much in this bill which I like, I must oppose the conference agreement.

In dealing with the Senate, the House was ransacked. When Secretary Cheney said the F-14D was an expensive plane, he did not know the half of it. To continue procurement of the F-14D, the Senate demanded and got the House to back down on issue after issue. The Senate insisted the House recede on strategic programs, on conventional programs, on personnel programs, and on readiness programs. It's not that the Senate was so opposed to 18 additional F-14D's. Rather, the Senate sharpies knew what the House needed politically and bluffed the House into selling out everything else. Similarly, the Senate extracted another $150 million in mobile missile programs because the House insisted on capping MX's at 50.

Yet, the House-Senate poker game pales in importance to the other two questions. This bill does not set an intelligent defense policy. It funds two mobile land-based missiles. There is real doubt as to whether we need one. It fully funds the B-2 bomber. There is, frankly no mission for a penetrating manned bomber in the future. We might as well be investing in spears and coats of mail.

And, the bill makes no move toward restructuring forces to reflect the leaner, defense-oriented, more rear deployed forces of the post-CFE, budget austerity years ahead. The bill continues the bellicose defense policies of the Reagan years.

Do the taxpayers get a good deal? Certainly not. The bill says no to no weapons program. If its designed to shoot or fly or go boom, we'll buy it. Program terminations proposed by Secretary Cheney were delayed or eliminated. No additional program terminations were added. If the drafters of this bill were women, they would be pregnant all the time, since they cannot say no. The B-2, Midgetman, and the V-22 will all blossom into massive new entitlement programs. And future deficit reduction efforts will be undermined.

Over the next decade, defense budgets will go down in real terms. Yet, these new procurement programs will keep going up. This means that the share for personnel, readiness, and military construction will plummet. We will return to a hollow military. We will have to cut troops and will end up with toys, but no boys.

This year, the House of Representatives stood up and said it was time to change. A missile system was killed. The B-2 was slowed. Funding was shifted to readiness programs, to the war on drugs, to environmental restoration. The Senate blindly rubberstamped the Cheney budget. In conference, the restructuring voted on the House floor was mated with the program terminations of the Cheney budget and, lo and behold, a cold war budget appeared: We got a defense bill aimed at an evil empire that no longer exists.

I cannot support this conference report.

Mr. ASPIN. Mr. Speaker, I yield 2 minutes to the gentleman from Mississippi [Mr. MONTGOMERY], the chairman of the Committee on Veterans' Affairs.

Mr. DICKINSON. Mr. Speaker, I also yield 2 minutes to the gentleman from Mississippi [Mr. MONTGOMERY].

The SPEAKER pro tempore. The gentleman from Mississippi [Mr. MONTGOMERY] is recognized for 4 minutes.

□ 1210

Mr. MONTGOMERY. Mr. Speaker, I rise in support of the conference report on defense authorization. I want to emphasize several points. First, the Defense Department historically has not provided sufficient new

equipment in the procurement budget for the National Guard and Reserves. This year, as in the last 8 years, it has been Congress that has provided this procurement.

During the Armed Services Committee deliberations, I offered an amendment to add a $1.2 billion Guard-Reserve procurement package. The conference has agreed to add $995 million in new procurement for the Guard and Reserve. This will provide modern, first line equipment to our Reserve components.

The conference report also recommends an expansion of the Reserve peacetime GI bill to include vocational-technical and on-the-job training. This won't make the Reserve Educational Program equivalent to the active program, but it will bring it more in line with the types of educational opportunities available to active component members.

There are also two medical provisions in the report that are very important to active duty personnel and veterans alike. First, the agreement authorizes $20 million for continuation of the VA/DOD Cooperative Research Program during fiscal year 1990. This joint research program was first authorized in 1987 and continued in 1988 and 1989.

The second medical provision is the authority to allow CHAMPUS funds to be used under medical resource sharing agreements between the VA and DOD.

The General Accounting Office, in a 1988 report to Congress, was critical of Congress for placing restrictions on the use of these funds for the care and treatment of eligible military personnel at nearby VA medical centers.

The chairman of the Defense Appropriations Subcommittee, Mr. MURTHA, and I recently visited Albuquerque, NM, where we saw firsthand the benefits that accrue to both the Air Force and the VA. This makes a lot of sense.

Finally, the Senate-passed bill contained a provision that established a commission to determine whether there should be a program of national service. Because of the potential impact national service would have on veterans benefits and military services, and educational programs under the jurisdiction of the Education and Labor Committee, conferees from these committees were appointed on this issue. My good friend, SAM NUNN, the chairman of the Senate Armed Services Committee and the ranking member, Mr. WARNER, graciously took into account the concerns raised by the conferees and agreed that legislative initiatives currently being considered would provide the information needed to assess a broad-based program of national service.

I know national service is a very important issue to the gentleman from Georgia, as it is to my colleague and friend from Oklahoma [Mr. MCCURDY] and I appreciate their willingness to be flexible on this issue.

Mr. Speaker, I find this conference report to be fair and will vote for its approval.

Mr. Speaker, in closing, let me mention that our staff director on the Committee on Armed Services, Kim Wincup, will be leaving our committee. I am sure the chairman will talk about this in a few minutes.

I want to talk about my close friend, Kim Wincup, who will be leaving the committee in the next few days. This will really be Kim's last time to be involved in a military bill, I guess, for a long time. Kim will be moving over to the position of Assistant Secretary of the Army for Manpower and Reserve Affairs. He will be confirmed by the Senate next week. Kim has been outstanding as staff director of our committee. He has worked very well with Members of Congress, whether a person is on the Committee on Armed Services or not, and certainly he has been a strong leader for the very large Defense staff.

We need the best persons available to help run the Army, and Kim is qualified to run the Manpower and Reserve of the Army.

Mr. Wincup was general counsel of the Personnel Subcommittee in the seventies. We had just started the All-Volunteer system and we had many personnel problems. Kim helped us all in moving through these tough times.

I am proud that Kim Wincup was nominated for this position and will accept.

He will be truly missed by all of us.

Mr. ASPIN. Mr. Speaker, will the gentleman from Mississippi yield?

Mr. MONTGOMERY. Mr. Speaker, I yield to the gentleman from Wisconsin.

Mr. ASPIN. Mr. Speaker, I thank the gentleman for yielding. The gentleman brings the issue up here now. I was going to raise the issue at the end of the debate, but now that the gentleman from Mississippi has raised it, I would like to also say something about the service that Kim Wincup has performed for the Committee on Armed Services.

The chief of staff of the Committee on Armed Services, who has been with the committee for a long time has been absolutely vital to the success of our operations. We are all going to miss him a great deal. I, personally, am going to miss him probably most of all. He has been tremendously helpful, and without his help, trying to work through these complicated bills every year would be just simply impossible. Therefore, I would like to echo the comments of the gentleman in the well, and say that all Members will miss him a very great deal, and wish him well on his new assignment.

Mr. DICKINSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I, too, would like to join in wishing Godspeed and best wishes to my good friend, Kim Wincup, who will be leaving the committee. I have worked with him for all these years and he has really made a difference.

As a matter of fact, the chairman and I and other Members of the committee are going over to the Senate this afternoon to testify before the Senate Committee on Armed Services in regard to his confirmation. I would like to mention another bright note and sad note. We have another distinguished staff member of our committee, Steve Conver, my senior Republican staff person, who is leaving us. He, too, has been nominated for a Pentagon job and is waiting for Senate confirmation. He is slated to be Assistant Secretary of the Army for Research and Acquisition. Therefore, the Committee on Armed Services will be well represented in the years to come in the Army. Steve will be succeeding Jay Sculley, who many Members remember with affection for the fine job he has done for the Army for years. We will be losing two fine individuals and we wish them every success in the years ahead.

Mr. Speaker, I am not sure where to begin with the bill at hand other than to say I am somewhat embarrassed by it. I believe many of my colleagues feel the same way.

The fact that this bill is the product of 7 months of work, including 2 months in conference, reminds me of the old saying, "If you don't know where you are going, any road will do."

If the conference report before Members today is any indication, this Congress has no idea where it is taking the defense policy. While Congress continues to stumble blindly ahead, the American people are beginning to see the Defense budget process as the political charade that it has become.

In reaction to the House's partisan and wasteful approach to the defense budget, the Wall Street Journal recently observed that the "military-industrial complex," which we were warned about by President Eisenhower has been overshadowed by the "dove-pork complex," an antidefense coalition in Congress, predominantly Democrats, that oppose defense spending and weapons modernization, unless it means jobs in their district. While many of our colleagues will dismiss the notion of a dove-pork complex as the rantings of a conservative editorial board, the same certainly cannot be said of the Washington Post's recent criticism of House Democrats as weakening the defense and security of this country.

We may be fooling ourselves inside the beltway, but the general population does not appear to be so simpleminded. I find it ironic that many of the charter Members of the dove-pork complex, the same Members that were most vocal in their criticism of the Reagan military buildup, have been leading the charge to prevent Secretary Cheney from terminating defense programs that are no longer affordable in this increasingly austere budget environment.

Members should all know that there is a high price to be paid for having it both ways, that is, for cutting spending, but not cutting programs. You should also know that the bill collector is waiting right around the corner. Defense spending has now declined in real terms for 5 consecutive years. There is no fat left to cut, and there are no longer any gimmicks or shortcuts to substitute for tough decisionmaking. In order to meet congressional budget targets, Secretary Cheney accepted the challenge of cutting into military "muscle," and earlier this year proposed terminating a number of defense programs. The House not only refused to make the tough decisions, but it refused to pass the buck, and let the executive branch make them.

What is going to happen next year when Congress again cuts defense spending, and the Secretary proposes terminating twice as many programs as he did this year, and recommends closing more military bases? Can the House of Representatives continue to dole out expensive "golden parachutes" like it did for Long Island this year?

Will the House Democratic leadership, whip every defense program that Secretary Cheney proposed for termination and every suggested base closure, if it means lost jobs in Democrat districts? If so, it will be an around-the-clock job, because the cuts are coming in spades in fiscal year 1991. In fact, if the Department is forced to implement the current $8 billion sequester for the entire fiscal year, the cuts will be coming sooner than expected.

□ 1220

As if Secretary Cheney did not have a tough enough job managing this political, ad-hoc dismantling of the defense establishment, there is a disturbing development adding to the Secretary's management difficulties that I would like to bring to the attention of the House.

Between 1986 and 1989 approximately $2.7 billion was transferred out of Department of Defense accounts for nondefense uses. This included; $550 million for the Coast Guard, $500 million for Central America, $130 million for the State Department, $300 million for NASA, $110 million for Interior, Energy, Commerce, and Justice.

This year the problem has increased by orders of magnitude. While the Department of Defense was forced to transfer $2.7 billion for nondefense uses between 1986 and 1989, it is currently being asked to provide an additional $2.7 billion for nondefense use in 1990 alone. This includes; $800 million for the Coast Guard, $1.3 billion for the drug war, and $500 million for NASA.

In the simplest of terms, Congress has got to stop viewing the Department of Defense as a cash cow for other executive agencies. Defense is not and cannot afford to be an entitlement program.

The overall state of affairs with this bill is easily summarized.

First, Congress continues to cut defense spending but will not allow the Secretary of Defense to terminate programs. If this continues, we will certainly return to the "hollow military" days of the 1970's and,

Second, Congress is no longer willing to provide for a strong defense, but its eagerness and appetite for Department of Defense jobs at home is insatiable.

I tried long and hard to get the executive branch interested in fighting this bill on any number of grounds, but there were no takers.

Therefore, if the White House can live with this jobs bill instead of the defense bill it asked for in April, if the White House can live with cuts in critical strategic offensive programs that it has been asking me and many others to oppose for so long, and if the White House can live with the first negative real growth budget for SDI since the program's inception in 1983, then there is little reason for me, or for other defense-minded Members of Congress, to fall on our swords over this bill.

I reluctantly am going to support this bill because I think it is the best we could do under untenable circumstances. But if this is a trend of the future, I pity the country and worry about our security in the years ahead.

Mr. Speaker, I reserve the balance of my time.

Mr. BENNETT. Mr. Speaker, I yield 2½ minutes to the gentleman from Pennsylvania [Mr. RIDGE].

Mrs. ROUKEMA. Mr. Speaker, will the gentleman yield?

Mr. RIDGE. I yield to the gentlewoman from New Jersey.

Mrs. ROUKEMA. Mr. Speaker, I rise in opposition to this conference report.

Mr. Speaker, I do so not because I am against authorizing what may be considered necessary to provide for the defense of this Nation. I oppose this bill because I feel the will of the House on several issues, for which there was debate and decisive votes, has been thwarted by the conferees.

In particular, I object to the agreement to restore much of the funds which were reduced by the House. This report puts back $700 million cut from the SDI program. It restores $500 million for the B-2 bomber and eliminates the provision which requires the Congress to vote on a cost-reduction plan before the B-2 procurement funds are spent. This comes one day after allegations have been put forward that the manufacturer of the B-2 has bilked the U.S. taxpayer by billions of dollars. And, finally it fails to eliminate any programs terminated by the administration.

On another matter, I am disappointed with the House conferees for failing to support our position on several arms control provisions.

On chemical weapons, the House voted to eliminate the funds for chemical weapons production. The Senate never debated or voted on these programs. Yet, the House prohibition was eliminated. This in light of the administration's commitment to the elimination of chemical weapons. This is the only piece of the chemical weapons plan that does not fit the disarmament strategy.

The House voted to place strict controls on the testing of antisatellite weapons in space. The Senate again never debated or voted on this issue. Yet, the House provision was watered down to say we should "explore the feasibility" of such a treaty. This is perverse. Of course a treaty is feasible. We look ridiculous putting this in our bill.

On the issue of plutonium production, the House voted for a moratorium on the production of plutonium provided the Soviets continued their moratorium. Again, no Senate debate, no Senate vote. Yet the House ban is gone.

Mr. Speaker, I don't know the circumstances surrounding the politics of the conference but this looks like the House side gave away the entire House and therefore, I cannot support this measure.

Mr. RIDGE. Mr. Speaker, I thank my friend and colleague, the gentleman from Florida, for yielding me this time. There is no one in this Chamber that has a strong and aggressive and prodefense a record as the gentleman from Florida does in all his years in this body, and I think his leadership in opposition to this conference report is significant and shoud be noted by the balance of the Members.

Members know during the past couple of weeks we have been chastising the administration because of sequestration. We have said that sequestration means we do not make tough choices.

Well, I think the Congress of the United States has gone even further with the conference report. Not only do we not make some choices in here, but those few choices we do make are bad choices.

Let us review some of those. How about the no choice element? We know that in an economy and in a budget that has finite resources, we are going to have one mobile missile system. Yet this conference was unable to decide whether we wanted the Midgetman or whether we wanted the MX.

So what did we do in this marvelous interplay of forces? We decided to lump it all in one sum, $1.8 billion, and said, well, everybody else is not making choices, so we will abdicate our responsibility and let us fund both. There is no choice there.

We know in this body the choice that we want to make. Go back to conference on this one.

How about the bad choices? This body spoke to SDI, $3.1 billion. This conference brings it back $700 million above that level.

I heard the proceding gentleman complain about $60 million aircraft. We have got nine Stealth bombers in here; $500 to $600 million a copy. That is a bad choice, when they have not been tested.

No choices and bad choices. Think about this: More money for SDI than the body wanted. Many more Stealth bombers than we wanted and cannot afford.

So consider this, my colleagues: Much more money than we wanted in SDI. No choice, absolutely no choice, on the kind of missile system we wanted. Nine Stealth bombers we have not even fully tested. Those are the choices we made.

Do you know where they decided to cut? They are going to take $500 million out of personnel. So once again the House of Representatives puts equipment ahead of personnel. The last time I checked, when you were talking about defense, you still need people as much as you need weapons.

Let us send this thing back so they can make the tough choices and proper choices.

Mr. ASPIN. Mr. Speaker, I yield 1 minute to the gentleman from Missouri [Mr. SKELTON].

Mr. SKELTON. Mr. Speaker, first I wish to commend and congratulate Kim Wincup, our staff director, and wish him well. The words spoken by the gentleman from Mississippi and the gentleman from Wisconsin were certainly appropriate. We will miss him. He has done a great job for the Congress of the United States.

Mr. Speaker, a bill such as this is always difficult. One could go through it and find items with which one disagrees, or one can go through it and find many reasons to support it.

I support this bill. It is the result of long and arduous committee debate, floor debate, conference debate, and it is the work product of our legislative system at its best.

Does it please everyone? No. But quite frankly, it is a good product. I congratulate the chairman of our committee and those others.

Mr. Speaker, I might also add that we have made substantial progress in the area of military education, professional military education, part of which is in this bill.

Mr. DICKINSON. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. MARTIN].

Mr. MARTIN of New York. Mr. Speaker, I would like to enter into a little discussion with Chairwoman SCHROEDER concerning the move of the 401st Tactical Fighter Wing from Torrejon, Spain, to Crotone, Italy. The House approved my amendment to limit U.S. expenditures to $250 million for relocating functions now at Torrejon to other bases outside the United States. I arrived at $250 million figure because it represents 28 percent of the total cost of relocating functions, and 28 percent is our share of NATO infrastructure costs.

This $250 million figure was $220 million below the estimate of U.S. costs under the arrangement negotiated with NATO. In other words, we were told that the American taxpayer was supposed to pay $470 million of the relocation cost, while our NATO allies were to pay $415 million. In passing my amendment, the House said, in effect, the deal negotiated with NATO was unfair to the American taxpayer.

In conference, the cap was raised from $250 to $360 million. The conference report states.

The conferees recognize that under this agreement, the administration will probably have to reopen negotiations with our NATO partners so that our allies will pay a larger portion of the costs involved with the relocation of US forces from Torrejon, Spain. The conferees do not intend that the construction cost cap be met by scaling back the facilities to be built to support the men and women of the 401st TFW. The conference agreement is meant neither to preclude nor to mandate the construction of a new air base at Crotone, Italy.

My first question is: Can the Chairwoman see any way that the Defense Department can go forward with the planned relocation to Crotone, as described in our hearings, without renegotiating the cost sharing arrangements with NATO?

Mrs. SCHROEDER. Mr. Speaker, if the gentleman will yield, let me first compliment the gentleman from New York on his amendment. I see the amendment as saying four things:

First, the American taxpayer cannot afford $470 million for a new base;

Second, the deal developed with NATO is not a fair sharing of burdens;

Third, the Defense Department did not adequately explore other options for moving the 401st Tactical Fighter Wing, like bringing the planes home; and

Fourth, with a CFE agreement near, Crotone could end up being another Comiso: A brand new base rendered obsolete by an arms control agreement.

In answer to your question, we must renegotiate cost sharing to build Crotone as it is now planned. The use of the word "probably" in the conference report leaves open the possibility of a mission change. For example, the size of the 401st Tactical Fighter Wing in Europe could be reduced, thereby reducing basing requirements at Crotone. But, cutting quality of life facilities or delaying construction until after 1993 are not options under the amendment.

Mr. MARTIN of New York. I thank the gentlewoman. My second question is, What would be your advice to the Department of Defense, NATO, and the Government of Italy about going forward now to buy the land at Crotone? Is the conference agreement a green light?

Mrs. SCHROEDER. Absolutely not. I would hope that the administration would develop a plan for how they will live within the cap and then come to the committees involved and seek agreement before spending any money. Otherwise, a lot of precious taxpayer dollars could be wasted.

Indeed, I would think that the administration, Italy, and NATO might want to think long and hard about going forward with Crotone. As you know, there are existing bases at which these planes could be based. And, it is only a 6-hour flight from the east coast of the United States to the front. As the conference report says, the conferees do not endorse or disapprove of the base. Rather, we want U.S. costs reduced.

Mr. MARTIN of New York. I completely agree. Let me add this: The Crotone deal looks good in comparison to previous NATO cost sharing arrangements. But that is a bad standard. Instead, we should be seeking much stronger cost sharing from our allies.

Mrs. SCHROEDER. Mr. Speaker, I agree with the gentleman. I recommend that the gentleman and I write to the Secretary of Defense requesting that the subcommittee be briefed on plans for Crotone before any obligations are incurred and that we write to the Comptroller General asking that GAO audit the $360 million cap.

Mr. MARTIN of New York. Mr. Speaker, I think that is an excellent suggestion.

□ 1230

Mr. ASPIN. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. Bosco].

Mr. BOSCO. Mr. Speaker, I want to express my disappointment with this conference report, particularly because it does not include plutonium control language passed by the House.

With all the discussion of the deficit, we are overlooking a painless way to save from $5 to $11 billion with no effect whatsoever on our Nation's military strength.

Currently the Soviet Union has 12 operating military reactors, capable of producing weapons grade nuclear materials. We have none.

Based on proposals put forward by General Secretary Gorbachev, we have the opportunity to explore the possibility of closing down all Soviet reactors and not have to rebuild our own at a multibillion dollar cost.

In that we currently stockpile in excess of 100,000 kilograms of plutonium—enough to vastly increase our warhead production if we need to—there is no need to produce more of this radioactive material, especially if the Soviets cease production.

Few Americans realize that all of the past arms control agreements including the recent INF agreement have not resulted in a single bomb or warhead being destroyed. All of this nuclear material remains stockpiled, ready to be placed on any new delivery vehicles deemed necessary in the future.

Under these circumstances it is well worth our time and effort to reach agreements that prevent the needless and wasteful resumption of radioactive materials production—at a savings to the public that would be real and not illusory both in terms of some $5 to $11 billion spent for production and hundreds of billions for future cleanup.

It is regrettable that the conference committee discarded this approach from this authorization.

Mr. ASPIN. Mr. Speaker, I yield 2 minutes to the gentleman from South Carolina [Mr. SPRATT].

Mr. SPRATT. Mr. Speaker, this is not a perfect conference report. It is not ideal. It leaves out things that I came to the well in the House and fought for and won in the House only to lose in this conference report.

A perfect example of this is the motion, the amendment we had to cut rail mobile funding for the MX. Most of the money is restored here. I do not agree with that, but let me say in response to critics of the bill that I acknowledge the argument of those who say we need two mobile missiles, send our negotiators to Geneva with two systems, potentially two systems, to bargain against the Soviets.

So, Mr. Speaker, I think there is a reasonable argument to be made for the compromise that is struck in this bill. As we go down the list of things included in the conference report, the same can be said for virtually all of the compromises. I do not agree with them, but I think they are fair and reasonable in almost every case.

Secretary Cheney sent us a request for the deletion or termination of 10 programs, and I voted for the amendment of the gentleman from Wisconsin [Mr. ASPIN] which would have stated the Cheney budget request. I think we have come out with a reasonable conclusion based on his request. He wanted to stop the F-14. If we stop the F-14, we are betting on the outcome. There is no follow-on for the Navy's attack airplane. We walk on $240 million of termination costs. I do not think it is a defensible decision.

Mr. Speaker, a better decision is a transition to a termination of the program. I do not particularly like what we have come up with, but I think it is a defensible decision.

The V-22; I voted against it, but I say to my colleagues that, if we spent $2½ billion on this program developing the tiltrotor technology, we can make a reasonable case for rounding out that development effort in seeing exactly what its potential is, and I do not think, having listened to all the evidence, that we know yet whether or not the CH-53 is the right answer for the ship-to-shore mission of the Marine Corps. Let us look at it again, and let us not walk out on a $2½ billion investment precipitously until we know what we can do with it.

Mr. Speaker, this is a reasonable bill, and I urge everyone to support it.

Mr. BENNETT. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Speaker, just two additional points that I think need to be made. In regard to the Stealth bomber, let me just tell my colleagues what we are doing here.

Mr. Speaker, we are going to spend $47 billion, and we are going to be in the process of purchasing 47 Stealth bombers before the program has been fully flight tested.

Does everybody understand what I said? We are going to spend $47 billion before we know if the plane can really function the way it is supposed to function. We are going to buy 47 of those planes at $535 million a copy before we know if it really works.

Mr. Speaker, that is an incredible tragedy, and I hope those people who support this plane will say their prayers every single night that it will fly the right way because, as I suspect, it is going to turn out the gentleman from California [Mr. DELLUMS], and the gentleman from Connecticut [Mr. ROWLAND], and I were right when we tried to cancel it this time. I wish we had cut our losses.

The only thing I can say is that I hope, if this plane does not function the way it is supposed to after we spend $47 billion and bought 47 planes, if it does not work, then I hope we will have the courage to eliminate a program that would become a giant waste of money.

Additionally, Republicans a lot of times want to support national defense. This is a clear opportunity for Republicans to follow the lead of Republicans on our side like Dick Cheney and the gentleman from Alabama [Mr. DICKINSON], who were willing to make tough choices, tough choices that did not get made, and I hope my colleagues would feel comfortable with being able to vote against this bill. It is not going to be defeated, but it will give my colleagues an opportunity, as a Republican, to stand up and to say they think that resources ought to be applied on the basis of national security.

With those two thoughts in mind, Mr. Speaker, I yield back the balance of my time.

Mr. DICKINSON. Mr. Speaker, a number of Members desire time to speak, and because of the limitation I would ask unanimous consent that the general debate time on this conference report be extended 15 minutes, to be equally divided, as previously indicated.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). Is there objection to the request of the gentleman from Alabama?

There was no objection.

Mr. ASPIN. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. FOGLIETTA] for the purpose of a colloquy.

Mr. FOGLIETTA. Mr. Speaker, I wish to engage in a brief colloquy with the chairman of the Armed Services Committee, Mr. ASPIN, and with the gentleman from Pennsylvania [Mr. WELDON].

Mr. ASPIN. Mr. Speaker, if the gentleman will yield, I would be happy to engage in a colloquy with the gentleman.

Mr. FOGLIETTA. Mr. Speaker, I want to congratulate Mr. ASPIN, the chairman of the committee, for his leadership in guiding this bill through conference. As a member of the conference committee, I believe the chairman has done an excellent job in arguing the positions of the House.

Regarding the V-22 Osprey, the bill includes $255 million in research and development. This will allow the continuation of the flight test program—which is proceeding well. The V-22 has logged over 50 hours of flight time and has consistently flown in both the helicopter and airplane modes.

The ultimate decision on V-22 procurement is deferred until next year, pending the completion of a comprehensive cost and operations effectiveness analysis of the V-22 versus alternative aircraft being conducted by the Institute for Defense Analysis.

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. FOGLIETTA. I yield to the gentleman from Wisconsin.

Mr. ASPIN. The gentleman is correct in his characterization of the conference report.

Mr. FOGLIETTA. However, the study must be completed in an unbiased fashion. Therefore, it should include all relevant options regarding mission, survivability, and costs.

For example, the survivability of the different aircraft—and its effect on program cost—should be considered.

Regarding mission scope, in addition to over-the-horizon ship-to-shore missions and subsequent operations ashore, at a minimum the study should review aircraft for use in long-

range special operations and combat search and rescue missions.

The study should include all related costs such as increased manpower requirements, increased pilot requirements, and the impact on both strategic and amphibious lift capabilities.

And the study should comment on the availability of all alternatives considered.

Mr. WELDON. I concur with the gentleman regarding the need for a comprehensive scope of the study and for an unbiased analysis. I also wish to congratulate the chairman for his leadership in passing this bill.

Mr. ASPIN. I also concur with the gentleman regarding the necessity of an unbiased study of the V-22 versus helicopter alternatives. Therefore, the scope of the study must be comprehensive and should include all options regarding survivability, mission, and cost mentioned by the gentleman.

□ 1240

Mr. BENNETT. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. DELLUMS].

Mr. DELLUMS. Mr. Speaker, I thank the gentleman for yielding this time to me.

Mr. Speaker, I rise in opposition to the conference report that is before the body today, and I do so, first of all, because I believe that this is a world crying out for change. This budget offers no change.

This is a world crying out for peace. This is a budget that advances the policies of war.

This is a world crying out for arms control and negotiations, yet this is a budget that pursues advancing new heinous nuclear weapons.

This is a Nation crying out for new budget priorities, yet this is a conference report that embraces the notion that we need to spend $305 billion on a military budget.

It would be for those reasons alone that we should oppose this conference report, but let me now be even more specific.

The Secretary of Defense, Mr. Cheney, said to the Congress of the United States, if we are going to meet our budgetary responsibilities we must terminate some weapons systems.

In the comity between the executive branch and the legislative branch you could disagree with their priorities, but at least we had a fiduciary responsibility. If we did not agree with the weapons systems that he chose to terminate, we should have substituted some of our own.

The conference report before us is the worst of all worlds. It embraced everything. It cut nothing. If it does not do harm in fiscal year 1990, what happens in fiscal years 1991, 1992, 1993, and 1994, when we have to pay the price tag of our inability to make decisions this year?

Consider, we now are patting ourselves on the back that we came back from a conference with $3.57 billion for the strategic defense initiative, a program of dubious worth, of dubious value, and Members of this body felt that we should bring that figure well under $3 billion, and the majority of the Democrats thought we ought to terminate the program.

My distinguished colleague, the gentleman from Ohio [Mr. KASICH] who spoke eloquently in the well a few moments ago pointed out that we are now going to spend $47 billion on a so-called Stealth bomber, and we do not even know whether it will be stealthy enough. We tried to tell you to kill this program when you spent $23 billion before you even rolled it down the runway. Now we are going to spend $47 billion.

Those of you who voted for the fly-before-you-buy concept, check it out. It is not in this conference report. We are going forward with advanced procurement of a weapons system without the Congress expressing its will on this dubious batmobile that we refer to as the Stealth bomber.

Now we come to this two mobile missile love-in, the Noah's Ark syndrome, that you have to have everything, the mobile missile and the MX.

We left this body saying no small mobile missile. We left this body saying only $600 million for the MX rail garrison.

But what did we come back with? We came back with $1.1 billion, but not with the Congress making the decision whether you ought to buy one or the other. We said to the administration, "You choose how you want to spend the money." Great display of leadership.

I would say to my colleagues that the time has come for us to face the reality of the changing world. The Warsaw Pact is crumbling before our eyes and here we are building weapons of destruction.

The Soviet Union is saying, "Let's go to the negotiating table," and we are playing games, building new nuclear weapons.

Our children are being destroyed on the streets of America, and we are studying war and not fighting war on poverty, war on hunger, war on drugs, homelessness, and helplessness.

Mr. Speaker, I ask the House to reject this conference report.

Mr. DICKINSON. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Florida [Mr. IRELAND], a member of the committee.

Mr. IRELAND. Mr. Speaker, I am not at all happy with the final version of the fiscal years 1990-91 defense authorization bill embodied in the conference report being debated on the floor today.

I agreed to sign the report and will vote for it, because I think it is the best we can do under the circumstances. However, I think that the most contentious issues, which made for such a long and difficult conference, now need to be aired before the entire House. The really thorny issues, such as the V-22, cannot be definitely resolved this year. Hopefully, with Secretary Cheney's continued leadership and support, we can win those battles next year.

The conference report before us is nonetheless flawed in a most insidious and destructive way. It represents the worst of both worlds.

In my mind, the problem boils down to one very simple fact: there will not be enough money downstream to properly fund all the programs in the bill. The admirals and generals in the Pentagon have had a habit over the years of starting and sustaining programs they cannot afford to finish. Very simply, the programs don't fit in the Pentagon's long-range spending plan known as the Five Year Defense Program [FYDP]. Congress, for its part, acts to make matters worse.

When Dick Cheney became Secretary of Defense early this year, he quickly realized he had a major money problem on his hands. He came to grips with it and did what no other recent Secretary of Defense was willing to do—he made the tough choices to kill programs. He cut $10 billion from the fiscal year 1990 budget and $64.2 billion over the 5-year period, 1990-94. He killed nine major programs, opting instead for more cost-effective alternatives. In doing so, he saved valuable program dollars without putting our Nation's security at risk.

Though a courageous beginning, Dick Cheney's cuts did not go nearly far enough.

At my request, the General Accounting Office [GAO] is conducting its first-ever evaluation of the FYDP. One of the primary objectives of this effort is to determine whether the 4 outyears of the FYDP are consistent with the budget. This will be an ongoing effort.

In a series of reports to me, as well as in testimony before the Senate Armed Services Committee, GAO concluded that there is a gross mismatch between the budget request and the fiscal years 1990-94 FYDP.

Mr. Charles Bowsher, Comptroller General, defined the magnitude of the shortfall in testimony in May. He said that an additional $150 billion would be needed over the 5 years to fund the programs in the Cheney budget. And that estimate understates the money shortfall. Mr. Bowsher's analysis assumes that the cost of each individual part of the FYDP is accurate and true. Yet those costs will increase by an average of 32 percent, according to a

1984 GAO survey of 97 major weapon systems from 1963 to 1983.

Well, the Cheney budget is now ancient history. Congress has, for the most part, unraveled his good work. We are looking at a conference agreement that makes the money shortfall much worse. The Armed Services Committees, in all their wisdom, have agreed to compound the problem by adding billions of dollars for programs that Cheney either wants to cancel or for which he requested reduced funding. Admittedly, the conferees express a willingness to kill some of these programs down the road, but that's an "iffy" proposition, to say the least.

Although Congress presently cannot determine with precision what the added 5-year costs of its actions on the fiscal year 1990 budget will be, you can be sure that the $150 billion deficit identified by Charles Bowsher will grow as a result of this conference. By the time Congress finishes pork-barreling the fiscal year 1990 budget, DOD will probably need an extra $200 billion over the 5 years in order to fund the programs approved by the conference committee.

We all need to come to our senses and inject some reality into defense planning. There just isn't going to be an extra $200 billion for DOD over the next 5 years. At best, we are looking at a constant dollar freeze that would cover inflation only. If anything, prevailing wisdom suggests that real decreases are in the offing, so, like it or not, DOD must begin to tighten its money belt, and we in Congress must be part of that process. Outyear spending plans must be reined in. We need to face up to the money shortfall now and avoid the terrible waste of program stretchouts and terminations down the road.

Here is what needs to be done:

DOD needs to undertake a program review now to bring the outyears into line with the budget. This review must be completed before the fiscal year 1991 budget and fiscal years 1991-95 FYDP are submitted to Congress in January, and must be based on realistic assumptions about future inflation rates and growth rates in the defense budget. Based on this review, DOD must excise the $45 billion negative funding wedge. It must then establish program priorities consistent with our national military strategy, evaluate alternatives for meeting them, choose the best approach, and ax those that don't fit.

Simple math will tell you that there isn't enough money in the 5-year defense plan to buy the V-22, F-14D, two mobile ICBM's—Midgetman and MX Rail Garrison—SDI, B-2 bomber, SSN-21 submarine, two advanced tactical fighters, and the LHX helicopter, to name just a few of the big ticket items in the acquisition pipeline. We must pick and choose.

We are at a crunch point. We have tried to stuff too much into the budget for future consumption. Now, we must make some hard choices. Entire programs must be killed without putting this country's defenses at risk. Secretary Cheney has taken a small, first step on a long march. His initiatives must be sustained. If we fail in that endeavor, we will end up hollowing out the Armed Forces and robbing the readiness accounts. It happened in the late 1970's, and Congress was a willing participant in that debacle. It will happen again unless we do something now.

Mr. Chairman, I have tried to do my part this year to bring the so-called funding "bow wave" in the outyears under control. Toward that end, I offered two specific amendments to the bill, which were accepted by the Committee and the House and then adopted in conference. One calls for consistency between the President's budget and the FYDP. The other is designed to generate $550 million per year in savings through a more reasoned implementation of the INF Treaty.

I would like to extend a special word of thanks to the chairman of the committee, LES ASPIN, and the ranking Republican, BILL DICKINSON, as well as those on the subcommittees who handled my amendments: Readiness [EARL HUTTO and JOHN KASICH], Investigations [NICK MAVROULES and LARRY HOPKINS], and Personnel [BEVERLY BYRON and HERB BATEMAN]. Their unwavering support helped to shepherd these measures through a long and difficult conference. I also want to thank three staff persons who were instrumental in bringing my ideas to life and finding a place for them in the bill. They are Will Cofer, Debbie Lee, and Bob Schafer. Many thanks for a job well done.

FIVE-YEAR DEFENSE PROGRAM

Mr. Speaker, over the last 10 months, I have had a running battle with the DOD over inconsistencies between the President's budget and the FYDP. DOD is maintaining funding levels in the FYDP in excess of amounts provided for in the budget. The logic behind these discrepancies defies understanding.

The final version of the fiscal year 1990 defense authorization bill, which is under consideration today, contains a provision that will hopefully put an end to the inconsistencies once and for all.

DOD used negative accounting entries totaling $45 billion—the so-called negative funding wedge—to offset over-programming in the fiscal year 1990-94 FYDP. DOD claims that the $45 billion represents reductions it intends to make in future years to bring the FYDP in line with the President's budget. This kind of negative program planning, DOD contends, is based on a mathematical formula shaped by historical experience.

The rationale for the negative funding wedge was initially articulated by former Deputy Secretary of Defense Taft in a letter to the chairmen of the House and Senate Armed Services Committees, dated January 11, 1989, transmitting the first FYDP to Congress. In a nutshell, this is what he said:

> Our experience suggests that, as the outyears come to be the budget years, a typical outyear program becomes a budget proposal costing 2 to 3 percent less than its original price. Characteristically, this is the net of reductions of 4 to 5 percent because of anticipated requirements that either need not or cannot be budgeted and additions of roughly 2 percent to meet unanticipated requirements. We consider this a reasonable planning posture.

The new Secretary of Defense, Dick Cheney, essentially embraced Taft's thinking on the negative funding wedge in testimony before the House Armed Services Committee on April 25, 1989.

In view of the very contentious nature of the issue, I asked the GAO to review historical FYDP data.

Recently, the GAO provided me with the required historical FYDP material I need to respond to DOD's arguments in favor of the wedge. It consists of a table that traces the evolution of funding in the FYDP over the last twenty years, beginning in fiscal year 1969. I request permission to put the GAO table in the record.

The GAO table demolishes the factual underpinning for the negative funding wedge.

GAO found no instance where the initial outyear estimate in the FYDP was within 2 to 3 percent of the final budget proposal. In fact, the table shows that as the outyear program became the budget proposal, DOD was looking at changes in cost not of 2 to 3 percent, but much larger. For fiscal year 1984, the discrepancy was +51.0 percent. For fiscal year 1990, the swing was −38.3 percent. All but two of the budgets deviated by more than 20 percent. In only one instance, was the differential under 10 percent. That was in fiscal year 1986, when the figures differed by only 5.4 percent.

To put the issue in better perspective, it's worth looking at several individual FYDP's.

Take the first FYDP displayed on the table, fiscal year 1969, for example. It envisioned a $55.6 billion budget in fiscal year 1973. That figure grossly underestimated actual requirements. Much more money was needed when fiscal year 1973 actually rolled around. That budget request had to be revised upward to $83.2 billion—an increase of $27.6 billion or 49.6 percent. The fiscal year 1969 FYDP was characteristic of the 1970's, when future funding re-

quirements were consistently underestimated.

In the 1980's, by comparison, the reverse held true. DOD was overly optimistic about how much money would be available in future years. The fiscal year 1986 FYDP typified the new pattern. It assumed a $478.6 billion budget in fiscal year 1990. But 5 years later, that estimate had to be cranked down to $295.5 billion—a decrease of $183.1 billion or 38.3 percent.

It is this kind of roller coaster performance that prompted Mr. Charles Bowsher, Comptroller General, to describe DOD's 5-year planning as fiscally unrealistic. DOD either grossly overestimates or underestimates future funding levels—depending on the political climate and its perception of how much defense money will be available. It is not a matter of scrubbing the net cost of the program by 2 or 3 percent, as the proponents of the negative wedge suggest. Rather, it means carving huge chunks out of the FYDP.

Now, I do not believe that funding projected in the FYDP is cast in concrete. The FYDP does not commit the Government in advance to 5 years of expenditures. Quite to the contrary, the FYDP is merely a planning device—a set of guidelines or a rough approximation of the future consequences of today's budget decisions. It is inherently flexible, as it should be, and it is modified and updated continuously as conditions change.

DOD now needs to move in a new direction in order to make the FYDP a working, realistic blueprint of our national defense plan. The tide has turned. It's time to exercise the FYDP's inherent flexibility and make adjustments. DOD is overestimating future appropriations by ever-increasing amounts. The use of negative program planning in the FYDP is an admission of that problem. It says that there is too much money programmed in the outyears, but it fails to do anything to correct the situation. Instead, it says we'll take care of the problem somewhere downstream. That's a nonsolution which can only postpone and compound the tough decisions, leading inevitably to waste on a massive scale. Programs get started that can't be finished, or they simply get stretched out. And congressional budget cuts get blamed for the debacle, when, in fact, they are caused in the first place by poor program planning at the Pentagon.

I have introduced a piece of legislation that I hope will put an end to the practice of using negative funding wedges in the FYDP. That measure, which is embodied in section 1602 of the fiscal year 1990-91 Defense authorization bill—provision is discussed under title XVI, general provisions, in the joint explanatory statement of conference report—was accepted in conference and will soon be law. It mandates consistency between the President's budget and the FYDP.

The use of the word consistent is general enough to permit some minor differences—that is, total obligational authority versus budget authority—and ample flexibility where necessary. It is not designed to preclude the use of management contingency accounts in the budget.

If DOD needs more flexibility—a cushion or positive wedge—as a hedge against unanticipated requirements such as cost growth or higher-than-expected inflation, then such accounts should be included in both the FYDP and the budget. Positive wedges have been in use for years and are considered useful and legitimate planning tools.

The use of negative wedges in the FYDP, by comparison, is without precedent. In fact, the practice is outlawed in defense contracting, because it was once used by defense contractors to hide cost overruns. The result, according to the Deputy DOD Inspector General, "was a breakdown in management control, discipline, and reliable reporting." Clearly, the use of negative funding wedges in DOD's central planning document undermines its integrity and must be discontinued.

IMPLEMENTATION OF INF TREATY

The conference report presented on the floor today incorporates my amendments relating to military and civilian personnel covered by the United States-Soviet treaty on the elimination of intermediate-range missiles commonly referred to as the INF Treaty.

These amendments make up the following sections of the bill: Title III, section 314—reduction in the number of civilians in Europe; title IV, section 401—reduction in end-strength of the Air Force; and title IX, section 911—reduction in the number of military personnel in Europe.

After a very careful and thorough examination of all the facts bearing on the issue—as provided by DOD and verified in a series of GAO reports to me—I decided to present a series of formal amendments to the Committee. Those amendments were crafted in consultation with the committee staff. Some were later adopted at the subcommittee level. Some by the full committee. Some were taken on the floor. And the big issue—lowering the troop ceiling—was adopted in conference.

The GAO reports on the INF issue were placed in the RECORD when the bill was on the floor. Anyone interested in reviewing those reports can find them in two issues of the RECORD: July 24, 1989, pages H4132-4134 and July 25, 1989, pages H4228-4229.

One additional GAO report pertaining to the INF personnel issue was prepared at my request, but was not available until after the floor debate on the bill was completed. It shows that current troop strengths in Europe are well below authorized levels. That piece of information was very useful in responding to DOD's contention that my amendments would keep the department from filling critical vacancies in our conventional forces. As it turns out, DOD has authority to fill about 7,000 vacant positions in Europe, but lacks either money and/or the right mix of people to do so. I request permission to place that report in the RECORD.

My legislative initiative on INF has three main parts: First, lower troop ceiling in Europe; second, reduce end-strengths of military services; and third, reduce DOD civilian work force. These reductions will be gradually phased in over the next 2 years—through fiscal year 1991—to coincide with agreed upon unit deactivation schedules.

First, my proposal lowers the congressionally mandated troop ceiling in Europe from 326,414 to 311,855—a reduction of 14,559. These include 8,244 Air Force personnel assigned to ground-launched cruise missile [GLCM] units and 6,315 Army personnel assigned to Pershing II units. Originally, I proposed cutting an additional 228 excess headquarters personnel identified in the Vander Schaaf report, including 72 positions directly linked to INF missions. However, the Senate balked at that, saying we were "double counting," so that one small part of the idea had to be dropped out in conference.

Second, the proposal cuts the end-strength of the military services. Planned Air Force reductions—4,200 through fiscal year 1991—were not enough to offset all Air Force personnel assigned to GLCM units, which totalled 8,585—Europe and United States. An additional cut of 4,385 was in order—8,585 minus 4,200=4,385. The Army, by comparison, made appropriate end-strength adjustments on its own. Planned Army cuts of 7,700 through fiscal year 1991, which were incorporated in the budget as submitted to Congress, exceeded the number of personnel—6,974—assigned to INF units, so no further cuts were necessary.

Third, the 1,142 DOD civilians assigned to INF units and missions in Europe and the United States will be eliminated from the work force, and the number of DOD civilian slots authorized for Europe—96,910 funded authorizations—will be reduced by 1,017.

Probably the most convincing single argument for my INF initiative emerged from a legislative history of laws governing the number of United States troops authorized to be stationed in Europe. It showed that the European troop ceiling was raised and

waived on several occasions between 1983 and 1985. Testimony given at the time in support of those increases clearly indicates they were needed and requested to make room for the INF deployments. Those increases were subsequently approved by Congress. It only seems logical to now lower the ceilings in the wake of the INF Treaty.

Those who opposed my amendments in the Senate and DOD tried unsuccessfully to characterize my proposal as a unilateral troop reduction that would undermine our position at the conventional arms talks [CFE] in Vienna. The Senate countered with the so-called Nunn-McCain amendment in a vain attempt to stave off NATO troop cuts. Nunn-McCain would automatically trigger United States cuts in Europe, but only if other NATO countries reduced their armed forces in advance of an accord on conventional forces.

These charges of unilateral troop reductions are ludicrous. How can a proposal to implement the United States-Soviet INF Treaty, which was negotiated, signed, and ratified, be construed as unilateral? My amendments have no effect whatsoever on the conventional arms talks. They concern nuclear arms and INF technicians—an entire mission eliminated by the INF Treaty. The personnel who performed that mission can now be removed from Europe along with the weapons they manned without affecting our military capabilities one iota.

Quite frankly, the Senate's approach to United States troop strength in Europe was ill conceived, and the arguments the Senate leveled at my proposal were rejected in the end. Even the President's own Special Adviser for Arms Control Matters, Ambassador Edward Rowny, with whom I spoke personally on this matter, had no "heartburn" with my amendment. After talking with him, I came to the conclusion that my proposal would dovetail harmoniously with the CFE talks. The CFE talks would begin negotiating from the lower ceiling established by my amendment.

Mr. Speaker, my thinking on this issue is neatly summarized in an editorial piece I wrote which appeared in the October 3, 1989 Washington Post. I will place that article in the RECORD.

TOTAL OBLIGATIONAL AUTHORITY REFLECTED IN DOD 5-YEAR DEFENSE PROGRAM

[1] Year of FYDP preparation. Note that each row displays the prior year, the current year, the budget year, and 4 out years.
[2] Beginning with 1973, each column displays 7 amounts. The first amount represents the initial planning figure for that year. The 2nd through the 5th amounts represent changes to the estimate up through the budget submission. The 5th amount is the budget year submission. The 6th represents appropriated amounts. The 7th amount represents the historical actual. The intersection of the same year represents that year's budget proposal.
[3] DOD did not produce a revised FYDP for FY 1989. The 1989 row has been taken from the President's budget submission.
[4] Difference between initial plan and ultimate budget proposal.
[5] Insufficient data for analysis.
[6] Percentage change between the initial planning estimate and the ultimate budget submission 5 years later.

DEFENSE MANPOWER: DOD REQUIREMENTS AND VACANCIES IN NATO EUROPEAN COUNTRIES

U.S. GENERAL ACCOUNTING OFFICE,
NATIONAL SECURITY AND INTERNATIONAL AFFAIRS DIVISION,
Washington, DC, September 11, 1989.

B-236486.

Hon. ANDY IRELAND,
House of Representatives,
Washington, DC.

DEAR MR. IRELAND: On May 19, 1989, you requested us to obtain information on the number of Department of Defense (DOD) vacancies in North Atlantic Treaty Organization (NATO) European countries. Specifically, you asked us to identify (1) the number of unfilled positions that existed in Europe at the end of fiscal year 1988, (2) whether they were funded or unfunded requirements, (3) the length of time the positions were vacant, and (4) whether the positions have ever been filled. To answer these questions, we interviewed DOD officials and obtained documents detailing the required information; However, we did not independently verify the accuracy of the data provided by the services.

RESULTS IN BRIEF

DOD officials reported that as of September 30, 1988, the military services had established requirements for 360,499 military positions in NATO European countries. Of those requirements, 342,337 were authorized and funded and 36,162 were unfunded. The reported actual on-board strength on September 30, 1988, was 319,533. The services reported that they were at overstrength and understrength levels at various locations, for a net of 4,804 vacancies. (A vacancy is defined as the difference between funded authorizations and actual on-board strength.)

As of September 30, 1988, the services had established requirements for 116,893 civilian positions in NATO European countries. Of those requirements 96,910 were authorized and funded and 19,983 were unfunded. the number of civilians reported on board as of September 30, 1988, was 93,526, resulting in 3,384 vacancies. We were unable to determine how long individual positions were vacant or whether they had ever been filled.

BACKGROUND

The DOD Authorization Act of 1985 imposed a permanent ceiling of 326,414 positions on the end strength of militay positions in NATO European countries. The number of civilian personnel in Europe is not specifically limited; however, the Congress has established an annual worldwide overseas civilian workyear limitation.[1]

According to the services, position vacancies result from such factors as servicewide undermanning, the administrative time lag between establishing a position and filling it, and data limitations. Examples of data

[1] For information regarding overseas civilian workyears, see "DOD Civilians in Europe: Information on Increases Between Fiscal Years 1982 and 1986" (GAO/NSIAD-87-155BR, June 24, 1987); and "DOD Civilians Overseas; Information on Workyears Expended in Fiscal Year 1986" (GAO/NSIAS-88-199BR, July 15, 1988).

limitations are that (1) the Marine Corps does not include Marines filling NATO European positions in the on-board strength if they were traveling outside NATO Europe on the last day of the month and (2) the Air Force, in an effort to reduce permanent change-of-station costs, disallows moves until manning levels within specialities fall below established manning floors. According to DOD officials, the services intended to fill all funded requirements in NATO European countries as soon as possible; however, the services do not have data on whether any of the vacant positions had ever been filled.

DOD officials emphasized that vacancies vary on a daily basis and that the information provided was a snapshot as of September 30, 1988. Because the information was a 1-day snapshot, some vacancies, as well as some overstrengths, will be reported on any given day. However, we were unable to obtain specific information concerning the causes of the overstrengths or vacancies due to service database limitations.

MILITARY VACANCIES

At the end of fiscal year 1988 the services had 324,337 authorized and funded military positions in NATO European countries. This was 2,077 positions (less than 1 percent) below the ceiling of 326,414 imposed by the Congress in the Authorization Act. As of September 30, 1988, the services has 4,804 military vacancies (1.5 percent of funded authorizations) in NATO Europe. Table 1 summarizes the military positions by service.

TABLE 1.—SUMMARY OF DOD MILITARY POSITIONS IN NATO EUROPE AS OF SEPT. 30, 1988

Service	Table requirements	Unfunded requirements	Funded authorizations	Actual on board	Vacancies
Army	224,327	28,505	215,842	217,271	[1] (1,429)
Navy	17,878	2,844	15,034	13,292	1,742

CIVILIAN VACANCIES

Civilian positions are authorized and funded on the basis of workyears. A civilian position is established when a requirement can be justfied and a workyear is available to be allocted to that position. As of September 30, 1988, the military services had established requirements for 116,893 civilian positions in NATO European countries. Of the 96,910 authorized and funded positions (83 percent of requirements) 93,526 civilians were on board, leaving 3,384 vacancies (3.5 percent of funded authorizations). Table 6 summarizes the civilian position by service.

TABLE 6.—SUMMARY OF DOD CIVILIAN POSITIONS IN NATO EUROPE AS OF SEPTEMBER 30, 1988

Service	Total requirements	Unfunded requirements	Funded authorizations	Actual on board	Vacancies
Army	95,521	19,114	76,407	74,010	2,397
Navy	4,990	0	4,990	4,891	99
Marine Corps	0	0	0	0	0
Air Force	16,382	869	15,513	14,625	888
Total	116,893	19,983	96,910	93,526	3,384

Tables 7, 8, and 9 show the breakdowns of Army, Navy, and Air Force civilian positions, respectively, in NATO European countries. The Marine Corps does not have any civilian requirements in NATO European countries.

OBJECTIVE, SCOPE, AND METHODOLOGY

Our objective was to obtain information on DOD vacancies in NATO European countries as of September 30, 1988. We interviewed key DOD officials and obtained documents detailing the required information. We did not verify the accuracy of the information provided by the military services. However, we did discuss this information with DOD officials and included their comments where appropriate. We were unable to obtain detailed information on the length of time that positions were vacant, and no automated capability exists for determining this. We conducted our review between May 1989 and July 1989 in accordance with generally accepted government auditing standards.

Unless you publicly announce its contents earlier, we plan no further distribution of this report until 5 days from the date of this letter. At that time, we will send copies to the Chairmen, House and Senate Committees on Appropriations and on Armed Services; the Secretaries of Defense, the Army, Navy, and Air Force; and the Director, Office of Management and Budget. We will also make copies available to other parties upon request.

GAO staff members who made major contributions to this fact sheet were William E. Beusse, Assistant Director, and James F. Reid, Evaluator-in-Charge. If you need further assistance, please call me on 275-3990.

Sincerely yours,

HAROLD J. JOHNSON,
Director, Manpower Issues.

[From the Washington Post, Oct. 3, 1989]

BRING INF TROOPS HOME

(By Andy Ireland)

What began as a modest proposal to save a few billion dollars in defense spending has become a top-line issue in the already contentious congressional conference on the defense authorization bill. Unlike the other thorny issues facing the conferees, such as the MX-Midgetman debate and the procurement of V-22s, F-15s and B-2s, this proposal has nothing to do with spending money at home. It does, however, have a lot to do with saving money abroad.

The House version has a provision that reduces the number of U.S. military personnel in Western Europe to coincide with the drawdown of the weapon systems eliminated by the Intermediate Range Nuclear Forces Treaty. The provision lowers the congressionally mandated ceiling on U.S. personnel in Europe from 326,414 to 311,627—a reduction of 14,787 personnel assigned to the Ground Launched Cruise Missile (GLCM) and Pershing II units slated for deactivation during the next two years.

The House Armed Services Committee incorporated this provision into its bill, realizing that reductions of this type would streamline the Pentagon's costly European operations without undermining NATO's conventional defenses or the U.S. bargaining position against the Soviet Union. The defense subcommittees of both the House and Senate Appropriations Committees also endorsed the concept in their bills. The Department of Defense and the Senate Armed Services Committee continue to oppose it.

The House feels that we should take advantage of savings proffered by carefully crafted, bilateral agreements such as the INF Treaty. The Congressional Budget Office estimates that the removal of INF personnel would save $2.2 billion over five years. We can inject some fiscal conservatism into the Pentagon budget simply by eliminating positions as we eliminate their missions. The INF Treaty eliminates the mission of the GLCMs and Pershing II's, and the personnel who manned those missiles should follow their hardware out of Europe.

An important concern voiced on the Senate side is that the removal of obsolete INF personnel amounts to a "unilateral troop reduction" that could undermine the U.S. bargaining position in the ongoing conventional arms talks. Nothing could be further from the truth—the nature of the talks and the thrust of the House proposal are quite different. The Vienna negotiations are focusing on reductions in equipment—particularly tanks, armored troop carriers and artillery that would support a Warsaw Pact offensive against NATO. The INF provision in the House bill, on the other hand, does not address conventional arms at all, but personnel associated with nuclear arms. And coming as the result of a bilateral agreement, an INF troop withdrawal cannot be construed as a unilateral action.

The fact that Congress actually raised and waived the European personnel ceiling several times between 1983 and 1985 to make room for INF deployments speaks even louder for the logic of lowering the ceiling as the missiles are removed. The Pentagon's alternative to the House proposal—filling those extra spaces with troops from other missions—would actually increase this country's conventional commitment to NATO. The Pentagon's opposition to this seems based more on bureaucratic prerogatives than sound military policy, because the department seems incapable of maintaining military strengths in Europe at authorized levels anyway. Although the ceiling now allows more than 326,000 military slots in Europe, the military had only enough money and people to fill 319,533 of those positions at the end of fiscal 1988—1.7 percent below the ceiling. The House-proposed ceiling would be a mere 2.8 percent reduction in the actual troop presence—hardly a debilitating cut.

Considering the broad public support for a reduced military presence abroad, the withdrawal of INF personnel makes sense strategically, fiscally and politically.

Mr. ASPIN. Mr. Speaker, for purposes of a colloquy, I yield such time as he may consume to the gentleman from California [Mr. TORRES].

Mr. TORRES. Mr. Speaker, let me add my appreciation and congratulations to the conferees. This bill is very complex and includes some of the most delicate projects funded by the Department of Defense.

Let me state to the chairman of the committee that in the conference report I note that the conferees specifically state that comprehensive subcontracting plans may be more advantageous to both the Government and to small and small disadvantaged businesses. Is that the understanding of the chairman?

Mr. ASPIN. Mr. Speaker, if the gentleman will yield, yes, that is correct.

Mr. TORRES. I will ask the chairman, is it true that the implementation of this program is delayed until October 10, 1990 and that the House Small Business Committee will hold hearings on the companywide test program authorized by this bill?

Mr. ASPIN. Yes, that is true.

Mr. TORRES. Is it the understanding of the chairman that the conferees in authorizing the companywide test program specifically direct the Department of Defense and the prime contractors involved in the test program, to utilize this test as means of expanding subcontracting opportunities in nontraditional areas such as high technology, direct services, nondirect services, and not as a guise to load up companywide subcontractors with low-wage, low-skill job categories such as janitorial services, food service providers, and the like?

Mr. ASPIN. Yes, that is correct; under this test program this will be for new contracts and not existing contracts.

Mr. TORRES. Mr. Speaker, is it also the chairman's understanding that under this test program that the success of the program will be determined on the basis of whether small disadvantaged and small businesses participate in the prime contractors companywide base which will result in an increase in business opportunities currently afforded, and whether prime contractors are providing significantly more work in areas such as direct services and nondirect services that traditionally have not been made available to small and small disadvantaged businesses in the companywide base?

Mr. ASPIN. Yes, that is my understanding.

Mr. TORRES. Is it the gentleman's understanding that any contractor negotiating a companywide plan under this section shall be subject to the assessment of liquidated damages pursuant to section 637(D)(4)(F), title 15, United States Code, for the failure to make a good faith effort to comply with the goals set forth in the plan?

Mr. ASPIN. Yes.

Mr. TORRES. Is it also the gentleman's understanding that the affected agency will designate a single official to administer, monitor, and enforce compliance with the plan, and if a prime contractor under this plan fails to meet its goal and does not make a good faith effort and liquidated damages are not assessed, that this individual will report to the Congress as to why liquidated damages were not assessed?

Mr. ASPIN. Yes, it is my intention that the prime contractors selected for this program comply with its guidelines and that small and small disadvantaged businesses be included to the fullest extent possible in subcontracting opportunities with the Defense Department.

Mr. TORRES. Mr. Speaker, this body has enacted a liquidated damages clause to induce prime contractors to meet their 5-percent goal for minority subcontracting. This measure passed both Houses with considerable bipartisan support. The chairman of Armed Services, Mr. ASPIN, and the chairman of Small Business, Mr. LAFALCE, together with the Senate conferees have extended the liquidated damages clause to the companywide test program. Our only goal in enacting the 5-percent goal and the liquidated damages provision is to extend and expand the subcontracting opportunities to small and disadvantaged small business. By applying the liquidated damages to the test program and by specifically directing the Department of Defense to focus on high technology and not the low-wage, low-scale job categories where minorities are overrepresented, the conferees have preserved the interest of the 5-percent goal.

I want to congratulate Chairman ASPIN, Chairman LAFALCE, and Chairman MAVROULES for representing the national interest while preserving opportunities for the small business person. On the other side, I want to acknowledge the active involvement and positive influence of the chairman of the Senate Armed Services Committee, Senator NUNN. He made his staff available throughout the process and accepted many of my suggestions.

I look forward to working with these gentlemen as we evaluate the merits of the companywide test program.

□ 1250

Mr. BENNETT. Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Speaker, I thank the gentleman for yielding me this time and for his leadership for a rational defense bill.

Mr. Speaker, I am against this conference report, but I must say, as I will speak against it, I may not be quite as hard on it as many of those who have spoken in favor of it. I have rarely heard a bill defended with less enthusiasm from those planning to vote for it. Some of the Members sounded as if they were describing a particularly unsuccessful blind date as they described their plan to vote for the bill.

Given the constraints, I think our conferees did a reasonable job, but the constraints were too great, and the bill

ought to be rejected so we can go back. Part of the constraints came from the Senate, which seemed to me unwilling. They are getting, it seems to me, credit for making tough choices which I did not see being made. On all of the strategic categories, the Senate was for voting for far more than was needed.

Let us look at where we are here. We are now in sequestration, but we hope to be able to lift it. If we lift it, it will be by inflicting further cuts.

Next year we face an extraordinarily difficult budget year; medical care, environment, drug treatment, law enforcement, housing, education, all of those essential programs face very severe cuts. In part, that is because money is being squandered in this bill. Yes, we need to be strong. Yes, we need to defend ourselves, but we do not need to defend ourselves against dangers that have passed. We do not need to maintain a situation in which the American taxpayer is asked by Western Europe and Asia to bear a disproportionate share of the burden.

We have a situation now where we are asked to maintain 300,000-plus troops in Europe. That is what we were told we needed when we faced the threat of an invasion led by the Warsaw Pact. There may be a Russian general who is still eager to lead the Polish and East German and Hungarian Armies into battle, but I do not know who he is. In fact, we know that there are East Germans eager to get to the West, not to invade but to take up residence.

We have a budget before us that assumes that nothing has changed. We have two mobile missiles. We have two airborne strategic delivery systems. We have money for SDI. The intellectual foundation for SDI has been crumbling and crumbling. SDI is now clearly Ronald Reagan's one great creative contribution to American culture. He invented this concept. He put it forward, and we will be spending billions. No one thinks that we will get any real benefit from it. What we will get will be diminished medical care, a greater deficit, less money for the environment.

We ought to reject this conference report and go back to a more realistic number on SDI. Go back to two mobile missiles: no one believes that we need both a Midgetman and an MX missile, but out of that conference, and I think the fault was more on the other side than here, that that is what we were forced to accept.

We have a chance to pass a bill that will give America a defense second to none fully sufficient to save some money.

Mr. ASPIN. Mr. Speaker, I yield 2½ minutes to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Speaker, as chairman of the Subcommittee on Military Personnel and Compensation, I want to take a few minutes to explain the military personnel portion of the conference agreement on the National Defense Authorization Act for fiscal years 1990 and 1991. It is interesting to note that people say that there is no constituency for personnel. There is a constituency for procurement, for R&D, for seapower, but there is none for personnel.

Even in the face of severe fiscal constraints, we have done some very good things for a lot of very good people, the young men and women who serve in the Nation's Armed Forces. Let me give you just a few highlights:

A 3.6-percent pay raise for active and Reserve personnel, effective January 1;

A substantial increase in medical special pays for physicians;

A 60-percent increase in aviation career incentive pay, or flight pay, for those in their prime flying years;

A first-time-ever, comprehensive package of incentives for military nurses including education benefits, bonuses, and special pays;

Increased funding for the operation of military child care centers in order to raise care giver salaries;

New recruitment tools for difficult-to-recruit skills;

Reduced cost sharing under the survivor benefit plan;

The inclusion of vocational-technical training under the Reserve Component GI bill; and

Improved reimbursement for up-front housing costs when military families must occupy off-base quarters overseas.

And the list goes on from there. This conference report is the product of compromise, so there are obviously some Senate provisions that I would have preferred not to include, such as the increased active duty service obligation for aviator training, the service academies, and the military medical school; or the so-called Dixon amendment dealing with contracts for post-secondary education services overseas which, even in its modified form, is bad public policy. But, I don't consider this the final chapter on these issues.

My primary concern is budgetary—a cut of $461 million in the military personnel account below the House-passed bill. That was hard to deal with—but we did. Now with sequestration, Heaven knows where we go. We are losing Kim Wincup, the staff director, but I will be seeing Kim Wincup as a manpower resource officer for the Army, and we will be dealing on a regular basis.

The $461 million reduction was offered up by Secretary Cheney as part of a broader agreement to fix the budget authority-outlay mismatch problem by reducing the military personnel and operation and maintenance accounts on the one hand—and plussing up procurement on the other. I strongly opposed the cut in military personnel funding, as did the gentleman from Virginia [Mr. BATEMAN], but, unfortunately, we did not prevail.

But the conferees afforded the Secretary maximum flexibility in making the cuts but laid out a series of guidelines as to how the cuts should be achieved. First, we directed that the Secretary ensure that any force structure cuts have a minimum impact on combat capability and that he make additional reductions in headquarters-type functions and through management efficiencies.

Second, we told him to protect quality of life, and, especially, medical personnel. Military medicine, as some of you may know, is an area we have worked diligently to improve over the past several years.

Third, we suggested that he take a hard look at reducing end strength by numbers slated for elimination pursuant to the INF Treaty.

Finally, we told him not to return to the 1970's phenomenon of the "hollow Army," in which widespread undermanning rendered many units incapable of performing their mission. The Secretary will certainly have a difficult road ahead in carrying out these directions but this is one Member who intends to hold his "feet to the fire" so that people issues will be protected to the maximum extent possible.

In closing, Mr. Speaker, the document before you is far from perfect. On balance, however, it deserves the support of all Members on both sides of the aisle and I urge my colleagues to approve the conference report on the DOD Authorization Act for fiscal years 1990 to 1991.

Mr. DICKINSON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Virginia [Mr. BATEMAN], who also is a member of the Subcommittee on Military Personnel and Compensation.

Mr. BATEMAN. Mr. Speaker, I rise in support of the conference report on the fiscal year 1990-91 Defense Authorization Act. This was the longest, hardest fought, and in some ways, most illogical conference I have ever been through, and I wish the document before you were written differently in several ways. Nonetheless, I support its contents on balance and ask my colleagues on both sides of the aisle to do the same.

As the ranking Republican on the Military Personnel and Compensation Subcommittee, I would like to describe some of the agreements in the manpower area. In this regard, I have both good news and bad news to report.

The good news is that fiscal year 1990 should be a banner year for military personnel in terms of quality of life. I'll explain some of our "people" initiatives in just a moment. The bad

news is that there will likely be fewer active duty personnel—and perhaps Reserve personnel—protecting our interests around the world—a situation that is particularly troublesome at a time when our prospects for negotiating conventional force reductions in Europe are the best since the cold war.

First, let's talk quality of life. This conference report approves several major initiatives to lower the cost of the survivor benefit plan, increases medical compensation, expands recruiting and retention incentives to attract and retain topnotch doctors and nurses into military service, increases pilot compensation, and provides an across-the-board pay raise of 3.6 percent. Despite severe budget constraints, I think we did a pretty good job of protecting and improving key personnel programs.

Now the bad news. Because of the fiscal year 1990 Gramm-Rudman outlay targets and the way the budget summit agreement deals with defense outlays, we have been forced to reduce the overall amount of money for military personnel by nearly a half billion dollars—and that probably means a substantial cut for force structure. I fought hard to avoid this cut—I think this is the worst time to take a unilateral force reduction since we have a promising CFE proposal for multilateral cuts—but I was overruled. There are other interests at work and, unfortunately, personnel is not at the top of everyone's priority list.

So how will the force be trimmed back in order to live within a much smaller than expected budget? I don't have any good answers and I don't think the Congress is in a good position to dictate those details. Therefore, the conference report simply reduces the amount of money available for military personnel and leaves it to the Secretary of Defense to make the exact force structure decisions with strong guidelines from Congress about protecting quality of life and combat capability.

Further complicating the budgetary situation, the automatic sequestration requirement under Gramm-Rudman kicked in as of October 15 because Congress and the administration failed to reach an agreement on reconciliation and the final 1989 deficit reduction plan. Unless repealed, this requirement would translate into an $8.1 billion cut for defense—$3.4 billion of which would come from the military personnel account. This would be absolutely devastating on top of the half billion dollars we have already cut by this bill and would likely cause massive layoffs and reductions in benefits.

As I said earlier, Mr. Speaker, there is much to criticize in the conference report, but it's the best agreement we could hammer out in light of the budgetary situation we face.

In closing let me repeat in summary what I said in a special order on Tuesday. A year-long Gramm-Rudman-Hollings sequestration will savage military personnel. The $3 billion-plus reductions will require separation of up to 170,000 dedicated and needed personnel, demoralize our people in the armed services in a way that will damage recruitment and retention for years to come.

We should muster up the political courage to pass a reconciliation bill, which avoids sequestration. At the least we must provide the Defense Department with the flexibility to avoid a mindless, irrational decimation of our most vulnerable defense resource—our people.

□ 1300

Mr. BENNETT. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. EVANS].

Mr. EVANS. Mr. Speaker, I thank the gentleman for yielding time to me, and let me also note that I appreciate his leadership in opposing this conference report.

Mr. Speaker, as a conferee to the fiscal year 1990 DOD authorization bill, I plan on voting against the conference report.

The conference report in front of us is not based on simple fiscal reality. We cannot afford to build two mobile missiles and a fleet of half billion dollar stealth bombers considering the urgency of the war on drugs, the cleanup of our Nation's nuclear weapons production complex, and the size of the savings and loan bailout. With these multibillion dollar problems facing us, there is no way that we can still afford strategic weapons systems that are redundant, costly, and in all likelihood unnecessary due to the progress we are making at the START talks in Geneva.

The conference report is fiscally irresponsible and out of touch with current realities. I urge my colleagues to vote against it.

Mr. ASPIN. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Tennessee [Mrs. LLOYD].

Mrs. LLOYD. Mr. Speaker, I do rise in support of the conference report, and I especially would like to thank the gentleman from Wisconsin [Mr. ASPIN], chairman of the committee, and the gentleman from Alabama [Mr. DICKINSON], the ranking Republican, for the fine cooperation extended to the conferees from the Committee on Science, Space and Technology on the provisions relating to technology transfer.

Mr. Speaker, I rise in strong support of the conference report for the bill H.R. 2461, and would like to particularly thank the chairman of the conference committee, Mr. ASPIN of Wisconsin, and the ranking minority member, Mr. DICKINSON of Alabama, for the fine cooperation the conferees from the Committee on Science, Space, and Technology received for those sections of the Senate bill committed to conference.

Section 801, and sections 3131–3133 of the Defense authorization bill of fiscal year 1990–91, H.R. 2461, reflect the agreement of the Senate and House conferees regarding the Office of Science and Technology's critical technologies report, and the transfer of technology from Government-owned, contractor-operated laboratories to the private sector.

Section 801 amends the National Science and Technology Policy, Organization, and Priorities Act of 1976 to require OSTP to produce a critical technologies report. No changes were made by the conferees to the Senate language concerning this new requirement for the OSTP. This new requirement is consistent with the overall mission of OSTP, and is an important new task which can help achieve better understanding of the role of technology development in furthering our economic and national security. Funding for this task will be provided by the Department of Defense for the first year.

Sections 3131–3133 are designed to encourage and expedite the flow of new ideas and discoveries to American industry to make our industries better able to compete in domestic and global markets.

These provisions have been used successfully for the past several years by those Government laboratories that are operated by Federal employees. The General Accounting Office recently reported that hundreds of agreements have been signed by these laboratories bringing new vigor to their missions.

The legislation we are considering today prescribes a uniform set of rules under which Government-owned, contractor-operated laboratories may also enter into cooperative research and development agreements with private companies in a streamlined manner.

To accomplish this goal, these provisions provide that:

First, to resolve any ambiguity regarding the authority of a defense laboratory to enter into a cooperative research and development agreement, technology transfer is made part of the mission of the national laboratories. In addition, as many of these laboratories are defense laboratories, it is also provided that the implementation of an agreement promote the program missions of a laboratory including national security. It is further provided that classified information and unclassified sensitive information be appropriately safeguarded.

Second, it allows for revenues from licenses or royalties to be used to further technology transfer, to provide for scientific and technical education, and to serve as incentives for new inventions.

Third, a carefully crafted conflict-of-interest provision was developed by the conferees because of the unique nature of the relationship between the agency and the civilian employees carrying out a Federal activity. An employee of a Government-owned, contractor-operated laboratory with a substantial role in the preparation, negotiation, or approval of a cooperative research and development agreement, may not have any financial or personal interest in the company with which the labora-

tory is negotiating unless the agency determines that such interest is not likely to affect the integrity of the employee. The goal was to develop careful attention to potential conflicts of interest without making the requirements burdensome or onerous.

Finally, a number of provisions were made to facilitate the negotiation of these agreements with private companies in a routine and prompt manner.

In considering this amendment we have come to the realization that national security in today's world must be viewed in a broad context. The health and vitality of our Nation's industrial and technical capability is an essential condition of a robust defense capability. I believe the two are inseparable.

Technology transfer from our laboratories to industry can make an important contribution to U.S. industry. Likewise, I have learned from our laboratories that they in turn benefit significantly in this technology transfer process; the labs gain new knowledge of processes and techniques emerging from industry. The transfer of technology is thus a two-way street with the Nation's security benefiting in both cases.

Therefore, I urge the Members to support these provisions.

Mr. ASPIN. Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. PICKETT].

Mr. PICKETT. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, today's debate on the conference report on the fiscal year 1990 Department of Defense authorization bill would be incomplete without reference being made to my colleague IKE SKELTON and his contributions to the agreement in his capacity as chairman of the Professional Military Education Panel.

The Panel on Military Education was charged to review Department of Defense plans for implementing the joint professional military education requirements of the Goldwater-Nichols Act. Title IV of the act provides the statutory basis for improving the education and performance of officers in joint assignments. Goldwater-Nichols created a joint specialty career category with incentives to attract outstanding officers. It also established safeguards to protect the careers of officers serving in joint billets.

Charged with the task of assessing the ability of the Department of Defense professional military education system to develop officers competent in their own service and also in both strategy and joint matters, IKE proceeded to move the Panel's agenda forward with clear-sighted vision and vigor.

The Panel reviewed previous studies and collected data and historical studies about the professional military education system from the Department of Defense; received briefings from the Office of the Secretary of Defense, the Organization of the Joint Chiefs of Staff, and the services; interviewed over 100 current and former, military and civilian, educators, officials, leaders, and critics; talked with individuals responsible for education, those conducting it, those employing graduates, and students themselves; visited all 10 U.S. senior- and intermediate-level PME schools and held hearings with all school commandants and presidents; attended classes and talked separately with school faculties, senior staff, and students; heard testimony from the Deputy Secretary of Defense, the Chairman of the Joint Chiefs of Staff, all four service chiefs, four commanders in chief of combatant commands, civilian educators, and former service chiefs, civilian defense officials, and military educators; and visited or was briefed on the British, French, and German military schools that most closely compare with the United States intermediate- and senior-level colleges. This ambitious effort culminated with the printing of the Report of the Panel on Military Education this past April 21.

Mr. Speaker, I recite this résumé of Panel activity to establish for the record the extent to which our chairman went to build a bedrock foundation on which to formulate recommendations to strengthen the professional military education system. Let there be no mistake about it, the conclusions and recommendations formed by the Panel, many of which are included in the conference report before us today, were based upon a thorough review of Goldwater-Nichols and the Defense Department's performance under that statute. The Panel's contribution to the conference report in behalf of sustaining a rigorous, high-quality professional military education system is vital to the national security. I commend IKE SKELTON for the energy with which he fulfilled his responsibility.

With respect to joint education, the Panel arrived at three major conclusions. First, the professional military education provided by the service schools is very important in educating an officer in his own service as well as giving him an appreciation of the strengths and weaknesses of the other services and how they contribute to his service's success on the battlefield. Second, truly joint education, however, is not possible at service schools because, first, they lack the representative cross-section of faculty and student body from the other services, and second, the curriculum is purposely, and rightly, taught from a service perspective. Third, what is needed is a two-phase joint education program; phase I to be conducted in service schools for all eligible officers during which an officer would become familiar with joint issues as a part of his own service education; and phase II to be conducted at a joint school for graduates of phase I who are to become joint specialists and are expected to go into joint assignments. They would arrive at the joint school with the basic knowledge of joint matters gained in phase I. Each of the Panel's three conclusions made their way into the policy language on professional military education agreed to by the conferees.

The purpose of the PME provisions agreed to by the conferees and included in sections 1121, 1122, and 1123 of the conference report is to safeguard and enhance the intent of Goldwater-Nichols by establishing specific criteria for the joint education program.

In many instances the services seek to protect their own independence, to develop their own force structure, and to justify their independent programs to the Congress and the American people. As an extension of these natural impulses, the services have not fully accepted nor become comfortable with the idea that joint education is best accomplished at a joint school rather than at the respective service schools.

The implications of failure to learn from the lessons of history concerning the importance of joint military operations and education are reflected in the insights provided by President Eisenhower and former Secretary of Defense Melvin Laird.

In 1958, President Eisenhower told the Congress that:

Separate ground, sea and air warfare is gone forever. If ever again we should be involved in war, we will fight it in all elements, with all services, as one single concentrated effort. Peacetime preparatory and organizational activity must conform to this fact. Strategic and tactical planning must be completely unified, combat forces organized into unified commands, each equipped with the most efficient weapons that science can develop, singly led and prepared to fight as one, regardless of service.

In 1985, prior to enactment of the Goldwater-Nichols Act, former Secretary of Defense Melvin Laird said that:

Professional military advice that rises above individual service interests to provide a broader cross-service perspective is an essential ingredient for the effective direction and management of the defense establishment. * * * Today that advice comes primarily from the services. * * * What is lacking is an independent, cross-service perspective. * * * The JCS are too frequently unable to provide effective, cross-service advice on issues that affect important service interests or prerogatives. These issues include the most important on the JCS agenda; the formulation of national military strategy; the distribution of service roles and missions, and particularly the allocation of scarce defense resources among competing needs. * * *

The absence of a strong independent joint military voice also undercuts the strategic planning process that links end (national objective established by political authorities) and means (the military forces weapons, and capabilities developed by the service departments). The Chairman is the only member of the JCS who is unconstrained by current service responsibilities. But he lacks both the staff and the statutory mandate to make consistently meaningful strategic planning recommendations on the broad range of subjects required. The service chiefs, on the other hand, control large staff, but the inherent conflict between their joint and service responsibilities has precluded their effective participation in resource planning. * * * As a result, the JCS are unable to help civilian leaders set cross-service priorities and make the necessary tradeoffs to construct the defense program and budget.

Mr. Speaker, a personnel management system that fails to man joint positions with officers possessing the requisite capabilities of talent, education, training, and experience will undermine the organizational changes in Goldwater-Nichols intended to remedy the institutional problems raised by Mr. Laird. It is incumbent upon the Congress to check the natural tendencies within the individual services to safeguard their own independence at the expense of a more effective unified command. The PME provisions included in the conference report will help in that regard.

The fundamental policy issue agreed to by the conferees is that joint specialist education should take place in a joint school. A joint school has an essentially equal representation from the military departments on both its faculty and in its student body. It is under the control of the Chairman, JCS, to further its joint perspective.

The two-phase joint specialist officer education program agreed to by the conferees would provide for a phase I to be taught in service colleges and a follow-on, temporary-duty, phase II to be taught at the Armed Forces Staff College in Norfolk.

The conference agreement elevates the Armed Forces Staff College to a new place of prominence in the military education system by following the Panel's recommendation that the Armed Forces Staff College in Norfolk be the flagship educational institution for the phase II program. It would serve as a gateway for entry into joint specialist assignments.

There are two essentials for an effective joint officer. The first is to be an expert in his own service, which an officer would learn at his own service intermediate school. The second is a thorough grounding in all aspects of joint operations which an officer would learn at the joint school.

The conference agreement requires, with few exceptions, that in-residence service intermediate education is a prerequisite for attendance at the Armed Forces Staff College.

This plan for the development of joint specialists officers keeps joint education in a joint environment under the control of a joint authority. Thus, it provides a common joint education for joint specialist nominees and a joint academic environment in which students can build on their service school foundation. It recognizes the joint specialty as an additional military occupational specialty requiring special education.

The conference agreement provides that the principal course of instruction offered at the Armed Forces Staff College may not be less than 3 months. The conferees adopted the Panel's recommendation on this issue because of the clear evidence developed by the Panel that the varied subjects necessary for a professional joint education could not be adequately covered in a shorter period of time. It could take longer because of the increasing complexities of modern joint warfare. In particular, time is needed for each student to learn from other service representatives and to develop a joint perspective. Less than a 3-month course sacrifices depth of instruction and the quality of the joint education program at the Armed Forces Staff College.

Mr. Speaker, under the determined leadership of our colleague from Missouri, this conference report assures that joint officers will receive the education, training, and experience they need to equip them for the crucial tasks they perform. I commend the gentleman for his efforts and urge my colleagues to vote for adoption of the conference report on H.R. 2461.

Mr. ASPIN. Mr. Speaker, I yield such time as he may consume to the gentleman from Hawaii [Mr. AKAKA] for the purposes of entering into a colloquy.

Mr. AKAKA. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the conference agreement and ask unanimous consent to revise and extend my remarks.

First, let me thank the chairman for including section 2814 in the bill. Subsection 2814(a) permits the Secretary of the Army to sell 35.9 acres of fee simple land at Kapalama Military Reservation to the State of Hawaii at fair market value. Subsection (b) of section 2814 affirms the requirements in the Hawaii Admission Act that land ceded to the Federal Government by the Territory of Hawaii must be returned to the State once it is no longer needed for defense purposes.

The 53.7 acres of land at the Kapalama Military Reservation are currently under the control of the Secretary of the Army. Of this amount, 17.8 acres constitute ceded lands which must be returned to the State under amendments to section 5(g) of the Statehood Act. Since subsection (a) of section 2814 authorizes the Secretary of the Army to sell all remaining fee simple land at the Kapalama Military Reservation, all parties have recognized that the Kapalama Reservation will cease to exist. Hence there is no disagreement about the fact that the ceded lands at Kapalama are to be returned to the State.

Since the Federal Government is obligated to relinquish the ceded lands, section 2814(b) merely directs the Secretary to transfer these lands directly to the State, thereby avoiding the more cumbersome process of the Army first transferring the land to the GSA and the GSA subsequently transferring the land to the State.

At this point I would like to engage the chairman of the Armed Services Committee in a colloquy regarding section 2814 of the conference agreement.

Under subsections 2814 (a) and (b), the State of Hawaii would be required to pay fair market value for improvements on Kapalama land. What concerns me is that the buildings in question have asbestos problems.

Mr. Speaker, in the case of buildings constructed by the Federal Government in which asbestos was used, would the committee chairman agree that unless the Federal Government removes the asbestos before it transfers the buildings, the calculation of fair market value should include costs the State would bear for asbestos abatement?

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. AKAKA. I yield for a response.

Mr. ASPIN. Yes, I agree that those costs should be included in determining fair market value.

Mr. AKAKA. Mr. Speaker, I also point out that some of the buildings in question are World War II era structures. Given their advanced age, they may be of little or no market value.

Let me ask the committee chairman, in the event that the cost of asbestos abatement exceeds the fair market value of the structure, does he agree that if the agency caused the asbestos to be installed that it should still bear the responsibility for asbestos cleanup? I yield for a response.

Mr. ASPIN. Yes, it should still be the agency's responsibility.

Mr. AKAKA. Finally, I note that subsections (a) and (b) of section 2814 permit the Secretary to require additional terms and conditions when transferring this land. In the event that additional terms and conditions are required, do you agree that they should be consistent with the colloquy we have engaged in today. I yield to the chairman of the committee.

Mr. ASPIN. Yes, they should be consistent.

Mr. AKAKA. I thank the gentleman for those responses.

Mr. ASPIN. Mr. Speaker, I reserve the balance of my time.

Mr. BENNETT. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky [Mr. HOPKINS].

Mr. HOPKINS. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, this conference report is a serious indictment of the congressional budgeting process, a process so thoroughly corrupt by parochial avarice that the principal goal—providing for the national defense—has been ignored.

What weapons we buy and where they're built has become more important than whether they're truly needed and fit within an overall defense framework.

The result is that America ends up being less prepared for war, or for peace, and increasingly vulnerable to the unpredictable tide of international events and the ongoing epidemic of illegal drugs.

Let me give you just one example of what's wrong with this bill:

On July 25, this House adopted by a vote of 410 to 10 a strong, unequivocal military drug enforcement package, literally pushing the Pentagon into the fight against drugs.

Remember that the Pentagon's budget request came to Congress without a single dime for drugs.

We not only authorized this new military mission, we put our money where our mouth was.

We earmarked $450 million for the effort, but a funny thing happended on the way back from conference.

In the mad scramble to fund many of the programs Dick Cheney wants to cancel, the $450 million for the drug war suddenly disappeared.

This conference report contains absolutely no money earmarked for military interdiction of drugs.

Last year we put up $300 million; this year, zero, zilch, nothing.

In its place, this report substitutes the same old budget gimmickry this Congress has elevated to high art, by putting some language in designed to give the appearance of having done something while we turn our backs on a problem we all know represents a serious threat to our national security.

Words are cheap, actions cost money . . . and there is absolutely no money in this bill set aside for military drug enforcement.

Mr. Speaker, the winds of change are sweeping across every part of our world.

We are poised on the threshold of one of the most profound periods of transition in history.

With an opportunity to begin setting a course that can take this Nation forward to an era of unparalleled peace and productive coexistence, this proposal admits to the world that America is simply unable to muster the vision, course, and discipline necessary to meet whatever challenges lie ahead. A no vote is a vote against waste in the Defense Department.

We can do better, and I urge my colleagues to reject this conference report and allow us to try again.

Mr. DICKINSON. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona [Mr. KYL], who has been very helpful and articulate.

Mr. KYL. Mr. Speaker, first I want to associate myself with the remarks of the ranking member of the committee, the gentleman from Alabama [Mr. DICKINSON], and commend him for fighting a good fight. I think he is right. Considering the importance of the subject and the need for a strong defense, we should be embarrassed at the product.

I hasten to say, however, that I do not attribute this weak result to the chairman or to the other body. In fact, I have the highest regard for the efforts of the chairman and the difficulties he faced in this process.

But our colleagues should not suffer from any illusions about this conference report. For some of the most important issues, the conference did not meet, discuss, or decide at all.

To cite one example, the conference did not determine the funding level for SDI. We backed into it, not by debating the merits, but by a highly technical process sometimes referred to as splitting the difference between the House and the Senate levels. This is hardly the most intelligent way to fund one of our most important defense programs at a level more than $1 billion below what Secretary Cheney said was necessary and what the President requested.

The funding for SDI at a level less than last year is totally inadequate.

Any resemblance, Mr. Speaker, any resemblance between a sensible defense and some key parts of this authorization bill is purely coincidental. I do not urge my colleagues to vote either way, but I cannot support the bill.

Mr. ASPIN. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. BROWN], for the purpose of entering into a colloquy.

Mr. BROWN of California. Mr. Speaker, I note that the conference agreement contains language concerning the testing of the MIRACL ground-based laser against objects in space. Specifically, the statement of managers states that the Secretary of Defense has delivered a letter to the Armed Services Committees of the Senate and House of Representatives which says that there would be no tests of the MIRACL laser against objects in space during fiscal year 1990. My question concerns the potential for MIRACL tests against objects in space during calendar year 1990. I understand that there was some discussion of this matter during meetings of the House and Senate conferees to this bill.

Mr. ASPIN. If the gentleman will yield, Mr. Speaker, the gentleman is correct in stating that the MIRACL test schedule was the subject of discussion during the conference meetings. Secretary Cheney's letter of October 23, 1989, states that there will be no tests of MIRACL against objects in space in fiscal year 1990. In addition, the statement of managers of the conference report notes that MIRACL is a congressional interest item, and asks the Secretary of Defense to respect the desire of Congress to address during the fiscal year 1991 budget process the policy implications of testing MIRACL against an object in space, and not to take any actions inconsistent with this expressed interest. I asked the chairman of the Senate Armed Services Committee, and the ranking minority member of that committee, whether it was their understanding, that there would be no tests of the MIRACL laser against objects in space during calendar year 1990, until Congress has had the opportunity to complete consideration of the fiscal year 1991 defense budget. They informed me that, indeed, this was their understanding.

Mr. BROWN of California. Mr. Speaker, I am pleased to hear this clarification, for it conforms well with the sentiments expressed by the conferees in the statement of managers. I thank the gentleman for his clarification.

Mr. DICKINSON. Mr. Speaker, will the gentleman yield?

Mr. ASPIN. Mr. Speaker, I reserve the balance of my time.

Mr. DICKINSON. I understand that, but the gentleman attributed something to me that I do not think I agree with.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). The Chair understands the gentleman from California has the time for the moment, and if the gentleman from California would care to yield to the gentleman from Alabama, he may do so.

Mr. BROWN of California. I am more than happy to yield to my distinguished colleague, the gentleman from Alabama [Mr. DICKINSON].

Mr. ASPIN. Mr. Speaker, let me understand. The time on this side is extremely constrained. I am tied up.

The SPEAKER pro tempore. Let the Chair remind the gentleman from Wisconsin that the gentleman from Wisconsin yielded time to the gentleman from California without stating the amount of time that he desired to yield.

Mr. ASPIN. I did not yield him a specific time?

Mr. BROWN of California. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The gentleman from Wisconsin [Mr. ASPIN] now controls the time.

Will the gentleman yield to the gentleman from Alabama.

Mr. ASPIN. I cannot yield any more time. The gentleman from Alabama has time.

Mr. DICKINSON. Mr. Speaker, I would ask unanimous consent to proceed for 2 additional minutes in order to conclude the discussion on this point.

The SPEAKER pro tempore. Under the rule, each of the gentlemen controls a specific amount of time.

Mr. DICKINSON. I understand that. But I am making unanimous-consent request, Mr. Speaker.

Mr. BENNETT. Mr. Speaker, I will yield 1 minute to the gentleman from Alabama [Mr. DICKINSON] if he wants it.

The SPEAKER pro tempore. The gentleman from Alabama [Mr. DICKINSON] is recognized for 1 minute.

Mr. DICKINSON. I am not sure I understood exactly what was said nor do I necessarily agree with what was said.

The conferees had a long discussion on the issue of MIRACL tests against an object in space. Following Secretary Cheney's letter, it was understood that there would be no MIRACL test against an object in space during fiscal year 1990. It was also understood that MIRACL was a congressional interest item and should be considered as such by the Secretary of Defense. This is what the statement of managers language indicates. There was certainly

no explicit understanding that the MIRACL could not be tested against an object in space until Congress adopts a conference report on the fiscal year 1991 defense authorization bill or until such bill is enacted into law. The conferees were neither date-specific or bill-specific as to an outright prohibition of MIRACL testing beyond fiscal year 1990. What the conferees did understand was their desire to address during next year's budget process, the implications of MIRACL testing before any such testing is conducted. The chairman and ranking republican of the Senate Armed Services Committee believe that Congress should have this opportunity. Along with Mr. DELLUMS, the chairman of the Research and Development Subcommittee, I also agree that we should have this opportunity. This is my understanding of the conferee's agreement on MIRACL and I will work in good faith to uphold it.

Mr. BENNETT. Mr. Speaker, I yield 3 minutes to the gentleman from Oregon [Mr. WYDEN].

Mr. WYDEN. I thank the gentleman from Florida for yielding this time to me.

Mr. Speaker, last July the House voted 284 to 138 for what I believe could have been a historic effort to control arms and make the world a safer place.

Both the United States and the Soviet Union have enormous supplies of plutonium, and what our vote said last summer is we wanted to call the Soviets' bluff. The Soviets now have their plutonium facilities open, for the most part. Our facilities are closed.

What the House said last summer is we ought to call their bluff, we ought to challenge them, we ought to push them to try to enter into negotiations to come up with a mutual and verifiable reduction of plutonium so the world could be a safer place.

It received overwhelming bipartisan support. On this side of the aisle I think something like 14 Members opposed it. It would have done three things.

It would have made it clear that we are concerned about pollution and unsafe conditions at the DOE weapons production facilities and we are not going to stand any longer for poisoning the ground and the water. It would have made clear that if negotiations were successful in banning future production of plutonium and ATU, we could have freed up money to clean up those tremendous pollution problems.

So what this amendment did was give us an opportunity to employ the best of American ingenuity in arms control. I think it is very, very sad that there were not serious and substantive negotiations to try to go forward and pursue this amendment.

I just want to make it clear to our colleagues that the bipartisan cosponsors of this legislation are going to be back. We think this is a historic opportunity to control weapons development. And, in fact, as far as the sponsors of this legislation can ascertain, last summer's vote was the very first time, the very first time that the House was on record in terms of trying to control the production of fissile material.

We missed the opportunity in this legislation. It is extremely unfortunate. We are going to be back and pursue it again.

Mr. ASPIN. Mr. Speaker, may we be informed as to the time remaining?

The SPEAKER pro tempore. The gentleman from Wisconsin [Mr. ASPIN] has 5 minutes remaining, and the gentleman from Alabama [Mr. DICKINSON] has 5 minutes remaining on the one side; and on the other side the gentleman from Florida [Mr. BENNETT] has 2½ minutes remaining.

Mr. ASPIN. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. ORTIZ].

Mr. ORTIZ. Mr. Speaker, I rise in support of the conference agreement on H.R. 2461, the Defense authorization bill for fiscal year 1990, and commend the gentleman from Wisconsin [Mr. ASPIN], chairman of the Committee on Armed Services, the gentleman from Alabama [Mr. DICKINSON], the ranking minority member, and the conferees.

Mr. Speaker, as a member of the House Armed Services Committee, I have a great appreciation for the difficulty of the job of balancing real and serious defense needs with declining dollars.

We must make the tough decisions in determining our priorities. Some of these decisions have proved particularly difficult due to the different needs of the services. I must admit that the conferees have made some decisions that are not completely to my liking, but overall, I believe they have done a good job.

In terms of highly visible projects that have received national attention, I would have preferred more money for the V-22, not only in research and development, but also in procurement. I would have preferred that we not make the decision to kill the F-14 Tomcat, but at least the conferees had the wisdom to increase the numbers of this aircraft produced in an effort to meet our real defense needs.

Many other less visible, but in my opinion, equally needed projects were not as successful, but overall, this is a good bill that reflects the basic will of the House. The conferees had a tough job.

On a completely positive, and for that matter jubilant note, this bill contains funding for the final initial construction phase of a project that is near and dear to the hearts of my constituents—Naval Station Ingleside. The people in south Texas have worked hard to welcome the Navy and the U.S.S. *Wisconsin* to its new homeport site. This bill contains a $22 million authorization for completion of the project.

This money will be used as follows: $6.2 million for bachelor enlisted quarters; $1 million for an explosive ordnance disposal facility; $4.3 million for a general warehouse; $910,000 for magazines; $4.87 million for a physical fitness facility; $2.44 million for the public works complex; and $2.3 million for medical or dental facilities.

Just as importantly, this bill contains the necessary authorization to build a new home for the commanding officer of Naval Air Station Kingsville. The $140,000 allocated for this construction may be some of the best money spent by the Navy this year. By finally providing on-base housing for our base commander, we have improved our security at this base and worked to improve the morale and expectations of those stationed at that facility.

Corpus Christi Army Depot is the largest industrial employer in my Congressional District. Over the years CCAD has been on the cutting edge of new technology in the field of helicopters. Any money spent to upgrade and improve facilities and the workforce's ability to effectively produce is money well spent. We have authorized $5.2 million for the construction of an aircraft instrument calibration facility at CCAD. These are important, but less nationally visible, priorities that were wisely funded by the conferees.

On another very important note, I feel it is critically important that I take this opportunity to clarify language contained in two paragraphs in the report of the Committee on Armed Services of the House of Representatives on the National Defense Authorization Act for Fiscal Years 1990-1991, H.R. 2461. The language in question appears on page 199 of the report under the heading "Air Force COCESS/GOCESS conversions."

As a member of the committee, and one of the initiators of this language, I wish to make clear that it was never the intention of our committee to endorse in any way the policy guidance set forth in a memorandum from the Assistant Secretary of the Air Force (readiness support), dated April 18, 1988 (the so-called "McCoy memorandum"), with respect to converting contractor-operated civil engineering supply stores [COCESS] to Government-operated civil engineering supply stores [GOCESS].

On the contrary, the report language should have reflected the intention of our committee to direct the Air Force not to convert any COCESS operations to GOCESS except after compliance with applicable Federal laws,

the Federal Acquisition Regulation, and the Department of Defense [DOD] regulations governing the conversion of DOD commercial activities from performance under contract to performance by DOD personnel.

In closing, I would just like to say that this is a good bill, and I encourage my colleagues in the House to support final passage of this conference report.

Mr. DICKINSON. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania [Mr. WALKER].

□ 1320

Mr. WALKER. Mr. Speaker, I was somewhat stunned to find in the conference report a matter regarding electronic fuzes bought by the Army. That seemed to fly in the face of a GAO report that came out just last month. In that report, the GAO states:

Our current work on the electronic time fuze did not disclose any compelling need to procure electronic time fuzes at this time and showed that mechanical time fuzes can be used to satisfy the Army's current fuze requirements at a lower cost. Therefore, we believe that the Army should procure existing mechanical time fuzes.

The reason for that is that the electronic time fuzes, endorsed by the committee, cost 4 times as much per unit as the mechanical time fuzes. The Committee on Appropriations, that has worked on this same matter, is aware of this problem.

I have talked to the committee staff, and they have told me that they will try to work out the problem between the two committees on this and with the GAO. I will appreciate the cooperation of the committee as we move forward.

Mr. ASPIN. Mr. Speaker, I yield 1 minute to the gentleman from Wisconsin [Mr. KASTENMEIER].

Mr. KASTENMEIER. Mr. Speaker, I thank the gentleman for yielding time to me.

I rise to express appreciation of the Committee on the Judiciary as a conferee and as one who signed the conference report with reference to issues involved with the House Committee on the Judiciary.

We were successful, I think, in resisting either defeating or satisfactorily resolving all issues affecting the Committee on the Judiciary, and there were a number this year commencing, obviously, in the other body, with the exception of one. And that was to which my colleague, the gentleman from New Jersey [Mr. HUGHES] has given a spirited opposition to in terms of the resolution that was finally adopted here.

However, in every respect, I want to say that on behalf of the Committee on the Judiciary, we appreciate the cooperation, particularly of the chairman, the gentleman from Wisconsin [Mr. ASPIN] and the Committee on the Armed Services conferees in resisting these amendments. I think there is a lesson to be learned that makes the problem very much more difficult for all Members.

Mr. DICKINSON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from California [Mr. MCCANDLESS].

Mr. MCCANDLESS. Mr. Speaker, I would like to engage the gentlewoman from Maryland [Mrs. BYRON], the distinguished chairman of the Subcommittee on Military Personnel and Compensation, in a brief colloquy.

I would point out to the subcommittee chairman that a question has been raised concerning the intention behind section 710 of H.R. 2461. Section 708 provides the respective Secretaries of the Armed Services with the discretion to retain Reserve medical personnel beyond the mandatory retirement age.

The question raised is the meaning of the word "retained." As the sponsor of the amendment which became section 710, it was my intention that the word "retained" be given its broadest meaning. Just as "to retain an attorney" would be taken to mean to hire or to enlist, it was my intention that section 710 would provide the appropriate Secretary with the discretion to reappoint a qualified individual who was separated from the Reserves solely because of the age limitations of prior law.

I would ask the gentlewoman from Maryland, the chairman of the subcommittee, if that was her understanding of my intention, and if I have accurately outlined her interpretation of section 710.

Mrs. BYRON. Mr. Speaker, will the gentleman yield?

Mr. MCCANDLESS. I yield to the gentlewoman from Maryland.

Mrs. BYRON. Yes, I certainly believe that the amendment could and should be interpreted in this way. I would add that because this provision deals with Reserve medical personnel—an area where the services have warstopping shortages in physician and nurse categories—the military would be remiss if it failed to use the broadest interpretation possible.

Mr. MCCANDLESS. Mr. Speaker, I thank the gentlewoman for this clarification. I would like to express my sincere appreciation to her and to her excellent staff, particularly Deborah Lee, for their assistance.

Mr. ASPIN. Mr. Speaker, I yield 1 minute to the gentleman from Georgia [Mr. DARDEN].

Mr. DARDEN. Mr. Speaker, I rise in strong support of this conference agreement and urge the Members of this body to vote for its passage.

We have all been here long enough to know there is no such thing as a perfect bill. A conference agreement is indeed a unique piece of legislation because so many differing provisions and individual concerns must be addressed and rectified. The Defense authorization conference is even more unique because it constitutes an annual process which determines defense policy for an entire year. The chairman of the Armed Services Committee, the gentleman from Wisconsin, and the other conferees, are to be commended.

In my opinion, this compromise agreement is one that is based on the long-term needs of our national defense. We have addressed the concerns of many individual Members, whether these concerns be in strategic or conventional weapons systems, personnel policies, operations and maintenance accounts, drug interdiction, research and development, or budgetary concerns. Some are not happy with the overall product. But it is indeed the overall product that is a critical step toward ensuring that our defense forces will be viable into the 21st century.

This conference agreement ensures the continuance of a strong conventional force. We have procured 18 F-14 aircraft. These planes had been eliminated in the President's budget for economic reasons. But, without these aircraft, our aircraft carriers will not have the necessary assets to defend themselves. By purchasing these F-14's, we have taken the prudent course just in case the naval version of the advanced technology fighter does not meet its proposed operational date.

We have also continued funding for another conventional program, the V-22 Osprey. I have served on the Armed Services Committee for 6 years, since my initial election to Congress. Every year, without exception, the Marine Corps has unequivocally stated that their No. 1 aviation priority is the V-22. Yet, the administration abruptly called for its cancellation on budgetary reasons. In order to meet the needs of our amphibious forces, the Congress had the responsibility to continue this program.

Another important conventional area we have addressed in this bill is the continued support for our National Guard and Reserve forces. I commend the gentleman from Mississippi for his diligence in this area. Mr. Speaker, with declining Defense budgets, the "total force" concept is here to stay. The Guard and Reserve forces are playing an ever-increasing role in our conventional deterrent. Without the additional procurement funds authorized in this bill for Guard and Reserve units, modernization, and thus our deterrence, could be jeopardized.

Many have criticized this conference agreement as being overly generous to strategic programs. Mr. Speaker, no matter how horrible and heinous nuclear warfare would be, we cannot deny that we live in a world where nuclear deterrence is a reality. We must maintain that nuclear deterrence, and

I believe our continued funding for both the rail garrison MX and the small ICBM, or Midgetman, is critical at this juncture in United States-Soviet relations.

We have also funded the strategic defense initiative at $3.8 billion. This is a significant cut from last year's funding level. I have always been a strong supporter of the strategic defense initiative, and I would have preferred a higher funding level. But, I do believe $3.8 billion is adequate to continue a legitimate research and development program on this worthy technology.

As always, we have attempted to address the critical needs of our men and women serving in the Armed Forces. We have provided for a 3.6-percent pay increase and have taken important steps to improve child care for military personnel.

Also, the conference report continues to promote an increased role for the Department of Defense in our Nation's war on drugs. We have authorized $450 million—up from $300 million last year—for drug interdiction. Again, I would prefer more funding for this program. The Department of Defense has an important role to play in this area, and I believe they are beginning to understand that Congress is serious about requiring an increased effort. I have some concerns regarding the fact that the bill does not mandate the actual spending of these funds for drug interdiction, but I have faith that the Defense Department will eventually realize the importance of this mission, and live up to the requests of Congress.

Finally, Mr. Speaker, on a matter of personal importance, I am pleased that the conferees approved a 1-percent real growth in the defense technology base. Since my election to Congress, the Department of Defense has continually stated that our technology base was inadequate, but the proposed budgets never reflected their concern. The defense technology base, the so-called basic research and exploratory development accounts, has decreased in real terms since 1965. I appreciate the support I received from my subcommittee chairman, Mr. DELLUMS, in our efforts to mandate real growth in the technology base. Specifically, we created the technology base enhancement program, which would mandate 2 percent real growth in the technology base for the next 5 years. In conference, we were only successful in mandating a 1-percent growth this year, and a 2-percent growth for next year, but this is an important first step toward improving the research capabilities of our Nation so that our forces will remain technologically superior.

Mr. Speaker, this bill is not perfect, but it is a sound product for meeting the needs of our Department of Defense. I strongly urge its adoption.

Mr. BENNETT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to take this moment to say how deeply we appreciate the fine work of Tim Wincup and Steve Conver, and congratulate them for going to the Cabinet of the United States. They are people that deserve it. We are proud of them.

There are a lot of people here who have been critical of this bill, and that does not mean it is not a good bill. We in Congress are given pretty good pay, I think, and given great acknowledgment as being important people. In World War II I served for 5 years in the infantry. Most of that time I was not fighting the enemy. That was free time, we could say. However, when the time came that it was my life or somebody else's life, or my country's survival or my survival, I, like every other infantry officer, put my life on the line for our country, That is why we are here today in regard to this bill. We have been Congressmen for years, most Members. We have a responsibility to look beyond the next time when we run for office. We have the responsibility to do what we think is best for our country, whether it is good for Members individually or not. Now, this bill gives Members two mobile ICBM's land-based. We already have one, the sea-based. It gives Members five additional B-2 bombers, when we know we just now got the B-1, and we really ought to be perfecting that and not spending all of this money on the B-2. We know the SDI is overfunded, not underfunded, and we have never seen in my career, and at least, I do not believe any Member in the history of this Congress, as far as I know, ever thought that it was a good idea to go back to a particular House or Senate and get additional money added to get additional money for something that they really did not believe was the proper amount to begin with. Yet this was the Senate's tactic on SDI funding.

Mr. Speaker, there are many things wrong with this report. The worst thing wrong with this report is that this report indicates a lack of leadership on the part of all Members. Every Member bears a burden on that. We were called upon to do our duty. We have not done our duty. We are overspending in fields where we should not spend and underspending on conventional weaponry wasting money on that which has nothing to do with damage to the enemy. These faults are basic. They are important. This conference report, in my opinion, should be defeated.

Mr. ASPIN. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts [Mr. MAVROULES].

Mr. MAVROULES. Mr. Speaker, I rise today in support of the conference report. Of the many House positions that the conferees were able to secure, one that I attach particular importance to is the expansion of the statutory cap on deployment of MX missiles.

Whether based in silos, on railroad cars, or any other scheme the Air Force dreams up—we will never witness the deployment of the 51st MX missile.

The Senate did not support the cap—the House conferees had to fight hard to win it. I am proud of our victory. The cap is good for a variety of reasons: It is good for the future of our START negotiations; it is good for the future of United States military planning; and it is good for the future of United States-Soviet relations.

The United States has spent the better part of this decade attempting to negotiate a strategic arms control agreement with the Soviet Union. I honestly believe that we will wind up trading the MX away in exchange for the SS-24 and 22-18—the Soviet's 10 warheaded missiles. The cap will guarantee that we don't waste money deploying a weapon system we are eventually going to negotiate away.

We have made the decision that we are forging ahead with rail garrison basing mode for the MX missile. I opposed this decision. I think the scheme is fundamentally flawed. Not only would the rail garrison be vulnerable to a sudden Soviet attack, but there is also no way to protect the 180,000 miles of track proposed for this plan. When based in garrison, these MX trains would be more vulnerable to Soviet warheads than they are sitting in the ground today. Rail garrison is bad military policy—fortunately the cap limits the impact of this flawed deployment decision.

Finally, the cap is good for United States-Soviet relations. At a time when Mikhail Gorbachev has dominated world opinion on arms control by offering one concession after another in virtually every negotiating forum our two countries are party to, it makes no sense to spend more money on provocative first strike nuclear weapons. Capping deployment of the MX is a sign of the new strategic environment that we live in.

I urge my colleagues to endorse the House victory on the MX cap. Vote in support of the conference report on the fiscal year 1990 Defense Authorization Act.

DRUG INTERDICTION

Mr. Speaker, the conference report clarifies and strengthens DOD's role as the lead agency for detection and monitoring of the aerial and maritime transit of illegal drugs into the United States. Four hundred fifty million dollars—up from $300 million in fiscal year 1989—is earmarked for increased DOD operations and cooperation with

Federal, State, and local agencies with counternarcotics responsibilities. Of the $450 million, $70 million was earmarked for National Guard counterdrug operations; $40 million for expanded nonreimbursable support to other Federal agencies; $28 million for drug-related R&D; $27 million for communications and intelligence integration; and, $1 million for Civil Air Patrol flying operations. The prohibition on military involvement in direct law enforcement was strengthened, and a Senate provision authorizing law enforcement agencies to use force against civil aircraft suspected of smuggling drugs was not adopted.

We believe the conference report continues the momentum established in last year's defense authorization bill and brings to bear many important capabilities of the military to assist in the fight against this very real threat to our national security. Unlike last year, we believe that our former colleague, Secretary Cheney, is onboard in this effort. If that spirit of cooperation continues, even in the face of defense funding constraints, we believe we can together make a difference.

□ 1330

Mr. DICKINSON. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. HERGER].

Mr. HERGER. Mr. Speaker, I rise to reluctantly announce my opposition to this conference report. As a strong supporter of our Nation's defense, this is not the position I would prefer to take.

This package eliminates all funding for the SR-71 strategic reconnaissance aircraft, as well as another similar classified program. In so doing, we are completely abandoning our long range airborne reconnaissance capability for years to come.

The SR-71 has provided critical intelligence data for our Nation's decisionmakers.

For these reasons, the two principle users of the data collected by the plane, the CIA and the State Department both strongly opposed the Air Force's decision to close down the program.

Contrary to popular belief, our intelligence satellites simply cannot do it all. In a remote area of the world, satellite coverage is extremely limited.

In the event of a conflict with the Soviet Union, the Department of Defense and even the committee itself has acknowleged that our satellites could be damaged by Soviet antisatellite weapons. In either of these cases, as in a host of others, the SR-71 is our only option for critical intelligence.

I know I echo the feelings of a large bipartisan number of Members, both in the House and the other body when I say that it is the conference report, and not the SR-71, which should be grounded. I urge my colleagues to oppose this report.

Mr. DICKINSON. Mr. Speaker, I yield myself the balance of my time.

In conclusion, let me say, as I said at the outset of this debate, that this is far from a perfect conference report. Many Members are unhappy with its contents, and for many reasons. It is a sad commentary on this institution that this is the best we could do. We approach conference conscientiously and tried to do the best we could under very difficult circumstances. I will support it.

Mr. FASCELL. Mr. Speaker, for the past several years, members of the Committee on Foreign Affairs have served as conferees for the foreign aid and arms control provisions in the Department of Defense authorization bills.

As in the past, compromises were reached on most of the foreign aid and arms control provisions in the fiscal year 1990 Department of Defense authorization bill to the general satisfaction of the House Foreign Affairs Committee conferees.

However, there were three arms control issues in particular that were concluded in a manner that did not reflect the will of the full House and were resolved in a less than satisfactory fashion. These are: First, the Wyden-Fascell-Tauke-Green amendment calling for United States-Soviet negotiations to ban the production of fissile materials for weapons purposes adopted on July 27; second, the Owens-Fascell-Aspin amendment on the binary chemical weapons prohibition adopted on July 27; and third, the Brown-Coughlin call for the President to seek limitations on antisatellite [ASAT] weapons, also adopted on July 27.

NEGOTIATIONS FOR A FISSILE MATERIAL BAN

The genesis of including a call for fissile material negotiations in the House fiscal year 1990 Defense authorization bill stemmed from the introduction of legislation last May called the International Plutonium Control Act. The Foreign Affairs Committee's Subcommittee on Arms Control, International Security and Science, which I chair, subsequently held a hearing last June 20 on this legislation, H.R. 2403. That legislation, which has 190 cosponsors from both parties, calls for the President to seek negotiations on a United States-Soviet ban on the production of plutonium and highly enriched uranium for weapons purposes and calls for a funding cutoff on the production of plutonium for weapons purposes unless the President certifies to the Congress that the Soviets are continuing to produce plutonium for weapons purposes.

The version of this legislation which was included in the fiscal year 1990 Defense authorization bill incorporated the goals of the International Plutonium Control Act. Approved on July 27 by an overwhelming bipartisan majority of the House in a vote of 284 to 138, the language in the House defense bill: First, urged the President to seek negotiations on a United States-Soviet halt to the production of plutonium and highly enriched uranium for weapons purposes; second, urged the President to establish a United States-Soviet working group to examine the technical aspects of a superpower halt in the production of fissile materials for weapons purposes; third, required a report on the verifiability of a mutual halt; and fourth, required the establishment of an internal United States working group to provide technical advice to the President in preparation of the report.

Unfortunately, the will of the House was not served in the final outcome of this issue in the House-Senate conference on the Defense bill. In an effort to work with the Senate, which had included in their bill a reporting requirement on warhead dismantlement and fissile material monitoring, House and Senate staff worked together to come up with a reasonable compromise of the two positions. During last minute negotiations, however, this compromise was abandoned altogether and a simple reporting requirement was included in statement of managers language.

In an effort to preserve the goals of the International Plutonium Control Act, it is the intention of the supporters of this measure to take further action on this issue next year.

The basic purpose of the International Plutonium Control Act is to rectify the current superpower imbalance in nuclear materials production for nuclear weapons which favors the Soviet Union. In testimony before my Subcommittee on Arms Control, International Security and Science, it was made clear that continued production of plutonium for weapons purposes is unnecessary and costly, and that a mutual halt in the production of fissile material for weapons purposes would lay the basis for verifiable bilateral reductions in the stockpiles of nuclear warheads.

Progress by the United States and the Soviet Union in this area could send a strong signal to nonnuclear weapons States and borderline States that the superpowers are concerned about proliferation. Moreover, superpower progress toward a ban on the production of fissile material for weapons purposes could put pressure on those countries that are bordering on processing nuclear arsenals to place all their nuclear facilities under international inspection.

For these and other reasons it is timely and important to put this issue on the agenda of superpower negotiations.

NO CHEMICAL WEAPONS PRODUCTION

Once again the administration's request for binary chemical weapons production has caused considerable controversy and sharp differences of opinion in Congress. This year, as in several of the past 9 years, the House and the Senate have disagreed as to whether or not there should be any binary chemical weapons production in fiscal year 1990. The Senate authorized $47 million in fiscal year 1990 production funds as passed by the House. The Department of Defense [DOD] authorization had absolutely no production funds for binary chemical weapons—none for the Bigeye bomb, none for the 155mm. artillery shell, and none for the multiple launch rocket system.

Funding requests totaling several billion dollars for these three binary chemical weapons systems have been rejected, held back, fenced in, and compromised over the past 9 years. This year is no exception. The DOD authorization conference report for fiscal year 1990 stipulates that the $47 million for the

155mm. binary artillery shell production program is not authorized unless longstanding production backlogs and other problems are fully and expeditiously remedied and are so certified by GAO. The conference report's position reflects the GAO's conclusion on the 155mm. binary artillery shell as contained in the GAO's October 1989 report entitled "Defense Budget—Potential Reductions to DOD's Fiscal Year 1990 Ammunition Budget." That report concludes:

The Army's $47 million fiscal year 1990 request for a classified number of 155mm. M687 GB-2 projectiles is premature for two reasons. First, the canister supplier had been unable to meet delivery schedules, resulting in undelivered quantities for prior year programs. Second, a new chemical production facility needed to produce the projectiles may not be completed in time to produce the requested quantity within the fiscal year 1990 funded delivery period. Therefore, we believe that additional funding is not needed in FY1990 (p. 14 GAO/NSIAD 90-23).

There are also no production funds in the fiscal year 1990 DOD conference authorization for either the Bigeye binary bomb or the multiple launch rocket system [MLRS]. Because the 155mm. binary artillery shell program has experienced significant production problems over the past 3 years resulting in a total of $188 million in unspent funds from prior years for that program, it is increasingly clear that there will be no need to release new funds during fiscal year 1990 for binary chemical weapons production. This year's compromise may solve the practical problems of a weapons program that has been experiencing major backlog and serious management problems over the past 3 years, but it does not solve the arms control and foreign policy problems involved in a chemical weapons policy that is based on new production.

The arms control and foreign policy reasons which fostered my initial involvement in this issue remain even more important today as motivations for opposing new chemical weapons production. Concerning foreign policy, new binary chemical weapons can only be useful as a deterrent and retaliatory capability if they replace the unitary chemical weapons stocks in Europe. But, our NATO allies in Europe will not accept new chemical weapons on their soil and, in fact, President Reagan even agreed with Chancellor Kohl of West Germany to unilaterally withdraw the unitary chemical weapons. Now, President Bush has agreed to accelerate that withdrawal. The unitary chemical weapons were good bargaining chips for the arms control table but unfortunately we agreed to give them up without any reciprocation by the Soviets.

Regarding arms control, it is vital that we have a comprehensive policy on chemical weapons which stresses the achievement of a global ban, destruction of chemical weapons stocks rather than production of new chemical weapons, and multilateral sanctions to stop chemical weapons proliferation. Since the Soviets seem to have held to their chemical weapons production moratorium which began in April 1987 and since it appears likely that the United States and U.S.S.R. will embark on a bilateral destruction program for existing chemical weapons stocks it is contradictory to the spirit and reality of these positive arms control developments if the United States decides to pursue a chemical weapons production program.

An important policy statement was added to the House DOD authorization bill by Representatives PORTER and ROUKEMA in the form of a sense of Congress resolution. This policy statement anticipated President Bush's speech at the United Nations in September by 2 months. That policy statement of July 27 was adopted by a 414-4 vote as an amendment to the DOD authorization bill and sets forth the following important congressional findings:

First, the proliferation of chemical weapons and their repeated use represent a grave threat to the security and interests of the United States;

Second, the most comprehensive and effective response to the threat posed by the proliferation of chemical and biological weapons is the completion of a verifiable treaty banning the production and stockpiling of chemical weapons;

Third, the President should intensify ongoing efforts to establish an agreement with the Soviet Union and other countries establishing a mutual and verifiable agreement to stop the production, proliferation, and stockpiling of lethal chemical weapons;

Fourth, the President should personally recommit to securing a treaty and to exerting strong leadership in bringing the international community together to rid the world of the threat of chemical weapons;

Fifth, the successful completion of a treaty banning chemical weapons being negotiated at the multinational United Nations Committee on Disarmament in Geneva should be one of the highest arms control priorities; and

Sixth, the United States negotiators in Geneva should take concrete steps to initiate proposals regarding the composition of the verification regime that will meet the legitimate concerns of other negotiating parties while also addressing the security concerns of the United States.

This congressional policy language captured many of the initiatives that have, in fact, been taken after this amendment was adopted as part of the DOD authorization bill. For example, President Bush's U.N. speech did recommit him personally to achieve a worldwide ban on chemical weapons and did assert Presidential leadership. Also, at the Canberra conference against chemical weapons held in Canberra, Australia, in September 1989 the United States delegation offered a proposal for a special technical working group on verification issues to assist the conference in refining the verification provisions of the draft treaty in Geneva.

This sense-of-Congress language also proposed bilateral initiatives with the Soviet Union and such an initiative was taken by President Bush in his U.N. speech which proposed a bilateral destruction of chemical weapons with the Soviet Union on a timetable keyed to the chemical weapons treaty in Geneva. The final DOD authorization conference version of the original House sense of Congress provision has revisions which reflect the fact that a number of the policy initiatives recommended in the provision have been undertaken by the Bush administration.

The coincidence betwen the sense of Congress and Presidential policy initiatives simply underlines the concurrence between executive and legislative branches on the importance of a chemical weapons ban, the support for capitalizing on opportunities for bilateral arms control, the concern for a verifiable treaty, and the advantage to be gained from Presidential and U.S. leadership on this issue.

A policy of continued U.S. production of new binary nerve gas weapons spells trouble for President Bush's own objective. It places all the positive features of his U.N. speech at risk. It unwittingly legitimizes the very thing he wants to stop—chemical weapons proliferation. It is also a violation of the treaty that Vice President Bush presented in 1984 and the current draft treaty in Geneva, both of which call for an immediate cessation in chemical weapons production.

Fortunately, President Bush has recommitted himself and the United States to a worldwide ban on chemical weapons at the United Nations. That is important and it gives new momentum and purpose to the chemical weapons negotiations. A bilateral superpower destruction program can go a long way toward convincing most countries that the superpowres are sincere, want movement on this arms control issue, and will exert pressure for universal adherence to the treaty. U.S. priorities should be clearly stressing accelerated destruction, development of verification capabilities, and chemical weapons arm control, not new chemical weapons production.

NEGOTIATIONS FOR ASAT LIMITATIONS

The House fiscal year 1990 Defense authorization bill included "sense of Congress" language urging the President: First, to pursue strict negotiated limitations with the Soviet Union on antisatellite weapons; second, to seek the dismantlement of the Soviet Union's ground-launched coorbital antisatelite weapon; and third, to submit to the Congress a comprehensive report on ASAT weapons and satellite survivability. The Senate required a report on the verifiability of limiting ASAT's and whether such would be in U.S. interests. The conference produced an even milder version of the House's already modest provision. The compromise urged the President to "explore the feasibility" of ASAT limitations.

In another potential setback, the conference outcome abandoned the House prohibition on testing the MIRACL laser against objects in space. Instead, in the final negotiations, the conference adopted report language urging the administration not to test the laser in fiscal year 1991 until Congress has had the chance to address the issue next year. Secretary of Defense Cheney has stated in an October 23 letter that the Department of Defense has no plans to test the laser in fiscal year 1990.

The clear intent of a majority of the House is to place the subject of limiting ASAT weapons on the agenda of superpower negotiation. As the United States relies heavily on satellites for surveillance and intelligence-gathering, it is in our interest to engage in negotiations with the Soviets to limit potential attacks on our satellites. It is somewhat puzzling to me why the final conference agreement delet-

ed the provision urging the President to seek the dismantlement of the Soviet coorbital ASAT. The existence of the Soviet ASAT is one of the main reasons why the administration states that the United States needs its own ASAT capability. Given that, the dismantlement of the Soviet system would clearly be in our interest. No one should oppose that unless of course proponents of a United States ASAT weapon are afraid they would no longer have any justification for pursuing an ASAT program if the Soviet system were dismantled.

As in the case of a negotiated fissile material ban on production for weapons purposes, pursuit of a mutual ASAT ban and a comprehensive ban on the production and use of chemical weapons will be a major part of the Congress' arms control agenda next year.

Ms. SCHNEIDER. Mr. Speaker, I supported the House version of the fiscal year 1990 Defense bill. I felt that we made hard decisions and produced a balanced bill that reflects our national defense priorities. Unfortunately, I feel compelled to vote against the conference report.

As my colleague from Minnesota [Mr. FRENZEL] pointed out, this legislation violates section 302B requirements of the Budget Act of 1974. In addition to my budgetary objections, I would also like to point out that the conference report does not reflect the will of the House. We passed significant cuts in several weapon systems in July and unfortunately the conferees have virtually ignored the desires of the House.

The administration requested $4.9 billion for the strategic defense initiative. In light of present budget constraints, I believed that this was too much money for a program of questionable merit. I supported two amendments to cut SDI spending, and a compromise of $3.1 billion was ultimately adopted by the House. The fiscal year 1990 conference contains a funding level of $3.8 billion. Although this is the first reduction in SDI in its 7-year history, we are still committing too many of our scarce resources to this program.

I also voted to slow down production of the B–2 Stealth bomber. As much as I am strongly supportive of the air leg of our nuclear deterrent triad, I felt that $4.7 billion is too much for a plane that has only flown once. The House voted to restrict procurement to two B–2's in fiscal year 1990 and for advanced procurement in fiscal year 1991. Unfortunately this conference report approves a total of seven B–2's, to be procured without the approval of Congress. This is far beyond the scope of the House-passed Aspin-Synar amendment.

The House also voted to limit the MX rail garrison to $600 million and to eliminate the Midgetman Missile Program. These are hard choices made by the House. The conference report provides almost full funding for both systems and gives the administration discretion to choose between the two land-based ICBM systems. Given that we presently have a credible land-based nuclear deterent consisting of 1,000 ICBM's in silos, with a total of 2,450 nuclear warheads, the House decided that we only needed one mobile land-based ICBM as a bargaining chip.

I believe that with the Trident submarine, the B–1B and B–52 strategic bombers and our land-based ICBM's, we have a credible and potent strategic nuclear deterent. I support research and development for SDI, and limited procurement for the B–2 aircraft. However, in this time of fiscal constraint and changing superpower relations, Congress must carefully balance each of our national security priorities and our ability to fund them.

In my opinion, the fiscal year 1990 Defense authorization conference is fiscally irresponsible and not an acceptable compromise between the House and Senate.

The Defense authorization bill is the most expensive bill considered by Congress each session. It alone accounts for $1 out of every $4 spent by the Federal Government.

Each session, we in the legislative branch have a chance to influence significantly the direction of our national security agenda. The result of our deliberations determine the size and scope of our strategic and tactical national defense posture. National security is not framed solely in terms of military preparedness and nuclear deterence.

One important indicator of national security is if we are the type of nation that other nations seek to emulate freely. We achieve this when our economic decisions promote not only a competitive and prosperous business environment, but a modern infrastrucutre and sound education system. National security also includes a cleaner environment, less dependence on imported fossil fuels, and other important domestic policy components. I believe that by pursuing these priorities, the United States will continue to lead the world toward peace and global security.

Our Nation's defense policy would seek a balance of strategic and tactical weapons that reflect our legitimate security needs in a rapidly changing world. The conference report clearly does not reflect this balance.

Mr. ANDERSON. Mr. Speaker, I would like to take this opportunity to thank the distinguished chairman of the Armed Services Committee, Mr. ASPIN, as well as the ranking minority member, Mr. DICKINSON, for their assistance in resolving the issues in the conference that were within the jurisdiction of the Committee on Public Works and Transportation. One such concern to our committee was the Senate provision transferring ownership of the Pentagon from the General Services Administration to the Department of Defense. Without their help we wouldn't have been able to convince the Senate to drop this provision.

The Public Works Committee is very interested in the deplorable physical condition of the Pentagon. In fact, at a committee markup next week, we plan on requiring the General Service Administration to submit to Congress a plan to repair the Pentagon to meet the needs of the Department of Defense.

I am hopeful that this is the beginning of the much needed renovation of the Pentagon. Again, my thanks to Chairman ASPIN and Mr. DICKINSON for all of their help.

Mr. SKAGGS. Mr. Speaker, I want to express some complimentary and some critical thoughts on the conference report on the fiscal year 1990 Defense authorization bill.

While this bill is important to the entire Nation, I want to point out several key sections that will benefit citizens in Colorado and in Colorado's Second Congressional District.

First, the bill contains $2.9 million to fund the June 16 agreement between the Department of Energy [DOE] and the State of Colorado. These funds will provide Colorado with the additional technical and financial support it needs to carry out environmental oversight and monitoring activities at the Rocky Flats plant. In addition, the funds will help accelerate cleanup plans at the plant, and will help pay for new health studies relating to plant operations.

Second, the bill contains $500,000 to help the cities of Arvada, Broomfield, Northglenn, Thornton, and Westminster pay for the special measures they have taken to protect their drinking water supplies from potential contamination from Rocky Flats. The FBI–EPA raid of the plant in June raised serious concerns about contamination and prompted these cities to increase their testing of municipal water supplies to detect any toxic materials that might have originated from the plant. Broomfield also constructed a ditch to divert plant water drainage around Great Western Reservoir, a major source of that city's water supply.

Rocky Flats is a Federal facility and these costs should be a Federal responsibility. This funding means that local taxpayers won't have to pick up the tab for these water protection measures.

Third, the bill contains a provision requiring the Department of Energy, which owns the Rocky Flats plant, to give a higher priority to environment, safety, and health concerns when it awards any kind of bonus to contractors at nuclear weapons plants. I applaud the Department for agreeing to implement this provision immediately—rather than waiting for this bill to become law.

These three provisions are important steps toward improving safety, health, and the environment at Rocky Flats. As the author of these three provisions, I want to state my appreciation for all the help the chairman of the Armed Services Committee gave me in getting these provisions approved and into today's conference report.

I want to mention, however, two provisions that are not in the conference report that I believe would also have made important contributions to improving safety at Rocky Flats and the rest of the Nation's nuclear weapons plants.

First, Secretary Watkins had asked for a temporary ability to hire a limited number of top scientists and managers at wages above those he can now offer under Federal pay rules. He also asked for certain limited, temporary exemptions to Federal dual compensation rules and conflict of interest rules—exemptions that would allow him to hire some top nuclear experts to help DOE turn its program around. I believe these limited and temporary exemptions are warranted, and it's unfortunate they were dropped from the Senate's version of the bill.

Second, there is no provision in the bill to provide for the kind of independent oversight and regulation of the weapons program that is long overdue. I attempted to offer such an amendment to the Defense bill, but the Rules

Committee did not make it in order for floor consideration. I have great respect for the work Secretary Watkins is trying to achieve at the Department, and my call for independent oversight is no reflect on his efforts. However, Secretary Watkins will not always be at the helm of DOE, and I fear that if we do not seize the opportunity soon to set up a technically qualified independent board to regulate the program, the problems at DOE could well come back to haunt us at even greater taxpayer expense.

Mr. BROOMFIELD. Mr. Speaker, I would like to address one particular aspect of the DOD conference that causes me great concern, the 7:10 ratio with regard to Greece and Turkey.

I am very upset that this conference report contains an important policy provision which properly belongs under the jurisdiction of the Committee on Foreign Affairs.

The provision I am referring to is the Southern Flank Program which provides excess defense equipment to countries on NATO's southern flank. The Southern Flank Program is part of the Foreign Assistance Act, and as such is specifically the responsibility of the Committee on Foreign Affairs.

The Senate Armed Services Committee, however, insisted on reauthorizing this program and ignoring the extremely important 7:10 policy language that has been adopted by the full House of Representatives.

The language I am referring to is the traditional 7:10 ratio language which currently governs United States security assistance to Greece and Turkey. The House has consistently supported applying this policy language to both the Southern Flank Program and U.S. security assistance.

As you all know, the Government of Turkey continues to illegally occupy the northern portion of the Island of Cyprus. Despite international opposition to the occupation, Turkey has refused to remove its troops from the island. A policy decision which must be altered.

As a result, I, along with a majority of my colleagues in the House, have applied rigorous attention to preserving the military balance in the eastern Mediterranean. The 7:10 ratio has been the key to our continued pressure on Turkey to remove its troops from Cyprus.

In this regard, the DOD conference, of which I was the senior Foreign Affairs Committee conferee, did not meet at the member level to discuss this important issue.

I strongly object to this procedure and to the final language contained in the conference report.

When Members of this body refuse to shoulder their responsibility to fully and fairly consider major policy decisions, then all of us should be dissatisfied with the process.

As a result, I did not sign the conference report. Every Member should be vigilant that this gross distortion of the legislative process does not occur again.

Mr. JONES of Georgia. Mr. Speaker, I rise in opposition to the conference report on H.R. 2461, the Defense Authorization Act of 1989.

I voted for passage of H.R. 2461 because I believed it provided for a strong, sensible defense. H.R. 2461 put forth the defense priorities of the House in a straightforward manner. Many of the original House provisions have been eliminated in the conference report.

The conference report is very divergent from the authorization the House passed on July 27, 1989. The report provides more funds for the strategic defense initiative and the Stealth Bomber than the House authorized, provides more authorization for the MX and Midgetman missile systems, drops a congressional review of the Stealth Bomber, and eliminates plutonium control guidelines overwhelmingly approved by the House.

The agreement authorizes a total of $1.8 billion for the MX and Midgetman missile programs. These funds can be distributed between the programs as the administration sees fit. The House spoke very clearly when it disapproved of any funding for the Midgetman.

I believe the MX is capable of meeting our defense needs, and provides a strong addition to the triad. The triad works, and is in place, and is strong. Two mobile missiles are redundant. We do not need both. We cannot afford both. We did not authorize both. Yet this report provides both.

At $3.8 billion, SDI is still the largest research program in the Federal Government. This amount represents $729 million more than the House request. This program, with an eroding constituency, receives more research funding than cancer, AIDS, epilepsy, heart disease, or diabetes research. During the past 5 years, we have spent over $17.5 billion on the SDI program. What are we getting for our investment?

The report provides over $540 million more for the B-2 than the original House bill. Funds are included for startup procurement for two more planes than originally provided for, while eliminating a House provision requiring a vote by Congress on a cost-reduction plan for the B-2 before any procurement funds are spent.

The report contains $47 million for the production of binary chemical weapons. The House voted no such authorization.

A modified version of H.R. 2403, the International Plutonium Control Act was included in the final version of H.R. 2461. The amendment called for a U.S.-U.S.S.R. halt to plutonium production. The provision was adopted by a 2-to-1 margin, yet the entire amendment was excluded from the final measure.

Our national priorities demand a sensible and a strong defense. This means much more than military hardware. A strong defense must consist of well-trained men and women, equipped with reliable weapons, together with a well-educated population capable of responsibly directing that force. By devoting such a large portion of our resources to counter an increasingly diminishing threat, the defense budget in itself becomes a threat to our national security. Education of our children must once again be a national priority.

Are we to ignore the historic, dramatic changes taking place in Eastern Europe? This conference report does. The Conventional Forces in Europe [CFE] talks have been unexpectedly productive. The START negotiations hold great promise of a positive conclusion. The Warsaw Pact is weakening, with the non-Communist leaders of Poland suggesting withdrawal. The winds of change are blowing, and we must respond with the kind of leadership that reflects the realities of this changing world.

National security is more than a hodgepodge or exorbitantly expensive weapons systems. National security is built upon a strong economic base, with a healthy, educated population, living in a clean, crime free society. We must be able to compete in an increasingly competitive international marketplace. Let us reinvest in our technological and industrial base, and reinvest in the best work force in world.

We must understand that the defense budget is not a bottomless well from which we can drink to cure our domestic needs. But we must understand that our country faces innumerable needs other than a duplicative mobile missile system, a bloated SDI research effort, and billions for a penetrating bomber whose effectiveness and reliability is unproven. The health care of this country, the environment, the drug epidemic, and our crumbling infrastructure, all demand immediate attention and resources.

H.R. 2641 was the start of a sound, sensible, focused defense. We Americans insist that our defenses be strong. Now it is time to insist on a realistic assessment of the real security needs of America. A vote against this conference report is a vote for a stronger America.

Mr. OWENS of Utah. Mr. Speaker, during consideration of this bill in July, the House voted to delete $47 million in production funds for the 155-millimeter binary chemical weapon shell. The House did this for two reasons: First, to send a strong policy signal to the administration and to CW negotiators in Geneva that this country is serious about chemical arms control, that we are committed, as President Bush said during his campaign, to "banning chemical weapons from the face of the Earth." Second, we voted to delete funding because right now there is nearly $200 million in unspent, unobligated funds for this program, and the Army's production schedule is in shambles.

The language in this conference agreement authorizes an additional $47 million with a production target that not only destroys every trace of a policy statement from the House position, but encourages the Army to churn out as much nerve gas as humanly possible over the next fiscal year, to hurry up and spend the $200 million so that the floodgates can open on an additional $47 million.

The production conditions in this conference agreement, like the Bush administration's decision to continue chemical weapons production even after a global ban, will actually impede progress at the conference on disarmament in Geneva. This conference language demonstrates that Congress has capitulated to a shortsighted policy on chemical arms control and a weapon which is of almost no military value. Today we signal the world that the United States has relinquished its leadership role in chemical weapons disarmament. We will now proceed to produce as many of these deadly weapons as we can before the rest of the world overcomes our intransigence and concludes a global ban. And all that will happen during the greatest year

for the growth of democracy in the entire history of the World. That isn't moral leadership, Mr. Speaker; that isn't even moral followership.

Mr. FRENZEL. Mr. Speaker, I oppose the waivers of the Congressional Budget Act granted to this bill and will, therefore, vote against this bill. There are several significant violations of the Budget Act in this report and I believe these issues should be highlighted so that Members are aware of them when they are asked to vote on this bill which waives the fiscal responsibility called for in the Budget Act. While this bill is only an authorization bill and therefore is supposed to create no spending, I am concerned by the message such a bill will send to our appropriators as they are working on the Defense Appropriations bill which will hopefully come before us in the near future.

This conference report contains several provisions which create new entitlement authority and new budget authority. These provisions will cause the Armed Services Committee to exceed its 302(b) allocations of new entitlement authority and new budget authority in violation of section 302(f)(1) of the Budget Act. The bill also contains several entitlement provisions which will become effective in fiscal year 1991. Since Congress has not yet adopted a budget resolution for fiscal year 1991 these provisions violate section 303(a) of the Budget Act.

I shall only mention one example of these budget violations. Since the House last saw this bill, an additional issue has been incorporated which makes changes in the structure and operation of the Survivors Benefit Plan. This provision violates the Budget Act and stands to cost the Government quite a bit of money over the next several years.

The impact of proposed changes in the Survivors Benefit Plan is that military retirees will pay less in premiums to participate in the program, thereby requiring the Government to pay more. In fiscal year 1990, outlays from the trust fund used to cover these expenses will rise by $67 million. In fiscal year 1991, additional outlays will be somewhere around $101 million.

To fund its contributions to the trust fund that supports this program, DOD will require an additional $173 million in budget authority in fiscal year 1991—a figure that will climb to $213 million by 1994.

Not only am I opposed to the bill on procedural grounds, but I am also opposed to the substance, especially those portions in which the committees reject the administration's proposals for program termination. When the House votes for 12 F-14's, and the Senate votes for none, how can the compromise be 18? Worse, how can anybody have any confidence in a Congress which thinks 18 is an even number between 0 and 12?

I believe the issues I have outlined are all serious ones that will compound our problem of achieving deficit reduction targets in the future. Exceptions granted to one Department seem only to serve to invite other agencies to request the same treatment. Out of respect for the budget process this Congress has created, and a very real concern for our ability to meet future deficit targets, I will vote against this bill and urge my colleagues to do the same.

Mr. PORTER. Mr. Speaker, I disagree with the conference report in several respects, but I would like to take my time to highlight the provisions in the bill relating to our chemical weapons modernization program and congressional policy on the chemical weapons talks ongoing in Geneva.

The conference report rightly contains no new money for the Bigeye binary chemical weapon program, and does not lower the fences that have been built around this much-troubled and highly questionable program. For the 155mm chemical weapons artillery shell, $47 million has been authorized, yet it will certainly not be spent in fiscal year 1990 and perhaps not for several years down the road. Fences have been appropriately provided around this program to ensure that past moneys are spent and production problems solved before new moneys are obligated, and the GAO must so certify before the new money is spent.

The conference report also include money contained in both the House and the Senate versions totaling $15 million for chemical weapons verification. This money is perhaps the best money we can spend in the area of chemical weapons, because with it we can create the technology necessary to ensure that the treaty being negotiated in Geneva can be verifiable to the degree that secures U.S. interests.

Just this morning, Sweden Ambassador to the Conference on Disarmament explained to me that the technology now exists to detect any remnants of chemical weapons production in facilities ostensibly designed for civilian chemical production. This ability will help ensure that there is no cheating against a ban on production.

The conference report also includes sense of the Congress language authored by myself and our colleague MARGE ROUKEMA, and adopted by the House 414 to 4, stating that the conclusion of a chemical weapons treaty should be at the top of our Nation's arms control priorities, and urges the President to continue to stay actively and personally involved in these important negotiations.

While I am pleased that the provision on money for our binary program have been tightly restricted, I must say that it does our country much harm at the negotiating table in Geneva to be going ahead on a policy level with new production. President Bush's speech at the UN, and the agreements reached at the Wyoming meeting between Secretary Baker and Mr. Shevardnadze all were important in showing personal leadership on the President's behalf and the commitment of this country to lead the way to a worldwide ban on the production, use, and stockpiling of chemical weapons.

Media reports, however, indicate that the administration is considering a policy that would provide for continued U.S. production after the entry into force of a chemical weapons treaty. Such a policy goes against the current rolling draft at the negotiations and the proposal tabled by then-Vice President Bush in 1984. Negotiators at Geneva are sending one message loud and clear: U.S. production now hinders the ability of our negotiators to convince other countries that we are sincere in our desire for a treaty. U.S. commitment to continue to produce after the treaty is signed would effectively kill any chance for success in Geneva.

The language in the bill clearly states congressional desire for a chemical weapons treaty. I urge the President to continue to show leadership in accord with this sentiment and set in motion a policy that will allow for the speedy completion of a good treaty on chemical weapons in Geneva.

Mr. YATRON. Mr. Speaker, as a member of the Foreign Affairs Committee and a conferee for the foreign policy provisions of the Department of Defense authorization bill, I rise to express my reservations about the southern flank provision in the conference report.

The conference report includes a Senate amendment, modified at conference, which extends the administration's authority to transfer excess Defense equipment for the modernization of the defense capabilities of members of NATO's southern flank. This provision was motivated by the administration's desire to circumvent the traditional 10-to-7 ratio that Congress annually attaches to the southern flank program for Greece and Turkey.

Mr. Speaker, while I will vote for the conference report, I have strong reservations about the way this provision was considered for legislative and substantive, foreign policy reasons.

First, from a procedural standpoint, this provision has no place being in the DOD bill. It is an amendment to section 516(A) of the Foreign Assistance Act of 1961. Incorporating foreign aid authorization language on a defense authorization bill does not comport with proper legislative procedure. Further, this amendment extends the program without the foreign policy guidelines which have been enacted annually since this program's inception.

From a policy standpoint, the Senate amendment seeks to make military decisions without any concern for the larger foreign policy issues confronting the United States in the Eastern Mediterranean. Since repealing the embargo against Turkey for its invasion of Cyprus in 1974, Congress has attached the 10-to-7 ratio to our assistance programs for Turkey and Greece. This ratio couples our policy toward Turkey to Ankara's occupation of Cyprus. Since Turkey has not withdrawn its forces, I see no reason to move away from the ratio.

Fortunately, through the leadership efforts of Congressmen BROOMFIELD and MAVROULES, the adminstration's authority for this program was reduced to 2 years and legislative guidelines were included. But the conference did not afford foreign policy conferees the opportunity to resolve this issue at members level with our Senate counterparts and consequently the ratio language was not included.

Mr. Speaker, I would hope that we can avoid this jurisdictional conflict in the future and that this program will remain exclusively under the Foreign Affairs Committee's authorization process.

Mr. GOSS. Mr. Speaker, I rise in opposition to the conference report on the Defense au-

thorization bill and ask unanimous consent to revise and extend my remarks.

The defense of this Nation is the most important responsibility facing the Federal Government. For without a strong defense, we cannot be certain of protecting the principles that makes this great Nation the symbol of freedom and opportunity in the world. As an individual who has served this Nation for 12 years in positions where I had an opportunity to view first hand many of the threats to our fundamental freedoms posed by hostile forces in a dangerous world, it is with great disappointment that I view this conference report on Defense authorization.

This legislation, I must admit, is an improvement over the version which passed the House in July. However, many of the problems which compelled me to vote against that bill remain unresolved to my satisfaction.

The legislation in its current form lacks a strategic vision for our national defense. The further reductions in the strategic defense initiative threaten to delay the development of this vitally important system. The compromise on the Midgetman and MX missile systems is an improvement over the original House language yet basic questions as to the strategic priority of these systems remain unresolved.

Many of the important decisions on weapons systems, both strategic and conventional, are based on pork-barrel politics and not on the merits or strategic necessities of the systems. The defense of this Nation should remain above the politics of pork. Unfortunately, this is not the case in this bill.

The taxpayers of America are being asked to fund over $300 billion for defense. It is not unreasonable, in my opinion, that we require that they get full value for their dollars.

Full value means that every weapon system should be funded on its merits and military value and not on the basis of the geographic location of the facilities producing the product. This type of pork-barrel politics is unconscionable because it places the jobs of a few workers ahead of the security needs of this country.

Secretary Cheney has done a commendable job of making the tough decisions on which weapons systems to reduce or eliminate and which systems to upgrade or develop. His plan was both strategically sound and budgetarily realistic. For the first time in recent years, the Defense Department actually recommended reductions or elimination of some weapons systems. Yet this House and the conferees have seen fit to restore most of these unnecessary systems while cutting more vital strategic systems for pork-barrel reasons.

I remain committed to the strongest, most viable national defense that we can afford. I also believe that any errors we make must be on the side of security and preparedness. However, I cannot support the Defense authorization bill in its current form.

Mr. DORGAN of North Dakota. Mr. Speaker, I rise reluctantly to oppose the conference report on H.R. 2461, the Defense authorization bill for fiscal year 1990.

My reluctance stems from my hope that this conference report would reflect the priorities which I favored in the form of the House-passed version of the bill. I voted for that bill because we made the tough choices.

We cut the strategic defense initiative by $1.8 billion, realizing that the Pentagon had never demonstrated how we could make an antimissile system work effectively, at a reasonable cost, and in accord with existing and anticipated arms control treaties. We eliminated funding for the Midgetman missile, recognizing that we could afford only one new missile system. We reduced and fenced funding for the Stealth bomber until the Defense Department could produce a cost reduction plan, which we required in order to contain the soaring costs of the bomber.

By contrast, the conference agreement adds back $700 million for the SDI antimissile system. It restores funding of $400 million for the strategic missile program and gives the President discretion on how to divide funds between the MX and Midgetman programs. It increases funding for the Stealth bomber by $540 million above the House level at the same time it removes the requirement for a vitally needed cost control plan.

These funding increases alone total over $1.6 billion. More importantly, these additions portend billions more in future spending on programs which we simply can't afford—especially without the House-approved cost containment measures.

I should undescore that I don't lay any blame for this at the feet of the House conferees. Chairman ASPIN, in particular, made a strenuous effort to retain the more moderate position of the House on these issues. It's to his credit that the conference report includes several management restrictions on Stealth funding. However, the Bush administration insisted on its unrealistic weapons programs. Likewise, I commend the chairman for advancing House initiatives on military child care and personnel and for insisting on House language to have Japan increase its share of mutual defense costs.

However, I reiterate that I must oppose the conference report in its present form and urge my colleagues to seek changes in line with the House position. As we seek the resources for a strong defense, we must also make the tough choices that bolster our total national security.

Mr. GALLO. Mr. Speaker, because of my consistent support for a strong national defense, I will vote today against the Defense authorization conference report which has been presented to the House for consideration.

A strong national defense is one which is adequately funded, properly focused, and thoughtfully implemented. This conference report does not meet these tests.

The report does not provide adequate funding where needed. It cuts funding below President Bush's request for important programs such as the strategic defense initiative, the Stealth bomber, and the modernization of the land-based leg of our strategic triad. Overall, this bill represents—for the fifth straight year—a decline in real terms in our support of the national defense.

The report does not properly focus on our priorities. Secretary Cheney was bold and courageous in trying, earlier this year, to bring a sense of focus to our national defense policy. He proposed cuts in some favorite weapons programs, and he took a lot of heat for doing so. But this report restores funding for many of the programs he sought to cut. How can Members who complain of a bloated defense budget possibly justify their complaints when they seek to spend money merely to address their own particular interests.

This report does not encourage thoughtful implementation of our defense program. Rather than authorizing funding of both the MX and the Midgetman systems, we ought to make a choice. Without making that choice, these systems will take on a life of their own. Eventually, we will get to the point of continuing funding because we have already spent so much, and that is neither thoughtful or responsible.

This report has come a long way from the version passed by the House earlier this year, but it has not gone far enough. To argue that the report is much better than the bill the House passed in July is to damn it with the faintest praise. I cannot vote for this report because I believe it does not represent the criteria I have suggested earlier—it is inadequately funded, not properly focused, and does not encourage thoughtful implementation of our national defense strategy.

Mr. ASPIN. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BENNETT. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently, a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 236, nays 172, not voting 25, as follows:

□ 1355

The Clerk announced the following pairs:

On this vote:

Mr. Quillen for, with Mr. Edwards of California against.

Mr. Flippo for, with Mr. Dymally against.

Mr. Stenholm for, with Mr. Payne of New Jersey against.

Messrs. LEHMAN of California, MATSUI, SKAGGS, FLAKE, DIXON, and WALGREN, and Ms. OAKAR changed their vote from "yea" to "nay."

Messrs. KOSTMAYER, MARTINEZ, and CHANDLER changed their vote from "nay" to "yea."

Mr. WILSON changed his vote from "present" to "nay."

Messrs. COLEMAN of Texas, FROST, PICKLE, CHAPMAN, and DE LA GARZA changed their vote from "present" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ASPIN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the conference report on the bill, H.R. 2461.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

DIRECTING THE CLERK TO MAKE CORRECTIONS IN ENROLLMENT OF H.R. 2461, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEARS 1990 AND 1991

Mr. ASPIN. Mr. Speaker, I offer a concurrent resolution (H. Con. Res. 225) directing the Clerk of the House of Representatives to make technical corrections in the enrollment of the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, and I ask for unanimous consent for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the concurrent resolution.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 225

Resolved by the House of Representatives (the Senate concurring), That, in the enrollment of the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) Amend the title so as to read: "An Act to authorize appropriations for fiscal years 1990 and 1991 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal years for the Armed Forces, and for other purposes.".

(2) In sections 202(a), 203, and 216(a), insert "authorized to be" before "appropriated pursuant to section 201".

(3) Amend section 166 to read as follows (and conform the table of contents in section 2(b) accordingly):

SEC. 166. LIMITATION ON FUNDS FOR PROCUREMENT OF F-16 AIRCRAFT PENDING APPROVAL OF CERTAIN PLANS RESPECTING AIR-LAND FIRE SUPPORT FOR GROUND COMBAT FORCES

(a) LIMITATION ON EXPENDITURES FOR F-16 AIRCRAFT.—If by April 1, 1990, the Secretary of Defense does not submit to the congressional defense committees a report in writing containing a certification described in subsection (b), then after that date funds appropriated pursuant to this Act may not be expended for the procurement of F-16 aircraft until such a report is submitted to those committees.

(b) CERTIFICATION.—A certification referred to in subsection (a) is a certification by the Secretary of Defense of both of the following:

(1) That the Director of Operational Test and Evaluation of the Department of Defense—

(A) has approved a test plan for the evaluation of systems for providing air-land fire support for ground combat forces systems that is sufficiently flexible to allow for eval-

uation of any current system and any feasible future system for such purpose; and

(B) has approved a test plan for the evaluation of both the upgrade program proposed for the F-16 aircraft and the upgrade program proposed for the A-10 aircraft for close air support (including night time operations).

(2) That any fixed-wing aircraft operated after July 1, 1990, at the National Training Center at Fort Irwin, California, will be fully integrated into the range instrumentation system to the same extent as attack helicopters.

Mr. ASPIN (during the reading). Mr. Speaker, I ask unanimous consent that the concurrent resolution be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Wisconsin?

Mr. DICKINSON. Mr. Speaker, reserving the right to object, it is my intention to yield to the chairman, the gentleman from Wisconsin, so that he might explain the reason for his unanimous-consent request. I yield to the gentleman from Wisconsin [Mr. ASPIN].

Mr. ASPIN. Mr. Speaker, I thank the gentleman from Alabama for yielding to me.

The resolution just before us would make technical corrections in the enrollment of the Defense Authorization Act as reported by the committee on the conference and adopted by the House.

Mr. DICKINSON. Mr. Speaker, I remember the long hours that it took to put this bill together, and if the staff has determined that we need to make some technical adjustments, I would hope that there is no objection.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. The question is on the concurrent resolution.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ELECTION AS MEMBER OF COMMITTEE ON MERCHANT MARINE AND FISHERIES

Mr. MICHEL. Mr. Speaker, I offer a privileged resolution (H. Res. 286) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 286

Resolved, That Representative Ravenel of South Carolina be and he is hereby elected to the Committee on Merchant Marine and Fisheries.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1400

PERMISSION TO HAVE UNTIL MIDNIGHT SATURDAY, NOVEMBER 11, 1989, TO FILE CONFERENCE REPORT ON H.R. 2939, FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT, 1990

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight Saturday, November 11, 1989, to file a conference report on the bill (H.R. 2939) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990, and for other purposes.

The SPEAKER pro tempore (Mr. COLEMAN of Texas). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

PERMISSION FOR SUBCOMMITTEE ON HOUSING AND COMMUNITY DEVELOPMENT OF COMMITTEE ON BANKING, FINANCE AND URBAN AFFAIRS TO SIT DURING 5-MINUTE RULE TODAY

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent that the Subcommittee on Housing and Community Development of the Committee on Banking, Finance and Urban Affairs be permitted to sit today during the session of the House while it is proceeding under the 5-minute rule.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DIRECTING THE CLERK TO REQUEST RETURN OF MESSAGE ON SENATE JOINT RESOLUTION 216

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Clerk be directed to request the Senate to return to the House of Representatives the message on the joint resolution (S.J. Res. 216).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

PERSONAL EXPLANATION

Mr. WEISS. Mr. Speaker, on November 7, I was unavoidably absent. Had I been present, I would have voted as follows: Rollcall 334, yea; rollcall 335, yea; and rollcall 336, yea.

OIL POLLUTION, PREVENTION, RESPONSE, LIABILITY, AND COMPENSATION ACT OF 1989

The SPEAKER pro tempore. Pursuant to House Resolution 277 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 1465.

□ 1401

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, with Mr. LANCASTER (Chairman pro tempore) in the chair.

The clerk read the title of the bill.

The CHAIRMAN pro tempore. When the Committee of the Whole rose on Wednesday, November 8, 1989, the amendment offered by the gentleman from California [Mr. MILLER] had been disposed of.

Title I is open for amendment at any point. Are there further amendments to title I?

AMENDMENT OFFERED BY MR. STUDDS

Mr. STUDDS. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. STUDDS: On page 21, Section 1004(c)(2)(C) is amended as follows: on lines 16 and 17, strike "for vessels transporting oil to deepwater ports and"; and on lines 18 and 19, strike "With respect to deepwater ports, the" and insert in lieu thereof "The".

Mr. STUDDS (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. STUDDS. Mr. Chairman, in contrast with the closing hours of yesterday's debate, we are going to at least begin today with some relative tranquility and noncontroversial amendments.

Mr. Chairman, this is a simple amendment, designed to correct what I think is an obvious flaw in the bill as it now reads.

Under the bill, the Secretary of Transportation is directed to study the relative operational and environmental risks of having tankers use deepwater ports, as opposed to other ports. If the Secretary concludes that it is indeed safer, he is directed to lower the limit on oil pollution liability for any vessel that is transporting oil to a deepwater port. In fact, the Secretary

has the authority, under the bill, to lower that limit to zero.

This makes no sense. Lowering the limit on liability for the deepwater port, itself, is one thing. But a vessel is a vessel is a vessel. Even if a deepwater port is safer than a regular port, the process of getting oil to that port over a distance of hundreds or thousands of miles of ocean is just as hazardous.

My amendment does not delete the study into the safety of deepwater ports.

It does not delete the authority of the Secretary to lower the limit on liability for the deepwater port itself.

But it would strike the authority to lower the liability limit for vessels that have not yet reached the deepwater port; vessels that are as much the potential victims of storm or accident or human error at sea as any other vessel.

Equal risk; equal limits on liability. That is the principle we have attempted to achieve throughout this legislation. And that is the principle that this simple, but nevertheless important amendment seeks to uphold.

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from North Carolina.

Mr. JONES of North Carolina. Mr. Chairman, the Committee on Merchant Marine and Fisheries accepts the gentleman's amendment and has no opposition to it.

Mr. STUDDS. Mr. Chairman, I thank the gentleman. I know of no opposition to the amendment.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Massachusetts [Mr. STUDDS].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. STUDDS

Mr. STUDDS. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. STUDDS:

SECTION 1. On page 28, line 22, section 1006(f) is amended by inserting after "shall be retained by the trustee" the phrase "in a revolving trust account".

Mr. STUDDS (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. STUDDS. Mr. Chairman, this is virtually a technical amendment, designed to clarify the intent of the Congress on one important point.

Under the bill, a natural resource trustee is entitled to sue to recover damages inflicted by an oilspill upon resources under the control of that trustee. The trustee is then directed to use the amounts recovered to provide for the restoration or replacement of the damaged resources.

My amendment simply makes it clear that the sums recovered are to be placed in a revolving trust account to be available to the trustee to carry out the purposes of the bill.

It is, I think, a noncontroversial amendment, and I hope that it will be acceptable to all sides.

Mr. ANDERSON. Mr. Chairman, I rise in support of the gentleman's amendment. The bill as currently written requires that trustees are to retain funds recovered for damage to natural resources and use them to restore environmental damages caused by the spills. This amendment clarifies that the funds are to be retained in a revolving trust account. It is my understanding that funds would be deposited into these accounts and then could be used by the trustee for the purposes of restoring, replacing, rehabilitating or acquiring the equivalent of the natural resource damaged by the oilspill.

I support the gentleman's amendment.

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from North Carolina.

Mr. JONES of North Carolina. Mr. Chairman, the Committee on Merchant Marine and Fisheries has no objection and approves the bill with the amendment.

Mr. STUDDS. Mr. Chairman, I thank the gentleman.

Mr. NOWAK. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from New York.

Mr. NOWAK. Mr. Chairman, I rise in support of the gentleman's amendment. The money that the Government gains for damages to natural resources should be used to restore these resources. The revolving fund is a very good method to ensure that the money is available to be appropriately spent.

Mr. Chairman, I think this is an excellent addition to the scheme in the bill, and I urge my colleagues to support it.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Massachusetts [Mr. STUDDS].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. STUDDS

Mr. STUDDS. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. STUDDS: In section 1003 (a), the first sentence is amended by striking "Except when the responsible party has failed or refused to report the incident as required by law and the responsible party knows or has reason to know of the incident, there is no liability for any person"; and inserting in lieu thereof "Except as provided in subsection (c), there is no liability for a reponsible party".

Section 1003 is amended by adding at the end thereof the following new subsection (c):

"(c) Subsection (a) does not apply with respect to a responsible party who fails or refuses—

(A) to report the incident as required by law and the responsible party knows or has reason to know of the incident;

(B) to provide all reasonable cooperation and assistance requested by a responsible official in connection with removal activities; or

(C) without sufficient cause, to comply with an order issued under subsections 311(c) or (e) of the Federal Water Pollution Control Act."

Section 1004(c)(2)(C) is amended by striking "section 311(e)" and inserting in lieu thereof "subsections 311(c) or (e)".

Mr. STUDDS (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. STUDDS. Mr. Chairman, this amendment is intended to correct an oversight in the bill.

Under the bill, as written, the operator of an oil tanker could conceivably escape any liability whatsoever for an oilspill from that tanker, even if the operator ignores or disobeys a direct order from the President to help clean that spill up.

Under my amendment, the owner or operator of the tanker will have an obligation to cooperate in responding to the spill, no matter what the circumstances might be. Even if the spill results entirely from an act of God, or from the action of some third party, I believe—and my amendment requires—that the tanker or facility owner help respond to the spill, and that he obey instructions from the appropriate Federal or State official pursuant to the National Contingency Plan.

The purpose of the amendment is to make certain that, whenever there is an oilspill, there is an incentive for those who are on the scene to do everything possible, as quickly as possible, to respond to the spill, to limit the damage, to protect natural resources, and to obey the orders of the government officials who are in charge.

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from North Carolina.

Mr. JONES of North Carolina. Mr. Chairman, the Committee on Merchant Marine and Fisheries has studied the amendment. We have no objection, and we support the gentleman's amendment.

Mr. NOWAK. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from New York.

Mr. NOWAK. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, certainly we do also rise in support. I think this is an amendment which creates added incentives for spillers to work swiftly and closely with spill cleanup authorities.

I urge my colleagues to support it.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, the minority side supports the amendment.

Mr. ANDERSON. Mr. Chairman, I rise in support of the gentleman's amendment. The amendment would provide that a responsible party could not invoke the defenses to liability provided in the bill—that the incident was caused by an act of God, and act of war, or the act of a third party—if he does not report the spill as required in the bill, provide reasonable cooperation and assistance in connection with removal activities, or without sufficient cause comply with an order issued under 311(c) or (e) of the Federal Water Pollution Control Act. The bill already provides that the liability limits contained in the bill do not apply for these reasons and we feel it is appropriate to require the responsible party to comply with his obligations under the Oilspill Act if he seeks to invoke a defense to his liability.

I support the gentleman's amendment.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Massachusetts [Mr. STUDDS].

The amendment was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to title I?

AMENDMENT OFFERED BY MR. CHANDLER

Mr. CHANDLER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CHANDLER: Page 16, after line 12, insert the following new subsection:

(c) TUG ESCORTS IN PUGET SOUND.—Subsections (a) and (b) do not apply if the incident occurs in the body of water between Port Angeles, Washington, and Vancouver, British Columbia, Canada, and the responsible party is a tank vessel with a capacity over 40,000 deadweight tons which entered such body of water through the southern portion of the Strait of Juan de Fuca and, while in such body of water, is not escorted by a tugboat.

Page 19, after line 23, insert the following new paragraph:

(3) TUG ESCORTS OF TANK VESSELS IN PUGET SOUND.—Subsection (a) does not apply if the incident occurs in the body of water between Port Angeles, Washington, and Vancouver, British Columbia, Canada, and the responsible party is a tank vessel with a capacity over 40,000 deadweight tons which entered such body of water through the southern portion of the Strait of Juan de Fuca and, while in such body of water, is not escorted by a tugboat.

Mr. CHANDLER (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. CHANDLER. Mr. Chairman, if I could draw everyone's attention to a map of the State of Washington and the area about which we are speaking. This is the State of Washington here and Vancouver Island. This forms the Strait of Juan de Fuca. When a tanker headed for either a Washington State refinery or for Vancouver, British Columbia, and a refinery there, enters the sound, it must do so through the Strait of Juan de Fuca. If that tanker is headed for a Washington State port and a refinery, it must, by virtue of Washington State law, have a tug escort, a tug escort which we are absolutely certain has in the past prevented accidents, accidents like the one in Prince William Sound.

However, if that tanker comes in through the Strait of Juan de Fuca and goes to Canada, then no State law requires a tug escort. They can and do traverse this area without the benefit of a tug escort.

The amendment that my colleague, the gentleman from Washington [Mr. SWIFT], and I have offered today cannot and does not require a tug escort. But what it does do is, it says:

If you, the operator of that tanker or the owner of the oil aboard the tanker, run the risk of traversing this very narrow area, this very narrow water with some of the most incredible beauty in the entire world let alone the Nation, if you are willing to run that risk, then you are per se negligent if something happens and you damage any of this area with an oil spill.

I know this is not a perfect amendment. This is not the best way to go about it. We will follow with an amendment later which will ask the Secretary of State to negotiate with the Canadians to get a bilateral agreement requiring a tug escort in any part of the waters.

□ 1410

For now, what we are saying is there is no requirement for a tug escort, but if someone decided that they are going to go without a tug escort, then they go without any of the protections of this bill if a spill occurs, regardless of the cause, even if it is considered to be an act of God.

I urge my colleagues to support this amendment. If Members have ever seen this area, they will know how strongly those of us who represent the State of Washington feel about this part of the world. It is an area that if it were damaged would be the most incredible blow to the people of our State and to our country. The Members who represent it I think has the privilege of representing the most beautiful congressional district in the country, and the San Juan islands are the primary reason for that.

Let us run not even the slightest risk of allowing the smallest spill to occur in this area. Please support the Chandler-Swift amendment.

Mr. Chairman, I have an amendment at the desk.

Mr. Chairman, under Washington State law, tugboat escorts are currently required for tankers heading to Washington ports. This responsible requirement has significantly decreased the risk of a Valdez type incident in this highly sensitive, fragile environment.

Because Puget Sound is virtually landlocked, a spill the fraction of the size that devastated Prince William Sound would have a much larger impact there.

When tankers are bound for Vancouver, Canada, and travel through the Canadian side of the border, they are effectively able to avoid the requirement for a tugboat escort—even though United States shoreline is endangered in the event of a spill.

My amendment will help ensure that all oil tankers entering Puget Sound via the Strait of Juan de Fuca and then turning into Haro Strait will have a tugboat escort regardless of their final destination.

Under the amendment, tankers weighing over 40,000 deadweight tons which choose to enter Puget Sound without a tugboat escort would forgo the liability protection provided under H.R. 1465, and in the event of a spill would be per se negligent.

Picking up the tugboat escort is optional—so no infringement of Canadian sovereignty is at issue—but if there is an accident, the shipper and owner of cargo will be fully liable for all damages.

Under these circumstances, the vast majority of ships passing through Haro Strait would elect to pick up a tugboat escort.

According to the U.S. Coast Guard 250 large vessels pass through this area each month, and 21 of them are oil tankers.

There is no specific speed restriction in this part of the sound, and while there has never been a major oilspill there, Prince William Sound could boast the same record just a year ago.

While it would be inappropriate to mandate escort requirements on both sides of the international boundary, there is no reason to reward negligence by providing liability caps to tankers which endanger this sensitive area without appropriate escort.

This amendment has the enthusiastic support of numerous wildlife and environmental organizations, as well as my colleague from Washington, Mr. SWIFT, whose district includes this part of Puget Sound. There is also full support from the Washington delegation for the measure, and I urge the House to support it.

Mr. SWIFT. Mr. Chairman, I rise in support of the amendment. I thank my colleague from Washington State for initiating it.

Mr. Chairman, I would like to put this in kind of an international context. I share a border with Canada, have lived on that border for 30 years, and I do not join some who like to get into Canada-bashing simply because it is across the border. As two nations,

we are like members of a family, those two nations at least, in that we sometimes get on each others' nerves.

What we have found traditionally is that simply some frank talk, dispassionate talks can clarify some of those issues. The Canadians have some concerns with some of our environmental policies in this country, and as someone who has been working very hard on the Clean Air Act, I am particularly sensitive to the Canadian concerns with acid rain, which is generated in portions of this country and deposited on portions of their country. They are concerned about that. We had here in this Chamber the Prime Minister of Canada discuss that particular issue and urge this country to take action here so that we would not inadvertently damage the environment of their country, not an illegitimate point of view, in my judgment.

But sometimes I think we get the impression, we Americans, that we are the only ones who sometimes make errors or sometimes are insensitive, and it is simply not true. Here is an excellent instance in which certain practices by the Canadians are different from ours. We have placed our requirements for tug escorts in place specifically to protect the environment of the Upper Puget Sound area, and we would really appreciate enormously if the Canadians would simply agree to essentially the same quite modest requirements.

Years and years ago when we opened up the oil fields in Alaska, western Canadians were very concerned about American tankers coming down their west coast. They did not look 3,000 miles to their east in which many tankers were going up our east coast and through the shorelines of our New England to bring petroleum supplies to eastern Canada. Neither of those instances make either nation bad folks.

What I am simply suggesting is it is always a little easier to see how you are being harmed, and it is harder to see how you may unintentionally be harming someone else. We are not offering this in any way to be critical of Canada or to cause any problems with our neighbor to the north. We do think, however, that it is appropriate that we point out that this small gesture on their part would really be of enormous help to us in preserving and adding additional protection to the environment of Puget Sound.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. SWIFT. I am happy to yield to my colleague from Washington.

Mr. DICKS. Mr. Chairman, I appreciate the gentleman yielding. I just want to rise in support of the Chandler-Swift amendment. I think this is a very creative idea.

We have had tug escorts, as both gentlemen from the State of Washington have mentioned. It has worked very, very effectively.

I see that my colleague from Alaska is here, and having been up to Prince William Sound, I just wish that that night at midnight we had had tug escorts on the *Exxon Valdez.* If we had, I think that accident more than likely would not have happened.

I just would hope that our colleagues will go along with this amendment. I think it is an extraordinarily good idea, and I would urge the committee to accept this very thoughtful amendment.

Mr. SWIFT. I thank the gentleman, and I urge my colleagues to support the amendment.

Mr. YOUNG of Alaska. Mr. Chairman, I move to strike the last word and I rise in support of the amendment.

Mr. Chairman, already in this bill there is a provision called Prince William Sound, and it is my bill actually in the big bill that has the same identical language that the gentleman from Washington [Mr. CHANDLER] has put in.

I do hope all of my colleagues understand though that this is going to be an additional cost, and I hope that your people will be willing to bear that cost of transportation. Tugs do not come cheap. Escort vessels do not come cheap.

We have done that voluntarily in our State right now, and as the gentleman from Washington mentioned, I wish it had been there on March 24.

This last month, we had a vessel lose power in the middle of the straits, again one of our larger tankers, and because we did have the tugboat and the escort vessel availability there, we were able to man the vessel until power was restored.

So I want to compliment the gentleman from Washington and all of the Washington delegation, which does not happen too often, on an amendment which I think makes a great deal of sense, and I do strongly support this.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I appreciate the gentleman yielding. I would just say, as the gentleman has suggested, there is a cost. When we look at the cost that is avoided, and no one knows this better than the gentleman from Alaska, if we can avoid an accident, avoid a mistake, and the same thing is true for vessel traffic control, in which the gentleman has been a leader on that subject, our vessel traffic control system which we are now expanding in Puget Sound, those two things together I think really work to create a much safer situation.

Mr. YOUNG of Alaska. Absolutely. And one thing that has bothered me in some of the recent amendments that have addressed in this legislation is that they apply and we are looking at the aftereffects of a spill, and what we have to keep an eye on is the prevention of the spill, and this is an amendment that does that. The rest of the bill has already also done that, thanks to the gentleman from North Carolina, Mr. JONES' leadership, and we had a bill that prevented spills, and now we have a point where it goes beyond that. But this amendment is a good amendment, and I urge my colleagues to support it.

Mr. NOWAK. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, after listening to the discussion, and we have looked at this amendment, the Committee on Public Works and Transportation has looked at the broad base of the bill, which was described in the general debate as preventing oilspills, and the occurring damage after oilspills. If we look at this tugboat safety issue, it really falls within the vessel tracking system analysis that is in the bill, and we would hope that all areas look at increased tugboat escorts as well as other preventive means. I think the gentleman's amendment certainly should be acceptable, and then combined with the negotiations with Canada, we would hope that an amicable settlement of this could be arrived at.

So I would urge the adoption of the amendment, therefore, at this time.

Mr. TAUZIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I too sympathize with the intent of this amendment, and I will not object to it, and I will vote for it. I simply want to point out that it does pose a significant concern that we ought to be aware of, and that is, it does impose a restriction upon trafficking of vessels in Canadian waters. In effect, for vessels that do travel in these Canadian waters, the negligence standards are higher if, in fact, they do not comply with United States law. That may pose some kinds of restrictions upon traffic in international waters, and for that reason it may complicate United States-Canadian relations. I think we ought to put that on the record, that it may create a problem.

I hope, frankly, the second amendment urging negotiations will help in some way to alleviate that concern.

I want to point out that the history of my people, the Acadians in Louisiana, goes back several hundred years. We were kicked out of Canada, and Nova Scotia a long time ago, and we still bear some real scars, but I am not angry at the Canadians, and I do not think we ought to treat them badly, and I hope, frankly, we have some good negotiations to work the problem

out without any ill feelings for our neighbors to the north.

Mr. CHANDLER. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Washington.

Mr. CHANDLER. Mr. Chairman, I think I tried to say in my opening remarks, we are very well aware that this is not the most ideal way to solve the problem. But I do want to emphasize for the membership that we do not require anything with this amendment, and we are not saying anything about what you must do if you are in Canadian waters.

□ 1420

But I do think that it does create enough risk for an operator going to Canada that they would likely voluntarily take the tugboat. And also, we know Canadians really well. We live right next door. We are always in a tiff with them over timber or fish or something.

I frankly think this is a small issue. It is also one we have tried to approach in a respectful way. As the gentleman says, we have the later amendment calling for negotiations that I too hope will be successful.

Mr. Chairman, I thank the gentleman for his comments.

Mr. TAUZIN. I appreciate the gentleman's comments.

While I understand it is not a major issue with the Canadians, it is one I hope we can work through.

Second, for the benefit of the membership, I point out our bill does allow local contingency plans in every port, every harbor, every channel in America to establish the requirement of a tugboat escort if that is necessary, if that is a good feature of the safety concerns of every community.

So that when, in fact, this bill does become law, as we hope it does, if the concerns in a local community such as the gentleman's do arise and his interest is in making sure that tugboat escorts are necessary, the way those contingency plans are developed is a way by which you can assure that that element of safety is established for your community.

With that said, I will not object to the gentleman's amendment; in fact, I support it.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Washington [Mr. CHANDLER].

The amendment was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to title I of the bill?

If not, the Clerk will designate title II.

The text of title II is as follows:

TITLE II—CONFORMING AMENDMENTS

SEC. 2001. INTERVENTION ON THE HIGH SEAS ACT.

Section 17 of the Intervention on the High Seas Act (33 U.S.C. 1486) is amended to read as follows:

"SEC. 17. The Oil Spill Liability Trust Fund shall be available to the Secretary for actions taken under sections 5 and 7 of this Act.".

SEC. 2002. FEDERAL WATER POLLUTION CONTROL ACT.

Section 311 of the Federal Water Pollution Control Act (33 U.S.C. 1321) is amended as follows:

(1) Subsection (c)(2) is amended—

(A) in subparagraph (D) by inserting "safeguard against as well as" after "surveillance and notice designed to"; and

(B) in subparagraph (H) by striking "reimbursed from the fund established under subsection (k) of this section for the reasonable costs incurred in such removal" and inserting "reimbursed, in the case of any discharges of oil from a vessel or facility, for the reasonable costs incurred for that removal, from the Oil Spill Liability Trust Fund".

(2) Subsection (d) is amended by striking out the last sentence.

(3) Subsection (e) is amended to read as follows:

"(e)(1) In addition to any action taken by a State or local government, when the President determines that there may be an imminent and substantial threat to the public health or welfare of the United States, including fish, shellfish and wildlife, public and private property, shorelines, beaches, habitat, and other living and nonliving natural resources under the jurisdiction or control of the United States, because of an actual or threatened discharge of oil or a hazardous substance from a vessel or facility in violation of subsection (b) of this section, the President may—

"(A) require the Attorney General to secure any relief from any person, including the owner or operator of the vessel or facility, as may be necessary to abate such endangerment; or

"(B) after notice to the affected State, take any other action under this section, including issuing administrative orders, that may be necessary to protect the public health and welfare.

"(2) If any person fails without sufficient cause to comply with an order under paragraph (1)(B), the President may request the Attorney General to bring an action in the appropriate district court of the United States to enforce the order, to assess civil penalties of no more than $25,000 a day for each violation, and to assess 3 times the removal costs or damages incurred by the Oil Spill Liability Trust Fund as a result of the failure to comply.

"(3) The district courts of the United States shall have jurisdiction to grant any relief under this subsection that the public interest and the equities of the case may require.".

(4) Subsections (f), (g), (h), and (i) of section 311 of the Federal Water Pollution Control Act shall not apply with respect to any incident for which liability is established under section 1002 of this Act.

(5) Subsection (i) is amended by striking out "(1)" after "(i)" and striking out paragraphs (2) and (3).

(6) Subsection (k) is repealed. Any amounts remaining in the revolving fund established under that subsection shall be deposited in the general fund of the Treasury. The Fund shall assume all liability incurred by the revolving fund established under section 311(k) of the Federal Water Pollution Control Act.

(7) Subsection (l) is amended by striking out the second sentence.

(8) Subsection (p) is repealed.

(9) Section 311 is amended by adding at the end thereof the following new subsection:

"(s) The Oil Spill Liability Trust Fund shall be available to carry out subsections (c), (d), (i), and (l). Any amounts received by the United States under this section shall be deposited in the Oil Spill Liability Trust Fund.".

SEC. 2003. DEEPWATER PORT ACT.

The Deepwater Port Act of 1974 (33 U.S.C. 1501-1524) is amended as follows:

(1) In section 4(c)(1) strike "section 18(l) of this Act;" and insert in lieu thereof "section 1016 of the Oil Pollution Act of 1989,";

(2) Subsections (b), (d), (e), (f), (g), (h), (i), (j), (l), (n), and paragraphs (1) and (2) of subsection (m) of section 18 (33 U.S.C. 1517) are deleted.

(3) Paragraph (3) of subsection (c) of section 18 is amended by striking "Deepwater Port Liability Fund established pursuant to subsection (f) of this section", and inserting "Oil Spill Liability Trust Fund".

(4) Subsections (c), (k), and (m) of section 18 are redesignated as subsections (b), (c), and (d) respectively, and paragraphs (3) and (4) of subsection (m) are redesignated as paragraphs (1) and (2), respectively.

(5) Paragraph (1) of subsection (a) of section 19 is amended by striking the period at the end of the second sentence and inserting "except that discharges from a deepwater port or from a vessel within a deepwater port safety zone which are subject to the civil penalty provisions of section 18(a)(2) of the Deepwater Port Act of 1974 shall not be subject to the penalty provisions of any other Federal law."

(6) Any amounts remaining in the Deepwater Port Liability Fund, established under section 18(f) of the Deepwater Port Act of 1974 (33 U.S.C. 1517(f)), shall be deposited in the Fund. The Fund shall assume all liability incurred by the Deepwater Port Liability Fund.

SEC. 2004. OUTER CONTINENTAL SHELF LANDS ACT AMENDMENTS OF 1978.

Title III of the Outer Continental Shelf Lands Act Amendments of 1978 (43 U.S.C. 1811-1824) is repealed. Any amounts remaining in the Offshore Oil Pollution Compensation Fund established under section 302 of that title (43 U.S.C. 1812) shall be deposited in the Fund. The Fund shall assume all liability incurred by the Offshore Oil Pollution Compensation Fund.

SEC. 2005. EFFECTIVE DATE.

Sections 2001, 2002, 2003, and 2004 shall be effective on the commencement date (as that term is defined in section 4611(f)(2) of the Internal Revenue Code of 1986).

The CHAIRMAN pro tempore. Are there amendments to title II?

AMENDMENT OFFERED BY MS. PELOSI

Ms. PELOSI. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Ms. PELOSI: Page 54, between lines 12 and 13, insert the following:

(A) in subparagraph (A) by inserting "fish and wildlife" before "conservation";

Page 54, line 13, delete "(A)" and insert "(B)";

Page 54, line 15, delete "and";

Page 54, line 16, delete "(B)" and insert "(C)";

Page 54, line 22, delete the period and insert "; and ";

Page 54, between lines 22 and 23, insert the following:

(D) by adding at the end thereof the following new subparagraph:

"(J) a fish and wildlife response plan, in consultation with the National Marine Fisheries Service, the Fish and Wildlife service, and other interested parties including state fish and wildlife conservation officials, providing for the immediate and effective protection of fish and wildlife resources, and their habitat, that may be jeopardized by a discharge of oil or hazardous substances, including the minimization of the risk of damage to such resources and habitat; and for the protection, rescue and rehabilitation of fish and wildlife that are damaged by a discharge. Such plan, shall be completed by January 1, 1991, and shall—

(i) establish procedures for, and assign specific responsibilities among, Federal, state and local agencies with expertise in fish and wildlife affairs for undertaking or assisting in a response, including procedures necessary to maintain a communications network among private agencies;

(ii) identify other public and private resources available to such agencies;

(iii) provide for the assignment or procurement of the personnel, equipment and material required to ensure an immediate and effective response;

(iv) require the earliest possible identification and prioritization of fish and wildlife habitat that may be jeopardized by a discharge, and ensure that any response and removal action undertaken reflects the prioritization; and

(v) require the periodic review and revision of the plan based on new procedures, methods, or other information."

Ms. PELOSI (during the reading). Mr. Chairman, I ask unanimous consent the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. PELOSI. Mr. Chairman, my amendment, to create a fish and wildlife response plan, as a specific part of the national contingency plan, would strengthen the existing procedures to protect fish and wildlife threatened by an oilspill. This language is intended to provide greater coordination among Federal, State, and local agencies, as well as with private entities noted for their expertise.

The coastal catastrophe that occurred in Valdez, AK, is one we would not want to revisit. The toll on marine life was tragic with a loss of over 36,000 seabirds, 144 of which were bald eagles. U.S. Fish and Wildlife Service reported that over 1,000 sea otters died in the disaster. A biologist with the Service estimates that nearly 100 percent of the otters "at risk in the impact area" were most likely dead by mid-April and that, during September, otter mortality continued at the high rate of two a day. I believe this loss could have been reduced if more stringent measures had been in place to guide the agencies responsible for the cleanup.

Specifically, my amendment would provide a stronger plan to protect fish and wildlife by: Developing a specific response plan; requiring better coordination among Federal, State, and local agencies; establishing procedures for these agencies; assigning specific response duties; establishing procedures for a communications system; identifying public and private resources available to these agencies; requiring identification and prioritization of habitats; ensuring that the cleanup response follows these priorities; requiring review and revision of the plan based on new information or research that is developed; and providing for completion of this plan by January 1, 1991.

This amendment is consistent with the national contingency plan and furthers the objectives of the plan. I believe the high wildlife loss from the Valdez spill could have been averted by a stronger plan to better direct the agencies through the difficult cleanup process in Alaska.

I want to offer my appreciation to Chairman JONES and his staff and Chairman ANDERSON and his staff for their advice and guidance in pursuing this amendment, as well as to the minority staff on the Merchant Marine and Fisheries and Public Works Committees for their comments. I also want to thank Congressmen MILLER and STUDDS and their staffs for the support they have offered to this endeavor.

I urge my colleagues to support this amendment to protect fish and wildlife threatened by an oilspill.

The fish and wildlife response plan must include a clear direction to the Fish and Wildlife Service and the National Marine Fisheries Service to use existing permit authorities to direct cleanup, rescue, and rehabilitation actions affecting fish and wildlife values. Both Services have extensive authority under statutes such as the Endangered Species Act and the Marine Mammal Protection Act to ensure that any actions taken during a cleanup are consistent with the goals and objectives of those acts and with sound fish and wildlife conservation practices. These authorities should be utilized to ensure that the cleanups, rescues, and rehabilitation are consistent with the goals and objectives of the relevant statutes and with sound fish and wildlife conservation practices.

Mr. JONES of North Carolina. Mr. Chairman, will the gentlewoman yield?

Ms. PELOSI. I yield to the gentleman from North Carolina, the chairman of the committee.

Mr. JONES of North Carolina. I thank the gentlewoman for yielding.

Mr. Chairman, I rise in support of the amendment by the gentlewoman from California. She has worked closely with the Committee on Merchant Marine and Fisheries in developing her amendment and I thank her for her efforts. Her amendment is a wise one, increasing the attention given to fish and wildlife response plans.

I urge the acceptance of the Pelosi amendment.

Mr. ANDERSON. Mr. Chairman, will the gentlewoman yield?

Ms. PELOSI. I yield to the gentleman from California.

Mr. ANDERSON. I thank the gentlewoman for yielding.

Mr. Chairman, I rise in support of the gentlewoman's amendment. The amendment would add a fish and wildlife response plan to the national contingency plan to minimize the risk to fish and wildlife from oil and hazardous substance spills, and for the protection, rescue, and rehabilitation of fish and wildlife that are damaged by a discharge. I believe that this amendment is consistent with our goals of protecting fish and wildlife after an oilspill has occurred, and therefore support the gentlewoman's amendment.

Mr. STUDDS. Mr. Chairman, will the gentlewoman yield?

Ms. PELOSI. I yield to the gentleman from Massachusetts.

Mr. STUDDS. I thank the gentlewoman for yielding.

Mr. Chairman, I rise to express my support for the amendment and to commend its author. I would, however, like to clarify three points.

First, the amendment calls for the development of a fish and wildlife response plan by natural resource trustees. Would it be consistent with the author's intent if the Fish and Wildlife Service were to delegate the primary responsibility for preparing its plan to regional officials?

Ms. PELOSI. Mr. Chairman, I assure the gentleman from Massachusetts it is the intent of this amendment to improve the response and streamline the procedures, whether the plan is developed regionally or centrally.

Mr. STUDDS. Mr. Chairman, second, is it the gentlewoman's intention that the costs of developing the plan will be borne by the fund, and that fund administrators will give due deference to the natural resource trustees in allocating resources from the fund?

Ms. PELOSI. Again I say to the gentleman from Massachusetts the answer is yes. If costs are involved, once the plan is implemented, it would be covered as part of the response plan and eligible to be withdrawn from the liability fund.

Mr. STUDDS. Mr. Chairman, finally, it is the gentlewoman's understanding that the activities required by her

amendment are short-term oilspill response activities, and are separate and distinct from the long-term environmental restoration work required in section 1006 of the bill?

Ms. PELOSI. Yes. Longer term restoration is not intended to be part of the reach of this amendment. As the gentleman stated, my amendment refers to the immediate response effort to protect fish and wildlife.

Mr. STUDDS. Mr. Chairman, I thank the gentlewoman. I commend her for her efforts, and I ask support for her amendment.

Ms. PELOSI. Mr. Chairman, I thank the gentleman for his comments. I again wish to express my appreciation to Chairman JONES, for his support and kind remarks, and to Chairman ANDERSON as well for his comments and his support on this legislation.

Mr. HAMMERSCHMIDT. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise with respect to the amendment offered by the gentlewoman from California [Ms. PELOSI].

I have no objection to the amendment and appreciate the gentlewoman bringing this issue to the attention of the House. I think I can safely say that everyone here today favors strong protection of fish and wildlife in the case of oil and hazardous material spills—especially after the concerns raised about the fish and wildlife response planning in connection with the *Valdez* accident.

There have been a few technical issues raised by the Fish and Wildlife Service regarding Ms. PELOSI's amendment, and we will be sure to pay close attention to these issues when we go to conference with the other body on this bill.

Again, I would like to thank the gentlewoman for introducing this amendment and thereby raising the concerns of Congress regarding the health and safety of our Nation's fish and wildlife.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentlewoman from California [Ms. PELOSI].

The amendment was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to title II of the bill?

If not, the Clerk will designate title III.

The text of title III is as follows:

TITLE III—IMPLEMENTATION OF INTERNATIONAL CONVENTIONS

SEC. 3001. DEFINITIONS.

For the purposes of this title—

(1) "ship", "owner", "oil", "pollution damage", and "incident" shall have the meanings provided in article I of the Civil Liability Convention;

(2) "Civil Liability Convention" means the International Convention on Civil Liability for Oil Pollution Damage, 1984;

(3) "financial responsibility" has the same meaning as "financial security" under the Civil Liability Convention;

(4) "Fund Convention" means the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1984; and

(5) "International Fund" means the International Oil Pollution Compensation Fund, established under article 2 of the Fund Convention.

SEC. 3002. APPLICABILITY OF CONVENTIONS.

(a) LIABILITY IN ACCORDANCE WITH CONVENTIONS.—During any period in which the Civil Liability Convention and the Fund Convention are in force with respect to the United States, liability relating to pollution damage arising from an incident involving a ship shall be determined in accordance with the Civil Liability Convention and Fund Convention. Nothing in this title shall constitute a ratification of either the Civil Liability Convention or the Fund Convention.

(b) JOINDER.—With respect to any incident to which the Civil Liability Convention applies, the Fund shall, in any action brought under any law (including the law of any State or subdivision thereof) for recovery of any removal costs and damages, indemnify and defend any person referred to in Article III(4) of the Convention (or any guarantor thereof) with respect to any such costs and damages except for those costs and damages for which such person may be liable under such other law consistent with the Convention. To the extent that the Fund is required to indemnify and defend a person under this subsection, the action is deemed to be an action against the Fund under any such other law and the Fund shall be substituted as the party defendant in any judgment resulting therefrom.

SEC. 3003. RECOGNITION OF INTERNATIONAL FUND.

The International Fund is recognized under the laws of the United States as a legal person, and shall have the capacity to acquire and dispose of real and personal property, and to institute and be party to legal proceedings. The Director of the International Fund is recognized as the legal representative of the International Fund. The Director shall be deemed to have appointed irrevocably the Secretary of State as the International Fund's agent for the service of process in any legal proceedings involving the International Fund within the United States. The International Fund and its assets shall be exempt from all direct taxation and payment of any customs duties in the United States.

SEC. 3004. ACTION IN UNITED STATES COURTS.

(a) SERVICE OF PROCESS ON INTERNATIONAL FUND.—In any action brought in a court in the United States against the owner of a ship or its guarantor under the Civil Liability Convention, the plaintiff or defendant, as the case may be, shall serve a copy of the complaint and any subsequent pleading therein upon the International Fund at the same time the complaint or other pleading is served upon the opposing parties.

(b) INTERVENTION.—The International Fund may intervene as a party as a matter of right in any action brought in a court in the United States against the owner of a ship or its guarantor under the Civil Liability Convention.

SEC. 3005. CONTRIBUTION TO INTERNATIONAL FUND.

(a) PAYMENTS TO BE MADE FROM FUND.—The amount of any contribution to the International Fund which is required to be made under article 10 of the Fund Convention by any person with respect to oil received in any port, terminal installation, or other installation located in the United States shall be paid to the International Fund from the Fund.

(b) INFORMATION.—The Secretary may, by regulation, require persons who are required to make contributions with respect to oil received in any port, terminal installation, or other installations in the United States under article 10 of the Fund Convention to provide all information relating to that oil as may be necessary to carry out subsection (a) of this section. Articles 10, 12, 13, 14, and 15 of the Fund Convention, and Article 29 of the Protocol of 1984 to Amend the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1971.

SEC. 3006. RECOGNITION OF FOREIGN JUDGMENTS.

Any final judgment of a court of any country which is a party to the Civil Liability Convention or to the Fund Convention in an action for compensation under either convention shall be recognized by any court of the United States having jurisdiction under this Act, when that judgment has become enforceable in that country and is no longer subject to ordinary form of review, except where—

(1) the judgment was obtained by fraud, or

(2) the defendant was not given reasonable notice and a fair opportunity to present its case.

SEC. 3007. CONVENTION FINANCIAL RESPONSIBILITY.

(a) UNITED STATES DOCUMENTED SHIPS.—The owner of a ship which is documented under the laws of the United States and which is subject to the Civil Liability Convention shall establish and maintain, in accordance with regulations promulgated by the Secretary, evidence of financial responsibility as required in Article VII of the Civil Liability Convention.

(b) OTHER SHIPS.—The owner of each ship (other than a ship to which subsection (a) applies or a ship which is a public vessel), which is subject to the Civil Liability Convention and which enters or leaves a port or terminal in the United States or uses an Outer Continental Shelf facility or an offshore facility that is or was licensed under the Deepwater Port Act of 1974 (33 U.S.C. 1501-1524), shall establish and maintain, in accordance with regulations promulgated by the Secretary, evidence of financial responsibility as required in Article VII of the Civil Liability Convention. Any ship which has on board a valid certificate issued in accordance with Article VII of the Civil Liability Convention shall be considered as having met the requirements of this subsection. Any ship carrying only oil as cargo, fuel, or residue, which has on board a valid certificate issued in accordance with Article VII of the Civil Liability Convention shall be considered as having met the requirements of section 1016 of this Act.

(c) AUTHORITY OF SECRETARY TO ISSUE.—The Secretary is authorized to issue any certificate of financial responsibility which the United States may issue under the Civil Liability Convention.

(d) WITHHOLDING CLEARANCE.—The Secretary of the Treasury shall withhold or revoke the clearance required by section 4197 of the Revised Statutes of the United States of any ship which does not have a certificate demonstrating compliance with this section.

(e) DENYING ENTRY AND DETAINING VESSELS.—The Secretary may (1) deny entry to

any facility or to any port or place in the United States, or (2) detain at the facility or port or place in the United States, any ship subject to this section which, upon request, does not produce the certificate demonstrating compliance with this section or regulations issued hereunder.

(f) CIVIL PENALTY.—Any person who, after notice and an opportunity for a hearing, is found to have violated this title, any regulation issued under this title, section 3005(b), or any denial or detention order issued under subsection (e) of this section shall be liable to the United States for a civil penalty, not to exceed $25,000 per day of violation. The amount of the civil penalty shall be assessed by the Secretary in accordance with the procedures set forth in section 1017 of this Act.

(g) WAIVER OF SOVEREIGN IMMUNITY.—The United States waives all defenses based on its status as a sovereign State with respect to any controversy arising under the Civil Liability Convention or the Fund Convention relating to any ship owned by the United States and used for commercial purposes.

SEC. 3008. REGULATIONS.

The Secretary may prescribe the necessary regulations to carry out this Act and all obligations of the United States under the Civil Liability Convention, and the Fund Convention.

The CHAIRMAN pro tempore. Are there amendments to title III of the bill?

AMENDMENT OFFERED BY MR. CHANDLER

Mr. CHANDLER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CHANDLER: Page 65, after line 9, insert the following new section:

SEC. 3009. NEGOTIATIONS WITH CANADA CONCERNING TUG ESCORTS IN PUGET SOUND.

Congress urges the Secretary of State to enter into negotiations with the Government of Canada to ensure that tugboat escorts are required for all tank vessels with a capacity over 40,000 deadweight tons in the Strait of Juan de Fuca and in Haro Strait.

Conform the table of contents of the bill accordingly.

Mr. CHANDLER (during the reading). Mr. Chairman, I ask unanimous consent the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. CHANDLER. Mr. Chairman, I will not use all of my time.

Mr. Chairman, I just want to add that while the previous amendment is necessary to ensure that all large oil tankers entering Puget Sound have a tugboat escort regardless of their final destination, the best assurance is a change in the Canadian law.

This amendment urges the Secretary of State to negotiate an agreement with Canada to ensure tugboat escorts are required in the Strait of Juan de Fuca and Haro Strait for vessels with a capacity over 40,000 deadweight tons.

According to the United States Coast Guard 250 large vessels pass through this area each month, and 21 of them are oil tankers. Only Canada can effectively close the loophole allowing large tankers to travel through their waters without a tugboat escort.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. CHANDLER. I yield to the gentleman from Michigan.

Mr. DAVIS. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the gentleman's amendment. I have an amendment later on to title IV which deals with negotiations with Canada on another issue but I think it makes sense for us to try to negotiate any type of agreement we can with Canada on this particular subject. I think it is a good amendment, and I urge strong support.

Mr. ANDERSON. Mr. Chairman, will the gentleman yield?

Mr. CHANDLER. I yield to the gentleman from California.

Mr. ANDERSON. I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the gentleman's amendment. The gentleman's amendment would urge the Secretary of State to enter into negotiations with the Government of Canada to ensure that tugboat escorts are required for all tank vessels in the Strait of Juan De Fuca and in Haro Strait. I believe that this amendment is consistent with our goals to assure the safe passage of oil both in this country and in international trade.

I support the gentleman's amendment.

□ 1430

Mr. SWIFT. Mr. Chairman, will the gentleman yield?

Mr. CHANDLER. Mr. Chairman, I yield to the gentleman from Washington [Mr. SWIFT].

Mr. SWIFT. Mr. Chairman, I want to commend the gentleman again. This is really the second part of the amendment that was offered just a few minutes ago. It really includes Canada into a process by which we can reach a solution. I think it is very responsible. I support it and hope my colleagues will as well.

Mr. CHANDLER. Mr. Chairman, I yield to the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Chairman, I want to say without prejudice to the jurisdiction of the Committee on Foreign Affairs with regard to this amendment, I want to assure the gentleman that if this amendment is adopted, we in the Committee on Foreign Affairs will undertake action to see that some implementation is effected.

Mr. CHANDLER. Mr. Chairman, I thank the gentleman from Florida [Mr. FASCELL] for his understanding and his support.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Washington [Mr. CHANDLER].

The amendment was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to title III of the bill?

If not, the Clerk will designate title IV.

The text of title IV is as follows:

TITLE IV—PREVENTION AND REMOVAL

SEC. 4001. DEFINITIONS.

For purposes of this title, the term—

(1) "tank barge" means a non-self-propelled vessel constructed or adapted to carry oil in bulk as cargo; and

(2) "tanker" has the same meaning the term has in section 2101 of title 46, United States Code.

Subtitle A—Prevention

SEC. 4101. REVIEW OF ALCOHOL AND DRUG ABUSE AND OTHER MATTERS IN ISSUING LICENSES, CERTIFICATES OF REGISTRY, AND MERCHANT MARINERS' DOCUMENTS.

(a) LICENSES AND CERTIFICATES OF REGISTRY.—Section 7101 of title 46, United States Code, is amended by adding at the end the following:

"(g) The Secretary may not issue a license or certificate of registry under this section unless an individual applying for the license or certificate makes available to the Secretary, under section 206(b)(4) of the National Driver Register Act of 1982 (23 U.S.C. 401 note), all information contained in the National Driver Register regarding the motor vehicle driving record of that individual.

"(h) The Secretary shall conduct a review of the criminal record of each individual who applies for a license under this section.".

(b) MERCHANT MARINERS' DOCUMENT.—Section 7302 of title 46, United States Code, is amended by adding at the end the following:

"(c) The Secretary may not issue a merchant mariner's document under this chapter unless the individual applying for the document makes available to the Secretary, under section 206(b)(4) of the National Driver Register Act of 1982 (23 U.S.C. 401 note), all information contained in the National Driver Register regarding the motor vehicle driving record of that individual.".

SEC. 4102. TERM OF CERTIFICATES OF REGISTRY AND MERCHANT MARINERS' DOCUMENTS.

(a) CERTIFICATES OF REGISTRIES.—Section 7107 of title 46, United States Code, is amended by striking "is not limited in duration." and inserting "is valid for 5 years, and may be renewed for additional 5-year periods.".

(b) MERCHANT MARINERS' DOCUMENTS.—Section 7302 of title 46, United States Code, is amended by adding at the end the following:

"(d) A merchant mariner's document issued under this chapter is valid for 5 years, and may be renewed for additional 5-year periods.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) of this section are effective January 1, 1990.

(d) TERMINATION OF EXISTING CERTIFICATES AND DOCUMENTS.—A certificate of registry and a merchant mariner's document issued before January 1, 1990, shall terminate on the day it would have expired as if—

(1) subsections (a) and (b) were in effect on the date it was issued; and

(2) it was renewed at the end of each 5-year period under section 7107 or section 7302(d).

(e) CRIMINAL RECORD REVIEW IN LICENSE RENEWALS.—Section 7109 of title 46, United States Code, is amended by designating the existing text as subsection (a) and adding at the end the following:

"(b) The Secretary shall conduct a review of the criminal record of each holder of a license issued under this part who applies for renewal of that license under this section.".

SEC. 4103. SUSPENSION AND REVOCATION OF LICENSES, CERTIFICATES OF REGISTRY, AND MERCHANT MARINERS' DOCUMENTS FOR ALCOHOL AND DRUG ABUSE.

(a) AVAILABILITY OF INFORMATION IN NATIONAL DRIVER REGISTER.—

(1) IN GENERAL.—Section 7702 of title 46, United States Code, is amended by adding at the end the following:

"(c) The Secretary shall request an individual holding a license, certificate of registry, or merchant mariner's document to make available to the Secretary, under section 206(b)(4) of the National Driver Register Act of 1982 (23 U.S.C. 401 note), all information contained in the National Driver Register regarding the motor vehicle driving record of that individual.

"(d)(1) The Secretary shall temporarily suspend and take possession of the holder's license, certificate, or document if—

"(A) that individual performs a sensitive function on a vessel as determined by the Secretary; and

"(B) there is probable cause to believe that the holder—

"(i) has performed the sensitive function while under the influence of, or while using, alcohol or a dangerous drug;

"(ii) has been denied a motor vehicle license by a State for cause within the 5-year period immediately before the temporary suspension; or

"(iii) has been convicted of an offense for which a license, certificate, or document may be suspended or revoked under section 7703 (2) or (3) of this title.

"(2) If a license, certificate, or document is temporarily suspended under this section, an expedited hearing under subsection (a) of this section shall be held within 15 days after the temporary suspension.".

(2) CONFORMING AMENDMENT.—Section 7704(a) of title 46, United States Code, is amended by striking "section" the first place it appears and inserting "part".

(b) BASES FOR SUSPENSION OR REVOCATION.—Section 7703 of title 46, United States Code, is amended to read as follows:

"§ 7703. Bases for suspension or revocation

"A license, certificate of registry, or merchant mariner's document issued by the Secretary may be suspended or revoked if the holder—

"(1) when acting under the authority of that license, certificate, or document—

"(A) has violated or fails to comply with this subtitle, a regulation prescribed under this subtitle, or any other law or regulation intended to promote marine safety or to protect navigable waters; or

"(B) has committed an act of incompetence, misconduct, or negligence;

"(2) is convicted of an offense that would prevent the issuance or renewal of a license, certificate of registry, or merchant mariner's document; or

"(3) is convicted of an offense described in section 205(a)(3) (A) or (B) of the National Driver Register Act of 1982 (23 U.S.C. 401 note) within the 5-year period immediately preceding the suspension or revocation.".

(c) TERMINATION OF REVOCATION.—Section 7701(c) of title 46, United States Code, is amended to read as follows:

"(c) When a license, certificate of registry, or merchant mariner's document has been revoked under this chapter, the former holder may be issued a new license, certificate of registry, or merchant mariner's document only after—

"(1) the Secretary decides, under regulations prescribed by the Secretary, that the issuance is compatible with the requirement of good discipline and safety at sea; and

"(2) the former holder provides satisfactory proof that the bases for revocation are no longer valid.".

SEC. 4104. REMOVAL OF MASTER OR INDIVIDUAL IN CHARGE.

Section 8101 of title 46, United States Code, is amended by adding at the end the following:

"(i) Whenever the next 2 senior licensed officers on a vessel reasonably believe that the master or individual in charge of the vessel is under the influence of alcohol or a dangerous drug and is incapable of commanding the vessel, the next most senior licensed officer shall—

"(1) temporarily relieve the master;

"(2) temporarily take command of the vessel;

"(3) immediately enter the details of the incident in the vessel log; and

"(4) report those details to the Secretary—

"(A) by the most expeditious means available; and

"(B) in written form transmitted within 12 hours after the vessel arrives at its next port.".

SEC. 4105. ACCESS TO NATIONAL DRIVER REGISTER.

(a) AVAILABILITY OF INFORMATION TO SECRETARY.—Section 206(b) of the National Driver Register Act of 1982 (23 U.S.C. 401 note) is amended by adding at the end the following:

"(6)(A) Any individual who holds or who has applied for a license or certificate of registry under section 7101 of title 46, United States Code, or merchant mariner's document under section 7302 of title 46, United States Code, shall request the chief driver licensing official of a State to transmit to the Secretary in accordance with subsection (a) of this section information regarding the motor vehicle driving record of the individual.

"(B) The Secretary—

"(i) shall make the information available to the individual for review and written comment before denying, suspending, or revoking the license, certificate of registry, or merchant mariner's document of the individual based on that information and before using that information in any action taken under chapter 77 of title 46, United States Code; and

"(ii) may not otherwise divulge or use that information, except for the purposes of section 7101, 7302, or 7703 of title 46, United States Code.

"(C) Information regarding the motor vehicle driving record of an individual may not be transmitted to the Secretary under this paragraph if the information was entered in the register more than 5 years before the date of the request for the information, unless the information relates to revocations or suspensions that are still in effect on the date of the request. Information submitted to the register by States under the Act of July 14, 1960 (74 Stat. 526), or under this Act are subject to access for the purpose of this paragraph during the transition to the register established under section 203(c) of this Act.".

(b) CONFORMING AMENDMENTS.—

(1) Chapter 75 of title 46, United States Code, is amended by adding at the end the following:

"§ 7505. Review of information in National Driver Register

"The Secretary shall make information received from the National Driver Register under section 206(b)(6) of the National Driver Register Act of 1982 (23 U.S.C. 401 note) available to an individual for review and written comment before denying, suspending, revoking, or taking any other action relating to a license, certificate of registry, or merchant mariner's document authorized to be issued under this part, based on that information.".

(2) Section 2302(c) of title 46, United States Code, is amended by striking "intoxicated" and inserting in lieu thereof "under the influence of alcohol".

(c) CLERICAL AMENDMENT.—The analysis for chapter 75 of title 46, United States Code, is amended by adding at the end the following:

"7505. Review of information in National Driver Register.".

SEC. 4106. MANNING STANDARDS FOR FOREIGN TANK VESSELS.

(a) STANDARDS FOR FOREIGN TANK VESSELS.—Section 9101(a) of title 46, United States Code, is amended to read as follows:

"(a)(1) The Secretary shall evaluate the manning, training, qualification, and watchkeeping standards of a foreign country that issues documentation for any vessel to which chapter 37 of this title applies—

"(A) on a periodic basis; and

"(B) after a casualty involving that vessel.

"(2) After each evaluation made under paragraph (1) of this subsection, the Secretary shall determine whether—

"(A) the foreign country has standards for licensing and certification of seamen that are at least equivalent to United States law or customary international law; and

"(B) those standards are being enforced.

"(3) If the Secretary determines under this subsection that a country has failed to maintain or enforce standards at least equivalent to United States law or customary international law, the Secretary shall prohibit vessels issued documentation by that country from entering the United States.

"(4) The Secretary may allow provisional entry of a vessel prohibited from entering the United States under paragraph (3) of this subsection if—

"(A) the owner or operator of the vessel establishes, to the satisfaction of the Secretary, that the vessel is not unsafe or a threat to the marine environment; or

"(B) the entry is necessary for the safety of the vessel or individuals on the vessel.".

(b) TECHNICAL AND CONFORMING AMENDMENTS.—Section 9(a) of the Ports and Waterways Safety Act (33 U.S.C. 1228(a)) is amended—

(1) in the introductory paragraph, by striking "section 4417a of the Revised Statutes, as amended," and inserting "chapter 37 of title 46, United States Code.";

(2) in paragraph (2), by striking "section 4417a of the Revised Statutes, as amended," and inserting "chapter 37 of title 46, United States Code.";

(3) in paragraph (5), by striking "section 4417a(11) of the Revised Statutes, as amended," and inserting "section 9101 of title 46, United States Code."; and

(4) in paragraph (5), by striking "international standards that are accepted by the United States" and inserting "customary international law".

(c) EFFECTIVE DATE.—Sections 9101(a)(3) and (4) of title 46, United States Code, and section 9(a) of the Ports and Waterways Safety Act (33 U.S.C. 1228(a)) (as enacted by subsections (a) and (b) of this section) take effect on January 1, 1990.

SEC. 4107. VESSEL TRAFFIC SERVICE SYSTEMS.

(a) MANDATORY VESSEL TRAFFIC SERVICE.—The Ports and Waterways Safety Act (33 U.S.C. 1221 et seq.) is amended by inserting after section 4 the following:

"§ 4a. VESSEL TRAFFIC SERVICES REQUIRED.

"(a) The Secretary shall require appropriate vessels in the area of a vessel traffic service system to use or comply with that system.

"(b) The Secretary may construct, operate, maintain, improve, or expand a vessel traffic service system in any port or channel of the United States.

"(c) No appropriation shall be made for a project to construct, operate, maintain, improve, or expand a vessel traffic service system unless that construction, operation, maintenance, improvement, or expansion is approved by a resolution adopted by the Committee on Merchant Marine and Fisheries of the House of Representatives and by the Committee on Commerce, Science, and Transportation of the Senate.

"(d) For the purpose of assisting the committees in their consideration of a resolution under subsection (c), the Secretary shall transmit to Congress a report on the proposed construction, operation, maintenance, improvement, or expansion of a vessel traffic service system, including all relevant data and costs.".

(b) REPEAL.—Section 4(a)(2) of the Ports and Waterways Safety Act (33 U.S.C. 1223) is repealed.

(c) DIRECTION OF VESSEL MOVEMENT.—

(1) STUDY.—The Secretary shall conduct a study—

(A) of whether the Secretary should be given additional authority to direct the movement of vessels upon navigable waters and should exercise such authority; and

(B) to determine and prioritize the United States ports and channels that are in need of new, expanded, or improved vessel traffic service systems by evaluating—

(i) the nature, volume, and frequency of vessel traffic;

(ii) the risks of collisions, spills, and damages associated with that traffic;

(iii) the impact of installation, expansion, or improvement of a vessel traffic service system; and

(iv) all other relevant costs and data.

(2) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under paragraph (1) together with recommendations for implementing the results of that study. A report submitted under this paragraph is deemed to be a report transmitted under section 4a of the Ports and Waterways Safety Act (33 U.S.C. 1221 et seq.).

SEC. 4108. STATE AUTHORITY TO REQUIRE STATE PILOTAGE FOR TANKERS.

(a) STATE PILOT AUTHORITY.—Section 8501(d) of title 46, United States Code, is amended to read as follows:

"(d) A State may not adopt a regulation or provision that requires a coastwise vessel, other than a tanker having a Federal pilot whose license is not endorsed for pilotage in that State's waters, to take a pilot licensed or authorized by the laws of a State if the vessel—

"(1) is propelled by machinery and subject to inspection under part B of this subtitle; or

"(2) is subject to inspection under chapter 37 of this title.".

(b) PILOT CHARGES PROHIBITED.—Section 8502(d) of title 46, United States Code, is amended to read as follows:

"(d) Except in the case of a tanker for which a State pilot is authorized under this chapter, a State or political subdivision of a State may not levy pilot charges on a vessel lawfully piloted by a Federal pilot required under this section.".

SEC. 4109. GREAT LAKES PILOTAGE.

(a) INDIVIDUALS WHO MAY SERVE AS PILOT ON UNDESIGNATED GREAT LAKE WATERS.—Section 9302(b) of title 46, United States Code, is amended to read as follows:

"(b) A member of the complement of a vessel may serve for the route being navigated as the pilot required on waters not designated by the President, if the member is—

"(1) a citizen of the United States and holds a license issued under section 7101(c) of this title; or

"(2) a citizen or national of Canada and has a license issued under provisions of Canadian law equivalent to section 7101(c) of this title.".

(b) EXEMPTED VESSELS.—Section 9302(d)(1) of title 46, United States Code, is amended to read as follows:

"(1) except for a vessel to which chapter 37 applies, the Secretary notifies the master that a registered pilot is not available; or".

(c) PILOTAGE.—Section 9303(f) is amended by adding at the end the following: "A vessel is liable in rem for charges for pilotage services under this subsection and any costs of collection.".

(d) PENALTIES.—Section 9308 is amended—

(1) in subsection (a) by striking "$500" and inserting "$25,000"; and

(2) in subsections (b) and (c) by striking "$500" and inserting "$10,000".

SEC. 4110. STUDY ON TANKER NAVIGATION SAFETY STANDARDS.

(a) IN GENERAL.—Not later than one year after the date of enactment of this Act, the Secretary shall conduct a study to determine whether existing laws and regulations are adequate to ensure the safe navigation of vessels transporting oil and hazardous substances on the navigable waters and the exclusive economic zone.

(b) STUDY.—In conducting the study required under subsection (a), the Secretary shall—

(1) determine appropriate crew sizes on tankers;

(2) evaluate the adequacy of qualifications and training of crewmembers;

(3) evaluate the ability of crewmembers on a tanker to take emergency actions to prevent or remove a discharge of oil or hazardous substance from the tanker;

(4) evaluate the adequacy of navigation equipment and systems on tankers (including sonar, electronic chart display, and satellite technology);

(5) evaluate the adequacy of navigation procedures, including with respect to speed, daylight, presence of ice, tides, weather, and other conditions;

(6) evaluate whether areas of the navigable waters and the exclusive economic zone should be designated as zones where the movement of tankers should be limited or prohibited, in particular, areas where oil and gas leasing, exploration, or development are being prohibited by legislative action; and

(7) evaluate vessel design and construction criteria to reduce the likelihood of a discharge, including criteria for—

(A) tank capacity;

(B) tanker tonnage;

(C) tank barge tonnage;

(D) double hulls and double bottoms on tankers and tank barges, by—

(i) comparing worldwide the operating and environmental safety records of tankers equipped with double hulls or double bottoms and the records of tankers without these features;

(ii) comparing the operating and environmental safety records of tank barges operating on the navigable waters of the United States and equipped with double hulls or double bottoms and the records of tank barges without these features;

(iii) assessing the costs and benefits to owners and operators of tankers and tank barges of double hulls or double bottoms on some or all new tankers and new tank barges engaged solely in the coastwise trade; and

(iv) evaluating the extent to which requiring double hulls and double bottoms will prevent serious oil pollution incidents in bays, sounds, harbors, and other near-shore areas of special environmental importance; and

(v) consulting with naval architects, tanker and tank barge operators, salvors, environmental protection organizations, economists, States, and communities along tanker and tank barge routes, and any other persons the Secretary considers appropriate;

(E) the vacuum method of tanker design or similar technology;

(F) overfill and tank pressure monitoring devices; and

(G) other vessel features;

(8) evaluate whether inspection standards are adequate, including standards for vessel plate gauging;

(9) review and incorporate the results of past studies, including studies conducted by the Coast Guard and the Office of Technology Assessment;

(10) evaluate the use of computer simulator courses for training bridge officers and pilots of vessels transporting oil or hazardous substances on the navigable waters and the exclusive economic zone, and determine the feasibility and practicality of mandating such training; and

(11) evaluate and test a program of remote alcohol testing for masters and pilots aboard tankers carrying significant quantities of oil.

(c) REPORT.—Not later than one year after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of the study conducted under subsection (a), including recommendations for implementing the results of that study.

SEC. 4111. DREDGE MODIFICATION STUDY.

(a) STUDY.—The Secretary of the Army shall conduct a study and demonstration to determine the feasibility of modifying dredges to make them usable in removing discharges of oil and hazardous substances.

(b) REPORT.—Not later than one year after the date of enactment of this Act, the Secretary of the Army shall submit to Congress a report on the results of the study conducted

under subsection (a) and recommendations for implementing the results of that study.

SEC. 4112. USE OF LINERS.

(a) STUDY.—The President shall conduct a study to determine whether liners or other secondary means of containment should be used to prevent leaking or to aid in leak detection at onshore facilities used for the bulk storage of oil and located near navigable waters.

(b) REPORT.—Not later than one year after the date of enactment of this Act, the President shall submit to Congress a report on the results of the study conducted under subsection (a) and recommendations to implement the results of the study.

(c) IMPLEMENTATION.—Not later than six months after the date the report required under subsection (b) is submitted to Congress, the President shall implement the recommendations contained in the report.

Subtitle B—Removal

SEC. 4201. FEDERAL REMOVAL AUTHORITY.

(a) REMOVAL.—Paragraph (1) of section 311(c) of the Federal Water Pollution Control Act (33 U.S.C. 1321(c)(1)) is amended to read as follows:

"(c)(1)(A) The President shall ensure an effective and immediate removal of a discharge of oil or hazardous substance—

"(i) into or on the navigable waters;

"(ii) on the adjoining shorelines to these navigable waters;

"(iii) on the waters of the exclusive economic zone; or

"(iv) that may affect natural resources belonging to, appertaining to, or under the exclusive management authority of the United States.

in accordance with the National Contingency Plan, and any other contingency plan prepared under subsection (j).

"(B) In carrying out subparagraph (A), the President may—

"(i) remove or arrange for the removal of a discharge, or the threat of a discharge, of oil or hazardous substance at any time;

"(ii) direct all Federal, State, responsible party, and private actions to remove a discharge, or the threat of a discharge, of oil or a hazardous substance; and

"(iii) monitor all removal actions.

"(C) When the President retains or directs a person (other than a responsible party) under the authority of subparagraph (B)(i) or (ii), other than for removal of a hazardous substance, that person is not liable for removal costs or damages, other than for personal injury or wrongful death, arising from his or her removal activities conducted in accordance with the direction of the President, except in the case of gross negligence or willful misconduct.

"(D) Each responsible party shall act in accordance with the National Contingency Plan, the applicable contingency plans required under subsection (j), and as otherwise directed by the President.

"(E) Nothing in this paragraph affects the liability of a responsible party under the Oil Pollution Act of 1989.".

(b) CONFORMING AMENDMENTS.—Section 311(a) (33 U.S.C. 1321(a)) is amended—

(1) by striking paragraph (8) and inserting the following:

"(8) 'remove' or 'removal' refers to—

"(A) the removal of oil or hazardous substances from water and shoreline;

"(B) containment, dispersal, disposal, or other response actions; and

"(C) the taking of other actions necessary to minimize or mitigate damage to the public health or welfare, including fish, shellfish, wildlife, and public and private property, shorelines, and beaches.".

(2) in paragraph (16) by striking the period and inserting in lieu thereof a semicolon;

(3) in paragraph (17) by striking the period and inserting in lieu thereof "; and"; and

(4) by adding at the end the following:

"(18) 'exclusive economic zone' means the zone established by the Presidential Proclamation Number 5030, dated March 10, 1983; and

"(19) 'responsible party' means an owner or operator in violation of subsection (b) of this section.".

SEC. 4202. CONTINGENCY PLANS.

Section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)) is amended—

(1) in paragraph (2), by striking "paragraph (1) of"; and

(2) by adding at the end the following new paragraphs:

"(3) LOCAL CONTINGENCY PLANS.—(A) Not later than six months after the date of enactment of the Oil Pollution Act of 1989, the President shall designate areas for which new or improved local contingency plans must be prepared to respond to a discharge, or threat of discharge, of oil or a hazardous substance. The President shall specify the Federal, State, and local officials required to prepare these plans. These plans shall be prepared in consultation with affected parties.

"(B) In determining the areas to be designated under this paragraph, the President shall consult with State and local officials, and the public, and shall consider—

"(i) the likelihood of a discharge;

"(ii) the likelihood that the discharge would result in severe economic or environmental damage; and

"(iii) the adequacy of any existing local contingency plans.

"(C) Each contingency plan prepared under this paragraph shall include—

"(i) a general description of the area subject to the plan, including the identification of specific areas of special economic or environmental importance that might be damaged by a discharge;

"(ii) a detailed description of the responsibilities of the responsible party, and Federal, State, and local agencies, for moving a discharge, or the threat of a discharge;

"(iii) a list of equipment and personnel available to the responsible party, and Federal, State, and local agencies, to ensure an effective and immediate removal of a discharge, or threat of a discharge; and

"(iv) any other information the President may require.

"(D) Not later than six months after the designation of areas under subparagraph (A), the persons identified shall prepare and submit to the President the contingency plan required by this paragraph. The President shall promptly review each plan and require amendments to any plan that does not meet the requirements of this paragraph.

"(E) Contingency plans required under this paragraph shall be reviewed periodically by the President and updated.

"(F) The President may provide technical assistance in the preparation of a contingency plan under this paragraph.

"(4) TANK VESSEL AND FACILITY CONTINGENCY PLANS.—(A) Not later than 18 months after the date of the enactment of the Oil Pollution Act of 1989, the President shall require the owners or operators of the following vessels and facilities to prepare a contingency plan for the vessel and facility:

"(i) A tank vessel, as defined under section 2101 of title 46, United States Code.

"(ii) An offshore or onshore facility that, because of its location, could reasonably discharge into or on the navigable waters, the adjoining shorelines, or the exclusive economic zone.

"(B) The contingency plans required by this paragraph shall—

"(i) be consistent, and ensure compliance by the owner or operator, with the requirements of the National Contingency Plan and any local contingency plan;

"(ii) be submitted on a timely basis to the President;

"(iii) be available for review by appropriate Federal, State, and local officials, and the public;

"(iv) identify the individual having full authority to implement a removal action and require immediate communications between that individual and the appropriate Federal official and the persons identified in clause (vi);

"(v) describe the specific actions that will be taken to immediately remove a discharge, including the most serious potential discharge from the vessel or facility involved;

"(vi) identify and ensure, by contract with a private organization or otherwise, the availability of personnel and equipment necessary to implement a removal action under clauses (iv) and (v) of this subparagraph;

"(vii) include a program of personnel training, equipment testing, and periodic unannounced drills sufficient to ensure the effectiveness of the contingency plan;

"(viii) describe the conditions under which dispersants might be used, including the procedures to be followed for obtaining approval for dispersant use;

"(ix) include provisions for the safe disposal of any contaminated materials or oil or hazardous substance recovered during the removal; and

"(x) be updated periodically.

"(C) Beginning one year after the issuance of regulations implementing this paragraph, a vessel or facility for which the preparation of a contingency plan is required, may not handle, store, or transport oil unless—

"(i) the owner or operator has submitted a contingency plan in accordance with this paragraph;

"(ii) the contingency plan has not been rejected by the President; and

"(iii) the vessel or facility is operating in compliance with the contingency plan.

"(D) The President shall promptly review the contingency plans submitted under this paragraph and shall reject, or require amendments to, any plan that does not meet the requirements of subparagraph (B) of this paragraph.

"(E) The President may provide by regulation that the requirements of this paragraph have been met by a class of vessels or facilities under other law.

"(5) Not later than one year after the date of enactment of the Oil Pollution Act of 1989, the President shall require—

"(A) periodic inspection of containment booms, skimmers, vessels, and other major equipment used to remove discharges of oil or a hazardous substance; and

"(B) vessels operating on the navigable waters and carrying oil or a hazardous substance in bulk as cargo to carry appropriate removal equipment that employs the best technology economically feasible and that is

compatible with the safe operation of the vessel.

"(4) The President, acting through the Secretary of the department in which the Coast Guard is operating, shall periodically conduct drills of removal capability in major port areas under local contingency plans and relevant vessel and facility contingency plans. The drills shall include participation by Federal, State, and local agencies, the owners and operators of vessels and facilities in the area, and private industry. The Secretary shall publish annual reports on these drills including an assessment of the effectiveness of the plans and a list of amendments that were made to the ineffective contingency plans.".

SEC. 4203. STRIKE TEAMS.

Section 311(c)(2)(C) of the Federal Water Pollution Control Act (33 U.S.C. 1321(c)(2)(C)) is amended to read as follows—

"(C) establishment and maintenance of a Federal strike force including at least 7 regional strike teams with personnel who are trained, equipped, and available on a continual basis to provide necessary services to carry out the plan and any contingency plans required under subsection (j) of this section. In establishing these teams, the President shall consider existing Federal, State, local, and private sector resources that are available and that may be used to immediately and effectively remove a discharge;".

SEC. 4204. COAST GUARD VESSEL DESIGN.

The Secretary shall ensure that vessels designed and constructed to replace Coast Guard buoy tenders are equipped with oil skimming systems that are readily available, operable, and complement the primary mission of servicing aids to navigation.

SEC. 4205. REMOVAL RESOURCE INVENTORY.

(a) ESTABLISHMENT OF COMPUTER LISTING.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall (in consultation with State officials responsible for removal of oil from the navigable waters, adjoining shorelines, and the exclusive economic zone) establish, maintain, and annually revise a comprehensive nationwide computer listing of emergency removal resources which are available to and appropriate for use in removing discharges and substantial threats of discharges of oil.

(b) CONTENTS OF COMPUTER LISTING.—The computer listing established under this section shall include—

(1) a continually updated description of all Federal, State, local, and private emergency removal resources which are available for use, including—

(A) the locations and capabilities of the resources;

(B) specification of the suitability of each resource for use in rivers, harbors, open ocean, and calm waters; and

(C) specification of the suitability of each resource for use in fresh water and in salt water;

(2) a nationwide listing of persons having emergency removal resources available for sale or lease, including—

(A) each person's address, telephone number, and hours of business; and

(B) a description of the types and capabilities of their resources;

(3) a listing of the names, telephone numbers, and areas of expertise of persons residing in the vicinity of areas covered by the National Contingency Plan who are experts in—

(A) removing discharges or the substantial threats of discharges of oil; or

(B) the effects of such discharges or threats.

(c) INTERNATIONAL INVENTORY.—The President shall take such actions as may be necessary to encourage appropriate international organizations to establish an international inventory of emergency removal resources.

Subtitle C—Miscellaneous

SEC. 4301. INCREASED PENALTIES.

(a) NOTICE TO STATE AND FAILURE TO REPORT.—Section 311(b)(5) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(5)) is amended—

(1) by inserting after the first sentence the following: "The Federal agency shall immediately notify the appropriate State agency of any State which is, or may reasonably be expected to be, affected by the discharge of oil or a hazardous substance."; and

(2) by striking "fined not more than $10,000, or imprisoned for not more than one year, or both" and inserting "fined in accordance with the applicable provisions of title 18 of the United States Code, or imprisoned for not more than 3 years (or not more than 5 years in the case of a second or subsequent conviction), or both".

(b) ADMINISTRATIVE PENALTY FOR DISCHARGE.—Section 311(b)(6)(A) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(6)(A)) is amended—

(1) by inserting ", or by the Administrator," after "Secretary of the department in which the Coast Guard is operating" each place it appears;

(2) by striking "$5,000 for each offense" each place it appears and inserting in lieu thereof "$25,000 for each day of such offense";

(3) in each of the fifth, sixth, and eighth sentences, by inserting "or the Administrator, as appropriate" after "such Secretary"; and

(4) in the seventh sentence by inserting "or the Administrator, as appropriate," after "such Secretary".

(c) PENALTY IN CIVIL ACTION FOR DISCHARGE.—Section 311(b)(6)(B) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(6)(B)) is amended—

(1) in the first sentence by inserting "or the Secretary of the department in which the Coast Guard is operating" after "The Administrator";

(2) by striking "$50,000" and inserting "$1,000 for each barrel of oil or hazardous substance that was discharged, or $5,000,000, whichever is less"; and

(3) by striking "$250,000" and inserting "$5,000 for each barrel of oil or hazardous substance that was discharged".

(d) NATIONAL CONTINGENCY PLAN.—Section 311(j)(2) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)(2)) is amended by striking "$5,000" and inserting "$25,000".

(e) NEGLIGENT OPERATIONS.—Section 2302 of title 46, United States Code, is amended—

(1) in subsection (b), by striking "shall be fined not more than $5,000, imprisoned for not more than one year, or both.", and inserting "commits a class A misdemeanor."; and

(2) in subsection (c)—

(A) in the matter preceding paragraph (1) by striking ", shall be";

(B) in paragraph (1) by inserting "is" before "liable"; and

(C) by amending paragraph (2) to read as follows:

"(2) commits a class A misdemeanor.".

(f) INSPECTIONS.—Section 3318 of title 46, United States Code, is amended—

(1) in subsection (b) by striking "shall be fined not more than $10,000, imprisoned for not more than 5 years, or both.", and inserting "commits a class D felony.";

(2) in subsection (c) by striking "shall be fined not more than $5,000, imprisoned for not more than 5 years, or both.", and inserting "commits a class D felony.";

(3) in subsection (d) by striking "shall be fined not more than $5,000, imprisoned for not more than 5 years, or both.", and inserting "commits a class D felony.";

(4) in subsection (e) by striking "shall be fined not more than $10,000, imprisoned for not more than 2 years, or both.", and inserting "commits a class A misdemeanor."; and

(5) in subsection (f) in the matter preceding paragraph (1), by striking "shall be fined not less than $1,000 but not more than $10,000, and imprisoned for not less than 2 years but not more than 5 years,", and inserting "commits a class D felony.".

(g) CARRIAGE OF LIQUID BULK DANGEROUS CARGOES.—Section 3718 of title 46, United States Code, is amended—

(1) in subsection (b), by striking "shall be fined not more than $50,000, imprisoned for not more than 5 years, or both.", and inserting "commits a class D felony."; and

(2) in subsection (c), by striking "shall be fined not more than $100,000, imprisoned for not more than 10 years, or both.", and inserting "commits a class C felony.".

(h) LOAD LINES.—Section 5116 of title 46, United States Code, is amended—

(1) in subsection (d), by striking "shall be fined not more than $10,000, imprisoned for not more than one year, or both.", and inserting "commits a class A misdemeanor."; and

(2) in subsection (e), by striking "shall be fined not more than $10,000, imprisoned for not more than 2 years, or both." and inserting "commits a class A misdemeanor.".

(i) COMPLEMENT OF INSPECTED VESSELS.—Section 8101 of title 46, United States Code, is amended—

(1) in subsection (e), by striking "$50" and inserting "$1,000";

(2) in subsection (f), by striking "$100, or, for a deficiency of a licensed individual, a penalty of $500." and inserting "$10,000."; and

(3) in subsection (g), by striking "$500." and inserting "$10,000.".

(j) WATCHES.—Section 8104 of title 46, United States Code, is amended—

(1) in subsection (i), by striking "$100." and inserting "$10,000."; and

(2) in subsection (j), by striking "$500." and inserting "$10,000.".

(k) COASTWISE PILOTAGE.—Section 8502 of title 46, United States Code, is amended—

(1) in subsection (e), by striking "$500." and inserting "$10,000."; and

(2) in subsection (f), by striking "$500." and inserting "$10,000.".

(l) FOREIGN COMMERCE PILOTAGE.—Section 8503(e) of title 46, United States Code, is amended by striking "shall be fined not more than $50,000, imprisoned for not more than five years, or both." and inserting "commits a class D felony.".

(m) CREW REQUIREMENTS.—Section 8702(e) of title 46, United States Code, is amended by striking "$500." and inserting "$10,000.".

(n) PORTS AND WATERWAYS SAFETY ACT.—Section 13(b) of the Port and Waterways Safety Act (33 U.S.C. 1232(b)) is amended—

(1) in paragraph (1), by striking "shall be fined not more than $50,000 for each violation or imprisoned for not more than five

years, or both.", and inserting "commits a class D felony."; and

(2) in paragraph (2), by striking "shall, in lieu of the penalties prescribed in paragraph (1), be fined not more than $100,000, or imprisoned for not more than 10 years, or both.", and inserting "commits a class C felony.".

(o) VESSEL NAVIGATION.—Section 4 of the Act of April 28, 1908 (33 U.S.C. 1236), is amended—

(1) in subsection (b), by striking "$500." and inserting "$5,000.";

(2) in subsection (c), by striking "$500," and inserting "$5,000."; and

(3) in subsection (d), by striking "$250." and inserting "$2,500.".

(p) INTERVENTION ON THE HIGH SEAS ACT.—Section 12(a) of the Intervention of the High Seas Act (33 U.S.C. 1481(a)) is amended—

(1) in the matter preceding paragraph (1), by striking "Any person who" and inserting "A person commits a class A misdemeanor if that person"; and

(2) in paragraph (3), by striking ", shall be fined not more than $10,000 or imprisoned not more than one year, or both".

(q) DEEPWATER PORT ACT OF 1974.—

(1) IN GENERAL.—Section 15(a) of the Deepwater Port Act of 1974 (33 U.S.C. 1514(a)) is amended by striking "shall on conviction be fined not more than $25,000 for each day of violation or imprisoned for not more than 1 year, or both." and inserting "commits a class A misdemeanor for each day of violation.".

(2) FAILURE TO NOTIFY.—Section 18(b) of the Deepwater Port Act of 1974 (33 U.S.C. 1517(b)) is amended by striking "shall, upon conviction, be fined not more than $10,000 or imprisoned for not more than 1 year, or both." and inserting "commits a class A misdemeanor.".

(r) ACT TO PREVENT POLLUTION FROM SHIPS.—Section 9(a) of the Act to Prevent Pollution from Ships (33 U.S.C. 1908(a)) is amended by striking "shall, for each violation, be fined not more than $50,000 or be imprisoned for not more than 5 years, or both.", and inserting "commits a class D felony.".

SEC. 4302. DEPOSIT OF CERTAIN PENALTIES INTO OIL SPILL LIABILITY TRUST FUND.

Section 311(b)(6) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(6)) is amended by adding at the end the following:

"(F) Amounts recovered by the Federal Government for penalties assessed under this subsection as the result of a discharge of oil shall be deposited in the Oil Spill Liability Trust Fund created by section 9509 of the Internal Revenue Code of 1986.".

SEC. 4303. HAZARDOUS SUBSTANCES.

Nothing in this title affects or modifies, in any way, the obligations or liabilities of any person under other Federal or State law, including common law, with respect to the discharge or release of hazardous substances, pollutants or contaminants, as defined under section 101 of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601).

AMENDMENT OFFERED BY MR. SIKORSKI

Mr. SIKORSKI. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SIKORSKI: Page 92, line 14, insert "in the case of vessels and beginning 2 years after the issuance of such regulations in the case of facilities" after "paragraph".

Page 92, lines 21 and 22, strike "has not been rejected" and insert "has been approved".

Page 93, strike lines 3 through 5 and insert the following: "shall approve any plan which meets the requirements of subparagraph (B) of this paragraph or require amendments to any plan which does meet the requirements of such subparagraph."

"(E) Approval of a contingency plan under this paragraph shall not be construed as a defense to liability under title I of the Oil Pollution Act of 1989.

Page 93, line 6, strike "(E)" and insert "(F)".

Mr. SIKORSKI (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. SIKORSKI. Mr. Chairman, my amendment H.R. 1465 will make: First, oil tankers and facilities more accountable in preparing, and second, the Federal Government more accountable in approving oilspill contingency plans. These plans are our first line of defense against spills and incompetent cleanups. They are not academic, hypothetical, dust collectors. At least they should not be and that's why my amendment is necessary.

On Friday, September 15, less than 6 months after the Valdez oilspill, Exxon left Alaska very different from how it found it, leaving tides, waves and seagulls to finish Exxon's cleanup job.

After a C-130 transport, half an hour in a Marine helicopter, ferrying by the U.S.S. *Duluth*, and a Zodiac ride to St. Helens Beach to see for myself, I can tell you that Exxon hasn't cleaned up after itself. I can also tell you that if Exxon had been required to prepare an approved oilspill contingency plan Exxon would be richer, Alaskans would be happier, and America's resources would be safer.

Unbelievably, a bill is being put before us on the floor of the House that has provisions to make life easier for the companies responsible for such monumental destruction and fewer provisions to decrease the likelihood of another *Exxon Valdez* in the future.

H.R. 1465 says no vessel or facility can handle, store, or transport oil without preparing a contingency plan which "has not been rejected" by the President. How's that for a double negative? "Has not been rejected." Passive approval. Approval without approval—especially without approval. Under this bill as proposed, if Federal experts charged with representing the public interest and protecting the public interest never look at the plans, they're approved. And unqualified plans will undoubtedly be approved. Automatically and without fingerprints. Plans covering every nook and cranny, city and town in America. We're not talking just about the special, beautiful, and biologically diverse Prince William Sound. We're talking about the Chesapeake, the gulf, Puget Sound, Lake Superior, Huron, Michigan, Erie, and Ontario, the Mississippi, Missouri, Ohio, Colorado, Delaware, Columbia, Hudson Rivers, San Francisco, Long Island, Baltimore, Miami, Houston, Los Angeles, Chicago, Detroit, and District of Columbia and everyone and everything in between. We're talking about your district, your constituents and oilspill contingency plans protecting your district, your businesses, your citizens and their livelihoods and their lives.

They have the right to have these very sensitive, these basic contingency plans be worth more than the unrecycled paper they're printed on. Contingency plans for oilspills should be real, rational, workable. And the Government experts should have to sign off on them before they are approved. Not automatic approval with the operator carrying oil until someone in the Government says maybe not.

This is like the USDA saying to the American consumer "all new meat on the market is Grade A until it has been 'disapproved'; it takes too much time, money, and effort to inspect it so let's pretend it's all just fine."

When the Alaska oil pipeline was first built 15 years ago, Exxon dismissed warnings of the dangers of an oilspill with similar reassuring coos of good faith. This kind of spill just couldn't happen they told us, and if it did, Exxon had just the right contingency plan to deal with it.

Unfortunately, when the *Valdez* cracked open and dumped 72 million pounds of crude oil directly into one of the most biologically diverse and fragile ecosystems in this hemisphere, Exxon had no oilspill specialists on hand. It had fired every single one of them as a profit-boosting measure. And their vaunted emergency contingency cleanup plan consisted of one old broken down barge that was in the dry docks and a bunch of oil executives who couldn't find their behind with a Cray Supercomputer.

We should learn from history—a paper plan, without benefit of serious independent review, without standards and public review, did not protect Alaska or Alaskans. Maybe this was "government off our backs." Maybe it was just a double negative: "No good plan? No problem!" But it did not protect America. We cannot allow this to happen again. My amendment will strengthen the current provision in the bill by substituting the word "approve" for "has not been rejected"—requiring an active review of plans by Federal experts.

Requiring contingency plans, but not requiring review and approval by public experts, is baloney. I say: Either

the plans stand the test of review and approval or don't even bother, don't pretend, don't insult the public's intelligence.

This amendment further clearly and emphatically states that approval of a contingency plan in no way exonerates the polluter from any liability.

There are those who claim that the Coast Guard doesn't have the resources to approve all these plans. I can understand this concern. I say give them the resources but logic tells us that if they don't have the resources to approve, don't call it a review and create a sham oilspill contingency plan system that has thousands of plans that "have not been rejected." If they don't have the resources to approve, then they don't have the resources to do a review that means anything. And if they can't do a serious review, we don't belong in business as the Government of the United States of America.

The saddest part of the *Valdez* story is that the extent of the damage to the pristine Alaska waters, wildlife, and shores could have and would have been minimal if a proper contingency plan had been drawn, approved, and enforced. Had Exxon been required to submit a contingency plan appropriate with the magnitude and ramifications of a possible spill, triggering an expert approval process, Exxon and Alyeska could have prevented a large part of the mess that is now left behind. And their stockholders would be a couple billion dollars richer.

Prevention is the best cure. I say no more *Exxon Valdez*'s. And you can say no more *Exxon Valdez's*—in your district or State by voting for my amendment.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. SIKORSKI. Mr. Chairman, I yield to the gentleman from Louisiana [Mr. TAUZIN].

Mr. TAUZIN. Mr. Chairman, I want to commend the gentleman for a number of things. First of all, for his efforts at improving this section of the bill regarding contingency planning, and to make sure, in fact, that it is a meaningful section. That contingency planning does, in fact, take place.

Second, for accommodating several of the concerns of the Coast Guard that our committee had. One, that there was not going to be liability on the part of the Coast Guard and the U.S. Government if, in fact, by approving some plan that may have had a defect in it, we may have later found ourselves in court over that issue, particularly since there may be as many as 11,000 or so plans submitted; second, for ensuring that there is an extra year in the process to get these plans approved.

Again, I want to thank the gentleman for his cooperation with Members in those concerns. I urge support for the amendment.

Mr. SIKORSKI. Mr. Chairman, I thank the gentleman and his staff for their cooperation.

Mr. NOWAK. Mr. Chairman, I move to strike the last word and rise in support of this amendment. The approval process that is called for, I think, will strengthen and result in really the creation of quality plans as they are submitted. We urge the adoption of this amendment.

Mr. ANDERSON. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of this amendment.

Mr. Chairman, I am pleased to support the gentleman's amendment. The amendment offered by the gentleman from Minnesota would require affirmative approval of contingency plans by the President for the contingency plans to be considered sufficient for a vessel or facility to be in compliance with the requirements of the bill and therefore able to handle, store, or transport oil. As now written, the bill merely prohibits a vessel or facility from handling, storing, or transporting oil without a contingency plan which has not been rejected. I believe that it is appropriate for the President to be required to affirmatively approve these contingency plans.

I support the gentleman's amendment.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Minnesota [Mr. SIKORSKI].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. CARDIN

Mr. CARDIN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CARDIN: Page 80, after line 22, insert the following new sections:

SEC. 4110. PERIODIC GAUGING OF PLATING THICKNESS OF COMMERCIAL VESSELS.

Not later than 1 year after the date of the enactment of this Act, the Secretary shall issue regulations—

(1) establishing minimum standards for the plating thickness of vessels transporting oil in bulk or commercial quantities, and

(2) requiring periodic gauging of the plating thickness of all vessels over 30 years old which are used to transport oil in bulk or commercial quantities upon the navigable waters or the waters of the exclusive economic zone.

SEC. 4111. OVERFILL AND TANK LEVEL OR PRESSURE MONITORING DEVICES.

(a) STANDARDS.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall establish, by regulation, minimum standards for devices for warning persons of overfills and tank levels of oil in cargo tanks and devices for monitoring the pressure of oil cargo tanks.

(b) USE.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall issue regulations establishing requirements concerning the use of—

(1) overfill devices, and

(2) tank level or pressure monitoring devices, which are referred to in subsection (a) and which meet the standards established by the Secretary under subsection (a), on vessels transporting oil in bulk or commercial quantities upon the navigable waters and the waters of the exclusive economic zone.

Redesignate subsequent sections and conform the table of contents of the bill accordingly.

Mr. CARDIN (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. CARDIN. Mr. Chairman, let me point out this amendment is slightly different than the amendment that was noted earlier this week.

After consultation, particularly with the Committee on Merchant Marine and Fisheries, I have changed the amendment so that the study that was in the bill as it came out of the Committee on Rules in regard to gauging of plate thickness, and the overfill and tank vessel monitoring devices will remain in the bill, and that my amendment then adds the requirement for periodic gauging and the using of overfill and tank level monitoring.

Mr. Chairman, I want to compliment the leadership of both the Committee on Merchant Marine and Fisheries and the Committee on Public Works and Transportation for bringing this bill forward. It is an extremely important bill for the environment of this Nation. This bill speaks to prevention, response, liability, and compensation.

My amendment deals with prevention. I might point out that this amendment was approved by the Committee on Public Works and Transportation, and I thank the gentleman from New York [Mr. NOWAK] for the work that he did in our committee in bringing this bill forward in the form from our committee.

The amendment that I offer adds two new standards. First, the gauging of hull thickness on oil-carrying vessels. The Coast Guard, during its regular vessel inspection, for vessels 30 years of age or older, would check for the hull thickness. The second substantive provision in my amendment would deal with cargo level monitoring and alarms, so that tanks and tankers and barges carrying oil would have a monitoring device similar to the monitoring device that we have in our automobiles to warn a crew when, in fact, there is oil that is leaking. In August of 1988 a barge that was over 30 years old in the Chesapeake Bay in light seas broke up. That vessel broke 2 weeks after it had been inspected by the Coast Guard. Two hundred thousand gallons of diesel oil mixed with

gasoline polluted our waters. If we would have had the gauging of hull thickness at that time, we could have avoided or perhaps prevented that oilspill. The Coast Guard regional office in Norfolk recommended such requirements, and the Committee on Public Works and Transportation, as I pointed out, has approved this particular amendment.

I urge my colleagues, in an effort to complement this bill, to make it a strong bill, to include the amendment. I urge its adoption.

Mr. Chairman, I yield to the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Chairman, I rise in support of the gentleman's amendment. The gentleman's amendment is similar to provisions which were included in the oilspill bill as reported by the Committee on Public Works and Transportation. His amendments would establish certain minimum tank vessel plating requirements and would require that gauges or other devices be put on to tanks to indicate the level of the product being carried in the tank. This would aid in preventing overfill spills and also aid in leak detection. I believe that the amendment is a fine addition to the bill and is consistent with our committee's primary interest in the prevention of oilspills before they occur.

I am pleased to support the gentleman's amendment.

□ 1440

MR. HAMMERSCHMIDT. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise today in support of the amendment of the gentleman from Maryland [Mr. CARDIN].

When the Committee on Public Works and Transportation reported out H.R. 1465 in August, we included in our bill specific sections incorporating the substance of this amendment.

It is my understanding that this amendment would require the Secretary of Transportation to establish minimum standards for hull thickness of vessels transporting oil, including periodic gauging of hull thickness on older vessels, and to establish minimum standards for cargo level monitors and alarms on tank vessels and barges.

Further, the amendment would require that the Secretary promulgate regulations concerning the use of level monitoring devices and alarms. Use of these devices would not necessarily be required for all vessels transporting oil in bulk as cargo, as would have been the case under language originally proposed by the gentleman during our committee markup of the bill.

Mr. Chairman, might I inquire, do I have a correct understanding of the gentleman's amendment?

Mr. CARDIN. Mr. Chairman, if the gentleman would yield?

Mr. HAMMERSCHMIDT. I yield to the gentleman from Maryland.

Mr. CARDIN. Mr. Chairman, that is a correct understanding.

Mr. HAMMERSCHMIDT. With that understanding, I have no objection to this amendment being included in the bill, and I congratulate the gentleman from Maryland [Mr. CARDIN] for offering it.

Mr. DAVIS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to say that I am going to support this amendment. It really is a Merchant Marine and Fisheries issue, not a public works issue, because we are asking the Coast Guard to conduct this study. We are asking the Secretary of Transportation to implement these rules. So this really is a Coast Guard-merchant marine issue.

I do have some concerns about it. I am going to support the amendment, but I think we have to be concerned with the way the amendment reads, where it says, "Not later than 1 year after the date of the enactment of this act, the Secretary shall issue regulations." In other words, what if the study says if it not a good idea?

The way this is worded, it says after the study is done, whether it is a good idea or a bad idea, we want to go ahead with it. I think it is probably going to be determined if it is a good idea Members should be able to work it out. I just want to call attention to the Members that do have a little bit of concern that there are a couple of other concerns that I think we have with this amendment.

I think the basic principle of the gentleman from Maryland sounds like a good idea, but I want the Members to be aware that we need to further consider that, perhaps in conference committee. But I do support the amendment.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Maryland [Mr. CARDIN].

The amendment was agreed to.

Mr. JONES of North Carolina. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore (Mr. GEPHARDT) having assumed the chair, Mr. LANCASTER, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes had come to no resolution thereon.

TEMPORARY REDUCTION IN CAPITAL GAINS TAX

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3628) to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes, and I ask unanimous consent that a second not be required.

The SPEAKER pro tempore. The Clerk will read.

The Clerk read as follows:

H.R. 3628

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; REFERENCE IN TEXT.

(a) SHORT TITLE.—This Act may be cited as the "Temporary Capital Gains Tax Reduction Act of 1989".

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

TITLE I—TEMPORARY REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS

SEC. 101. TEMPORARY REDUCTION IN CAPITAL GAINS TAX.

(a) GENERAL RULE.—Part I of subchapter P of chapter 1 (relating to treatment of capital gains) is amended by adding at the end thereof the following new section:

"SEC. 1202. TEMPORARY REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS.

"(a) DEDUCTION ALLOWED FOR 30 PERCENT OF CAPITAL GAIN.—

"(1) IN GENERAL.—If, for any taxable year which includes any portion of the temporary rate reduction period, a taxpayer other than a corporation has a qualified net capital gain, an amount equal to 30 percent of the qualified net capital gain shall be allowed as a deduction. Such deduction shall be allowable in computing adjusted gross income.

"(2) ESTATES AND TRUSTS.—In the case of an estate or trust, the deduction under paragraph (1) shall be computed by excluding the portion (if any) of the gains for the taxable year from sales or exchanges of capital assets which, under sections 652 and 662 (relating to inclusions of amounts in gross income of beneficiaries of trusts), is including by the income beneficiaries as gain derived from the sale or exchange of capital assets.

"(b) COORDINATION WITH SECTION 1(g).—In the case of any taxable year which includes any portion of the temporary rate reduction period, for purposes of section 1(g)(1)(A), the amount allowed as a deduction under subsection (a) shall be applied against (and operate to reduce) the amount of the qualified net capital gain as determined for purposes of section 1(g)(1)(A).

"(c) DEDUCTION NOT ALLOWED FOR PURPOSES OF MINIMUM TAX.—The deduction under subsection (a) shall not be allowed in determining alternative minimum taxable income.

"(d) QUALIFIED NET CAPITAL GAIN.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified net capital gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined—

"(i) by taking into account only gain or loss from sales or exchanges occurring during the temporary rate reduction period, and

"(ii) by not taking into account any gain or loss from the sale or exchange of any collectible.

"(2) SPECIAL RULES FOR PASS-THRU ENTITIES.—

"(A) IN GENERAL.—In applying paragraph (1) with respect to any pass-thru entity, the determination of when a sale or exchange has occurred shall be made at the entity level.

"(B) PASS-THRU ENTITY DEFINED.—For purposes of subparagraph (A), the term 'pass-thru entity' means—

"(i) a regulated investment company,

"(ii) a real estate investment trust,

"(iii) an S corporation,

"(iv) a partnership,

"(v) an estate or trust, and

"(vi) a common trust fund.

"(3) COLLECTIBLE.—For purposes of this section, the term 'collectible' has the meaning given to such term by section 408(m)(2) without regard to section 408(m)(3).

"(e) TEMPORARY RATE REDUCTION PERIOD.—For purposes of this section, the term 'temporary rate reduction period' means the period beginning on September 14, 1989, and ending on December 31, 1991.

"(f) MODIFICATIONS TO OTHER PROVISIONS—

"(1) For purposes of section 163(d), the deduction allowable under this section to the extent attributable to gain from dispositions of property held for investment shall be applied against (and operate to reduce) the net gain referred to in section 163(d)(4)(B)(ii).

"(2) In the case of any charitable contribution (other than of a collectible) by a person other than a corporation during the temporary rate reduction period, section 170(e)(1)(B) shall be applied by substituting '70 percent of the amount of gain' for 'the amount of gain'.

"(3) The deduction allowed under this section shall not be taken into account in determining the net operating loss under section 172 for any taxable year.

"(4) To the extent that the amount otherwise allowable as a deduction under section 642(c) consists of any gain taken into account in determining the qualified net capital gain, proper adjustment shall be made for any deduction allowable to the trust or estate under this section.

"(5) The deduction allowed under this section shall not be taken into account for purposes of section 643(a).

"(6) For purposes of this section, the rules of section 691(c)(4) shall apply.

"(7) The amount subject to tax under section 871(a)(2) shall be determined without regard to the deduction allowed under this section.

"(8) The deduction allowed under this section shall not be taken into account in determining the net earnings from self-employment of any options dealer (as defined in section 1402(i)) or commodities dealer (as so defined).

"(9) In the case of a withdrawal during the temporary rate reduction period, section 7518(g)(6)(A), and section 607(h)(6) of the Merchant Marine Act, 1936, shall each be applied by substituting '19.6 percent' for '28 percent'."

(b) CLERICAL AMENDMENT.—The table of sections for part I of subchapter P of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 1202. Temporary reduction in capital gains tax for noncorporate taxpayers."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending on or after September 14, 1989.

SEC. 102. NET CAPITAL GAIN NOT TAKEN INTO ACCOUNT UNDER PHASE OUT OF 15-PERCENT RATE AND PERSONAL EXEMPTIONS.

(a) GENERAL RULE.—Subparagraph (A) of section 1(g)(1) is amended to read as follows:

"(A) taxable income reduced by the qualified net capital gain, over".

(b) QUALIFIED NET CAPITAL GAIN.—Subsection (g) of section 1 is amended by adding at the end thereof the following new paragraph:

"(5) QUALIFIED NET CAPITAL GAIN.—The term 'qualified net capital gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined—

"(i) by taking into account only gain or loss from sales or exchanges on or after September 14, 1989, and

"(ii) by not taking into account any gain or loss from the sale or exchange of any collectible (as defined in section 408(m)(2) without regard to section 408(m)(3)).

For purposes of the preceding sentence the rules of section 1202(d)(2) shall apply."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending on or after September 14, 1989.

SEC. 103. RECAPTURE UNDER SECTION 1250 OF TOTAL AMOUNT OF DEPRECIATION.

(a) GENERAL RULE.—Subsections (a) and (b) of section 1250 (relating to gain from disposition of certain depreciable realty) are amended to read as follows:

"(a) GENERAL RULE.—Except as otherwise provided in this section, if section 1250 property is disposed of, the lesser of—

"(1) the depreciation adjustments in respect of such property, or

"(2) the excess of—

"(A) the amount realized (or, in the case of a disposition other than a sale, exchange, or involuntary conversion, the fair market value of such property), over

"(B) the adjusted basis of such property,

shall be treated as gain which is ordinary income. Such gain shall be recognized notwithstanding any other provision of this subtitle.

"(b) DEPRECIATION ADJUSTMENTS.—For purposes of this section, the term 'depreciation adjustments' means, in respect of any property, all adjustments attributable to periods after December 31, 1963, reflected in the adjusted basis of such property on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for exhaustion, wear and tear, obsolescence, or amortization (other than amortization under section 168 (as in effect before its repeal by the Tax Reform Act of 1976), 169, 185 (as in effect before its repeal by the Tax Reform Act of 1986), 188, 190, or 193). For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed as a deduction for any period was less than the amount allowable, the amount taken into account for such period shall be the amount allowed."

(b) LIMITATION IN CASE OF INSTALLMENT SALES.—Subsection (i) of section 453 is amended—

(1) by striking "1250" the first place it appears and inserting "1250 (as in effect on the day before the date of the enactment of the Temporary Capital Gains Tax Reduction Act of 1989)", and

(2) by striking "1250" the second place it appears and inserting "1250 (as so in effect)".

(c) CONFORMING AMENDMENTS.—

(1) Subparagraph (E) of section 1250(d)(4) is amended—

(A) by striking "additional depreciation" and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(2) Subparagraph (B) of section 1250(d)(6) is amended to read as follows:

"(B) DEPRECIATION ADJUSTMENTS.—In respect of any property described in subparagraph (A), the amount of the depreciation adjustments attributable to periods before the distribution by the partnership shall be—

"(i) the amount of gain to which subsection (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

"(ii) the amount of such gain to which section 751(b) applied."

(3) Subparagraph (D) of section 1250(d)(8) is amended—

(A) by striking "additional depreciation" each place it appears and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(4) Paragraph (8) of section 1250(d) is amended by striking subparagraphs (E) and (F) and inserting the following:

"(E) ALLOCATION RULES.—For purposes of this paragraph, the amount of gain attributable to the section 1250 property disposed of shall be the net amount realized with respect to such property reduced by the greater of the adjusted basis of the section 1250 property disposed of, or the cost of the section 1250 property acquired, but shall not exceed the gain recognized in the transaction."

(5) Subsection (d) of section 1250 is amended by striking paragraph (10).

(6) Section 1250 is amended by striking subsections (e), (f), and (g) and by redesignating subsections (h) and (i) as subsections (g) and (h), respectively.

(7) Paragraph (5) of section 48(q) is amended to read as follows:

"(5) RECAPTURE OF REDUCTION.—For purposes of sections 1245 and 1250, any reduction under this subsection shall be treated as a deduction allowed for depreciation."

(8) Clause (i) of section 267(e)(5)(D) is amended by striking "section 1250(a)(1)(B)" and inserting "section 1250(a)(1)(B) (as in effect on the day before the date of the enactment of the Temporary Capital Gains Tax Reduction Act of 1989)".

(9)(A) Subsection (a) of section 291 is amended by striking paragraph (1) and redesignating paragraphs (2), (3), (4), and (5) as paragraphs (1), (2), (3), and (4), respectively.

(B) Subsection (c) of section 291 is amended to read as follows:

"(c) SPECIAL ROLE FOR POLLUTION CONTROL FACILITIES.—Section 168 shall apply with respect to that portion of the basis of any

property not taken into account under section 169 by reason of subsection (a)(4)."

(C) Section 291 is amended by striking subsection (d) and redesignating subsection (e) as subsection (d).

(D) Subparagraph (A) of section 265(b)(3) is amended by striking "291(e)(1)(B)" and inserting "291(d)(1)(B)".

(E) Subsection (c) of section 1277 is amended by striking "291(e)(1)(B)(ii)" and inserting "291(d)(1)(B)(ii)".

(10) Subsection (d) of section 1017 is amended to read as follows:

"(d) RECAPTURE OF DEDUCTIONS.—For purposes of sections 1245 and 1250—

"(1) any property the basis of which is reduced under this section and which is neither section 1245 property nor section 1250 property shall be treated as section 1245 property, and

"(2) any reduction under this section shall be treated as a deduction allowed for depreciation."

(11) Paragraph (5) of section 7701(e) is amended by striking "(relating to low-income housing)" and inserting "(as in effect on the day before the date of the enactment of the Temporary Capital Gains Tax Reduction Act of 1989)".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to dispositions on or after September 14, 1989, in taxable years ending after such date.

TITLE II—INDEXING OF CERTAIN ASSETS ACQUIRED AFTER 1991 FOR PURPOSES OF DETERMINING GAIN

SEC. 201. INDEXING OF CERTAIN ASSETS ACQUIRED AFTER 1991 FOR PURPOSES OF DETERMINING GAIN.

(a) IN GENERAL.—Part II of subchapter O of chapter 1 (relating to basis rules of general application) is amended by inserting after section 1021 the following new section:

"SEC. 1022. INDEXING OF CERTAIN ASSETS ACQUIRED AFTER 1991 FOR PURPOSES OF DETERMINING GAIN.

"(a) GENERAL RULE.—

"(1) INDEXED BASIS SUBSTITUTED FOR ADJUSTED BASIS.—Solely for purposes of determining gain on the sale or other disposition by an individual of an indexed asset which has been held for more than 1 year, the indexed basis of the asset shall be substituted for its adjusted basis.

"(2) SPECIAL RULE FOR RECAPTURE GAIN.—

"(A) IN GENERAL.—Paragraph (1) shall not apply for purposes of determining the amount of recapture gain on the sale or other disposition of an indexed asset, but the amount of any such recapture gain shall increase the adjusted basis of the asset for purposes of applying paragraph (1) to determine the amount of other gain on such sale or other disposition.

"(B) RECAPTURE GAIN.—For purposes of subparagraph (A), the term 'recapture gain' means any gain treated as ordinary income under section 1245, 1250, or 1254.

"(b) INDEXED ASSET.—

"(1) IN GENERAL.—For purposes of this section, the term 'indexed asset' means—

"(A) any stock in a corporation, and

"(B) any tangible property (or any interest therein),

which is a capital asset or property used in the trade or business (as defined in section 1231(b)) and the holding period of which begins after December 31, 1991.

"(2) CERTAIN PROPERTY EXCLUDED.—For purposes of this section, the term 'indexed asset' does not include—

"(A) CREDITOR'S INTEREST.—Any interest in property which is in the nature of a creditor's interest.

"(B) COLLECTIBLES.—Any collectible (as defined in section 408(m)(2) without regard to section 408(m)(3)).

"(C) OPTIONS.—Any option or other right to acquire an interest in property.

"(D) NET LEASE PROPERTY.—In the case of a lessor, net lease property (within the meaning of subsection (i)(3)).

"(E) CERTAIN PREFERRED STOCK.—Stock which is fixed and preferred as to dividends and does not participate in corporate growth to any significant extent.

"(F) STOCK IN FOREIGN CORPORATIONS.—Stock in a foreign corporation.

"(G) STOCK IN S CORPORATIONS.—Stock in an S corporation.

"(3) EXCEPTION FOR STOCK IN FOREIGN CORPORATION WHICH IS REGULARLY TRADED ON NATIONAL OR REGIONAL EXCHANGE.—Paragraph (2)(F) shall not apply to stock in a foreign corporation the stock of which is listed on the New York Stock Exchange, the American Stock Exchange, or any domestic regional exchange for which quotations are published on a regular basis or is authorized for trading on the national market system operated by the National Association of Securities Dealers other than—

"(A) stock of a foreign investment company (within the meaning of section 1246(b)),

"(B) stock in a passive foreign investment company (as defined in section 1296), and

"(C) stock in a foreign corporation held by a United States person who meets the requirements of section 1248(a)(2).

"(c) INDEXED BASIS.—For purposes of this section—

"(1) INDEXED BASIS.—The indexed basis for any asset is—

"(A) the adjusted basis of the asset, multiplied by

"(B) the applicable inflation ratio.

"(2) APPLICABLE INFLATION RATIO.—The applicable inflation ratio for any asset shall be determined by dividing—

"(A) the CPI for the calendar year preceding the calendar year in which the disposition takes place, by

"(B) the CPI for the calendar year preceding the calendar year in which the taxpayer's holding period for such asset began.

The applicable inflation ratio shall not be taken into account unless it is greater than 1. The applicable inflation ratio for any asset shall be rounded to the nearest one-hundredth.

"(3) CONVENTIONS.—For purposes of paragraph (2), if any asset is disposed of during any calendar year—

"(A) such disposition shall be treated as occurring on the last day of such calendar year, and

"(B) the taxpayer's holding period for such asset shall be treated as beginning in the same calendar year as would be determined for an asset actually disposed of on such last day with a holding period of the same length as the actual holding period of the asset involved.

"(4) CPI.—For purposes of this subsection, the CPI for any calendar year shall be determined under section 1(f)(4).

"(d) SHORT SALES.—

"(1) IN GENERAL.—In the case of a short sale of an indexed asset with a short sale period in excess of 1 year, for purposes of this title, the amount realized shall be an amount equal to the amount realized (determined without regard to this paragraph) multiplied by the applicable inflation ratio. In applying subsection (c)(2) for purposes of the preceding sentence, the date on which the property is sold short shall be treated as the date on which the holding period for the asset begins and the closing date for the sale shall be treated as the date of disposition.

"(2) SHORT SALE OF SUBSTANTIALLY IDENTICAL PROPERTY.—If the taxpayer of the taxpayer's spouse sells short property substantially identical to an asset held by the taxpayer, the asset held by the taxpayer and the substantially identical property shall not be treated as indexed assets for the short sale period.

"(3) SHORT SALE PERIOD.—For purposes of this subsection, the short sale period begins on the day after property is sold and ends on the closing date for the sale.

"(e) TREATMENT OF REGULATED INVESTMENT COMPANIES AND REAL ESTATE INVESTMENT TRUSTS.—

"(1) ADJUSTMENTS AT ENTITY LEVEL.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the adjustment under subsection (a) shall be allowed to any qualified investment entity (including for purposes of determining the earnings and profits of such entity).

"(B) EXCEPTION FOR CORPORATE SHAREHOLDERS.—Under regulations—

"(i) in the case of a distribution by a qualified investment entity (directly or indirectly) to a corporation—

"(I) the determination of whether such distribution is a dividend shall be made without regard to this section, and

"(II) the amount treated as gain by reason of the receipt of any capital gain dividend shall be increased by the percentage by which the entity's net capital gain for the taxable year determined without regard to this section exceeds the entity's net capital gain for such year determined with regard to this section, and

"(ii) there shall be other appropriate adjustments (including deemed distributions) so as to ensure that the benefits of this section are not allowed (directly or indirectly) to corporate shareholders of qualified investment entities.

For purposes of the preceding sentence, any amount includible in gross income under section 852(b)(3)(D) shall be treated as a capital gain dividend and an S corporation shall not be treated as a corporation.

"(C) EXCEPTION FOR QUALIFICATION PURPOSES.—This section shall not apply for purposes of sections 851(b) and 856(c).

"(D) EXCEPTION FOR CERTAIN TAXES IMPOSED AT ENTITY LEVEL.—

"(i) TAX ON FAILURE TO DISTRIBUTE ENTIRE GAIN.—If any amount is subject to tax under section 852(b)(3)(A) for any taxable year, the amount on which tax is imposed under such section shall be increased by the percentage determined under subparagraph (B)(i)(II). A similar rule shall apply in the case of any amount subject to tax under paragraph (2) or (3) of section 857(b) to the extent attributable to the excess of the net capital gain over the deduction for dividends paid determined with reference to capital gain dividends only. The first sentence of this clause shall not apply to so much of the amount subject to tax under section 852(b)(3)(A) as is designated by the company under section 852(b)(3)(D).

"(ii) OTHER TAXES.—This section shall not apply for purposes of determining the amount of any tax imposed by paragraph (4), (5), or (6) of section 857(b).

"(2) ADJUSTMENTS TO INTERESTS HELD IN ENTITY.—

"(A) IN GENERAL.—Stock in a qualified investment entity shall be an indexed asset for any calendar month in the same ratio as

the fair market value of the assets held by such entity at the close of such month which are indexed assets bears to the fair market value of all assets of such entity at the close of such month.

"(B) RATIO OF 90 PERCENT OR MORE.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 90 percent or more, such ratio for such month shall be 100 percent.

"(C) RATIO OF 10 PERCENT OR LESS.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 10 percent or less, such ratio for such month shall be zero.

"(D) VALUATION OF ASSETS IN CASE OF REAL ESTATE INVESTMENT TRUSTS.—Nothing in this paragraph shall require a real estate investment trust to value its assets more frequently than once each 36 months (except where such trust ceases to exist). The ratio under subparagraph (A) for any calendar month for which there is no valuation shall be the trustee's good faith judgment as to such valuation.

"(3) QUALIFIED INVESTMENT ENTITY.—For purposes of this subsection, the term 'qualified investment entity' means—

"(A) a regulated investment company (within the meaning of section 851), and

"(B) a real estate investment trust (within the meaning of section 856).

"(f) OTHER PASS-THRU ENTITIES.—

"(1) PARTNERSHIPS.—

"(A) IN GENERAL.—In the case of a partnership, the adjustment made under subsection (a) at the partnership level shall be passed through to the partner (but only for purposes of determining the income of partners who are individuals).

"(B) SPECIAL RULE IN THE CASE OF SECTION 754 ELECTIONS.—In the case of a transfer of an interest in a partnership with respect to which the election provided in section 754 is in effect—

"(i) the adjustment under section 743(b)(1) shall, with respect to the transferor partner, be treated as a sale of the partnership assets for purposes of applying this section, and

"(ii) with respect to the transferee partner, the partnership's holding period for purposes of this section in such assets shall be treated as a beginning on the date of such adjustment.

"(2) S CORPORATIONS.—In the case of an S corporation, the adjustment made under subsection (a) at the corporate level shall be passed through to the shareholders. This section shall not apply for purposes of determining the amount of any tax imposed by section 1374 or 1375.

"(3) COMMON TRUST FUNDS.—In the case of a common trust fund, the adjustment made under subsection (a) at the trust level shall be passed through to the participants (but only for purposes of determining the income of participants who are individuals).

"(g) DISPOSITIONS BETWEEN RELATED PERSONS.—This section shall not apply to any sale or other disposition of property between related persons (within the meaning of section 465(b)(3)(C)) if such property, in the hands of the transferee, is of a character subject to the allowance for depreciation provided in section 167.

"(h) TRANSFERS TO INCREASE INDEXING ADJUSTMENT.—If any person transfers cash, debt, or any other property to another person and the principal purpose of such transfer is to secure or increase an adjustment under subsection (a), the Secretary may disallow part or all of such adjustment or increase.

"(i) SPECIAL RULES.—For purposes of this section—

"(1) TREATMENT AS SEPARATE ASSET.—In the case of any asset, the following shall be treated as a separate asset:

"(A) A substantial improvement to property.

"(B) In the case of stock of a corporation, a substantial contribution to capital.

"(C) Any other portion of an asset to the extent that separate treatment of such portion is appropriate to carry out the purpose of this section.

"(2) ASSETS WHICH ARE NOT INDEXED ASSETS THROUGHOUT HOLDING PERIOD.—The applicable inflation ratio shall be appropriately reduced for periods during which the asset was not an indexed asset.

"(3) NET LEASE PROPERTY DEFINED.—The term 'net lease property' means leased property where—

"(A) the term of the lease (taking into account options to renew) was 50 percent or more of the useful life of the property, and

"(B) for the period of the lease, the sum of the deductions with respect to such property which are allowable to the lessor solely by reason of section 162 (other than rents and reimbursed amounts with respect to such property) is 15 percent or less of the rental income produced by such property.

"(j) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this section.".

(b) GAINS AND LOSSES FROM INDEXED ASSETS NOT TAKEN INTO ACCOUNT UNDER LIMITATION ON INVESTMENT INTEREST.—Subparagraph (B) of section 163(d)(4) (defining investment income) is amended by adding at the end thereof the following new sentences:

"Gain from the sale or other disposition of an indexed asset (as defined in section 1022) held for more than 1 year shall not be taken into account for purposes of the preceding sentence. The preceding sentence shall not apply to gain from the sale or other disposition of any such asset if the taxpayer elects to waive the benefits of section 1022 in determining the amount of such gain."

(c) REPEAL OF SECTION 1(j).—

(1) IN GENERAL.—Subsection (j) of section 1 is hereby repealed.

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (4) of section 694(c) is amended by striking "1(j), 1201, and 1211" and inserting "1201, and 1211".

(B)(i) Subparagraph (B) of section 904(b)(2) is amended by striking so much of such subparagraph as precedes clause (i) and inserting the following:

"(B) SPECIAL RULE WHERE CORPORATE CAPITAL GAIN RATE DIFFERENTIAL.—In the case of a corporation for any taxable year for which there is a capital gain rate differential—".

(ii) Subparagraph (D) of section 904(b)(3) is amended to read as follows:

"(D) CAPITAL GAIN RATE DIFFERENTIAL.—There is a capital gain rate differential for any taxable year in the case of a corporation if any rate of tax imposed by section 11, 511, or 831(a) or (b) (whichever applies) exceeds the alternative rate of tax under section 1201(a) (determined without regard to the last sentence of section 11(b)(1).".

(iii) Subparagraph (E) of section 904(b)(3) is amended by striking clauses (iii) and (iii) and inserting the following:

"(ii) HIGHEST APPLICABLE TAX RATE.—For purposes of clause (i), the term 'highest applicable tax rate' means the highest rate of tax specified in section 11(b).

"(iii) ALTERNATIVE TAX RATE.—For purposes of clause (i), the term 'alternative tax rate' means the alternative rate of tax under section 1201(a)."

(C)(i) The last sentence of subparagraph (A) of section 7518(h)(6) is amended to read as follows: "With respect to the portion of any nonqualified withdrawal made out of the capital gain account by a corporation during the taxable year to which section 1201(b) applies, the rate of tax taken into account under the preceding sentence shall not exceed 34 percent."

(ii) The last sentence of subparagraph (A) of section 607(h)(6) of the Merchant Marine Act, 1936, is amended to read as follows: "With respect to the portion of any nonqualified withdrawal made out of the capital gain account by a corporation during the taxable year to which section 1201(a) of such Code applies, the rate of tax taken into account under the preceding sentence shall not exceed 34 percent."

(d) CLERICAL AMENDMENT.—The table of sections for part II of subchapter O of chapter 1 is amended by inserting after the item relating to section 1021 the following new item:

"Sec. 1022. Indexing of certain assets acquired after 1991 for puposes of determining gain."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to dispositions of any property the holding period of which begins after December 31, 1991.

(2) EXCEPTION FOR CERTAIN TRANSACTIONS BETWEEN RELATED PERSONS.—The amendments made by subsections (a) and (b) shall not apply to any property acquired after December 31, 1991, from a related person (as defined in section 465(b)(3)(C) of the Internal Revenue Code of 1986) if—

(A) such property was so acquired for a price less than the property's fair market value, and

(B) the amendments made by this section did not apply to such property in the hands of such related person.

(3) SUBSECTION (c).—The amendments made by subsection (c) shall apply to taxable years beginning after December 31, 1991.

TITLE III—TREATMENT OF CERTAIN TIMBER ACTIVITIES UNDER PASSIVE LOSS RULES

SEC. 301. TREATMENT OF CERTAIN TIMBER ACTIVITIES UNDER PASSIVE LOSS RULES.

(a) GENERAL RULE.—Subsection (c) of section 469 (defining passive activity) is amended by redesignating paragraphs (4), (5), and (6), as paragraphs (5), (6), and (7), respectively, and by inserting after paragraph (3) the following new paragraph:

"(4) CERTAIN INTERESTS IN TIMBER PROPERTY.—

"(A) IN GENERAL.—The term 'passive activity' shall not include any interest in qualified timber property (as defined in section 194(c)(1) held by a natural person directly or through an entity which does not limit the liability of such person with respect to such interest.

"(B) INCOME IN SUBSEQUENT YEARS.—If any taxpayer has any loss for any taxable year from an interest in any qualified timber property (as so defined) which is treated as a loss which is not from a passive activity, then any net income from such property (or any other property the basis of which is determined in whole or part by reference to the basis of such property) for any succeed-

ing taxable year shall be treated as income of the taxpayer which is not from a passive activity."

(b) TECHNICAL AMENDMENT.—Paragraph (5) of section 469(c) (as redesignated by subsectin (a)) is amended by striking "(2) and (3)" each place it appears and inserting "(2), (3), and (4)".

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 1989.

The SPEAKER pro tempore. Without objection, a second is dispensed with.

There was no objection.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI] for 20 minutes.

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks on the bill under consideration.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill is being considered today as part of an agreement reached by the joint leadership.

H.R. 3628 is identical in every respect to the capital gains tax reduction provisions contained in the budget reconciliation bill as passed by this House on October 4.

The bill reduces the tax on long-term capital gains by providing a deduction of 30 percent of the gain from sales or exchanges occurring from September 14, 1989 to December 31, 1991. Also, the gain would not be subject to the 5-percent tax known as the bubble. This would result in a maximum tax rate of 19.6 percent on capital gains.

After 1991, long-term capital gains would have a maximum tax rate of 28 percent and would be indexed.

In addition, the bill provides that passive activities do not include an interest in certain timber property held by individuals. Consequently, losses from the timber activity could be used to shelter other active income.

Mr. Speaker, I continue to oppose any reduction in the capital gains tax rate. I have stated the reasons for my opposition many times before. This bill is a windfall for the rich. In the first year alone, it hands a $25,000 average tax cut to every household with income over $200,000. It will revive the tax shelter industry effectively wiped out by tax reform. It will do nothing to spur employment, except for high-paid lawyers and accountants peddling tax shelter schemes to convert ordinary income into more favorably taxed capital gains. In 1986, we took away special tax breaks in return for lower rates. That was the basic bargain of tax reform.

Although I personally oppose restoring a capital gains preference I fully respect the will of the House as expressed in our earlier vote on capital gains. I hope that we can pass this bill today, so that we can remove this issue as an impediment to moving forward on budget reconciliation and other important issues.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill, H.R. 3628.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid upon the table.

OIL POLLUTION PREVENTION, RESPONSE, LIABILITY, AND COMPENSATION ACT OF 1989

The SPEAKER pro tempore. Pursuant to House Resolution 227 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 1465.

□ 1446

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, with Mr. LANCASTER (Chairman pro tempore) in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore (Mr. LANCASTER). When the Committee of the Whole rose earlier today, the amendment offered by the gentleman from Maryland [Mr. CARDIN] had been disposed of.

The Chair recognizes the gentleman from Michigan [Mr. DAVIS].

AMENDMENT OFFERED BY MR. DAVIS

Mr. DAVIS. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DAVIS: At the end of subtitle A of title IV, add the following new section:

SEC. . U.S.-CANADA GREAT LAKES OIL SPILL COOPERATION.

(a) REVIEW.—The Secretary of State shall review relevant international agreements and treaties with the Government of Canada, including the Great Lakes Water Quality Agreement, to determine whether amendments or additional international agreements are necessary to—

(1) prevent discharges of oil on the Great Lakes;

(2) ensure an immediate and effective removal of oil on the Great Lakes: and

(3) fully compensate those who have been injured by a discharge of oil on the Great Lakes.

(b) CONSULTATION.—The Secretary of State shall consult with the Department of Transportation, the Environmental Protection Agency, the Great Lakes States, the International Joint Commission, and other appropriate agencies.

(c) REPORT.—The Secretary of State shall submit a report to Congress on the result of this review within six months of the date of enactment of this Act.

Mr. DAVIS. Mr. Chairman, although the Oil Pollution Act is a national bill, the Great Lakes are especially in need of protection from oilspills, because they serve as drinking water for 30 million United States and Canadian citizens. In addition, the Great Lakes do not share the natural flushing action found in tidal waters, and oil will be retained in the lakes for much longer periods.

To increase the protection of the Lakes, my amendment directs the Department of State to review within 6 months the relevant international agreements with the Government of Canada, most importantly the Great Lakes Water Quality Agreement, to determine whether additional efforts are necessary to protect the Great Lakes from oilspills.

I ask your support for my amendment.

Mr. NOWAK. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I yield to the gentleman from New York.

Mr. NOWAK. Mr. Chairman, I rise in strong support of this amendment. The Great Lakes serve as an invaluable resource to our country. Aside from their importance as a transportation route and industrial water supply, they serve the drinking water needs of over 24 million people. Every effort must be taken to assure our agreements with Canada are sufficient to minimize the risk of a spill. This amendment will direct the Secretary of State to review Great Lakes water quality agreements for their adequacy in preventing spills.

I urge my colleagues to join me in supporting this important amendment, and congratulate the gentleman for offering it.

Mr. JONES of North Carolina. Mr. Chairman, I rise in support of the gentleman's amendment, and urge its unanimous adoption.

□ 1450

Mr. ANDERSON. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I am pleased to rise in support of the gentleman's amendment. The amendment would require the Secretary of State to review relevant international agreements and treaties with Canada to determine if changes are necessary for the preven-

tion of discharges of oil in the Great Lakes, to ensure an immediate and effective removal of oil in the Great Lakes, and to fully compensate those who have been injured by the discharge of oil in the Great Lakes. This amendment is similar to a provision which is currently contained in the Senate oilspill bill, and I believe it is a fine addition to the bill as we strive to improve preventive and response measures related to oilspill discharges.

I am pleased to support the gentleman's amendment.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Michigan [Mr. DAVIS].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. SMITH OF VERMONT

Mr. SMITH of Vermont. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SMITH of Vermont: At the end of subtitle A of title IV, add the following new section:

SEC. 17. U.S.-CANADIAN LAKE CHAMPLAIN OIL SPILL COOPERATION.

(a) REVIEW.—The Secretary of State shall review relevant international agreements and treaties with the Government of Canada, to determine whether amendments or additional international agreements are necessary to—

(1) prevent discharges of oil on Lake Champlain;

(2) ensure an immediate and effective removal of oil on Lake Champlain; and

(3) fully compensate those who have been injured by a discharge of oil on Lake Champlain.

(b) CONSULTATION.—The Secretary of State shall consult with the Department of Transportation, the Environmental Protection Agency, the States of Vermont and New York, the International Joint Commission, and other appropriate agencies.

(c) REPORT.—The Secretary of State shall submit a report to Congress on the result of this review within six months of the date of enactment of this Act.

Mr. SMITH of Vermont (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Vermont?

There was no objection.

Mr. SMITH of Vermont. Mr. Chairman, I am offering an amendment to H.R. 1465 today with the cosponsorship of the gentleman from New York [Mr. MARTIN] and the gentleman from New York [Mr. SOLOMON] that will help fulfill the goal of this legislation to protect our national water resources from oilspill damage.

Mr. Chairman, the amendment concerns Lake Champlain, which is bounded by my own State of Vermont to the east, the State of New York to the west and by Canada to the north.

By virtue of its location, Lake Champlain is an international body of water, and while this bill before us will provide Federal assurances of protection against oilspill damage, it has no jurisdiction in Canada. It is therefore critical that we review the relevant agreements between the United States and Canada to ensure that Lake Champlain is protected by both countries in the event of an oilspill.

That is the heart of the amendment that I and my honorable colleague from New York are offering. It has the consent of the majority and minority leadership in the relevant committees, and we appreciate the support from the House.

This amendment is critical given that Lake Champlain is subject to significant oil-carrying barge traffic and could experience lasting and devastating ecological damage should it not be fully protected from oil spillage.

Mr. MARTIN of New York. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Vermont. I yield to the gentleman from New York.

Mr. MARTIN of New York. Mr. Chairman, I just want to rise to commend the gentleman from Vermont [Mr. SMITH], my neighbor and friend, on this legislation, and it has been a privilege for the gentleman from New York [Mr. SOLOMON] and myself to have worked with him on this. It is similar to the amendment offered by the gentleman from Michigan [Mr. DAVIS].

Mr. Chairman, I want to commend my colleague from Vermont for offering this amendment.

Like the Great Lakes, Lake Champlain is an international body of water whose ecological well-being is of the utmost importance to the residents of the United States and Canada, alike. Upward of 50 million gallons of oil products were moved on the lake during 1988. To some this may not seem like an enormous amount of product which could be subject to a spill. Believe me, having personally experienced the consequences of an oilspill in the 1970's along the St. Lawrence River, any spillage is devastating to those who must suffer its damaging effects.

As my colleague stated, the legislation before us has no force of law in Canada. For this reason, it is imperative that we evaluate, and update if necessary, the international agreements currently in effect with our neighbor to the North. We must ensure that both countries have in place the appropriate mechanisms for preventing, responding to, and compensating those who have been injured, as the result of an oil discharge on Lake Champlain.

Mr. ANDERSON. Mr. Chairman, I rise in support of the gentleman's amendment. This amendment would require a review of treaties and agreements with Canada concerning oilspill related issues on Lake Champlain. It would also encourage improvements to oilspill preparedness and response for Lake Champlain. I believe that it is prudent and appropriate for the United States to encourage all efforts to improve the qualities of the waters which we share with our Canadian neighbors.

Mr. DAVIS. Mr. Chairman, I rise to support the amendment of the gentleman from Vermont [Mr. SMITH].

Mr. STANGELAND. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I yield to the gentleman from Minnesota.

Mr. STANGELAND. Mr. Chairman, I have no objection to the amendment of the gentleman from Michigan.

The amendment, as I understand it, would simply require the Secretary of State to review relevant treaties and agreements, such as the Great Lakes Water Quality Agreement, to improve oilspill prevention, response, and compensation.

We need greater cooperation with the Canadians. As neighbors, we must work together to ensure strong oilspill prevention and response measures.

The House Public Works and Transportation Committee, which has jurisdiction over the Clean Water Act, has a keen interest in effective implementation of the Great Lakes Water Quality Agreement and other Great Lakes water quality initiatives.

Accordingly, I have no objection to the amendment and I urge my colleagues to support it.

Mr. DAVIS. Mr. Chairman, I will not prolong this. I just want to say this is a good amendment. I congratulate the gentleman from Vermont [Mr. SMITH]. Anything we can do to have cooperation with Canada and the United States to prevent oilspills and to help in that process I think is an excellent idea, and I commend him for coming up with this amendment.

Mr. SMITH of Vermont. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I yield to the gentleman from Vermont.

Mr. SMITH of Vermont. Mr. Chairman, I would simply like to thank the gentleman from Michigan [Mr. DAVIS], and the gentleman from California [Mr. ANDERSON], and the gentleman from North Carolina [Mr. JONES] for their assistance in this amendment.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Vermont [Mr. SMITH].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. TRAFICANT

Mr. TRAFICANT. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. TRAFICANT: Page 66, line 18, insert the following new subsection after "this section.":

"(i) The Secretary shall establish programs for testing each individual applying for issuance or renewal of a license or certificate of registry under this chapter for use of dangerous drugs."

Page 67, line 3, insert the following new subsection after "that individual.":

"(d) The Secretary shall establish programs for testing each individual applying for issuance or renewal of a merchant mari-

ner's document under this chapter for the use of dangerous drugs."

Page 68, line 19, insert "(1)" after "(c)".

Page 68, after line 25, insert the following new paragraph:

"(2) The Secretary shall establish programs for testing persons holding a license, certificate of registry, or merchant mariner's document for use of alcohol and dangerious drugs. Programs may include periodic, random, reasonable cause, and post accident testing."

Mr. TRAFICANT (during the reading). Mr. Chairman, I ask unanimous consent that my amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. TRAFICANT. Mr. Chairman, my amendment would give the Secretary the authority to test applicants for dangerous drugs and alcohol abuse. The Secretary shall establish a program for testing the individuals applying for a license or certificate of registry for drug abuse. The Secretary would also establish programs for testing persons holding a license, certificate of registry, or merchant mariner's document for use of alcohol and dangerous drugs. Programs may include periodic, random, reasonable cause, and post accident testing.

My amendment would give explicit authority to test for the use of alcohol and dangerous drugs, especially aboard the vessel. Currently, the Coast Guard tests for alcohol after each marine accident and for reasonable cause. This is not enough. However, testing for alcohol use outside the work environment, such as for pre-employment, involves several legal issues since there is no prohibition against alcohol use outside the work environment. But it is lawful and necessary to test individuals while aboard the vessel for use of alcohol and dangerous drugs. While aboard, these individuals are performing very sensitive functions and the consequences are now well known when these functions are not carried out. There are laws, on the other hand, against using dangerous drugs that makes it lawful to test at any time including pre-employment. Again, it is crucial that these individuals are not under the influence of any substance while working.

Drug and alcohol testing is an effective deterrent and I believe it is necessary in such highly delicate positions. The March 24, 1989, *Exxon Valdez* oilspill was the largest spill in U.S. history. The short term effects of this oilspill have included over 10,000 bird and 600 sea otter mortalities. The long term effects of this tragedy on the local environment are yet to be determined, but one can only expect that the damage will be devastating. On board the vessel was a captain who was an alcohol abuser. His dependence contributed to the tragedy that led to the pollution of the Alaskan shores. Alcohol testing could have prevented the disaster.

I am greatly dismayed by the environmental damage that has been done, and I am angered at the thought that the American people will have to pay for this mistake. I believe that there needs to be a method of testing for alcohol and substance abuse to prevent such a disaster from occurring again. Exxon claims that the 1,100 miles of contaminated shoreline is now environmentally stable. Yet if one goes 200-300 miles away from Prince William, he will see that the shoreline is strewn with globs of oil. For example, the Knight Island shoreline was among the last treated in Alaska. Thickly oiled rocks remain as well as the pungent smell of chemical fertilizer recently sprayed on the rocks.

The Exxon oil cleanup has officially ended. The Coast Guard claims Exxon has done less than half the cleanup job it had promised to do. A spokesman has announced that this spring, Exxon plans to send only 20 of the 11,500 cleanup and survey workers presently employed to finish the job. We can help prevent such an atrocity from occurring again by testing for substance and alcohol abuse.

Drug testing cases have already been tested in the Supreme Court. During its current term, the Supreme Court sustained federally mandated drug-testing programs in two cases. The Supreme Court held that mandatory testing in these situations, even without individualized suspicion of drug use, was not an "unreasonable search or seizure" under the fourth amendment. They felt that public safety interests served by the rules outweighed any possible intrusion on privacy rights asserted by the contesting labor unions. The Supreme Court has also held that drug testing does not violate the fifth amendment protections against self-incrimination.

Drug testing has also been implemented in other situations. The National Football League is trying to protect its integrity by testing for steroids. The NFL realizes that employees who abuse drugs and alcohol have lower productivity and are more prone to health problems and injuries. This means millions of dollars in pro football revenues could be lost. Drug testing was upheld by the U.S. District Court when they refused to stop the NFL from testing for steroids and other drugs. The NFL is trying to protect its name; this amendment is protecting the environment. American citizens have the right to a clean environment.

Mr. HAMMERSCHMIDT. Mr. Chairman, will the gentleman yield?

Mr. TRAFICANT. I yield to the gentleman from Arkansas.

Mr. HAMMERSCHMIDT. Mr. Chairman, I support the amendment of the gentleman from Ohio [Mr. TRAFICANT].

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. TRAFICANT. I yield to the gentleman from North Carolina.

Mr. JONES of North Carolina. Mr. Chairman, I rise in support of the amendment of the gentleman from Ohio [Mr. TRAFICANT], and I compliment the gentleman on offering this amendment.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. TRAFICANT. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I rise in support of the amendment of the gentleman from Ohio [Mr. TRAFICANT].

A lot of this, of course, is being done by rules and regulations of the Department of Transportation, but this puts it in law, and I think it is a good idea.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Ohio [Mr. TRAFICANT].

The amendment was agreed to.

AMENDMENTS OFFERED BY MR. STUDDS

Mr. STUDDS. Mr. Chairman, I offer amendments.

The Clerk read as follows:

Amendments offered by Mr. STUDDS: Page 85, after line 15, insert the following new section:

SEC. 4113. TANK VESSEL MANNING.

(a) RULEMAKING.—In order to protect life, property, and the environment, the Secretary of Transportation shall initiate a rulemaking proceeding within 60 days after the date of enactment of this Act to define the conditions under, and designate the waters upon, which tank vessels subject to chapter 91 of title 46, United States Code, may operate in navigable waters of the United States with the auto-pilot engaged or with an unattended engine room.

(b) WATCHES.—Section 8104 of title 46, United States Code, is amended by adding a new subsection (n) as follows:

"(n) On a tank vessel, a licensed individual or seaman may not be permitted to work more than 15 hours in any 24-hour period, or more than 36 hours in any 72-hour period, except in an emergency or a drill. In this subsection, 'work' includes any administrative duties associated with the vessel whether performed on board the vessel or ashore.".

(c) MANNING REQUIREMENT.—Section 8101(a) of title 46, United States Code, is amended as follows:

(1) strike "and" at the end of paragraph (1).

(2) in paragraph (2), strike the period at the end and insert "; and".

(3) add a new paragraph (3) as follows:

"(3) a tank vessel shall consider the navigation, cargo handling, and maintenance functions of that vessel for protection of life, property, and the environment.".

(d) STANDARDS.—Section 9102 (a) of title 46, United States Code, is amended as follows:

(1) strike "and" at the end of paragraph (6).

(2) in paragraph (7), strike the period at the end and insert "; and".

(3) and a new paragraph (8) as follows:

"(8) instruction in vessel maintenance functions.".

(e) RECORD.—Section 7502 of title 46, United States Code, is amended by striking "maintain records" and insert "maintain computerized records".

Page 3, amend the table of contents by adding at the end of substitute A of title IV the following:

"Sec. 4113. Tank Vessel Manning.".

Mr. STUDDS (during the reading). Mr. Chairman, I ask unanimous consent that my amendments be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. STUDDS. Mr. Chairman, I offer this amendment jointly with Mr. DAVIS of Michigan, the ranking minority member of the Committee on Merchant Marine and Fisheries.

The purpose of the amendment is to enhance marine safety by requiring the Secretary of Transportation to designate the areas within which, and the conditions under which, a vessel may be operated on automatic pilot or with an unattended engine room while in U.S. waters.

As Members may recall, the *Exxon Valdez* never would have run aground if the captain had not placed it on automatic pilot while transiting the perilous waters of Prince William Sound. This amendment would require the Secretary to consider whether it ever makes sense, in confined and potentially hazardous waters, to substitute mechanical for human control over the vessel.

The amendment also responds to evidence that personnel fatigue may have played a major contributory role in the *Exxon Valdez* and other marine disasters. Under the amendment, a licensed individual or a seaman on a tanker would not be permitted to work more than 15 hours in one day, nor more than 36 hours in any 72 hour period, except in an emergency or drill. This is very much a commonsense standard; and I doubt that anyone in any part of the shipping industry would disagree with its reasonableness.

Finally, the amendment updates current law by specifying that Coast Guard records on shipping and manning matters should be computerized.

The CHAIRMAN pro tempore. The question is on the amendments offered by the gentleman from Massachusetts [Mr. STUDDS].

The amendments were agreed to.

AMENDMENT OFFERED BY MR. CARPER

Mr. CARPER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CARPER: Page 104, after line 21, insert—

"SEC. 4304. CONSIDERATION OF DISCHARGES.

"In establishing regional strike teams under section 311(c)(2)(C) of the Federal Water Pollution Control Act (33 US.C. 1321(c)(2)(C), the President shall consider the likelihood of a discharge of oil, and the likelihood that a discharge would result in severe economic or environmental damage.".

Mr. CARPER. Mr. Chairman, the amendment I'm offering is not very complicated but I think it's very important to give some direction to the administration in identifying where the seven strike teams establishing under this bill will be located. My amendment simply says that the President shall consider the likelihood of an oil-spill, and the economic and environmental damage resulting from a spill, in determining strike team locations.

The decade of the eighties has brought with it a rash of damaging oilspills throughout our country. Everyone is well aware of the three spills that occurred within a 24-hour period this summer, and the infamous *Exxon Valdez* spill in Prince William Sound. Those spills are not isolated incidents, in fact, in some areas they have become a recurring nightmare.

Wherever ships are carrying oil, there is some degree of risk that an accident could occur. But clearly the risk is greater in some areas than in others. The Delaware River is a good example. In the last 4 years there have been four major spills on the Delaware. Hundreds of thousands of gallons of oil have spilled into the river and onto its banks. I don't know how that stacks up with other major shipping channels that transport oil, but if the Delaware isn't the most spill-prone river in the country, it soon will be.

Why so many spills? For a number of reasons. The seven oil refineries along the Delaware make the river's channel the second busiest for handling petroleum products in the Nation. The river channel is relatively narrow and treacherous in some places even for experienced pilots. River traffic is heavy, not only with oil tankers, but with other ships serving the ports of Philadelphia and Wilmington.

The combination of high volume and significant hazards to navigation increase the likelihood of an accident resulting in a spill, not only on the Delaware, but on other waterways that face similar circumstances. The first half of my amendment specified that the President should consider the likelihood of a spill in deciding where to locate the seven strikes teams established under this bill.

The second half of the amendment requires the President to consider the potential economic and environmental damage that would result from a spill. In each of the four spills along the Delaware River, for example, very sensitive wildlife areas on the New Jersey and Delaware shorelines have been threatened, not to mention numerous homes and businesses. It is essential, I believe, to consider the relative dangers posed by a spill to the environment of an affected area, as well as potential economic losses, in locating strike teams.

Mr. Chairman, the regional strike teams established under this bill will be an important first line of defense to minimize the damage caused by oilspills. We ought to make sure that we position those strike teams where they can do the most good, or better said, where they can prevent the most harm from occuring when the next accident happens in a spill-prone area.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. CARPER. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I rise in support of the amendment of the gentleman from Delaware [Mr. CARPER]. It makes a lot of sense that wherever we put these regional strike teams they ought to be in the area where the environment is most sensitive and also where most of the oil traverses.

Also I want to make a point about there is some language in this legislation relative to the Great Lakes, and it is important because the Great Lakes are entirely different, of course, than the oceans and do not have the ability to be able to wash some of this stuff, and because it is an extremely sensitive area I think this amendment ties in with giving credence to having a strike response team regionally located to protect the Great Lakes area.

Mr. Chairman, I commend the gentleman from Delaware [Mr. CARPER] for his amendment.

Mr. Chairman, this amendment responds to certain problems with tank vessel manning requirements that came to light after the *Exxon Valdez* oilspill. The amendment requires the Secretary of Transportation to determine when and where a tank vessel may operate in U.S. waters under auto-pilot, or with the engine room unmanned. The amendment also establishes reasonable restrictions concerning the hours merchant mariners may be required to work on tank vessels. This amendment will assure that tank vessels will not operate on auto-pilot under unsafe conditions. The amendment will also ensure that fatigue of merchant vessel personnel will not contribute to future tank vessel accidents. In addition, this amendment requires the Coast Guard to computerize records presently maintained on merchant mariners licenses, certificates of registry, and documents. I believe that the Coast Guard can save money by computerizing information to the greatest extent possible, and devote the funds saved to other purposes.

I urge adoption of the amendment.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Delaware [Mr. CARPER].

The amendment was agreed to.

□ 1500

AMENDMENT OFFERED BY MR. GALLO

Mr. GALLO. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. GALLO: Add at the end of subtitle A of title IV of the bill the following:

SEC. 41 . ESTABLISHMENT OF DOUBLE HULL REQUIREMENT FOR TANK VESSELS.

(a) IN GENERAL.—Section 3708 of title 46, United States Code, relating to self-propelled tank vessel minimum standards, is amended—

(1) in the heading by striking "Self-propelled tank vessel" and inserting in lieu thereof "Tank vessel";

(2) by designating the existing text of such section as subsection (b); and

(3) by inserting before subsection (b) (as designated by paragraph (2)) the following:

"(a) A tank vessel of at least 10,000 gross tons shall be equipped with a double hull which satisifes the criteria for a segregated ballast tank set forth in Appendix C to part 157 of title 33, Code of Federal Regulations (as in effect on June 1, 1989).".

(b) CLERICAL AMENDMENT.—The table of sections for chapter 37 of title 46, United States Code, is amended by striking the item relating to section 3708 and inserting in lieu thereof the following:

"3708. Tank vessel minimum standards.".

(c) APPLICATION.—Section 3708(a) of title 46, United States Code, as added by this section, shall apply—

(1) after the date of the enactment of this Act to all tank vessels for which construction is begun after that date of enactment; and

(2) after the date which is 15 years after the date of the enactment of this Act to all other tank vessels.

Amend the table of contents in section 1(b) of the bill by inserting after the item relating to section 41 the following:

"Sec. 41 . Establishment of double hull requirement for tank vessels.".

Mr. GALLO (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. GALLO. Mr. Chairman, I would like to first state that the legislation we are considering today will do a great deal to protect the environment in the event of minor, as well as catastrophic, oilspills. However, it is possible to prevent many spills from occurring in the first place.

In addition to the prevention provisions included in the Merchant Marine and Public Works bill, my amendment would further help to prevent future oilspills by requiring double hulls in all newly constructed tank vessels, meaning tankers and barges, that use U.S. ports.

After a phase-in period of 15 years, all tank vessels, regardless of who owns them or what flag they fly, would be required to have double hulls if they are bringing refined or crude oil, as well as hazardous materials, into a U.S. port.

A double hull provides a margin of safety in the event of a grounding or collision. Should the outer hull be damaged, the cargo is still kept within the ship's hold by the inner hull.

According to a study by the Coast Guard, the *Valdez* would have spilled from 25 to 60 percent less oil had it been equipped with just a double bottom. Double hulls are already required on all tankers that carry liquified gases and many hazardous chemicals because of the extreme danger these cargoes would pose to people and the environment in the event of an accidental release.

The bill we are considering today requires a study comparing the environmental safety of tankers with and without double hulls.

This issue has been studied to death. Senator Brock Adams, while Secretary of Transportation under President Carter, directed the Coast Guard to negotiate a double bottom requirement with the international maritime organization.

While the proposal was rejected, the technology has not changed significantly since then, and it has taken a tragedy in a once pristine wilderness to move the Congress into action.

This amendment has received strong support from environmental groups as well as bipartisan support from members all across the country.

Protecting our environment and wildlife from the devastating effects of an oilspill is clearly important to all Americans. Any of our coastal States could be devastated by a *Valdez*-type disaster at any time. The entire eastern seaboard is at risk. The Great Lakes are at risk. The California coast is at risk. And we've already seen a major spill in the Houston shipping channel since the time of the *Valdez* incident.

Spills are not all that unusual in oil tanker operations. The Coast Guard receives reports on about 7,500 oilspills every year. About 200 of these require Federal takeover of the cleanup efforts. In U.S. waters since 1978, there have been 79 tanker spills of more than 10,000 gallons of oil—an average of more than six each year. The Gulf Coast suffered 37 of the spills. The Atlantic Coast had 29 spills. And, 13 spills occurred along the Pacific Coast.

On October 31, a cargo ship loaded with fuel oil and phosphates ran aground on a reef at the tip of the Florida Keys.

Up until now, the additional cost of double hulls has been the deciding factor against their implementation. But, compared with the monumental cost of cleaning up Prince William Sound as well as the potential for devastation posed by groundings such as the recent one off the Florida Keys, the increase in construction cost is minor.

Double hulls are a good investment that will help to ensure cleaner oceans and shorelines. Much has been said on the safety of double hulls and I do not claim to be a naval architect. However, it is always easier to stick with current policies than to make a change, even if that change has well-documented benefits.

When the oil industry was seeking permission for the TransAlaska pipeline, they promised that tankers transporting Alaskan oil would have double hulls. They did not follow through with that assurance.

It has become obvious that the technology does not yet exist to enable us to adequately clean up a spill, or even to keep it contained. So often we react to emergencies after the damage is done.

This amendment is a strong effort to prevent oilspills, rather than reacting after the fact.

Mr. Chairman, we have debated and studied this issue for more than 15 years. During most of that time, we have required double hulls on all tankers carrying liquified natural gas and other highly combustible materials. Of 40 groundings and collisions involving these double hulled vessels, only two resulted in any cargo spillage and neither spill was serious.

The Coast Guard says that the double hull requirements for liquified natural gas tankers were established because of the extreme danger posed to people in the event of an accidental release. So, protection of the public health and safety is clearly a priority. But, environmental protection is viewed as less of a priority.

I ask my colleagues to support my amendment as a clear statement that we believe environmental protection ranks as high on our list of priorities as protection of the public health and safety, because they are one and the same.

We must tackle environmental questions before they threaten the public health and safety, not afterward. We have learned, in Alaska, that you can't put the genie back in the bottle. And when the bottle, in this case the *Valdez*, weighs 126,000 tons, it is easy to see that the cost of prevention outweighs the priceless loss in environmental damage from another massive spill.

I do not want some future headline to read: "Washington Studies While the Oil Spills."

I urge my colleagues to support my amendment.

Mr. BRENNAN. Mr. Chairman, I rise in support of the amendment requiring double bottoms on tankers and barges.

We have recommended the study of double hulls and double bottoms for the last 15 years. These studies, by reliable sources such

as the Office of Technology Assessment and the Coast Guard, demonstrate that double hulls and double bottoms could reduce the likelihood of spills. If spills did occur, hull improvements could limit the size of the spill.

The Coast Guard estimates that if the *Exxon Valdez* had a double bottom, 25 to 50 percent less oil would have flooded into the pristine waters of Prince William Sound.

In the face of such evidence, it seems to me that it is time for Congress to require double bottoms on tankers that call at U.S. ports. Further delay only increases the risk of environmental damage to our coasts.

Any further calls for study of double hulls and double bottoms, such as the present language of H.R. 1465, are simply double talk.

AMENDMENT OFFERED BY MR. TORRICELLI TO THE AMENDMENT OFFERED BY MR. GALLO

Mr. TORRICELLI. Mr. Chairman, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. TORRICELLI to the amendment offered by Mr. GALLO: After section 4108, relating to State authority to require State pilotage for tankers, add the following new section:

SEC. 4109. SELF-PROPELLED TANK VESSEL MINIMUM STANDARDS.

(a) DOUBLE BOTTOMS.—Section 3708 of title 46, United States Code, is amended—

(1) by inserting "(b)" before "A self-propelled"; and

(2) by inserting after the section heading the following new subsection:

"(a) A self-propelled tank vessel of at least 20,000 deadweight tons shall be equipped with a double bottom.".

(b) INSTALLATION.—Section 3704 of title 46, United Stated Code, relating to coastwise trade vessels, is amended by stiking "tank," and inserting "tank, double bottom,".

(c) APPLICABILITY.—The amendments made by subsections (a) and (b) shall apply—

(1) after the date of the enactment of this Act, to any self-propelled tank vessel the construction of which is begun after such date of enactment; and

(2) after the last day of the 7-year period beginning on such date of enactment to any self-propelled tank vessel the construction of which is begun on or before such date of enactment.

Redesignate subsequent sections and conform the table of contents of the bill accordingly.

Mr. TORRICELLI (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. TORRICELLI. Mr. Chairman, I yield to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Chairman, I rise in strong support of the amendment.

Twelve years ago, Senator Warren Magnuson and I introduced legislation to strengthen oil tanker construction and operating safety standards. It was a good bill and, except for one provision, it became law. The exception was a requirement that all tankers using U.S. ports have double bottoms.

Last March 24, in Prince William Sound, we paid a price for that exception. And by we, I mean not only the fishermen and hotel and restaurant operators of Alaska; not only the natural resources of Alaska; I mean our country; I even mean Exxon.

A double bottom would probably not have prevented the *Exxon Valdez* spill; but it would have meant less oil spilled; fewer otters and eagles and salmon killed; not as many miles of coastline to be cleaned up; fewer millions of dollars wasted on an accident that never should have happened.

But the real question is not whether a double bottom would have prevented the last spill, but whether it might prevent the next one.

The answer according to every independent study of the subject conducted over the past decade and a half is yes. Double bottoms will mean fewer spills; and less oil discharged even when spills occur.

In 1975, the Coast Guard analyzed 30 tanker groundings which occurred in U.S. waters and concluded that double bottoms would have prevented pollution of 27—or 90 percent—of those incidents.

That same year, the OTA concluded that "double bottoms or double hulls * * * offer a significant degree of protection from pollution."

The supervisor of salvage for the U.S. Navy has written that "the probability of a major salvage or pollution incident growing out of the grounding of a large, single bottom tanker, is of an order of magnitude greater than for a double bottom tanker."

Now, I know that some say that double bottoms can make it more difficult to refloat a vessel, thereby causing an even larger spill. But when, in the real world, has that happened? Hundreds of tankers already have double bottoms. When has that fact led to increased pollution? The answer is never. And if double bottoms are unsafe, why do we require them for vessels carrying LNG and hazardous materials other than oil?

Some say that double bottoms are too expensive. But look at Prince William Sound or Chesapeake Bay or the Florida Keys or Nantucket Island or the bustling harbor of Kennebunkport and ask yourself; is an extra 2 or 3 percent in the cost of an oil tanker too high a price to pay to protect our coasts? I think not.

Finally, some say we've got to wait until the international community agrees that double bottoms are necessary. Well, to that, I say—just this once—let's not wait; let's lead.

This amendment, offered by the gentleman from New Jersey, represents an opportunity that comes—I can tell you based on my own experience—but once a decade. An opportunity to respond to oilspills in the most effective way possible, by preventing them.

An opportunity to cast one of the most important environmental votes of the year.

So I urge my colleagues. Consider the facts. Consider our coasts. Consider what happened in Alaska 7 months ago. Consider what might happen off your State 7 months from now. And vote "yes" on this amendment.

Mr. TORRICELLI. Mr. Chairman, what I offer today is a friendly amendment as an interim step. What the gentleman from New Jersey [Mr. GALLO] has suggested is our ultimate goal. It is worthy of the support of the Members of the House. It will result largely in replacing our current fleet with a fleet of safe double hulled tankers. It is a judgment that this House should have reached a long time ago, but in the interim, Mr. Chairman, there is something else we can do, require that the current fleet, our current tankers, have at a minimum double bottoms.

It is said, Mr. Chairman, as the gentleman from New Jersey suggested before, that if the *Exxon Valdez* had had a double bottom, as much as 60 percent of the oil that flowed into the waters of Alaska would have been prevented.

Earlier studies have indicated that 96 percent of all the oil spilled in America never would have occurred if our tankers had had a double bottom.

The usefulness of what I offer, Mr. Chairman, and what is being offered by the gentleman from New Jersey [Mr. GALLO] is that we do more than simply provide punishment, more than simply provide the means to clean up oilspills. What the gentleman from New Jersey [Mr. GALLO] and I suggest is that we prevent them, and that is what double hulls and double bottoms are all about. If we learned anything from the Alaska oilspill, it is this. No matter how much money we provide, no matter how much effort we are willing to commit, oilspills by their nature are so difficult that nature can never fully be restored. Therefore, oilspills must be prevented. Double hulls, double bottoms are the one way of preventing environmental damage.

Mr. Chairman, 15 years ago when this House was debating the Alaska pipeline, Senator Magnuson of Washington introduced legislation requiring double hulls and double bottoms. On that day, this House did not take that action. It was part of what was offered to make the Alaska pipeline safe to begin with. It was a mistake then. It could be reversed now.

Mr. Chairman, I urge the House today to provide, as the gentleman from New Jersey [Mr. GALLO] has suggested, double hulls, and as I have suggested for 7 years, double bottoms.

Mr. FASCELL. Mr. Chairman, will the gentleman yield?

Mr. TORRICELLI. I yield to the gentleman from Florida.

Mr. FASCELL. Mr. Chairman, I thank the gentleman for yielding.

I am delighted the case in the Florida Keys has been brought up as an example. We were pleased, of course, that that vessel had a double hull, even though she tore up a big chunk of the reef, and it will be a long time being replaced.

The point I wanted to make is this: We found out after the fact, however, she was carrying her fuel between the hulls, so for us to go to double hulls and not have the further requirements that they cannot carry anything between the hulls might defeat the very purpose the gentleman seeks.

I would hope that the committee would take that under consideration with the departmental people in terms of what regulations may be necessary to accomplish that additional safety which the gentleman seeks by legislation.

Mr. TORRICELLI. The gentleman's point is well taken, and I would remind Members, as well, that what we are asking today is double hulls for oil tankers. The gentleman has suggested other tankers today have double hulls is what we are already requiring for hazardous cargoes, for chemicals, for gas. We have this provision for other cargoes. All we are suggesting today is that as America has painfully discovered, oil is also a hazardous cargo, and it requires the same standards required already for other tankers. No more.

But as will be suggested on this floor as well, this provision is not without cost. It may require some $2 billion to require double bottoms alone. But I would remind my colleagues of this: That cost is less than the single cost of cleaning up one oilspill. In other words, we will rebuild our entire national fleet for less than it will cost for the Alaska oilspill, and for it we may prevent 96 percent of all future oilspills for this single investment.

Mr. Chairman, there will be those who may disagree, but let me suggest to my colleagues that every environmental organization, principal labor organizations, and the National Steel Institute all join in support of this amendment.

I urge the support of my colleagues.

AMENDMENT OFFERED BY MR. DAVIS AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. GALLO

Mr. DAVIS. Mr. Chairman, I offer an amendment as a substitute for the amendment offered by the gentleman from New Jersey [Mr. GALLO].

The Clerk read as follows:

Amendment offered by Mr. DAVIS as a substitute for the amendment offered by Mr. GALLO: Title IV is amended by adding the following new section:

"SEC. 4113. DOUBLE HULLS OR DOUBLE BOTTOMS.

"(a) Before one year after the date of enactment of this Act, the Secretary shall require by regulation tank vessels to be equipped with double hulls or double bottoms unless the Secretary determines that—

"(1) the requirement will not enhance tank vessel navigation safety;

"(2) the requirement will not enhance protection of the environment; or

"(3) an equal or greater benefit to navigation safety and protection of the environment will be achieved by other construction designs.

"(b) If the Secretary requires double hulls or double bottoms under subsection (a) of this section, the Secretary shall present a proposal for worldwide adoption of that construction design to the International Maritime Organization at the earliest date, as appropriate.

Mr. DAVIS. Mr. Chairman, I wanted the amendment to be read. I am not trying to blindside either one of the gentleman from New Jersey, but this is a very important issue, and I think we need to look at it in the full context of what happens.

What this amendment says, and it is very similar to what the Senate has already included in its version of this same legislation, but in effect what this amendment says is that we shall have a study conducted by the Secretary of the Department of Transportation, and we shall go ahead with double bottoms. We shall go ahead in new ships and retrofit present ships unless certain things are determined of which we just heard read.

Mr. Chairman, this, I think, is an issue that we have to really consider very seriously. Let me just read to the Members what the Commandant of the United States Coast Guard said about the *Exxon Valdez* that we ought to be aware of:

Had that ship, the *Exxon Valdez*, had double bottoms, it would have probably lost only about half the oil that it lost. That is the good news. The bad news is had that ship had double bottoms and come off the pinnacle, it would probably have sunk right on the spot.

I think all of us believe that going to double bottoms probably is the right way to go, but I am not sure that we want to take action that is going to mandate that in a certain time period we retrofit all of these ships when in fact we do not know whether it is the right thing to do. Right at this very moment and for some time, the Coast Guard has contracted with the National Academy of Sciences to take a fresh look at double bottom, double hull requirements, and it seems to me for us to mandate something before their study is completed that we do not really know whether it is the right thing to do.

It could change; putting double bottoms could change, especially in retrofitting ships to the point where they may be unstable, may be unsafe in other ways, and I just think that the better way to go is to take the language from the Senate, which is very similar, almost identical, to this language, which says, yes, at the end of the study we shall go ahead with double bottoms, but we will do it only if it is determined that it is safe and that other criteria are met.

I really think that is a better way to go, and I want to get into this debate, because it is on a very important issue.

I do not have any expertise in ship construction whatsoever, but I also do not want to mandate something that is not going to do what we think it ought to do or what we think we want it to do.

I would hope that we would consider this amendment seriously, because this is a most important issue.

Mr. TAUZIN. Mr. Chairman, I rise in support of the gentleman's substitute amendment.

Mr. Chairman, first of all, the substitute amendment mandates double hulls. Let us make that clear. It says that there will be double hulls, and it says the Secretary must impose double hulls upon new construction unless, after that year's study, he determines the requirement will not, in fact, enhance vessel navigation and safety, that it would not protect the environment, or that an equal and greater benefit to navigation safety and protection of the environment will be achieved by other construction design.

Let us start out with that. The gentleman's substitute amendment says that double-bottom hulls will be mandated, exactly what the Senate says, and that these double hulls on new-vessel construction will be required unless a better way is found out of the study that makes sense, and I think it is a reasonable approach.

By the way, it is one that the Coast Guard supports. Often, for example, the Commandant is quoted as saying that if the *Exxon Valdez* had had a double bottom it would probably only have lost half of the oil it lost, but the people forget to quote the rest of it, and what he said was that was the good news, that the bad news is that if the ship had had double bottoms and had come off that pinnacle, it would probably have sunk right on the spot. Double bottoms do impose some safety problems, and we ought to take that into consideration, because they would have meant not just the loss of the oil that came out of the *Exxon Valdez* but perhaps all of the oil that was contained in that tanker.

Mr. TORRICELLI. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I am happy to yield to the gentleman from New Jersey.

Mr. TORRICELLI. Mr. Chairman, just for the purposes of clarification, the gentleman might note that I have received from the president of the National Steel and Shipbuilding Co. that has constructed and now repaired the

Valdez that, indeed, the April 1989 studies analyzing the accident did not deal with the question of whether the ship would have had a greater or lesser chance of sinking if it had a single or a double bottom; that conclusion may have been reached, but the builder and repairer of the ship says that they are not prepared to reach that conclusion, although they are prepared to conclude that the pollution would have been reduced by 60 percent if it had had a double bottom.

I thank the gentleman for yielding.

Mr. TAUZIN. Mr. Chairman, I concede that point. No one has yet concluded whether the ship would have sunk or not, and the Commandant says that it very well might have. The people who repaired it said that they were not ready to conclude that.

The bottom line is that there is some question about whether double bottoms are the best way to go or not, and the bottom line is that the Senate came to the conclusion, as I hope we do, that we ought to mandate them unless we find out that they are really not safe or we find a better way to do it.

□ 1520

I want to give Members a little show-and-tell that demonstrates that there are some other means that are being discussed that may be of equal or better benefit than a double-hull bottom in protecting the Nation from the kind of spills we saw in Alaska. The concept I am going to discuss is designed by OSG Bulk Ships, which is the largest independent U.S.-flag tanker operating in America. It is an interesting concept, one which they are just now promoting along with the Swedes, who are promoting the negative pressure theory that may even work as well or better than this one.

What I want to show first is the way the 1970 tankers were constructed and loaded with oil. They were basically loaded in different cargo tanks, all with oil from one end to the other. This is the common way pre-1970 tankers, with no ballasts or slop tanks, were loaded. The oil was loaded to the top of each tank, and every tank was loaded.

The modern tanker, and also the post-1973 tankers, are loaded differently today. Most of them are loaded now with four side-water ballast tanks which appear in blue on the chart, so that the oil is loaded in the tanks in yellow. Water is loaded in the ballast tanks on either side. They are loaded this way to provide some protection against side collisions so that these new tankers are much safer. In fact, Warren Magnuson, in a recent editorial I read in Washington State before he died, commented upon the better condition by which ballast tanks loaded, and afford some means of protection against side damage for oilspills.

OSG has taken this theory and has gone a step further and suggested that we could improve upon this loading technique if we did one thing further.

The CHAIRMAN pro tempore (Mr. LANCASTER). The time of the gentleman from Louisiana [Mr. TAUZIN] has expired.

(By unanimous consent, Mr. TAUZIN was allowed to proceed for 3 additional minutes.)

Mr. TAUZIN. What OSG determined was that the amount of oil that came out of the *Exxon Valdez* was exactly equivalent to the amount of oil that was loaded above the water line, above the craft depth line of the ship, and it was equal to the amount because of the hydrostatic balance between the oil in the tanker and the pressure of the seawater.

As Members know, oil is lighter than water. Because the oil was loaded above the water line, that amount of the oil came out of the tanker when it was ripped at the bottom.

What OSG is exploring, and I think with some validity, is a concept that would load oil at the water line by increasing the number of water ballast tanks along the side of a vessel to keep it low in the water, and yet loading the oil in the rest of the tank so that the oil is loaded only at the waterline or near it in hydrostatic balance with the seawater. The effect is that if there is a rip of the vessel on the bottom, very little oil would come out of it on the scientific basis of hydrostatic balance.

Second, the permanent water ballast tanks on the side, ionized to protect against rust, permanent in nature so that we do not have to keep unloading that water every time we load and unload oil, would provide for both safer transit for side injuries, and would provide for safer hull design construction, because it would prevent against the kind of rust that occurs loading water in and out of these ballast tanks.

The bottom line is OSG Bulk Ships is telling us that there may be a way to load ships in a way to prevent what happened with the *Exxon Valdez* without the expense of a double bottom and, in fact, even better than a double bottom.

We are not sure this will work. We are not sure double bottoms work. But what the Coast Guard is requesting, and that is what this amendment requests, is that we mandate double bottoms if and only if they really are safe, and if and only if a better system is not devised to protect against oilspills. That is a sensible way to approach this.

I urge Members to adopt the amendment of the gentleman from Michigan. His amendment is identical almost to the Senate amendment. It says we mandate double bottoms unless we come up with a better system, or unless we find out that double bottoms are really unsafe and will cause us more injury from oilspills. That makes sense to me and I hope it does to my colleagues.

I urge Members to adopt the substitute amendment offered by the gentleman from Michigan.

Mr. YOUNG of Alaska. Mr. Chairman, I move to strike the requisite number of words and I rise in support of the amendment.

First, I would like to compliment my good chairman, the gentleman from Louisiana [Mr. TAUZIN]. He made a very good argument, and I hope Members listened to the argument. I say to the gentleman from Michigan that his amendment makes a great deal of sense if we are looking for the safety of our shores and the best navigational equipment and vessels to deliver the oil to our shores, not only domestically but foreign, too.

But I do not think this body should be setting the criteria, because there are no experts in this field. I believe other than the gentleman from North Carolina [Mr. COBLE], I am the only maritime person serving in this body that has some experience in the transportation of cargo and oil, and I am one who fought this battle in 1973 for the building of the transportation line with double bottoms because at that time I thought it was the last word. It is not. There are better systems.

The system the gentleman from Louisiana just explained is probably better. The bladder system, Members ask what the bladder system is, is a system being studied today, and this is what the amendment says. That allows a membrane to be put inside of the tanker within each compartment, neoprene, fiberglass-backed. If there is a breaking of the outer hull, it releases that from the hull inside of the hull, air vents let the oil go up, and then as the pressure comes down the bladder comes back out and seals the hole off.

What is wrong with double bottoms? I will be very honest. The models I have seen can pose a threat. As the Commandant said, the possibility of sinking the *Exxon Valdez* was very great.

I do not blame the steel companies for saying what they are saying. They want to build more ships. I do too. But I think we can build them better.

When we put something in writing that is permanent, it is the wrong thing to do in this body until we know for a fact what should be done correctly. The amendment of the gentleman from Michigan is very clear. We have an ongoing study, and if it is found that double bottoms are in fact the only and the best method to prevent a spill, then we shall adopt that method. But if there is a better method, a different ballasting, a different structure,

then that should be the method that is adopted.

This argument reminds me a great deal of the clean air argument and methanol. We have caught onto a buzz word, a buzz word that methanol is going to solve all of our problems without understanding all of the side effects. Now we have the buzz word of double bottoms are going to solve all of our problems without understanding the side effects.

So I am urging my colleagues to listen to the amendment of the gentleman from Michigan. It is a very clear amendment. In fact, I think it is very nearly word for word what came out of the Senate, and it achieves a reality. The study is ongoing, already contracted. Let us hear the results of that study, and then have the enactment in place.

Let us not just do something because it is the popular thing to do.

I am one of those people who want to have our shores safe with the best possible method. I also want something that is not in concrete so we cannot change it.

So I would suggest to the gentleman from New Jersey that his amendment has an attraction, with his amendment I do believe it applies to everyone, all of our foreign tankers, is that not correct? That does make sense. But even then, have we really solved the problem we are seeking to solve, and that is the way to transport our oil? I say I am not sure, and I do not think the gentleman is either.

Let this study go forward. Let the amendment of the gentleman from Michigan be adopted, and I believe it is supported by the Committee of the Whole, and then I will be the first one in this well to encourage it if that is what the study says is the way to go, and if it is not the way to go, to encourage the best way to go to make sure our ships are safe, and those ships coming into your harbors and our harbors are safe, because right now many of those ships, I would say 90 percent of them coming into the harbors are totally unsafe.

So I am suggesting again let us adopt this amendment, and let us go forth with what we are setting out to do, and that is to find a solution to a problem.

Mr. GALLO. Mr. Chairman, I move to strike the requisite number of words.

I rise in opposition to the substitute amendment offered by the gentleman from Michigan.

We have heard a great deal about studying this subject. This subject has been studied to death. This is over 10, 15 years that we have been dealing with this particular problem. When people say that it has not been proven, if it has not been proven, why would the Coast Guard have required liquified gas and chemicals, hazardous waste, or hazardous materials as a requirement to be carried in double hulls? Obviously because it gives that added protection to the public, and they are afraid that any release could be detrimental to the health of individuals.

□ 1530

We should be taking the same concern about the environment because the environment and health of our people are one and the same.

So to say that we are going to study this again—and those words were used almost 15 years ago when there were the same proposals put forward on double bottoms—and they said, "Let us study it." Well, they have studied it and they have studied it. I think it was even stated that the double hulls, as indicated by the Coast Guard—or double bottom and double hull—would have had the effect of reducing the oilspill in Alaska by some 60 percent.

I am very concerned about the effort of the substitute to effectively remove this legislation backwards so we will be here, or someone else will be here, 15 years from now after another major acident, saying that we should have double hulls on our fleet.

There are over 500 ships that now have double bottoms. We have a period of 15 years where new construction would be done immediately on passage and signing of this law, but otherwise there is another 15-year period for this bill to be implemented. We are talking about, as the gentleman from Alaska said, all-flagged tankers, not just United States, all tankers would be so required.

If we had the *Valdez* incident and it took place in Boston Harbor, the effective damage would be from Boston Harbor to the outer shelf of North Carolina. The devastation that would have been done to the east coast is hard to visualize. In the State of New Jersey, where we have over 200 miles of beach and tourist trade, not to mention the fishing industry, that would have been devastated by a similar accident.

So what I think we are asking for in my legislation, which as I say has bipartisan support, we are asking that added measure of safety which I think is so important and I think the people of this country deserve nothing less.

Mr. STANGELAND. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the gentleman's amendment.

Mr. Chairman, I rise today in support of the amendment from the gentleman from Michigan [Mr. DAVIS].

I currently have problems with mandating double hulls and double bottoms on all vessels that transport oil, especially those vessels already in existence. I believe that it is very important that we wait for the evidence from the experts on this issue before we legislate on technical matters of which we do not have a strong understanding.

Granted, there has been some indication that in certain specific circumstances, double hulls prevent spills. Yet it would be prudent to wait for the Secretary of Transporation to determine, after carefully considering the results of the current Coast Guard study on this matter, whether or not double hulls on oil vessels would aid in protecting the environment against oil spills or enhance navigation safety.

If the Secretary does determine that double hulls should be mandatory on all vessels than by adopting the Davis amendment, we would already have in place the laws necessary to mandate that construction.

Mr. Chairman, I believe that the Davis amendment is the best vehicle for solving this double hull dilemma and I urge my colleagues to support it.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. STANGELAND. I yield to the gentleman from Michigan.

Mr. DAVIS. I thank the gentleman for yielding.

Mr. Chairman, I just want to answer the gentleman from New Jersey. Believe me, I think we are all trying to get to the same place, trying to do the right thing.

There were studies that were done, but at least those studies were inconclusive. In one of the studies, for example, it says that, yes, double bottoms may have some validity but there may be other ways to build ships that will be in fact better. So when you are looking at ship construction now as compared back in the seventies, things have changed in ship construction.

I want to remind the Members that this amendment does in fact mandate double-hull construction if in fact it is determined that it is the right way to go. It just seems to me that once again we would be making a mistake if we, who are not experts at all in this area, go ahead and say we ought to do this when in fact we are not sure. This study by the Coast Guard, made by the National Academy of Science is one that the Coast Guard wants done. They are experts in ship construction relative to protecting the environment, relative to building new oil tankers, or retrofitting others.

They want this National Academy of Science study done and then make a final determination as to whether or not we should go ahead with it. In fact, it says we shall go ahead with it unless these three requirements that have already been mentioned two or three different times are not met.

Mr. GALLO. Mr. Chairman, will the gentleman yield?

Mr. STANGELAND. I yield to the gentleman from New Jersey.

Mr. GALLO. I thank the gentleman for yielding.

In response to the gentleman from Michigan, Mr. Chairman, maybe in terms of a question: If in fact there is such a question about double hulls and their ability for safety, why then would the Coast Guard make it a requirement that liquified gas and hazardous chemicals be carried only in double hulls?

Obviously they have reviewed the double-hull method and see it as an extra area of precaution for the citizens who may be affected.

So from that point of view, I think that they have studied it. I think that this is only in the form of a delaying action in response to my legislation as an amendment to their bill, and I feel very, very strongly that this double-hull legislations time has come.

Mr. Chairman, I would ask that the substitute by rejected.

Mr. McDERMOTT. Mr. Chairman, I move to strike the requisite number of words, and I rise to oppose this amendment.

The question that it really poses is this: Do you believe that the oil industry will ever do anything unless we force them to? Recently I flew into San Diego, we flew over the harbor. They showed me the *Exxon Valdez.* It is there being refitted. They are replacing 75 percent of the hull exactly as it was the day they ran aground on the Bligh Reef. They are not doing a single thing. Whatever this technology is that might be better, double hulls or anything else, they are not doing it.

Now I think we ought to support the Gallo-Torricelli amendment. This amendment gives us a chance to do what we should have done 15 years ago, making sure that the tankers that carry oil into our harbors and past our shores are built for safety, built to reduce the risk of an oilspill when an accident happens and built to reduce the damage when a spill occurs.

Back in 1972 and 1973, when Congress was debating the Alaska Pipeline, the Nixon administration and the oil industry promised that the tankers would have double hulls. My colleague from Massachusetts, Mr. STUDDS, and our late Senator Warren Magnuson worked hard to make them live up to that promise. But the promise was broken. At the Intergovernmental Maritime Consultative Organization conference, Exxon lobbied 22 countries against double hulls. Then the Coast Guard went along with the international standards even though it could have required double hulls anyway.

The bill before us calls for another study. You will never get a study that says absolutely 100 percent. The Office of Technology Assessment, the Coast Guard, the National Transportation Safety Board, the National Academy of Sciences—all have found that double hulls reduce pollution. They help keep the oil inside the ship, even if the inner hull is broken. These studies have examined hundreds of accidents, collisions, and groundings of tankers and barges, all over the world.

Now what you have heard out here today, as we listened to it, is we have heard about capsizing, we have heard about explosions, we have heard about going aground. It has never happened.

There are 42 double bottom tankers carrying Alaskan oil today. Many more are carrying liquid natural gas and hazardous chemicals, as required by law.

□ 1540

All this Gallo amendment does is require the same safety design for oil tankers as we now require for tankers that carry liquid natural gas and hazardous chemicals. After what we saw, and I heard 1-minute speech after 1-minute speech about the horrors of Prince William Sound, and what we saw in Delaware Bay, and there at Narragansett Bay, and Galveston Bay Channel, and Puget Sound, does anyone want to claim that oil is not a hazardous chemical?

Just a few months ago the Coast Guard tested several hull models for the *Exxon Valdez.* The conclusion was clear. A double hull would have reduced oil spillage between 25 and 60 percent, between 3 and 7 million gallons. Three months ago, the Coast Guard Commandant, Admiral Yost, told the Senate Commerce Committee that "double sides and double bottoms are the single best thing that can be done to prevent oil spills." Now, the admiral had written a letter opposing double hull legislation until another study is done. He says:

> We promised the international community we would not impose new design requirements without first proposing them worldwide.

Well, we proposed double hulls to the world more than 10 years ago, and Exxon beat everyone in the international conference. Now, it is time to do what we should have done then, require double hulls to protect our waters, whether or not other nations want to protect theirs. Of course, we need more research. We can have design research forever. We will always try to learn all we can about making our waters safer, but let Members not lose this chance to put in place the safest design we know of, a double hull that runs the whole length of the vessel, across the bottom and up the sides. If research shows there is a better way, we can always come on this floor and amend it. I do not know any Member who thinks that we would not do that.

I urge Members to vote for the Gallo amendment and turn down the Davis amendment.

Mrs. UNSOELD. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, we have heard that 15 years ago there was legislation before the Congress to require double hulls. Instead, it got studied. If we wait for the best, we will never have anything. All the evidence is not in. It never will be.

Fifteen years ago, Warren Magnuson, our senior Senator whom we lovingly call "Maggie" introduced the legislation to require double hulls. This last summer, just before his death, he spoke on this issue, and he wrote an article for the newspapers. It did not get published until after his death, but I would like to quote a couple of remarks from it.

He said:

> The oil industry recognizes the importance of double hulls. When these corporations were seeking Federal permits for the Trans Alaska Pipeline from the Nixon Administration, they promised that all the tankers transporting Alaskan oil would have double hulls. Unfortunately, some of them reneged on that assurance.

Some, like Chevron, built some double hulls; Arco built some double hulls. We failed them by not requiring their competitors to also have the double hulls. It is time that we put the studies aside and say, "Let us Members take this technology that we now know and we now have. Let us reject the Davis amendment and adopt the Gallo-Torricelli."

The last words that Senator Magnuson wrote in his column was in appreciation of a letter that he had received from some middle school children. He said:

> They wanted to thank me for my efforts to protect Puget Sound. They said that they were writing for themselves, and for their children in the future." What I have done is history. I am interested in the future.

That is what we should be interested in today.

Mr. Chairman, I attach the full text of the newspaper column containing Senator Magnuson's comments.

MAGNUSON PLANNED TO SUPPORT OILSPILL SAFETY BILL

Editor, The Daily World—

Former Senator Warren G. Magnuson loved Puget Sound. Throughout his career in the Senate, he worked hard to protect Washington's waters from the dangers of oil spills.

On May 7, 1989, Senator Magnuson testified in support of the Puget Sound Tanker Safety Act of 1989. He was also working on the following article when he died later last month. He had planned to send it to several newspapers as a guest editorial.

I was an aide to the Senator. His wife has asked me to send this article to you for publication in your paper.

EDWARD SHEETS, Portland.

(By Warren G. Magnuson)

I am calling on everyone who wants to protect Puget Sound from oil spills to join me in supporting the Puget Sound Tanker

Safety Act of 1989. Senate Bill 839, sponsored by Senator Brock Adams, contains a number of significant safeguards that will improve the construction and regulation of oil tankers, and ensure that appropriate plans are in place if there is an oil spill.

This is an extremely important piece of legislation. Puget Sound is one of the most beautiful places in the world. Its contribution to Washington's economy, environment and special quality of life can't begin to be calculated.

I have long been interested in oil tanker safety and the protection of Puget Sound. During the 44 years I was in the House of Representatives and the Senate, I saw the quantity of oil transported through Washington's waters and the size of oil tankers increase dramatically.

Congress has taken a number of steps to improve the design and operation of oil tankers. I am very proud of the requirements for segregated ballast on tankers, limits on the size of tankers in Puget Sound, and the development of the vessel traffic control center that monitors the movement of all ships on Washington's inland waters. In 1977, I helped pass a law banning the construction of an oil superport inside Puget Sound.

The state of Washington has also been active. Actions by the state, including requirements concerning pilots and tug escorts, have improved the safety of oil transportation.

All these actions demonstrate a clear recognition that government has a responsibility to protect our valuable waters.

Two recent events demonstrate that we must redouble our efforts. The Exxon Valdez disaster showed what can happen when the oil industry's management gets sloppy and the Coast Guard reduces its vigilance. The Exxon Valdez spilled more than 11 million gallons of oil into Prince William Sound. The oil spill covered an area the size of Rhode Island. It will take more than a decade for some of the damaged area to recover. Closer to home, the Exxon Philadelphia lost power off the Washington coast. We were lucky. If the winds had been blowing the other way, we could have had a second disaster.

These events remind us that large oil tankers—tankers carrying four times more oil than the amount spilled in Alaska—regularly thread their way through the narrow Rosario Straits to Washington's oil refineries. We must strictly enforce existing safety requirements and we must look for other measures to reduce the chance of an oil spill.

That is why the Puget Sound Tanker Safety Act of 1989 is so important. It adds significant safeguards that build on and are consistent with previous actions by the Congress.

Sen. Adams' bill requires new tankers to be built with double hulls. Double hulls have a large space between the outer hull and the oil tanks. This technology would have prevented the spill caused by the grounding of the Exxon Valdez.

The oil industry rcognizes the importance of double hulls. When these corporations were seeking federal permits for the Trans Alaska Pipeline from the Nixon Administration, they promised that all the tankers transporting Alaskan oil would have double hulls. Unfortunately, they reneged on that assurance. Now it's time to require the oil industry to live up to its promise.

S. 839 also includes provisions to improve the safety of oil-carrying barges. The recent spill near Anacortes reminds us of the increasing use of these barges.

The legislation also calls for spill prevention plans and regulations governing safety and cleanup equipment, and an inspection and maintenance program. These provisions would reduce the chance of an oil spill.

Senator Adams' bill would require comprehensive oil spill contingency plans and practice drills. This would mean that adequate, workable plans would be in place in the event of an accident. I particularly like the requirement that the plans, and the results of the drills would be publicized. Given the strong public interest in this issue, the public awareness provisions, along with the penalties prescribed, add real muscle to the bill.

I want to thank Sen. Adams for his leadership on this important issue. The Puget Sound Tanker Safety Act of 1989 will help protect Puget Sound. I wholeheartedly support this bill and urge all the citizens of Washington to write to the Senate Committee on Commerce, Science and Transportation, 508 Dirksen Senate Office Building, Washington, D.C. 20510. Tell the Committee to move quickly to pass this important piece of legislation.

Puget Sound is not safe from the dangers of an oil spill. We must improve the construction and operation of the large tankers that come into Puget Sound. We must also maintain eternal vigilance to ensure that these oil tankers and the people who operate them meet the strictest safety standards. You can help by supporting the efforts of Sen. Adams and the Washington congressional delegation.

I recently received a touching letter from some students at Cascadia Middle School. They wanted to thank me for my efforts to protect Puget Sound. They said that they were writing for themselves, and for "their children in the future." What I have done is history. I am interested in the future.

I want succeeding generations—like the future children of those students—to be able to experience the natural beauty and diverse sea life of Puget Sound. Working together, we can reduce the chance of a disastrous oil spill and fulfill our responsibility as stewards of this important natural resource.

Mr. SAXTON. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, I support the Gallo amendment as amended by the Torricelli amendment. I am with the gentlewoman from Washington. She talked about the studies that have gone on over the years, and I think it is kind of interesting to note that the studies that can be recited are all in support of the intent of the Gallo-Torricelli amendment.

Let me tell Members about some of those. In 1975 there was an OTA report, the Oil Transportation by Tankers, and they concluded that fitting double bottoms and hulls on tankers, offer a significant degree of protection, from oil pollution in the event of grounding or collision. That was the conclusion that was drawn on a study that was done in 1975. Second, in the same year, a Coast Guard study of 30 groundings in U.S. waters between 1969 and 1973 concluded that double bottoms of a height of 2 meters would have been effective in preventing penetration in the inner bottom, with a 96 percent probability rate. In other words, in 96 percent of those groundings, had those barges had a double bottom with 2 meters or more, penetration of the inner skin would not have happened. Third, in 1975, the National Transportation Safety Board reported on the grounding of the tanker S.S. *Hiler Brown*, concluded that the lack of double bottoms contributed to the oil pollution caused by that accident in Cold Bay Harbor, AL.

Because of the Coast Guard's opposition to the double bottom requirement, the National Transportation Safety Board recommended that additional controls should be placed on the movement of tank ships without double bottoms.

Fourth, in 1981, the Maritime Transportation Reserve Board study entitled "Reducing Tank Barge Pollution," concluded that double hull construction of barges has been shown to prevent the penetration of cargo space in 88 percent of the groundings and in 90 percent of the collisions and ramming incidents involving tank barges.

My good friend from Michigan I know has an amendment that is well-intended. However, it provides for more of the same—more studies. We have had studies going back, as I have indicated here, as far as 1975. Without exception, they have drawn the same conclusion, and that is the Gallo-Torricelli amendment is a good amendment, something that we ought to support today. We do not need more studies. We need to vote to approve this amendment.

Mr. DAVIS. Mr. Chairman, would the gentleman yield?

Mr. SAXTON. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I just want to remind the gentleman that whatever happens we will have a study. That is part of the law now that is in the bill. We are still going to have a study.

The gentleman indicated, correctly, that this does require a study, but it also requires that at the end of the study that we go ahead with double bottom tankers unless, in three different criteria, we determine what, if it is determined that retrofitting the ship is going to be deterimental and cause the balance of the ship to be such that it will be very easy to sink.

What if it is determined it is the wrong way to go? That, I think, I just wanted to make clear. We are still going to have a study.

Mr. SAXTON. Mr. Chairman, I appreciate the comments from the gentleman, and I can only say in answer, 100 percent of the studies that have been done to this point have indicated just the contrary.

Mr. TORRICELLI. Mr. Chairman, will the gentleman yield?

Mr. SAXTON. Mr. Chairman, I yield to the gentleman from New Jersey.

Mr. TORRICELLI. Mr. Chairman, actually the issue is characterized now quite well. It is a question of whether, under the Gallo-Torricelli approach, we require double bottoms. We have a program in place now, and then study alternatives, or whether we do nothing, let more time pass and study, as we have done for 30 years. That is the choice. That is why I think we should defeat the substitute and return to the Gallo-Torricelli approach.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. SAXTON. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, the Davis amendment does not say we will do nothing. The Davis amendment mandates double hulls. It mandates them in a way that the Secretary has no choice but to provide for them, unless he determines, in fact, that the mandating of a double hull on a specific tanker design is not good for safety purposes, or unless he finds there is a better way for that tanker to operate, if, in fact, such a way exists.

The point is, something will happen, either under the Gallo-Torricelli amendment or Davis amendment. Under both amendments, double hulls are mandated. All the Davis amendment says is that when we mandate, make sure it is the right thing to do. There is not a better way to do it. Do not mandate in an appropriate sense.

(On request of Mr. TORRICELLI and by unanimous consent, Mr. SAXTON was allowed to proceed for 1 additional minute.)

Mr. SAXTON. Mr. Chairman, I yield to the gentleman from New Jersey.

Mr. TORRICELLI. Mr. Chairman, I appreciate we are getting to the heart of the question.

As the gentleman has sought to correct the record, I, too, would like to clarify the record.

□ 1550

He is right, and I do not want to mischaracterize the issue. It does require a double bottom, unless something happens.

What are those somethings? Unless they find it will not enhance tank vessel navigation safety; the requirement will not enhance protection of the environment; or an equal or great benefit to navigation safety and protection of the environment will be achieved by alternate navigation and safety protection.

"Unless," "or," "unless," "or." The fact is, the substitute is designed to provide an out, an option, an escape, to avoid the consequences of what we should have been doing for 30 years, what this House should have done 15 years ago, and that is to have double bottoms.

There is one way to require a double bottom: Defeat the substitute, and return to the Gallo-Torricelli approach.

Mr. Chairman, I thank the gentleman for yielding.

Mr. HUNTER. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, let me support strongly the Gallo-Torricelli approach. First let me commend the gentleman from New Jersey [Mr. SAXTON] and the gentleman from New Jersey [Mr. GALLO] and all the other members of a task force that we on the Republican side formed on clean oceans that responded to this oilspill, was in place when the oilspill occurred, and in fact put together the package that as I view the substitute package before the full committee today, it was largely written by both gentleman from New Jersey. So let me commend them for the hard work they have done and the other members of the task force who have really put together a large part of the body of this bill before you.

Let me offer to members this proposition: We are going to continue to move oil out of environmentally sensitive areas, out of areas that involve fragile ecosystems. That includes places like Prince William Sound in Alaska and other areas where the coastline is very, very precious to us.

It involves also wonderful areas off of other States, San Diego, CA, where I hail from, and areas around Santa Barbara. On the east coast, of course, many, many areas are very, very fragile environmentally. So we are going to do that.

That is an essential balancing of the interests of preserving our environment and our coast land, but also moving this lifeline of the industrial economic machine, and that is petroleum, to our people and to our industries. We are going to do those things. We are going to move oil out of environmentally sensitive areas.

If Members accept that fact and accept the fact that the Valdez accident is not going to change that basic fact, then it makes sense for us to do one thing that allows us to continue to move petroleum and at the same time do the most we can for the environment. And what is that? It is give the strongest possible construction to the ships that are moving through those environmentally sensitive areas.

Double hulling is the way to do it. If we do that, and if we prevent that percentage of spills that the gentleman from New Jersey [Mr. SAXTON] referred to that can be prevented by having double hulls, then we are not going to have to convene in this Chamber and decide who foots the $1 billion bill, or the $1½ billion bill.

This is the way to go. It is cost effective, because it gives us the strongest possible construction for the ships that move through these fragile ecosystems to bring that petroleum lifeline to us.

It is really a good balance between people that want to keep this country strong and between our interests in keeping this country strong, and keeping the country also environmentally in good condition.

Mr. Chairman, I thank the gentleman for offering this amendment.

Mr. GALLO. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I will be happy to yield to my colleague and friend, the gentleman from New Jersey [Mr. GALLO].

Mr. GALLO. Mr. Chairman, I would like to thank the gentleman for his comments and support. This legislation before us is a preventive measure. The bill for the most part works with ways of cleaning up a spill.

This prevents the spill in the first place. The gentleman mentioned very clearly the cost factor. An ounce of prevention now can save billions of dollars later on in areas that cannot and have not been cleaned up. So I thank the gentleman for his comments.

Mr. HUNTER. Mr. Chairman, I thank the gentleman. I think the oil companies should be behind this particular measure. I also thank the gentleman from New Jersey [Mr. TORRICELLI] for his work on the amendment.

Mr. HAMMERSCHMIDT. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of the amendment of the gentleman from Michigan [Mr. DAVIS].

The amendment requires double hulls and double bottoms on all newly constructed tankers within 1 year of this bill's enactment, unless the Secretary of Transportation determines that this requirement may not prove safe, would not protect the environment, or if greater benefit can be achieved by other measures.

I believe this amendment is sensible. First of all, the Coast Guard has currently contracted a study on this matter with the National Academy of Science. This study will be reported by next November and will provide an objective, unbiased determination on the implications of double hulls and double bottoms on tank vessels. It makes more sense to wait for the results of this study before legislating on technical matters with which we are not completely familiar.

Furthermore, if the National Academy of Science reports that double hulls and double bottoms should be required on all oil tankers, then we need not enact further legislation.

Mr. Chairman, this amendment is an extremely fair compromise between those people who are demanding double hulls on newly constructed vehicles and retrofitting on currently existing tankers, and those people who simply wish that a study be done on this matter.

This amendment is similar to language included in the oilspill bill passed by the Senate. I respect the opinions of the leadership of the committee with primary jurisdiction on this matter and, therefore, defer to their expertise in supporting this amendment.

Also, it should be noted that the administration is strongly opposed to all double hull and double bottom amendments which would decide the issue before the results of the current study are available. However, because the Davis amendment allows the results of that study to be factored in, I believe the administration would be prepared to accept this amendment.

I strongly urge my colleagues to support this substitute amendment.

Mr. TORRICELLI. Mr. Chairman, I move to strike the requisite number of words.

I would first like to compliment the gentleman from Louisiana [Mr. TAUZIN] on his earlier analysis, and, of course, the gentleman from North Carolina [Mr. JONES], the distinguished chairman.

Mr. Chairman, I hold no belief that double bottoms are the one particular answer to our problem of oilspills. I was frankly impressed by the gentleman's analysis. If indeed in time we discover that there are other technologies, as certainly future decades will yield, other approaches, I believe we should pursue them.

But as I compliment his analysis, I also want to recognize our difference. The difference is simply this: If we were here in the 1960's debating this issue, in the 1970's, addressing it in the early 1980's, I would be offering the same suggestion, and the opponents would be raising the same points.

Enough time has passed. No more delay, no more studies. We know the principal points.

This is not a new technology. There are 530 ships on the high seas with double bottoms—530. They carry natural gas. They carry dangerous chemicals.

Is anyone prepared to rise on this floor and cite an instance where a ship sunk, where there was a danger, where there was an explosion, because of the use of that technology? If there is, I am prepared to yield the time.

I do not think any Member will take advantage of my offer, because the fact is it has enhanced safety.

When I see people like the builder of the *Valdez*, the company that is repairing it, saying there would have been environmental protection, a 60-percent reduction in the loss of oil, if there had been a double bottom, I am impressed.

When I see a company like Mobil, which will have to bear some of this burden, citing that one of its own tankers, a 212,000-ton vessel that almost certainly would have sunk and lost oil if not for a double bottom, I am impressed.

The fact is, it will make a difference, and it is the one thing we can do now.

The gentleman from Alaska is right. There are no experts in marine design on this floor. That is true. But these company and previous Coast Guard studies indicate that it would make a difference.

Let me suggest to the gentleman while I am not an expert on marine design, there is one thing upon which I am expert: I am an expert on what happens when a State with a beach, with an economy dependent on tourism, with a people who believe in environmental protection, what happens when you lose oil? What happens when your environment is comprised?

I will tell you what happens. You lose an industry. You lose the access to your natural resources. You get a population that wants an answer.

Well, today we want an answer. This is one of them. The answer is double bottoms. If in future years the committee, while we are retrofitting our fleet, while we are employing designs, has an alternate technology, I am prepared to hear it. But the one way to make up for the loss of the past is to defeat this substitute, and then proceed with the Gallo-Torricelli amendment, and get an answer today.

Mr. HUGHES. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will not take much time because I think this has been debated ad nauseam at this point. I just want to make a couple of observations.

First of all, we have been debating the double bottom issue for at least 12 years. I recall the subcommittee on the Coast Guard when Mario Biaggi was chairman introduced double bottom legislation. At that time we felt that it was essential that we move ahead and try to put in place protection against spills with increased tanker safety. We need to get on with the business.

This is like the oilspill legislation we are debating. We have been debating it for 15 years. It is time for Members to enact something into law.

Mr. Chairman, I would like to ask the author of the amendment a couple questions.

The gentleman's amendment would before the end of 1 year direct the Secretary to require by regulation tank vessels to be equipped with double bottoms or double hulls, unless the Secretary determines, one, the requirement will not enhance tank vessel navigation safety.

Is the gentleman talking about the maneuverability of the vessel?

□ 1600

Mr. DAVIS. Mr. Chairman, in effect what this says is that, if it is determined that retrofitting or a double bottom in a new tanker is unsafe, then we would not want to go ahead with it.

Mr. HUGHES. Unsafe insofar as the operation of the vessel.

Mr. DAVIS. Mr. Chairman, that would be part of it. We would not want an unsafe vessel.

Mr. HUGHES. Mr. Chairman, I am not trying to trap the gentleman from Michigan [Mr. DAVIS]. I am just trying to find out what the gentleman means because the second one is the requirement will not enhance protection of the environment, and there is a relationship. There is overlap there obviously because, if it presents, as my colleagues know, some navigational hazards, then obviously that presents hazards to the environment. Is the gentleman from Michigan [Mr. DAVIS] trying to distinguish between the two?

Mr. DAVIS. It would affect the buoyancy of the vessel. That is one of the things of it.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, there is a concern among those who know a lot more about vessel construction and navigation safety than this gentleman that in some cases by the very nature of the construction of the vessel double bottoms require a deeper draft in order to hold the same amount of cargo and that a deeper draft under certain circumstances could impose navigational hazards because of obvious concerns about the depths of channels.

Additionally, the environmental concern is that, if in fact the double bottom causes a rupture, the double bottom causes a tanker to be less stable and, therefore, subject to sinking.

Mr. HUGHES. Mr. Chairman, I think we can all agree that we have already required, as I think the gentleman from New Jersey [Mr. GALLO], my colleague, indicated, double bottoms in certain vessels. We require vessels that carry toxic substances to have double bottoms. Obviously we have made that determination in the past that there is some additional safety related matters that are addressed by having double bottoms.

Mr. Chairman, let me move on, if I might. The third condition is that the Secretary, if he determines an equal or greater benefit to navigation safety and protection to the environment will be achieved by other construction de-

signs, I would like to ask, "Is the gentleman referring to present state-of-the-art designs that will be of equal value?" or what is the gentleman talking about? I mean are we talking about star wars design? Are we talking about off-the-shelf designs? What does the gentleman envision?

Mr. DAVIS. Will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, it would be that the National Academy of Sciences study that is ongoing now may determine that rather than have double bottom tankers, we have got a better idea, and there is a way to do something in construction, retrofitting these ships will make them even safer, which will make them be able to protect the environment better than double bottoms.

Mr. HUGHES. Mr. Chairman, let me just, if I might, recapture my time again.

Mr. Chairman, I was impressed by the distinguished chairman's display of the new hydrostatic equalization process. I think that has a lot of merit, but frankly my concern is, if we are talking about some star wars design that is not available, then obviously this does not mean anything. It does not mean a thing if we are talking about something in the future that might be an improvement. In the meantime the beaches in my district might be decimated by a major spill. I am interested in doing some things now to prevent, as the gentleman knows, what happened at Valdez, AK.

Mr. Chairman, if the gentleman is talking about state-of-the-art technology that is available within the year, then the gentleman might have a point.

(On request of Mr. TORRICELLI and by unanimous consent, Mr. HUGHES was allowed to proceed for 1 additional minute.)

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, the answer is yes. The answer is that within this year the Secretary has to determine if there is a better way available now, either this hydrostatic balance concept, or perhaps a bladder construction so that the tanks are segregated even further with various bladder constructions. It is available now. If it is not available now, by the end of the year mandate a double bottom.

Mr. HUGHES. Mr. Chairman, in the 15 years I have been here I have seen studies and studies. As my colleagues know, the best way to kill an amendment is to study it to death, and we need to do something now.

Mr. TORRICELLI. Mr. Chairman, will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from New Jersey.

Mr. TORRICELLI. Mr. Chairman, I agree with the gentleman from New Jersey [Mr. HUGHES] completely. I hope at a point in the future the committee comes forward with a design that is agreed upon.

Indeed there is ongoing study now in alternate designs, and, if there is I know this body is prepared to hear it. The question is whether we are willing to make a judgment today.

I also want to address the gentleman's well-taken point about whether or not the specter of perhaps these double bottoms has raised some danger.

(By unanimous consent, Mr. HUGHES was allowed to proceed for 1 additional minute.)

Mr. TORRICELLI. Mr. Chairman, will the gentleman yield?

Mr. HUGHES. I yield to the gentleman from New Jersey.

Mr. TORRICELLI. Mr. Chairman, there are 60 vessels today carrying oil. There are four of them going to Alaska with double bottoms certified by the Coast Guard, approved designs, operating safely. So the idea we are requiring double bottoms and somehow that might possibly be unsafe, those are the safest vessels today. They are operating today, and that is what we want to do with the entire fleet.

Mr. HUGHES. Mr. Chairman, I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, at long last we are considering legislation to prevent oilspills.

Since 1972, more than 177 million gallons of oil have spilled into American waters. But it took the *Exxon Valdez* disaster to really catch the attention of lawmakers and the public.

The greatest loss was felt by fishermen and others whose livelihood depended on the once-pristine waters of Prince William Sound. The damage done will haunt many generations to come.

We cannot replace what has been lost because of the Exxon spill, but we can do everything in our power to prevent future tragedies. That's why I support the bill and the amendment being offered by my colleague from New Jersey [Mr. GALLO] require double hulls on all new tankers and barges using American ports.

This will be expensive, as will be the cost of retrofitting old tankers after a 15-year phase in period. But compare the $20 million cost of a double hull with the almost $2 billion that Exxon has already paid simply to rinse oil from slimy beaches and to skim it from the surface of the sea.

The price of the double hull is truly a cost-effective investment in the environment.

We don't need to study this issue; we need to require this protective measure on boats. The Coast Guard has said that a double hull on the *Valdez* would have contained much of the 11 million gallons that spilled. We already require double hulls on tankers carrying certain extremely dangerous chemicals. We know a double hull will prevent future spills of hazardous materials that pollute our waters.

I urge my colleagues to support the Gallo amendment and oppose the substitute.

Mr. DICKS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in strong opposition to the substitute and in favor of the amendment of the gentleman from New Jersey [Mr. GALLO].

Mr. Chairman, I have long been a proponent of double bottoms, double hulls, and I would just say to my colleagues that we appreciate the fact that the other body approved an amendment which is in essence the substitute here that calls for a study.

However, Mr. Chairman, the question is who is going to do the study. I can tell my colleagues, having been involved in this issue in a previous incarnation, that, if the study is going to be done by the Coast Guard, the Coast Guard is going to come up with a ruling that for some reason these are not safe or we should not do it.

The Coast Guard has been historically opposed to double bottoms and double hulls, and I understand the point of the gentleman from Michigan [Mr. DAVIS]. The gentleman says that the National Academy of Sciences says there may be a safer way to do it.

Mr. Chairman, we know one thing. If we had had double hulls on the *Exxon Valdez*, a significant part of that oil disaster would not have occurred.

Now all I will say is that, if we defeat this substitute, what in essence we are saying is we are going to put it off until later, and I agree very much with the gentleman from New Jersey. Now is the time to act, and I have confidence in my colleagues who will be managing this bill in conference that they can maybe come up with something a little bit better than what the other body adopted if we go in with a stronger provision.

So, Mr. Chairman, I urge my colleagues to defeat this substitute and stay with the stronger provision.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. DICKS. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I just want to make the point that the National Academy of Sciences is doing the study now. The Coast Guard is not doing the study. The study is being

done by the National Academy of Sciences.

□ 1610

Also, I might just say, the gentleman mentioned the *Exxon Valdez* accident, and the gentleman indicated, this has been said before, that the oilspill, if there had been a double bottom tanker, probably not as much oil would have spilled. That is true. That is the good news.

The bad news is that probably if it had been a double bottomed tanker, the tanker would have sunk.

Mr. DICKS. Well, this same argument has been made before. The Coast Guard has always sided with industry here, because industry says this will put them at a competitive disadvantage. That is what we are talking about here. I understand the importance of that.

It is just a question of whether we are more interested here in protecting the environment, the marine environment of this country, or are we fearful of some kind of slight competitive disadvantage.

I think it is better for us to take a strong stance in favor of the environment, go ahead with double hulls, let the study go forward, and if there is a better way to do it, fine; but I will guarantee that if the Coast Guard has anything to do with this, they will figure out some way to say no, because they have been against it for the last 20 years.

The CHAIRMAN pro tempore (Mr. LANCASTER). The Chair once again will explain the parliamentary procedure.

First, the Torricelli amendment to the Gallo amendment will be before the Committee of the Whole for a vote. Following that vote, the floor will then be open for additional amendments to the Gallo amendment, or if none are offered, the Committee will then proceed for a vote on the Davis substitute amendment. Following the vote on the Davis substitute amendment, if it passes it becomes the amendment which will then be considered. If it fails, the floor will then be open for additional amendments, and if none are offered, then the Committee will vote on the amendment, or on the amendment as amended.

The question is on the amendment offered by the gentleman from New Jersey [Mr. TORRICELLI] to the amendment offered by the gentleman from New Jersey [Mr. GALLO].

The amendment to the amendment was agreed to.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Michigan [Mr. DAVIS] as a substitute for the amendment offered by the gentleman from New Jersey [Mr. GALLO], as amended.

The amendment offered as a substitute for the amendment, as amended, was rejected.

AMENDMENT OFFERED BY MR. GUNDERSON TO THE AMENDMENT OFFERED BY MR. GALLO, AS AMENDED

Mr. GUNDERSON. Mr. Chairman, I offer an amendment to the amendment, as amended.

The Clerk read as follows:

Amendment offered by Mr. GUNDERSON to the amendemnt offered by Mr. GALLO, as amended: On page 1 of the amendment, line 12, strike "of at least 10,000 gross tons".

Mr. GUNDERSON. Mr. Chairman, the amendment that is now before us, the Gallo amendment that deals with the issue of assuring that double hulls will become a thing of the future in terms of preventing spills in our society is a concept that I strongly agree with.

The amendment that I have before the House at this particular time, however, will make sure that this standard is utilized not only on ocean-going vessels, but also inland waterways.

The reality is that most of the barge traffic on the inland waterways in American society today, such as the Mississippi River, a typical large vessel averages 1,500 tons to 3,000 tons capacity, but there are normally 10 to 15 barge vessels within that larger barge, so the reality is that you are dealing with anywhere between 30,000 and 45,000 tons, you are not dealing with just 1,500 tons, and that is why it becomes important.

The reality is that since 1985, every year there has been at least one major oilspill on the Upper Mississippi River.

The reality is that in 1986 we dropped over 4,000 gallons after striking a bridge.

In 1987, there were two spills.

In 1988, we had one oilspill in the Illinois area that dumped over 10,000 gallons, one in the St. Louis area that dumped over 300,000 gallons of sulfuric acid that were spilled in the river.

In 1989 in April, over 10,000 gallons were spilled near Memphis, TN.

The reality is that the Wisconsin Department of Natural Resources has concluded that spills between 500,000 and 1 million gallons are possible.

Every year on the Mississippi River alone there are something like over 1 billion gallons of hazardous materials that are carried. So the goal of this amendment is just to make sure, as the Davis substitute did before, that we be size neutral. All vessels which run a major risk of oilspills from here on out would be doubled hulled.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. GUNDERSON. I yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, the gentleman's amendment is a good amendment, if we are going to have the Gallo amendment adopted, and apparently we are. It is a good amendment.

I had the same type of language or would have covered the same subject, so I recommend we adopt this amendment.

Mr. GUNDERSON. Mr. Chairman, I appreciate the gentleman's comments.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. GUNDERSON. I yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I want to compliment the gentleman. One of the areas that we have missed over the last 20 years in regulation has been anything to do with barges. We had a major disaster off the coast of Washington State in which the district of my colleague was adversely affected.

I think getting a handle on these barges is something that has been kind of overlooked in the past. I am glad the gentleman has brought this to our attention. I think it is a good amendment, and I hope the body will adopt it.

Mr. GUNDERSON. Mr. Chairman, I thank the gentleman for his remarks, and I appreciate his support.

Mr. GALLO. Mr. Chairman, will the gentleman yield?

Mr. GUNDERSON. I yield to the gentleman from New Jersey.

Mr. GALLO. Mr. Chairman, I would also like to add my support for the gentleman's amendment to the Gallo amendment.

Mr. GUNDERSON. Mr. Chairman, I appreciate the gentleman's support very much.

Mr. STANGELAND. Mr. Chairman, I rise in futility to oppose the amendment. I do so because the gentleman from Wisconsin makes a good point. There are dangers of spills on the inland waterway system.

I would point out to the body that while those barges are small in size, the tows are large. When you have a spill, you do not have a spill of the whole tow, you have a spill of one barge.

What we are doing is substantially increasing the cost of shipment to farmers with grain down the rivers, with finished materials, petroleum up the river. What you are doing with this amendment is very similar to what we did in the Superfund when we put LUST in Superfund, leaking underground storage tanks, 3 to 5 million storage tanks, 10 percent potentially leaking, and we are putting out of business countless small gasoline station owners and operators throughout small towns in rural America.

What you are doing with this amendment is very similar. You are going to make it very difficult, if not impossible, for an ailing barge industry to say competitive, to stay in business, and you are going to increase the cost to your consumers.

I just want to be on record in opposition to this amendment.

The CHAIRMAN. The question is on the amendment offered by the gentle-

man from Wisconsin [Mr. GUNDERSON] to the amendment offered by the gentleman from New Jersey [Mr. GALLO], as amended.

The amendment to the amendment as amended, was agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey [Mr. GALLO], as amended.

The amendment, as amended, was agreed to.

AMENDMENT OFFERED BY MR. SAXTON

Mr. SAXTON. Mr. Chairman, I offer an amendment, and I ask unanimous consent that it be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The text of the amendment is as follows:

Amendment offered by Mr. SAXTON: Page 89, line 22, insert "(but in no event later than 5 hours)" after "immediate".

Mr. SAXTON. Mr. Chairman, my amendment will clarify how quickly removal personnel must be on the job when a spill occurs. As we have seen in the incident with the *Exxon Valdez* spill, and the *Presidente Riviera* spill in the Delaware River, delay in containing the spilling oil can make cleanup all the harder and greatly increases the risk to the marine environment. This amendment, which is taken from my bill, the Clean Oceans Act of 1989, would require cleanup personnel to be onsite and removing oil from the water and the shoreline within 5 hours.

The text of the bill before us indicates that contingency plans must provide for an "immediate" removal of oil. I applaud this idea, but believe that we should clarify what this important term means. I have been assured by my colleagues that the intent of the authors of the Oil Pollution Act of 1989 is to provide the fastest possible response. However, I would like to ask the chairman of the Public Works and Transportation Committee and the Merchant Marine and Fisheries Committee if a response time of more than 5 hours would normally not be "an effective and immediate removal" as spelled out in the bill and under the terms of the bill.

Mr. NOWAK. Mr. Chairman, will the gentleman yield?

Mr. SAXTON. I yield to the gentleman from New York.

Mr. NOWAK. Mr. Chairman, the gentleman's statement is correct. Except in extreme emergencies, we would expect removal actions to begin well within 5 hours of the discharge.

Mr. SAXTON. Mr. Chairman, I yield to the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Chairman, our committee agrees that contingency plans provide that responses to all spills should take place within 5 hours of the spill. The answer is yes, that was the intent of the committee in developing this comprehensive legislation.

Mr. SAXTON. Mr. Chairman, with these assurances, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The CHAIRMAN. The amendment offered by the gentleman from New Jersey [Mr. SAXTON] is withdrawn.

□ 1620

The CHAIRMAN pro tempore (Mr. LANCASTER). Are there further amendments to title IV?

AMENDMENT OFFERED BY MR. REGULA

Mr. REGULA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

On page 84 after line 14 insert the following:

(d) Not later than 1 year after the date of enactment of this Act, the Secretary shall prohibit the movement of vessels carrying crude oil or any refined petroleum product in areas where oil and gas leasing, exploration, or development activities proposed under 43 U.S.C. Chapter 13 (including but not limited to calls for information, tract selection, environmental impact statements, notices of sale, receipt of bids, award of leases, and approval of exploration or development plans) are prohibited by legislative action unless the Secretary determines that—

(1) this requirement will not enhance oil tanker navigation safety;

(2) this requirement will not enhance protection of the environment;

(3) this requirement will impose undue economic hardship; or

(4) an equal or greater benefit to navigation safety and protection of the environment will be achieved by other requirements.

(e) A finding by the Secretary that vessels transporting crude oil or any refined petroleum product shall not be prohibited in areas listed in subsection (d) shall not affect his authority to place reasonable limits on such vessels if he determines that those limitations will enhance navigation safety or protection of the environment.

(f) The Secretary of the Department in which the Coast Guard is operating is authorized to promulgate regulations necessary to implement the restrictions of subsections (d) and (e).

Mr. REGULA (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Ohio,

There was no objection.

Mr. REGULA. Mr. Chairman, members of the committee, as I listened to the debate yesterday, I thought of the cliché that we all use, "an ounce of prevention is worth a pound of cure."

Yesterday we talked about lawsuits, we talked about negligence criteria, we talked about ways to collect money from tanker companies, but collecting money does not bring a baby otter back to life. It does not clean up a beach. It does not address the problems that result from spills.

I think that this body needs to develop a program of ocean wilderness. We need to recognize what really are fragile areas in our oceans and set them aside just as we do wilderness. We have in the last 8 or 9 years set aside 84 million acres, some fragile, and put it under moratoria. The potential in this 84 million acres is 35 billion barrels of oil.

Today, imports are more than 50 percent of our oil consumption in the United States, and I would remind the Members that when we had the oil embargo, when our constituents were on us to do something about it, that at that point imports were 36 percent, and we had gasoline lines, we had high prices, we had businesses without fuel. Today it is over 50 percent, and in December 1988, for the first time in 9 years, imports exceeded domestic production.

I think we have a real problem facing us, and, therefore, we need to look at this whole issue of ocean wilderness. In the meantime, what this amendment does, is it deals with the whole question of safety. After the year's study, it gives the Secretary of Transportation the right to exclude tankers from the same area that is under moratoria. Why? Because the reason we put moratoria on the 84 million acres is to prevent spills.

Let us look at the record. The spills are caused by tankers. If we look at this chart, we find offshore drilling is 2 percent of the spills; municipal and industrial waste is 36 percent; tankers 45. Forty-five versus two. So if we are concerned about safety, if an ounce of prevention is really important, let us give the Secretary some discretion in dealing with tanker traffic in the 84 million acres that we have said is fragile, that we do not want to drill, because we are afraid of spills.

If we are afraid of spills in the 84 million acres, given the record, we certainly should not have tankers in there.

I give in this amendment the Secretary plenty of latitude to deal with the problem. It does not take effect if the Secretary determines that this will not enhance oil-tanker nevigation safety; that this requirement will not enhance protection of the environment; that this requirement will impose undue economic hardship, or, that an equal or greater benefit to navigation safety and protection of the environment will be achieved by other requirements.

What I am trying to do is focus attention on the fact that the real culprit in spills are tankers and, therefore, as we try to set aside ocean areas

that should be, in effect, ocean wilderness, we should also ban tanker traffic as well as drilling platforms.

Let us make a policy decision as to what kind of fragile areas ought to be subject to these requirements. What I have done in this is to focus that attention and give the Secretary of Transportation a great deal of latitude. I would also point out that this does not apply to the 3-mile areas that are controlled by the States. It only applies to the Federal lands.

I would point out one last fact, that since 1947 we have drilled 26,000 Federal wells offshore. Only 1 of the 26,000 has had any major spill, and that was the Santa Barbara about 20 years ago.

Let us today give the Secretary of Transportation the ability to have that ounce of prevention for tanker spills that is the pound of cure.

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. REGULA. I am happy to yield to the gentleman from California.

Mr. MILLER of California. Mr. Chairman, I thank the gentleman for yielding.

I am interested in some clarification. As I understand the amendment, this would not affect the moratoriums that are in place? We now have moratoriums on most of the coastal States except for the gulf, as I understand it. Is that correct?

Mr. REGULA. We have 84 million acres, and this is designated in the interior appropriation.

Mr. MILLER of California. If the gentleman will yield further, this would not affect the moratoria?

Mr. REGULA. No. Not at all.

Mr. MILLER of California. What it would do is the Secretary, in his or her discretion, could decide not to let tanker traffic through that area?

Mr. REGULA. That is correct after the year's study, subject to the criteria. We give the Transportation Secretary a broad latitude of criteria to apply in determining that tankers should still transit the moratoria area.

Mr. MILLER of California. The tanker could weave its way around the moratoria and find its way to Long Beach or to San Francisco or to Valdez?

Mr. REGULA. Absolutely, or it could very well not be banned by virtue of the Secretary determining that there would be undue economic hardship, and that obviously addresses the port question, if there is no other access.

Mr. MILLER of California. We are not going to shut down the west coast or east coast oil refineries?

Mr. REGULA. I do not see that we are. I think what we are going to do is focus attention on the fact that there are two dangers to spills, platforms and tankers.

The CHAIRMAN pro tempore. The time of the gentleman from Ohio [Mr. REGULA] has expired.

(At the request of Mr. MILLER of California and by unanimous consent, Mr. REGULA was allowed to proceed for 1 additional minute.)

Mr. MILLER of California. Mr. Chairman, will the gentleman continue to yield.

Mr. REGULA. I am happy to yield to the gentleman from California.

Mr. MILLER of California. Mr. Chairman, I do not know what the committee's position on this is, but somebody ought to call the Secretary of the Interior in a real hurry on this one, if that is what people want to do.

Mr. STUDDS. Mr. Chairman, will the gentleman yield?

Mr. REGULA. I am happy to yield to the gentleman from Massachusetts.

Mr. STUDDS. Mr. Chairman, which Secretary is in question?

Mr. REGULA. Transportation.

Mr. STUDDS. If the gentleman will yield further, would I be correct in assuming that the gentleman's amendment does not purport to grant to the Secretary any authority which he does not already have with respect to international waters?

Mr. REGULA. I think it focuses attention on the problem of tanker traffic. I am not sure whether he has adequate authority now to ban tankers in the moratoria area if there is a risk from spillage, because as the gentleman knows, the tankers, and this is true for many different countries, some of them in very poor condition, do transit moratoria areas.

Mr. STUDDS. I understand the point the gentleman is trying to make, and I respect it, although I do not share his position. I just wanted the RECORD to reflect that the Secretary of Transportation has no authority whatsoever as far as I know to regulate traffic of vessels in international waters.

Mr. REGULA. I would respond that he has authority by virtue of the fact that he ultimately controls access to U.S. ports.

Mr. STUDDS. I understand. I appreciate the point the gentleman is trying to make, and I hope the record reflects the twinkle in his eyes.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. REGULA. I am happy to yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I regret that I was on a phone call with the Secretary of Defense. Could the gentleman explain what he thinks this amendment is? Is he saying that oil tankers cannot go through areas of moratorium?

Mr. REGULA. Only after there has been a study and the Secretary of Transportation has applied the criteria set forth in the amendment.

The CHAIRMAN pro tempore. The time of the gentleman from Ohio [Mr. REGULA] has again expired.

(By unanimous consent, Mr. REGULA was allowed to proceed for 2 additional minutes.)

Mr. REGULA. Mr. Chairman, after there has been a study, the Secretary of Transportation can continue to permit transit through the moratoria areas if the situation meets any of the criteria that are spelled out in the amendment. What I am trying to do is focus attention on the fact that the danger of spills from tankers is far greater than it is from platforms, and if we are going to ban platforms from 84 million acres, we ought to be thinking about whether or not we want tankers transiting the same area, because the reason for banning platforms is to avoid spills, and yet the risks are 45 to 2 more dangerous for tankers.

Mr. DICKS. If the gentleman will yield further, does his amendment say that this requirement will not enhance oil tanker navigation safety?

Mr. REGULA. I am saying that if the Secretary determines that it will not enhance safety or if it is an economic hardship, and each one of these is a condition he can use, one or all of them, as a reason for not banning tanker traffic in the moratoria area, that the Secretary has a great deal of latitude under this language. I do think that it focuses attention on the fact that the real hazard for spills is the tanker traffic far more than the platforms.

Mr. DICKS. I appreciate the gentleman yielding. I understand the gentleman's point. He has made it many times in the Interior Appropriations Committee, and I would hope, however, that the committee would reject this amendment.

□ 1630

Mr. YOUNG of Alaska. Mr. Chairman, I move to strike the requisite number of words. I want to compliment the gentleman on his amendment that brings to the attention of this body that we have sea wilderness set aside with a moratorium by the action of this Congress and the committee process. All we are saying is if we have a moratorium and these areas are fragile, and they are, then there should not be any tanker traffic across those areas.

We do not build roads through wilderness. I see my good friend, the gentleman from California, standing there. They do not allow roads in the wilderness in his State. So we should not have any tanker traffic that brings that foreign oil to our shores, because if we look at the map, we see what happens, and that is what causes the problems.

But offshore, the platform is very small.

But we have a Congress that ignores the everyday crisis that this country is being faced with and is saying no, no to everything, and all the gentleman is doing is bringing to the attention of this body that if we really want to protect those areas, and I do, then let us not allow any tankers across the area to bring that heating oil and other oil products from the OPEC countries. That is all he is saying.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Alaska. I am delighted to yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, is the gentleman also talking about the oil from Alaska that comes down the west coast?

Mr. YOUNG of Alaska. If the gentleman has a moratorium on his coast, you bet. If you do not want to drill off your coast, you bet, we will send them someplace else.

But I am suggesting that we cannot have it both ways. We have the potential of traffic, and we saw it in Alaska, and I am saying that the gentleman should be complimented on his position.

For all those Members who are following the Pied Piper, and I will not say who, but they all should support the gentleman's amendment. It makes a great deal of sense, sea wilderness with no tanker traffic across it that could have spills. That is all the gentleman is saying.

I want to compliment the gentleman for his presentation, because it makes a great deal of sense to me. If we want wilderness at sea, let us have a wilderness at sea. Let us do that. I have no objection to that at all. Do not let those foreign tankers across there bringing 51 percent of the oil to our shores, and we are paying that price to the OPEC countries.

Let us think about that a moment. I compliment the gentleman for his presentation.

Mr. TAUZIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, while some may not think the gentleman is being serious in his proposition, and some have treated it lightly, let me call attention to a more serious concern that the gentleman raises and that we discussed when we prepared this oilspill liability for the House.

First of all this summer this Nation experienced another statistical event that I hope caught Member's attention. This summer in July we imported over 50 percent of our oil. This summer we hit a higher oil import percentage then we did at the height of the Arab oil embargo. That should have bothered Members a little bit.

About the same time we had a terrible transportation accident in Alaska. A tanker trying to bring some oil into America, that came from our own country, as a matter of fact, in this case, spilled some oil.

The gentleman also calls to our attention that most of the spills that we are concerned about in this bill come from tankers bringing oil into America.

What Members may not know is that most energy experts estimate that that statistical event this summer of 50 percent or more imported oil will be magnified within the next 5 to 10 years to a total of approximately 75 percent of all oil consumed in America imported, and by the way, imported more and more in foreign tankers captained by foreign captains.

I call to Members' attention the spill that happened in Rhode Island, a foreign tanker, foreign captain who did not know the rules of the road in America, did not take on the pilot he was supposed to take, had charts that were undated so he did not know how old they were, and came right into our harbor, grounded his ship, and spilled oil in a fragile environment there.

A total of 75 percent of the oil coming into America in the next 5 to 10 years will come from foreign sources in those kinds of ships, manned by those kinds of captains and mates and seaman, using old charts in ships that have not come to America yet and will be coming for the first time with crews who do not know our harbors and our ports.

If we like that situation, if we think that is a good idea, then pass some moratorium for America and shut off some more areas to development, deny America the chance to produce its own energy.

That makes a lot of sense, right? Let us depend upon more ships, more tankers coming in with foreign crews that do not know our country, do not know our ports, and spill it all over us. It makes a lot of sense.

But that is the way we are reacting to the spill in Valdez. The gentleman is calling our attention to a serious problem and I hope Members take it seriously.

We can pass moratoria all we want in the interest of protecting the environment, if that is really what we want to do. I want to protect the environment too. But I think America needs its own energy, and we can protect our environment a lot better statistically by producing it at home and delivering it in a pipe than we can by counting on foreign tankers to bring to us. Not only does it create instability for us internationally, financially, but it causes us great concern when we consider oilspill liability in the future for all of those tankers who do not know where they are going.

Think about it. The gentleman has raised some serious concerns, and he deserves our serious attention.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Ohio [Mr. REGULA).

The amendment was rejected.

The CHAIRMAN pro tempore. Are there further amendments to title IV?

If not, the Clerk will designate title V.

The text of title V is as follows:

TITLE V—PRINCE WILLIAM SOUND OIL SPILL REMOVAL

SEC. 5001. SHORT TITLE.

This title may be cited as the "Prince William Sound Oil Spill Removal Act of 1989".

SEC. 5002. DEFINITIONS.

For purposes of this title—

(1) "Arctic waters" means the navigable waters of the United States in the State of Alaska and the waters of the exclusive economic zone established by Presidential Proclamation Number 5030, dated March 10, 1983, adjacent to the State of Alaska.

(2) "Prince William Sound" means all State and Federal waters within Prince William Sound, Alaska, including the approach to Hinchenbrook Entrance out to and encompassing Seal Rocks.

(3) "Tank vessel" has the same meaning given that term in section 2101 of title 46, United States Code, except that it does not include an escort vessel or any other vessel used to remove an unlawful discharge of oil.

SEC. 5003. TANK VESSEL REQUIREMENTS.

Not later than 6 months after the date of enactment of this title, the Secretary shall require under section 3703(a)(3) of title 46, United States Code—

(1) tank vessels transporting oil from the Trans-Alaska Pipeline within designated areas of Prince William Sound to be escorted by at least one towing vessel (as defined under section 2101 of title 46, United States Code) or other vessels considered appropriate by the Secretary; and

(2) in addition to the requirements of section 8502 of title 46, United States Code, the use of a pilot licensed by the State of Alaska who is operating under a Federal license for all tank vessels navigating between the Port of Valdez, Alaska, and a point in Prince William Sound south of Bligh Reef.

SEC. 5004. VESSEL TRAFFIC SERVICE SYSTEM.

(a) PLAN.—Not later than 4 months after the date of enactment of this Act, the Secretary shall prepare a plan to modify the surveillance coverage for vessels in Prince William Sound. The plan shall include options for construction of new radar sites to cover all of the vessel traffic service system within Prince William Sound, a review of existing vessel surveillance programs to ensure constant contact with vessel traffic when necessary, a review of radar maintenance policies to ensure that the vessel traffic service system is maintained at or above a 99.9 percent availability standard, and any proposals using other technology that will provide the same operational and availability standards.

(b) IMPLEMENTATION.—The Secretary shall implement the plan required under subsection (a) not later than 1 year after its preparation.

SEC. 5005. EQUIPMENT AND PERSONNEL REQUIREMENTS.

Not later than 18 months after the date of enactment of this title, the Secretary, under section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j)), shall require—

(1) prepositioned oil spill containment and removal equipment in the Port of Valdez, the city of Cordova, and other locations within the geographic boundaries of Prince William Sound, including escort vessels with skimming capability, barges to receive recovered oil, heavy duty sea boom, pumping, transferring, lightering equipment, and other appropriate removal equipment for the protection of the environment, including fish hatcheries;

(2) the establishment of an oil spill removal organization at Cordova, Tatitlek, Valdez, Chenega, or other appropriate locations in Prince William Sound consisting of trained personnel in sufficient numbers to immediately remove a discharge of 200,000 barrels of oil;

(3) tank vessels operating in Prince William Sound to have on board appropriate equipment or materials sufficient to remove quickly a discharge of oil and to minimize the damage to the environment from that oil;

(4) training in oil removal techniques for local residents and individuals engaged in the cultivation or production of fish or fish products in Prince William Sound; and

(5) practice exercises not less than two times per year which test the capacity of the equipment and personnel required under this section. That equipment shall undergo periodic testing and certification as required by the Secretary.

SEC. 5006. USE OF LOCAL SERVICES.

In carrying out this title, the Secretary shall—

(1) consult with local residents and local landowners of the Prince William Sound area; and

(2) ensure the use, to the maximum extent feasible, of the services, equipment, and facilities of locally based contractors who have oil discharge removal expertise.

SEC. 5007. AUTHORITY OF STATE OF ALASKA.

Nothing in this title shall be construed as changing, diminishing, or affecting in any way the authority of the State of Alaska, or any political subdivision thereof, to regulate tank vessels or to provide for oil spill contingency planning in State waters.

SEC. 5008. ENVIRONMENTAL ASSESSMENTS.

(a) NOAA EXPENDITURES.—From sums appropriated for this purpose, the Under Secretary for Oceans and Atmosphere of the Department of Commerce shall expend no less than $5,000,000 in each of fiscal years 1990, 1991, and 1992, to conduct living marine resource damage assessments in Arctic waters from the discharge of oil that occurred as a result of the grounding of the EXXON VALDEZ in Prince William Sound.

(b) RECOVERED SUMS.—The Under Secretary for Oceans and Atmosphere shall, whenever possible, recover the sums expended under subsection (a) of this section from the owner or operator of the EXXON VALDEZ. These sums shall be credited to the appropriations of the National Oceanic and Atmospheric Administration.

(c) CRITERIA.—In carrying out this section, the Under Secretary for Oceans and Atmosphere shall—

(1) consult with local residents and significant local landowners of the Prince William Sound area;

(2) coordinate assessment and monitoring work with the State of Alaska and the Prince William Sound Science and Technology Institute through the establishment of an appropriate working group; and

(3) to the extent practicable, use local services and expertise.

SEC. 5009. REPORT.

Not later than 4 months after the date of enactment of this title, after providing for a 60-day public comment period, the Secretary shall report to Congress on—

(1) a list of oil pollution exercises conducted in the Port of Valdez and Prince William Sound during the operating of the Trans-Alaska Pipeline; and

(2) any other matters the Secretary considers important regarding oil spills in Arctic waters, including faster approval by State and Federal agencies of oil spill removal technology.

The CHAIRMAN pro tempore. Are there amendments to title V?

If not, the Clerk will designate title VI.

The text of title VI is as follows:

TITLE VI—MISCELLANEOUS

SEC. 6001. STATUTORY WAIVERS.

(a) IN GENERAL.—Section 2113 of title 46, United States Code, is amended—

(1) by inserting "(a)" before "If the"; and

(2) by adding at the end the following:

"(b)(1) Notwithstanding another law, the Secretary may waive the application of parts B, C, F (except section 8103), and H of this subtitle, if the Secretary determines that the waiver is needed in a crisis concerning—

"(A) a discharge, or threat of a discharge, of oil or a hazardous substance; or

"(B) the national defense, as determined by the Secretary of Defense.

"(2) A waiver may be issued under this section on the Secretary's own initiative or on request of the head of another department, agency, or instrumentality of the United States Government.

"(3) A waiver issued under this section shall—

"(A) state the reason for the waiver;

"(B) be for a specified period, not to exceed 1 year, and may not be renewed;

"(C) state which requirements of law are being waived; and

"(D) terminate when qualified individuals or vessels are available.".

(b) CONFORMING AMENDMENT.—The Act of December 27, 1950 (46 App. U.S.C. chapter 1 note) is repealed.

SEC. 6002. SAVINGS CLAUSE.

This Act does not affect—

(1) admiralty and maritime law; or

(2) the jurisdiction of the district courts of the United States with respect to civil actions under admiralty and maritime jurisdiction, saving to suitors in all cases all other remedies to which they are otherwise entitled.

SEC. 6003. QUALIFIED AUTHORIZING LEGISLATION.

This Act shall be considered to be qualified authorizing legislation for purposes of section 4611(f)(2)(B) of the Internal Revenue Code of 1986.

AMENDMENT OFFERED BY MR. JONES OF NORTH CAROLINA

Mr. JONES of North Carolina. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. JONES of North Carolina: Page 112, after line 4, insert the following new section:

SEC. 6004. ANNUAL APPROPRIATIONS.

(a) REQUIRED.—Notwithstanding any other provision of this Act, (other than subsection (b) of this section), amounts in the Fund shall be available only as provided in annual appropriation Acts.

(b) EXCEPTIONS.—Subsection (a) shall not apply to sections 1006(f) and 1006(g)(4), and shall not apply to an amount not to exceed $30,000,000 in any fiscal year which the President may make available from the fund to carry out section 311(c)(1) of the Federal Water Pollution Control Act. Sums to which this subsection applies shall remain available until expended.

Conform the table of contents of the bill accordingly.

Mr. JONES of North Carolina (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. JONES of North Carolina. Mr. Chairman, as reported from committee, this bill provides that all amounts in the oilspill fund are directly available to the President, without appropriation. This amendment requires that all activities authorized by this act are subject to the annual appropriations process, but retains direct spending authority in three instances:

First, payments for damages to natural resources;

Second, civil penalties; and

Third, response actions under section 311 of the Clean Water Act.

The CBO scored the bill with $221 million in direct spending over 3 years. This was not intended and we have worked in cooperation with the Budget Committee and the House leadership to craft a compromise that substantially reduces direct spending.

This amendment would strictly limit direct spending from the oilspill fund to the three cases listed above. Most importantly, the amendment retains a provision allowing the President to draw on the fund, up to $30 million in any fiscal year, for oilspill response. This will give the Coast Guard a needed cushion and allow speedy oilspill response while the Congress considers the need to appropriate additional sums from the fund.

Absent this direct draw authority, an oilspill during an August recess could be a calamity. This amendment makes common sense. It makes budget sense.

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. JONES of North Carolina. I am delighted to yield to the gentleman from California.

Mr. PANETTA. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the amendment of the gentleman from North Carolina, the chairman of the Merchant Marine and Fisheries Committee.

This amendment strikes a balance between the need to protect our coastlines from the ravages of oil spills and the need to control Federal spending. It would make most of the expenditures authorized by this bill subject to the appropriations process. The direct spending which would result from the bill as amended by this amendment is estimated to be only about $1 million per year.

In addition to allowing funds received from certain penalities for damages to natural resources to be used for the restoration of those damaged resources, the amendment would allow spending of up to $30 million for emergency removal actions under section 311(c)(1) of the Federal Water Pollution Control Act. The availability of these funds, which would only be used if necessary, would ensure that the Federal Government could respond quickly to such an emergency. The Congressional Budget Office does not score this provision against the cost of the bill because it is impossible to predict the number and size of any spills which may occur and what the actual response costs might be.

The effect of this amendment would be, then, to reduce the direct spending authorized in the bill to $1 million per year, instead of the $114 million in the bill as reported. This is critical, in terms of controlling Federal spending.

As a Member of Congress from California, I am keenly aware of the need to protect our coasts and to prevent catastrophes such as the tragic spill earlier this year in Prince William Sound, in Alaska. But, as with so many other critical needs of our Nation, we must be willing to make the political commitment to provide the funds necessary to meet these needs. I have supported and will continue to support efforts to obtain those funds and to ensure that these critical programs to safeguard our coasts and waterways are protected. But that must occur through the appropriations process where competing needs can be balanced and where tough choices can be made, and not through back-door spending mechanisms. Making those tough choices is the very essence of our roles as Representatives and while no one finds this an easy job, it is one which, in my view, we were sent here to do.

Again, I thank the gentleman from North Carolina for offering this amendment and I urge its adoption.

Mr. NOWAK. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of this amendment offered by Chairman JONES. The amendment would specify that expenditures from the oil spill liability trust fund are subject to appropriations by the Congress. In addition, it would provide that not to exceed $30 million in any fiscal year is to be available for responding to oil spills in advance of appropriations by Congress. This will protect the ability should it arise, for a quick response if Congress has not been able to provide a timely appropriation of funds for oil spill cleanup.

I thank the gentleman for his amendment and urge my colleagues to support it.

□ 1640

Mr. TAUZIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I do so to engage the chairman of the Committee on the Budget in a brief colloquy.

I would like to point out to the House that this bill imposes upon the Coast Guard significant new responsibilities which are going to be costly to the Coast Guard and that as we collect the funds into this major new superfund for purposes of prevention and restoration of our environment, some of those funds are going to be necessary for the Coast Guard to not only beef up its manpower requirements, but to actually acquire and equip itself in a better shape to deal with the contingencies.

In that regard I would like to ask the chairman of the Committee on the Budget if in fact when these funds are being collected, if as chairman of the Committee on the Budget he believes the Budget Committee can take that into consideration and will recommend greater allocations to the subcommittee of appropriations having jurisdiction for that purpose.

Mr. PANETTA. Mr Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from California [Mr. PANETTA].

Mr. PANETTA. I thank the gentleman for yielding.

Mr. Chairman, obviously if this legislation is enacted, there are additional responsibilities that will fall on the Coast Guard. Even up to this point the Coast Guard has tremendous responsibility not only in providing for safety but also in law enforcement, particularly with regard to drugs.

As a consequence of that, I know their budget has been continually constricted year in and year out. We have tried to see if we could provide additional funds for that purpose.

This is an additional responsibility on top of what they already have, and obviously we will consider that during the deliberations on the budget resolution and try to assist them as much as possible.

Mr. TAUZIN. I thank the chairman for his assistance.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from North Carolina [Mr. JONES].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. WALKER

Mr. WALKER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WALKER: Page 112, after line 4, add the following new section:

SEC. . DRUG-FREE WORKPLACE REQUIREMENTS.

(a) For the purposes of section 5153 of the Anti-Drug Abuse Act of 1988 (41 USC 702), a "grant from any Federal Agency" includes the obligation of amounts from the Fund by the Governor of each State, or the State official designated by the Governor.

(b) For the purposes of section 5152 of the Anti-Drug Abuse Act of 1988 (41 USC 701), a "contract for the procurement of any property or services" includes any agreement for removal activities.

Mr. WALKER (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Pennsyvlania?

There was no objection.

Mr. WALKER. Mr. Chairman, I do not intend to take a long time on this amendment. I think it has been agreed to by both sides. They will confirm that here in a moment.

I will explain the purpose of the amendment: The amendment insures that all of the activities taking place under the fund that has been set up will in fact be in compliance with the Anti-Drug Abuse Act of 1988 with regard to the drug-free workplace. This simply assures that any grant or any contracts allocated under this will fall under the provisions of the Drug-Free Workplace Act passed by Congress in 1988.

I know of no objections to the amendment.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Louisiana.

Mr. TAUZIN. I thank the gentleman for yielding.

Mr. Chairman, I want to encourage the gentleman in this effort. As you know, the idea of a drug-free workplace is one that is being adopted across America. The gentleman [Mr. WALKER] is very, very, I think, conscientious providing for it in this bill. We not only support but encourage his amendment.

Mr. WALKER. I thank the gentleman.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Washington.

Mr. DICKS. I thank the gentleman for yielding.

Mr. Chairman, would this include tankers?

Mr. WALKER. Would this include tankers?

Mr. DICKS. Yes.

Mr. WALKER. I would say to the gentleman it probably does if they are not included already.

Mr. DICKS. Obviously, in this case of the *Exxon Valdez*, this would be a very appropriate situation.

Mr. WALKER. I thank the gentleman for his contribution.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Pennsylvania [Mr. WALKER].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. BARTON OF TEXAS

Mr. BARTON of Texas. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BARTON of Texas: After section 6003 of the bill, insert the following new section (and amend the table of contents accordingly):

SEC. 6004. OIL SPILL LIABILITY TRUST FUND FINANCING RATE NOT TO APPLY TO CERTAIN CRUDE OIL.

(a) GENERAL RULE.—Subsection (c) of section 4611 of the Internal Revenue Code of 1986 is amended by adding at the end thereof the following new paragraph:

"(3) OIL SPILL RATE NOT TO APPLY TO CERTAIN CRUDE OIL.—The Oil Spill Liability Trust Fund financing rate shall not apply for purposes of the tax imposed by subsection (a)(1) on any crude oil if such crude oil had never been transported in a vessel on water before receipt at the refinery.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the commencement date (as defined in section 4611(f)(2) of the Internal Revenue Code of 1986).

Mr. BARTON of Texas (during the reading). Mr. Chairman I ask unanimous consent the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BARTON of Texas. Mr. Chairman, it is my intent to withdraw this amendment because if I insist on it being considered, it is my understanding the parliamentarian would sustain a point of order that it could not be considered.

So it is for debating purposes only.

It was provided yesterday to all the appropriate staffs. This is not an end run.

The CHAIRMAN pro tempore. The gentleman is recognized for 5 minutes.

Mr. BARTON of Texas. I thank the chairman.

Mr. Chairman, this amendment's intent is very simple. Under current law there is a tax of 1.3 cents per barrel on imported and domestic oil to go into a fund, a cleanup fund. This tax has never been collected.

Under existing law it would expire in 1991. In budget reconciliation there is a proposal to increase the tax to 3 cents per barrel on domestic oil and imported oil.

What my amendment would do is it would restrict the collection of the tax to oil that is transported by tanker or in barges on our riverways.

We have a large number of small independent producers who produce small amounts of oil per well that are going to be forced to pay, as the tax is currently structured, into a fund that they would never get any benefit from.

What my amendment would do, quite simply, it would not in any way restrict the level of the tax, it would not restrict for what reason the taxes could be used. What it would do is to say that you can only tax that oil that is either imported by ocean tanker, transported by ocean tanker, or transported on our riverways.

Mr. Chairman, this is supported by the Independent Petroleum Association of America, it is supported by the Texas Independent Producers and Royalty Owners.

I think it is a good idea. If we could get a vote on it, I think we might could win.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. BARTON of Texas. I yield to the gentleman from Louisiana.

Mr. TAUZIN. I thank the gentleman for yielding.

Mr. Chairman, I do this only to point out that it is a tax amendment and as such it violates clause 5 of rule XXI. The gentleman is aware of that.

Whatever the soundness of his reasoning, we have a problem with the amendment for that reason.

Mr. BARTON of Texas. I understand. I would like to submit for the record some extraneous matter to go into the RECORD.

In that material are three questions that are asked:

Why should an independent be burdened with a tax on crude oil production that is onshore and piped or trucked directly to a refinery, when the tax is directed to assist the cleanup of tanker or barge spills that often are hundreds of miles away and the independent bears absolutely no responsibility for the incident?

Why should domestic stripper well production—often less than 5 barrels per day—be forced to pay the cost of cleaning up imported oilspills from foreign owned tankers?

Why should Congress enact additional disincentives to domestic—onshore—production when the Nation is importing 50 percent of its oil, adding to the trade deficit?

The CHAIRMAN pro tempore. The extraneous material to which the gentleman referred, he must request permission to insert that in the RECORD when we are in the House. That which the gentleman has read will be in the RECORD at this point.

Mr. BARTON of Texas. I thank the Chairman.

I will finish up here by pointing out that in several States over 70 percent of the oil that is produced in those States is from small stripper wells, Illinois, over 90 percent; Indiana, over 92 percent; Kansas, 97 percent; Kentucky, 85 percent; Missouri, 92 percent; New York, 77 percent; Ohio, 73 percent; Oklahoma, 88 percent; Pennsylvania, 87 percent; Tennessee, 73 percent, Virginia, 94 percent; West Virginia, 100 percent. Oil producers in all of these States are going to be paying into the oilspill liability fund and they will never cause an oilspill and never get any benefit from the money that we are collecting.

So I would hope that in the conference on the Ways and Means Committee we could act on this amendment at the appropriate time.

Mr. Chairman, I ask unanimous consent that I be permitted to withdraw the amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

□ 1650

The CHAIRMAN pro tempore (Mr. LANCASTER). Are there further amendments to title VI?

If not, the Clerk will designate title VII.

The text of title VII is as follows:

TITLE VII—RESEARCH AND DEVELOPMENT

SEC. 7001. OIL POLLUTION RESEARCH AND DEVELOPMENT PROGRAM.

(a) INTERAGENCY COORDINATING COMMITTEE ON OIL POLLUTION RESEARCH.—

(1) ESTABLISHMENT.—There is established an Interagency Coordinating Committee on Oil Pollution Research (hereafter in this section referred to as the "Interagency Committee").

(2) PURPOSES.—The Interagency Committee shall coordinate a comprehensive program of oil pollution research, development, and demonstration among the Federal agencies, in cooperation and coordination with industry, universities, research institutions, State governments, and other nations, as appropriate, and shall foster cost-effective research mechanisms, including the joint funding of research.

(3) MEMBERSHIP.—The Interagency Committee shall include representatives from the Department of Commerce (including the National Oceanic and Atmospheric Administration and the National Institute of Standards and Technology), the Department of Energy, the Department of the Interior (including the Minerals Management Service and the United States Fish and Wildlife Service), the Department of Transportation (including the United States Coast Guard and the Maritime Administration), the Department of Defense (including the Army Corps of Engineers and the Navy), the Environmental Protection Agency, and the National Aeronautics and Space Administration, as well as such other Federal agencies as the President may designate. The President shall designate a chairman of the Interagency Committee from among its members.

(4) OIL POLLUTION RESEARCH PLAN.—(A) Within 120 days after the date of enactment of this Act, the Interagency Committee shall submit to Congress a plan for the im-

plementation of the research aspects of the oil pollution research and development program established pursuant to subsection (b). The research plan shall—

(i) identify agency roles and responsibilities;

(ii) assess the current status of knowledge on oil pollution technologies and effects;

(iii) identify significant research gaps and priorities;

(iv) review responses to oil discharges over the past 20 years, identify major technological deficiencies in those responses, and establish research priorities to address those deficiencies;

(v) estimate the resources needed to conduct the oil pollution research and development program established pursuant to subsection (b), timetables for completing research tasks, and, to the extent feasible, expected industry, university, research institution, State government, and foreign nation participation, as appropriate, in the research and development program including joint funding mechanisms; and

(vi) identify a lead agency for carrying out effects research under subsection (b)(4).

(B) The agency which is represented by the Chairman of the Interagency Committee shall contract with the National Academy of Sciences to—

(i) provide advice and guidance in the preparation and development of the research plan; and

(ii) assess the adequacy of the plan as submitted, and submit a report to Congress on the conclusions of such assessment.

The National Institute of Standards and Technology shall provide the Interagency Committee with advice and guidance on issues relating to quality assurance and standards and measurements relating to its activities under this section.

(b) OIL POLLUTION RESEARCH AND DEVELOPMENT PROGRAM.—

(1) ESTABLISHMENT.—The Interagency Committee shall coordinate the establishment, by the agencies represented on the Interagency Committee, of a program for conducting oil pollution research and development, as provided in this subsection.

(2) INNOVATIVE OIL POLLUTION TECHNOLOGY.—The program established under this subsection shall provide for research, development, and demonstration of new or improved technologies which are effective in preventing or mitigating oil discharges and which protect the environment, including—

(A) development of improved designs for vessels and facilities, and improved operational practices;

(B) research, development, and demonstration of improved technologies to measure the ullage of a vessel, prevent discharges from tank vents, prevent discharges during lightering and bunkering operations, contain discharges on the deck of a vessel, and otherwise contain discharges of oil from vessels and facilities;

(C) research, development, and demonstration of new or improved systems of mechanical, chemical, biological, and other methods (including the use of dispersants, solvents, and bioremediation) for the recovery, removal, and disposal of oil, including that which has migrated into substrate environments;

(D) research, in consultation with the National Response Team, to improve industry's and government's ability to quickly and effectively remove an oil discharge, including research to improve information systems for decisionmaking;

(E) development of technologies and methods to protect public health and safety from oil discharges, including the population directly exposed to an oil discharge;

(F) development of technologies, methods, and standards for protecting removal personnel, including training, adequate supervision, protective equipment, maximum exposure limits, and decontamination procedures;

(G) research and development of methods to restore and rehabilitate natural resources damaged by oil discharges;

(H) a demonstration to evaluate the relative effectiveness and environmental impacts of bioremediation technologies, including comparisons between bioremediation techniques that rely on the introduction of microorganisms and those that rely on the enhancement of indigenous microorganisms; and

(I) research on the environmental effects of the use of technologies to prevent or mitigate oil discharges.

(3) OIL POLLUTION TECHNOLOGY EVALUATION.—The program established under this subsection shall provide for oil pollution prevention and mitigation technology evaluation, including—

(A) the evaluation and testing of technologies developed independently of the research and development program established under this subsection;

(B) the establishment, where appropriate, of standards and testing protocols traceable to national standards to measure the performance of oil pollution prevention or mitigation technologies; and

(C) the use, where appropriate, of controlled field testing to evaluate real-world application of oil discharge prevention or mitigation technologies.

(4) OIL POLLUTION EFFECTS RESEARCH.—The program established under this subsection shall provide for research on the environmental effects of oil discharges, including—

(A) the development of improved models and capabilities for predicting the effects of oil discharges and the fate and transport of such oil;

(B) the development of methods, including economic methods, to assess damages to natural resources resulting from oil discharges;

(C) the identification and mapping of environmentally sensitive areas at particular risk to oil discharges;

(D) the collection of environmental baseline data in such areas for the determination of potential effects of oil discharges, including data on chronic oil discharges; and

(E) the development of plans for long-term monitoring of environmental effects in those areas, to be implemented in the event of a major oil discharge.

(5) SPECIAL STUDIES.—(A) As part of the program established under this subsection, the Secretary of Commerce, in consultation with the Administrator of the Environmental Protection Agency, shall undertake—

(i) a 10-year comprehensive monitoring and research program to determine the long-term environmental effects, including effects on the diverse marine and estuarine habitats and living marine resources, of the oil discharges by the EXXON VALDEZ into Prince William Sound and the Gulf of Alaska; and

(ii) a 5-year comprehensive monitoring and research program to determine the environmental effects of the oil discharges by the WORLD PRODIGY into Narragansett Bay, by the RACHEL B into the Houston Ship Channel, and by the PRESIDENTE RIVERA into the Delaware River.

(B) The monitoring and research program under subparagraph (A)(i) shall include consideration of methods and technologies for preventing, removing, and mitigating the effects of oil discharges in arctic and subarctic marine environments. The results of the program shall be applied to the development of improved methods (including contingency planning) for protecting arctic and subarctic marine and estuarine environments from all risks of oil transportation, including oil discharges.

(C) The Secretary of Commerce may recoup the costs of the monitoring and research program under subparagraph (A)(i) from the owners and operators of the EXXON VALDEZ, to the extent that these costs are directly related to the oil discharges by the EXXON VALDEZ into Prince William Sound and the Gulf of Alaska.

(6) MARINE SIMULATION RESEARCH.—The program established under this subsection shall include research on the greater use and application of geographic and vessel response simulation models, including the development of additional data bases and updating of existing data bases using, among others, the resources of the National Maritime Research Center. It shall include research and vessel simulations for—

(A) contingency plan evaluation and amendment;

(B) removal and strike team training;

(C) tank vessel personnel training; and

(D) those geographic areas where there is a significant likelihood of a major oil spill.

(c) GRANTS.—In carrying out the research and development program established under subsection (b), the agencies represented on the Interagency Committee may enter into contracts and cooperative agreements and make grants to universities, research institutions, and other persons.

(d) INTERNATIONAL COOPERATION.—In accordance with the research plan submitted under subsection (a)(4), the Interagency Committee shall coordinate and cooperate with other nations and foreign research entities in conducting oil pollution research and development and demonstration activities, including controlled field tests of oil discharges.

(e) ANNUAL REPORTS.—The Chairman of the Interagency Committee shall submit to Congress at the close of each fiscal year a report on the activities carried out under subsections (a) through (e) of this section in the preceding fiscal year, and on activities proposed to be carried out under subsections (a) through (e) of this section in the current fiscal year.

(f) REGIONAL RESEARCH CENTERS.—(1) As part of the program established under subsection (b), a minimum of six regional research centers shall be established through competitive grants to universities or other research institutions, or groups of universities or research institutions.

(2) The responsibilities of each regional research center established under this subsection shall include the design and implementation of a program for addressing one or more of the various aspects of oil pollution research and development, including prevention, removal, mitigation, and the effects of discharged oil on the environment. Such research and development program shall, as appropriate, include the following elements:

(A) Projections and improved understanding of potential patterns and timing of a given discharge's dispersal, taking into account the size and rate of the discharge,

time of year, weather and ocean flows, and circulation patterns.

(B) Projections and improved understanding of the effects of unique meteorology of the region on the concentration and distribution in the environment of oil pollution.

(C) Examination of the regionally specific impact of discharges on coastal waters and coastline areas of the region, including subregional variations.

(D) Assessment of the physiochemical interactions between discharged oil and water, and of the distribution of oil pollution in water and sediment at various temperatures, and other conditions.

(E) Research on the effects of oil on flora and fauna, including the effects of location, dynamics, and type of oil discharged.

(F) The design of protocols to be followed to quantify ground water contamination associated with discharges, including an assessment of the potential impact on drinking water supplies.

(3) At least one of the regional research centers established under this subsection shall represent and be located in each of the following 6 regions of the United States:

(A) The tropical and subtropical coastal environments of Florida and the coastal environment of the Gulf Coast.

(B) Atlantic temperate coastal environments.

(C) Pacific temperate coastal environments.

(D) The Alaskan coastline and other Arctic and subarctic environments.

(E) The Great Lakes.

(F) Inland waters.

(4) Any university or other research institution, or group of universities or research institutions, may apply to the Interagency Committee for a grant under this subsection. Such application shall be in such form and contain such information as the Chairman may require.

(5) The Interagency Committee shall select grant recipients under this subsection and shall designate the appropriate agency represented on the Interagency Committee to administer each grant. The grant recipients shall be selected on the basis of the following criteria:

(A) There is available to the applicant for carrying out this subsection demonstrated research resources.

(B) The applicant shall demonstrate the capability of providing leadership in making national and regional research and development contributions to preventing, removing, mitigating, and assessing the environmental effects of oil discharges, as appropriate.

(C) The applicant shall demonstrate the ability and willingness to support ongoing oil discharge prevention, removal, mitigation, and environmental effects research and development activities, as appropriate, with budgeted institutional funds of at least $100,000 per year.

(D) The applicant shall have an interdisciplinary staff with demonstrated expertise in oil pollution prevention, removal, mitigation, and environment effects research and development, as appropriate.

(E) The projects which the applicant proposes to carry out under the grant are necessary and appropriate and would further the objectives of the research and development program established under subsection (b).

(6) Grants provided under this subsection shall provide not more than 80 percent of the costs of establishing and operating the regional research center and related research and development activities carried out by the grant recipient.

(7) No funds made available to carry out this subsection may be used for the acquisition of real property (including buildings) or construction of any building.

(8) The Interagency Committee shall allocate funds made available to carry out this subsection equitably among the regional research centers. The Interagency Committee, in awarding grants for the regional research centers, shall attempt to achieve a national balance among the various aspects of oil pollution research and development, including prevention, removal, mitigation, and the effects of discharged oil on the environment.

(9) Each regional research center shall coordinate its oil pollution prevention, removal, mitigation, and environmental effects research and development activities, as appropriate, with the Interagency Committee and the agencies represented on the Interagency Committee.

(10) The applicant shall disseminate results of oil pollution prevention, removal, mitigation, and environmental effects research and development, as appropriate, through technology transfer, training, and other educational programs.

(g) FUNDING.—Not to exceed $28,000,000 of amounts in the Fund shall be available annually, without fiscal year limitation, to carry out this section. For each of fiscal years 1990, 1991, 1992, 1993, and 1994, $1,000,000 of such amount shall be available for each regional center established under subsection (f).

AMENDMENTS OFFERED BY MR. RICHARDSON

Mr. RICHARDSON. Mr. Chairman, I offer amendments.

The Clerk read as follows:

Amendments offered by Mr. RICHARDSON: Page 114, line 4, insert "and goals for technology development" after "research priorities".

Page 115, line 15, insert "under normal and harsh environmental conditions including strong winds and water currents," after "oil discharges".

Page 116, line 1, insert "prevent discharges through the use of vacuums in tanks," after "deck of a vessel,".

Page 117, line 10, strike "and".

Page 117, line 13, strike the period and insert in lieu thereof "; and".

Page 117, after line 13 insert the following new subparagraph:

(J) research and development of technologies capable of providing temporary storage of oil that would otherwise have to be discharged into the environment.

Mr. RICHARDSON (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered en bloc, considered as read, and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from New Mexico?

There was no objection.

Mr. RICHARDSON. These amendments, I think, have been agreed to by both sides and supported by the industry, by the environmental community. What the amendments simply do is they keep the spirit of the title that members of the committee worked so hard to assure. That is, that we establish a program that advances research and development of oilspill technology which is effective and responsive to oilspills in a variety of situations.

Mr. Chairman, I yield to the distinguished chairman of the subcommittee, the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, we have worked closely, the members on the Committee on Science, Space, and Technology, with the gentleman from New Mexico [Mr. RICHARDSON]. His amendments are well received. We consider them helpful and constructive additions to the oilspill research development, which we are responsible for. We accept these amendments.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. RICHARDSON. Mr. Chairman, I yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Chairman, on behalf of the minority on the Committee on Science, Space, and Technology, we have examined the gentleman's amendments and have no problem with them.

Mr. NOWAK. Will the gentleman yield?

Mr. RICHARDSON. I yield to the gentleman from New York.

Mr. NOWAK. Mr. Chairman, I thank the gentleman for yielding. The gentleman's amendment would certainly enhance technology development for oilspill cleanup, and particularly in the area of oil recovery. The cleanup efforts this summer clearly show that inadequate progress has been made in the area of oilspill cleanup-related technology. I think it is a good amendment and one that the House should accept.

Mr. RICHARDSON. Mr. Chairman, I thank the gentleman for the support for this amendment.

Ms. SCHNEIDER. Mr. Chairman, the minority leadership of the Science Committee support the amendment by the distinguished Member from New Mexico.

I am especially glad to lend my support because of language which has been included in this bloc of amendments to research the use of vacuums within tanks to reduce the outflow of oil in the event of a rupture.

This language is consistent with a recommendation of the legislative report by the Science Committee on H.R. 1465 that such an approach deserves attention.

This recommendation was based on a hearing discussion between myself and administration witnesses of a proposal by an entrepreneur with whom I am acquainted, Mr. Luther Blount. Mr. Blount has argued that the use of such vacuums in tanks could simply and effectively prevent massive spills in the future.

I hope that this language is adopted and that this approach is given serious consideration by the administration.

The CHAIRMAN pro tempore. The question is on the amendments offered by the gentleman from New Mexico [Mr. RICHARDSON].

The amendments were agreed to.

Mr. SCHEUER. Mr. Chairman, I move to strike the requisite number of

words, and yield to my colleague, the gentleman from New York [Mr. NOWAK], for the purpose of a colloquy.

Mr. NOWAK. I thank the gentleman for yielding. Title 7 of H.R. 1465 includes a program for comprehensive research and development of oil pollution. Is it the gentleman's understanding that this oil pollution research and development covers all aspect of oil discharges, and this would include the unique problems which could occur after an oil discharge in the Great Lakes?

Mr. SCHEUER. Yes.

Mr. NOWAK. I note that the gentleman included in the provision establishing the regional research centers a requirement that one of the regional research centers be located in the Great Lakes. This is particularly important because the Great Lakes are the Nation's largest source of freshwater representing over ⅕ of the freshwater in the world, and they provide drinking water to over 24 million people. I wish to clarify with the gentleman that the Research and Development Program established by title 7 is flexible enough to include the unique resources of the Great Lakes.

Mr. SCHEUER. The gentleman is correct. It is our intent that the research and development provisions in title 7 focus on all aspects of oil discharges into the environment. This includes all salt-and fresh-water environments and their adjoining shorelines. It is expected that the Great Lakes research center will focus on the unique problems that face the Great Lakes because of their status as freshwater, because of their use as a drinking water supply by so many people, and because the lakes do not have the capacity to rapidly flush oil through their hydrologic system.

Mr. NOWAK. I thank the gentleman for this clarification and I thank the gentleman for recognizing the great value of the Great Lakes as a resource not only to the people in the Great Lakes Basin, but to the Nation as a whole.

Mr. HENRY. Mr. Chairman, will the gentleman yield?

Mr. SCHEUER. I yield to the gentleman from Michigan.

Mr. HENRY. Mr. Chairman, I thank the gentleman for yielding.

I would simply like to associate myself with the concerns the gentleman from New York has clarified.

While the Great Lakes are indeed one of the most important resources to our Nation, as the gentleman from New York indicated, they are critically vital to the economic well being of the Great Lake States as well. The State of Michigan, alone, has more shoreline—coastline—than either the eastern or western seaboards. In fact, the total U.S. coastline in the Great Lakes region is nearly 5,000 miles in length—excluding the Canadian shoreline.

Thus, given the unique problems the Great Lakes pose in terms of high retention rates, I, too, wish to ensure that a Great Lakes regional research center is established and that this legislation strongly indicates the importance of doing so.

Mr. SCHEUER. Mr. Chairman, I can assure the gentleman from Michigan that we consider that Great Lakes Research Center a very important element. It is to serve all of the diversified needs of the Great Lakes, the fresh water environment, the saltwater environment, the adjacent shoreline environment, and we would take a broad-based view of the mission of the Great Lakes Research Center.

Mr. SENSENBRENNER. Mr. Chairman, I would like to associate myself with the remarks of Representative HENRY, Representative NOWAK, and Representative SCHEUER clarifying that R&D activities conducted under title 7 of H.R. 1465 would cover technologies relevant to preventing and cleaning up oilspills on the Great Lakes. I would also like to comment on the importance of establishing a national center for oil spill research and development in the Great Lakes region.

The Great Lakes are invaluable natural resources. As a Representative of Wisconsin, a State which is bordered by both Lake Michigan and Lake Superior, I can assure you that these waterways are critical to our economy and day to day activities. A considerable volume of oil freighter traffic occurs on the Great Lakes each year. To minimize the potential risks associated with these activities, it is essential that we plan ahead on how to respond to any accidents. The Great Lakes States recognize this, and have already established a compact providing for the pooling and utilization of regional resources in the event of an oilspill.

I believe that if the Federal Government is to play a role in oil spill prevention and response R&D, then that effort should focus on all of our major water resources exposed to oil spill risks, including the Great Lakes. For this reason, I am very pleased that H.R. 1465, as reported out of the Science, Space and Technology Committee, does designate that one of the regional R&D centers created by the bill would be located in the Great Lakes region.

The CHAIRMAN pro tempore. Are there further amendments to title VII?

If not, the Clerk will designate title VIII.

The text of title VIII is as follows:

TITLE VIII—TRANS-ALASKA PIPELINE SYSTEM

SEC. 8001. SHORT TITLE.

This title may be cited as the "Trans-Alaska Pipeline System Reform Act of 1989".

SEC. 8002. REFERENCES TO TRANS-ALASKA PIPELINE AUTHORIZATION ACT.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651-1655).

Subtitle A—Improvements to Trans-Alaska Pipeline System

SEC. 8101. LIABILITY WITHIN THE STATE OF ALASKA AND CLEAN UP EFFORTS.

(a) CAUSE OF ACCIDENT.—Section 204(a)(1) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653(a)(1)) is amended by striking out "caused by" in the first sentence and inserting in lieu thereof "caused solely by".

(b) REMOVAL OF LIMITATION.—Section 204(a) of the Act (43 U.S.C. 1653(a)) is amended—

(1) by striking out paragraph (2); and

(2) by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4), respectively.

(c) CLEAN-UP EFFORTS.—Section 204(b) of the Act (43 U.S.C. 1653(b)) is amended in the first sentence—

(1) by inserting after "any area" the following: "in the State of Alaska";

(2) by inserting after "any activities" the following: "related to the trans-Alaska pipeline system, including operation of the terminal,"; and

(3) by inserting after "other Federal" the first place it appears the following: "or State".

SEC. 8102. TRANS-ALASKA PIPELINE LIABILITY FUND.

(a) TERMINATION OF CERTAIN PROVISIONS.—Section 204(c) of the Act (43 U.S.C. 1653(c)) is amended by adding at the end the following new paragraph:

"(13) Paragraphs (1) through (14) shall apply to claims pending against the Fund, but only with respect to incidents occurring before the date of the enactment of the Trans-Alaska Pipeline System Reform Act of 1989.".

(b) CAUSE OF ACCIDENT.—Section 204(c)(2) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653(c)(2)) is amended by striking out "caused by" in the first sentence and inserting in lieu thereof "caused solely by".

(c) DAMAGES.—Section 204(c) of the Act (43 U.S.C. 1653(c)) (as amended by subsection (a)) is further amended by adding at the end the following new paragraph:

"(14) For any claims against the Fund, the term 'damages' shall include, but not be limited to, the net loss of taxes, revenues, fees, royalties, rents, or other revenues incurred by a State or a political subdivision of a State due to injury, destruction, or loss of real property, personal property, or natural resources, or diminished economic activity due to the discharge.".

(d) PAYMENT OF CLAIMS BY FUND.—Section 204(c)(3) of the Act (43 U.S.C. 1653(c)(3)) is amended by adding at the end the following: "The Fund shall pay a valid claim under this section, including such $14,000,000, if the owner or operator of a vessel has not paid any such claim within 90 days after such claim has been submitted to such owner or operator. Upon payment of any claim, the Fund shall be subrogated under applicable State and Federal laws to all rights of any person entitled to recover under this subsection, subject to the limit of liability of the owner and operator under this Act. In any action brought by the Fund against an owner or operator or an affiliate thereof to recover amounts under this paragraph, the Fund shall be entitled to recover prejudgment interest, costs, and reasonable attorney's fees.".

(e) OFFICERS OR TRUSTEES.—Section 204(c)(4) is amended—

(1) by inserting "(A)" after "(4)"; and

(2) by adding at the end the following:

"(B) No present or former officer or trustee of the Fund shall be subject to any liability incurred by the Fund or by the present or former officers or trustees of the Fund, other than liability for gross negligence or willful misconduct.

"(C)(i) Subject to clause (ii), each officer and each trustee of the Fund—

"(I) shall be indemnified against all claims and liabilities to which he or she has or shall become subject by reason of serving or having served as an officer or trustee, or by reason of any action taken, omitted, or neglected by him or her as an officer or trustee; and

"(II) shall be reimbursed for all attorney's fees reasonably incurred in connection with any claim or liability.

"(ii) No officer or trustee shall be indemnified against, or be reimbursed for, any expenses incurred in connection with, any claim or liability arising out of his or her gross negligence or willful misconduct.".

(f) TRANS-ALASKA PIPELINE SYSTEM.—Section 204(c) of the Act (43 U.S.C. 1653(c)) (as amended by subsections (a) and (c)) is further amended by adding at the end the following:

"(15)(A) Amounts in the Oil Spill Liability Fund established by section 9509 of the Internal Revenue Code of 1986 shall be made available to the extent provided in appropriation Acts for the following purposes directly related to safe and environmentally sound operation of the trans-Alaska pipeline system:

"(i) Payment of the reasonable costs (but not more than $5,000,000 annually) to the Federal Government with respect to activities in the State of Alaska, and the reasonable costs (but not more than $2,000,000 annually) to the State of Alaska, necessary for agency personnel to conduct studies regarding, and to monitor and enforce compliance with, applicable safety, health, and environmental standards.

"(ii) Payment of the reasonable costs (but not more than $5,000,000 annually) of the Presidential Task Force and the audit of the trans-Alaska pipeline system.

"(B) Amounts may only be made available under subparagraph (A)(i) to the State of Alaska if the State matches such amounts on a dollar-for-dollar basis.".

SEC. 8103. PRESIDENTIAL TASK FORCE.

The Act is amended by adding at the end thereof the following new section:

"PRESIDENTIAL TASK FORCE; ADVISORY COUNCIL

"SEC. 207. (a) ESTABLISHMENT OF TASK FORCE.—(1) There is hereby established a Presidential Task Force on the Trans-Alaska Pipeline System (hereinafter referred to as the 'Task Force') composed of the following nine members appointed by the President:

"(A) One member appointed to serve as cochairman of the Task Force.

"(B) One member nominated by the Governor of Alaska who will serve as cochairman of the Task Force.

"(C) Three members, one of whom shall be nominated by the Secretary of the Interior, one by the Administrator of the Environmental Protection Agency, and one by the Secretary of Transportation, and all of whom shall be Federal employees.

"(D) Three members, one of whom shall be nominated by the Commissioner of Fish and Game, one by the Commissioner of Environmental Conservation, and one by the Commissioner of Natural Resources of the State of Alaska, and all of whom shall be State employees.

"(E) One member nominated by the National Academy of Engineering.

"(2)(A) Except as provided in subparagraphs (B) and (C), members shall be appointed for terms of three years.

"(B) Of the members first appointed—

"(i) three shall be appointed for a term of three years;

"(ii) three shall be appointed for a term of four years; and

"(iii) three shall be appointed for a term of five years.

"(C) Any member appointed to fill a vacancy occurring before the expiration of the term for which his or her predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of his or her term until a successor has taken office.

"(3) Members shall, to the extent approved in appropriations Acts, receive the daily equivalent of the minimum annual rate of basic pay in effect for grade GS-15 of the General Schedule for each day (including travel time) during which they are engaged in the actual performance of duties vested in the Task Force, except that members who are State, Federal, or other governmental employees shall receive no compensation under this paragraph in addition to the salaries they receive as such employees.

"(4) The cochairmen of the Task Force shall appoint a Director to carry out administrative duties. The Director may hire such staff and incur such expenses on behalf of the Task Force as are authorized by the Task Force and for which funds are available.

"(5) Employees of the Task Force shall not, by reason of such employment, be considered to be employees of the Federal Government for any purpose.

"(b) DUTIES OF TASK FORCE.—(1) The Task Force shall conduct a comprehensive audit and review of operations of the trans-Alaska pipeline system, make recommendations to the President, the Congress, and the Governor of Alaska, and function as a forum for improved oversight and enforcement of safety and environmental laws related to the trans-Alaska pipeline system.

"(2) The scope of the audit shall include matters related to operations of the trans-Alaska pipeline system and the terminal at the Port of Valdez, Alaska.

"(3) As part of such audit, the Task Force shall conduct a comprehensive review of the trans-Alaska pipeline system in order to specifically advise the President, the Congress, and the Governor of Alaska concerning—

"(A) whether the holder of the Federal and State right-of-way is, and has been, operating in full compliance with applicable agreements and laws;

"(B) the operational and structural soundness of the pipeline, terminal, and related onshore facilities;

"(C) necessary improvements for the pipeline, terminal, and related onshore facilities in terms of operational safety, public health, and environmental protection;

"(D) necessary improvements in the oil spill response capabilities and contingency plans for the pipeline, terminal, and related onshore facilities; and

"(E) necessary improvements in security for the pipeline, terminal, and related onshore facilities.

"(4)(A) The Task Force shall retain at least one independent consulting firm with technical expertise in engineering, transportation safety, the environment, and other applicable areas to assist the Task Force in carrying out this subsection. Such firm shall have extensive experience in carrying out audits of the nature to be carried out by the Task Force.

"(B) Contracts with any such firm shall be entered into on a nationally competitive basis, and the Task Force shall not select any firm with respect to which there may be a conflict of interest in assisting the Task Force in carrying out its audit and review.

"(5) The Task Force shall provide an opportunity for public comment on its activities and shall consult on a regular basis with the Trans-Alaska Pipeline Terminal Advisory Council established pursuant to subsection (c).

"(6) The Task Force shall transmit (and make available to the public), within 6 months after the date of enactment of this paragraph, a report to the President and the Congress of its findings, conclusions, and recommendations made as a result of carrying out such audit.

"(7) The President shall, within 90 days after receiving the Task Force's report, transmit a report to the Congress and the Governor of Alaska containing comments on whether—

"(A) the Alyeska Pipeline Service Company or its successor is, and has been, operating in full compliance with the right-of-way permits granted for the trans-Alaska pipeline;

"(B) the President intends to direct the Secretary of the Interior to exercise authority pursuant to section 203(e) of the Trans-Alaska Pipeline Authorization Act to amend or modify the Federal right-of-way agreement;

"(C) the President intends to recommend to the Governor of Alaska that the State right-of-way agreement be amended or modified; and

"(D) the President intends to take other measures to implement the Task Force's findings and recommendations.

"(8) The Task Force shall prepare an annual report on its activities and submit such report to the President, the Congress, and the Governor of Alaska.

"(9) The Comptroller General of the United States, and any of his or her duly authorized representatives, shall have access, for purposes of audit and examination, to any books, documents, papers, and records of the Task Force that are pertinent to the funds received and expended by the Task Force.

"(10) The Task Force shall cease to exist on the date which is 10 years after the date of enactment of this paragraph.

"(11) With respect to safety, operations, and other matters related to the pipeline facilities (as such term is defined in section 202(4) of the Hazardous Liquid Pipeline Safety Act of 1979) of the trans-Alaska pipeline, the Task Force shall not perform any functions which are the responsibility of the Secretary of Transportation under the Hazardous Liquid Pipeline Safety Act of 1979.

"(c) TRANS-ALASKA PIPELINE TERMINAL ADVISORY COUNCIL.—(1) Not later than 90 days after the date of enactment of this Act, the operator of the trans-Alaska pipeline system, on behalf of the companies which possess the Federal right-of-way granted by the Secretary of the Interior, shall establish and fund the reasonable costs of the Trans-Alaska Pipeline Terminal Advisory Council

(hereinafter referred to as the 'Advisory Council').

"(2) The Advisory Council shall assist the owners and operator of the trans-Alaska pipeline and Federal and State officials in developing policies, permits, plans, and regulations relating to the monitoring, operation, and maintenance of the terminal and related facilities of the trans-Alaska pipeline that may affect safety, public health, and the environment. The Advisory Council shall serve as a forum for the industrial users, owners, and operators of the terminal facilities to work cooperatively with residents of interested communities.

"(3) The Governor of Alaska may appoint to the Advisory Council the following members from among the residents of Valdez, Cordova, and other communities:

"(A) one member who shall serve as chairman;

"(B) two members of the fishing industry;

"(C) two members of Alaska Native organizations;

"(D) two members of environmental organizations;

"(E) two members from local governments; and

"(F) two members from the tourism industry or other business community.

"(4)(A) Except as provided in subparagraphs (B) and (C), members shall be appointed for terms of two years.

"(B) Of the members first appointed—

"(i) six shall be appointed for a term of four years;

"(ii) three shall be appointed for a term of three years; and

"(iii) two shall be appointed for a term of two years.

"(C) Any member appointed to fill a vacancy occurring before the expiration of the term for which his or her predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of his or her term until a successor has taken office.

"(D) Members shall receive, to the extent provided in appropriation Acts, the daily equivalent of the minimum annual rate of basic pay in effect for grade GS-15 of the General Schedule for each day (including travel time) during which they are engaged in the actual performance of duties vested in the Advisory Council.

"(E) The Chairman of the Advisory Council shall appoint a Director to carry out administrative duties. The Director may hire such staff and incur such reasonable expenses on behalf of the Advisory Council as are authorized by the Advisory Council and for which funds are available.

"(F) Employees of the Advisory Council shall not, by reason of such employment, be considered to be employees of the Federal Government for any purpose.

"(5) Industrial users, owners, and operators of the terminal facilities shall cooperate fully with the Advisory Council through frequent consultation and attendance at meetings and granting reasonable access to the Advisory Council to all facilities and requested documents and information.

"(6) The Advisory Council may establish such technical advisory committees as it deems necessary.

"(7) The Advisory Council shall prepare an annual report on its activities and submit such report to the Task Force established by subsection (a), the Governor of Alaska, the Congress, and the public.

"(8) The Advisory Council shall cease to exist on the date which is 10 years after the date of enactment of this Act.".

Subtitle B—Penalties

SEC. 8201. AUTHORITY OF THE SECRETARY OF THE INTERIOR TO IMPOSE PENALTIES ON OUTER CONTINENTAL SHELF FACILITIES.

Section 24(b) of the Outer Continental Shelf Lands Act (43 U.S.C. 1350(b)) is amended—

(1) by striking out "If any" and inserting in lieu thereof "(1) Except as provided in paragraph (2), if any";

(2) by striking out "$10,000" and inserting in lieu thereof "$20,000";

(3) by adding at the end of paragraph (1) the following new sentence: "The Secretary shall, by regulation at least every three years, adjust the penalty specified in this paragraph to reflect any increases in the Consumer Price Index (all items, United States city average) as prepared by the Department of Labor."; and

(4) by adding at the end the following new paragraph:

"(2) If a failure described in paragraph (1) constitutes or constituted a threat of serious, irreparable, or immediate harm or damage to life (including fish and other aquatic life), property, any mineral deposit, or the marine environment, a civil penalty may be assessed without regard to the requirement of expiration of a period allowed for corrective action.".

SEC. 8202. TRANS-ALASKA PIPELINE SYSTEM CIVIL PENALTIES.

The Act is amended by adding at the end thereof the following new section:

"CIVIL PENALTIES

"SEC. 210. (a) PENALTY.—The Secretary of the Interior shall assess and collect a civil penalty under this section with respect to any discharge of oil—

"(1) in transit from fields or reservors supplying oil to the trans-Alaska pipeline; or

"(2) during transportation through the trans-Alaska pipeline or handling at the terminal facilities.

that causes damage to, or threatens to damage, natural resources or public or private property.

"(b) PERSONS LIABLE.—In addition to the person causing or permitting the discharge, the owner or owners of the oil at the time the discharge occurs shall be jointly, severally, and strictly liable for the full amount of penalties assessed pursuant to this section, except that the United States and the several States, and political subdivisions thereof, shall not be liable under this section.

"(c) AMOUNT.—(1) The amount of the civil penalty shall be no less than $1,000 per barrel of oil discharged.

"(2) In determining the amount of civil penalty under this section, the Secretary shall consider the seriousness of the damages from the discharge, the cause of the discharge, and history of prior violations of applicable rules and laws, and the degree of success of any efforts by the violator to minimize or mitigate the efforts of such discharge.

"(3) The Secretary may reduce or waive the penalty imposed under this section only if the discharge was solely caused by an act of war, act of God, or third party action beyond the control of the persons liable under this section.

"(4) Any civil penalty assessed by the Secretary pursuant to this section shall be in addition to the amount of any fine or penalty (whether civil or criminal in nature) for any violation of other Federal or State law.

"(5) Any amount received in payment of a civil penalty under this section shall be deposited into the Oil Spill Liability Trust Fund established by section 9509 of the Internal Revenue Code of 1986.

"(d) PROCEDURES.—A civil penalty may be assessed and collected under this section only after notice and opportunity for a hearing on the record in accordance with section 554 of title 5, United States Code. In any proceeding for the assessment of a civil penalty under this section, the Secretary may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents and may promulgate rules for discovery procedures. Any person who requested a hearing with respect to a civil penalty under this subsection and who is aggrieved by an order assessing the civil penalty may file a petition for judicial review of such order with the United States Court of Appeals for the District of Columbia circuit or for any other circuit in which such person resides or transacts business. Such a petition may only be filed within the 30-day period beginning on the date the order making such assessment was issued.

"(e) STATE LAW.—(1) Nothing in this section shall be construed or interpreted as preempting any State or political subdivision thereof from imposing any additional liability or requirements with respect to the discharge, or threat of discharge, of oil or other pollution by oil.

"(2) Nothing in this section shall affect or modify in any way the obligations or liabilities of any person under other Federal or State law, including common law, with respect to discharges of oil.".

Subtitle C—Provisions Applicable to Alaska Natives

SEC. 8301. LAND CONVEYANCES.

The Alaska National Interest Lands Conservation Act (Public Law 96-487) is amended by adding the following after section 1437:

"SEC. 1438. Solely for the purpose of bringing claims that arise from the discharge of oil, the Congress confirms that all right, title and interest of the United States in and to the lands validly selected pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) or this Act, to Alaska Native corporations are deemed to have vested in the respective corporations as of March 23, 1989. This section shall take effect with respect to each Alaska Native corporation only upon its irrevocable election to accept an interim conveyance of such land and notice of such election has been formally transmitted to the Secretary of the Interior.".

SEC. 8302. IMPACT OF POTENTIAL SPILLS IN THE ARCTIC OCEAN ON ALASKA NATIVES.

Section 1005 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3145) is amended—

(1) by amending the heading to read as follows:

"WILDLIFE RESOURCES PORTION OF STUDY AND IMPACT OF POTENTIAL OIL SPILLS IN THE ARCTIC OCEAN";

(2) by inserting "(a)" after "SEC. 1005."; and

(3) by adding at the end the following:

"(b)(1) The Congress finds that—

"(A) Canada has discovered commercial quantities of oil and gas in the Amalagak region of the Northwest Territory;

"(B) Canada is exploring alternatives for transporting the oil from the Amalagak field to markets in Asia and the Far East;

"(C) one of the options the Canadian Government is exploring involves transshipment of oil from the Amalagak field across the Beaufort Sea to tankers which would transport the oil overseas;

"(D) the tankers would traverse the American Exclusive Economic zone through the Beaufort Sea into the Chuckchi Sea and then through the Bering Straits;

"(E) the Beaufort and Chuckchi Seas are vital to Alaska's Native people, providing them with subsistence in the form of walrus, seals, fish, and whales;

"(F) the Secretary of the Interior has conducted Outer Continental Shelf lease sales in the Beaufort and Chuckchi Seas and oil and gas exploratoin is ongoing;

"(G) an oil spill in the Arctic Ocean, if not properly contained and cleaned up, could have significant impacts on the indigenous people of Alaska's North Slope and on the arctic environment; and

"(H) there are no international contingency plans involving our two governments concerning containment and cleanup of an oil spill in the Arctic Ocean.

"(2)(A) The Secretary, in consultation with the Governor of Alaska, shall conduct a study of the issues of recovery of damages, contingency plans, and coordinated actions in the event of an oil spill in the Arctic Ocean.

"(B) The Secretary shall, no later than January 31, 1991, transmit a report to the Congress on the findings and conclusions reached as the result of the study carried out under this subsection.".

Mr. LAUGHLIN. Mr. Chairman, I move to strike the last word for the purpose of entering into a colloquy with the gentleman from New York [Mr. NOWAK], the distinguished chairman of the Subcommittee on Water Resources.

Mr. Chairman, this legislation vests oilspill removal authority in the President and it requires the establishment of regional strike teams staffed and equipped to respond to spills.

The success of this legislation depends to a great extent on ensuring that the Federal Government develops a meaningful capability to respond to major oilspills. It is not enough for the President merely to assign supervisory responsibilities to the Coast Guard. It must have the personnel and equipment—in short the capability—to perform cleanup and removal functions.

Mr. Chairman, is my understanding correct that the President is now placed firmly in charge and he has a duty to make certain that a spill is cleaned up properly?

And, Mr. Chairman, is my understanding correct that the Coast Guard, as the likely designated agency, must take steps—such as equipment purchase and manpower training—to ensure a strong Federal role?

Mr. Chairman, is my understanding correct that under this legislation the role of the Coast Guard is not merely a regulatory role but it is also an action role?

Mr. NOWAK. Mr. Chairman, if the gentleman will yield, the gentlemen is correct. The President, has a duty to make certain that spills are cleaned up properly. He must ensure en effective and immediate removal of a discharge of oil.

The gentlemen is also correct that the Coast Guard must take steps to purchase equipment and to position the strike forces. The Coast Guard's function is more than a regulatory one. We anticipate that the Coast Guard will acquire and maintain personnel and equipment necessary to ensure the containment and removal of major oilspills.

Mr. LAUGHLIN. Mr. Chairman, the Coast Guard will need significant new funds to meet its responsibilities for the strike teams under the bill. It will need new personnel and equipment to create the cleanup and removal capability called for by this legislation. Mr. Chairman, how are we going to ensure that the Coast Guard gets what it needs?

Mr. NOWAK. The chairman of the House Ways and Means Committee has been asked to strengthen the oilspill liability trust fund provision of the IRS Code. These IRS provisions are the funding mechanism for the bill and money's from the fund will be available for the cost associated with the formation of the regional strike force teams.

It is important that a portion of this money be actually spent on equipment and manpower so that the Coast Guard can meet its new demands under the legislation.

It is vital that the President recognize these new demands placed on the Coast Guard and that his Office of Management and Budget cooperate to get the required moneys to the Coast Guard.

In addition, it is important for the Congress to recognize that it has a responsibility for making certain that the Coast Guard is adequately funded to carry out the requirements of the bill.

Mr. LAUGHLIN. Mr. Chairman, how will Congress be able to determine whether the Coast Guard resources are, in fact, adequate?

Mr. NOWAK. It is my expectation that the Coast Guard will establish a comprehensive inventory of removal resources and it will update that inventory as required. In addition, I expect that the committees of Congress in the exercise of their oversight responsibility will be mindful of the task charged to the Coast Guard and make certain that task is being performed adequately.

□ 1700

AMENDMENT OFFERED BY MR. OWENS OF UTAH

Mr. OWENS of Utah. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. OWENS of Utah: Page 129, after line 22, insert the following (and redesignate the following section accordingly):

SEC. 8002. RESTORATION TRUST FUND.

The Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651-1655) is amended by adding at the end the following:

"TRANS-ALASKA RESTORATION TRUST FUND

"SEC. 207. (a) PURPOSE.—The purpose of this section is to establish a fund to be held in trust to assure that the users of the trans-Alaska pipeline carry out, in the most effective and efficient manner practicable, the obligation to restore, rehabilitate, revegetate, and carry out other environmental protection activities with respect to such pipeline (as required pursuant to section 28 of the Mineral Leasing Act of 1920 and section 203 of the Trans-Alaska Pipeline Authorization Act).

"(b) ESTABLISHMENT OF TRUST FUND.—The Trans-Alaska Pipeline Restoration Trust Fund (hereafter in this section referred to as the 'Restoration Trust Fund') is hereby established in the Treasury of the United States to be held in trust for the persons from whom an amount is collected under subsection (d)(2).

"(c) ADMINISTRATION.—The Restoration Trust Fund shall be administered by the Secretary of the Interior, in trust and on behalf of persons from whom an amount is collected under subsection (d)(2), in accordance with the provisions of this section.

"(d) COLLECTION.—(1) There shall be deposited into the Restoration Trust Fund an amount equal to the amount collected under paragraph (2). The amount deposited in the Restoration Trust Fund shall be held in trust for the persons from whom the amount is collected under paragraph (2).

"(2) In addition to any amount collected under any other provision of law with respect to the trans-Alaska pipeline, the Secretary shall provide for the collection, from the persons responsible for carrying out the obligation described in subsection (a), of an amount equal to five cents per barrel of oil transported through the trans-Alaska pipeline on and after the date of the enactment of this section.

"(3) The collections under paragraph (2) shall be deposited in the Restoration Trust Fund.

"(e) USES OF THE FUND.—(1) Amounts in the Restoration Trust Fund shall be used, in trust and on behalf of persons from whom an amount is collected under subsection (d)(2), by the Secretary—

"(A) when the pipeline is no longer to be used, for the removal of the pipeline system and attendant facilities and the restoration of the environment affected by the pipeline and such facilities; and

"(B) if directed to do so by such persons, for conservation and other environmental activities benefiting, first, the areas most directly affected by the trans-Alaska pipeline system and then areas elsewhere in Alaska and its coastal waters, but the total amount used for such purpose in any fiscal year may not exceed one-half of the amount deposited into such Fund during the previous fiscal year.

"(2)(A) Amounts in the Restoration Trust Fund may be invested prudently, in trust and on behalf of persons from whom an amount is collected under subsection (d)(2), by the Secretary in income-producing securities approved by the Secretary.

"(B) Income from such securities shall be deposited in the Restoration Trust Fund.

"(f) PAYMENT OF REMAINING AMOUNT IN THE FUND.—Any amount remaining in such

Fund after the completion of the removal of the pipeline system and the restoration of the environment affected by it shall be paid to the persons from whom an amount is collected under subsection (d)(2).".

Mr. OWENS of Utah (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore (Mr. LANCASTER). Is there objection to the request of the gentleman from Utah [Mr. OWENS]?

There was no objection.

Mr. OWENS of Utah. Mr. Chairman, 16 years ago, as a new Congressman working on the Alaska pipeline issue, I visited the North Slope of Alaska and saw for the first time its vast and timeless landscape. It was unspoiled, untarnished, and untouched by man. I knew it would be affected by our activities, but I wanted our exploitation of the oil resource to be as benign as possible to the integrity of what the Aleuts called—with good reason—the "Great Land."

Three years ago, I returned and witnessed the results of a decade of development on the North Slope. I waded through the detritus of man's search for energy and the legacy of our oil consumption. The midnight Sun still shines, but over towering peaks of refuse, scattered oil drums lying on the tundra, and the serpentine track of the pipeline itself, snaking toward the coast.

Mr. Chairman, I recognize that we have made many environmental sacrifices for the common good. I do not begrudge the construction of the pipeline or the practical necessity it has been for our Nation. But the oil will not flow forever and many of these sacrifices can be recouped. The North Slope must one day be restored to its former state when the oil has all been removed and the quiet of the north returns. But, Mr. Chairman, as things stand today, there is no absolute assurance, no trust fund, no escrow account, no bond, no guarantee whatsoever that the north will be returned to its original condition.

After two visits to Alaska in the wake of the Valdez oilspill, I am more convinced than ever that we need greater certainty that the oil companies which own the Alaska pipeline will effectively clean up the pipeline and its attendant facilities after extraction of the oil.

I strongly support Chairman GEORGE MILLER's Alaska provisions which have been incorporated into H.R. 3394. The amendment I had prepared to pursue today would have established a restoration bond fund to guarantee the performance of the legal obligation incurred by the pipeline owners to restore and rehabilitate the Alaska environment affected by the Alaska pipeline after it is no longer in service.

This is a problem which must be addressed. I regret it cannot be dealt with on this bill and I will introduce it at a later date as separate legislation.

Under my proposal, the amount of 5 cents per barrel of Alaska pipeline oil would be collected and held in a reserve account by the pipeline owners, which, at present rates of production and in 1989 dollars, would generate approximately $30 million per year. Ownership of the restoration bond fund would remain with the pipeline owners and after the successful restoration of the environment, which could begin anywhere from 30 to 100 years from now, any money which remained would, of course, be returned to them. After the fund reached $1 billion, the Secretary of the Interior would have the authority to terminate the collection of further amounts if he determined the restoration bond fund to be sufficient to finance the rehabilitation effort.

Although Alaska enjoys substantial economic benefits from the pipeline's activities, the State has also been subject to significant environmental risks—as we witnessed last spring in Prince William Sound—and it is not only fair but fiscally prudent for those of us who authorize economic exploitation of Alaska's Federal lands to require that responsible provisions exist to ensure that those who develop Alaska's resources have the ability to respond at the appropriate time to fulfill their environmental obligations.

I recognize that the pipeline owners claim they are already collecting money for the dismantling of the pipeline and restoration of the pipeline environment through a FERC-approved tariff. But this is no more than a bookkeeping obligation. There is no fund, there is no special account, there is nothing more than a promise of paper to pay a certain sum when due. That legal obligation already exists without the FERC tariff for dimantling, removal, and recovery. A simple obligation to pay is no guarantee the money will be available in the future. None of us can see 30 or 50 years down the road in this unpredictable world. Where will the oil companies be in 50 years? How able will they be to fulfill their obligations? Do we know for certain? I want a guarantee—and this amendment would have provided it by superceding the DR&R account and requiring a separate, inviolate fund which would grow through both annual receipts and investment income.

I can draw an analogy between the Alaska restoration bond fund I am proposing and the abandoned mines reclamation fund passed by this body. Congress collects fees on coal because the mine owners could not be relied on absolutely to fulfill their legal obligations to restore the environment. By passing this amendment today, we would have extended that concept to include the Alaska pipeline.

We sometimes have a tendency to view the finite in infinite terms. We think of the Alaska pipeline as something that will last forever. But clearly it will not. Already the flow is diminishing. Perhaps we will ultimately allow exploration of the Arctic National Wildlife Refuge. I do not favor it, but others do. Perhaps natural gas will move along this right-of-way. In any case, one day the flow will cease. The pipeline owners are statutorily and contractually bound to clean up the pipeline and its attendant facilities when they are no longer in service. Provisions to bond the pipeline owners to guarantee their performance were not incorporated in the original Alaska Pipeline Act, despite the massive nature of the project and the environmental risks involved. This amendment serves essentially as a bonding device to fund $1 billion or more cleanup project without requiring a prohibitive up-front payment.

From my perspective, given the past failures of the oil companies, it makes sense to establish this fund as insurance for the Alaskan and American people. It would take too great a leap of faith for me to assume the pipeline owners will have the money on hand and be willing to promptly rehabilitate the environment after their work is done on the North Slope. Can we afford to place our trust in the pipeline owners or the convoluted process of tort law to ensure prompt and effective restoration of the pipeline environment? I do not believe we can. The Alaska pipeline will not last forever—and neither must its impact on the Alaska environment.

Mr. Chairman, I support the provisions of the gentleman from California [Mr. MILLER] which have been incorporated into H.R. 3394, and I commend the gentleman and leadership of the committees which have brought us this legislation today.

The amendment I had prepared to pursue today would have established a restoration bond, a fund to guarantee the performance of the legal obligation now imposed on the pipeline owners to restore and rehabilitate the Alaskan environment affected by the Alaska pipeline after it is no longer in service. This is a problem that must be addressed.

I regret that this cannot be dealt with on this bill as I had hoped, and I will introduce it at a later date as separate legislation.

Mr. Chairman, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Utah [Mr. OWENS]?

There was no objection.

The CHAIRMAN pro tempore. The amendment is withdrawn.

Ms. SNOWE. Mr. Chairman, I rise today to support the final passage of H.R. 1465. I believe that this bill takes important steps toward effective protection of our marine environment. In particular, I am pleased that the House voted to preserve the right of the States to set their own oilspill laws and liability limits.

The State of Maine has consistently been recognized as a leader in the adoption of effective oilspill prevention, cleanup, and liability laws. I am proud of Maine's reputation as an environmental leader in this regard. Sadly, the Federal Government has lagged far behind States like Maine in its adoption of oilspill legislation. Currently, three different and often conflicting regulations govern oilspills. H.R. 1465 will create a uniform set of Federal regulations to deal with this important environmental issue.

This comprehensive legislation addresses all facets of oilspill prevention, response, liability, and compensation. In the wake of the *Exxon Valdez* spill in Prince William Sound many inadequacies in our system of preventing and responding to oilspills were apparent. Through H.R. 1465 the House has taken strong action to correct these problems and to establish coherent oilspill policy.

In addition, we have taken the important step to ensure that the States also have the opportunity to enact laws that will protect their coasts. This is a vital provision that will allow States to take the necessary actions to ensure that specific needs of their marine environment are addressed. My own State of Maine has taken such effective action to protect one of our most precious resources—the coastal waters and the citizens that make their living from the sea. I applaud the decision of this body to recognize that State laws, like those of Maine, should augment and not be replaced by the Federal standards contained in H.R. 1465.

In addition, we have preserved one of the cornerstones of U.S. environmental policy: the polluter must pay. This principle is firmly established in H.R. 1465. Those who negligently allow a spill to occur will pay for its cleanup.

Mr. Speaker, this House has distinguished itself in its efforts to preserve and protect our environment. I believe that H.R. 1465 continues this record of accomplishment and it is with great pleasure that I rise in support of this measure and I urge my colleagues to join me.

Mr. JONES of Georgia. Mr. Chairman, I rise in support of H.R. 1465, the Oil Pollution, Prevention, Response, Liability, and Compensation Act. As a member of the House Committee on Public Works and Transportation which has jurisdiction over this bill, I participated in the crafting of this legislation, and I commend my subcommittee chairman and full committee chairman, as well as ranking minority members, for their fine work in drafting this difficult piece of legislation. Five different House committees worked on this legislation, making it an especially arduous task to fashion a bill for floor consideration, and I appreciate the hard work of all the committee leaders.

Although Congress has worked on this issue for 10 years, it has never passed a bill to send to the President. The spilling of 11 million gallons of oil into Alaska's Prince William Sound by the *Exxon Valdez*, and the poor response by the Federal Government and Exxon, has dramatically underlined the need for this legislation, and its prompt implementation.

The bill would set up a single Federal liability and compensation system intended to provide prompt compensation for cleanup costs and damages from spills. Yesterday, the House voted to make this a better bill by striking the preemption of State liability limits and local compensation funds. I think States should have the right to preserve their existing laws or enact new laws to protect their citizens and their coasts, and I am pleased a bipartisan majority of my colleagues agreed to support the Miller-Studds amendment striking Federal preemption.

This bill also contains provisions to prevent spills and promote more effective responses, as well as to investigate technologies to prevent and clean up spills. I traveled to Alaska's Prince William Sound with our subcommittee to investigate the spill and Exxon's cleanup effort. It was clear to me we simply do not have the technology to clean up 11 million gallons of oil that's been whipped up by 70-mile-an-hour winds, nor the technology to remove it from oil stained beaches. This bill would make available from the fund $28 million for a new multiagency research and development program and would set up six regional research programs. It also establishes seven continuously manned oil and hazardous substance strike teams and requires the President to ensure an effective and immediate removal of a spill.

Numerous amendments will also be offered on the floor today to further strengthen the prevention and removal, and the research and development sections of the bill, and I urge my colleagues to support them.

With the signing of this bill into law, we can move to prevent another spill like the *Exxon Valdez*, as well as ensure when spills do happen, we have a system in place to clean them up and compensate for their damages.

Mr. RICHARDSON. Mr. Chairman, today I have offered four amendments—or an en bloc amendment—which will strengthen this important legislation. I ask for unanimous consent to revise and extend my remarks.

Mr. Chairman, title VII of the bill authorizes the Oil Pollution Research and Development Program. The importance of this title cannot be emphasized enough. Due to the lack of governmental and industrial interest, during the past 20 years there has been very little substantive advancement in the field of oilspill recovery technology. The few advances which have been made have not been implemented.

The sad state of oilspill technology was evidenced in Prince William Sound earlier this year. When the *Exxon Valdez* spilled 11 million gallons of oil into the waters of Prince William Sound, nearly 500,000 feet of boom containment equipment was deployed. But because this equipment was nearly useless in an environment where moderate to strong winds and currents exist, wave after wave of oil washed upon the shores of the sound. Prince William Sound's winds and currents were certainly not exceptional. However, the equipment used was probably more suited to recovering oilspills in a swimming pool than in the open ocean.

Mr. Chairman, Mr. ROE and the Committee on Science, Space, and Technology, Mr. SCHEUER and the Subcommittee on Natural Resources have done excellent work in developing this title of the bill. I commend them for their effort. My amendments are in keeping with the spirit and intent of the title—to assure that we establish a program that advances research and development of oilspill technology which is effective and responsive to oilspills in a variety of situations.

I would like to briefly describe these amendments and their intent. The bill calls for the interagency committee to submit to Congress a plan for the implementation of the research aspects of the program. My first amendment assures that the plan will establish goals for the development of oilspill technology. This amendment will assure that progress in the area of oil recovery technology is a priority throughout the R&D process.

As was discussed earlier, present oilspill technology is terribly inefficient in the moderate winds and currents which exist in the open ocean and on nearly all our coasts and inland waterways. The second amendment includes language to assure that new technologies developed under the program are effective "under normal and harsh environmental conditions including strong winds and water currents." This aims to guarantee that the oilspill technology of the future will meet the challenging environmental circumstances which surround an oilspill.

The final two amendments require that the program include research in two important areas of innovation; the use of vacuums in tanks and onboard temporary storage capacity. Through the use of vacuums a vessel's holding tank could be pressurized. Such a vacuum would minimize the amount of oil which would be discharged in the event of a ruptured hull. Other nations have begun researching this innovative technology and our program should do so as well. Perfection of this technology would be a major step toward reducing the magnitude of future oilspills.

The second of these innovative technologies would provide for equipment which could temporarily store discharged oil in the event of an accident. When a vessel is involved in an accident, the captain's primary responsibilities are to the safety of his crew and the vessel. In an effort to keep the vessel afloat, a captain can and will discharge his cargo into the water. In fact, most of the oil spilled in Alaska was a result of voluntary discharge.

Given these realities, Mr. Chairman, our Research and Development Program should have as one of its primary goals the development of equipment which could provide temporary storage of oil given that scenario. In the future, satisfactory levels of storage capacity should be established. The tanks or equipment could be carried aboard all tankers and be available for immediate deployment. In the event of a spill, oil which otherwise would be dumped into the ocean could be stored temporarily in such tanks and retrieved at a later, less critical time.

Mr. Chairman, we all stand to gain from a strong Research and Development Program. These amendments are supported by the environmental community and by the oil industry. I appreciate my colleagues' support on these important amendments.

I thank the gentleman for his time.

The CHAIRMAN pro tempore. The question is on the amendment in the nature of a substitute, as modified, as amended.

The amendment in the nature of a substitute, as modified, as amended, was agreed to.

The CHAIRMAN pro tempore. Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. BONIOR] having assumed the chair, Mr. LANCASTER, Chairman pro tempore of the Committee of the Whole House on the State of the Union reported that that Committee, having had under consideration the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, pursuant to House Resolution 277, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the amendment in the nature of a substitute adopted by the Committee of the Whole?

Mr. DAVIS. Mr. Speaker, I demand a separate vote on the so-called Miller amendment to modify the negligence standard in the bill.

The SPEAKER pro tempore. Is a separate vote demanded on any other amendment to the amendment in the nature of a substitute adopted by the Committee of the Whole?

The Clerk will report the amendment on which a separate vote has been demanded.

The Clerk read as follows:

Amendment: Page 19, strike line 6 and insert the following:

(A) negligence by the responsible party or an employee or agent of the responsible party;

The SPEAKER pro tempore. The question is not debatable.

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. STUDDS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 185, nays 197, not voting 51, as follows:

□ 1728

The Clerk announced the following pairs:

On this vote:

Mr. McDermott for, with Mr. Hayes of Louisiana against.

Mr. Payne of New Jersey for, with Mr. Burton of Indiana against.

Mr. Dymally for, with Mr. Ray against.

Ms. Schneider for, with Mr. Quillen against.

Mr. Kleczka for, with Mr. Barnard against.

Mrs. Roukema for, with Mr. Denny Smith against.

Mr. ANTHONY and Mr. PURSELL changed their vote from "yea" to "nay."

Messrs. LEVIN of Michigan, MURPHY, CONDIT, and KOLTER changed their vote from "nay" to "yea."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. The question is on the amendment in the nature of a substitute, as modified, as amended.

The amendment in the nature of a substitute, as modified, as amended, was agreed to.

Mr. WEISS. Mr. Chairman, the bill before us today, H.R. 1465, represents remarkable effort, thought and perseverance on the part of the numerous Members, staff, State and local officials, and citizens across the country who contributed to the measure. Comprehensive Federal oilspill legislation is long overdue, and the *Exxon Valdez* disaster along with Exxon's half-hearted response to the crisis underscore the dire need for this kind of measure. I strongly believe that the bill has been significantly strengthened by numerous amendments.

In particular, I would like to express my support for the Miller-Studds-Goss-Schneider amendment to prevent the preemption of State oilspill liability laws. The four current Federal oilspills do not preempt State statutes, and it makes no sense to begin to do so now. Many States—such as Alaska—have carefully crafted oilspill laws that are not only stricter than the measure before us today, but that are tailored to particular regional resources needs. Moreover, there is no reason why we should be attempting to find ways to let industries off the hook for cleaning up the environmental problems they may cause. The public doesn't want this; it is the potential polluters who are supporting State exemption.

The *Exxon Valdez* fiasco is a prime example of the need to preserve the right of States to maintain their own oilspill standards and laws. The contingency plan that Exxon had assured us was in place failed miserably, and the company's dedication to thorough cleanup has been questionable. On top of this, the administration has shown no leadership in holding Exxon responsible for the widespread devastation of the Alaskan coast, wildlife, and industry.

Fortunately, in great part because Alaska State law provides for unlimited liability, and extends liability to the owner of the oil in addition to the shipper, Exxon has been held accountable for damages that have been estimated at over $2 billion at this point. Had the *Exxon Valdez* spill occurred under the jurisdiction of the bill before us today without the Miller-Studds amendment, the liability for Exxon would have been capped at an amount far below that estimate, and the oilspill liability fund, authorized by the bill, may never have been able to make up the difference.

I am also concerned that by passing this bill without the Miller-Studds language preventing preemption of State laws, the House would have given its stamp of approval to two international protocols which also would have limited industry liability. It is just plain unfair to spread the burden of payment among the blameless, and it is appropriate that we did not endorse such a system.

Finally, I would like to express my support for the Miller amendment which would have changed the bill's negligence standard to provide that liability limits would not apply to spills resulting from "negligence," as opposed to only "gross negligence or willful misconduct." Taxpayers should not bear the burden of negligent oil spillers. Unfortunately, the amendment adopted in the Committee of the Whole was defeated in the House.

I am pleased that we have strengthened the bill before us, and I will continue to support efforts to ensure that this country has in place the best system for both coping with and preventing oilspills in the future.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. NOWAK. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 375, nays 5, not voting 53, as follows:

[Roll No. 345]

□ 1745

The Clerk announced the following pairs:

On this vote:

Mr. Courter for, with Mr. Quillen against.

Ms. Schneider for, with Mr. Denny Smith against.

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENGROSSMENT OF H.R. 1465, OIL POLLUTION PREVENTION, RESPONSE, LIABILITY, AND COMPENSATION ACT OF 1989

Mr. TAUZIN. Mr. Speaker, I ask unanimous consent that the Clerk be authorized to make corrections in spelling, punctuation, and cross-references, and to make any other necessary technical and conforming changes in the engrossment of the bill just passed.

The SPEAKER pro tempore (Mr. HAYES of Illinois). Is there objection to the request of the gentleman from Louisiana?

There was no objection.

GENERAL LEAVE

Mr. TAUZIN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

PERSONAL EXPLANATION

Mrs. SCHROEDER. Mr. Speaker, I was absent for two votes on the afternoon of November 9. Had I been present, I would have voted as follows:

Roll No. 344, Miller amendment: "Yea."

Roll No. 345, passage of oil pollution limitation, H.R. 1465: "Yea."

PERSONAL EXPLANATION

Mr. TORRES. Mr. Speaker, I was unavoidably absent on official business during rollcall vote 345. Had I been present on the House floor, I would have voted "yea" on final passage of H.R. 1465, the Oil Pollution Prevention, Response, Liability, and Compensation Act of 1989.

PERSONAL EXPLANATION

Mr. McDADE. Mr. Speaker, during consideration yesterday of the Oil Pollution, Prevention, Response, Liability and Compensation Act, I inadvertently voted "yea" on rollcall No. 341.

Prior to the vote, I was heavily involved, as I have been all week, in the House-Senate conference on the Department of Defense appropriations bill. In the rush from conference to the House floor, I unintentionally cast my vote for the amendment. Mr. Speaker, I want the record to show that I intended to vote "no."

PRIVILEGES OF THE HOUSE—RETURNING S. 686, OIL POLLUTION LIABILITY AND COMPENSATION ACT OF 1989, TO THE SENATE

Mr. CARDIN. Mr. Speaker, I rise to a question of the privileges of the House, and I offer a privileged resolution (H. Res. 287) returning to the Senate the bill S. 686, and I ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 287

Resolved. That the bill of the Senate (S. 686) to consolidate and improve Federal laws providing compensation and establishing liability for oilspills, in the opinion of this House, contravenes the first clause of the seventh section of the first article of the Constitution of the United States and is an infringement of the privileges of this House and that such bill be respectfully returned to the Senate with a message communicating this resolution.

The SPEAKER pro tempore. The gentleman from Maryland [Mr. CARDIN] is recognized for 1 hour.

Mr. CARDIN. Mr. Speaker, I yield myself such time as I may consume.

Section 401(b)(1) of S. 686 transfers the assets of the Trans-Alaska Pipeline liability fund to the oilspill liability trust fund. Section 401(b)(2) of S. 686 provides for a credit against the oilspill liability trust fund tax—a Federal tax imposed by the Internal Revenue Code—for those oil companies which have contributed to the TAPS fund. This credit directly reduces the collection of a tax clearly within the jurisdiction of the Committee on Ways and Means. Accordingly, the credit established by S. 686 is clearly a tax measure and an infringement of the prerogatives of the House.

I want to emphasize, Mr. Speaker, that this resolution is procedural in nature, and not a reflection on the substantive policy of the Senate provision. I anticipate that the underlying policy issue will be addressed during the revenue conference in the reconciliation bill.

Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION ALLOWING THE SPEAKER ACCESS TO INTELLIGENCE MEETINGS AND INFORMATION

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 341) on the resolution (H. Res. 268) allowing the Speaker access to intelligence meetings and information, which was referred to the House Calendar and ordered to be printed.

APPOINTMENT OF CONFEREES ON H.R. 2748, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1990

Mr. BEILENSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2748) to authorize appropriations for fiscal year 1990 for intelligence and intelligence-related activities of the U.S. Government, the intelligence community staff, and the Central Intelligence Agency retirement and disability system, and for other purposes with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. GINGRICH. Reserving the right to object, Mr. Speaker, I simply reserve the right to object to ask my colleague, the gentleman from California, if the ranking Member, the gentleman from Illinois [Mr. HYDE] has cleared this?

Mr. BEILENSON. Mr. Speaker, if the gentleman will yield, absolutely. I would say to my friend, the gentleman from Illinois [Mr. HYDE] and his counsel, and the minority Members have cleared this.

Mr. GINGRICH. I thank my colleague.

Mr. Speaker, I withdraw my reservation of objection.

□ 1750

The SPEAKER pro tempore (Mr. HAYES of Illinois). Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The Speaker will appoint conferees upon his return.

LEGISLATIVE PROGRAM

(Mr. GINGRICH asked and was given permission to address the House for 1 minute.)

Mr. GINGRICH. Mr. Speaker, I take this time to inquire of the distinguished majority leader the program for next week.

And I yield to the majority leader for that purpose.

Mr. GEPHARDT. Mr. Speaker, obviously we have finished the business for this evening. The House will be in a pro forma session tomorrow with no votes.

On Monday, November 13, the House will meet at noon, and we will have 23 bills on suspension:

H.R. 3611, International Narcotics Control Act of 1989;

H.R. 3033, Chemical and Biological Warfare Elimination Act;

H.R. 3614, Drug Free Schools and Communities Act of 1989;

H.R. 3550, Drug forfeiture amendments;

H.R. 3046, Copyright Royalty Tribunal Reform Act;

H.R. , Emergency Drug Abuse Treatment Expansion Act;

S. 1390, authorize funding of a mouse research laboratory;

H.R. 1602, Trauma Care Systems Planning and Development Act;

S. 931, protect segments of the Genesee River in New York;

H.R. 2809, transfer of certain lands to California;

H.R. 215, calculation of premium pay;

H.R. 3629, Quarterly Financial Report Program extension;

H.R. 1011, National Resources Disaster Recovery Act of 1989;

H.R. 2134, amendments to Meat and Poultry Inspection Acts;

H.R. 3620, clarifying the Food Security Act of 1985;

H.R. 3482, disaster forestry assistance;

H.R. 3589, earthquake disaster assistance coverage;

H.R. 2668, National Museum of the American Indian;

H.J. Res. 357, provides for reappointment to the Board of Regents for the Smithsonian;

H.J. Res. 358, provides for reappointment to the Board of Regents for the Smithsonian;

H.R. 150, alien Armed Forces citizenship;

H.R. 639, alien Armed Forces immigrant status; and

H.R. 529, Filipino war veterans naturalization.

Debate on those suspensions will probably take us to 4:30 or 5 o'clock in the afternoon. We do not plan to have votes until 4:30 or 5 o'clock in the afternoon.

On Tuesday, November 14, again the House will meet at noon to consider House Resolution 268, rights of the Speaker regarding access to information from the Select Committee on Intelligence; S. 974, Nevada Wilderness Protection Act, subject to a rule; H.R. 2567, Reclamation Authorization and Adjustments Act, subject to a rule; H.R. 2939, conference report for the Foreign Assistance Appropriation Act of fiscal year 1990.

On Wednesday, November 15, the House will meet at 10 a.m. The House will recess immediately and reconvene at 11 a.m. to receive Lech Walesa, chairman of Solidarity, from Poland, at a joint meeting.

Following the joint meeting the House will reconvene for legislative business.

We will consider H.R. 3072, conference report for the Defense Appropriation Act of fiscal year 1990; H.R. 1312, conference report on Domestic Volunteer Services Act of 1989.

On Thursday, November 16, and Friday, November 17, the House will meet at 10 a.m. We will be considering H.R. 3299, the conference report for the Omnibus Budget Reconciliation Act of 1989, subject to a rule.

Members should be advised of possible votes on November 18 and 19. And I would also say the 20th, which would be on Monday. It is still our hope and expectation that we can finish this session before we leave for Thanksgiving.

That may take us into Monday night. We would like to have Members in a position where they can be on airplanes on Tuesday morning.

We do anticipate that on Wednesday we have the short-term continuing appropriations, which will be expiring. If we have not finished the appropriation bills by that time, we will be asking for a very short-term appropriation to get to the end of the period, by which time we should be able to have all the appropriations bills finished.

Mr. GINGRICH. If I might ask one or two things. First of all, I want to go back and doublecheck one thing. I believe we do not need a pro forma session tomorrow if we are in Monday.

Mr. GEPHARDT. That is correct.

Mr. GINGRICH. So is it possible, because I think that may have been announced?

Mr. GEPHARDT. There will not be a pro forma session tomorrow, there will be no session tomorrow.

Mr. GINGRICH. Good. I must have missed that. I apologize.

Two other things: I understand that the Housing Subcommittee is to be commended for having passed the HUD reform bill in a very bipartisan way. My understanding is that may come up on Tuesday, and I was not sure whether that had been mentioned. This all happened so quickly. I wonder if the majority leader might know whether or not that will be coming up.

Mr. GEPHARDT. We want to do that on Tuesday. We understand there may be a need of a waiver, but we believe that can be done.

Mr. GINGRICH. Good. As I said, I do commend the Housing Subcommittee on both sides for very expeditious work, and of course, the Banking Committee under Mr. GONZALEZ for doing that.

Last, I notice that we do not, I believe, mention a continuing resolution. That may be difficult. Does the majority leader have any idea yet as to what might happen on a continuing resolution?

Mr. GEPHARDT. We are not sure. We still hope we can get the appropriation bills finished.

But if we do not by Wednesday, we will ask for a short-term continuing resolution until we can complete all the appropriations.

Mr. GINGRICH. As I understand, the goal here is we would have a very short-term CR.

Mr. GEPHARDT. Yes.

Mr. GINGRICH. And actually try to get all the appropriations bills before we leave.

Mr. GEPHARDT. That is correct.

Mr. GINGRICH. Well, I can say on the Republican side we look forward to working with the majority leader and the majority all of next week, and I think all of our Members agree we would far rather be here through Saturday and Sunday if need be in order to get it done rather than come back after Thanksgiving.

We appreciate the work you have done. Thank you.

Mr. GEPHARDT. I thank the gentleman.

Mr. GINGRICH. I yield back.

AUTHORIZING THE SPEAKER TO DECLARE RECESSES ON MONDAY, NOVEMBER 13, 1989

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that it be in order for the Speaker to declare recesses on Monday, November 13, 1989, subject to the call of the Chair.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

AUTHORIZING THE SPEAKER TO DECLARE RECESSES ON WEDNESDAY, NOVEMBER 15, 1989

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, for the Speaker to declare recesses, subject to the call of the Chair, for the purpose of receiving in joint meeting the Honorable Lech Walesa, chairman, Solidarnosc.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

ADJOURNMENT TO MONDAY, NOVEMBER 13, 1989

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that when the

House adjourns today, it adjourn to meet at noon on Monday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

MAKING TECHNICAL AND CORRECTING CHANGES IN AGRICULTURE PROGRAMS

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 1793) to make technical and correcting changes in agriculture programs, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. ROBERTS. Mr. Speaker, reserving the right to object, I shall not object, but under my reservation I yield to the distinguished chairman of the Committee on Agriculture, the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I appreciate the gentleman yielding.

Mr. Speaker, this is a bill that was passed by the Senate that has two or three items related to basically technical corrections on agricultural programs. We have added on the House side several technical corrections, also including one that would extend the disaster legislation that we passed to include earthquake assistance for California.

I might add for my colleagues that the total of the bill, with one of the items that we have in there, will allow us a saving of $420 million.

If there is any cost, it would be less than 6.

I would appreciate my colleagues supporting the motion, and I thank the gentleman for yielding.

Mr. ROBERTS. Mr. Speaker, further under my reservation of objection, I yield to my colleague, the gentleman from California [Mr. PANETTA].

Mr. PANETTA. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of S. 1793, as amended, and urge its passage by the House.

This bill, as amended, includes a provision which would extend disaster assistance benefits under the Disaster Assistance Act of 1989—Public Law 101-87—to agricultural producers and related businesses affected by the Loma Prieta earthquake.

Section 9 of the bill is identical to a bill—H.R. 3589—which I introduced late last week with a number of my California colleagues to provide this needed assistance. In our efforts to provide relief to those who have been stricken by the earthquake, it has become apparent that one group which does not qualify for existing Federal disaster assistance benefits is farmers and farm-related businesses. H.R. 3589 is intended to fill that void.

Mr. Speaker, the Loma Prieta earthquake made a direct hit on Santa Cruz County in California, one of the richest fruit and vegetable producing regions in the world. Clear estimates of the damage suffered are not yet available. However, it is already clear that the toll suffered by farmers in this area will be significant, and the costs of recovery will be substantial.

Section 9 of S. 1793 will help farmers and related businesses get back on their feet. First, it will provide direct financial assistance to those producers of program and nonprogram crops—including ornamentals like roses and cut flowers—who suffered losses in production due to the earthquake.

Second, the bill will provide loans to those in need of funds to begin the process of rebuilding their businesses. The bill would provide an additional $100 million in loan guarantees for this purpose.

Mr. Speaker, I offer my sincere thanks to the chairman of the Committee on Agriculture, Mr. DE LA GARZA, and the ranking member, Mr. MADIGAN, for their assistance in expediting the consideration of the earthquake disaster assistance bill and for incorporating it into the bill before the House this evening.

I urge my colleagues to support passage of S. 1793.

□ 1800

Mr. ROBERTS. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. HAYES of Illinois). Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the Senate bill as follows:

S. 1793

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. OAT ACREAGE LIMITATION PROGRAM.

(a) IN GENERAL.—Effective only for the 1990 crop of feed grains, section 105C(f)(2)(G) of the Agricultural Act of 1949 (7 U.S.C. 1444e(f)(2)(G)) is amended—

(1) by inserting "(i)" after the subparagraph designation; and

(2) by adding at the end the following new clause:

"(ii) In the case of the 1990 crop of oats, the Secretary may establish a percentage reduction for oats in accordance with paragraph (1) of less than 5 percent. If the Secretary does not establish a percentage reduction requirement for oats, the Secretary shall ensure that the crop acreage bases established for the farm and the farm acreage base are not increased as a result of this clause.".

(b) CONFORMING AMENDMENTS.—Effective only for the 1990 crop of feed grains, section 105C of such Act is amended—

(1) in subsection (d)(1), by adding at the end the following new subparagraph:

"(E) This subsection shall not apply to the 1990 crop of oats."; and

(2) in subsection (f)(1), by adding at the end the following new subparagraph:

"(E) As a condition of eligibility for loans, purchases, and payments for the 1990 crop of oats, the producers of oats on a farm may not plant oats in excess of the crop acreage base for the farm.".

SEC. 2. EXPORT ENHANCEMENT PROGRAM; PROMOTION OF UNITED STATES MEAT EXPORTS.

(a) COMMISSARIES.—During each of fiscal years 1990, 1991, and 1992, the Commodity Credit Corporation shall, in carrying out the export enhancement program established pursuant to section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)), promote the export of United States meat, including poultry products, to commissaries on military installations in the European Community.

(b) FUNDING—

(1) IN GENERAL.—Except as provided in paragraph (2), of the amounts made available by the Commodity Credit Corporation to exporters, processors, and foreign importers under the authority of section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)) in commodities of the Commodity Credit Corporation to enhance the export of United States commodities by making the price of such commodities competitive in the world market, the Commodity Credit Corporation shall make available to carry out subsection (a) not less than $14,000,000 in funds or commodities for fiscal year 1990, not less than $9,300,000 in funds or commodities for fiscal year 1991, and not less than $4,600,000 in funds or commodities for fiscal year 1992.

(2) TRANSPORTATION COSTS.—Funds or commodities shall be made available under this section only to the extent that funds are made available by the Department of Defense for the costs of transporting the meat to the commissaries.

(c) REIMBURSEMENT OF CORPORATION.—Section 4 of the Act of July 16, 1943 (57 Stat. 566, chapter 241; 15 U.S.C. 713a-9) shall not apply to services performed, losses sustained, operating costs incurred, or commodities purchased or delivered by the Commodity Credit Corporation pursuant to this section.

SEC. 3. EGGS.

(a) EXEMPTED EGG PRODUCERS.—Section 12 of the Egg Research and Consumer Information Act (7. U.S.C. 2711) is amended to read as follows:

"SEC. 12. EXEMPTED EGG PRODUCERS AND BREEDING HEN FLOCKS, CONDITIONS AND PROCEDURES.

"(a) IN GENERAL.—The following shall be exempt from the specific provisions of this title under such conditions and procedures as may be prescribed in the order or rules and regulations issued thereunder:

"(1) Any egg producer whose aggregate number of laying hens at any time during a 3-consecutive-month period immediately prior to the date assessments are due and payable, as determined under subsection (b), has not exceeded 30,000 laying hens.

"(2) Any flock of breeding hens whose production of eggs is primarily utilized for hatching of baby chicks.

"(b) NUMBER OF LAYING HENS.—

"(1) IN GENERAL.—For purposes of subsection (a)(1), the aggregate number of laying hens owned by an egg producer shall include—

"(A) in cases in which the producer is an individual, laying hens owned by such producer or members of such producer's family that are effectively under the control of such producer, as determined by the Secretary;

"(B) in cases in which the producer is a general partnership or similar entity, laying hens owned by the entity and all partners or equity participants in the entity; and

"(C) in cases in which a producer holds 50 percent or more of the stock or other beneficial interest in a corporation, joint stock company, association, cooperative, limited partnership, or other similar entity, laying hens owned by the entity.

Ownership of laying hens by a trust or similar entity shall be considered ownership by the beneficiaries of the trust or other entity.

"(2) STOCK OR BENEFICIAL INTEREST.—For purposes of paragraph (1)(C), stock or other beneficial interest in an entity that is held by—

"(A) members of a producer's family described in paragraph (1)(A);

"(B) a general partnership or similar entity in which the producer is a partner or equity participant;

"(C) the partners or equity participants in an entity of the type described in subparagraph (B), or by a corporation, joint stock company, association, cooperative, limited partnership, or other similar entity in which the producer holds 50 percent or more of the stock or other beneficial interests,

shall be considered as held by the producer.".

(b) EGG PROMOTION AND RESEARCH ORDER.—

(1) AMENDMENT.—Not later than 30 days after the date of enactment of this Act, the Secretary of Agriculture shall propose an amendment to the egg promotion and research order issued under the Egg Research and Consumer Information Act (7 U.S.C. 2701 et seq.) to implement the amendments made by this section. Such amendment shall be issued in accordance with section 553 of title 5, United States Code, and without regard to sections 556 and 557 of such title.

"(2) EFFECTIVE DATE.—The amendment to the egg promotion and research order required by subsection (a) shall become effective on the date of the publication in the Federal Register and shall not be subject to a referendum under the Egg Research and Consumer Information Act (42 U.S.C 2701 et seq.).

SEC. 4. PEANUTS

Section 8b of the Agricultural Adjustment Act (7 U.S.C. 608b), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended—

(1) by inserting "(1)" after the section designation; and

(2) by adding at the end the following:

"(2)(A) If an agreement with the Secretary is in effect with respect to peanuts pursuant to this section—

"(i) all peanuts handled by persons who have not entered into such an agreement with the Secretary shall be subject to inspection to the same extent and manner as is required by such agreement; and

"(ii) no such peanuts shall be sold or otherwise disposed of for human consumption if such peanuts fail to meet the quality requirements of such agreement.

"(B) Violation of this subsection by a person who has not entered into such an agreement shall result in the assessment by the Secretary of a penalty equal to 140 percent of the support price for quota peanuts, as determined under section 108B of the Agricultural Act of 1949 (7 U.S.C. 1445c-2), for the marketing year for the crop with respect to which such violation occurs.".

"(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall become effective 30 days after the date of enactment of this Act.

SEC. 5. RESEARCH INTO NEW COMMERCIAL PRODUCTS FROM NATURAL PLANT MATERIALS.

The National Agricultural Research, Extension, and Teaching Policy Act of 1977 is amended by inserting after section 1473D (7 U.S.C. 3319d) the following new section:

"SEC. 1473E. RESEARCH INTO NEW COMMERCIAL PRODUCTS FROM NATURAL PLANT MATERIALS.

"The Secretary may—

"(1) conduct fundamental and applied research related to the development of new commercial products derived from natural plant materials for industrial, medical, and agricultural applications; and

"(2) participate with colleges and universities, other Federal agencies, and private sector entities in conducting such research.".

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. DE LA GARZA

Mr. DE LA GARZA. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. DE LA GARZA. Strike out all after the enacting clause and insert the following:

SECTION 1. OAT ACREAGE LIMITATION PROGRAM.

(a) IN GENERAL.—Effective only for the 1990 crop of feed grains, section 105C(f)(2)(G) of the Agricultural Act of 1949 (7 U.S.C. 1444e(f)(2)(G)) is amended—

(1) by inserting "(i)" after the subparagraph designation; and

(2) by adding at the end the following new clause: A "(ii) In the case of the 1990 crop of oats, the Secretary may establish a percentage reduction for oats in accordance with paragraph (1) of less than 5 percent. If the Secretary does not establish a percentage reduction requirement for oats, the Secretary shall ensure that the crop acreage bases established for the farm and the farm acreage base are not increased as a result of this clause.".

(b) CONFORMING AMENDMENTS.—Effective only for the 1990 crop of feed grains, section 105C of such Act is amended—

(1) in subsection (d)(1), by adding at the end the following new subparagraph:

"(E) This subsection shall not apply to the 1990 crop of oats."; and

(2) in subsection (f)(1), by adding at the end the following new subparagraph:

"(E) As a condition of eligibility for loans, purchases, and payments for the 1990 crop of oats, the producers of oats on a farm may not plant oats in excess of the crop acreage base for the farm.".

SEC. 2. EXPORT ENHANCEMENT PROGRAM; PROMOTION OF UNITED STATES MEAT EXPORTS.

(a) COMMISSARIES.—During each of fiscal years 1990, 1991, and 1992, the Commodity Credit Corporation shall, in carrying out the export enhancement program established pursuant to section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)), promote the export of United States meat, including poultry products, to commissaries on military installation is the European Community.

(b) FUNDING.—

(1) IN GENERAL.—Except as provided in paragraph (2), of the amounts made available by the Commodity Credit Corporation to exporters, processors, and foreign importers under the authority of section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)) in commodities of the Commodity Credit Corporation to enhance the export of United States commodities by making the price of such commodities competitive in the world market, the Commodity Credit Corporation shall make available to carry out subsection (a) not less than $14,000,000 in funds or commodities for fiscal year 1990, not less than $9,300,000 in funds or commodities for fiscal year 1991, and not less than $4,600,000 in funds or commodities for fiscal year 1992.

(2) TRANSPORTATION COSTS.—Funds or commodities shall be made available under this section only to the extent that funds are made available by the Department of Defense for the costs of transporting the meat to the commissaries.

(c) REIMBURSEMENT OF CORPORATION.—Section 4 of the Act of July 16, 1943 (57 Stat. 566, chapter 241; 15 U.S.C. 713a) shall not apply to services performed, losses sustained, operating costs incurred, or commodities purchased or delivered by the Commodity Credit Corporation pursuant to this section.

SEC. 3. EGGS.

(a) EXEMPTED EGG PRODUCERS.—Section 12 of the Egg Research and Consumer Information Act (7 U.S.C. 2711) is amended to read as follows:

"SEC. 12. EXEMPTED EGG PRODUCERS AND BREEDING HEN FLOCKS, CONDITIONS AND PROCEDURES.

"(a) IN GENERAL.—The following shall be exempt from the specific provisions of this Act under such conditions and procedures as may be prescribed in the order or rules and regulations issued thereunder:

"(1) Any egg producer whose aggregate number of laying hens at any time during a 3-consecutive-month period immediately prior to the date assessments are due and payable has not exceeded 30,000 laying hens, as determined under subsection (b).

"(2) Any flock of breeding hens whose production of eggs is primarily utilized for the hatching of baby chicks.

"(b) NUMBER OF LAYING HENS.—

"(1) IN GENERAL.—For purposes of subsection (a)(1), the aggregate number of laying hens owned by an egg producer shall include—

"(A) in cases in which the producer is an individual, laying hens owned by such producer or members of such producer's family that are effectively under the control of such producer, as determined by the Secretary.

"(B) in cases in which the producer is a general partnership or similar entity, laying hens owned by the entity and all partners or equity participants in the entity; and

"(C) in cases in which the producer holds 50 percent or more of the stock or other beneficial interest in a corporation, joint stock company, association, cooperative, limited partnership, or other similar entity, laying hens owned by the entity.

Ownership of laying hens by a trust or similar entity shall be considered ownership by the beneficiaries of the trust or other entity.

"(2) STOCK OR BENEFICIAL INTERESTS.—For purposes of paragraph (1)(C), stock or other

beneficial interest in an entity that is held by—

"(A) members of the producer's family described in paragraph (1)(A);

"(B) a general partnership or similar entity in which the producer is a partner or equity participant;

"(C) the partners or equity participants in an entity of the type described in subparagraph (B); or

"(D) a corporation, joint stock company, association, cooperative, limited partnership, or other similar entity in which the producer holds 50 percent or more of the stock or other beneficial interests,

shall be considered as held by the producer.".

(b) EGG PROMOTION AND RESEARCH ORDER.—(1) AMENDMENT.—The Secretary of Agriculture shall issue an amendment to the egg promotion and research order issued under the Egg Research and Consumer Information Act (7 U.S.C. 2701 et seq.) to implement the amendments made by this section. Such amendment shall be issued after public notice and opportunity for comment in accordance with section 553 of title 5, United States Code, and without regard to sections 556 and 557 of such title. The Secretary shall issue a proposed amendment to such order not later than 30 days after the date of enactment of this Act.

(2) EFFECTIVE DATE.—The amendment to the egg promotion and research order required by paragraph (1) shall become effective no later than March 1, 1990, and shall not be subject to a referendum under the Egg Research and Consumer Information Act (7 U.S.C. 2701 et seq.).

SEC. 4. PEANUTS.

Section 8b of the Agricultural Adjustment Act (7 U.S.C. 608b), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended—

(1) by inserting "(a)" after the section designation; and

(2) by adding at the end the following:

"(b)(1) If an agreement with the Secretary is in effect with respect to peanuts pursuant to this section—

"(A) all peanuts handled by persons who have not entered into such an agreement with the Secretary shall be subject to inspection to the same extent and manner as is required by such agreement; and

"(B) no such peanuts shall be sold or otherwise disposed of for human consumption if such peanuts fail to meet the quality requirements of such agreement.

"(2) Violation of this subsection by a person who has not entered into such an agreement shall result in the assessment by the Secretary of a penalty equal to 140 percent of the support price for quota peanuts, as determined under section 108B of the Agricultural Act of 1949 (7 U.S.C. 1445c-2), for the marketing year for the crop with respect to which such violation occurs.".

"(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall become effective 30 days after the date of enactment of this Act.

SEC. 5. RESEARCH INTO NEW COMMERCIAL PRODUCTS FROM NATURAL PLANT MATERIALS.

The National Agricultural Research, Extension, and Teaching Policy Act of 1977 is amended by inserting after section 1473D (7 U.S.C. 3319d) the following new section:

"SEC. 1473E. RESEARCH INTO NEW COMMERCIAL PRODUCTS FROM NATURAL PLANT MATERIALS.

"The Secretary may—

"(1) conduct fundamental and applied research related to the development of new commercial products derived from natural plant materials for industrial, medical, and agricultural applications; and

"(2) participate with colleges and universities, other Federal agencies, and private sector entities in conducting such research.".

SEC. 6. CALCULATION OF INSURANCE PREMIUMS PAID BY FARM CREDIT SYSTEM INSTITUTIONS.

(a) IN GENERAL.—Section 5.55 of the Farm Credit Act of 1971 (12 U.S.C. 2277a-4) is amended—

(1) by striking subsection (a) and inserting the following:

"(a) AMOUNT IN FUND NOT EXCEEDING SECURE BASE AMOUNT.—

"(1) IN GENERAL.—Until the aggregate of amounts in the Farm Credit Insurance Fund exceeds the secure base amount, the annual premium due from any insured System bank for any calendar year shall be equal to the sum of—

"(A) the annual average principal outstanding for such year on loans made by the bank that are in accrual status, excluding the guaranteed portions of government-guaranteed loans provided for in subparagraph (C), multiplied by 0.0015;

"(B) the annual average principal outstanding for such year on loans made by the bank that are in nonaccrual status, multiplied by 0.0025; and

"(C)(i) the annual average principal outstanding for such year on the guaranteed portions of Federal government-guaranteed loans made by the bank that are in accrual status, multiplied by 0.00015; and

"(ii) the annual average principal outstanding for such year on the guaranteed portions of State government-guaranteed loans made by the bank that are in accrual status, multiplied by 0.0003.

"(2) DEFINITION OF GOVERNMENT-GUARANTEED LOANS.—As used in this section and section 1.12(b), the term 'government-guaranteed loans' means loans or credits, or portions of loans or credits, that are guaranteed—

"(A) by the full faith and credit of the United States Government or any State government;

"(B) by an agency or other entity of the United States Government whose obligations are explicitly guaranteed by the United States Government; or

"(C) by an agency or other entity of a State government whose obligations are explicitly guaranteed by such State government.";

(2) in subsection (b), by inserting after "for the following calendar year" the following: ", as determined under subsection (a),";

(3) in subsection (c), by inserting after "at such time" the following: "(adjusted downward to exclude an amount equal to the sum of (1) 90 percent of the guaranteed portions of principal outstanding on Federal government-guaranteed loans in accrual status made by such banks and (2) 80 percent of the guaranteed portions of principal outstanding on State government-guaranteed loans in accrual status made by such banks, as determined by the Corporation)"; and

(4) in subsection (d)—

(A) by striking "subsection (a)" in the material preceding paragraph (1) and inserting "subsections (a) and (c)";

(B) by striking "intermediate term" in the material preceding paragraph (1); and

(C) by striking paragraph (1) and inserting the following:

"(1) by any production credit association, or any other association making direct loans under authority provided under section 7.6, that is able to make such loans because such association is receiving, or has received, funds provided through the Farm Credit Bank;".

(b) CONFORMING AMENDMENTS.—(1) The first sentence of subsection (b) of section 1.12 of the Farm Credit Act of 1971 (12 U.S.C. 2020(b)) is amended by inserting after "production credit association" the following: ", other association making direct loans under the authority provided under section 7.6,"

(2) The second sentence of subsection (b) of section 1.12 of the Farm Credit Act of 1971 (12 U.S.C. 2020(b)) is amended—

(A) in paragraph (1)—

(i) by inserting before "discounted with" the following: "funded by or";

(ii) by inserting after "that are in accrual status," the following: "excluding the guaranteed portions of government-guaranteed loans provided for in paragraph (3),"; and

(iii) by striking "and" at the end;

(B) in paragraph (2)—

(i) by inserting before "discounted with" the following: "funded by or"; and

(ii) by striking the period at the end and inserting "; and"; and

(C) by inserting after paragraph (2) the following:

"(3)(A) the annual average principal outstanding for such year on the guaranteed portions of Federal government-guaranteed loans made by the association, or by the other financing institution and funded by or discounted with the Farm Credit Bank, that are in accrual status, multiplied by 0.00015; and

"(B) the annual average principal outstanding for such year on the guaranteed portions of State government-guaranteed loans made by the association, or by the other financing institution and funded by or discounted with the Farm Credit Bank, that are in accrual status, multiplied by 0.0003.".

(3) Section 5.59(b)(1) of the Farm Credit Act of 1971 (12 U.S.C. 2277a-8(b)(1)) is amended by inserting after "any production credit association," the following: "any other association making direct loans under authority provided under section 7.6,".

(4) Section 5.61(e) of the Farm Credit Act of 1971 (12 U.S.C. 2277a-10(e)) is amended by inserting after "production credit association" the following: "and other association making direct loans under the authority provided under section 7.6".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall be effective for insurance premiums due to the Farm Credit System Insurance Corporation under the Farm Credit Act of 1971 (12 U.S.C. 2001 et seq.) on or after January 1, 1990, based on the loan volume of each bank for each calendar year beginning with the calendar year 1989, and shall be effective for the calculation of the initial premium payment required under section 5.56(c) of the Farm Credit Act of 1971 (12 U.S.C. 2277a-5(c)).

SEC. 7. PURCHASES OF FINANCIAL ASSISTANCE CORPORATION STOCK BY FARM CREDIT SYSTEM INSTITUTIONS.

(a) DELAYED EFFECTIVE DATE FOR STOCK PURCHASE REQUIREMENTS.—Notwithstanding any other provision of law, the amendments to section 6.29 of the Farm Credit Act of 1971 (12 U.S.C. 2278b-9) made by section 646 of the Rural Development, Agriculture, and Related Agencies Appropriations Act,

1989 (Public Law 100-460; 102 Stat. 2266) shall be effective on October 1, 1992.

(b) PAYMENTS.—

(1) FOUR ANNUAL PAYMENTS.—Notwithstanding any other provision of law, the Financial Assistance Corporation shall pay, out of the Trust Fund established under section 6.25 of the Farm Credit Act of 1971 (12 U.S.C. 2278b-5), to each of the institutions of the Farm Credit System that purchased stock in the Financial Assistance Corporation under section 6.29 of the Farm Credit Act of 1971, four annual payments as provided in this subsection.

(2) TIMING OF PAYMENTS.—The annual payments provided for by this subsection shall be made available as soon as practicable after October 1 of each of the calendar years 1989 through 1992.

(3) CALCULATION OF FIRST PAYMENT.—The first annual payment made available under this subsection shall be in an amount equal to—

(A) a percentage equal to 1.5 times the average rate of interest received by the Financial Assistance Corporation from March 30, 1988, through September 30, 1989; times

(B) the difference between $177,000,000 and 4.4 percent of the amount of the cumulative amount of the bonds issued by the Financial Assistance Corporation by September 30, 1989.

(4) CALCULATION OF REMAINING PAYMENTS.—The second, third, and fourth payments made available under this subsection shall be in the amount equal to—

(A) a percentage equal to the average rate of interest received by the Financial Assistance Corporation during each of the fiscal years 1990 through 1992; times

(B) the difference between $177,000,000 and 4.4 percent of the amount of the cumulative amount of the bonds issued by September 30 of each of such fiscal years.

(5) DISTRIBUTION OF ANNUAL PAYMENTS.—Annual payments due under this subsection shall be made available to each institution described in paragraph (1) in an amount equal to the total amount of annual payments to be made available times the ratio of the amount of stock each institution purchased divided by $177,000,000.

SEC. 8. EXEMPTION OF CERTAIN INTEREST PAYMENTS BY THE U.S. TREASURY FROM SEQUESTRATION.

Section 255(g)(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting "Farm Credit System Financial Assistance Corporation, interest payments (20-1850-0-1-351);" after "Exchange stabilization fund (20-4444-0-3-155);".

SEC. 9. DISASTER ASSISTANCE COVERAGE FOR EARTHQUAKES.

(a) ANNUAL CROPS.—(1) Section 104(d)(1) of the Disaster Assistance Act of 1989 is amended by inserting "ornamentals affected by earthquake and" after "(including".

(2) Section 112(1) of such Act is amended by inserting "earthquake," after "hurricane,".

(b) ORCHARDS.—(1) Section 121(a) of the Disaster Assistance Act of 1989 is amended to read as follows:

"(a) Loss.—Subject to the limitation in subsection (b), the Secretary of Agriculture shall provide assistance, as specified in section 122, to eligible orchardists that planted trees for commercial purposes but lost such trees as a result of freeze, earthquake, or related condition in 1989, as determined by the Secretary.".

(2) Section 122(1) of such Act is amended by inserting ", earthquake," after "freeze".

(c) FOREST CROPS.—(1) Section 131(a) of the Disaster Assistance Act of 1989 is amended to read as follows:

"(a) Loss.—Subject to the limitation in subsection (b), the Secretary of Agriculture shall provide assistance, as specified in section 132, to eligible tree farmers that planted tree seedlings in 1988 or 1989 for commercial purposes but lost such seedlings as a result of drought, earthquake, or related condition in 1989, as determined by the Secretary.".

(2) Section 132(1) of such Act is amended by inserting ",earthquake," after "drought".

(d) DISASTER ASSISTANCE FOR RURAL BUSINESS ENTERPRISES.—Section 401 of the Disaster Assistance Act of 1989 is amended—

(1) in paragraph (a)(1), by inserting "earthquake," after "excessive moisture,"; and

(2) in paragraph (c)(2), by striking out "$200,000,000" and inserting "300,000,000".

SEC. 10. TEMPORARY EXCLUSION OF CERTAIN HOUSING ASSISTANCE FROM INCOME FOR PURPOSES OF THE FOOD STAMP ACT OF 1977.

Section 807(b) of the Stewart B. McKinney Homeless Assistance Act (7 U.S.C. 2014 note) is amended by—

(1) striking "1989" and inserting "1990";

(2) redesignating paragraph (2) as paragraph (3); and

(3) inserting after paragraph (1) the following paragraph:

"(2) The Secretary shall adjust the level of benefits provided to households under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) during the period between September 30, 1989 and the effective date of this paragraph to ensure that the level of such benefits is no less than the level determined in accordance with the provisions of section 5(k)(2)(F) of the Food Stamp Act of 1977.".

SECTION 11. SUBMISSION OF ACTUAL YIELD DATA TO COUNTY COMMITTEES.

(a) SUBMISSION OF ACTUAL YIELD DATA TO COUNTY COMMITTEES.—Effective for the 1989 and 1990 crops of wheat, feed grains, upland cotton, and rice, section 506 of the Agricultural Act of 1949 (7 U.S.C. 1466) is amended by adding at the end the following new subsection:

"(e)(1) With respect to the 1989 and subsequent crop years, the Secretary shall allow producers to provide to county committees data with respect to the actual yield for each farm for each program crop. The Secretary shall maintain such data for at least five crop years after receipt in a manner that will permit the data to be used, if necessary, in the administration of the commodity programs for the 1989 and subsequent crops.

"(2) The Secretary shall provide timely notification to producers of the provisions of paragraph (1).

"(3) With respect to the 1989 crop year, the Secretary shall determine what the costs of each commodity program would be if farm program payment yields were determined in accordance with the methods prescribed in paragraph (4) and what the impact of such alternative methods would be on each commodity program and on producers participating in each commodity program.

"(4) The alternative methods of determining program payment yields for purposes of paragraph (3) shall include, at a minimum:

"(A) using producers' actual yields for the current crop year;

"(B) allowing producers the option of choosing to use their actual yields or the county average yield for the current crop year; and

"(C) the yield derived on the basis of the average of the actual yield per harvested acre for the crop for each of the five crop years immediately preceding such crop year, excluding the crop year with the highest yield per harvested acre, the crop year with the lowest yield per harvested acre, and any crop year in which such crop was not planted on the farm.

Not later than January 30, 1990, the Secretary shall report the determinations under this subsection to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.".

(b) SUBMISSION OF SOYBEAN ACTUAL YIELD DATA TO COUNTY COMMITTEES.—With respect to the 1989 and 1990 crop years, the Secretary shall allow producers of soybeans to provide to county committees (as defined in section 502 of the Agricultural Act of 1949 (7 U.S.C. 1462)) data with respect to the actual yield for each farm for each crop of soybeans. The Secretary shall maintain such data for at least five crop years after receipt in such a manner as to be easily accessible. The Secretary shall provide timely notification to producers of the provisions of this section.

SECTION. 12. EXTENSION ON SALE OF RURAL DEVELOPMENT LOANS.

Section 1001 of the Omnibus Budget Reconciliation Act of 1986 (7 U.S.C. 1929a note) is amended by adding at the end the following new subsection:

"(h)(1) Notwithstanding the provisions of section 633 of the Rural Development, Agriculture, and Related Agencies Appropriations Act, 1989 (Public Law 100-460), the Secretary of Agriculture shall offer to the issuer of any unsold note or other obligation described in paragraph (2)(A) for which such issuer made the good faith deposit described in paragraph (2)(A) the opportunity to purchase such note or other obligation consistent with the provisions of this subsection and subsections (f)(2) and (f)(3).

"(2) The provisions of this subsection shall apply only to those issuers who:

"(A) on or before March 9, 1989 made a good faith deposit under this section for fiscal year 1989 with the Secretary to purchase a note or other obligation held in the Rural Development Insurance Fund; and

"(B) otherwise meet all eligibility criteria, as such criteria existed immediately prior to May 9, 1989, at the time the purchase occurs under this subsection.

"(3) The opportunity to purchase any such note or other obligation shall be held open, under the policies and procedures in effect under subsections (f)(2) and (f)(3) immediately prior to May 9, 1989, for 150 days after the date of enactment of this subsection. The Secretary shall not require any further good faith deposit from issuers who qualify under this subsection. The Secretary shall notify eligible issuers of the opportunity afforded under this subsection within 30 days after the date of enactment of this subsection and may require such issuers to express an intention to purchases their note or other obligation by a date certain.".

Mr. DE LA GARZA (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. HAYES of Illinois). Is there objection to the request of the gentleman from Texas?

There was no objection.

The question is on the amendment in the nature of a substitute offered by the gentleman from Texas [Mr. DE LA GARZA].

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid upon the table.

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

CHILDREN CONCERNED ABOUT ENVIRONMENT

(Ms. SLAUGHTER of New York asked and was given permission to address the House for 1 minute and to revise and extend her remarks, and include extraneous matter.)

Ms. SLAUGHTER of New York. Mr. Speaker, we spent much of yesterday debating legislation designed to protect our waters from another oilspill like that which sullied the waters of Prince William Sound. But a young constituent, LaCarla Page, reminds me that there is much more to do.

LaCarla is in the seventh grade at St. Monica School in Rochester, NY. She writes:

Dear Representative Slaughter: I am writing to you so we can clean up our environment. If we start now, we will have a better place to live. We need to recycle more cans, plastics, and glass.

I may be young but I have concerns for our nation.

President Bush to me is all talk. Why can't we have better cars to use? We are destroying the ozone layer. Without it, we cannot survive. People will be dying of skin cancer everywhere.

I want him to mean what he says. If something doesn't happen soon, we will be destroying our earth. Please talk to the Representatives and tell them the concerns of children.

Mr. Speaker, we must heed her advice. We must do all we can to ensure that LaCarla's generation inherits a clean livable planet.

Mr. Speaker, at this point I include for the RECORD the letter.

ROCHESTER, NY, *September 15, 1989.*

Representative SLAUGHTER,
U.S. House of Representatives, Washington, DC.

DEAR REPRESENTATIVE SLAUGHTER: I am writing to you so we can clean up our environment. If we start now, we will have a better place to live. We need to recycle more cans, plastics, and glass.

I am LaCarla Page. I may be young, but I have concerns for our Nation.

President Bush to me is all talk. Why can't we have better cars to use? We are destroying the ozone layer. Without it, we cannot survive. People will be dying of skin cancer everywhere. Please talk to the President and urge him to do something about pollution.

I am sick and tired of George Bush saying he is the Drug President and the Air President and he's for this and for that and nothing is happening.

I want him to mean what he says. If something doesn't happen soon, we will be destroying our Earth. Please talk to the Representatives and tell them the concerns of children.

Sincerely,

LACARLA PAGE.

REDUCE INFANT MORTALITY RATE

(Mr. PURSELL asked and was given permission to address the house for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. PURSELL. Mr. Speaker, during the past decade, our Nation's health community has made great advances in medical technology, accomplishments which have resulted in an impressive improvement in life expectancy. Every day, we are learning more about diseases and illnesses that only several years ago would have been diagnosed "terminal," which today are being treated successfully.

Perhaps our most impressive accomplishment in health care is the ability to save newborn infants, often as much as 3 or 4 months premature, who only several years ago would have had virtually no chance to survive. Ironically, the United States has an unacceptably high infant mortality rate, much higher than that of many other developed nations. What is most disturbing is that many of these deaths could have been avoided if only the mother had had access to affordable prenatal care. Many children would be alive today and many families would not have suffered devastating losses and personal tragedy.

Sadly, the State of Michigan has one of the highest infant mortality rates in the Nation. Michigan ranked 40th nationwide in 1986, with an infant mortality rate of 11.4 per 1,000 live births. The rate is even higher in Jackson County, whose rate in 1986 was 17.3. Jackson is in my congressional district, and I have been working hard to help combat this problem.

The alarming infant mortality rate in Jackson County can be attributed to the lack of affordable prenatal care for low-income women. Last year, more than 500 women had to travel outside the county to secure prenatal care, often traveling as far as 40 miles away.

I am working with a group of Jackson community leaders and health officials to secure funding for a clinic for low-income pregnant women, and I am pleased to say that the response has been very encouraging. Our plan is to combine Federal, State, local and private sector money to fund the clinic for 3 years. The State of Michigan and Jackson County have approved funding, and the Kellogg Foundation has approved a grant for the clinic. Foote hospital has also agreed to cover certain costs, including the doctors' liability expenses.

Throughout my efforts in this particular project, I have asked State and local officials to guarantee funding before I would try to secure Federal assistance. It is critical that Federal health officials be assured that they will not be asked to provide 100 percent of the funding for a clinic and that the other concerned parties contribute their fair share. With combined efforts and commitment, I am confident that Jackson County, MI, will soon be able to provide its low-income women the prenatal care they need and deserve.

Experts agree that spending more on prenatal care today would not only save lives and prevent illnesses, it would also save money in the long run. Providing pregnant women with the care they and their children need is much less expensive than costly care for critically ill newborns. I am optimistic that Jackson County will have a prenatal care clinic operating by next year, and I am hopeful that the cooperative effort there will serve as an example for other communities.

Mr. Speaker, I include for the RECORD an article on the proposed clinic.

[From the Citizen-Patriot, Nov. 6, 1989]

PRENATAL CLINIC COULD OPEN HERE NEXT YEAR

(By Bradley Flory)

Government and private support for improving medical care for pregnant women in Jackson could make it possible for an obstetrics clinic to open next year.

"It's kind of falling into place," said Marsha A. Kreucher, who is working to open the clinic for the Region II Community Action Agency.

"We have come a long way. I just hope it is far enough because we've gotten so close."

A clinic is needed to offset a shortage of medical services available for pregnant women in Jackson County; poor women find it virtually impossible to find care locally. The county Health Department estimates more than 500 pregnant women are referred for prenatal care to medical facilities out of the county.

Money is the big question mark for the project, but a "broad base" of financial support is building toward the approximately $500,000 that is needed, Kreucher said.

She is optimistic about the chances of getting enough money to open a clinic no later than July and perhaps months earlier.

Commitments for more than $200,000 have already been received—$100,000 from the state, $75,000 from Foote Hospital, $25,000 from Region II and $2,000 from the Jackson Junior Welfare League.

Jackson County commissioners appear to have near-unanimous support for allocating at least $25,000, half of the amount requested for the clinic. City commissioners will be asked to allocate another $25,000 later this month.

County and city allocations would be a show of local financial support that could kick loose other grants from the federal government and private foundations, she said.

U.S. Rep. Carl Pursell, R-Plymouth, said his office is prepared to go into a "full-court press" to get $100,000 to $250,000 from the federal Health and Human Services agency.

Pursell said he is first helping to lobby for money from the city and county, a commitment that would impress federal officials that the project has local support.

"We felt we needed to get local government and institutions involved first," Pursell said. "That's really the guts of the project."

Kreucher also has applied for $500,000, spread over three years, from the Kellogg, Foundation: She said the foundation requested evidence of local government support for the project, support she now hopes the county and city will provide.

She also has asked for $50,000 from the Jackson Community Foundation and plans to request $25,000 from United Way of Jackson County.

If financial commitments come quickly, officials could be in a position to begin looking for a clinic location and recruiting staff next month, Kreucher said.

The clinic would be operated by Region II and employ an obstetrician, a clinic director and two nurse-midwives, Kreucher said.

Foote Hospital has agreed to screen and select the physician, who would make about $125,000 a year, she said.

"That will ensure that we get a good-quality physician that would have the respect of our local hospital and physicians," she said.

The clinic would serve 300 to 400 patients a year, with no financial requirements.

"Anyone who needs prenatal care will be eligible to receive services," Kreucher said.

Clinic operations would cost an estimated $750,000 a year, with about $400,000 coming in annually from Medicaid, Kreucher said. There would be additional income from women with private insurance plans, but no estimate of that amount has been made, she said.

"The hope is that it would be self-supporting, but I'm not sure that is realistic," she said. If the clinic has a high percentage of Medicaid and uninsured patients, "it would be unlikely that we would ever be self-supporting," she said.

A SALUTE TO OUR VETERANS

(Mr. BLAZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BLAZ. Mr. Speaker, Veterans Day is a time to remember, a time to salute and a time to pay tribute. I am not endowed with the words or the wisdom or the wit to express adequately my sentiments, so let me borrow from something I saw in Vietnam while I was serving there. It goes something like this:

For those who wear the uniform and are willing to fight and die for freedom, life has a special flavor the protected will never know.

For those of us here who are protected and continue to be protected because we have men and women in uniform who are continuing to undergo the fatigue of protecting us, we pay tribute today.

I also want to pay tribute to a corps of Americans on the 214th anniversary of their founding. It is a distinguished organization, perhaps the most distinguished in the world. The enemy calls them the Bulldogs. We know them simply and affectionately as U.S. Marines. Tomorrow is their birthday.

Mr. Speaker, Veterans Day is a time to remember the enormous sacrifices made by the men and women who have served so proudly in the armed services. But gratitude felt is no replacement for gratitude shown. And here the United States has always been in the forefront in letting its uniformed personnel know that their efforts are fully appeciated. Over 40 major benefits programs covering literally hundreds of different types of assistance exist to help our veterans. These range from education through job training to admission to the military academies to burial allowances. Nor is the Federal Government content simply to make these programs available. It seeks out eligible veterans through a variety of outreach activities. Still, some qualified veterans are missed.

The question is then, "What can be done to assure that those veterans who need assistance receive it?" The answer lies in the community itself.

Veterans' groups and organizations offer an immediate resource to available programs through their own information dissemination procedures. Moreover, many of these groups have their own outreach programs to locate veterans in need of assistance as part of their community service operations. Working at the local level, these groups have the flexibility and local awareness to grasp those beyond the reach of Federal efforts. But these groups too have their limitations.

Too often when assistance programs are mentioned, images of individuals in dire straits spring to mind. Certainly there are programs such as those for drug and alcohol abuse to aid these people. But there are also assistance packages for those who need help in getting a mortgage or in job training. What has to happen is that individual citizens must become increasingly aware of the problems of those around them. Whereas in many cases where the need for assistance is identified but individuals are stymied as to what agency can help, in the case of veterans, they need do nothing more than call a veterans' support group or contact the Department of Veterans' Affairs to bring their expert services into play.

If we as a nation are to pay our debt of gratitude to those who have served us so well, we should do all in our power to make certain that all veterans have full access to all the benefits that are due them.

GUAM HAS ALWAYS ANSWERED THE CALL

The alarms of war are never sounded lightly. Like the rumble of an earthquake in the dark, they strike fear in the hearts of all who hear them. And that is as it should be. Those who respond do so with ample misgivings. If they did not, we would not call them brave. In each of the wars of the past 50 years, the people of Guam have responded, and they have done so bravely.

WORLD WAR II

In a very real sense, everyone who lived on Guam during the enemy invasion and subsequent occupation could be considered a veteran of that conflict. With the exception of the Civil War, never before or since has a large American population center been so completely engulfed by the savage tide of warfare. The young men of the Insular Guard fought a valiant but futile battle to repulse the overwhelmingly superior enemy numbers. And with the territory conquered, the population as a whole settled into its own silent war of attrition, refusing to grant the enemy the cooperation it so strenuously demanded.

Even before the outbreak of hostilities, Guam was lending its sons to military service. With the coming of the war, these young men found themselves exiled by the conflict from their homes with no knowledge of what was befalling their families and friends back on the island. Theirs was a double burden. Not only did they have to face the daily personal peril that all men face who venture in harm's way, but they also had the added anxiety of knowing their loved ones faced the same hazards at home. Fifty-three Guam men who faced the trials of the war never lived to know how their loved ones fared.

KOREA

By the time of the Korean war, Guam men were regular enlistees in the armed services. Again, the call to arms to defend their country's honor and integrity was heeded. With their own homes and ranches still devastated, these men went off to face the rigors of a foreign conflict, one which was not well understood by any of its participants. But understanding was not the issue. Their country had called. Their services were needed. That was enough. And again, the highest price was extracted. Seventeen Guam men never returned home.

VIETNAM AND AFTER

Nor was there questioning in that most misunderstood of all wars, Vietnam. Guam was again an essential

staging area in the pursuit of that conflict. The influx of thousands of servicemen interrupted the flow of island life. But no lives were more interrupted than those of the Guam men who again donned the uniform to serve their country. The climate in Vietnam did not prove as harsh as what their older brothers found in Korea. The jungles there might have reminded them of Guam's. But the similarities ended there. These men faced some of the fiercest fighting in one of the most hellish wars America has ever fought. And again the price was high. Seventy Guam names are etched on the Vietnam Veterans' Memorial.

I hope that Vietnam will prove to be the last major conflict the United States will be involved in. But that will depend on the wisdom of our leadership. I have always felt that wars are the failure of politicians. This is one of the reasons I retired my sword for the legislative pen in the hope that the input of one who knows the devastation of war firsthand can help avert future tragedies. But whatever happens, one thing is certain: should the need arise, the people of Guam will again respond as they have so willingly in the past.

A CHEAPER OCEAN FREIGHT RATE FOR THE UNITED STATES

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, good news for the American Merchant Marine. The Agency for International Development today awarded its second contract for the carriage of food aid to Poland under the recently enacted Polish and Hungarian Democracy Initiative Act of 1989, and it is my pleasure to report that 50,000 tons of U.S. grown corn is to be carried on a U.S. flag ship, the *Liberty Star.*

Mr. Speaker, it is even a greater pleasure to announce that the U.S. ocean freight rate is $36.25 a ton, $18.25 a ton cheaper—emphasize cheaper—than the rate offered by foreign ocean carriers.

Various market factors must be considered when examining rate quotes, but, nevertheless, the lower U.S. rate is totally contrary to what opponents to cargo preference claimed when we debated this issue here on the House floor.

DISCUSSIONS FOR UPCOMING SUMMIT

(Mr. AKAKA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. AKAKA. Mr. Speaker, I ask unanimous consent to speak out of order.

I take to the well today to call the attention of my colleagues to an alarming report that Soviet vessels in waters off Hawaii are suspected of shooting lasers at American planes. In the most recent incident, an Air Force crewman on an HC-130, flying 1,200 miles southwest of Hawaii, sustained damage to his eyesight despite the fact that he was wearing laser eye protection.

The Air Force has advised me that they are aware of four incidents between October 17 and November 1, involving at least two Soviet vessels. The United States planes were simply observing the movements of Soviet ships deployed in the Pacific to monitor missile test splashdowns, and at no time posed a threat to the Soviet vessels.

We have recently concluded an agreement, the Dangerous Military Activities Agreement, with the Soviets to avoid such provocative military encounters. This pact goes into effect on January 1, 1990. I am deeply disturbed that the Soviets continue to engage in this type of harassment, in direct violation of the spirit of the new agreement. Soviet compliance to the legal minimum in international accords can only raise doubts about their genuine willingness to forge a new relationship with the United States based on trust and understanding.

Events like these appear to be on the rise, and I am distressed that the Pacific is becoming a proving ground for weapons technology. At a time when our relations with the Soviet Union are improving, episodes like this are very counterproductive. I urge President Bush to raise this incident with General Secretary Gorbachev at their upcoming summit.

SPECIAL ORDER INTENTIONS

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORNAN of California. Mr. Speaker, we are getting out of here tonight at a fairly decent hour. I have delayed twice a special order on the subject of abortion, the whole range of the issue and its impact on current politics, not just over the last few weeks and the Tuesday night election, but also what has happened since the Roe versus Wade decision over the last 16-plus years. I will take that special order tonight.

I believe I am the first up after my distinguished charming, elegant colleague from Maryland [Mrs. BENTLEY] who is going to use only 5 minutes, and drive back to her district as she does every night, to the great State of Maryland. I will discuss that issue tonight, and I know, on a night like this when we are getting out fairly early, there is an audience of 600,000 to 1 million people that will follow the proceedings of this House, and follow and watch how we talk to one another. So I am doing it to alert them.

REPRESENTATIVE HENRY HYDE'S STATEMENT ON CHANGES IN RULE 48

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. MICHEL] is recognized for 5 minutes.

Mr. MICHEL. Mr. Speaker, our distinguished colleague [HENRY HYDE] ranking minority member of the House Permanent Select Committee on Intelligence, recently made an important statement before the Committee on Rules. Because of the clarity and incisiveness with which he discussed the reasons for his proposals for changes to House Rule 48, dealing with procedures of the Intelligence Committee, I recommended this statement to all our colleagues.

At this point I wish to include in the RECORD, a statement made by Representative HENRY HYDE before the Committee on Rules, on November 8, 1989.

STATEMENT OF HON. HENRY J. HYDE

Mr. Chairman and distinguished members of the Committee, thank you for this opportunity to suggest some logical and useful changes in House Rule XLVIII (House Rule 48). At the outset, I believe the Committee deserves some further background to this proposed amendment in H. Res. 268 for special access by the Speaker to Intelligence Committee meetings and classified information and matters related to the amendment. As you know, House Rule 48 requires the Intelligence Committee to prescribe rules for access to its proceedings and classified information by Members of the House who are not members of that Committee. Rule 48 also requires that when the Committee does give such access to non-committee members, it must keep written records of the particular information to which the Member involved was given access. The Intelligence Committee has adopted rules governing access by non-committee members, implementing the requirement of House Rule 48. Among other provisions, the Committee rules require a roll call vote by the Committee to authorize the release of classified information to non-Committee members.

The requirements of House Rule 48 are clear, and they contain no exemption for the Speaker from the rules for access by non-members of the Intelligence Committee. There is nothing in the committee report on the resolution which created Rule 48 or the floor debate when it was adopted to give any indication that such an exemption was somehow meant to be implied. In fact, the comments by then Speaker O'Neill during the floor debate emphasized the uniform application of those rules. Moreover, Rule 48 specifically addresses the issue of leadership's access to the Committee's proceedings and classified information. The rule makes two designated leadership officials ex-officio members of the Committee. The Speaker is not one of those designated in the rule. The two are the Majority Leader and the Minority Leader. Of course, the Speaker is not one of the regular appointed members of the Committee either.

Unfortunately, it now appears that occasionally in the past classified information has been given to the various Speakers with-

out authorization by roll call vote or records being kept identifying the information provided, as required by the House and Committee Rules. Of course, because those rules were not adhered to, few members of the Committee were aware of some of these instances, and perhaps no one knows how many times this has occurred. Certainly, until the issue of a possible violation of Rule 48 was raised regarding certain public statements by the previous Speaker, about an alleged U.S. covert action, many of us on the Committee had no inkling that any Speaker might have been given classified information without the required procedures being followed.

Now, frankly I believe we all agree that the current rules, as they apply to the Speaker's access, are something of an anomaly. It would have been more logical for Rule 48 to have made the Speaker an ex-officio member rather than the Majority Leader.

In fact, I hope this particular rules change can be made as soon as possible. Many of us who serve on the Intelligence Committee are quite uncomfortable with the present "interim" arrangement under which the Speaker has second-hand access to the Committee's procedures and classified information through a member of the Speaker's personal staff who has blanket access to all Committee proceedings and information. I am concerned that such an interim blanket access agreement is not consistent with existing rules, and therefore these rules changes should have been adopted first. This sort of arrangement is unprecedented. I have to say quite candidly that the Republican members of HPSCI were fearful that this unusual action might set a very unfortunate precedent. We worry that ultimately it will lead to requests for access by other designated staffers supporting members of top House leadership or even the leadership of committees with crossover membership on HPSCI.

Before going any further, let me add that this amendment for easing of the Speaker's access is just the fourth in a line of measures taken or proposed, since the beginning of this Congress, to modify the structure or operation of HPSCI. First, the number of regular members of HPSCI was increased by two, from 17 to 19. Republican Members acquiesced because we were given to understand that another Democratic slot was needed to meet leadership commitments for assigning Democratic Members to HPSCI. On the last increase before that one, in a desire to keep the Committee size small, Republicans declined to add a slot. This time we had to accept one more Republican slot because the ratio was getting far too lopsided. Secondly, on July 27th of this year, the House passed H. Res. 213, extending Mr. Beilenson's term as Chairman of HPSCI beyond what would have otherwise been permitted by Rule 48. I willingly supported that measure because Mr. Beilenson's service as Chairman thus far has been exceptionally responsible, fair and constructive. Thirdly, we had the Speaker's written request for access to all of HPSCI's proceedings and holdings for a member of his personal staff, a former professional staffer on the Committee. As I noted, Republican members of HPSCI had grave misgivings about approving such an unprecedented arrangement prior to amending those HPSCI rules and provisions of Rule 48 which appear clearly inconsistent with the arrangement for a unique and special designated staff position. Honestly, the Republican members and perhaps some Democratic members of HPSCI have never been able to understand why the Speaker seems to feel that he cannot rely on any Majority member of HPSCI, any member of HPSCI's core professional staff, or any combination of the two, to keep him adequately informed of matters before the Intelligence Committee in which he is interested. Instead, he seems convinced that only one particular member of his office staff can perform that function. Some HPSCI members have urged that the simplest way to keep the Speaker well informed on a routine basis is to make him an ex-officio member of HPSCI. Then he could be briefed at any time by any member of staffer of HPSCI and attend any committee proceeding. But, the Speaker indicated that he did not wish to be an ex-officio member because he is not a member of any other committee. Well, this baffled many of us. Ex-officio membership is no burden because their presence is not required for the committee to conduct its business. Under Rule 48, ex-officio members are not permitted to vote and are not counted to establish a quorum. Furthermore, the present Rule 48 makes the Republican Leader, Bob Michel, an ex-officio member of HPSCI although, like the Speaker, he does not serve on any other committee.

Recently, a new wrinkle unfolded with respect to the special access arrangement for the Speaker's designated staffer. A few days ago, the Speaker's staff designee was placed on the HPSCI staff payroll as well. It appears that after several months, concern has grown about the precedent of giving blanket access to HPSCI proceedings and information to a House employee who is not on the HPSCI staff. Interestingly, the idea of dual employment of an individual staffer on the payrolls of both the Speaker's office and HPSCI was floated several months ago and initially abandoned. Its resurrection raises other concerns related to the House Rules. Rule XI (Rule 11), Clause 6(a)(3) forbids the professional staff of committees from engaging in work other than committee business or being assigned any duties other than those pertaining to committee business. According to the Ethics Manual of the House (edition of the 100th Congress, 1st Sess.), ". . . it appears that the provision was intended to ensure that professional staff members of committees would work exclusively on committee business during their congressional work hours, as opposed to performing 'other congressional office duties.'" (p. 57). Thus, that rule would appear applicable to bar this type of dual employment. Perhaps that explains the peculiarly convoluted nature of the new status on HPSCI accorded the Speaker's designated staffer. He has been hired for a minimal salary by HPSCI and surprisingly denominated as a clerk. One immediately wonders whether this "title" was an attempt to evade the strictures of Rule XI (Rule 11,) which I mentioned. This is troubling because the individual, notwithstanding his title of "clerk", participates in briefings and discussions of regular committee professional staff in the same manner as those professionals. He does not appear to actually do or be assigned any clerical duties. This latest adjustment in his status therefore seems inconsistent with the spirit of Rule 11, Clause 6(a)(3). Thus, it also appears to violate the requirement of House Rule XLIII (Rule 43), the Code of Official Conduct, which obligates Members, officers and staff to adhere to the letter and spirit of the Rules of the House. However, if a way can be found to give a designated employee on the Speaker's staff blanket access to HPSCI information and meetings, consistent with House Rules, then naturally Republican Members would wish assurances that the Republican Leader would be accorded the opportunity for the same sort of staffing arrangement.

Having brought this background information to your attention, let me now turn to other reforms in Rule 48 which I propose in addition to including the same changes Mr. Beilenson recommends. As you know, I have long been concerned with the problem of "leaks" of classified information. It is a government-wide problem. This is due, in part, perhaps to the fact that too much information may be classified. That circumstance may encourage government officials and employees to be a little too casual about classified information, even in the vast majority of cases when it is quite properly classified. In any event, the ever-growing list of leaks of classified information has led me to conclude that we must begin to take steps to reduce the incidence of leaks.

I have no wish to spark an unproductive debate on which branch of our government is responsible for the most leaks, or which has the highest percentage of leaks based on the number of its personnel with access to classified information, or which is responsible for the most serious or damaging leaks. Instead, as Members of the House, I think our first concern ought to be to take every reasonable measure to reaffirm and enhance our commitment to reducing the likelihood of leaks from congressional sources. Now, I certainly have no intention of engaging in recriminatory speculation about individual cases. However, none of us has to think very hard to recall instances of alleged leaks from congressional sources.

Of course, public commentators and foreign allies very often do not make fine distinctions regarding which House of Congress may have been the source of a leak of classified information, let alone which specific committee may have been involved. Therefore, leaks by any Member or committee may hurt the reputation of Congress as a whole in the eyes of those whose vital cooperation in promoting U.S. policy interests is contingent on their confidence in our discretion. This is especially the case when it comes to important intelligence relationships with foreign assets or allied liaison services. Those individuals may have a great deal at risk if their confidential cooperation or sensitive intelligence information they share with our government is leaked from congressional sources whose position in the legislative branch has made them privy to that knowledge.

That is why the place for the House to start publicly demonstrating to the American people a greater commitment to protecting classified information is with the Intelligence Committee, because it has sweeping access to the most sensitive kinds of classified information. The modest steps I have proposed for the next Congress of reducing the size of the Intelligence Committee and having a House security clearance system established for the members and staff of Committee, and the more immediate measure of instituting secrecy oaths for committee members and staff, will do two things. They will reduce the number of Members with ready access to sensitive intelligence information without degrading oversight capabilities. Furthermore, it will help the Committee develop a more vigilant

frame of mind about constantly protecting that information.

Our intelligence officers will be able to point to these measures to help them give more persuasive assurances to an ally whom they are trying to convince to be more candid in sharing important information or to be otherwise helpful. It will also set a good example in these matters for other committees and Members, for the Senate and the Executive Branch. In addition, I believe that taking these steps will significantly encourage the Executive Branch to be more candid in sharing classified information with the Intelligence Committee. That will help to make the Committee's intelligence oversight activities more thorough and effective.

Now, let me summarize my proposed changes to Rule 48:

1. Beginning with the new Congress, the 102nd Congress, the size of HPSCI would be reduced from the current 19 members to 13 members. Of those 13, not more than seven could be appointed from the same party. This would return HPSCI to its original size in 1977. More importantly, by decreasing its size, it is axiomatic that we would reduce the mathematical probability of leaks, whether inadvertent or not, of the sensitive classified intelligence information which is the particular "stock in trade" of HPSCI. It is obvious that the more people who have access to any particular piece of classified information, the greater the chance that one of those individuals will suffer a monentary lapse of memory or self-discipline and leak it. Further, by waiting to implement this reduction in membership until the beginning of the new congress, it can be done painlessly without forcing any sitting member of HPSCI to leave the select committee before the expiration of the maximum term of six continuous years of membership. The required reduction of six slots, from a total of 19 now to a new total of 13, can be readily accomplished because at the end of the current congress, the terms of seven existing members expire (five Democrats and two Republicans).

Under my proposal, the reduced 13 member HPSCI membership also would be apportioned in a ratio of seven majority and six minority party Members. It has long been established that the intention of the House in creating HPSCI was that this special select committee should, as much as possible, be non-partisan. That has not always proved possible, let alone easy, on all issues and in all staffing matters. Nevertheless, it is a wise and laudable goal to seek to maximize the degree of non-partisanship in congressional oversight in the very important and highly sensitive realm of American intelligence interests and activities. A 7:6 ratio between majority and minority membership on the select committee will go a long way toward promoting a non-partisan, or at the very least bipartisan, approach to this vital area, yet it will ensure the majority leadership the one-vote margin necessary to retain ultimate control over committee activities. Our former colleague, Eddie Boland, HPSCI's first Chairman, told a number of us earlier this year that his preference when HPSCI was established was to have parity in the membership ratio. However, at the time, more senior members of the Democratic leadership disagreed. I think he was right.

2. My proposed amendments to Rule XLVIII (Rule 48) would also establish a formal oath of secrecy to be taken by HPSCI members and committee staff. In the proposed oath, members and staff of the select committee would simply pledge not to disclose, directly, or indirectly, to any unauthorized person any classified information received in the course of their committee duties without the formal approval of the committee or of the House. A signed individual copy of the oath would be kept with the records of the House and also recorded in the *Journal of the House* and in the *Congressional Record.* This proposed oath will add greater weight and solemnity to the serious commitment of HPSCI members and staff to be vigilant in safeguarding classified information received in the course of their committee duties. Not only will taking this oath serve to underscore these profound responsibilities to protect sensitive classified intelligence information in our own minds, this commitment will be publicly acknowledged by its publication in the *Congressional Record.*

That will further enhance the reputation and public image of the House and serve as a clear example of high level legislative oversight commitment which will hopefully be emulated by other committees of the House and Senate.

There is also clear precedent from the earliest days of our nation for such a solemn oath of secrecy. In fact, the wording of the oath I propose is substantially the same as the oath required to be taken by members and staff of the Committee on Secret Correspondence of the Second Continental Congress. Frankly, if this oath was good enough for committee member Benjamin Franklin, I don't see why it should cause us any serious concern.

Clause 7 of Rule XLVIII (Rule 48) would also be amended to refer specifically to violations of the oath of secrecy in the provisions of the rule regarding unauthorized disclosures by any Member, officer or employee of the House which the Committee on Standards of Official Conduct is required to investigate. HPSCI would be specifically authorized to refer cases of unauthorized disclosures and violations of the oath to the Ethics Committee. This would make clear that the existing rule does not require HPSCI to wait for the Ethics Committee to figure out for itself that a potential violation may have occurred and request specific information from HPSCI. While an investigation of such an apparent violation of the oath or unauthorized disclosure rules is pending, HPSCI could determine by majority vote to suspend the privilege of the Member who is the subject of the inquiry to have access to classified information. If it is ultimately determined that a Member has violated his oath, he would be permanently expelled from membership on HPSCI. A committee staffer found in violation would be permanently terminated from any employment with HPSCI. In either case, the House could also take any additional action it deems appropriate.

3. As I noted previously, my proposal would amend Rule 48, by adding the same language as Mr. Beilenson's resolution, to give the Speaker blanket access to the meetings and information in the possession of HPSCI. Likewise, my provision also excuses the Intelligence Committee from the requirement of Rule 48 that the Committee keep a written record of the particular information to which a non-member of the Committee was given access in cases where the non-member involved is the Speaker. Existing Rule 48 calls for uniform procedures for access to HPSCI meetings and information by other committees and non-members of HPSCI. It is couched in broad terms which make no exemptions for the Speaker's access, unlike the Majority Leader and Minority Leader who have access by virtue of the rule's provision specifically making them ex officio members of HPSCI. This is an anomaly which I think we all feel should be clearly rectified. Chairman Beilenson himself has introduced H. Res. 268 to take care of this matter, and my proposal does so as well, in the same manner as Mr. Beilenson's.

4. Lastly, my proposed changes in Rule 48 would prohibit any member or staff member of HPSCI, starting at the beginning of the next Congress (January of 1991), from having access to classified information through his position with HPSCI unless and until that individual has been granted a security clearance by the House or a committee, other entity, or officer of the House authorized by it to grant security clearances. My proposal calls for the standards and procedures for such a new House security clearance program to be consistent with basic principles outlined for such a program in H. Res. 269, introduced recently by Mr. Solomon, Mr. Edwards of Oklahoma, and myself. In that regard, the House security clearance program would utilize standards and procedures comparable to those employed by the Executive Branch, but with the flexibility to accommodate any special considerations or circumstances of Legislative Branch operations. Under the guidelines incorporated by reference from H. Res. 269, HPSCI Members and staff would submit a personal history statement to the entity or officer of the House charged with responsibility for the security clearance program. A background or full field security investigation would be undertaken, the scope of which would generally depend on the level of clearance appropriate for access to the particular level and category classified information involved. Flexibility would be permitted to grant interim clearances, if necessary, while applications for regular clearances are pending. A House security clearance could also be granted to HPSCI Member or staff applicant who has been granted a clearance by the Executive Branch within a reasonable time before applying for a House security clearance.

Also, in keeping with the guidelines enumerated in H. Res. 269, if during a security investigation, significant information is developed that an individual, while a Member, officer or employee of the House, has made an unauthorized disclosure of classified information, that investigative information would be reported to the Committee on Standards of Official Conduct. Otherwise, the results of security investigations should be kept confidential unless the subject consents in writing to the disclosure of such information. Similarly, any decision to grant, deny, review, or withdraw a security clearance should be kept confidential except that such information could be disclosed to a committee or Executive Branch agency with a valid need to know whether the subject of the security clearance action has a clearance authorizing access to classified information to which that committee, department or agency is considering granting access. Such a decision could, of course, also be disclosed with the consent of the subject of the decision.

Lastly, the guidelines incorporated by reference from H. Res. 269 must also include appropriate procedures for the review and appeal of decisions to deny or withdraw clearances. In the case of Members, those

procedures must include an opportunity for an affected Member to appeal such a decision to the House.

This security clearance requirement for HPSCI Members and staff would not take effect until the beginning of the next congress, more than a year from now. That would give the Rules Committee ample time to fully consider the details of the House security clearance program called for, to hold hearings if you think that advisable, and to prepare the necessary package of modifications to the House Rules for adoption when the new House in the 102nd Congress adopts its rules at the beginning of its first session.

The security clearance program would raise the House's consciousness of the very serious responsibilities arising from the need for access to sensitive classified information by our special intelligence oversight committee. It would be a model which should help encourage a more actively cautious mindset by all Members to guard against leaks of classified information entrusted to us. A more formal and organized system for the issuance, periodic review and renewal of security clearances will especially help those of us with the special responsibilities associated with HPSCI membership. It will encourage stronger habits of caution in what we say publicly about matters before HPSCI, providing an extra inner brake on the natural inclination to be communicative, which is inherent in the public discussion and debate of the Legislative Branch. Moreover, this limited requirement of House security clearances for HPSIC Members and staff can serve as a "pilot" program which will provide us with valuable experience to enlighten any future considerations of a security clearance program for other Members and staff who have access to classified information.

Thank you for your kind attention and interest. Now is the time for this committee to take a forward-looking position by bringing this package of modest but valuable reforms before the House.

SERVICE TO CATEGORY B AND C VETERANS IN THE DEPARTMENT OF VETERANS AFFAIRS HOSPITALS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from West Virginia [Mr. STAGGERS] is recognized for 5 minutes.

Mr. STAGGERS. Mr. Speaker, I rise today to make my colleagues and the veterans of our Nation aware of the fact that the level of service being provided to category B and C veterans has continued to decline despite the emergency supplemental appropriation being approved and the public announcement of Secretary Derwinski that the VA is restoring medical services with passage of the emergency appropriation.

During my first three terms in Congress I served as a member of the House Veterans' Affairs Subcommittee on Hospitals and Health Care. During that time I watched an administration that came before our committee repeatedly telling us that the hospital and health care system was not in bad shape, and those of us on the House Veterans' affairs that were raising alarm were told that our fears were unfounded.

Only a year ago the Director of the Office of Management and Budget, Mr. James Miller, told the members of the House and Senate Appropriations Committee that the VA had all the money it needed in fiscal year 1989. He informed them that "the Congress would simply be wasting its money by giving it to the VA, because they—OMB—simply would not know what to do with it if the Congress gave it to them."

Although, I presently served as chairman of the Housing and Memorial Affairs Subcommittee, I continue to spend a considerable amount of time working on issues related to the hospitals and healthcare field. It was this interest that led me to inquire about the level of service being provided to category B and C veterans.

I wrote to Secretary Derwinski on July 21, 1989, and asked that he provide me with specific information regarding why service was not being provided to category B and C veterans. It took the Secretary more than 3 months to give me most of the information I requested. I was very distressed to discover that the levels of service being provided to category B and C veterans was substantially lower the month after the Congress provided an emergency supplemental, and after the Secretary announced in a nationwide press release that he had lifted his moratorium.

My colleagues, I am very angry at what I discovered. Although I had hoped that service was being restored to a number of these veterans, instead it was being dramatically decreased. According to the report I received from Secretary Derwinski, in June 1989, 21,950 category B veterans were provided services, in July 1989, the number of patients provided service decreased to 18,404. A decrease of 16 percent. Category C veterans suffered a similar reduction in services. In June 1989, 13,378 veterans were served and in July 1989, 11,179 were treated.

On May 26, 1989, Secretary Derwinski imposed a nationwide cutback in medical services for veterans with non-service-connected injuries—category B and C veterans. His June 23, 1989, press release said that he appreciated the congressional action on the current budget shortfall and stated:

> It gives us some relief for the medical care system and time to look for other ways to meet the increasing demand for VA healthcare services.

Many members believed that when they voted for the emergency supplemental funding for fiscal year 1989, the delivery of health care for our Nation's veterans would improve. This report highlights the fact that the needs of our veterans health care system are massive and we must resolve to provide the resources necessary.

The House Veterans' Affairs Committee has been working on a number of legislative initiatives that will allow more veterans to be served. We must continue to support those efforts and the efforts of the House Appropriations Subcommittee on VA-HUD and Independent Agencies.

The reductions in services across the board are significant. I urge my colleagues to review this report to see the extent of reductions at their local hospitals. We must be prepared to place this issue squarely before the Secretary and the Office of Management and Budget and demand that we look for their help, not their deception. Our Nation's veterans are our most prized human resource and our Nation owes them our respect and compassion.

I have asked that the report I received from Secretary Derwinski be included in the RECORD. I ask that be done so that you would be able to review the information and draw your own conclusions of the serious problem facing the VA's Health care system.

The information follows:

THE SECRETARY OF VETERANS AFFAIRS,
Washington, DC, October 31, 1989.

Hon. HARLEY O. STAGGERS, Jr.,
House of Representatives,
Washington, DC.

DEAR CONGRESSMAN STAGGERS: This is in further reply to your letter in which you requested that we determine whether service to category B and C veterans has been restored at all 172 Department of Veterans Affairs (VA) hospitals.

An extensive review has been made of the discretionary workload data reported by our medical centers to the VA Automated Management Information System (AMIS) for the months of June and July 1989.

The data show that during the period immediately prior to and immediately following the passage of the Dire Emergency Supplemental Appropriation Bill, all medical centers except three did provide service to both category B and C patients. The enclosed fact sheet provided by the Chief Medical Director provides additional details. Also enclosed is a copy of the summary data collected from AMIS.

I hope this information will be helpful to you.

Sincerely yours,

EDWARD J. DERWINSKI.

Enclosures.

VETERANS HEALTH SERVICES AND RESEARCH ADMINISTRATION FACT SHEET ADDRESSING CONGRESSMAN STAGGERS' LETTER ON CATEGORY B AND C VETERANS

Issue: Congressman Staggers expressed concern that medical care for B and C veterans has ended.

Discussion: A review of the discretionary workload was conducted. Specifically, the data reported by the medical centers showed that the system-wide totals were as follows:

Category B:

During the month of June, 1989, the number of patients provided service was 21,950.

During the month of July 1989, the number of patients provided service was 13,378.

Category C:

During the month of June 1989, the number of patients provided service was 13,378.

During the month of July 1989, the number of patients provided service was 11,179.

As the question appeared to be prompted by the situation at VAMC Martinsburg, data reported by that medical center were extracted from AMIS. The data showed that:

Service was provided to 43 category B and 16 category C patients during the month of June 1989.

Service was provided to 31 category B and 12 category C patients during the month of July.

The service provided at VAMC Martinsburg included the processing of applications for care and the provision of care to patients already hospitalized and to those who were experiencing bona-fide, life threatening emergencies.

It should be noted that VAMC Martinsburg and many other medical centers, even with the Supplemental Appropriation, have been stretched financially "thin." To maintain quality care for mandated workload for FY 1989 and FY 1990, funds have been used to provide staff salaries and recruitment-related special pay; to restock critically short medications; to acquire needed laboratory supplies, x-ray film, and blood; to fund contract hospitalization and non-VA physician fees; and to meet other critical needs. This situation has been complicated by the fact that clinical staffing shortages have worsened at many facilities during the period FY 1989 and it is anticipated that it will continue through FY 1990.

The treatment of Category B and Category C has continued to be limited by the current funding situation. No additional workload beyond that currently being accomplished is anticipated.

REQUIREMENT FOR CHILDREN TO PURCHASE SEATS ON AIRLINES UNNECESSARY

The SPEAKER pro tempore (Mr. HAYES of Illinois). Under a previous order of the House the gentleman from Ohio [Mr. MCEWEN] is recognized for 5 minutes.

Mr. MCEWEN. Mr. Speaker, I have just a word in the "If it ain't broke, don't fix it" department.

It seems that the National Transportation Safety Board last week held a hearing, and the FAA is considering a regulation that says if you have a young child and you are flying on an airplane, you must purchase a ticket for them. You must purchase a seat. You must then put them in a child restraint system, or else they cannot fly.

Now, the reason that this idea came to the fore was that recently we had a marvelous miracle—the capacity of a particular pilot in Iowa to bring down an airplane with virtually no controls.

In the course of it, half of the people survived. One of the people that did not survive was a young child that was not strapped in her seat. Two other small children that were being held by their parents did survive.

Seeing that dilemma, Washington jumps to the fore and says, "Let us write a law. Let us say that if the circumstances ever happen again that a plane crashes and people survive, that we will make sure that all the children were strapped in."

Now, what is the chance of that happening? Ladies and gentleman, everyday, right now at this point, thousands of small children are joining with their parents to sit on their laps to fly home or visit grandparents.

Next week is Thanksgiving. Thousands of young families that due to deregulation and the new price fares, we have doubled the number of people flying in this country in the last 10 years. It used to be only the wealthy could fly. The planes were two-thirds empty. Only successful business people or those who were very wealthy could afford to fly. Families had to hop in the stationwagon and travel to go to visit grandma. But because of deregulation now there have been significant changes in fares and young families are able to fly that could not afford to previously.

If this regulation goes into effect, it will say that those young families with the small infant that wishes to hold the infant, the infant does not want to be strapped in another chair and wants to be held by its mother, that that infant could fly with the mother, as opposed to purchasing an additional ticket.

I repeat, the chances of any lives being saved in all of this are virtually none. The chances are Washington will jump to the fore and say let us write a law that is going to cost young families thousands of dollars because the possibility exists that maybe at some time a plane will crash and there might be survivors. The chances of that, as we said, are not very good.

So let us deal with reality, and reality is that every hour thousands of families are able to fly because they do not have to buy those additional tickets.

I will admit, I have a certain amount of experience in this area. We had four children in 48 months. We fly back and fourth to Ohio on a regular basis. The time came that the children were not able to sit on laps anymore, so now we drive.

During that time when our young infant could be held, I appreciated the capacity of being able to take the family and not have to buy those additional tickets. As long as the airlines do not object, as long as the passengers do not object, Washington should not object.

I know the regulators mean well, but it is a solution in search of a problem. The Federal Aviation Administration should not write a regulation in this manner that is not needed.

THE LAND OF MISSED OPPORTUNITY

The SPEAKER pro tempore. Under a previous order of the House the gentlewoman from Maryland [Mrs. BENTLEY] is recognized for 5 minutes.

(Mrs. BENTLEY asked and was given permission to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, it comes as no surprise that the Japanese are beginning a technology exchange program with the United States semiconductor industry—the Japanese give us technology on high definition television [HDTV], then they will be kind enough to purchase United States manufactured HDTV components.

Before I continue this presentation, let me explain a bit about HDTV.

Contrary to what some of our officials at the Defense Commerce Department believe, HDTV is not a simple flat panel display. HDTV involves digital switching systems integated with semiconductors, chips, fiber cables, integrated. All integrated all kinds of high technology. It is a very complex system, not a simple flat panel display.

The Japanese offer certainly is gallant. Imagine, they give us technology and then buy our semiconductor components—an offer we cannot refuse.

But wait, after further scrutiny, I notice a catch. A Journal of Commerce article detailed the Electronic Industry Association of Japan's offer to "share information about HDTV with the U.S. and to allow Americans to produce components for Japanese developed HDTV."

In these last words, "Japanese-developed HDTV," lies the catch. Our semiconductor industry does not recognize this offer for what it is, a pure, unadulterated hoax. I now understand why they are losing ground to the Japanese—they do not think long term.

Japanese strategy is obvious—by luring American semiconductor manufacturers into supplying components for Japanese-developed HDTV sets, they are legitimizing and perpetuating the Japanese HDTV standard. This standard can be likened to the IBM standard for personal computers and the Micro-Soft Disk Operating System [MS-DOS] for software.

He who owns the standard owns the industry; and no matter how many chips the Japanese promise to purchase, the HDTV sets will be made in Japan rather than in the land of missed-opportunity.

PENALTY-FREE WITHDRAWALS OF INDEPENDENT RETIREMENT ACCOUNTS IN THE EVENT OF A FEDERALLY DECLARED DISASTER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. PANETTA] is recognized for 5 minutes.

Mr. PANETTA. Mr. Speaker, I rise today to introduce legislation that will bring further relief for those who have suffered from the recent natural disasters that have struck California and South Carolina.

As we all know, these disasters have caused extensive damage to homes in these two areas. In my area alone, hundreds of residences have either been partially or totally destroyed by the Loma Prieta earthquake. The victims of this devastating earthquake are now literally picking up the pieces of what their lives once were and are facing enormous financial liabilities.

My legislation would allow individuals to make penalty-free withdrawals from individual retirement accounts for the repair of damages to a principal residence caused by a federally declared disaster. By waiving the 10-percent penalty for early withdrawal of individual retirement accounts, victims of these catastrophic disasters will be able to use their own funds without incurring additional liability. I believe that this type of exception to the law is entirely appropriate. The waiver would only apply to those who wish to repair a primary residence and would not cover personal damages. This bill is designed solely to help rebuild homes with one's own resources. This is not only better for the Federal Government because it frees up these resources for those who do not have these funds, but it also allows the victims of these disasters help themselves. I believe that both of these aspects of the bill are important.

I strongly encourage my colleagues to join me in supporting additional relief to these victims by letting them help themselves.

The text of the bill follows:

H.R. —

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXEMPTION FROM EARLY DISTRIBUTION PENALTY FOR WITHDRAWALS FROM INDIVIDUAL RETIREMENT PLANS FOR REPAIR OF RESIDENCES DAMAGED BY FEDERALLY DECLARED DISASTERS.

(a) IN GENERAL.—Paragraph (2) of section 72(t) of the Internal Revenue Code of 1986 (relating to exceptions to 10-percent additional tax on early distributions) is amended by adding at the end the following subparagraph:

"(E) DISASTER REPAIR EXPENSES.—Any distribution out of an individual retirement plan to pay expenses incurred by the distributee for the repair, rehabilitation, reconstruction, or replacement of a principal residence damaged or destroyed by reason of a federally declared disaster occurring after September 1, 1989. For purposes of this subparagraph, the term 'federally declared disaster' means any disaster referred to in section 165(i)(1)."

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to amounts distributed out of individual retirement plans after the date of the enactment of this Act, in taxable years ending after such date.

AN INVESTMENT IN THE NATION'S FUTURE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Mr. Speaker, many years ago, U.S. banks were, in many places across the country, the initial force in encouraging the Nation's school children to save money. Banks would set up small, temporary offices in grammer and junior high schools where the children, each week, could bring their dimes, nickels and pennies to be deposited in their own savings account. They would have their own bank book. Some children saved part of their allowance; others their lunch money. In the early grades, teachers would do the paperwork; later, they would supervise the children who did the work.

Mr. Speaker, these programs were a wonderful and simple way for the children, especially those living in the inner city, to be able to learn a phenomena they had never heard of or seen. One must remember that there was no television in those days. If it didn't happen in a child's neighborhood or in school, the pupil would be unlikely to experience such an event.

Unfortunately, for one reason or another—most likely the costs involved—such programs went the way of the 5-cent trolley car ride, the 10-cent bottle of soda pop and the 15-cent movie.

Recently, I read two newspaper stories that reminded me of those earlier days.

First, Treasury Secretary Nicholas F. Brady, speaking to some 600 bankers in Towson, MD, a Baltimore suburb, asked them for their help in getting Americans to save more of their money. He said the annual savings rate has been declining every year since the 1970's thus raising questions about the Nation's ability to invest and grow.

Because Asians and Europeans save more of their earnings, Brady said, interest rates in those countries are lower and foreign businesses find it cheaper to borrow for their expansions. He said American businesses cannot pay more than their competition for capital, which is a basic input, and come out ahead in the global marketplace.

Mr. Speaker, the second story was about a program sponsored by Riggs National Bank of Washington to teach 10- and 11-year-old students at an inner city school about banking. The Washington Times reported that through a partnership Riggs has formed with the Walker-Jones Elementary School, a special "bank" has been set up on the school grounds that will enable fifth and sixth grade school students to open a regular savings account for 10 cents. Students can earn 5 percent interest on any money deposited until May 31.

Students, under the guidance of Riggs volunteers, also will learn the fundamentals of running a bank by serving in such positions as teller, accountant, president and chairman of the board. Riggs will also train parents, many of whom do not have bank accounts or basic consumer skills. In addition, they will take Walker-Jones students on field trips.

Mr. Speaker, there is an expression we often hear: What goes around, comes around. The Riggs program is not new. Such bank sponsorships were being held 50 years ago, if not longer. They were successful then and could be successful again. The Nation's economy will become strong and able to grow when citizens learn the discipline of saving as young students and continue the regimen as grown-ups.

The Riggs program, as one official said, is an investment in the future.

ABORTION AND ITS IMPACT ON THE CURRENT AMERICAN POLITICAL PROCESS

The SPEAKER pro tempore. Under the previous order of the House the gentleman from California [Mr. DORNAN] is recognized for 5 minutes.

Mr. DORNAN of California. Mr. Speaker, the tradition as we all know in this House for a special order, particularly if it goes beyond 5 minutes, is to take the well of the House and use one of the lecturns down there. I have so much material that I want to refer to, I would like to opt for the privilege to take that special order here from the leadership desk.

Mr. Speaker, I hesitate using an oxymoron here, but it is the only way I can express the feelings by some people in this House in trying to analyze the issue of abortion and its impact on the current American political process. But the oxymoron is, a mild panic seems to have set in. It involves my side of the aisle, maybe a few Members on the other side, who prior to this fall or summer had been proud to describe themselves as pro-life candidates, anti-abortion candidates. Now they seem to have hit a panic button, and there is nothing quite so shaky as a politician who feels the ground beginning to move under his feet.

When John F. Kennedy, our youngest elected President, wrote his book before he came to the Presidency called Profiles in Courage, which helped him get there and for which he won a Pulitzer Prize, the title was simply to describe elected officials, not just in the United States, that would take a stand that was unpopular with the constituency that elected them.

□ 1820

Mr. Speaker, the example that sticks in my mind is the distinguished gentleman from the other body, Senator Robert Taft of Ohio, who took the highly unpopular position after the Second World War that he thought war crimes trials of Nazi killers was wrong on its face because the law setting up the trials were passed after the crimes were committed. He did not think they should go free, but he

thought they ought to be tried, some of them, for just plain murder in civil German courts and put away as common criminals, which would have had a certain poetic justice to it, but the overwhelming opinion in this country and mine as a young 12-year-old was that justice screamed out for war crimes trials in both Nuremberg and in Japan. And they proceeded, but Robert Taft won the respect of a younger Senator who felt that he had earned a profile in courage.

Mr. Speaker, I do not know who is thinking in terms of political courage these days on this abortion issue except for those Members who have been elected to represent a district where this already cut against them badly, or it polled against them badly, and I would like to ask my colleagues to relax on this issue, to be reflective, to stop blaming candidates that just lost, and this would be candidates in my party who were blind-sighted by this issue in the summar and the fall after they had already declared and won a primary and were not comfortable with the issue totally on the stump, out speaking, because it had never been a priority issue on their political agenda. They voted pro-life. They felt comfortable with the Republican Party's platform position that passed on what happened to be a holy day in my faith, August 15, 1988, and they charged into the Governor races in New Jersey and in Virgina expecting to talk about transportation and the environment.

Lord knows that New Jersey, with corruption on the beaches, and plus some political scandals, and always living in the shadow of New York and picking up a lot of its crime, being the most peculiar State in the Union because it is affected by two major media markets with owned and operated stations by the networks hitting the northern part of the State out of New York and the southern part of the State out of the big city of Philadelphia, that it is difficult to run in that State, but here was my friend and colleague, the gentleman from New Jersey [Mr. COURTER] just put on the defensive early, and then often, on this issue of life, human life, and he found himself sinking deeper and deeper into a quagmire on an issue that I repeat was never one of his priorities.

I look forward to the gentleman from New Jersey [Mr. COURTER] coming back to the Congress. He is a valuable Member, particularly on the defense issues.

A little selfish interest: I'm sitting in his seat on one of the most important subcommittees in this House, Research and Development, and he had it on hold hoping that he would win the Governor's race in the great Garden State, but now he comes back, and at least a year from now I get bumped off a committee that has the highest top secret clearance in the House, all of the research and development. But that is all right. That is the breaks. I am glad to have him back. He is a great Congressman.

Mr. Speaker, he is going to be able to help us with great advice on how someone can stay true to their principles and not get swept up in this issue.

Now a lot of Members in this body, none of them known for their loyal, particular loyalty or espousal of strict moral principles as espoused by the Catholic Church, who are self-proclaimed Catholics, have come up to me good-naturedly, I must say of most of them, and asked me if I wanted to be Pope or something because I took exception to a lot of Catholics in this Chamber, who proudly proclaim themselves Catholic, suddenly starting to switch a lot of votes on this pro-life issue and claimed that they could do it without paying any price as far as analyzing whether or not they were following correct moral teaching of their own faith.

Mr. Speaker, I made two speeches to that effect last week, and then the bishops met the last 3 days. They have just adjourned in Baltimore. They picked that city to celebrate the 200th anniversary of the founding of the first Roman Catholic parish in the United States, the State of Maryland, and the 200th anniversary of the shepherding of the great early and first Catholic bishop in this country, Charles Carroll of Carrollton, Bishop Carroll, and I suddenly pick up the paper and read that the bishops are saying in far more eloquent terms everything that I said in these two speeches last week telling some people who do not understand their church, I guess, or assume that somehow or another that one layman, me, from the State of California, drove the bishops to come to these what might be stern words to others; to me very obvious words, of repeating for the umpteenth time in the last 17 years, since Roe versus Wade, the very clear teaching of the Catholic Church on the taking of innocent human life in the womb.

I would like to read, Mr. Speaker, a few of the remarks from the bishops. First I would like to quote Bishop, and I am probably going to butcher his name, so I will spell it. I am not familiar with him enough that I recall ever hearing it pronounced phonetically. I will say Pilarczyk, P-i-l-a-r-c-z-y-k. Having spent a couple of weeks in Poland last year, I know that none of the letters sound the way they do to us, but he is described as a moderate bishop. He has great experience in international issues for the church, which is why I believe he has been elected president of the bishops conference, plus the fact that he was a vice president over the last 3 years, and vice presidents have moved up regularly for as long as I can remember, so there was nothing unusual about selecting a so-called moderate.

But this bishop says, "Catholic teaching is very clear on abortion. It's very difficult for one, a layman, to reject a very clear teaching of the church and still say that one is in good standing as a Catholic."

He goes on to say that, "No Catholic can responsibly take a proabortion stand or a prochoice stand when that choice involves the taking of innocent human life. We urge public officials," and I am reading from the statement that came out of all of them, "We urge public officials, especially Catholics," and every church hierarchy has a right to speak to its flock that way, "to advance these goals in recognition of their moral responsibility to protect the weak and the defenseless among us," and nobody, of course, is more weak or defenseless than a brand-new infant, a 1-year-old child, a 2-year-old child or a child in the womb.

Cardinal Joseph Bernardin, who has been described as a liberal on many issues, and I think he is just another fine cardinal from, in this case, Chicago, the outgoing chairman of the Bishops Pro-life Committee, he is being replaced by someone the New York media likes to call a hard-line conservative bishop, John Joseph Cardinal O'Connor of New York, but Cardinal Bernardin, the outgoing chairman of the Bishops Pro-life Committee said, "The resolution addressed principles, but did not yet take up questions of strategy that is to come." Cardinal Bernardin says that he has grave difficulty, not just difficulty, but grave difficulty, with politicians who say they are personally against abortion, but support proabortion legislation because they do not want to impose their personal views on the public.

Mr. Speaker, is there a Member of this Chamber who does not have strong views on child abuse, or wife abuse, or the whole range of crimes that we have taken from Mosaic law?

And there is Moses' great marble medallion up there, the only 1 out of 23 law givers so honored on the top walls of this great Chamber. He is the only one that is looking full face. He is in the center with 11 on each side chronologically arranged. He is out of chronological order because we recognize that the Mosaic law, Ten, not suggestions, but Ten Commandments are the foundation of our laws.

□ 1830

So Cardinal Bernardin goes on to say that he has great difficulty with people saying, "I am not going to impose my views."

We impose our views, I should hope, on child abuse, all kinds of murder and rape and mayhem, and if someone believes that is an innocent human life

with a human soul, I might add, from all the Christians that I know in this House, then we have to intervene if the killing process is taking place. Let me finish Cardinal Bernardin's final statement here in the excerpt, and then I will yield to the gentleman.

On almost every other issue that has a moral dimension, we ask public officials to act conscientiously.

Mr. DURBIN. Mr. Speaker, will the gentleman yield?

Mr. DORNAN of California. I yield to my friend, the gentleman from the great State of Illinois, Cardinal Bernardin's State.

Mr. DURBIN. Mr. Speaker, I thank my colleague from California for yielding.

I might say that though my colleague and I may disagree on some issues, we agree on others, and that I have a high regard for the ability of my colleague and his skillful oration, his extraordinary powers of debate. I have listened to him since we have engaged this subject over the last several weeks come to the floor of this House of Representatives to raise the question which he raises this evening.

I suppose, as a Catholic who was raised with 19 years of Catholic education and a Member of this House of Representatives, who has struggled despite my church's clear teaching on the subject for a long time, I am troubled by one aspect of this special order and would like my colleague to please address it.

Mr. DORNAN of California. Surely.

Mr. DURBIN. Would my colleague consider this. I give him two hypothetical questions. Would my colleague consider it appropriate if another Member of this House of Representatives of a different religion should take the floor of this House of a different religion, should take the floor and somehow criticize, I think that word is fair, one of his colleagues for taking a position inconsistent with his religion's doctrinal teaching and to suggest further that those who are in authority in that religion somehow get involved into the political process? That is the first question.

The second question is, if the gentleman from California believes that is appropriate, and I think his special order suggests that it is, is the gentleman then prepared to go further and say that since the Catholic Church, as one example, has made itself very clear on a number of other issues, such as the nuclear freeze, economic justice and the death penalty, that the gentleman would take to the well in those circumstances and perhaps even point a finger at himself if he did not agree with doctrinal positions of the church and suggest that the authority of the church take some retribution against him or others of like kind?

I am really trying to clarify what the gentleman sees as the purpose of this special order.

This is a secular Chamber. The fact that Moses is on the wall, he is there as a law-giver, not as a religious figure per se, although he played a major role in religion in the world, there is no question about it, and I wonder if the gentleman could suggest to me and to those who are listening to this special order what he is leading to, what then is he calling on for the religions of America to do to the Members of this Chamber when Members who proclaim themselves to be part of a religion disagree in public policy with a doctrinal belief of the religion that they accept as personal religion?

Mr. DORNAN of California. First of all, before I answer the gentleman's two very fair and excellently worded questions, let me tell the gentleman how far it went up there with the bishops in Baltimore. They discussed denying communion to Catholics in churches and parishes around this country. They have not rejected that as a plan, to point out to people the gravity of this issue.

Now, you can imagine a Catholic politician going up to the communion rail in a Catholic church and being denied communion. One Senator was even mentioned by name. That would be a grave step, a very grave step. That smacks of the period of time when the church would publicly excommunicate people whose conduct in public was, according to some bishops, bringing scandal on the church. That is how far it has gone. I agree that this is a grave issue.

The gentleman's first question was about other religions. If, for example, the Mormons, the Church of the Latter-day Saints of Jesus Christ in this Chamber, were to find that some Member doctrinally was passing himself off as a loyal Mormon, but voting against something so substantial to their belief that it was causing grave scandal, I would sit interested, feeling it was not necessarily my fight at all, if one Mormom felt he had to go to the well to say this is outrageous.

Mr. DURBIN. Mr. Speaker, will the gentleman yield further at this juncture?

Mr. DORNAN of California. Surely, I yield to the gentleman from Illinois.

Mr. DURBIN. How does the gentleman view that in terms of the role of this legislative body then? Does the gentleman feel personally that Members who believe that they are in communion with the church, that they are in consistent belief with their own religion, that they then have an obligation when they see a person of the same religion take a different position on an issue which may be in controversy with their church, that that person then has an obligation not only to call his colleague on the carpet, but to take the floor of this House and make a public record of the fact that there is a religious doctrinal difference between a vote that was cast and the church which a person supposedly belongs to? Is that how far the gentleman would go?

Mr. DORNAN of California. Well, that brings me to the second question, and it involves the uniqueness of the issue of abortion, as opposed to Central America or capital punishment—I forget the third—world hunger.

Mr. DURBIN. Economic justice, the nuclear freeze.

Mr. DORNAN of California. Nuclear war. On all those issues upon which the bishops spoke, it was clearly suggested that those were optional beliefs. They encouraged the membership of the Catholic family to follow their guidance. Every Catholic was obligated to give serious weight to those. I think colonel—we were talking about war issues, and I promoted Cardinal Bernardin to colonel. Cardinal Bernardin said that you must as a loyal Catholic give serious weight to these pronouncements from the church, but that they were optional teaching, and I did, particularly on Central America. I went down in the interests of bishop collegiality and talked to Obando y Bravo, 4 of the 10 or 11 bishops in El Salvador, and then did the same in Nicaragua where Obando y Bravo was from. This was before he was a Cardinal. I was in Rome when he was elevated to be a Cardinal.

And I said, "What do you people feel down here?" And I got an exact opposite view. They said, "The Bishops didn't even ask our opinion."

On capital punishment, for example, I would like to change my view on capital punishment, and it is not for political cowardice that I do not, because that happens to poll 2 to 1 in my favor, and if I went against it I would end up on the same side of that issue where I am on abortion, which polls 2 to 1 against me in my district.

I believe that the taking of innocent life is absolutely a paramount issue, and that the taking of guilty life is also dangerous, because the state sets a precedent. I believe if we ever got the murder rate down, prorated to our population to where it is in the Republic of Ireland or New Zealand or Norway, I would go back to my 10-year position in the sixties of being against capital punishment; but with the murder rate where we have it now, the drug problem tearing our country apart, I believe we are on the edge of marshal law in some areas where even young guardsmen, 20 years of age are allowed to be judge, juror, and executioner in order to reestablish law and order. So I agree with the bishops on that.

I read that pastoral letter carefully, but on this one issue at this meeting

this weekend, the bishops said, "This issue is above and beyond any other issue."

They said that it is increasingly obvious and sad that fewer voices are being raised publicly and courageously on behalf of the unborn. That is one of my archbishops from Los Angeles, Roger Mahoney. He has been particularly brave against pornography in the media.

We may be the only nationwide institution—this is the way he feels about the church—so fully committed to defending and protecting the rights of the unborn, and so be it. I thought the church was the only institution when Roe versus Wade came down, and now my Protestant brothers and sisters are way out in front on this issue in the trenches trying to do something about it.

One other quote and then I will yield. Two bishops were a little bit uneasy. This is a tough subject. Bishop Sullivan of Boston objected to the bishops calling their opponents pro-abortion or when they used the term pro-choice, saying so-called pro-choice. He said that if these groups prefer the name pro-choice—and I will read Mark Shields' column in a moment after our dialog, which says that the whole media is so biased on this issue they will not even use the term pro-life anymore, unless they slip.

He said, "Why don't we be gracious, and if they prefer the name pro-choice, call them pro-choice, or at least—" he stood up and made a formal suggestion to be voted on, to adopt the phrase "pro-choice/pro-abortion." He was voted down.

Then Bishop Rosazza got up and disagreed with the bishops' statements that abortion was the bishops' first priority over every other issue including nuclear war. He asked the group to consider saying for us at this time abortion is an overriding concern, and then went on to say, but do not go that far. He did not even get a second out of 350-some bishops. They now realize that nuclear war is not impending on the horizon, as one of my colleagues said today in the defense debate, that peace is breaking out all over, 300 or 400 people coming across from East Germany a day, and to this very day the Berlin Wall is called obsolete, and we may get a million refugees. Meanwhile we will kill 1.4 or 1.5, a million and a half, American babies in their mothers' wombs, so that is why the bishops say, if I can answer the gentleman's second question, just a little further, that they are saying that even, on this issue, even if the church, the Catholic Church, stands alone on this, it is now of overriding importance because of how damaging it is to the American psyche, if I can wax poetic, to the soul of the Nation, the very essence of who we are as Americans, what we are all about.

□ 1840

The truth is the church is not alone anymore, because most of the material I get in my office, and I have a lot of it here, is from Protestant groups. Most of the effort and energy out there in the field with some priests and nuns supporting them are Protestant efforts. I read 3 weeks ago before the election fever that every mainstream church in America except one was reconsidering its across-the-board acceptance of abortion on demand for most of a pregnancy. That was buried in page 10 of the religious section, and then comes these elections.

So to come back to the second question of the gentleman, I would be shocked if somebody, and, well, some Members got up and criticized the Catholic bishops who are not even Catholics for their stand on Central America, and a lot did when they were criticizing Reagan, but they were doing it in a secular sense.

Let me go to the Jewish Members in the House. If one of the Jewish Members, and it is almost unthinkable that this would happen, but got up and started to espouse this hare-brained theory of anti-Semites in this country that the Holocaust never happened, he would be considered a traitor, a Jew-hating Jewish person, and they would not tolerate it. The other Jewish Members would get up, because that is a paramount, overriding issue for Jewish people worldwide that it was legal in a civilized country, and it hurts them to think that it was a country two-thirds Lutheran and one-third Catholic, a civilized country, to legally try to exterminate an entire ethnic category of people, and did succeed in killing more than one-third of the entire Jewish population of the world. So I understand how they feel, and I would certainly say, "Right on" if they all took the well to condemn the impossible thought of some Member straying off the reservation right in the gaze of not only Moses, and I do disagree with the gentleman, in that he did talk about religion, not just law, or the great rabbi from the 12th century, Maimonides, who rewrote the entire Jewish code of laws, another great respected lawgiver and religious figure. So I guess what I am saying, and I will yield to the gentleman, is that abortion is as important to me as a Christian as the Holocaust was to my Jewish brothers and sisters in this House.

Mr. DURBIN. Mr. Speaker, will the gentleman yield?

Mr. DORNAN of California. I am happy to yield to the gentleman from Illinois.

Mr. DURBIN. Mr. Speaker, I do not quarrel with the gentleman's deep-felt feelings. In fact, I share them.

Mr. DORNAN of California. I know the gentleman does.

Mr. DURBIN. I believe this is a very difficult issue and one that really strikes at some very core issues about values in America, and that is why it is so hotly contested and debated in our country and why there is such diversity of opinion.

I might say at the outset that I have nothing but the highest regard, admiration, and respect, maybe envy, for those in public life who see this issue so clearly, all black, all white, those who would allow abortion under any circumstance without Government intervention, those who would allow virtually no abortion save the life of the mother; for those people I have nothing but envy, because they have been blessed with a conscience which can bring them to a position on abortion which is crystal-clear, but I think most of America, and most of the men and women who work in this Chamber, struggle with this issue.

Mr. DORNAN of California. Can the gentleman stay with me for a while to discuss rape and incest? Because this could be a very productive special order, because let me answer one of the gentleman's other questions: the real focus of my special order tonight was not to focus on the Catholic brothers and sisters in this House, because that is kind of an in-family fight, and I repeat, we are not as far out front as most of my Protestant brothers and sisters.

Mr. DURBIN. Exactly, and that is the point.

Mr. DORNAN of California. I want to talk about rape and incest.

Mr. DURBIN. I will be happy to, but if the gentleman will allow me to complete my remarks.

Mr. DORNAN of California. Sure; go ahead.

Mr. DURBIN. The gentleman, I think, made a very telling point that it is the concern of Catholic Members within their own membership about their position with the church, and I will readily concede to the gentleman that there is a great deal of discussion taking place among those Members about the role of the church and the responsibility of a Catholic in elective office, but I am asking the gentleman a broader question. I have not tried to dwell on the merits of any position, any theological position of any church in my discussions with the gentleman this evening. I am trying to raise the larger question as to whether the floor of the House of Representatives of the United States of America, a diverse country, with many religions represented, with many different beliefs, should be a forum where we discuss in detail the findings of the hierarchy of any church to suggest that any of our colleagues have voted correctly or incorrectly.

I wonder if we have not taken a step beyond where we should be. Should we not be discussing the merits of the issue in secular terms, nonclerical, nontheological, so that they can be presented in terms of public policy?

I might just raise one other issue while we are on the subject. Our church, the Catholic Church, has very strong feelings about the use of condoms. The church has made those feelings, I think, very clear. Whether the church is prepared to take them to the extent that they have taken this discussion on abortion, we will have to wait and see. I might suggest to the gentleman, with an AIDS epidemic facing America, that those of us charged with the responsibility of developing public policy have had to, in fact, with our votes disagree with the church position on condoms and to espouse, promote, and fund and finance public policies inconsistent with that church teaching.

Again, let me say to the gentleman that if we are going to use as a yardstick on our votes, first, whether or not they are consistent with each religion's theological beliefs or, rather, whether they are consistent with the best public policy of America, then I think I would have to say to the gentleman within our own consciences we have to espouse those public policies best for this country even if they should disagree with the teaching of Judaism, the Mormon Church, the Baptist religion, whatever it might be.

Mr. DORNAN of California. If I can continue what I appreciate is a good, sincere dialog, I am glad that the gentleman drew me out on this issue, because he is going to find out something about me that he probably did not know. That is an issue where I absolutely believe decent and fair-minded and deep-thinking people can disagree. I will probably go with my church's position even though 20 years ago, as a 35-year-old host of a television show, I said, "I may disagree with my church's policy, but I would not care if the Goodyear Blimp bombed Los Angeles with condoms until we were up to our ankles in rubbers," was the word I used, and it was not used on television that way 21 years ago, "if it will stop the abortion mills in this city." That was before Roe versus Wade, because it was already legal in California.

I listened to this debate very carefully with, as a matter of fact, Archbishop Mahony of Los Angeles on "Nightline" the other night, the one show that I try to watch, pardon the term, religiously every night at 11:30, whether I am here or in California, and I can see where one of my heroes, when I circulated the letter and got 60 signatures to get him his job as Surgeon General, Koop in dealing with the raw death toll figures of AIDS was so overwhelmed by them as the doctor assigned the job to protect life in America that he said that abstinence is the best policy in a real world charged with all the sexual advertising and promiscuity and license that we encourage our younger Americans to take; we have got to have this as a backup.

I went into that discussion the other night more on the Koop side as an act of desperate health policy, and Archbishop Mahoney, who I believe will be a cardinal soon because of his courage on prolife and pornography issues, turned me around, not to the extent where I would ever look askance at anyone's vote on this, and I think the gentleman misspeaks, given the thrust of history, that the church, although it was tempted to 20 or 30 years ago, I think, in Connecticut, would ever, ever consider in our lifetimes making public policy the church's very humanae vitae stand, to quote the great Pope Paul's encyclical on life, would ever try to make public policy out of its stand on artificial birth control. That is an issue that I do not know a single Member in this Chamber of any religious or nonreligious persuasion or anybody in any legislature that has any desire to consider what was considered 25, 30, or 100 years ago.

□ 1850

Mr. DURBIN. I think that is the point. The gentleman has conceded my point then.

If we are prepared as elected public officials to disagree with our own religion when in conscience we feel public policy demands it, within the face of an AIDS epidemic to say to a church position in opposition to condoms I have to concede the obvious, taking the church position will not resolve the epidemic facing America, if we are prepared then to make those differences and disagree theologically, what I would like to suggest to the gentleman is we then have to debate these questions in a different forum rather than the forum of theology and the sacred church doctrine. We have to bring them down to the reality of each of our consciences and the public policy decisions we are faced with. To put them in the hands of any church officials, to ask for their blessings or seal of approval, or an involvement politically I think is to demean the secular nature of this Chamber, and perhaps to question our roles as public officials representing a diverse population.

Mr. DORNAN of California. Then let me come back to the specific focus on rape, with one prolog to reinforce my point, that I think we can never divorce ourselves from our Judeo-Christian heritage and the law structure that our laws are built upon. On this wall up here, and since the cameras are not allowed to show anything except an empty House, which is absurd since there are probably a million people watching us, up on this wall, by sheer coincidence chronologically are four saints in a row, Saint Edward the Confessor of England, Saint Alfonso X of Spain, a Pope, Gregory IX, another Pope, Innocent, and the third is around on the other side. There is the great Saint Louis, the original Saint Louis of France, and there is Justinian, a Roman who was earlier in history.

But on that wall up here we see "In God we trust." I mentioned two great Jewish lawgivers, and many of these people, including more recent editions of Thomas Jefferson and the great George Mason of Virginia, too old to have ever been considered for the Presidency when our country was born, all of these men wrote of deep religious beliefs.

When I was a young aviation cadet, I found this old binder, 40 years old, and I took the words of Jefferson with a ballpoint pen in a $2 binder the Air Force gave me, and I dug the words into my binder, and I still see them impressed there after decades. It said, and I used ellipses, I put * * * and quotes, "With a firm reliance upon Divine Providence, we mutually pledge our lives, our fortunes and our sacred honor * * *" I had this feeling I would probably die in the Air Force because the Korean war was going on. It ended before I got out of pilot training, and I still crashed several times, and came close, but I thought I was giving my life, not just my sacred honor, with a firm reliance on Divine Providence. So I think religion is interwoven as we are trying to separate them so completely.

I will come back to the rape focus that is going to hurt us. I think good people of conscience, many of them Catholics, are going to have to say to their church on rape, and this also presupposes incest because they are like one, and there are so few incest pregnancies in this country compared to the 1,600,000, or I will lower it, 1,400,000 that are being killed in this country in their mothers' wombs, and the same applies to rape, but they are so important because they are so vicious, so we will not say that it is less than one-tenth of 1 percent. They are going to have to say to the church I believe that when Jesus said I leave the 99 to seek the 1, and that 1 may be the innocent child in the womb of a mother who was violently, brutally raped by even someone who created her, her own father, or some brutal rapist in the street, or a date rape, that in secular life, and I am not one of the ones crafting this policy, but my heart goes out, and I know why it is happening, that we might have to say to save the 99 we are going to have to forsake that 1, because the policy in this country, I say to the gentleman from Illinois [Mr. DURBIN], is that we

kill all 100. That is where I think the church, and I say that in a chauvinistic way about my own religion, because for 1,500 years it was the church, but the Catholic Church, and many of the Protestant denominations are feeling that the pro-abortion people in this House who have taken the lead to drive public policy in their favor, and the gentleman from Illinois is not one of them, they want it the way it is right now, and people forget this in the debate over rape and incest, but right now the policy is abortion on demand for all 9 months. Not one doctor has been convicted in 17 years, and some of them have taken babies by cesarean section out of their mothers' wombs who were 7 months and 8 months pregnant. It is rare, but Dr. Koop told me there have been 30,000 late-term abortions, that is a living, viable child that can breathe on the outside. I am not talking about week 20 or 23 where we do not know if the cells have developed in the brain and the lungs have developed to sustain it, but I am talking about the 24th week, and with nonparental consent. As a father of five and a grandfather of seven, I am in a middle-class status and it probably will not happen to me because of the way I have taught my faith to my children. I am in between. The grandkids are too young. The oldest is 8, and my youngest daughter is 28, and the other four are older than that. But when my kids were young if somebody had called me up and said, "Say, Mr. DORNAN, television host, Air Force pilot, or even Congressman, your daughter is down here, and I am obligated by law to tell you that she is going to have an abortion in 10 minutes," that is not notification. On consent, she cannot even have an appendectomy without my consent when she is a minor child. To say we cannot have legislation in this country on parental consent notification, to say that we cannot bring abortion to a screeching halt after that child is viable, and its lungs are formed in the womb, to say that we cannot stop an abortion for gender selection, and some of my good lady friends in this House say that is a myth, but I have read absolute cases of women who said I almost had an abortion, or did have an abortion for gender selection, there are all sorts of areas that make my following statement true. A short sentence, and then I will yield to the gentleman.

In spite of the press over the last few days and the elections in New Jersey, Virginia, and New York, most Americans oppose most abortions. It is that simple right now. Most Americans oppose most abortions, most of those 1,400,000 to 1,600,000 abortions, and we are not any closer to cutting that back than we were in 1973. Very cleverly some political consultants have some Members who are uncomfortable with the rape and incest position getting their brains beaten out because they are supposed to say I am going to deny an abortion to a rape victim, when actually what they are saying is I do not want to make HENRY HYDE pay for it with his tax dollars or somebody who thinks it is the taking of that one lost little 100th lamb that is innocent of crime.

Then I will tell you what I am going to do, and I bet you will consider it, and I think most Members will in this House. I am drafting legislation right now to make rape a Federal crime, and I will tell you why. John F. Kennedy, when he was murdered, his murderer, Lee Harvey Oswald, was brought up under a Texas statute of murder. He was arrested for, and it did not even say the President in the arrest report, for the murdering of one person named John F. Kennedy. And we passed a law to make it a Federal crime to kill a President, and then to kill a Vice Presidential candidate, and now all of us, Congressmen and Senators are protected by Federal laws.

Final case, Utah. Two black professional gentlemen are jogging, and they are assassinated by rifle fire, and the only way we could get these people in Utah was a Federal law passed during the civil rights days, and I was on the scene in some of those States, saying that their civil rights had been violated.

If rape is out of control in this country, and I believe it is, why cannot someone be brought up under a Federal statute for violating a fellow human being's both civil and human rights? And the penalty should be commensurate. If Jim Bakker, with all his sleazy stealing of money through bunco operations can get 45 years, and his wife, who was a coconspirator, gets nothing, then the rapist ought to get 45 years imprisonment. Then we will be sending a message out into this country that I still do not think goes out that this is a horrendous crime.

I will tell the gentleman something else I feel about it. When a woman gets pregnant from rape and decides to have the child, and I have all sorts of case histories here where they did, and I saw Phil Donahue's show the other day and the lady who I know, her husband is a friend of mine, was sitting there on the stage and said, "I was raped when I was 20 and had the baby," and the camera pulls back, and here sits her daughter. She is 40 something and the daughter is 20, and they were identical. You could hardly tell they were not the same age. And she told of the agony, and why she went ahead and had the baby. And the focus of the show, Donahue said, was mothers who were raped and had the babies. But there are two words that come to mind for a woman who will do that: heroism and virtue. I will concede to you before you ask the question, I do not think we can legislate heroism or legislature virtue, or it is not virtuous or heroic if it is the law forcing you to do it.

□ 1900

Mr. DURBIN. Mr. Speaker, will the gentleman yield?

Mr. DORNAN of California. I yield to the gentleman from Illinois.

Mr. DURBIN. If I might comment to the gentleman: This debate on the floor this evening has now moved to the area where I think it is entirely appropriate and productive. We have gone beyond the meeting of the Catholic bishops in Baltimore and their theological beliefs.

Mr. DORNAN of California. And civil beliefs.

Mr. DURBIN. Let us just say certainly their theological beliefs and the way they are manifest in the civil legislatures. Now we are discussing it in public policy terms. the gentleman started his comments earlier this evening by saying someone has to pay a moral price for the decisions they make here. I do not dispute that.

I think we pay a moral price for each of the decisions in our lives.

But the question I raised earlier is when it comes to public policy where do we separate the role of theology and the role of public policy? For the last few minutes the gentleman has dwelled on what I consider to be the appropriate area of discussion, that area of public policy considerations.

I think this is the Chamber for those discussions beyond any theological belief of any church and what that might mean to a given Member.

But if I might, the gentleman said something that I think is probably true. I have seen hundreds of polls taken of the American people about the issue of abortion. I know as the gentleman knows that, given the right to frame the question, I can influence the results.

Mr. DORNAN of California. Exactly.

Mr. DURBIN. I think the gentleman is probably correct when he says that most Americans oppose most abortions when you consider that of 1.6 million abortions each year so many are made simply on the basis of birth control.

Mr. DORNAN of California. Forty percent are second abortions.

Mr. DURBIN. And without the compelling circumstances of rape and incest. But if the gentleman is going to fall back on that statistical information to buttress his case on America's position on abortion, I cannot allow him to ignore the fact that the polls are compelling and overwhelming on the question of whether a woman who is the victim of rape or incest should be allowed the choice of an abortion; not mandated, but allowed that decision.

Those polls are equally overwhelming, and maybe more so.

Mr. DORNAN of California. May I ask the gentleman a question?

Mr. DURBIN. Yes.

Mr. DORNAN of California. A fair question: I have often said over the 17-year period, because I debated this issue for 5 or 6 years on television right up to when I left the air in February 1973 to run for Congress and then got caught out on a limb when the 16-year incumbent decided he was going to take a Senate race 2 years later and I had already burned my bridges at a television show. They were not going to put somebody back on the air who had already tipped his hand that he was running for Congress.

So I went and lectured around the country for 2 years on another moral issue: pornography. I got my moral belief put into post office law a year ago. Now they are confiscating houses and cars of people, as though it is contraband, who traffic in child pornography.

But in all those 6 years when I was on the air, or 6½ years, I discussed this issue and I would always come up to this point of where I would say, "You are probably, in a modern secular society, going to win the right to have your abortions. Where you people are going to fall on your sword, you proabortion people, is to try to make other people who believe it is murder, the judgmental word, killing is the medical word, the killing of human life in the womb, and try to make them pay for it, this is where you are going to go askew."

You know I was the first Congressman to endorse George Bush in December 1985. He has always had the rape and incest decision. But out of respect for my position, not just me but other Members in this House, all the Members in this House and all the people across the country, and we were a majority until a few weeks ago, he said we should not make other people pay for that killing.

Mr. DURBIN. Mr. Speaker, will the gentleman yield?

Mr. DORNAN of California. I yield to the gentleman.

Mr. DURBIN. I find this to be the most outrageous aspect of the President's position on this question of rape and incest exception.

During the course of the Presidential campaign I listened closely, because the gentleman and I traffic with this issue every day of our political lives, and I heard the President of the United States, George Bush, say in absolute clarity that he supported abortion when those abortions were necessary to save the life of the mother or in the instance of rape and incest.

Those words were emblazoned in my mind because I knew the President had at various points in his life reconsidered this issue, in all fairness to him. And I thought to myself this is a departure from what I have heard from the Reagan administration and it is unusual that the President would make this so clear during the course of the Presidential campaign.

Now we have this President of the United States saying that as a matter of conscience and public policy he believes that rape and incest exceptions should be allowed in America but then would turn his back and veto legislation which provides for paying for rape and incest abortions for the poorest of American women.

I have to tell the gentleman in a nation with a budget of more than $1 trillion, to say this is some fiscal argument, in my mind, is ludicrous. It is a question of justice. In my mind that is where we must draw the line.

If it is good enough for those who are wealthy enough to have the rape and incest exception, how then can we turn to the poorest in our society and say, "Sorry, you can't afford it, bear the child. We are looking to you for heroism and virtue"? That, I think, is totally unjust.

Mr. DORNAN of California. The gentleman, as is my case, cannot catch every minute of every debate no matter how intense or how articulately it is espoused on this floor. You may have missed HENRY HYDE's eloquent conclusion on one of the last two appropriations.

Mr. DURBIN. I was here.

Mr. DORNAN of California. When he said, "Look, I understand the difference in this viewpoint." I do not recall whether he alluded to the President Bush position.

I campaigned for him in almost three dozen States, but with the difference on the rape part of it.

He said the proabortion industry in this country is so wealthy, they are raking in billions. There are doctors who do nothing else all day long. I have a report that I will save for another special order, that there are some doctors who make a million dollars a year and they generally fall into very few categories. The average doctor makes less than $200,000 and works bloody hard for it. It is plastic surgery, vanity, but that is fair. A lot of these doctors take burn victims and accident vicitims and give them their lives back.

But a lot specialize only in cosmetic surgery.

Then there is the abortionist. We are being asked to give the money, not just to the poor woman but to some of these abortionists who do not spend 6 minutes with these women, rack up their millions, and I prefer to call them bloody dollars, when they specialize in nothing else. HENRY HYDE said, "Can't you get," and he was a little bit sarcastic, which I do myself sometimes, "get the Playboy Foundation?" He said that first. But that is the group that we know has been giving money to NARAL for three decades. I know why they give it to NARAL. They want it as a backup for birth control to further that Playboy image that women are animals and you can take 10 bunnies a week if you want and if one of them gets in a position of pregnancy, here is some money from NARAL to get them an abortion.

But then he said the Carnegie Foundation. Then he mentioned a group that is held in high esteem by some in this House, not because I think they commingle their funds, but he said Planned Parenthood has the money in their commingled funds on the abortion clinic side. They are the biggest runner of abortion clinics in the country.

Let them give poor women, the handful who legitimately are raped, let them pay for that. It is not parsimonious or cheap, Mr. DURBIN, it is saying some people—and they are not all Catholic, not the ones I see out there getting arrested for what they call rescuing abortion mills—they say even in a rape we beg the mother to be heroic. I am beginning to look at what we can do with laws here. But we are saying, "Don't take my tax dollars."

Here is a letter from a woman, to show you how tough it gets, and I will not have time to go into the whole letter, I am just going to look at their picture here. Here is a mother and her husband, and they have one, two, three, four, five, six children. She miscarried with her seventh child because she was brutally handled by Los Angeles police officers. I am a fan of the Los Angeles Police Department.

The husband writes to me, his name is Michael, he says, "These so-called peace officers tortured my poor wife Deborah." I do not know what he means by "tortured." He says, "They caused me to lose my unborn child." And they are not Catholics.

They put it on the line because they want to stop all abortions, even in rape. You cannot make those people, this family that is probably being denied the right to go for a tuition tax credit to go to a Lutheran or Methodist or Jewish school. You cannot ask them to pay taxes to take an innocent human life.

Mr. DURBIN. If the gentleman will yield, in the history of this Nation there have been individual citizens who have been outraged by the policy of this country at various times.

Mr. DORNAN of California. John Brown.

Mr. DURBIN. Certainly in the era of slavery, when it comes to the question of war, members, citizens who have said, "We will not pay 1 cent of taxes in support of war. We would rather go to prison because in conscience we cannot." I accept that.

Mr. DORNAN of California. I respect that. We both do.

Mr. DURBIN. I respect that as a matter of conscience. I have the highest regard for my colleague from Illinois, Mr. HENRY HYDE. He and I served together and worked together over the years. I think he is as articulate a spokesman for his position as this House has ever seen.

Mr. DORNAN of California. Did the gentleman overlap his service in the Senate?

Mr. DURBIN. I was in the capital in Springfield during his service in the House, and he was extraordinary in that position as well.

But I have to take exception to the belief that those who are rape and incest victims who are poor in America must hope that by some fate they will be able to bask in the glow of a thousand points of light or 10,000 points of light. What of the poor young woman, let us take a worst-case scenario, a victim of incest who lives in a remote rural area who is not fortunate enough to be close to a clinic or close to a charity to take care of herself?

□ 1910

That is why it is so critical for Members to, I think, have a national policy which is just and says regardless of your economic circumstance we will treat everyone as Americans, as closely as possible, as closely as possible in equal terms.

However, to say that we are going to turn this over to the charity of America is to walk away from a moral obligation to provide justice for Americans across-the-board.

Mr. DORNAN of California. Even though some taxpayers think it is taking innocent life?

Mr. DURBIN. Certainly because those taxpayers in the past who feel, because of conscience, they could not agree with public policy have accepted the consequence of that decision, and many of them have been off to Federal prisons as a result of it. They accepted it as Gandhi accepted his responsibility, when it came to nonviolent protest. They said, here is my protest. Not to say that the world must march to the same drummer that I hear, but rather to make it clear that in my terms and my conscience I am going to make the personal sacrifice to show what I believe.

Mr. DORNAN of California. Let me narrow the focus to incest. I will give the gentleman a prolog of what we are going to be discussing in this House, and I am not in on the formulation of this. I am not being cute, but I am aware, I have my ways and means, I am aware of what discussion is taking place here, and I have tried to broach this subject to some of the people who are strongly striving pro-abortion across-the-board with no exceptions, all 9 months, every person stay out of it. It is totally trusting women to make them make all these decisions. The doctors that make money off of it, I guess, and doctors who sincerely have a different opinion.

I said, what would they say if, in trying to come up with a rape exception, and I am not saying I would go for it, and an incest exception, that we required reporting of the incest.

One of the Republican women on this side said, "Absolutely not, Bob. Don't you understand that some incest victims live at home, and it is their father, and their world would collapse?" I do not think she thought it through completely because I said, "Wait a minute, are you telling me that a father can be a scofflaw, and even those who suspect it is the father, and will give her the abortion, and send her home to quote another gentlewoman on the floor, I will not repeat the blasphemy, because I forgave her for it. She was visualizing this animal, the "G-D drunken father who did this and then he abused her again criminally," and she comes back to an abortion next year, and this goes on until her body is destroyed.

I said we have to point the finger at the brother, the father, the uncle, the stepfather, which is the most common, because there is no blood. Therefore, there is no danger of a retarded child from this stepfather incest. We have to act, we have to arrest these people and throw the book at them.

Mr. DURBIN. If the gentleman will continue to yield, I would concede that the gentleman has made a compelling case for the reason that many Members believe that an incest exception is absolutely necessary.

In my practice of law before I came to Congress, on two different occasions I dealt with divorces which involved incest.

Mr. DORNAN of California. Does the gentleman mean an exception that points a finger at the criminal?

Mr. DURBIN. To point a finger at the criminal, but I can also tell the gentleman that many times the victims of incest are, in fact, very young, very immature, and not in a position to even perceive the fact that they have been abused, until it is too late. Maybe not even perceiving the fact that they are pregnant until many months into the pregnancy.

Mr. DORNAN of California. Until the pregnancy becomes a traumatic operation because the child is moving and viable and it requires a cesarean, a C-section to take the baby out and kill it in the process?

Mr. DURBIN. If the gentleman will continue to yield, does the gentleman not understand, though, that when we are dealing with these types of extraordinary circumstances, not the usual course of pregnancy in America, that we are trying to create an exception for the poorest women in America, to consider, the possibility of an abortion.

I know I have taken a lot of the gentleman's time.

Mr. DORNAN of California. I will take out another hour. The gentleman has contributed significantly, and I just think this issue, like most issues, gets short shrift. Special orders are better in a dialog, because that is what human beings are used to listening to, rather than a monologue. So I appreciate the gentleman giving me any amount of time.

Mr. DURBIN. About 6 months ago, in my district in central Illinois, I visited a home for abused children. In the State of Illinois, the definition of child is anyone under the age of 18. I sat across the table from 3 young women who had the courage that day to sit down and talk to me about what they had been through in life. What was particularly poignant was the fact that each of these young women was the same age as my wife's and my youngest daughter. Each looked across in my eyes, and I saw my daughter in each harrowing story. One in particular stayed with me. A young girl, as early as she could remember, was the victim of incest by a stepfather who lives in the household, until finally—luckily, she did not become pregnant, as I understand it—finally, it reached a breaking point. She ran away from home, turned to a life of drugs, alcohol, and prostitution. The young woman that I was looking at was an emotional wreck, and a few weeks, unfortunately, from being discharged from the facility because she became legally an adult. I did not know if she would ever have a normal life. She certainly has sacrificed her youth to this brutal and vicious attack by her stepfather. She could not even mouth the words "men" and "male." She could not speak in ordinary terms about family. She was a disaster, personally. I looked at her and had to say to myself, should I require of this girl, had she become pregnant by this incest, that she had to carry that baby to term, regardless of the circumstances?

I have to tell the gentleman that it was that experience, that memory, those eyes of that girl were in my mind when I cast the vote to allow the rape and incest exception.

Mr. DORNAN of California. I accept those sincere and heartfelt words. I tell the gentleman I am going to include incest as a Federal crime, violating a child's civil and human rights, to raise the visibility of this ugly crime. Because of interstate commerce, that I went along with as a conservative in the South where a person in the theater could reject a black person who wanted to come and view the movie because it had on the back of the ticket "We reserve the right to refuse service to anyone," and because the law stretched to say it is remotely possible

that a person drove across a State line from northern Florida to Georgia to go to that movie, that we are throwing that out and giving Federal law the full weight of it to protect these people.

I think we are going to have to, of course, we will not discuss it during the debate because we will all be talking across one another the way we usually do. I am telling the gentleman when we try to compromise on these things, I am not inclined to compromise because I know the other side is not. They shove it in our face when we go to discuss incest, what a health clinic means, and are we going to continue the recent Webster decision to give States' rights, to individual States that may want to be tougher or laxer, like New York, or maybe even my own State of California, we are going to have to listen to one another on this subject.

Let me close and say to my good friend, where we agree on other health issues like smoking in closed compartments like elevators and airports and parts of restaurants, where we agree on that health issue, but I do not mind giving up half of my time and half of the points I was going to make to clarify some of these issues, and how we are struggling with them. Let me close by saying that I have material in my office, pictures, that one of my young, eager staffers said I should put in a "Dear Colleague" letter. I ruled that out, because they are too brutal and offensive. They are pictures of babies, observable human beings, dumped around our beautiful Federal city, the beautiful District of Columbia. I have to say, when the young staffer asked me if newsreel cameras showed the piles of bodies, of what were once families in Europe, men and women and their grown children, being piled up by American and British soldiers like cord wood and dumped into huge pits, and lye thrown all over them, and people recoiled and left the theaters, and now kids look at things like that, and it does not recoil them, because these films are so utterly disgusting, the splatter films, Texas Chainsaw Massacre, more garbage, but I will not contribute to the horror of this issue by offending people with photographs, but I want them to think about what we are doing. It is a fine line, Mr. Speaker, with abortion on demand for all 9 months for any frivolous reason without a conviction of an abortion, and it is killing over a million and a half of our American citizens in their mother's womb. If we adjust in this Chamber on rape and incest, a lot of people are going to have to see to it that their promise is as good as their word. That is as far as they go, and no further, and then we have our majority back, easy.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana [Mr. BURTON] is recognized for 60 minutes.

[Mr. BURTON of Indiana addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

CONFERENCE REPORT ON H.R. 1487

Mr. FASCELL submitted the following conference report and statement on the bill (H.R. 1487) to authorize appropriations for fiscal years 1990 and 1991 for the Department of State, and for other purposes:

CONFERENCE REPORT (H. REPT. 101-343)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1487) to authorize appropriations for fiscal years 1990 and 1991 for the Department of State, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Foreign Relations Authorization Act, Fiscal Years 1990 and 1991".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.

TITLE I—DEPARTMENT OF STATE

PART A—AUTHORIZATION OF APPROPRIATIONS; ALLOCATIONS OF FUNDS; RESTRICTIONS

Sec. 101. Administration of foreign affairs.
Sec. 102. International organizations and conferences.
Sec. 103. International commissions.
Sec. 104. Migration and refugee assistance.
Sec. 105. Other programs.
Sec. 106. Reduction in earmarks if appropriations are less than authorizations.
Sec. 107. Availability of funds.
Sec. 108. Restriction on funds for negotiations with certain Palestine Liberation Organization representatives.
Sec. 109. Prohibition on channeling or diverting funds to carry out activities for which United States assistance is prohibited.

PART B—DEPARTMENT OF STATE AUTHORITIES AND ACTIVITIES; FOREIGN MISSIONS

Sec. 111. Authorization of certain operational activities.
Sec. 112. Working capital fund for Office of Foreign Missions.
Sec. 113. Authority of Diplomatic Security Service.
Sec. 114. Access to criminal records.
Sec. 115. Enhancement of evacuation capability and procedures regarding major disasters and incidents abroad affecting United States citizens.
Sec. 116. Acquisition of domestic property as interim step to acquiring property abroad.
Sec. 117. Debt collection.
Sec. 118. Munitions control registration fees.
Sec. 119. Fees and reimbursements.
Sec. 120. International Center.
Sec. 121. Closing of diplomatic and consular posts in Antigua and Barbuda.
Sec. 122. Submission of annual country reports on terrorism.
Sec. 123. Consular officer duties.
Sec. 124. Opening a United States consulate in Bratislava.
Sec. 125. Construction of United States embassy in Ottawa.
Sec. 126. Voluntary pilot program for increased participation by economically and socially disadvantaged enterprises in foreign relations activities.
Sec. 127. Report on reorganization of the Department of State.
Sec. 128. Prohibition on exclusion or deportation of nonimmigrant aliens on certain grounds.

PART C—DIPLOMATIC IMMUNITY, RECIPROCITY, AND SECURITY

Sec. 131. Exclusion of aliens previously involved in serious criminal offenses committed in the United States.
Sec. 132. Modification of preference for United States contractors in diplomatic construction program.
Sec. 133. Use of cleared personnel to ensure secure maintenance and repair of diplomatic facilities abroad.
Sec. 134. United States-Soviet reciprocity in matters relating to embassies.
Sec. 135. Construction security certification.
Sec. 136. Increased participation of United States contractors in local guard contracts abroad under the diplomatic security program.

PART D—PERSONNEL

Sec. 141. Authority to transfer retirement contributions for Foreign Service nationals to local plans.
Sec. 142. Disqualification for service on Foreign Service selection boards.
Sec. 143. Separation for cause; judicial review.
Sec. 144. Visiting scholars program for the Foreign Service Institute.
Sec. 145. Credit for service at unhealthful posts.
Sec. 146. Former spouses of United States Information Agency and Agency for International Development employees.
Sec. 147. Child care facilities at certain posts abroad.
Sec. 148. Travel, leave, and other benefits.
Sec. 149. Foreign Service internship program.
Sec. 150. Grants for institutions and students for training in international affairs.
Sec. 151. Danger pay allowance.
Sec. 152. Judicial review of certain Foreign Service grievances.
Sec. 153. Broadening the cultural, geographic, and ethnic representation of the Foreign Service and the Department of State.
Sec. 154. Report to Congress concerning polygraph program.
Sec. 155. Study of sexual harassment at the Department of State.

Sec. 156. Limitation on housing benefits.
PART E—FOREIGN LANGUAGE COMPETENCE WITHIN THE FOREIGN SERVICE
Sec. 161. Expansion of model foreign language competence posts.
Sec. 162. Report on foreign language entrance requirement for the Foreign Service.
Sec. 163. Foreign Service promotion panels.
Sec. 164. Language proficiency in the Employee Evaluation Report.
TITLE II—UNITED STATES INFORMATIONAL, EDUCATIONAL, AND CULTURAL PROGRAMS
PART A—UNITED STATES INFORMATION AGENCY
Sec. 201. Authorization of appropriations.
Sec. 202. Dissemination of information within the United States.
Sec. 203. Distribution within the United States of United States Information Agency film entitled "Long Journey Home".
Sec. 204. The J. William Fulbright Foreign Scholarship Board.
Sec. 205. USIA satellite and television.
Sec. 206. United States Advisory Commission on Public Diplomacy.
Sec. 207. Foreign language services.
Sec. 208. Use of certain fees and payments.
Sec. 209. Debt collection.
Sec. 210. USIA network for dissemination of information concerning United States programs to combat narcotics and other controlled substances.
Sec. 211. Afghanistan country plan.
Sec. 212. General Accounting Office study of the National Endowment for Democracy.
Sec. 213. Report to Congress on the acquisition and use of public programming materials.
PART B—BUREAU OF EDUCATIONAL AND CULTURAL AFFAIRS
Sec. 221. Authorization of appropriations.
Sec. 222. Citizen exchanges.
Sec. 223. Programs to promote international youth understanding.
Sec. 224. United States-Soviet exchanges.
Sec. 225. Scholarships for Tibetans and Burmese.
Sec. 226. Sense of Congress concerning the Humphrey Fellowship Program.
PART C—VOICE OF AMERICA
Sec. 231. Authorization of appropriations.
Sec. 232. Voice of America hiring practices.
Sec. 233. VOA public service announcements to promote child survival.
Sec. 234. Voice of America broadcasts to Tibet.
Sec. 235. Voice of America's Thailand radio facilities.
Sec. 236. Voice of America broadcasts to the People's Republic of China.
Sec. 237. Voice of America equipment abroad.
PART D—TELEVISION BROADCASTING TO CUBA
Sec. 241. Short title.
Sec. 242. Findings and purposes.
Sec. 243. Television broadcasting to Cuba.
Sec. 244. Television Marti Service of the United States Information Agency.
Sec. 245. Amendments to the Radio Broadcasting to Cuba Act.
Sec. 246. Assistance from other government agencies.
Sec. 247. Authorization of appropriations.
Sec. 248. Definitions.
TITLE III—BOARD FOR INTERNATIONAL BROADCASTING
Sec. 301. Authorizations of appropriations.
Sec. 302. Requirement for authorization of appropriations.
Sec. 303. Procurement of legal services.
Sec. 304. Radio Free Afghanistan.
TITLE IV—INTERNATIONAL ORGANIZATIONS AND COMMISSIONS
Sec. 401. United States membership in International Sugar Organization and International Tropical Timber Organization.
Sec. 402. Authorization for membership in the International Union for the Conservation of Nature and Natural Resources.
Sec. 403. Authorization of appropriations for membership in wildlife conventions.
Sec. 404. Authorization of appropriations for the Commission on the Ukraine Famine.
Sec. 405. Reform in budget decision-making procedures of the United Nations and its specialized agencies.
Sec. 406. Annual report to Congress on voting practices at the United Nations.
Sec. 407. Denial of visas to certain representatives to the United Nations.
Sec. 408. Policy on UNESCO.
Sec. 409. United States Commission on Improving the Effectiveness of the United Nations.
Sec. 410. Contribution to the regular budget of the International Committee of the Red Cross.
Sec. 411. Sense of Congress concerning an enhanced role for the International Court of Justice in resolution of international disputes.
Sec. 412. International Boundary and Water Commission.
Sec. 413. Review of multilateral and bilateral commissions.
Sec. 414. Membership of the Palestine Liberation Organization in United Nations agencies.
Sec. 415. Sense of Congress concerning the United Nations Relief and Works Agency for Palestinian Refugees in the Near East (UNRWA).
Sec. 416. United Nations sponsorship of a Middle East peace conference.
Sec. 417. Contributions for peacekeeping activities in southern Africa.
TITLE V—ASIA FOUNDATION
Sec. 501. Authorization of appropriations.
TITLE VI—INTER-AMERICAN FOUNDATION
Sec. 601. Authorization of appropriations.
TITLE VII—REFUGEE AND OTHER PROVISIONS
Sec. 701. United Nations High Commissioner for Refugees audit requirement.
Sec. 702. Tibetan and Burmese refugees.
Sec. 703. Report regarding Burmese students.
Sec. 704. The treatment of the Turkish minority by the Government of the People's Republic of Bulgaria and Bulgarian refugees in Turkey.
TITLE VIII—PLO COMMITMENTS COMPLIANCE ACT OF 1989
Sec. 801. Short title.
Sec. 802. Findings.
Sec. 803. Policy.
Sec. 804. Reporting requirement.
TITLE IX—PEOPLE'S REPUBLIC OF CHINA
Sec. 901. Findings and statements of policy.
Sec. 902. Suspension of certain programs and activities.
TITLE X—MISCELLANEOUS PROVISIONS
Sec. 1001. Increasing amount of rewards for combatting terrorism.
Sec. 1002. Assignment of commercial officers to the United States mission to the European Community.
Sec. 1003. Buy-American requirement.
Sec. 1004. Support for the Benjamin Franklin House museum and library.
Sec. 1005. Association of Democratic Nations.
Sec. 1006. Policy regarding human rights abuses in Cuba.
Sec. 1007. Concerning the submission to the Congress of agreements pertaining to the boundaries of the United States.
Sec. 1008. Report to Congress concerning Oceania.
Sec. 1009. Report concerning Mexico.
Sec. 1010. Establishment of a Latin American and Caribbean data base.
TITLE XI—BUDGET ACT COMPLIANCE
Sec. 1101. Compliance with Congressional Budget Act.

TITLE I—DEPARTMENT OF STATE

PART A—AUTHORIZATION OF APPROPRIATIONS; ALLOCATIONS OF FUNDS; RESTRICTIONS

SEC. 101. ADMINISTRATION OF FOREIGN AFFAIRS.

(a) DIPLOMATIC AND ONGOING OPERATIONS.—The following amounts are authorized to be appropriated for the Department of State under "Administration of Foreign Affairs" to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States and for other purposes authorized by law (other than the diplomatic security program):

(1) SALARIES AND EXPENSES.—For "Salaries and Expenses", of the Department of State $1,432,124,000 for the fiscal year 1990 and $1,583,598,000 for the fiscal year 1991, of which not less than $250,000 for each fiscal year shall be available only for use by the Bureau of International Communications and Information Policy to support international institutional development and other activities which promote international communications and information development.

(2) ACQUISITION AND MAINTENANCE OF BUILDINGS ABROAD.—For "Acquisition and Maintenance of Buildings Abroad", $218,900,000 for the fiscal year 1990 and $227,656,000 for the fiscal year 1991.

(3) REPRESENTATION ALLOWANCES.—For "Representation Allowances", $4,600,000 for the fiscal year 1990 and $5,000,000 for the fiscal year 1991.

(4) EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE.—For "Emergencies in the Diplomatic and Consular Service", $4,700,000 for the fiscal year 1990 and $4,888,000 for the fiscal year 1991.

(5) OFFICE OF THE INSPECTOR GENERAL.—For "Office of the Inspector General", $21,000,000 for the fiscal year 1990 and $21,840,000 for the fiscal year 1991.

(6) PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN.—For "Payment to the American Institute in Taiwan", $11,300,000 for the fiscal

year 1990 and $11,752,000 for the fiscal year 1991.

(b) DIPLOMATIC SECURITY PROGRAM.—In addition to amounts authorized to be appropriated by subsection (a), the following amounts are authorized to be appropriated under "Administration of Foreign Affairs" for the fiscal years 1990 and 1991 for the Department of State to carry out the diplomatic security program:

(1) SALARIES AND EXPENSES.—For "Salaries and Expenses", $309,365,000 for the fiscal year 1990 and $361,995,000 for the fiscal year 1991.

(2) PROTECTION OF FOREIGN MISSIONS AND OFFICIALS.—For "Protection of Foreign Missions and Officials", $9,100,000 for the fiscal year 1990 and $9,464,000 for the fiscal year 1991.

(c) ALLOCATION FOR OFFICE OF MUNITIONS CONTROL.—Of the amounts authorized to be appropriated by this section, there shall be available only for the Office of Munitions Control of the Department of State for each of the fiscal years 1990 and 1991 such amount as is necessary to maintain at least 53 full-time equivalent personnel and any associated costs.

SEC. 102. INTERNATIONAL ORGANIZATIONS AND CONFERENCES.

(a) ASSESSED CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS.—

(1) There are authorized to be appropriated for "Contributions to International Organizations", $714,927,000 for the fiscal year 1990 and $817,000,000 for the fiscal year 1991 for the Department of State to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States with respect to international organizations and for other purposes authorized by law.

(2) Of the amounts authorized to be appropriated by paragraph (1), $1,249,000 for the fiscal year 1990 shall be available only for the South Pacific Commission.

(b) CONTRIBUTIONS TO INTERNATIONAL PEACEKEEPING ACTIVITIES.—There are authorized to be appropriated for "Contributions to International Peacekeeping Activities", $111,184,000 for the fiscal year 1990 and $115,000,000 for the fiscal year 1991 for the Department of State to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States with respect to international peacekeeping activities and for other purposes authorized by law.

(c) INTERNATIONAL CONFERENCES AND CONTINGENCIES.—(1) There are authorized to be appropriated for "International Conferences and Contingencies", $6,340,000 for the fiscal year 1990 and $7,300,000 for the fiscal year 1991 for the Department of State to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States with respect to international conferences and contingencies and for other purposes authorized by law.

(2) None of the funds authorized to be appropriated under paragraph (1), may be obligated or expended for any United States delegation to any meeting of the Conference on Security and Cooperation in Europe (CSCE) or meetings within the framework of the CSCE unless the United States delegation to any such meeting includes individuals representing the Commission on Security and Cooperation in Europe.

SEC. 103. INTERNATIONAL COMMISSIONS.

The following amounts are authorized to be appropriated under "International Commissions" for the Department of State to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States and for other purposes authorized by law:

(1) INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO.—For "International Boundary and Water Commission, United States and Mexico"—

(A) for "Salaries and Expenses" for the fiscal year 1990, $10,460,000 and, for the fiscal year 1991, $10,878,000; and

(B) for "Construction" for the fiscal year 1990, $11,500,000 and, for the fiscal year 1991, $11,900,000.

(2) INTERNATIONAL BOUNDARY COMMISSION, UNITED STATES AND CANADA.—For "International Boundary Commission, United States and Canada", $750,000 for the fiscal year 1990 and $780,000 for the fiscal year 1991.

(3) INTERNATIONAL JOINT COMMISSION.—For "International Joint Commission", $3,750,000 for the fiscal year 1990 and $3,900,000 for the fiscal year 1991.

(4) INTERNATIONAL FISHERIES COMMISSIONS.—For "International Fisheries Commissions", $11,000,000 for the fiscal year 1990 and $11,440,000 for the fiscal year 1991.

SEC. 104. MIGRATION AND REFUGEE ASSISTANCE.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for "Migration and Refugee Assistance"—

(1) for authorized activities, $415,000,000 for the fiscal year 1990 and $445,000,000 for the fiscal year 1991; and

(2) for each of the fiscal years 1990 and 1991 for assistance for refugees resettling in Israel, $25,000,000.

(b) AVAILABILITY OF FUNDS.—Funds appropriated pursuant to paragraph (1) or (2) of subsection (a) are authorized to remain available until expended.

SEC. 105. OTHER PROGRAMS.

The following amounts are authorized to be appropriated for the Department of State to carry out the authorities, functions, duties, and responsibilities in the conduct of the foreign affairs of the United States and for other purposes authorized by law:

(1) UNITED STATES BILATERAL SCIENCE AND TECHNOLOGY AGREEMENTS.—For "United States Bilateral Science and Technology Agreements", $4,000,000 for the fiscal year 1990 and $4,160,000 for the fiscal year 1991.

(2) SOVIET-EAST EUROPEAN RESEARCH AND TRAINING.—For "Soviet-East European Research and Training", $4,600,000 for the fiscal year 1990 and $5,200,000 for the fiscal year 1991.

SEC. 106. REDUCTION IN EARMARKS IF APPROPRIATIONS ARE LESS THAN AUTHORIZATIONS.

The State Department Basic Authorities Act of 1956 is amended by inserting after section 10 (22 U.S.C. 2677) the following new section:

"SEC. 11. REDUCTION IN EARMARKS IF APPROPRIATIONS ARE LESS THAN AUTHORIZATIONS.

"If the amount appropriated (or made available in the event of a sequestration order issued pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177; 2 U.S.C. 901 et seq.) for a fiscal year pursuant to any authorization of appropriations provided by an Act other than an appropriation Act is less than the authorization amount and a provision of that Act provides that a specified amount of the authorization amount shall be available only for a certain purpose, then the amount so specified shall be deemed to be reduced for that fiscal year to the amount which bears the same ratio to the specified amount as the amount appropriated (or made available in the event of sequestration) bears to the authorization amount.".

SEC. 107. AVAILABILITY OF FUNDS.

Section 24 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2696) is amended by adding after subsection (d) the following new subsection:

"(e) Amounts authorized to be appropriated for a fiscal year for the Department of State or to the Secretary of State are authorized to be obligated for twelve-month contracts which are to be performed in two fiscal years, if the total amount for such contracts is obligated in the earlier fiscal year.".

SEC. 108. RESTRICTION ON FUNDS FOR NEGOTIATIONS WITH CERTAIN PALESTINE LIBERATION ORGANIZATION REPRESENTATIVES.

Section 1302(b) of the International Security and Development Cooperation Act of 1985 (22 U.S.C. 2151), is amended by inserting before the period at the end thereof the following: ", except that no funds authorized to be appropriated by this or any other Act may be obligated or made available for the conduct of the current dialogue on the Middle East peace process with any representative of the Palestine Liberation Organization if the President knows and advises the Congress that that representative directly participated in the planning or execution of a particular terrorist activity which resulted in the death or kidnaping of a United States citizen".

SEC. 109. PROHIBITION ON CHANNELING OR DIVERTING FUNDS TO CARRY OUT ACTIVITIES FOR WHICH UNITED STATES ASSISTANCE IS PROHIBITED.

Chapter 1 of part III of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new section:

"SEC. 620F. PROHIBITION ON CHANNELING OR DIVERTING FUNDS TO CARRY OUT ACTIVITIES FOR WHICH UNITED STATES ASSISTANCE IS PROHIBITED.—

"(a) PROHIBITION.—(1) Whenever any provision of United States law expressly refers to this section and expressly prohibits all United States assistance, or all assistance under a specified United States assistance account, from being provided to any specified foreign region, country, government, group, or individual for all or specified activities, then no officer or employee of the Executive branch may—

"(A) receive, accept, hold, control, use, spend, disburse, distribute, or transfer any funds or property from any foreign government (including any instrumentality or agency thereof), foreign person, or United States person;

"(B) use any United States funds or facilities to assist any transaction whereby a foreign government (including any instrumentality or agency thereof), foreign person, or United States person provides any funds or property to any third party; or

"(C) provide any United States assistance to any third party,

if the purpose of any such act is the furthering or carrying out of the same activities, with respect to that region, country, government, group, or individual, for which United States assistance is expressly prohibited.

"(2) As used within the meaning of paragraph (1), assistance which is provided for the purpose of furthering or carrying out the same or similar activities for which United States assistance is expressly prohibited includes assistance provided under an arrangement conditioning, expressly or im-

pliedly, action by the recipient to further those activities.

"(b) PENALTY.—Any person who knowingly and willfully violates the provision of subsection (a)(1) shall be imprisoned not more than 5 years or fined in accordance with title 18, United States Code, or both.

"(c) PRESIDENTIAL NOTIFICATION.—(1) Whenever—

"(A) any provision of United States law described in subsection (a)(1) expressly refers to this section and expressly prohibits the provision of United States assistance for specified recipients or activities, and

"(B) any officer or employee of the Executive branch advocates, promotes, or encourages the provision of funds or property by any foreign government (including any instrumentality or agency thereof), foreign person, or United States person for the purpose of furthering or carrying out the same or similar activities with respect to such recipients,

then the President shall notify the Congress in a timely fashion that such advocacy, promotion, or encouragement has occurred. Such notification may be submitted in classified form.

"(2) Nothing in this subsection shall be construed as authorizing any action prohibited by subsection (a).

"(d) APPLICABILITY.—The provisions of this section shall not be superseded except by a provision of law enacted on or after the date of enactment of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991, which specifically repeals, modifies, or supersedes the provisions of this section.

"(e) CONSTRUCTION.—(1) Nothing in this section shall be construed to limit—

"(A) the ability of the President, the Vice President, or any officer or employee of the Executive branch to make statements or otherwise express his views to any party on any subject;

"(B) the ability of an officer or employee of the United States to express the publicly enunciated policies of the President; or

"(C) the ability of an officer or employee of the United States to communicate with any foreign country, government, group, or individual, either directly or through a third party, with respect to a prohibition on United States assistance covered by subsection (a)(1), including the reasons for such prohibitions, and the actions, terms, or conditions which might lead to the removal of such prohibition.

"(2) Nothing in this section shall be construed as waiving or otherwise derogating from any other provision of law imposing penalties or obligations with respect to any of the acts described in subparagraph (A), (B), or (C) of subsection (a)(1).

"(f) DEFINITIONS.—For purposes of this section—

"(1) the term 'person' includes (A) any natural person, (B) any corporation, partnership, or other legal entity, and (C) any organization, association, or other group;

"(2) the term 'United States assistance' means—

"(A) assistance of any kind under the Foreign Assistance Act of 1961;

"(B) sales, credits, and guaranties under the Arms Export Control Act;

"(C) export licenses issued under the Arms Export Control Act; and

"(D) activities authorized pursuant to the National Security Act of 1947 (50 U.S.C. 410 et seq.), the Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.), or Executive Order Number 12333 (December 4, 1981), excluding any activity involving the provision or sharing of intelligence information; and

"(3) the term 'United States assistance account' means an account corresponding to an authorization of appropriations for United States assistance.".

PART B—DEPARTMENT OF STATE AUTHORITIES AND ACTIVITIES; FOREIGN MISSIONS

SEC. 111. AUTHORIZATION OF CERTAIN OPERATIONAL ACTIVITIES.

Section 2 of the State Department Basic Authorities Act (22 U.S.C. 2669) is amended—

(1) in subsection (g), by striking out "and" at the end thereof;

(2) in subsection (h), by striking out the period at the end thereof and inserting in lieu thereof a semicolon; and

(3) by inserting after subsection (h) the following new subsections:

"(i) pay obligations assumed in Germany on or after June 5, 1945;

"(j) provide telecommunications services; and

"(k) provide maximum physical security in Government-owned and leased properties and vehicles abroad.".

SEC. 112. WORKING CAPITAL FUND FOR OFFICE OF FOREIGN MISSIONS.

Section 13(a) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684(a)) is amended—

(1) in the first sentence—

(A) by inserting "and" before "(4)"; and

(B) by striking out "; and (5) services and supplies to carry out title II of this Act"; and

(2) by inserting after the first sentence the following new sentence: "Such fund shall also be available without fiscal year limitation to carry out the purposes of title II of this Act".

SEC. 113. AUTHORITY OF DIPLOMATIC SECURITY SERVICE.

Section 37(a) of the State Department Basic Authorities Act (22 U.S.C. 2709(a)) is amended—

(1) in paragraph (2)—

(A) by striking out "and" at the end of subparagraph (A);

(B) by redesignating subparagraph (B) as subparagraph (C); and

(C) by inserting after subparagraph (A) the following new subparagraph:

"(B) make arrests without warrant for any offense concerning passport or visa issuance or use if the special agent has reasonable grounds to believe that the person has committed or is committing such offense, and"; and

(2) in paragraph (5), by amending the text preceding subparagraph (A) to read as follows:

"(5) arrest without warrant any person for a violation of section 111, 112, 351, 970, or 1028 of title 18, United States Code—".

SEC. 114. ACCESS TO CRIMINAL RECORDS.

Section 9101 of title 5, United States Code, is amended—

(1) in subsections (b)(1), (b)(3)(A), (b)(3)(B), and (c) by inserting "the Department of State," after "Defense," each place it appears; and

(2) by adding at the end thereof the following new subsection:

"(e) The authority provided under this section with respect to the Department of State may be exercised only so long as the Department of State continues to extend to its employees and applicants for employment, at a minimum, those procedural safeguards provided for as part of the security clearance process that were made available, as of May 1, 1987, pursuant to section 163.4 of volume 3 of the Foreign Affairs Manual.".

SEC. 115. ENHANCEMENT OF EVACUATION CAPABILITY AND PROCEDURES REGARDING MAJOR DISASTERS AND INCIDENTS ABROAD AFFECTING UNITED STATES CITIZENS.

(a) RESPONSIBILITY OF SECRETARY OF STATE.—Section 102(b) of the Diplomatic Security Act of 1986 (22 U.S.C. 4801(b)) is amended—

(1) by striking out "and" at the end of paragraph (4);

(2) by redesignating paragraph (5) as paragraph (6);

(3) by inserting after paragraph (4) the following new paragraph:

"(5) to set forth the responsibility of the Secretary of State with respect to the safe and efficient evacuation of United States Government personnel, their dependents, and private United States citizens when their lives are endangered by war, civil unrest, or natural disaster; and".

(b) DEVELOPMENT AND IMPLEMENTATION OF POLICIES.—Section 103 of the Diplomatic Security Act of 1986 (22 U.S.C. 4802) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively;

(2) by inserting after subsection (a) the following new subsection:

"(b) OVERSEAS EVACUATIONS.—The Secretary of State shall develop and implement policies and programs to provide for the safe and efficient evacuation of United States Government personnel, dependents, and private United States citizens when their lives are endangered. Such policies shall include measures to identify high risk areas where evacuation may be necessary and, where appropriate, providing staff to United States Government missions abroad to assist in those evacuations. In carrying out these responsibilities, the Secretary shall—

"(1) develop a model contingency plan for evacuation of personnel, dependents, and United States citizens from foreign countries;

"(2) develop a mechanism whereby United States citizens can voluntarily request to be placed on a list in order to be contacted in the event of an evacuation, or which, in the event of an evacuation, can maintain information on the location of United States citizens in high risk areas submitted by their relatives;

"(3) assess the transportation and communications resources in the area being evacuated and determine the logistic support needed for the evacuation; and

"(4) develop a plan for coordinating communications between embassy staff, Department of State personnel, and families of United States citizens abroad regarding the whereabouts of those citizens.".

(c) PROCEDURES REGARDING MAJOR DISASTERS AND INCIDENTS ABROAD.—The State Department Basic Authorities Act of 1956 (22 U.S.C. 2269 et seq.) is amended—

(1) by redesignating section 43 as section 44; and

(2) by adding after section 42 the following new section:

"SEC. 43. PROCEDURES REGARDING MAJOR DISASTERS AND INCIDENTS ABROAD AFFECTING UNITED STATES CITIZENS.

"In the case of a major disaster or incident abroad which affects the health and safety of citizens of the United States residing or traveling abroad, the Secretary of State shall provide prompt and thorough notification of all appropriate information concerning such disaster or incident and its effect on United States citizens to the next-of-kin of such individuals. Notification

shall be provided through the most expeditious means available, including telephone communications, and shall include timely written notice. The Secretary, through the appropriate offices of the Department of State, shall act as a clearinghouse for up-to-date information for the next-of-kin and shall provide other services and assistance. Assistance shall include liaison with foreign governments and persons and with United States air carriers concerning arrangements for the preparation and transport to the United States of the remains of citizens who die abroad, as well as disposition of personal effects.".

(d) DEVELOPMENT OF STANDARDIZED PROCEDURES.—

(1) The Secretary of State shall enter into discussions with international air carriers and other appropriate entities to develop standardized procedures which will assist the Secretary in implementing the provisions of section 43 of the State Department Basic Authorities Act of 1956, as amended by subsection (c).

(2) The Secretary of State shall consider the feasibility of establishing a toll-free telephone number to facilitate inquiries by the next-of-kin in cases of major disasters or incidents abroad which affect the health and safety of citizens of the United States residing or traveling abroad.

(e) REPORT TO CONGRESS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall prepare and submit a report to the Congress which sets forth plans for the implementation of the amendment made by subsection (c) and the provisions of subsection (d)(1), together with the Secretary's comments concerning the proposal under subsection (d)(2).

SEC. 116. ACQUISITION OF DOMESTIC PROPERTY AS INTERIM STEP TO ACQUIRING PROPERTY ABROAD.

(a) ADDITIONAL AUTHORITY FOR THE DIRECTOR OF THE OFFICE OF FOREIGN MISSIONS.—Section 203(c) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 4303(c)) is amended—

(1) by striking out "and" at the end of paragraph (2);

(2) by redesignating paragraph (3) as paragraph (4); and

(3) by inserting after paragraph (2) the following new paragraph:

"(3) dispose of property acquired in carrying out the purposes of this Act; and".

(b) PROVISION OF BENEFITS.—Section 204 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 4304) is amended—

(1) in subsection (b)—

(A) by striking out "or" at the end of paragraph (3);

(B) by inserting "or" at the end of paragraph (4);

(C) by inserting after paragraph (4) the following new paragraph:

"(5) subject to subsection (f), to implement an exchange of property between the Government of the United States and the government of a foreign country, such property to be used by each government in the respective receiving state for, or in connection with, diplomatic or consular establishments,"; and

(2) by adding at the end thereof the following new subsection:

"(f)(1) Upon a determination in each specific case by the Secretary of State or the Secretary's designee that the purpose of the Foreign Service Buildings Act, 1926, can best be met on the basis of an in-kind exchange of properties with a foreign country pursuant to subsection (b)(5), the Secretary of State may transfer funds made available under the heading 'Acquisition and Maintenance of Buildings Abroad' (including funds held in the Foreign Service Buildings Fund) for such purpose to the Working Capital Fund, as provided in section 208(h)(1). Except for funds that may be provided by a foreign government for the purchase of property, only funds transferred under the preceding sentence may be used for the purposes of subsection (b)(5).

"(2) The Secretary of State may acquire property in the United States for the purposes of subsection (b)(5) only in the context of a specific reciprocal agreement with a specified foreign government. Property acquired by the United States in the foreign country through such an exchange shall benefit the United States at least to the same extent as the property acquired in the United States benefits the foreign government.

"(3) The Secretary of State shall prescribe regulations for the implementation of any in-kind exchange of properties pursuant to subsection (b)(5).

"(4) At least 15 days before entering into any reciprocal agreement for the exchange of property with another foreign government, the Secretary of State shall notify the Committee on Foreign Affairs and the Committee on Public Works and Transportation of the House of Representatives and the Committee on Foreign Relations of the Senate.

"(5)(A) Proceeds from the disposition of properties acquired pursuant to this subsection shall be credited to the Foreign Service Buildings Fund (referred to in section 9 of the Foreign Service Buildings Act, 1926).

"(B) The authority to spend proceeds received under subparagraph (A) may be exercised only to such extent or in such amounts as are provided in advance in an appropriation Act.".

(c) CONFORMING AMENDMENT.—Section 9(a)(1) of the Foreign Service Buildings Act, 1926 (22 U.S.C. 300(a)(1)), is amended by inserting before the comma at the end thereof the following: "or in the United States pursuant to section 204(b)(5) of the State Department Basic Authorities Act of 1956".

SEC. 117. DEBT COLLECTION.

Title I of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2669 et seq.) is amended—

(1) by redesignating section 44 (as redesignated by section 115) as section 45; and

(2) by inserting after section 43 (as redesignated by section 115) the following:

"SEC. 44. DEBT COLLECTION.

"(a) CONTRACT AUTHORITY.—(1) Subject to the availability of appropriations, the Secretary of State shall enter into contracts for collection services to recover indebtedness owed by a person, other than a foreign country, to the United States which arises out of activities of the Department of State and is delinquent by more than 90 days.

"(2) Each contract entered into under this section shall provide that the person with whom the Secretary enters into such contract shall submit to the Secretary at least once every 180 days a status report on the success of the person in collecting debts. Section 3718 of title 31, United States Code, shall apply to any such contract to the extent that such section is not inconsistent with this subsection.

"(b) DISCLOSURE OF DELINQUENT DEBT TO CREDIT REPORTING AGENCIES.—The Secretary of State shall, to the extent otherwise allowed by law, disclose to those credit reporting agencies to which the Secretary reports loan activity information concerning any debt of more than $100 owed by a person, other than a foreign country, to the United States which arises out of activities of the Department of State and is delinquent by more than 31 days.".

SEC. 118. MUNITIONS CONTROL REGISTRATION FEES.

The State Department Basic Authorities Act of 1956 (22 U.S.C. 2269 et seq.) is amended—

(1) by redesignating section 45 (as redesignated by section 117) as section 46; and

(2) by inserting after section 44 (as redesignated by section 117) the following new section:

"SEC. 45. MUNITIONS CONTROL REGISTRATION FEES.

"(a) MUNITIONS CONTROL REGISTRATION FEES.—For each fiscal year, $500,000 of the registration fees collected by the Office of Munitions Control of the Department of State shall be credited to a Department of State account, to be available without fiscal year limitation. Fees credited to that account shall be available only for payment of expenses incurred for—

"(1) contract personnel to assist in the evaluation of munitions control license applications, reduction in processing time for license applications, and improved monitoring of compliance with the terms of licenses; and

"(2) the automation of munitions control functions and the processing of munitions control license applications, including the development, procurement, and utilization of computer equipment and related software.

"(b) BUDGET ACT COMPLIANCE.—The authority contained in subsection (a) shall be exercised to such extent and in such amounts as are to be provided in an appropriation Act.".

SEC. 119. FEES AND REIMBURSEMENTS.

The State Department Basic Authorities Act of 1956 is amended—

(1) by redesignating section 46 (as redesignated by section 118) as section 47; and

(2) by inserting after section 45 (as redesignated by section 118) the following new section:

"SEC. 46. FEES RECEIVED FOR USE OF BLAIR HOUSE.

"(a) USE OF FEES.—Notwithstanding any other provision of law, for the fiscal years 1990 and 1991, funds received by the Department of State in connection with use of Blair House (including reimbursements and surcharges for services and goods provided and fees for use of Blair House facilities) may be credited to the appropriate appropriation account of the Department of State which is currently available. Such funds shall be available only for maintenance and other expenses of Blair House.

"(b) COMPLIANCE WITH THE BUDGET ACT.—The authority of this section may be exercised only to such extent or in such amounts as are provided in advance in an appropriation Act.".

SEC. 120. INTERNATIONAL CENTER.

Section 4 of the International Center Act (Public Law 90-553, as amended) is amended by adding at the end thereof the following new subsection:

"(c)(1)(A) The Department of State is authorized to require the payment of a fee by other executive agencies of the United States for the lease or use of facilities located at the International Center which are used for the purposes of security and maintenance. Any payments received for lease or use of such facilities shall be credited to the account entitled 'International Center, Washington,

District of Columbia' and shall be available, without fiscal year limitation, to cover the operation and maintenance expenses of such facilities, including administration, maintenance, utilities, repairs, and alterations.

"(B) The authority of subparagraph (A) shall be exercised only to such extent or in such amounts as are provided in advance in an appropriation Act.

"(2) For purposes of paragraph (1), the term 'Executive agencies' is used within the meaning of section 105 of title 5, United States Code.".

SEC. 121. CLOSING OF DIPLOMATIC AND CONSULAR POSTS IN ANTIGUA AND BARBUDA.

Section 123 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) is repealed.

SEC. 122. SUBMISSION OF ANNUAL COUNTRY REPORTS ON TERRORISM.

Section 140(a) of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) is amended by striking out "March 31" and inserting in lieu thereof "April 30".

SEC. 123. CONSULAR OFFICER DUTIES.

Section 31 of the Act of June 22, 1860 (12 Stat. 79; 22 U.S.C. 4192), relating to the solemnization of marriages, is repealed.

SEC. 124. OPENING A UNITED STATES CONSULATE IN BRATISLAVA.

(a) FINDINGS.—The Congress finds that—

(1) the State Department's "special consulate" concept offers a model for reopening a consulate in Bratislava, Czechoslovakia, at modest cost and with significant public diplomacy and political benefits;

(2) the United States still owns the old consulate building and in 1987-1988 spent about $500,000 to renovate parts of the building;

(3) the building has been productively used for trade and cultural events, but could be more effectively used by restoring it to its original purpose as the locus of official United States representation in the Slovak capital;

(4) Slovakia has been the source of the largest and most recent wave of Czechoslovak emigration to the United States and approximately three and one-half million Americans are of Slovak heritage;

(5) American tourists in Slovakia, many visiting relatives, often require consular assistance and this consular support could best be provided by a consulate in Bratislava;

(6) Slovaks account for more than half of all Czechoslovak tourist travel to the United States and this travel, which should be encouraged, could be expedited by a United States consulate in Bratislava;

(7) the Slovak underground Catholic Church is one of the most vibrant religious forces in Czechoslovakia and each year tens of thousands of Catholics make pilgrimages to Slovakia;

(8) American outreach efforts in Slovakia have been hindered by the absence of a constant and direct American presence in Bratislava; and

(9) with its Hungarian, Polish, and Ukrainian minorities, a United States consulate in Bratislava would provide important information on both regional and local developments.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that the President should take all practicable steps to reopen the United States consulate in Bratislava, Czechoslovakia.

SEC. 125. CONSTRUCTION OF UNITED STATES EMBASSY IN OTTAWA.

Section 402(a) of the Diplomatic Security Act (22 U.S.C. 4852(a)) shall not apply to the construction or renovation of the United States Embassy in Ottawa, Canada.

SEC. 126. VOLUNTARY PILOT PROGRAM FOR INCREASED PARTICIPATION BY ECONOMICALLY AND SOCIALLY DISADVANTAGED ENTERPRISES IN FOREIGN RELATIONS ACTIVITIES.

(a) ESTABLISHMENT OF PILOT PROGRAM FOR VOLUNTARY SET-ASIDES.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State (in consultation with the Director of the United States Information Agency) shall prepare and transmit a detailed plan for the establishment for the fiscal years 1990 and 1991 of a pilot program of voluntary set-asides for increased participation, to the extent practicable, by economically and socially disadvantaged enterprises in programs and activities of the Department of State and the United States Information Agency to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

(b) CONTENTS OF PLAN.—Such plan shall include—

(1) a description of where such pilot program will be located in each such agency's organizational structure and what relevant lines of authority will be established;

(2) a listing of the specific responsibilities that will be assigned to the pilot program to enable it to increase, to the extent practicable and in a rational and effective manner, participation of economically and socially disadvantaged enterprises in activities funded by such agencies;

(3) a detailed design for a time-phase system for bringing about expanded participation, to the extent practicable, by economically and socially disadvantaged enterprises, including—

(A) specific recommendations for percentage allocations of contracts, subcontracts, procurement, grants, and research and development activities by such agencies to such enterprises; and

(B) particular consideration of the participation of economically and socially disadvantaged enterprises in activities in the areas of communications, telecommunications, and information systems;

(4) a proposed reporting system that will permit objective measuring of the degree of participation of economically and socially disadvantaged enterprises in comparison to the total activities funded by such agencies;

(5) a detailed projection of the administrative budgetary impact of the establishment of the pilot program; and

(6) a detailed set of objective criteria upon which determinations will be made as to the qualifications of economically and socially disadvantaged enterprises to receive contracts funded by such agencies.

(c) OBJECTIVES.—The objective of the pilot program shall be to increase the participation, to the extent practicable, of economically and socially disadvantaged business enterprises in contract, procurement, grant, and research and development activities funded by the agencies.

(d) RESPONSIBILITIES.—The pilot program shall—

(1) establish, maintain, and disseminate information to, and otherwise serve as an information clearinghouse for, economically and socially disadvantaged business enterprises regarding business opportunities funded by the agencies;

(2) design and conduct projects to encourage, promote, and assist economically and socially disadvantaged business enterprises to secure direct contracts, host country contracts, subcontracts, grants, and research and development contracts in order for such enterprises to participate in programs funded by the Department of State and the United States Information Agency;

(3) conduct market research, planning, economic and business analyses, and feasibility studies to identify business opportunities funded by such agencies;

(4) develop support mechanisms which will enable socially and economically disadvantaged enterprises to take advantage of business opportunities in programs funded by such agencies; and

(5) enter into such contracts (to such extent or in such amounts as are provided in advance in appropriation Acts), cooperative agreements, or other transactions as may be necessary in the conduct of its functions under this section.

(e) RESPONSIBILITIES OF THE SECRETARY.—The Secretary of State (after consultation with the Director of the United States Information Agency) shall provide the pilot program with such relevant information, including procurement schedules, bids, and specifications with respect to programs funded by the Department of State and the United States Information Agency, as may be requested by the pilot program in connection with the performance of its functions under this section.

(f) DEFINITIONS.—

(1) For the purposes of this section, the term "economically and socially disadvantaged enterprise" means a business—

(A) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals or, in the case of a publicly-owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and

(B) whose management and daily business operations are controlled by one or more such individuals.

(2) Socially disadvantaged individuals are those who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of a group without regard to their individual qualities.

(3) Economically disadvantaged individuals are those socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same business area who are not socially disadvantaged. In determining the degree of diminished credit and capital opportunities, the Administrator of the agency shall consider, but not be limited to, the assets and net worth of the socially disadvantaged individual.

(g) REPORTS TO CONGRESS.—For each of the fiscal years 1990 and 1991, the Secretary of State shall prepare and submit a report concerning the implementation of the pilot program under this section to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

SEC. 127. REPORT ON REORGANIZATION OF THE DEPARTMENT OF STATE.

(a) FINDINGS.—The Congress makes the following findings:

(1) The Department of State is currently reviewing its organizational structure.

(2) Each of the geographical bureaus deals with a large number of countries and often a broad diversity of cultures, nationalities, and ethnic divisions.

(3) The territory covered by the Bureau of Near Eastern and South Asian Affairs, for example, stretches from the Atlantic coast of Morocco to the Bay of Bengal, includes 25 countries, more than a billion people, a number of regional disputes, and several cultural and linguistic divisions. The Bureau of Inter-American Affairs has within its jurisdiction 33 countries, including Mexico, the nations of the Caribbean Basin, and Central and South America.

(4) Among the most pressing international issues is the prospect for global warming. Over the next few years, American leadership at the international level will be crucial to worldwide efforts to ensure that global warming does not occur. The Department of State will need to consider appropriate steps to prepare for the leadership role of the United States.

(5) The United States continues to face a foreign intelligence threat, including the danger to United States diplomatic missions. The Department of State will need to improve its ability to detect and prevent intelligence penetration of United States missions abroad.

(b) REPORT.—Not later than February 3, 1990, the Secretary of State shall submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report assessing the advisability of reorganization of its regional and functional bureaus. The report shall include, but not be limited to, an assessment of the advisability of two bureaus to cover the present responsibilities of the Bureau of Inter-American Affairs, an office of Diplomatic Security to be headed by an Under Secretary-level Director of Diplomatic Security, and an Office of Global Warming within the Bureau of Oceans, International Environmental and Scientific Affairs. The report shall also include an assessment of the advisability of transferring the jurisdictional responsibility for the Organization of American States from the Bureau of International Organizations to the Bureau of Inter-American Affairs, and of creating a high-level coordinator for United States policy toward Mexico. In the context of the report required by this subsection, it is the sense of the Congress that the Secretary of State should give serious consideration to the establishment of a Bureau of South Asian Affairs within the Department of State.

SEC. 128. PROHIBITION ON EXCLUSION OR DEPORTATION OF NONIMMIGRANT ALIENS ON CERTAIN GROUNDS.

(a) TECHNICAL CORRECTION.—Section 901 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (8 U.S.C. 1182 note) is amended in subsection (a) by inserting "subject to restrictions or conditions on entry into the United States," after "United States," the first place it appears.

(b) REPEAL OF TERMINATION PROVISION.—Subsection (d) of section 901 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (8 U.S.C. 1182 note) is repealed.

PART C—DIPLOMATIC IMMUNITY, RECIPROCITY, AND SECURITY

SEC. 131. EXCLUSION OF ALIENS PREVIOUSLY INVOLVED IN SERIOUS CRIMINAL OFFENSES COMMITTED IN THE UNITED STATES.

(a) GROUNDS OF EXCLUSION.—Section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182(a)) is amended—

(1) by striking out the period at the end of paragraph (33) and inserting in lieu thereof a semicolon; and

(2) by adding after paragraph (33) the following new paragraph:

"(34) Any alien who has committed in the United States any serious criminal offense, as defined in section 101(h), for whom immunity from criminal jurisdiction was exercised with respect to that offense, who as a consequence of the offense and the exercise of immunity has departed the United States, and who has not subsequently submitted fully to the jurisdiction of the court in the United States with jurisdiction over the offense.".

(b) DEFINITION.—Section 101 of the Immigration and Nationality Act (8 U.S.C. 1101) is amended by adding at the end thereof the following new subsection:

"(h) For purposes of section 212(a)(34), the term 'serious criminal offense' means—

"(1) any felony;

"(2) any crime of violence, as defined in section 16 of title 18 of the United States Code; or

"(3) any crime of reckless driving or of driving while intoxicated or under the influence of alcohol or of prohibited substances if such crime involves personal injury to another.".

(c) WAIVER.—Section 212(h) of the Immigration and Nationality Act (8 U.S.C. 1182(h)) is amended by striking out "or (12)" and inserting in lieu thereof "(12), or (34)".

(d) REPORT CONCERNING COMPENSATION AND DIPLOMATIC IMMUNITY.—(1) Not later than 180 days after the date of enactment of this Act, the Secretary of State shall prepare and submit to the appropriate committees of the Congress a report which considers the need and feasibility of establishing a program which makes compensation awards to United States citizens and permanent resident aliens in the United States for physical injury or financial loss which is the result of criminal activity reasonably believed to have been committed by individuals with immunity from criminal jurisdiction as a result of international obligations of the United States arising from multilateral agreements, bilateral agreements, or otherwise under international law.

(2) Together with such other information as the Secretary of State considers appropriate, the report shall include—

(A) a plan and feasibility analysis for the establishment of such a program, including—

(i) specific recommendations for funding, administration, and procedures and standards for compensation and payment of awards; and

(ii) particular consideration of the feasibility of an appeals mechanism;

(B) an assessment of—

(i) the feasibility of establishing a fund;

(ii) the availability of existing accounts; or

(iii) other sources of funding for the program; and

(C) consideration of other possible mechanisms for compensation or reimbursement, including direct compensation by the individual with immunity from criminal jurisdiction or by the sending country of that individual.

SEC. 132. MODIFICATION OF PREFERENCE FOR UNITED STATES CONTRACTORS IN DIPLOMATIC CONSTRUCTION PROGRAM.

Section 402(a) of the Diplomatic Security Act (22 U.S.C. 4852) is amended in paragraph (2) to read as follows:

"(2) bid on a diplomatic construction or design project which involves physical or technical security, unless the project—

"(A) involves nonsophisticated, low-level technology, as determined by the Assistant Secretary for Diplomatic Security;

"(B) is for the design or construction of a facility that does not process or store classified material; and

"(C) does not exceed a total value of $500,000.".

SEC. 133. USE OF CLEARED PERSONNEL TO ENSURE SECURE MAINTENANCE AND REPAIR OF DIPLOMATIC FACILITIES ABROAD.

(a) IN GENERAL.—Title IV of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 is amended by adding at the end thereof the following new section:

"SEC. 415. USE OF CLEARED PERSONNEL TO ENSURE SECURE MAINTENANCE AND REPAIR OF DIPLOMATIC FACILITIES ABROAD.

"(a) POLICIES AND REGULATIONS.—The Secretary of State shall develop and implement policies and regulations to provide for the use of persons who have been granted an appropriate United States security clearance to ensure that the security of areas intended for the storage of classified materials or the conduct of classified activities in a United States diplomatic mission or consular post abroad is not compromised in the performance of maintenance and repair services in those areas.

"(b) STUDY AND REPORT.—The Secretary of State shall conduct a study of the feasibility and necessity of requiring that, in the case of certain United States diplomatic facilities abroad, no contractor shall be hired to perform maintenance or repair services in an area intended for the storage of classified materials or the conduct of classified activities unless such contractor has been granted an appropriate United States security clearance. Such study shall include, but is not limited to, United States facilities located in Cairo, New Delhi, Riyadh, and Tokyo. Not later than 180 days after the date of the enactment of this section, the Secretary of State shall report the results of such study to the Chairman of the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives.".

(b) CONFORMING AMENDMENT TO TABLE OF CONTENTS.—The table of contents for the Omnibus Diplomatic Security and Antiterrorism Act of 1986 is amended by inserting after the item relating to section 414 the following new item:

"Sec. 415. Use of cleared personnel to ensure secure maintenance and repair of diplomatic facilities abroad.".

SEC. 134. UNITED STATES-SOVIET RECIPROCITY IN MATTERS RELATING TO EMBASSIES.

(a) WAIVER OF RESTRICTION REGARDING SOVIET CONSULATES IN THE UNITED STATES.—(1) Notwithstanding section 153(b) of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) and subject to paragraph (2), the Secretary of State may allow the Soviet mission to the United States to occupy, on the basis of reciprocity, a consulate facility in the United States.

(2) Paragraph (1) shall apply only after the Secretary of State certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate that the United States mission in Kiev is able to occupy an interim facility intended for the conduct of unclassified activities.

(b) REPORTS TO CONGRESS.—Not later than January 30, 1991, the Secretary of State shall develop and submit to the Congress a

long-term plan for acquiring secure permanent facilities for the United States mission in Kiev, together with a budget proposal to implement such plan.

SEC. 135. CONSTRUCTION SECURITY CERTIFICATION.

Section 160(a) of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) is amended—

(1) in the text preceding paragraph (1), by inserting "or approving occupancy of a similar facility for which construction or major renovation began before the effective date of this section," after "activities,";

(2) at the end of paragraph (1), by striking out "and";

(3) at the end of paragraph (2), by striking out the period and inserting in lieu thereof "; and"; and

(4) by inserting after paragraph (2) the following new paragraph:

"(3) a plan has been put into place for the continued evaluation and maintenance of adequate security at such facility, which plan shall specify the physical security methods and technical countermeasures necessary to ensure secure operations, including any personnel requirements for such purposes.".

SEC. 136. INCREASED PARTICIPATION OF UNITED STATES CONTRACTORS IN LOCAL GUARD CONTRACTS ABROAD UNDER THE DIPLOMATIC SECURITY PROGRAM.

(a) FINDINGS.—The Congress makes the following findings:

(1) State Department policy concerning the advertising of security contracts at Foreign Service buildings has been inconsistent over the years. In many cases, diplomatic and consular posts abroad have been given the responsibility to determine the manner in which the private sector was notified concerning an invitation for bids or a request for proposals with respect to a local guard contract. Some United States foreign missions have only chosen to advertise locally the availability of a local security guard contract abroad.

(2) As a result, many United States security firms that provide local guard services abroad have been unaware that local guard contracts were available for bidding abroad and such firms have been disadvantaged as a result.

(3) Undoubtedly, United States security firms would be interested in bidding on more local guard contracts abroad if such firms knew of the opportunity to bid on such contracts.

(b) OBJECTIVE.—It is the objective of this section to improve the efficiency of the local guard programs abroad administered by the Bureau of Diplomatic Security of the Department of State and to ensure maximum competition for local guard contracts abroad concerning Foreign Service buildings.

(c) PARTICIPATION OF UNITED STATES CONTRACTORS IN LOCAL GUARD CONTRACTS ABROAD.—With respect to local guard contracts for a Foreign Service building which exceed $250,000 and are entered into after the date of enactment of this Act, the Secretary of State shall—

(1) establish procedures to ensure that all solicitations for such contracts are adequately advertised in the Commerce and Business Daily;

(2) establish procedures to ensure that appropriate measures are taken by diplomatic and consular post management to assure that United States persons and qualified United States joint venture persons are not disadvantaged during the solicitation and bid evaluation process due to their distance from the post; and

(3) give preference to United States persons and qualified United States joint venture persons where such persons are price competitive to the non-United States persons bidding on the contract, are properly licensed by the host government, and are otherwise qualified to carry out all the terms of the contract.

(d) DEFINITIONS.—For the purposes of this section—

(1) the term "United States person" means a person which—

(A) is incorporated or legally organized under the laws of the United States, including the laws of any State, locality, or the District of Columbia;

(B) has its principal place of business in the United States;

(C) has been incorporated or legally organized in the United States for more than 2 years before the issuance date of the invitation for bids or request for proposals with respect to the contract under subsection (c);

(D) has performed within the United States and overseas security services similar in complexity to the contract being bid;

(E) with respect to the contract under subsection (c), has achieved a total business volume equal to or greater than the value of the project being bid in 3 years of the 5-year period before the date specified in subparagraph (C);

(F)(i) employs United States citizens in at least 80 percent of its principal management positions in the United States; and

(ii) employs United States citizens in more than half of its permanent, full-time positions in the United States; and

(G) has the existing technical and financial resources in the United States to perform the contract;

(2) the term "qualified United States joint venture person" means a joint venture in which a United States person or persons owns at least 51 percent of the assets of the joint venture; and

(3) the term "Foreign Service building" means any building or grounds of the United States which is in a foreign country and is under the jurisdiction and control of the Secretary of State, including residences of United States personnel assigned overseas under the authority of the Ambassador.

(e) UNITED STATES MINORITY CONTRACTORS.—Not less than 10 percent of the amount of funds obligated for local guard contracts for Foreign Service buildings subject to subsection (c) shall be allocated to the extent practicable for contracts with United States minority small business contractors.

(f) UNITED STATES SMALL BUSINESS CONTRACTORS.—Not less than 10 percent of the amount of funds obligated for local guard contracts for Foreign Service buildings subject to subsection (c) shall be allocated to the extent practicable for contracts with United States small business contractors.

(g) LIMITATION OF SUBCONTRACTING.—With respect to local guard contracts subject to subsection (c), a prime contractor may not subcontract more than 50 percent of the total value of its contract for that project.

PART D—PERSONNEL

SEC. 141. AUTHORITY TO TRANSFER RETIREMENT CONTRIBUTIONS FOR FOREIGN SERVICE NATIONALS TO LOCAL PLANS.

(a) LOCAL COMPENSATION PLANS.—Section 408(a) of the Foreign Service Act of 1980 (22 U.S.C. 3968(a)) is amended by inserting at the end thereof the following new paragraph:

"(3)(A) Whenever a foreign national employee so elects during a one-year period established by the Secretary of State with respect to each post abroad, the Secretary of the Treasury (at the direction of the Secretary of State) shall transfer such employee's interest in the Civil Service Retirement and Disability Fund to a trust or other local retirement plan certified by the United States Government under a local compensation plan established for foreign national employees pursuant to this section (excluding local social security plans).

"(B) For purposes of subparagraph (A), the phrase "employee's interest in the Civil Service Retirement and Disability Fund" means the total contributions of the employee and the employing agency with respect to such employee, pursuant to sections 8331(8) and 8334(a)(1) of title 5, United States Code, respectively, plus interest at the rate provided in section 8334(e)(3) of such title.

"(C) Any such transfer shall void any annuity rights or entitlement to lump-sum credit under subchapter III of chapter 83 of such title.".

(b) TRANSFER AS CONSTITUTING FINAL PAYMENT.—Section 8345 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(l) Transfers of contributions and deposits authorized by section 408(a)(3) of the Foreign Service Act of 1980 shall be deemed to be a complete and final payment of benefits under this chapter.".

(c) The transfer of an employee's interest in the Civil Service Retirement and Disability Fund shall occur after October 1, 1990.

SEC. 142. DISQUALIFICATION FOR SERVICE ON FOREIGN SERVICE SELECTION BOARDS.

Section 602 of the Foreign Service Act of 1980 (22 U.S.C. 4002) is amended by adding at the end thereof the following:

"(c) No public members appointed pursuant to this section may be, at the time of their appointment or during their appointment, an agent of a foreign principal (as defined by section 1(b) of the Foreign Agents Registration Act of 1938) or receive income from a government of a foreign country.".

SEC. 143. SEPARATION FOR CAUSE; JUDICIAL REVIEW.

(a) AVAILABILITY OF JUDICIAL REVIEW.—Section 610(a)(2) of the Foreign Service Act of 1980 (22 U.S.C. 4010(a)(2)) is amended by adding at the end thereof the following new sentence: "Section 1110 shall apply to proceedings under this paragraph.".

(b) SEPARATION DUE TO CRIMINAL CONVICTION.—Section 610(a)(2) of the Foreign Service Act of 1980 (22 U.S.C. 4010) is amended by inserting at the end of the first sentence before the period the following: "or, notwithstanding section 1106(8) of this Act, unless the member has been convicted of a crime related to the cause for separation, subject to reinstatement with back pay (for any period during which separation for cause had not been established by such a hearing) if such conviction is reversed on appeal".

SEC. 144. VISITING SCHOLARS PROGRAM FOR THE FOREIGN SERVICE INSTITUTE.

(a) IN GENERAL.—Chapter 7 of title I of the Foreign Service Act of 1980 is amended by adding at the end thereof the following new section:

"SEC. 707. VISITING SCHOLARS PROGRAM.

"(a) ESTABLISHMENT OF PROGRAM.—There is authorized to be established at the Foreign Service Institute a program whereby selected scholars would participate fully in the educational and training activities of the Institute. This program may be referred to as the 'Visiting Scholars Program'.

"(b) SELECTION AND APPOINTMENT OF SCHOLARS.—

"(1) Scholars participating in the Visiting Scholars Program shall be selected by a five-member board described in subsection (c).

"(2) Each visiting scholar shall serve a term of one year, except that such term may be extended for one additional one-year period.

"(c) ESTABLISHMENT OF SELECTION BOARD.—The board referred to in subsection (b) shall be composed of the Director of the Foreign Service Institute, who shall serve as chairperson, and four other members appointed by the Secretary of State.".

(b) AMENDMENT TO TABLE OF CONTENTS.—The table of contents of the Foreign Service Act of 1980 is amended by inserting after the item relating to section 706 the following new item:

"Sec. 707. Visiting Scholars Program.".

SEC. 145. CREDIT FOR SERVICE AT UNHEALTHFUL POSTS.

(a) APPLICATION TO DETERMINATIONS OF ELIGIBILITY FOR FORMER SPOUSES.—Section 816(i)(2) of the Foreign Service Act of 1980 (22 U.S.C. 4056(i)(2)) is amended to read as follows:

"(2) A former spouse shall not be considered as married to a participant for periods assumed to be creditable service under section 808(a) or section 809(e).".

(b) TERMINATION OF EXTRA CREDIT FOR SERVICE AT UNHEALTHFUL POSTS.—Section 817 of such Act (22 U.S.C. 4057) is amended by adding at the end thereof the following new sentences: "Such extra credit may not be used to determine the eligibility of a person to qualify as a former spouse under this subchapter, or to compute the pro rata share under section 804(10). No extra credit for service at unhealthful posts may be given under this section for any service as part of a tour of duty, or extension thereof, beginning on or after the date of enactment of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991.".

SEC. 146. FORMER SPOUSES OF UNITED STATES INFORMATION AGENCY AND AGENCY FOR INTERNATIONAL DEVELOPMENT EMPLOYEES.

(a) RETIREMENT BENEFITS FOR CERTAIN FORMER SPOUSES.—Section 830 of the Foreign Service Act of 1980 (22 U.S.C. 4069a) (relating to retirement benefits for certain former spouses) is amended by adding at the end the following new subsection:

"(f) Any individual who on February 14, 1981, was an otherwise qualified former spouse pursuant to this section, but who was married to a former Foreign Service employee of the United States Information Agency or of the Agency for International Development, shall be entitled to benefits under this section if—

"(1) the former employee retired from the Civil Service Retirement and Disability System on a date before his employing agency could legally participate in the Foreign Service Retirement and Disability System; and

"(2) the marriage included at least five years during which the employee was assigned overseas.".

(b) SURVIVOR BENEFITS FOR CERTAIN FORMER SPOUSES.—Section 831 of the Foreign Service Act of 1980 (22 U.S.C. 4069b) (relating to survivor benefits for certain former spouses) is amended by adding at the end the following new subsection:

"(g) Any individual who on February 14, 1981, was an otherwise qualified former spouse pursuant to this section, but who was married to a former Foreign Service employee of the United States Information Agency or of the Agency of International Development, shall be entitled to benefits under this section if—

"(1) the former employee retired from the Civil Service Retirement and Disability System on a date before his employing agency could legally participate in the Foreign Service Retirement and Disability System; and

"(2) the marriage included at least five years during which the employee was assigned overseas.".

(c) HEALTH BENEFITS FOR CERTAIN FORMER SPOUSES.—Section 832 of the Foreign Service Act of 1980 (22 U.S.C. 4069c) (relating to health benefits for certain former spouses) is amended by adding at the end the following new subsection:

"(f) Any individual who on February 14, 1981, was an otherwise qualified former spouse pursuant to subsections (a), (b), and (c) of this section, but who was married to a former Foreign Service employee of the United States Information Agency or of the Agency for International Development, shall be entitled to benefits under this section if—

"(1) the former employee retired from the Civil Service Retirement and Disability System on a date before his employing agency could legally participate in the Foreign Service Retirement and Disability System; and

"(2) the marriage included at least five years during which the employee was assigned overseas.".

SEC. 147. CHILD CARE FACILITIES AT CERTAIN POSTS ABROAD.

Section 31 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684) is amended by adding at the end thereof the following new subsection:

"(e) For the fiscal years 1990 and 1991, the Secretary of State may make grants to child care facilities, to offset in part the cost of such care, in Moscow and at no more than five other posts abroad where the Secretary determines that due to extraordinary circumstances such facilities are necessary to the efficient operation of the post. In making that determination, the Secretary shall take into account factors such as—

"(1) whether Foreign Service spouses are encouraged to work at the post because—

"(A) the number of members of the post is subject to a ceiling imposed by the receiving country; and

"(B) Foreign Service nationals are not employed at the post; and

"(2) whether local child care is available.".

SEC. 148. TRAVEL, LEAVE, AND OTHER BENEFITS.

Section 901(9) of chapter 9 of the Foreign Service Act of 1980 (22 U.S.C. 4081(9)) is amended to read as follows:

"(9) roundtrip travel to or from an employee's post of assignment for purposes of family visitation in emergency situations involving personal hardship, except that payment for travel by family members to an employee's post of assignment may be authorized under this paragraph only where the family of the member is prevented by official order from residing at such post.".

SEC. 149. FOREIGN SERVICE INTERNSHIP PROGRAM.

(a) FINDINGS.—The Congress makes the following findings:

(1) On September 3, 1986, George Shultz, as Secretary of State, issued a statement containing 32 directives concerning equal opportunity in the Foreign Service. In his statement Secretary Shultz affirmed that it was of "fundamental importance that the Foreign Service truly represent the cultural and ethnic diversity of our own society", and indicated that the lack of such balanced representation was "a foreign policy problem which affects our image as a nation and as a leader of the free world". Secretary Shultz stated "that representation of women and minorities in the Foreign Service is still unacceptably low" and declared that he was "particularly concerned at the small number of Blacks in the Senior Foreign Service".

(2) The Secretary approved 32 recommendations included with the statement regarding recruitment, assignments, performance evaluations, and equal employment opportunity procedures within the Foreign Service. The recommendations of Secretary of State Shultz included—

(A) the targeting of historically Black American colleges and universities for special recruitment efforts, including specific information on how to apply for the Foreign Service examination, the testing process, and the mechanics of entry;

(B) independent review of the written exam for any cultural bias against African Americans;

(C) the inclusion of more African Americans on the board of examiners panels;

(D) investigation of methods to increase African American enrollment in university courses which might improve an applicant's chances of passing the written exam;

(E) development of new recruitment strategies;

(F) the assignment of more African American officers to senior (and visible) role model positions; and

(G) the recruitment of more African American officers into the political and economic cones of the Foreign Service.

(3) During the past 7 years, equal opportunity programs to attract women and minorities to the Foreign Service have been most successful in recruiting women and Asian Americans. Such programs have been less than successful in the recruitment of African Americans, Hispanic Americans, and Native Americans. In 1982, 188 new recruits were appointed to the Foreign Service, 48 were minority appointments constituting 26 percent. In 1985 the number of new appointments had increased 33 percent to 281, but minorities comprised only 10.3 percent of such appointments, a total of 29.

(4) For African Americans and Hispanics the trend of hiring in the Foreign Service is disconcerting. Nineteen African Americans were appointed to the Foreign Service in 1983, in 1987 only 10 African Americans were appointed. Hispanic appointments ranged from 12 in 1983 to 8 in 1985 to 15 in 1987. For Native Americans the Foreign Service statistics are ominous, 5 appointments in 1983, 1 in 1984, and no appointments in 1985, 1986, or 1987.

(5) The severe underrepresentation in the Foreign Service of individuals from certain cultural and ethnic groups is in large part due to the small pool of applicants from such groups. In each year from 1982 through 1987, minority applicants represented 14 to 17 percent of the total applicants and only 50 percent of such applicants took the written exam. In 1987, 1,769 minority applicants took the written exam, 191 passed, and 36 were actually appointed to the Foreign Service.

(6) The absolute and relative decline in the appointment to the Foreign Service of certain minorities who reflect the cultural and ethnic diversity of the United States dictates that more aggressive equal opportunity programs be established to facilitate the recruitment and appointment of such individuals.

(b) ESTABLISHMENT.—Title I of the Foreign Service Act of 1980 is amended by adding at the end the following new chapter:

"CHAPTER 12—FOREIGN SERVICE INTERNSHIP PROGRAM

"SEC. 1201. STATEMENT OF POLICY; OBJECTIVES.

"(a) STATEMENT OF POLICY.—Consistent with the findings of section 101, the Foreign Service of the United States should be representative of the American people. In order to facilitate and encourage the entry into the Foreign Service of individuals who meet the rigorous requirements of the Service, while ensuring a Foreign Service system which reflects the cultural and ethnic diversity of the United States, intensive recruitment efforts are mandated. This is particularly true for Native Americans, African Americans, and Hispanic Americans, where other affirmative action and equal opportunity efforts have not been successful in attracting the ablest applicants for entry into the Foreign Service. The United States remains committed to equal opportunity and to a Foreign Service system operated on the basis of merit principles.

"(b) OBJECTIVES.—The objective of this chapter is to strengthen and improve the Foreign Service of the United States through the establishment of a Foreign Service Internship Program. The program shall promote the Foreign Service as a viable and rewarding career opportunity for qualified individuals who reflect the cultural and ethnic diversity of the United States through a highly-selective internship program for students enrolled in institutions of higher education.

"SEC. 1202. FOREIGN SERVICE INTERNSHIP PROGRAM.

"(a) ESTABLISHMENT.—In consultation with the heads of other agencies utilizing the Foreign Service system, the Secretary of State shall establish a Foreign Service internship program to carry out the objectives of this chapter in accordance with the provisions of this chapter.

"(b) FOREIGN SERVICE INTERNSHIP PROGRAM.—The program shall introduce interns to the practice of diplomacy and the unique rewards of the Foreign Service. The program shall consist of three successive summer internships of not less than eight weeks duration in each year to be completed over the course of not more than four years. Special emphasis shall be given to preparing the intern for the Foreign Service examination process. In each year not less than 10 interns shall enter the program.

"(c) ELIGIBILITY TO PARTICIPATE.—

"(1) Students enrolled full-time in institutions of higher education from groups which are underrepresented in the Foreign Service in terms of the cultural and ethnic diversity of the Foreign Service and for whom equal opportunity and affirmative action recruitment efforts have not been successful in achieving balanced representation in appointments to the Foreign Service shall be eligible to be interns in programs under this chapter.

"(2) An intern shall have successfully completed not less than one academic year of study at an institution of higher education to be admitted to the program. In each succeeding year of participation an intern shall have completed an additional year of undergraduate or graduate study and shall maintain an exemplary record of academic achievement.

"(3) In selecting interns, the Secretary shall consider only the ablest students of superior ability selected on the basis of demonstrated achievement and exceptional promise whose academic records reflect the requisite standards of performance necessary for the Foreign Service.

"(d) SUMMER INTERNSHIPS.—

"(1) The primary focus of the first internship shall be the study of international relations, the functions of the Department of State and other agencies which utilize the Foreign Service system, and the nature of the Foreign Service. The internship shall be held in Washington, District of Columbia, at the Department of State. As appropriate, the Secretary shall utilize the personnel and facilities of the Foreign Service Institute.

"(2) The second internship shall be, principally, an assignment to a specific bureau of the Department of State. Emphasis shall be on providing insight into the economic and political functional areas.

"(3) The third internship shall be an assignment to a United States mission abroad in the political or economic area.

"(4) The first and second internships may include a detail to the Congress.

"(e) ADMINISTRATION.—The Secretary of State shall determine the academic requirements, other selection criteria, and standards for successful completion of each internship period. The Secretary shall be responsible for the design, implementation, and operation of the program.

"(f) MENTORS.—Each intern shall be assigned a career Foreign Service officer as a mentor. The mentor shall act as a counselor and advisor throughout each summer internship and as a personal Foreign Service contact throughout the period of participation in the program. In the assignment of mentors, the Secretary shall give preference to Foreign Service officers who volunteer for such assignment and who may be role models for the interns.

"(g) COMPENSATION.—Interns shall be compensated at a rate determined by the Secretary which shall not be less than the compensation of comparable summer interns at the Department of State. As determined by the Secretary, for the purposes of travel, housing, health insurance, and other appropriate benefits, interns shall be considered employees of the Foreign Service during each internship period.

"(h) STUDY OF FOREIGN SERVICE EXAMINATION.—The Secretary of State shall study the feasibility of administering the Foreign Service examination in separate segments over several years. Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit a report summarizing the findings of such a study to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

"SEC. 1203. REPORT TO CONGRESS.

"Together with the annual submission required under section 105(d)(2), the Secretary of State shall submit a report to the Congress concerning the implementation of the program established under this chapter. Such report accompanied by such other information as the Secretary considers appropriate, shall include specific information concerning the completion rates of interns in the program, interns who took the Foreign Service examination, interns who passed the examination, former interns appointed to the Foreign Service, assignments of former interns, and the advancement of former interns through the Foreign Service system.

"SEC. 1204. FUNDING.

"Of the amounts authorized to be appropriated by section 101(a)(1) of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991, $100,000 for the fiscal year 1990 and $150,000 for the fiscal year 1991 shall be available only to carry out this chapter. Sums appropriated for the purposes of this chapter are authorized to remain available until expended.".

(c) TECHNICAL AND CONFORMING AMENDMENTS.—The Foreign Service Act of 1980 is amended by adding after the items relating to chapter 11 the following:

"CHAPTER 12—FOREIGN SERVICE INTERNSHIP PROGRAM

"Sec. 1201. Statement of policy; objectives.
"Sec. 1202. Foreign service internship program.
"Sec. 1203. Report to Congress.
"Sec. 1204. Authorization of appropriations.".

(d) REPORT TO CONGRESS.—Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall submit a report to the Congress concerning the implementation of the Foreign Service Internship Program.

SEC. 150. GRANTS FOR INSTITUTIONS AND STUDENTS FOR TRAINING IN INTERNATIONAL AFFAIRS.

The State Department Basic Authorities Act of 1956 (22 U.S.C. 2269 et seq.) is amended—

(1) by redesignating section 47 (as redesignated by section 119) as section 48; and

(2) by inserting after section 46 (as redesignated by section 119) the following new section:

"SEC. 47. GRANTS FOR TRAINING AND EDUCATION IN INTERNATIONAL AFFAIRS.

"The Secretary of State may make grants to postsecondary educational institutions or students for the purpose of increasing the level of knowledge and awareness of and interest in employment with the Foreign Service, consistent with section 105 of the Foreign Service Act of 1980. To the extent possible, the Secretary shall give special emphasis to promoting such knowledge and awareness of, and interest in employment with, the Foreign Service among minority students. Any grants awarded shall be made pursuant to regulations to be established by the Secretary of State, which shall provide for a limit on the size of any specific grant and, regarding any grants to individuals, shall ensure that no grant recipient receives an amount of grants from one or more Federal programs which in the aggregate would exceed the cost of his or her education, and shall require satisfactory educational progress by grantees as a condition of eligibility for continued receipt of grant funds.".

SEC. 151. DANGER PAY ALLOWANCE.

The Secretary of State may not deny a request by the Drug Enforcement Administration to authorize a danger pay allowance (under section 5928 of title 5, United States Code) for any employee of such agency.

SEC. 152. JUDICIAL REVIEW OF CERTAIN FOREIGN SERVICE GRIEVANCES.

For the purposes of judicial review under section 1110 of the Foreign Service Act of 1980, any recommendation made by the Foreign Service Grievance Board with respect to the tenure of a grievant which was reviewed by the Secretary of State before the date of enactment of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989, shall be considered to be a final action of the Department of State, and any such recommendation shall be considered to have been made within the authority of the Foreign Service Grievance Board.

SEC. 153. BROADENING THE CULTURAL, GEOGRAPHIC, AND ETHNIC REPRESENTATION OF THE FOREIGN SERVICE AND THE DEPARTMENT OF STATE.

(a) FINDINGS.—The Congress finds that a primary role of the Department of State is to represent the interests of the American people in foreign affairs and, as such, should strive to represent and include, among its policy and professional employees, the great diversity of the American people.

(b) RECRUITMENT.—(1) Not later than 120 days after the date of enactment of this Act, the Secretary of State shall provide the Congress with a plan to assure that equal efforts are undertaken in each of the regions of the United States to recruit policy and professional Government Service employees and Foreign Service officers for the Department of State and each of its affiliated agencies.

(2) Not later than January 1, 1990, the Secretary of State shall implement the plan provided for in paragraph (1).

(c) REPORT BY THE INSPECTOR GENERAL.—Not later than 120 days after the date of enactment of this Act, the Office of Inspector General of the Department of State shall submit to the Congress a report documenting, with respect to geographic distribution, race, ethnicity, gender and handicapping conditions, the composition of the workforce of the policy and professional Government Service employees and Foreign Service officers of the Department and each of its affiliated agencies. The report shall include—

(1) a breakdown of current policy and professional Government Service employees and Foreign Service officers of the Department and each of its affiliated agencies by age, race, gender, undergraduate institution, graduate institution, and place of birth;

(2) a breakdown by age, race, gender, ethnic background, undergraduate institution, graduate institution, and place of birth of those persons who during 1988 passed the written portion of the Foreign Service examination but failed the interview portion; and

(3) a breakdown by age, race, gender, ethnic background, undergraduate institution, graduate institution, and place of birth of those persons who during 1989 passed the Foreign Service examination.

(d) PROHIBITION ON DISCRIMINATION BASED ON GEOGRAPHIC OR EDUCATIONAL AFFILIATION.—Section 105(b)(1) of the Foreign Service Act of 1980 (22 U.S.C. 3905(b)(1)) is amended by inserting "geographic or educational affiliation within the United States," after "marital status,".

(e) TASK FORCE AND REPORT ON HISPANIC RECRUITMENT.—The Secretary of State shall appoint a task force comprised of high-ranking officials to conduct a study and make recommendations concerning improvements in the recruitment and promotion of Hispanic Americans at the Department of State and within the Foreign Service. Not later than one year after the date of the enactment of this Act, the task force shall submit a report of the findings of such study to the Secretary of State and the appropriate committees of the Congress.

(f) REPORT TO CONGRESS ON STATUS OF UNDERREPRESENTED GROUPS AT THE DEPARTMENT OF STATE.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall prepare and submit to the Congress a report concerning efforts of the Department of State to improve the percentage of individuals who are at the assistant secretary and head of bureau level at the Department of State from groups which are underrepresented in the Foreign Service in terms of the cultural and ethnic diversity of the Foreign Service.

(g) STUDY OF FOREIGN SERVICE EXAMINATION.—The Secretary of State shall enter into a contract with a private organization for a comprehensive review and evaluation of the Foreign Service examination. Such review and evaluation shall—

(1) identify any cultural, racial, ethnic, and sexual bias;

(2) evaluate the ability of the examination to measure an individual's aptitude for and potential in the Foreign Service;

(3) consider the relevance of the Foreign Service examination to the work of a Foreign Service officer;

(4) make recommendations for the removal of any element of bias in the examination; and

(5) make recommendations for improvements to achieve an examination free of any bias.

Not more than 18 months after the date of the enactment of this Act, the Secretary of State shall prepare and submit a report to the Congress which contains the findings of such review and evaluation, together with the comments of the Secretary and measures which the Secretary has initiated to respond to any adverse findings of such review. Such report shall take into consideration the current efforts by the Department of State to review its Foreign Service examination.

(h) FOREIGN SERVICE FELLOWSHIPS.—The Secretary of State is authorized to establish a Foreign Service fellowship program at the Department of State. The Foreign Service fellowship program shall provide a fellowship, for not less than 4 months, for academics in the area of international affairs who are members of the faculty of institutions of higher education. Such program shall give priority consideration in the award of fellowships to individuals teaching in programs in international affairs which serve significant numbers of students who are from cultural and ethnic groups which are underrepresented in the Foreign Service.

SEC. 154. REPORT TO CONGRESS CONCERNING POLYGRAPH PROGRAM.

(a) REPORT TO CONGRESS.—Not later than January 31, of each of the years 1990 and 1991, the Secretary of State shall prepare and submit an annual report on the polygraph program of the Department of State to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

(b) CONTENTS OF REPORT.—The report shall provide an assessment of the implementation of the polygraph program during the preceding fiscal year. Together with such other information and comments as the Secretary considers appropriate, the report shall include the following:

(1) Data on the number of lie-detector tests administered.

(2) A description of the purposes and results of such tests.

(3) A description of the criteria used in the selection of programs and individuals for administration of lie-detector tests.

(4) The number of individuals who refused to submit to the administration of such tests.

(5) The number of lie detector tests administered in which a specific incident was not under investigation.

(6) A description of the actions taken when an individual fails or refuses the administration of such tests, including the denial of clearance or any other adverse action.

(7) A detailed accounting of cases in which more than two administrations of such tests were necessary to resolve discrepancies.

(8) Any proposed changes in regulations for the Department of State polygraph program.

(c) DEFINITION.—For purposes of this section, the term "lie detector" shall have the meaning given such term under section 2 of the Employee Polygraph Protection Act of 1988.

SEC. 155. STUDY OF SEXUAL HARASSMENT AT THE DEPARTMENT OF STATE.

(a) FINDINGS.—The June 1988 report of the United States Merit Systems Protection Board entitled "Sexual Harassment in the Federal Government: An Update" determined that the Department of State (including the United States Information Agency) had the highest rate of incidence of sexual harassment of women of any agency of the Federal Government.

(b) STUDY.—Subject to the availability of appropriations, not later than 90 days after the date of the enactment of this Act, the Secretary of State (in consultation with the Director of the United States Information Agency) shall enter into a contract with a private organization with established expertise and demonstrated capabilities in personnel systems and problems for the purpose of conducting a study and preparing a report concerning sexual harassment at the Department of State and the United States Information Agency.

(c) REPORT.—Together with such other information as is determined to be appropriate and informative, such report shall include—

(1) a determination of the reasons for the high rate of incidence of sexual harassment at such Federal agencies;

(2) an evaluation of the actions which have been proposed and implemented by such Federal agencies to respond to the findings of the Merit Systems Protection Board report;

(3) a proposal for further specific actions by each agency; and

(4) recommendations for such changes in administrative procedures, regulations, and legislation as may be considered necessary to address the problem of sexual harassment at the Department of State and the United States Information Agency.

(d) SUBMISSION OF REPORT TO THE CONGRESS.—Not later than one year after the date of the enactment of this Act, the Secretary of State shall submit the full and complete report of such study, together with such comments as the Secretary of State or the Director of the United States Information Agency consider appropriate, to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

SEC. 156. LIMITATION ON HOUSING BENEFITS.

(a) IN GENERAL.—The Secretary of State shall establish and implement an appropriate housing policy and space standards in consultation with all agencies with employees outside the United States who are under the authority of the chief of mission or with other agencies or employees who participate in the overseas housing program. Such policy may not provide housing or related benefits based solely on the representational status of the employee, except if such individual is the ambassador, deputy chief of mission, permanent charge, or the consul general when serving as the principal officer.

(b) WAIVER.—The Secretary of State may grant exceptions to the restriction on pro-

viding housing or related benefits on a representational basis under subsection (a) on a case-by-case basis where a documented need for such exception is established. The Secretary of State shall prepare a comprehensive list annually of all such exceptions granted under this subsection.

PART E—FOREIGN LANGUAGE COMPETENCE WITHIN THE FOREIGN SERVICE

SEC. 161. EXPANSION OF MODEL FOREIGN LANGUAGE COMPETENCE POSTS.

(a) DESIGNATION OF POSTS.—In order to carry out the purposes of section 702 of the Foreign Service Act of 1980, and in light of the positive report issued on March 28, 1986, by the Department of State, as required by section 2207 of the Foreign Service Act of 1980, the Secretary of State shall designate as model foreign language competence posts a minimum of six Foreign Service posts, representing the Department of State's five geographic bureaus, in countries where English is not the common language. Such designation shall be made not later than February 1, 1990, and shall be implemented so that not later than October 1, 1991, in the case of non-hard language posts, and October 1, 1992, in the case of hard language posts, each Government employee permanently assigned to those posts shall possess an appropriate level of competence in the language common to the country where the post is located. The Secretary of State shall determine appropriate levels of language competence for employees assigned to those posts by reference to the nature of their functions and the standards employed by the Foreign Service Institute.

(b) "HARD LANGUAGE COUNTRY" POST TO BE DESIGNATED.—At least one of the posts designated under subsection (a) shall be in a "hard language" country, as identified in the report to the Under Secretary of State for Management of May 12, 1986, entitled "Hard Language Proficiency in the Foreign Service". Such post shall be in one of the countries where the official or principal language is Arabic, Chinese, Japanese, or Russian.

(c) TERMINATION DATE.—The posts designated under subsection (a) shall continue as model foreign language posts at least until September 30, 1993, in the case of non-hard language posts, and September 30, 1994, in the case of hard language posts. Not later than January 31, 1995, the Secretary of State shall submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report describing the operation of such posts and the costs, advantages, and disadvantages associated with meeting the foreign language competence requirements of this section.

(d) EXEMPTION AUTHORITY.—The Secretary of State may authorize exceptions to the requirements of this section if—

(1) he determines that unanticipated exigencies so require; and

(2) he immediately reports such exceptions to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives.

(e) EXCLUDED POSTS.—The posts designated under subsection (a) may not include Dakar, Senegal, or Montevideo, Uruguay. The report required under subsection (c) shall include progress made in these posts in maintaining the high foreign language standards achieved under the initial pilot program.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 162. REPORT ON FOREIGN LANGUAGE ENTRANCE REQUIREMENT FOR THE FOREIGN SERVICE.

Not later than December 31, 1989, the Secretary of State shall submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs and the Committee on Post Office and Civil Service of the House of Representatives a report evaluating an entrance requirement for the Foreign Service of at least one world language at the General Professional Speaking Proficiency level, as defined by the Foreign Service Institute, or one nonworld language at the next lowest proficiency level. Such report shall also describe—

(1) the amount of time necessary to implement such a requirement;

(2) the use of bonus points on the Foreign Service candidate scoring system for candidates with foreign language ability; and

(3) the adjustments necessary to raise otherwise qualified candidates, especially including affirmative action applicants, to the levels required for entrance as evaluated in the report required by this section.

SEC. 163. FOREIGN SERVICE PROMOTION PANELS.

It is the sense of the Congress that, to the greatest extent possible, Foreign Service promotion panels should—

(1) only promote candidates to the Senior Foreign Service who have demonstrated foreign language proficiency in at least one language at the General Professional Speaking Proficiency level, as defined by the Foreign Service Institute;

(2) strive for the objective stipulated in the Foreign Service Manual "to be able to use two foreign languages at a minimum professional level of proficiency of S-3/R-3, which is the general professional speaking proficiency level"; and

(3) have at least one person on each Foreign Service promotion panel who has attained at least the General Professional Proficiency level in one language level.

SEC. 164. LANGUAGE PROFICIENCY IN THE EMPLOYEE EVALUATION REPORT.

(a) ASSESSMENT OF FOREIGN LANGUAGE COMPETENCE.—The Department of State and the Agency for International Development shall revise the Employee Evaluation Report for Foreign Service officers, and the United States Information Agency shall revise the Officer Evaluation Report for its Foreign Service officers, to require in a separate entry, an assessment of the employee's effectiveness in using, in his or her work, a foreign language or languages tested at the general professional speaking proficiency level or above, in cases where the supervisor is capable of making such an assessment.

(b) PRECEDENCE IN PROMOTION.—The directors of personnel of the Department of State, the Agency for International Development, and the United States Information Agency shall instruct promotion panels to take account of language ability and, all matters being otherwise equal, to give precedence in promotions to officers who have achieved at least the General Professional Speaking Proficiency level in one or more foreign languages over officers who lack that level of proficiency.

TITLE II—UNITED STATES INFORMATIONAL, EDUCATIONAL, AND CULTURAL PROGRAMS

PART A—UNITED STATES INFORMATION AGENCY

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATIONS OF APPROPRIATIONS.—The following amounts are authorized to be appropriated for the United States Information Agency (other than for the Voice of America) to carry out international information, educational, cultural, and exchange programs under the United States Information and Educational Exchange Act of 1948, the Mutual Educational and Cultural Exchange Act of 1961, Reorganization Plan Number 2 of 1977, and other purposes authorized by law:

(1) SALARIES AND EXPENSES.—For "Salaries and Expenses", $410,000,000 for the fiscal year 1990 and $432,640,000 for the fiscal year 1991.

(2) TELEVISION AND FILM SERVICE.—For "Television and Film Service", $31,000,000 for the fiscal year 1990 and $32,240,000 for the fiscal year 1991.

(3) NATIONAL ENDOWMENT FOR DEMOCRACY.—For "National Endowment for Democracy" $25,000,000 for the fiscal year 1990 and $25,000,000 for the fiscal year 1991.

(4) CENTER FOR CULTURAL AND TECHNICAL INTERCHANGE BETWEEN EAST AND WEST.—For "Center for Cultural and Technical Interchange between East and West", $20,700,000 for the fiscal year 1990 and $26,000,000 for the fiscal year 1991.

(b) SEVILLE WORLD'S FAIR.—(1) Subject to paragraph (2), there are authorized to be appropriated to the United States Information Agency for the fiscal year 1990 $7,300,000 for United States participation in the World's Fair in Seville, Spain.

(2) Funds made available under this title for any educational or cultural exchange program, Voice of America programming to China, or any overseas post of the United States Information Agency may not be transferred or otherwise made available for the purposes of paragraph (1).

SEC. 202. DISSEMINATION OF INFORMATION WITHIN THE UNITED STATES.

Section 501 of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1461) is amended—

(1) by inserting "(a)" after "501."; and

(2) in the second sentence, by striking out "Any" and inserting in lieu thereof "Subject to subsection (b), any"; and

(3) by adding at the end thereof the following new subsection:

"(b)(1) The Director of the United States Information Agency shall make available to the Archivist of the United States, for domestic distribution, motion pictures, films, videotapes, and other material prepared for dissemination abroad 12 years after the initial dissemination of the material abroad or, in the case of such material not disseminated abroad, 12 years after the preparation of the material.

"(2) The Director of the United States Information Agency shall be reimbursed for any attendant expenses. Any reimbursement to the Director pursuant to this subsection shall be credited to the applicable appropriation of the United States Information Agency.

"(3) The Archivist shall be the official custodian of the material and shall issue necessary regulations to ensure that persons seeking its release in the United States have secured and paid for necessary United States rights and licenses and that all costs associated with the provision of the material by the Archivist shall be paid by the persons seeking its release. The Archivist may charge fees to recover such costs, in accordance with section 2116(c) of title 44, United States Code. Such fees shall be paid into, administered, and expended as part of the National Archives Trust Fund.".

SEC. 203. DISTRIBUTION WITHIN THE UNITED STATES OF UNITED STATES INFORMATION AGENCY FILM ENTITLED "LONG JOURNEY HOME".

Notwithstanding section 208 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987 (22 U.S.C. 1461-1(a)) and the second sentence of section 501 of the United States Information and Education Exchange Act of 1948 (22 U.S.C. 1461)—

(1) the Director of the United States Information Agency shall make available to the Archivist of the United States a master copy of the film entitled "Long Journey Home"; and

(2) upon evidence that necessary United States rights and licenses have been secured and paid for by the person seeking domestic release of the film, the Archivist shall—

(A) reimburse the Director for any expenses of the Agency in making that master copy available;

(B) deposit that film in the National Archives of the United States; and

(C) make copies of that film available for purchase and public viewing within the United States.

Any reimbursement to the Director pursuant to this section shall be credited to the applicable appropriation of the United States Information Agency.

SEC. 204. THE J. WILLIAM FULBRIGHT FOREIGN SCHOLARSHIP BOARD.

(a) AMENDMENTS TO THE MUTUAL EDUCATIONAL AND CULTURAL EXCHANGE ACT OF 1961.—(1) Section 106(a) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2456(a)(1)) is amended in paragraph (1), by striking out "Board of Foreign Scholarships" and inserting in lieu thereof "board of foreign scholarships which shall be known as the 'J. William Fulbright Foreign Scholarship Board' ".

(2) Section 112 of such Act (22 U.S.C. 2460) is amended—

(A) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(B) by inserting after subsection (a) the following new subsection:

"(b)(1) All recipients of Fulbright Academic Exchange and Humphrey Fellowship awards shall have full academic and artistic freedom, including freedom to write, publish, and create. No award granted pursuant to this Act may be revoked or diminished on account of the political views expressed by the recipient or on account of any scholarly or artistic activity that would be subject to the protections of academic and artistic freedom normally observed in universities in the United States. The Board shall ensure that the academic and artistic freedoms of all persons receiving grants are protected.

"(2) The J. William Fulbright Foreign Scholarship Board shall formulate a policy on revocation of Fulbright grants which shall be made known to all grantees. Such policy shall fully protect the right to due process as well as the academic and artistic freedom of all grantees.".

(b) CONTINUED SERVICE OF MEMBERS OF BOARD OF FOREIGN SCHOLARSHIPS.—Each member appointed to the Board of Foreign Scholarships before the date of the enactment of this Act shall continue to serve for the remainder of the term to which each such member was appointed.

(c) REFERENCES IN LAW.—Any reference in any provision of law to the Board of Foreign Scholarships shall, on and after the date of enactment of this Act, be deemed to be a reference to the J. William Fulbright Foreign Scholarship Board.

SEC. 205. USIA SATELLITE AND TELEVISION.

(a) IN GENERAL.—Title V of the United States Information and Educational Exchange Act of 1948 is amended by adding at the end thereof the following new section:

"SEC. 505. USIA SATELLITE AND TELEVISION.

"(a) IN GENERAL.—The Director of the United States Information Agency is authorized to lease or otherwise acquire time on commercial or United States Government satellites for the purpose of transmitting materials and programs to posts and other users abroad.

"(b) BROADCAST PRINCIPLES.—The Congress finds that the long-term interests of the United States are served by communicating directly with the peoples of the world by television. To be effective, the United States Information Agency must win the attention and respect of viewers. These principles will therefore govern the Agency's television broadcasts (hereinafter in this section referred to as 'USIA-TV'):

"(1) USIA-TV will serve as a consistently reliable and authoritative source of news. USIA-TV news will be accurate and objective.

"(2) USIA-TV will represent the United States, not any single segment of American society and will, therefore, present a balanced and comprehensive projection of significant American thought and institutions.

"(3) USIA-TV will present the policies of the United States clearly and effectively and will also present responsible discussions and opinion on these policies.

"(c) PROGRAMS.—The Director of the United States Information Agency is authorized to produce, acquire, or broadcast television programs, via satellite, only if such programs—

"(1) are interactive, consisting of interviews among participants in different locales;

"(2) cover news, public affairs, or other current events;

"(3) cover official activities of government, Federal or State, including congressional proceedings and news briefings of any agency of the Executive branch; or

"(4) are of an artistic or scientific character or are otherwise representative of American culture.

"(d) COSTS.—When a comparable program produced by United States public or commercial broadcasters and producers is available at a cost which is equal to or less than the cost of production by USIA-TV, the Director of the United States Information Agency shall use such materials in preference to USIA-TV produced materials.

"(e) ALLOCATION OF FUNDS.—(1) Of the funds authorized to be appropriated to the United States Information Agency not more than $12,000,000 for the fiscal year 1990 and not more than $12,480,000 for the fiscal year 1991 may be obligated or expended for USIA-TV.

"(2) The United States Information Agency shall prepare and submit to the Congress quarterly reports which contain a detailed explanation of expenditures for USIA-TV during the fiscal years 1990 and 1991. Such reports shall contain specific justification and supporting information pertaining to all programs, particularly those described in subsection (c)(4), that were produced in-house by USIA-TV. Each such report shall include a statement by the Director of the United States Information Agency that, according to the best information available to the United States Information Agency, no comparable United States commercially-produced or public television program is available at a cost which is equal to or less than the cost of production by USIA-TV.

"(3) Of the funds authorized to be appropriated to the United States Information Agency, $1,500,000 for the fiscal year 1990 and $1,500,000 for the fiscal year 1991 shall be available only for the purchase or use of programs produced with grants from the Corporation for Public Broadcasting or produced by United States public broadcasters.".

(b) CONFORMING AMENDMENT.—Section 209 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) is amended by striking out subsection (e).

SEC. 206. UNITED STATES ADVISORY COMMISSION ON PUBLIC DIPLOMACY.

(a) IN GENERAL.—Section 604 of the United States Information and Education Exchange Act of 1948 (22 U.S.C. 1469) is amended to read as follows:

"SEC. 604. UNITED STATES ADVISORY COMMISSION ON PUBLIC DIPLOMACY.

"(a) ESTABLISHMENT.—(1) There is established an advisory commission to be known as the United States Advisory Commission on Public Diplomacy.

"(2) The Commission shall consist of seven members appointed by the President, by and with the advice and consent of the Senate. The members of the Commission shall represent the public interest and shall be selected from a cross section of educational, communications, cultural, scientific, technical, public service, labor, business, and professional backgrounds. Not more than four members shall be from any one political party.

"(3) The term of each member shall be 3 years, except that of the original seven appointments, two shall be for a term of 1 year and two shall be for a term of 2 years.

"(4) Any member appointed to fill a vacancy occurring before the expiration of the term for which a predecessor was appointed shall be appointed for the remainder of such term. Upon the expiration of a member's term of office, such member may continue to serve until a successor is appointed and qualified.

"(5) The President shall designate a member to chair the Commission.

"(b) STAFF.—The Commission shall have a staff director who shall be appointed by the chairperson of the Commission. Subject to such rules and regulations as may be adopted by the Commission, the chairperson of the Commission may—

"(1) appoint such additional personnel for the staff of the Commission as the chairperson considers necessary; and

"(2) procure temporary and intermittent services to the same extent as is authorized by section 3109(b) of title 5, United States Code, but at rates for individuals not to exceed the daily equivalent of the annual rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

"(c) DUTIES AND RESPONSIBILITIES.—(1) The Commission shall formulate and recommend to the Director of the United States Information Agency, the Secretary of State, and the President policies and programs to carry out the functions vested in the Director or the Agency, and shall appraise the effectiveness of policies and programs of the Agency.

"(2) The Commission shall submit to the Congress, the President, the Secretary of State, and the Director of the United States Information Agency annual reports on pro-

grams and activities carried out by the Agency, including appraisals, where feasible, as to the effectiveness of the several programs. The Commission shall also include in such reports such recommendations as shall have been made by the Commission to the Director for effectuating the purposes of the Agency, and the action taken to carry out such recommendations.

"(3) The Commission may also submit such other reports to the Congress as it considers appropriate, and shall make reports to the public in the United States and abroad to develop a better understanding of and support for the programs conducted by the Agency.

"(4) The Commission's reports to the Congress shall include assessments of the degree to which the scholarly integrity and nonpolitical character of the educational and cultural exchange activities vested in the Director of the United States Information Agency have been maintained, and assessments of the attitudes of foreign scholars and governments regarding such activities.

"(d) LIMITATION ON AUTHORITY.—The Commission shall have no authority with respect to the J. William Fulbright Foreign Scholarship Board or the United States National Commission for UNESCO.".

(b) CONTINUED SERVICE OF MEMBERS OF COMMISSION.—Each member of the United States Advisory Commission on Public Diplomacy as in existence on the day before the effective date of section 604 of the United States Information and Educational Exchange Act of 1948 (as amended by section 213 of Public Law 100-204) shall continue to serve for the remainder of the term to which such member was appointed.

SEC. 207. FOREIGN LANGUAGE SERVICES.

Section 804(1) of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1474(1)) is amended by inserting "when job vacancies occur" after "available".

SEC. 208. USE OF CERTAIN FEES AND PAYMENTS.

Section 810 of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1475e) is amended to read as follows:

"SEC. 810. USE OF CERTAIN FEES AND PAYMENTS.

"(a) Notwithstanding section 3302 of title 31, United States Code, or any other law or limitation of authority, fees received by or for the use of the United States Information Agency from or in connection with English-teaching and library services, and Agency-produced publications, and not to exceed $100,000 of payments from motion picture and television programs, produced or conducted by or on behalf of the Agency under the authority of this Act or the Mutual Educational and Cultural Exchange Act of 1961 is authorized to be credited each fiscal year to the appropriate appropriation of the United States Information Agency to such extent as may be provided in advance in an appropriation Act.".

SEC. 209. DEBT COLLECTION.

Title VIII of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1472 et seq.) is amended by adding at the end thereof the following:

"SEC. 811. DEBT COLLECTION.

"(a) CONTRACT AUTHORITY.—(1) Subject to the availability of appropriations, the Director of the United States Information Agency shall enter into contracts for collection services to recover indebtedness owed by a person, other than a foreign country, to the United States which arises out of activities of the United States Information Agency and is delinquent by more than 90 days.

"(2) Each contract entered into under this section shall provide that the person with whom the Director of the United States Information Agency enters into such contract shall submit to the Director at least once every 180 days a status report on the success of the person in collecting debts. Section 3718 of title 31, United States Code, shall apply to any such contract to the extent that such section is not inconsistent with this subsection.

"(b) DISCLOSURE OF DELINQUENT DEBT TO CREDIT REPORTING AGENCIES.—The Director of the United States Information Agency shall, to the extent otherwise allowed by law, disclose to those credit reporting agencies to which the Director reports loan activity information concerning any debt of more than $100 owed by a person, other than a foreign country, to the United States which arises out of activities of the United States Information Agency and is delinquent by more than 31 days.".

SEC. 210. USIA NETWORK FOR DISSEMINATION OF INFORMATION CONCERNING UNITED STATES PROGRAMS TO COMBAT NARCOTICS AND OTHER CONTROLLED SUBSTANCES.

The United States Information Agency shall establish and maintain an international narcotics information network. The network shall disseminate prompt, accurate, and comprehensive information to foreign governments concerning programs and activities of the United States Government—

(1) to eliminate the illicit production, trafficking, and abuse of narcotic and psychotropic drugs and other controlled substances within the United States; and

(2) to promote drug prevention and rehabilitation in the United States.

SEC. 211. AFGHANISTAN COUNTRY PLAN.

(a) MAINTENANCE OF PLAN.—The Director of the United States Information Agency shall maintain a comprehensive country plan for the Agency's activities with respect to Afghanistan, consistent with the plan submitted to the Congress for the fiscal year 1989.

(b) REPORT.—Not later than March 1, 1990, the Director of the United States Information Agency shall submit to the Congress a report describing the Afghanistan country plan and including a specific outline on how that country plan will be adapted for implementation inside a free Afghanistan.

SEC. 212. GENERAL ACCOUNTING OFFICE STUDY OF THE NATIONAL ENDOWMENT FOR DEMOCRACY.

(a) STUDY OF NED.—The Comptroller General of the United States shall conduct a study of the operations of the National Endowment for Democracy. Such study shall evaluate—

(1) the programs and operations of the National Endowment for Democracy;

(2) the effectiveness of the National Endowment for Democracy in fulfilling its goals; and

(3) the management structure of the National Endowment for Democracy, including—

(A) an assessment of the present composition of the board of directors; and

(B) the capability and effectiveness of the board in providing objective oversight of the programs and operations of the National Endowment for Democracy.

(b) REPORT TO CONGRESS.—Not later than one year after the date of the enactment of this Act, the Comptroller General of the United States shall prepare and submit a report of the findings of such study to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

SEC. 213. REPORT TO CONGRESS ON THE ACQUISITION AND USE OF PUBLIC PROGRAMMING MATERIALS.

Not later than 90 days after the date of enactment of this Act, the Director of the United States Information Agency shall provide to the chairman of the Foreign Relations Committee of the Senate and the Speaker of the House of Representatives a detailed report describing all programming material acquired by the United States Information Agency in the fiscal years 1988 and 1989 from public television and radio entities, including a description of how such program material was utilized by the United States Information Agency, in whole or in part, in original or edited form. Such report shall include a description of projected United States Information Agency use of programming material acquired for public television and radio entities through the fiscal year 1992.

PART B—BUREAU OF EDUCATIONAL AND CULTURAL AFFAIRS

SEC. 221. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts otherwise made available under section 201 for such purposes, there are authorized to be appropriated to the Bureau of Educational and Cultural Affairs to carry out the purposes of the Mutual Educational and Cultural Exchange Act of 1961 the following amounts:

(1) For "Salaries and Expenses", $43,323,000 for the fiscal year 1990 and $45,056,000 for the fiscal year 1991.

(2) For the Fulbright Academic Exchange Programs, $97,460,000 for the fiscal year 1990 and $101,358,000 for the fiscal year 1991.

(3) For the Hubert H. Humphrey Fellowship Program, $5,500,000 for the fiscal year 1990 and $5,720,000 for the fiscal year 1991.

(4) For the International Visitors Program, $41,817,000 for the fiscal year 1990 and $43,490,000 for the fiscal year 1991.

(5) For the Arts America Program, $6,400,000 for the fiscal year 1990 and $6,656,000 for the fiscal year 1991.

(b) ALLOCATION OF FUNDS.—Of the amounts authorized to be appropriated by subsection (a)(1), $150,000 for the fiscal year 1990 and $200,000 for the fiscal year 1991 shall be available only for the training at the University of Maine and in Washington, District of Columbia, of media personnel from developing French-speaking countries. The Voice of America International Broadcast Training Center shall administer such training program. The Bureau of Educational and Cultural Exchanges shall provide to the center such assistance as may be necessary in the facilitation of such program.

SEC. 222. CITIZEN EXCHANGES.

(a) IN GENERAL.—Section 112 of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2460) is amended by adding at the end thereof the following new subsection:

"(e) There is established in the Bureau of Educational and Cultural Affairs an Office of Citizen Exchanges. The Office shall support private not-for-profit organizations engaged in the exchange of persons between the United States and other countries.".

(b) TRANSFER OF FUNCTIONS.—There are hereby transferred to the Office of Citizen Exchanges on the date of enactment of this Act all functions carried out by the Office of Private Sector Programs on the day before such date.

SEC. 223. PROGRAMS TO PROMOTE INTERNATIONAL YOUTH UNDERSTANDING.

Section 112(a)(8) of the Mutual Educational and Cultural Exchange Act (22 U.S.C. 2460(a)(8)) is amended by inserting after "degree" the following: "or through other programs designed to promote contact between the young peoples of the United States, the Soviet Union, and Eastern European countries".

SEC. 224. UNITED STATES-SOVIET EXCHANGES.

The Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2451 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 113. UNITED STATES-SOVIET EXCHANGES.—(a) The President is authorized to negotiate and implement an agreement with the Union of Soviet Socialist Republics under which repayments made by the Soviet Union on Lend-Lease debts to the United States would be used to finance the exchange of persons between the United States and the Soviet Union for educational, cultural, and artistic purposes. Exchanges authorized pursuant to this section shall be administered subject to the provisions of this Act. Part of the funds repaid to the United States shall be in convertible currency for the purpose of paying the expenses associated with study and other exchange activities by Soviet citizens in the United States.

"(b) Funds made available for the purposes of this section shall be available only to the extent and in the amounts provided for in an appropriation Act.".

SEC. 225. SCHOLARSHIPS FOR TIBETANS AND BURMESE.

(a) ALLOCATION OF SCHOLARSHIPS.—Of the funds authorized to be appropriated by section 221 for each of the fiscal years 1990 and 1991, not less than 30 scholarships shall be made available to Tibetan students and professionals who are outside Tibet, and not less than 15 scholarships shall be made available to Burmese students and professionals who are outside Burma.

(b) WAIVER.—Subsection (a) shall not apply to the extent that the Director of the United States Information Agency determines that there are not enough qualified students to fulfill such allocation requirement.

SEC. 226. SENSE OF CONGRESS CONCERNING THE HUMPHREY FELLOWSHIP PROGRAM.

It is the sense of the Congress that the United States Information Agency should review the Humphrey Fellowship Program and consider the feasibility of broadening the placement of fellows under such program to provide exposure to the processes of the United States Government, the Congress, and State and local governmental processes.

PART C—VOICE OF AMERICA

SEC. 231. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the United States Information Agency for the Voice of America for carrying out title V of the United States Information and Educational Exchange Act of 1948 and the Radio Broadcasting to Cuba Act the following amounts:

(1) SALARIES AND EXPENSES.—For "Salaries and Expenses", $170,024,000 for the fiscal year 1990 and $176,825,000 for the fiscal year 1991.

(2) ACQUISITION AND CONSTRUCTION OF RADIO FACILITIES.—For "Acquisition and Construction of Radio Facilities", $69,000,000 for the fiscal year 1990 and $122,000,000 for the fiscal year 1991.

(3) RADIO BROADCASTING TO CUBA.—For "Radio Broadcasting to Cuba", $12,700,000 for the fiscal year 1990 and $13,208,000 for the fiscal year 1991.

(4) VOA EUROPE.—For "VOA Europe", $3,000,000 for the fiscal year 1990 and $3,120,000 for the fiscal year 1991.

SEC. 232. VOICE OF AMERICA HIRING PRACTICES.

Title V of the United States Information and Educational Exchange Act of 1948 is further amended by adding at the end thereof the following new section:

"SEC. 506. VOICE OF AMERICA HIRING PRACTICES.

"(a) PROHIBITION.—After the date of enactment of this section, the Voice of America shall not select candidates for employment who must be or are preapproved for employment at the Voice of America by a foreign government or an entity controlled by a foreign government.

"(b) EXCEPTION.—The prohibition referred to in this section shall not apply to—

"(1) participants in the Voice of America's exchange programs; or

"(2) clerical, technical, or maintenance staff at Voice of America offices in foreign countries.

"(c) REPORT.—If the Director of the United States Information Agency determines that the prohibition under subsection (a) would require the termination of a specific Voice of America foreign language service, then, not less than 90 days before the Agency begins to recruit such candidates, the Director shall submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report concerning—

"(1) the number and location of speakers of the applicable foreign language who could be recruited by the Voice of America without violating this section; and

"(2) the efforts made by the Voice of America to recruit such individuals for employment.".

SEC. 233. VOA PUBLIC SERVICE ANNOUNCEMENTS TO PROMOTE CHILD SURVIVAL.

The United States Information Agency shall establish and maintain through the Voice of America a system of public service announcements focusing on child survival techniques.

SEC. 234. VOICE OF AMERICA BROADCASTS TO TIBET.

(a) ESTABLISHMENT OF SERVICE.—Not later than 90 days after the date of enactment of this Act, the Director of the United States Information Agency shall establish through the Voice of America, a service to provide Voice of America Tibetan language programming to the people of Tibet.

(b) AMOUNT OF PROGRAMMING.—For each of the fiscal years 1990 and 1991, programming broadcasts to the people of Tibet pursuant to this section shall occur for not less than two hours each day.

(c) REPORT.—As soon as possible in the fiscal year 1990, the Director of the United States Information Agency shall submit to the Congress a comprehensive written report detailing the implementation of the programming provided for in this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—In addition to funds otherwise available under subsection (e), there are authorized to be appropriated to the Voice of America for purposes of carrying out this section $1,000,000 for each of the fiscal years 1990 and 1991.

(e) TRANSFER AUTHORITY.—The Director of the United States Information Agency may transfer to Voice of America Tibet Service such amounts appropriated for the "Television and Film Service" for each of the fiscal years 1990 and 1991 as exceed the amounts authorized to be appropriated for each such fiscal year for such Service.

SEC. 235. VOICE OF AMERICA'S THAILAND RADIO FACILITIES.

The Director of the United States Information Agency may enter into a contract for the construction of the Voice of America's Thailand radio facilities for periods not in excess of 5 years or delegate such authority to the Corps of Engineers of the United States Department of the Army if there are sufficient funds to cover at least the Government's liability for payments for the fiscal year in which the contract is awarded plus the full amount of estimated cancellation costs.

SEC. 236. VOICE OF AMERICA BROADCASTS TO THE PEOPLE'S REPUBLIC OF CHINA.

For each of the fiscal years 1990 and 1991, the Voice of America shall provide not less than 12 hours of programming each day for the People's Republic of China.

SEC. 237. VOICE OF AMERICA EQUIPMENT ABROAD.

It is the sense of the Congress that the United States Information Agency and the Voice of America should take every step necessary to ensure that existing Voice of America equipment abroad is properly maintained and enhanced to prevent deterioration.

PART D—TELEVISION BROADCASTING TO CUBA

SEC. 241. SHORT TITLE.

This part may be cited as the "Television Broadcasting to Cuba Act".

SEC. 242. FINDINGS AND PURPOSES.

The Congress finds and declares that—

(1) it is the policy of the United States to support the right of the people of Cuba to seek, receive, and impart information and ideas through any media and regardless of frontiers, in accordance with article 19 of the Universal Declaration of Human Rights;

(2) consonant with this policy, television broadcasting to Cuba may be effective in furthering the open communication of accurate information and ideas to the people of Cuba and, in particular, information about Cuba;

(3) television broadcasting to Cuba, operated in a manner not inconsistent with the broad foreign policy of the United States and in accordance with high professional standards, would be in the national interest;

(4) facilities broadcasting television programming to Cuba must be operated in a manner consistent with applicable regulations of the Federal Communications Commission, and must not affect the quality of domestic broadcast transmission or reception; and

(5) that the Voice of America already broadcasts to Cuba information that represents America, not any single segment of American society, and includes a balanced and comprehensive projection of significant American thought and institutions, but that there is a need for television broadcasts to Cuba which provide news, commentary, and other information about events in Cuba and elsewhere to promote the cause of freedom in Cuba.

SEC. 243. TELEVISION BROADCASTING TO CUBA.

(a) TELEVISION BROADCASTING TO CUBA.—In order to carry out the purposes set forth in section 242 and notwithstanding the limitation of section 501 of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1461) with respect to the dissemination in the United States of information prepared for dissemination abroad to the extent such dissemination is inadvertent, the United States Information Agency (hereafter in this part referred to as the

"Agency") shall provide for the open communication of information and ideas through the use of television broadcasting to Cuba. Television broadcasting to Cuba shall serve as a consistently reliable and authoritative source of accurate, objective, and comprehensive news.

(b) VOICE OF AMERICA STANDARDS.—Television broadcasting to Cuba under this part shall be in accordance with all Voice of America standards to ensure the broadcast of programs which are objective, accurate, balanced, and which present a variety of views.

(c) USIA TELEVISION MARTI.—Any program of United States Government television broadcasts to Cuba authorized by this section shall be designated "USIA Television Marti Program".

(d) FREQUENCY ASSIGNMENT.—

(1) Subject to the Communications Act of 1934, the Federal Communications Commission shall assign by order a suitable frequency to further the national interests expressed in this part, except that no such assignment shall result in objectionable interference with the broadcasts of any domestic licensee.

(2) No Federal branch or agency shall compel an incumbent domestic licensee to change its frequency in order to eliminate objectionable interference caused by broadcasting of the Service.

(3) For purposes of section 305 of the Communications Act of 1934, a television broadcast station established for purposes of this part shall be treated as a government station, but the Federal Communications Commission shall exercise the authority of the President under such section to assign a frequency to such station.

(e) INTERFERENCE WITH DOMESTIC BROADCASTING.—

(1) Broadcasting by the Television Marti Service shall be conducted in accordance with such parameters as shall be prescribed by the Federal Communications Commission to preclude objectionable interference with the broadcasts of any domestic licensee. The Television Marti Service shall be governed by the same standards regarding objectionable interference as any domestic licensee. The Federal Communications Commission shall monitor the operations of television broadcasting to Cuba pursuant to subsection (f). If, on the basis of such monitoring or a complaint from any person, the Federal Communications Commission determines, in its discretion, that broadcasting by the Television Marti Service is causing objectionable interference with the transmission or reception of the broadcasts of a domestic licensee, the Federal Communications Commission shall direct the Television Marti Service to cease broadcasting and to eliminate the objectionable interference. Broadcasts by the Service shall not be resumed until the Federal Communications Commission finds that the objectionable interference has been eliminated and should not recur.

(2) The Federal Communications Commission shall take such actions as are necessary and appropriate to assist domestic licensees in overcoming the adverse effects of objectionable interference caused by broadcasting by the Television Marti Service. Such assistance may include the authorization of nondirectional increases in the effective radiated power of a domestic television station so that its coverage is equivalent to the maximum allowable for such facilities, to avoid any adverse effect on such stations of the broadcasts of the Television Marti Service.

(3) If the Federal Communications Commission directs the Television Marti Service to cease broadcasting pursuant to paragraph (1), the Commission shall, as soon as practicable, notify the appropriate committees of Congress of such action and the reasons therefor. The Federal Communications Commission shall continue to notify the appropriate committees of Congress of progress in eliminating the objectionable interference and shall assure that Congress is fully informed about the operation of the Television Marti Service.

(f) MONITORING OF INTERFERENCE.—The Federal Communications Commission shall continually monitor and periodically report to the appropriate committees of the Congress interference to domestic broadcast licensees—

(1) from the operation of Cuban television and radio stations; and

(2) from the operations of the television broadcasting to Cuba.

(g) TASK FORCE.—It is the sense of the Congress that the President should establish a task force to analyze the level of interference from the operation of Cuban television and radio stations experienced by broadcasters in the United States and to seek a practical political and technical solution to this problem.

SEC. 244. TELEVISION MARTI SERVICE OF THE UNITED STATES INFORMATION AGENCY.

(a) TELEVISION MARTI SERVICE.—The Director of the United States Information Agency shall establish within the Voice of America a Television Marti Service. The Service shall be responsible for all television broadcasts to Cuba authorized by this part. The Director of the United States Information Agency shall appoint a head of the Service who shall report directly to the Director of the Voice of America. The head of the Service shall employ such staff as the head of the Service may need to carry out the duties of the Service.

(b) USE OF EXISTING FACILITIES OF THE USIA.—To assure consistency of presentation and efficiency of operations in conducting the activities authorized under this part, the Television Marti Service shall make maximum feasible utilization of Agency facilities and management support, including Voice of America: Cuba Service, Voice of America, and the United States Information Agency Television Service.

(c) USIA AUTHORITY.—The Agency may carry out the purposes of this part by means of grants, leases, or contracts (subject to the availability of appropriations), or such other means as the Agency determines will be most effective.

SEC. 245. AMENDMENTS TO THE RADIO BROADCASTING TO CUBA ACT.

(a) ADVISORY BOARD FOR CUBA BROADCASTING.—Section 5 of the Radio Broadcasting to Cuba Act (22 U.S.C. 1465c) is amended—

(1) by amending the heading to read as follows: "ADVISORY BOARD FOR CUBA BROADCASTING";

(2) by amending subsections (a) and (b) to read as follows:

"(a) There is established within the Office of the President the Advisory Board for Cuba Broadcasting (hereafter in this Act referred to as the 'Board'). The Board shall consist of nine members, appointed by the President by and with the advice and consent of the Senate, of whom not more than five shall be members of the same political party. The President shall designate one member of the Board to serve as chairperson.

"(b) The Board shall review the effectiveness of the activities carried out under this Act and the Television Broadcasting to Cuba Act and shall make recommendations to the President and the Director and Associate Director for Broadcasting of the United States Information Agency as it may consider necessary.";

(3) by amending subsection (d) to read as follows:

"(d) The head of the Cuba Service and the head of the Television Marti Service shall serve, ex officio, as members of the Board."; and

(4) in the last sentence of subsection (e) by striking out "The ex officio member" and inserting in lieu thereof "The ex officio members".

(b) REFERENCES.—A reference in any provision of law to the "Advisory Board for Radio Broadcasting to Cuba" shall be considered to be a reference to the "Advisory Board for Cuba Broadcasting".

(c) CONTINUED SERVICE OF MEMBERS OF BOARD.—Each member of the Advisory Board for Radio Broadcasting to Cuba as in existence on the day before the effective date of the amendment made by subsection (a) shall continue to serve for the remainder of the term to which such member was appointed as a member of the Advisory Board for Cuba Broadcasting.

(d) STAFF DIRECTOR.—The Board shall have a staff director who shall be appointed by the Chairperson of the Advisory Board for Cuba Broadcasting.

SEC. 246. ASSISTANCE FROM OTHER GOVERNMENT AGENCIES.

In order to assist the United States Information Agency in carrying out the provisions of this part, any agency or instrumentality of the United States may sell, loan, lease, or grant property (including interests therein) and may perform administrative and technical support and services at the request of the Agency.

SEC. 247. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts otherwise made available under section 201 for such purposes, there are authorized to be appropriated to the United States Information Agency, $16,000,000 for the fiscal year 1990 and $16,000,000 for the fiscal year 1991 for television broadcasting to Cuba in accordance with the provisions of this part.

(b) LIMITATION.—

(1) Subject to paragraph (2), no funds authorized to be appropriated under subsection (a) may be obligated or expended unless the President determines and notifies the appropriate committees of Congress that the test of television broadcasting to Cuba (as authorized by title V of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1989 (Public Law 100-459)) has demonstrated television broadcasting to Cuba is feasible and will not cause objectionable interference with the broadcasts of incumbent domestic licensees. The Federal Communications Commission shall furnish to the appropriate committees of Congress all interim and final reports and other appropriate documentation concerning objectionable interference from television broadcasting to Cuba to incumbent domestic licensees.

(2) Not less than 30 days before the President makes the determination under paragraph (1), the President shall submit a report to the appropriate committees of the Congress which includes the findings of the test of television broadcasting to Cuba. The

period for the test of television broadcasting may be extended until—

(A) the date of the determination and notification by the President under paragraph (1), or

(B) 30 days,

whichever comes first.

SEC. 248. DEFINITIONS.

As used in this part—

(1) the term "licensee" has the meaning provided in section 3(c) of the Communications Act of 1934;

(2) the term "incumbent domestic licensee" means a licensee as provided in section 3(c) of the Communications Act of 1934 that was broadcasting a television signal as of January 1, 1989;

(3) the term "objectionable interference" shall be applied in the same manner as such term is applied under regulations of the Federal Communications Commission to other domestic broadcasters; and

(4) the term "appropriate committees of Congress" includes the Committee on Foreign Affairs and the Committee on Energy and Commerce of the House of Representatives and the Committee on Foreign Relations of the Senate.

TITLE III—BOARD FOR INTERNATIONAL BROADCASTING

SEC. 301. AUTHORIZATIONS OF APPROPRIATIONS.

(a) AMENDMENT TO BOARD FOR INTERNATIONAL BROADCASTING ACT OF 1973.—Subparagraph (A) of section 8(a)(1) of the Board for International Broadcasting Act of 1973 (22 U.S.C. 2877(a)(1)) is amended to read as follows:

"(A) $180,330,000 for the fiscal year 1990 and $187,543,000 for the fiscal year 1991, at April 21, 1989, exchange rates, and such additional amounts for each such fiscal year as may be necessary to offset adverse fluctuations in foreign currency exchange rates after such date; and".

(b) RADIO TRANSMITTER CONSTRUCTION AND MODERNIZATION.—There are authorized to be appropriated to the Board for International Broadcasting for radio transmitter construction and modernization $15,845,000 for the fiscal year 1990 and $12,000,000 for the fiscal year 1991. Amounts appropriated under this subsection are authorized to remain available until expended.

(c) BROADCASTING RELAY STATION IN ISRAEL.—

(1) There are authorized to be appropriated to the Board for International Broadcasting for the costs associated with construction of a relay station in Israel, $183,500,000 for the fiscal year 1990 and $23,500,000 for the fiscal year 1991. Amounts appropriated under this subsection are authorized to remain available until expended.

(2) To the extent not precluded by the international agreement with the host foreign country of June 18, 1987, and to the extent practicable, not less than 10 percent of the amounts which are authorized to be appropriated under paragraph (1), and which are available for contracts with United States contractors, shall be made available only for contracts and subcontracts with economically and socially disadvantaged enterprises (within the meaning of section 133(c)(5) of the International Development and Food Assistance Act of 1977).

SEC. 302. REQUIREMENT FOR AUTHORIZATION OF APPROPRIATIONS.

(a) LIMITATION ON OBLIGATION AND EXPENDITURE OF FUNDS.—Notwithstanding any other provision of law, for the fiscal year 1990 and for each subsequent fiscal year, any funds appropriated for the Board for International Broadcasting shall not be available for obligation or expenditure—

(1) unless such funds are appropriated pursuant to an authorization of appropriations; or

(2) in excess of the authorized level of appropriations.

(b) SUBSEQUENT AUTHORIZATION.—The limitation under subsection (a) shall not apply to the extent that an authorization of appropriations is enacted after such funds are appropriated.

(c) APPLICATION.—The provisions of this section—

(1) may not be superseded, except by a provision of law which specifically repeals, modifies, or supersedes the provisions of this section; and

(2) shall not apply to, or affect in any manner, permanent appropriations, trust funds, and other similar accounts which are authorized by law and administered by the Board for International Broadcasting.

SEC. 303. PROCUREMENT OF LEGAL SERVICES.

Section 26(b) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2698) is amended by striking out "International Communication Agency" and inserting in lieu thereof "United States Information Agency, the chairman of the Board for International Broadcasting,".

SEC. 304. RADIO FREE AFGHANISTAN.

Section 2(5) of the Board for International Broadcasting Act of 1973 (22 U.S.C. 2871(5)) is amended by striking out "(as long as it is under Soviet occupation)" and inserting in lieu thereof "(until the government in Kabul is replaced by a government achieved through a free act of self-determination)".

TITLE IV—INTERNATIONAL ORGANIZATIONS AND COMMISSIONS

SEC. 401. UNITED STATES MEMBERSHIP IN INTERNATIONAL SUGAR ORGANIZATION AND INTERNATIONAL TROPICAL TIMBER ORGANIZATION.

(a) UNITED STATES MEMBERSHIP.—The President is authorized to maintain membership of the United States in the International Sugar Organization and the International Tropical Timber Organization.

(b) PAYMENT OF ASSESSED CONTRIBUTIONS.—For the fiscal year 1991 and for each fiscal year thereafter, the United States assessed contributions to such organizations may be paid from funds appropriated for "Contributions to International Organizations".

SEC. 402. AUTHORIZATION FOR MEMBERSHIP IN THE INTERNATIONAL UNION FOR THE CONSERVATION OF NATURE AND NATURAL RESOURCES.

The President is authorized to maintain membership of the United States in the International Union for the Conservation of Nature and Natural Resources (IUCN).

SEC. 403. AUTHORIZATION OF APPROPRIATIONS FOR MEMBERSHIP IN WILDLIFE CONVENTIONS.

There are authorized to be appropriated to the President $1,511,000 for the fiscal year 1990 and $1,571,440 for the fiscal year 1991 in support of United States participation in the following international environmental organizations and conventions of which not more than—

(1) $650,000 for the fiscal year 1990 shall be available for dues and arrearages for United States contributions to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES);

(2) $231,000 for the fiscal year 1990 shall be available for dues and arrearages for United States contributions to the International Tropical Timber Organization (ITTO);

(3) $450,000 for the fiscal year 1990 shall be available to support United States participation in the World Heritage Convention; and

(4) $180,000 for the fiscal year 1990 shall be available to support United States participation in the International Union for the Conservation of Nature and Natural Resources.

SEC. 404. AUTHORIZATION OF APPROPRIATIONS FOR THE COMMISSION ON THE UKRAINE FAMINE.

There are authorized to be appropriated for the Commission on the Ukraine Famine $100,000 for the fiscal year 1990, which amount is authorized to remain available until expended.

SEC. 405. REFORM IN BUDGET DECISION-MAKING PROCEDURES OF THE UNITED NATIONS AND ITS SPECIALIZED AGENCIES.

(a) FINDINGS.—(1) The Congress finds that the United Nations and its specialized agencies have made progress in the formulation and implementation of budget reforms as called for by section 143 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987 (Public Law 99-93). Presidential determinations that were required by that and other laws confirm the progress that has been made in this respect.

(2) The Congress remains concerned about the need to make further progress to protect the independence of the international civil service working at the United Nations and urges the President to make vigorous efforts to this end.

(3) The Congress is specifically concerned with the practice of reserving certain professional staff slots in the United Nations Secretariat for nationals of certain member states, and urges the President to pursue vigorously a program of regular rotation in these staff positions among all member states of the United Nations.

(b) FINANCIAL RESPONSIBILITY IN BUDGET PROCEDURES.—To assure financial responsibility in preparation of the assessed budgets of the United Nations and its specialized agencies, it is the sense of the Congress that the President should continue vigorous efforts to ensure continued implementation by the United Nations and its specialized agencies of consensus-based decision-making procedures where applicable on budgetary matters which assure that sufficient attention is paid to the views of the United States and other member states who are major financial contributors to such assessed budgets.

(c) LIMITATION ON ASSESSED CONTRIBUTIONS.—

(1) For assessed contributions authorized to be appropriated by section 102(a)(1) of this Act, the President shall withhold 20 percent of the funds appropriated for the United States assessed contribution to the United Nations or to any of its specialized agencies for any calendar year until the President determines and reports to the Congress that the United Nations or any such agency—

(A) has continued implementation of decision-making procedures on budgetary matters referred to in subsection (b); and

(B) in the case of the United Nations—

(i) is making further progress toward the elimination of the abuse of secondment in the United Nations Secretariat which undermines the independence of the international civil service; and

(ii) is implementing the 15 percent reduction in the staff of the United Nations Secretariat (recommendation 15 of the Group of High Level Intergovernmental Experts to

Review the Efficiency of the Administrative and Financial Functioning of the United Nations (Group of 18)) and that such reduction is being equitably applied among the nationals on such staff.

(2) The President shall notify the Congress when each such determination is made. Each such notification shall include appropriate consultation between the President or his designated representative and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

SEC. 406. ANNUAL REPORT TO CONGRESS ON VOTING PRACTICES AT THE UNITED NATIONS.

(a) IN GENERAL.—Not later than March 31 of each year, the Secretary of State shall transmit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a full and complete annual report which assesses for the preceding calendar year, with respect to each foreign country member of the United Nations, the voting practices of the governments of such countries at the United Nations, and which evaluates General Assembly and Security Council actions and the responsiveness of those governments to United States policy on issues of special importance to the United States.

(b) INFORMATION ON VOTING PRACTICES IN THE UNITED NATIONS.—Such report shall include, with respect to voting practices and plenary actions in the United Nations during the preceding calendar year, information to be compiled and supplied by the Permanent Representative of the United States to the United Nations, consisting of—

(1) an analysis and discussion, prepared in consultation with the Secretary of State, of the extent to which member countries supported United States policy objectives at the United Nations;

(2) an analysis and discussion, prepared in consultation with the Secretary of State, of actions taken by the United Nations by consensus;

(3) with respect to plenary votes of the United Nations General Assembly—

(A) a listing of all such votes on issues which directly affected important United States interests and on which the United States lobbied extensively and a brief description of the issues involved in each such vote;

(B) a listing of the votes described in subparagraph (A) which provides a comparison of the vote cast by each member country with the vote cast by the United States;

(C) a country-by-country listing of votes described in subparagraph (A); and

(D) a listing of votes described in subparagraph (A) displayed in terms of United Nations regional caucus groups;

(4) a listing of all plenary votes cast by member countries of the United Nations in the General Assembly which provides a comparison of the votes cast by each member country with the vote cast by the United States;

(5) an analysis and discussion, prepared in consultation with the Secretary of State, of the extent to which other members supported United States policy objectives in the Security Council and a separate listing of all Security Council votes of each member country in comparison with the United States; and

(6) a side-by-side comparison of agreement on important and overall votes for each member country and the United States.

(c) FORMAT.—Information required pursuant to subsection (b)(3) shall also be submitted, together with an explanation of the statistical methodology, in a format identical to that contained in chapter II of the Report to Congress on Voting Practices in the United Nations, dated March 14, 1988.

(d) STATEMENT BY THE SECRETARY OF STATE.—Each report under subsection (a) shall contain a statement by the Secretary of State discussing the measures which have been taken to inform United States diplomatic missions of United Nations General Assembly and Security Council activities.

(e) TECHNICAL AND CONFORMING AMENDMENTS.—The following provisions of law are repealed:

(1) The second undesignated paragraph of section 101(b)(1) of the Foreign Assistance and Related Programs Appropriations Act, 1984 (Public Law 98-151; 97 Stat. 967).

(2) Section 529 of the Foreign Assistance and Related Programs Appropriations Act, 1986, as enacted by Public Law 99-190 (99 Stat. 1307).

(3) Section 528 of the Foreign Assistance and Related Programs Appropriations Act, 1987, as enacted by Public Law 99-500 (100 Stat. 1783) and Public Law 99-591 (100 Stat. 3341).

(4) Section 528 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, as enacted by Public Law 100-202 (101 Stat. 1329).

(5) Section 527 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, as enacted by Public Law 100-461.

SEC. 407. DENIAL OF VISAS TO CERTAIN REPRESENTATIVES TO THE UNITED NATIONS.

(a) IN GENERAL.—The President shall use his authority, including the authorities contained in section 6 of the United Nations Headquarters Agreement Act (Public Law 80-357), to deny any individual's admission to the United States as a representative to the United Nations if the President determines that such individual has been found to have been engaged in espionage activities directed against the United States or its allies and may pose a threat to United States national securrity interests.

(b) WAIVER.—The President may waive the provisions of subsection (a) if the President determines, and so notifies the Congress, that such a waiver is in the national security interests of the United States.

SEC. 408. POLICY ON UNESCO.

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) the United States withdrew from the United Nations Educational, Scientific and Cultural Organization (UNESCO) on December 31, 1984, in response to grave and persistent problems in UNESCO under the then-Director General;

(2) chief among these problems was the assault on the free flow of information supported by that Director General and the pervasive ideological conflict fomented by the alliance between totalitarian and developing nations;

(3) UNESCO has since acquired a new Director General, Federico Mayor, who has pledged his support for the free flow of information, the return of UNESCO to the principles enunciated in its Charter, and other needed changes in UNESCO policy;

(4) Soviet Foreign Minister Eduard Shevardnadze stated on October 11, 1988, that the Soviet Union was responsible for "the exaggerated ideological approach [that] undermined tolerance intrinsic to UNESCO," and stated that Soviet policy would improve in this regard;

(5) substantial progress remains to be made in implementing the reforms proposed by the new Director General and in determining the degree to which ideological conflict has actually declined; and

(6) when the United States withdrew from UNESCO, the policy of the United States was that at such time as satisfactory changes were achieved in UNESCO, the United States would act on reentry.

(b) POLICY.—It is the sense of the Congress that the Secretary of State should monitor closely the changes achieved in UNESCO and should work with United States allies and the UNESCO leadership to continue to promote the progress necessary to justify United States consideration of reentry into UNESCO.

(c) REPORT REQUIRED.—Not later than 60 days after the date of the enactment of this Act, the Secretary of State shall prepare and submit to the Congress a report on the activities after December 31, 1984, of the United Nations Educational, Scientific, and Cultural Organization.

SEC. 409. UNITED STATES COMMISSION ON IMPROVING THE EFFECTIVENESS OF THE UNITED NATIONS.

Section 727 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204) is amended in subsection (b) by inserting "the greater of" after "than".

SEC. 410. CONTRIBUTION TO THE REGULAR BUDGET OF THE INTERNATIONAL COMMITTEE OF THE RED CROSS.

Notwithstanding section 742 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989 (Public Law 100-204), for each of the fiscal years 1990 and 1991, the Secretary of State shall not be required to make an annual contribution to the regular budget of the International Committee of the Red Cross of an amount which is greater than 10 percent of the 1989 regular budget of the International Committee of the Red Cross.

SEC. 411. SENSE OF CONGRESS CONCERNING AN ENHANCED ROLE FOR THE INTERNATIONAL COURT OF JUSTICE IN RESOLUTION OF INTERNATIONAL DISPUTES.

(a) FINDINGS.—The Congress makes the following findings:

(1) In 1945, the United States supported the establishment of the International Court of Justice (ICJ) to provide for the orderly resolution of disputes among nations under the rule of law.

(2) The United States, pursuant to Article 93 of the Charter of the United Nations, is also a party to the Statute of the International Court of Justice which provides in Article 36(1) that the International Court of Justice will have jurisdiction over "all cases which the parties refer to it and all matters specially provided for in the Charter of the United Nations or in treaties and conventions in force".

(3) In August 1946, the United States, pursuant to Senate advice and consent (61 Stat. 1218), voluntarily accepted the compulsory jurisdiction of the International Court of Justice in other international disputes under Article 36(2) of the Statute of the International Court of Justice, on certain conditions, and maintained such recognition for four decades from 1946 to 1986 when United States acceptance was terminated.

(4) The United States has utilized the International Court of Justice on numerous occasions to resolve disputes with other nations.

(5) In April 1984, the United States notified the Secretary General of the United Nations that the United States was suspending for two years its acceptance of the compulso-

ry jurisdiction of the International Court of Justice in cases relating to Central America.

(6) In 1985, the United States announced it was terminating, in whole, United States acceptance (effective April 1, 1986) of the compulsory jurisdiction of the International Court of Justice.

(7) The Soviet Union, as a member of the United Nations, is also a party to the Statute of the International Court of Justice and is thus bound by Article 36(1).

(8) The Soviet Union, unlike the United States, has not since the inception of the International Court of Justice voluntarily accepted the compulsory jurisdiction of the ICJ under Article 36(2) or taken any other case voluntarily to the court.

(9) Soviet leader Mikhail Gorbachev, in his address to the United Nations in December of 1988 said: "We believe that the jurisdiction of the International Court of Justice at the Hague as regards the interpretation and implementation of agreements on human rights should be binding on all states.".

(10) The Legal Adviser of the State Department is holding discussions with Soviet officials and representatives of other permanent members of the United Nations Security Council and other states to determine whether and how the International Court of Justice might be used for the peaceful settlement of international disputes through procedures that assure fairness and the protection of legitimate national interests.

(b) SENSE OF CONGRESS.—The Congress commends and strongly supports efforts by the United States to broaden, where appropriate, the compulsory jurisdiction and enhance the effectiveness of the International Court of Justice.

SEC. 412. INTERNATIONAL BOUNDARY AND WATER COMMISSION.

(a) AUTHORIZATION.—Title I of the Act of June 20, 1956 (70 Stat. 302; 22 U.S.C. 277d-12), is amended in the fourth undesignated paragraph under the heading "INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO"—

(1) by inserting "or sanitation" after "flood control"; and

(2) by inserting before the period at the end thereof the following: ", the Colorado or Tijuana Rivers, and for taking emergency actions to protect against health threatening sanitation problems by repairing or replacing existing capital infrastructure along the United States-Mexico Boundary".

(b) RESTRICTIONS.—The Act of May 13, 1924, as amended (49 Stat. 660; 22 U.S.C. 277-277f), is amended—

(1) in section 3 (22 U.S.C. 277b) by—

(A) by inserting "(1)" after "authorized";

(B) by striking out "and (b)" and inserting in lieu thereof "(2)";

(C) by inserting before the period at the end thereof the following: "; and (3) to carry out preliminary surveys, operations, and maintenance of the interceptor system constructed to intercept sewage flows from Tijuana from selected canyon areas"; and

(D) by adding at the end thereof the following new subsections:

"(b) Expenditures for the Rio Grande bank protection project shall be subject to the provisions and conditions made with respect to that project in the first undesignated paragraph under the heading 'INTERNATIONAL OBLIGATIONS' contained in the Act of April 25, 1945 (59 Stat. 89).

"(c) The Anzalduas diversion dam shall not be operated for irrigation or water supply purposes in the United States unless suitable arrangements have been made with the prospective water users for repayment to the Government of the United States for such portions of the dam as shall have been allocated to such purposes by the Secretary of State."; and

(2) in section 2 (49 Stat. 660; 22 U.S.C. 277a) by striking out "and stabilization" and inserting in lieu thereof "stabilization, drainage of transboundary storm waters,".

SEC. 413. REVIEW OF MULTILATERAL AND BILATERAL COMMISSIONS.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall prepare and submit a report to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate which provides a review of United States participation in all multilateral and bilateral commissions for which appropriations are authorized to be made under the "International Commissions" account of the Department of State. Together with such comments and recommendations as the Secretary considers appropriate, such report shall include—

(1) a justification for United States participation in each multilateral or bilateral commission;

(2) an assessment of the effectiveness of each multilateral or bilateral commission in which the United States participates; and

(3) information concerning the cost of United States participation in each such commission.

SEC. 414. MEMBERSHIP OF THE PALESTINE LIBERATION ORGANIZATION IN UNITED NATIONS AGENCIES.

(a) PROHIBITION.—No funds authorized to be appropriated by this Act or any other Act shall be available for the United Nations or any specialized agency thereof which accords the Palestine Liberation Organization the same standing as member states.

(b) TRANSFER OR REPROGRAMMING.—Funds subject to the prohibition contained in subsection (a) which would be available for the United Nations or any specialized agency thereof (but for that prohibition) are authorized to remain available until expended and may be reprogrammed or transferred to any other account of the Department of State or the Agency for International Development to carry out the general purposes for which such funds were authorized.

SEC. 415. SENSE OF CONGRESS CONCERNING THE UNITED NATIONS RELIEF AND WORKS AGENCY FOR PALESTINIAN REFUGEES IN THE NEAR EAST (UNRWA).

(a) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) international burdensharing of the costs of the United Nations Relief and Works Agency for Palestinian Refugees in the Near East (UNRWA) is crucial to the survival of such organization;

(2) the Secretary of State should redouble the efforts of the Department of State to promote international burdensharing of the costs of UNRWA's operations; and

(3) regular and substantial contributions by the Arab states to the budget of the United Nations Relief and Works Agency for Palestinian Refugees in the Near East would reflect the commitment of Arab states to a peaceful political settlement in the Middle East.

(b) REPORT TO CONGRESS.—The Secretary of State shall prepare and submit a report on progress being made to promote international burdensharing of the costs of the United Nations Relief and Works Agency for Palestinian Refugees in the Near East (UNRWA) to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

SEC. 416. UNITED NATIONS SPONSORSHIP OF A MIDDLE EAST PEACE CONFERENCE.

(a) FINDINGS.—The Congress finds that—

(1) the General Assembly of the United Nations adopted Resolution No. 3379 on November 10, 1975, maintaining that Zionism constituted a form of racism;

(2) most of the proposals for an international peace conference regarding the Middle East have identified the United Nations as the sponsoring organization for such a conference;

(3) all international diplomatic participants in any potential Middle East peace conference must acknowledge the sovereignty of the State of Israel and the right of its citizens to live within secure and permanent boundaries;

(4) United Nations General Assembly Resolution No. 3379 of November 10, 1975, damages the credibility of the General Assembly as a forum for furthering the search for peace in the Middle East; and

(5) the United States does not favor an international conference on the Middle East at this time, and believes that the Israeli proposal for elections that was advanced in May 1989 is the best available vehicle for furthering the Middle East peace process.

(b) POLICY.—The Congress declares, therefore, that—

(1) the United States should use all appropriate means to obtain rescission by the United Nations General Assembly of Resolution No. 3379 and calls upon the General Assembly to do so; and

(2) so long as that resolution remains in effect, the General Assembly and all affiliated agencies of the United Nations constitute an inappropriate forum for the sponsorship of any international conference on the Arab-Israeli conflict.

SEC. 417. CONTRIBUTIONS FOR PEACEKEEPING ACTIVITIES IN SOUTHERN AFRICA.

(a) ASSURANCES THAT ALL CUBAN TROOPS WILL BE WITHDRAWN.—The United States may not, after the date of enactment of this Act, expend any funds authorized to be appropriated by this Act for a contribution or any other assistance with respect to implementation of the Tripartite Agreement until the President certifies to the Congress that—

(1) the United States has received explicit and reliable assurances from each of the parties to the Bilateral Agreement that all Cuban troops will be withdrawn from Angola by July 1, 1991, and that no Cuban troops will remain in Angola after that date; and

(2) the Secretary General of the United Nations has assured the United States that it is his understanding that all Cuban troops will be withdrawn from Angola by July 1, 1991, and that no Cuban troops will remain in Angola after that date.

(b) CONTRIBUTIONS CONDITIONAL ON COMPLIANCE.—The United States may not expend any funds authorized to be appropriated by this Act for a contribution or any other assistance with respect to implementation of the Tripartite Agreement—

(1) if the Government of Cuba fails at any time to comply with any of its obligations under Article 1 of the Bilateral Agreement (relating to the calendar for redeployment and withdrawal of Cuban troops); or

(2) if any Cuban troops remain in Angola after July 1, 1991.

(c) REPORTS TO CONGRESS, COMPLIANCE WITH OBLIGATIONS.—Not more than 15 days after each scheduled phase of the redeployment northward and withdrawal of Cuban troops pursuant to the Bilateral Agreement, the President shall submit to the appropri-

ate congressional committees a report on whether each of the signatories of the Tripartite Agreement is complying with its obligations under the agreement. Whenever he has determined that a material breach of the Tripartite Agreement may have been committed by any of the signatories to that agreement, the President shall so report to the appropriate congressional committees.

(d) DISBURSEMENTS.—Of the amount authorized to be appropriated to be made available for contribution with respect to implementation of the Agreement Among the People's Republic of Angola, the Republic of Cuba, and the Republic of South Africa signed at the United Nations on December 22, 1988 (hereinafter known as the Tripartite Agreement) 50 percent of the annual amount shall be available on October 1, 1989, and the remaining 50 percent on April 1, 1990, only if the President determines and certifies to the appropriate congressional committees as of each date that (1) each of the signatories to the Tripartite Agreement is in compliance with its obligations under the Agreement, (2) the Government of Cuba has complied with its obligations under Article 1 of the Bilateral Agreement (relating to the calendar for redeployment and withdrawal of Cuban troops), (3) the Cubans have not engaged in any offensive military actions against UNITA, including the use of chemical warfare, (4) the United Nations and its affiliated agencies have terminated all funding and other support, in conformity with the United Nations impartiality package, to the South West Africa People's Organization (SWAPO), and (5) the United Nations Angola Verification Mission is demonstrating diligence, impartiality, and professionalism in verifying the departure of Cuban troops and the recording of any troop rotations.

(e) Funding of these activities by the United States may not be construed as constituting recognition of any government in Angola.

(f) For purposes of this section—

(1) the term "Bilateral Agreement" means the Agreement Between the Governments of the People's Republic of Angola and the Republic of Cuba for the Termination of the International Mission of the Cuban Military Contingent, signed at the United Nations on December 22, 1988;

(2) the term "Tripartite Agreement" means the Agreement Among the People's Republic of Angola, the Republic of Cuba, and the Republic of South Africa, signed at the United Nations on December 22, 1988; and

(3) the term "appropriate congressional committees" means the Committees on Appropriations, Foreign Affairs, and Permanent Select Committee on Intelligence of the House of Representatives, and the Committees on Appropriations, Foreign Relations, and the Select Committee on Intelligence of the Senate.

TITLE V—ASIA FOUNDATION

SEC. 501. AUTHORIZATION OF APPROPRIATIONS.

Section 404 of The Asia Foundation Act (22 U.S.C. 4403) is amended to read as follows:

"SEC. 404. FUNDING.

"(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of State $13,900,000 for the fiscal year 1990 and $18,000,000 for the fiscal year 1991 for grants to The Asia Foundation pursuant to this title.

"(b) ALLOCATION OF FUNDS.—Of amounts authorized to be appropriated under subsection (a), $1,324,000 for the fiscal year 1990 and $1,324,000 for the fiscal year 1991 shall be available only for the expansion of programs and services (including the establishment of a field office) for Oceania, comprised of Polynesia, Micronesia, and Melanesia.".

TITLE VI—INTER-AMERICAN FOUNDATION

SEC. 601. AUTHORIZATION OF APPROPRIATIONS.

Section 401 of the Inter-American Foundation Act (22 U.S.C. 290f) is amended in subsection (s)(2) by striking out the first sentence and inserting in lieu thereof "There are authorized to be appropriated $16,932,000 for the fiscal year 1990 and $25,000,000 for the fiscal year 1991 to carry out the purposes of this section.".

TITLE VII—REFUGEE AND OTHER PROVISIONS

SEC. 701. UNITED NATIONS HIGH COMMISSIONER FOR REFUGEES AUDIT REQUIREMENT.

Subsection (a) of section 8 of the Migration and Refugee Assistance Act of 1962 (22 U.S.C. 2606) is amended to read as follows:

"(a) PROGRAM AUDITS.—Funds may not be available to the United Nations High Commissioner for Refugees (UNHCR) under this or any other Act unless provision is made for—

"(1) annual program audits to determine the use of UNHCR funds, including the use of such funds by implementing partners; and

"(2) such audits are made available through the Department of State for inspection by the Comptroller General of the United States.".

SEC. 702. TIBETAN AND BURMESE REFUGEES.

(a) TIBETAN REFUGEES.—Of the amounts authorized to be appropriated by section 104(a)(1) for the Department of State for "Migration and Refugee Assistance" $500,000 for the fiscal year 1990 and $500,000 for the fiscal year 1991 shall be available only for assistance for displaced Tibetans in India and Nepal. The Secretary of State shall determine the best means for providing such assistance.

(b) BURMESE REFUGEES.—Of the amounts authorized to be appropriated by section 104(a)(1) for the Department of State for "Migration and Refugee Assistance" $250,000 for the fiscal year 1990 and $250,000 for the fiscal year 1991 shall be available only for humanitarian assistance for displaced Burmese on both sides of the border between Thailand and Burma.

SEC. 703. REPORT REGARDING BURMESE STUDENTS.

(a) REPORTING REQUIREMENT.—Not later than 30 days after the date of enactment of this Act, the Secretary of State, in consultation with the Attorney General, shall submit to the Committee on Foreign Relations and the Committee on the Judiciary of the Senate and the Committee on Foreign Affairs and the Committee on the Judiciary of the House of Representatives a report on the immigration and refugee policy of the United States regarding Burmese pro-democracy protesters who have fled from the military government of Burma and are now located in border camps or inside Thailand. Specifically, the report shall include—

(1) a description of the number and location of such persons in border camps in Burma, inside Thailand, and in third countries;

(2) the number of visas, parole applications, applications for refugee status, and approvals for such persons by the United States and the feasibility of using parole or the need for creating statutory alternatives to parole to facilitate the entry of such persons;

(3) the immigration policy of Thailand and other countries from which such persons have sought immigration assistance;

(4) the involvement of international organizations, such as the United Nations High Commission for Refugees, in meeting the residency needs of such persons; and

(5) the involvement of the United States, other countries, and international organizations in meeting the humanitarian needs of such persons.

(b) RECOMMENDATIONS FOR LEGISLATIVE CHANGES.—The Secretary of State shall recommend in the report required by subsection (a) any policy or legislative changes he deems appropriate to meet the asylum, refugee, parole, or visa status needs of such persons.

(c) DEFINITION.—As used in this section, the term "pro-democracy protester" means any person who has fled from the current military regime of Burma since the outbreak of pro-democracy demonstrations in Burma in 1988.

SEC. 704. THE TREATMENT OF THE TURKISH MINORITY BY THE GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BULGARIA AND BULGARIAN REFUGEES IN TURKEY.

(a) FINDINGS.—The Congress finds that—

(1) the Government of the People's Republic of Bulgaria is a signatory to the 1947 Paris Peace Treaty, the Universal Declaration on Human Rights by the United Nations, and the Final Act of the Conference on Security and Cooperation in Europe (also known as the Helsinki Accords);

(2) the Helsinki Accords express the commitment of the participating states to respect the fundamental freedoms of conscience, religion, expression, and emigration, and to guarantee the rights of minorities;

(3) the 1971 Constitution of the People's Republic of Bulgaria declares that fundamental rights will not be restricted because of distinction of national origin, race, or religion, and guarantees minorities the rights to study in their mother tongue and freely practice their religion;

(4) despite its international obligations and constitutional guarantees, the Government of the People's Republic of Bulgaria has taken numerous steps to repress Turkish language and culture, including prohibiting the study of the Turkish language in schools, banning the use of the Turkish language in public, making the receipt and reading of Turkish publications a punishable act, and jamming the reception of Turkish radio and television programs in Bulgaria;

(5) the right of the ethnic Turkish community to freedom of religion has been severely circumscribed by the Government of the People's Republic of Bulgaria, which has closed a number of mosques and barred the importation of copies of the Koran;

(6) emigration by ethnic Turks and others has been banned with only a few exceptions;

(7) beginning in December 1984, the Bulgarian authorities forced the Turkish minority to change their Turkish names to Bulgarian ones, and hundreds of ethnic Turks were killed, injured, or arrested by Bulgarian forces in 1984 and 1985 when they protested this new policy;

(8) the Bulgarian authorities have used both force and coercion to resettle ethnic Turks from their local villages to areas in Bulgaria with small Turkish populations;

(9) in May 1989, Bulgarian troops and police attacked ethnic Turks and others who were peacefully demonstrating against their discriminatory treatment in Bulgaria;

(10) hundreds of demonstrators were killed or wounded in these attacks, and hundreds more were arrested; and

(11) since these demonstrations, the Government of the People's Republic of Bulgaria has forcibly expelled or coerced into emigrating to Turkey thousands of ethnic Turks without either their money or their possessions, often resulting in the separation of families.

(b) POLICY.—It is the sense of the Congress that the Congress—

(1) strongly condemns the brutal treatment of, and blatant discrimination against, the Turkish minority by the Government of the People's Republic of Bulgaria;

(2) calls upon the Bulgarian authorities to immediately cease all discriminatory practices against this community and to release all ethnic Turks and others currently imprisoned because of their participation in nonviolent political acts;

(3) calls upon the Government of Bulgaria to honor its obligations and public statements concerning the right of all Bulgarian citizens to emigrate freely; and

(4) urges the President and Secretary of State to make strong diplomatic representations to Bulgaria protesting its discriminatory treatment of its Turkish minority and to raise this issue in all appropriate international forums, including the Conference on Security and Cooperation in Europe meeting on the environment in Sofia, Bulgaria, this year.

(b) ALLOCATION OF FUNDS FOR ASSISTANCE TO CERTAIN TURKISH REFUGEES.—Of the funds authorized to be appropriated by section 104(a)(1) for the fiscal year 1990, $10,000,000 shall be available only to the Republic of Turkey for assistance for shelter, food, and other basic needs to ethnic Turkish refugees fleeing the People's Republic of Bulgaria and resettling in the sovereign territory of Turkey.

TITLE VIII—PLO COMMITMENTS COMPLIANCE ACT OF 1989

SEC. 801. SHORT TITLE.

This title may be cited as the "PLO Commitments Compliance Act of 1989".

SEC. 802. FINDINGS.

The Congress finds that—

(1) United States policy regarding contracts with the Palestine Liberation Organization (including its Executive Committee, the Palestine National Council, and any constituent groups related thereto (hereafter in this title referred to as the "PLO")) set forth in the Memorandum of Agreement between the United States and Israel, dated September 1, 1975, stated that the United States "will not recognize or negotiate with the Palestine Liberation Organization so long as the PLO does not recognize Israel's right to exist and does not accept United Nations Security Council Resolutions 242 and 338";

(2) section 1302 of the International Security and Development Cooperation Act of 1985 (22 U.S.C. 2151 note; Public Law 99-83), effective October 1, 1985, stated that "no officer or employee of the United States Government and no agent or other individual acting on behalf of the United States Government shall negotiate with the PLO or any representatives thereof (except in emergency or humanitarian situations) unless and until the PLO recognizes Israel's right to exist, accepts United Nations Security Council Resolutions 242 and 338, and renounces the use of terrorism";

(3) the Department of State statement of November 26, 1988, found that "the United States Government has convincing evidence that PLO elements have engaged in terrorism against Americans and others" and that "Mr. [Yasser] Arafat, Chairman of the PLO, knows of, condones, and lends support to such acts; he therefore is an accessory to such terrorism";

(4) Secretary of State Shultz declared on December 14, 1988, that "the [PLO] today issued a statement in which it accepted United Nations Security Council Resolutions 242 and 338, recognized Israel's right to exist in peace and security, and renounced terrorism. As a result, the United States is prepared for a substantive dialogue with PLO representatives";

(5) President Ronald Reagan, subsequent to the decision to open a United States-PLO dialogue, stated that the PLO "must demonstrate that its renunciation of terrorism is pervasive and permanent" and if the PLO reneges on its commitments, the United States "will certainly break off communications";

(6) since the United States agreed to enter into a dialogue with the PLO, there have been several attempted incursions into Israel by the following PLO-affiliated groups: the Popular Struggle Front, the Palestine Liberation Front, the Democratic Front for the Liberation of Palestine, and the Islamic Jihad group;

(7) Yasser Arafat has not renounced any of these incidents, that he has threatened "ten bullets in the chest" to those Palestinians who advocate a cessation of the unrest, and that his principal deputy, Abu Iyad, as well as other senior Al-Fatah figures, have been quoted as saying that the PLO recognition of Israel and renunciation of terrorism is merely tactical and that a Palestinian state is but the first step in the "liberation of Palestine"; and

(8) that the United States should regularly evaluate the PLO's compliance with the commitments made by Yasser Arafat on behalf of the PLO in Geneva on December 14, 1988.

SEC. 803. POLICY.

(a) IN GENERAL.—The Congress reiterates long-standing United States policy that any dialogue with the PLO be contingent upon the PLO's recognition of Israel's right to exist, its acceptance of United Nations Security Council Resolutions 242 and 338, and its abstention from and renunciation of all acts of terrorism.

(b) POLICY TOWARD IMPLEMENTATION OF PLO COMMITMENTS.—It is the sense of the Congress that the United States, in any discussions with the PLO, should seek—

(1) the prevention of terrorism and other violent activity by the PLO or any of its factions; and

(2) the implementation of concrete steps by the PLO consistent with its commitments to recognize Israel and renounce terrorism, including concrete actions that will further the peace process such as—

(A) disbanding units which have been involved in terrorism;

(B) publicly condemning all acts of terrorism;

(C) ceasing the intimidation of Palestinians who advocate a cessation of or who do not support the unrest;

(D) calling on the Arab states to recognize Israel and to end their economic boycott of Israel; and

(E) amending the PLO's Covenant to remove provisions which undermine Israel's legitimacy and which call for Israel's destruction.

(c) POLICY TOWARD RECENT ARMED INCURSIONS INTO ISRAEL BY PLO-AFFILIATED GROUPS.—During the next round of talks with the PLO, should such talks occur after the date of enactment of this Act, the representative of the United States should obtain from the representative of the PLO a full accounting of the following attempted incursions into Israel which occurred after Yasser Arafat's statement of December 14, 1988:

(1) On December 26, 1988, an attempted armed infiltration into Israel by boat by four members of the PLO-affiliated Popular Struggle Front.

(2) On December 28, 1988, an attempted armed infiltration into Israel by three members of the PLO-affiliated Palestine Liberation Front.

(3) On January 24, 1989, an unprovoked attack on an Israeli patrol in Southern Lebanon by the PLO-affiliated Palestine Liberation Front.

(4) On February 5, 1989, an attempted armed infiltration into Israel by nine members of the PLO-affiliated Palestine Liberation Front and Popular Front for the Liberation of Palestine.

(5) On February 23, 1989, an attempted attack on targets in Israel by members of the PLO-affiliated Democratic Front for the Liberation of Palestine.

(6) On February 27, 1989, a PLO-affiliated Popular Front for the Liberation of Palestine ambush of a pro-Israeli Southern Lebanese army vehicle.

(7) On March 2, 1989, an attempted armed infiltration into Israel by four members of the PLO-affiliated Democratic Front for the Liberation of Palestine headed for the civilian town of Zarit.

(8) On March 13, 1989, an attempted armed infiltration into Israel by three members of the PLO-aligned Palestine Liberation Front.

(9) On March 15, 1989, an attempted attack on Israel through Gaza by two members of the Islamic Jihad group.

SEC. 804. REPORTING REQUIREMENT.

(a) REPORT ON ARMED INCURSIONS.—In the event that talks are held with the PLO after the date of enactment of this Act, the Secretary of State, shall, within 30 days after the next round of such talks, report to the Chairman of the Committee on Foreign Affairs of the Senate and the Speaker of the House of Representatives any accounting provided by the representative of the PLO of the incidents described in section 803(c).

(b) REPORT ON COMPLIANCE WITH COMMITMENTS.—Beginning 30 days after the date of enactment of this Act, and every 120 days thereafter in which the dialogue between the United States and the PLO has not been discontinued, the President shall submit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report, in unclassified form to the maximum extent practicable, regarding progress toward the achievement of the measures described in section 803(b). Such report shall include—

(1) a description of actions or statements by the PLO as an organization, its Chairman, members of its Executive Committee, members of the Palestine National Council, or any constituent groups related thereto, as they relate to the Geneva commitments of December 1988 regarding cessation of terrorism and recognition of Israel's right to exist, including actions or statements that contend that the declared "Palestinian state" encompasses all of Israel;

(2) a description of the steps, if any, taken by the PLO to evict or otherwise discipline

individuals or groups taking actions inconsistent with the Geneva commitments;

(3) a statement of whether the PLO, in accordance with procedures in Article 33 of the Palestinian National Covenant, has repealed provisions in that Covenant which call for Israel's destruction;

(4) a statement of whether the PLO has repudiated its "strategy of stages" whereby it seeks to use a Palestinian state in the West Bank and Gaza as the first step in the total elimination of the state of Israel;

(5) a statement of whether the PLO has called on any Arab state to recognize and enter direct negotiations with Israel or to end its economic boycott of Israel;

(6) a statement of whether "Force 17" and the "Hawari Group", units directed by Yasser Arafat that have carried out terrorist attacks, have been disbanded and not reconstituted under different names;

(7) a statement of whether the following PLO constituent groups conduct or participate in terrorist or other violent activities: the Fatah; the Popular Front for the Liberation of Palestine; the Democratic Front for the Liberation of Palestine; the Arab Liberation Front; the Palestine Liberation Front;

(8) a statement of the PLO's position on the unrest in the West Bank and Gaza, and whether the PLO threatens, through violence or other intimidation measures, Palestinians in the West Bank and Gaza who advocate a cessation of or who do not support the unrest, and who might be receptive to taking part in elections there;

(9) a statement of the position of the PLO regarding the prosecution and extradition, if so requested, of known terrorists such as Abu Abbas, who directed the Achille Lauro hijacking during which Leon Klinghoffer was murdered, and Muhammed Rashid, implicated in the 1982 bombing of a Pan Am jet and the 1986 bombing of a TWA jet in which four Americans were killed; and

(10) a statement of the position of the PLO on providing compensation to the American victims or the families of American victims of PLO terrorism.

(c) REPORT ON POLICIES OF ARAB STATES.—Not more than 30 days after the date of enactment of this Act, the Secretary of State shall prepare and submit to the Congress a report concerning the policies of Arab states toward the Middle East peace process, including progress toward—

(1) public recognition of Israel's right to exist in peace and security;

(2) ending the Arab economic boycott of Israel; and

(3) ending efforts to expel Israel from international organizations or denying participation in the activities of such organizations.

TITLE IX—PEOPLE'S REPUBLIC OF CHINA

SEC. 901. FINDINGS AND STATEMENTS OF POLICY.

(a) FINDINGS.—The Congress finds that—

(1) on June 4, 1989, the Government of the People's Republic of China ordered an unprovoked, brutal, and indiscriminate assault on thousands of peaceful and unarmed demonstrators and onlookers in and around Tiananmen Square by units of the People's Liberation Army, which resulted in at least 1,000 deaths and several thousand injuries;

(2) the Chinese Government has executed dozens of individuals who participated in prodemocracy demonstrations or who protested the brutal military assault against peaceful demonstrators;

(3) the Government of the People's Republic of China is engaging in widespread mass arrests in the aftermath of the June 4, 1989, military assault in Tiananmen Square, which have resulted in the arrests of thousands of students, workers, and other civilians so far;

(4) independent international human rights organizations, such as Amnesty International and Asia Watch, have documented daily incidences of arbitrary arrests, torture, and beatings by police and military forces in the People's Republic of China;

(5) the Chinese Government has established telephone hotlines and other local communications networks for the express purpose of identifying and imprisoning prodemocracy supporters and political dissidents throughout the country;

(6) officials of the Chinese Government have grossly distorted the Government's actions to suppress the prodemocracy movement, including the clandestine disposal of the bodies of demonstrators without informing their families, and have consistently denied that the massacre in and around Tiananmen Square took place or that abuses of human rights have occurred;

(7) in an effort to conceal the truth about the Chinese Government's brutal suppression of the prodemocracy movement, foreign journalists have been expelled and Voice of America broadcasts are being jammed;

(8) in view of the widespread and continuing repression, noted Chinese intellectuals and advocates of peaceful democratic reform, Fang Lizhi and Li Shuxian, sought refuge at the United States Embassy in Beijing on June 3, 1989, and the United States exercised its prerogatives under longstanding practices of diplomatic missions by granting them refuge; and

(9) the President has condemned the actions of the leaders of the People's Republic of China against participants in the prodemocracy movement in China and has taken several concrete steps to respond to the repression of the movement, including—

(A) suspending all exports of items on the United States Munitions List, including arms and defense related equipment, to the People's Republic of China;

(B) suspending high level government-to-government contact between the United States and the People's Republic of China;

(C) extending the visas of nationals of the People's Republic of China currently in the United States;

(D) offering humanitarian and medical assistance to the injured through the Red Cross;

(E) instructing United States representatives to international financial institutions to seek delay in the consideration of loan requests that are made to those financial institutions and would benefit the People's Republic of China;

(F) suspending action on applications for the issuance by the Overseas Private Investment Corporation of new insurance and financing of investments in the People's Republic of China by United States investors;

(G) opposing the further liberalization of the guidelines of the group known as the Coordinating Committee (COCOM) regarding trade with the People's Republic of China;

(H) taking no further action to implement the agreement for cooperation between the United States and the People's Republic of China relating to the uses of nuclear energy, thereby foreclosing the issuance of new licenses; and

(I) suspending the license for the export of any United States manufactured satellites for launch on launch vehicles owned by the People's Republic of China, including the two Aussat satellites and the Asiasat satellite.

(b) Statements of Policy.—It is the sense of the Congress that—

(1) the President is to be commended for his clear articulation of United States condemnation of the actions of the Government of the People's Republic of China in the killing and persecution of the participants of the prodemocracy movement in the People's Republic of China, and for the responses and measures by the President against the People's Republic of China, which the Congress supports;

(2) the consultative approach that the President has used in coordinating with other countries the United States response to the atrocities committed by the leaders of the People's Republic of China should be supported;

(3) it is essential that the United States speak in a bipartisan and unified voice in response to the events in the People's Republic of China, and that the President be given the necessary flexibility to respond to rapidly changing situations so that the long-term interests of the United States are not damaged;

(4) in this vein, the President should continue to emphasize to the leaders of the Government of the People's Republic of China that resumption of normal diplomatic and military relations between the United States and the People's Republic of China will depend directly on the Chinese Government's halting of executions of prodemocracy movement supporters, releasing those imprisoned for their political beliefs, and increasing respect for internationally recognized human rights;

(5) because human rights violations in a country as populous as the People's Republic of China may have serious implications for the stability of the Asia-Pacific region, the United Nations should, in order to further regional security and peace, condemn the violent repression, mass arrests, abuse of African students, and executions of peaceful demonstrators by the Government of the People's Republic of China and urge the Chinese Government to enter into negotiations with representatives of the prodemocracy movement;

(6) United States policy toward the People's Republic of China should be explicitly linked with the situation in Tibet, specifically as to whether—

(A) martial law is lifted in Lhasa and other parts of Tibet;

(B) Tibet is open to foreigners, including representatives of the international press and of international human rights organizations;

(C) Tibetan political prisoners are released; and

(D) the Government of the People's Republic of China is entering into negotiations with representatives of the Dalai Lama on a settlement of the Tibetan question;

(7) with respect to Hong Kong—

(A) the President should convey to the leaders of the People's Republic of China the importance of living up to its international undertaking with respect to the 1984 Joint Declaration for the future prosperity and stability of Hong Kong; and

(B) the Secretary of State should convey to the Government of the United Kingdom the strong concern of the United States for continued respect for human rights in Hong Kong, and the need to accelerate progress toward representative government through free and fair direct elections;

(8) the United States should offer admission to the United States to any national of the People's Republic of China who is under

threat of severe penalty as a result of participating in prodemocracy activities; and

(9) the President should be commended for his courageous and appropriate action, in accordance with the Vienna Convention on Diplomatic Relations and customary international law, in swiftly providing temporary refuge to Fang Lizhi and Li Shuxian at the United States Embassy in Beijing, and the President should continue to provide refuge to those individuals to ensure their personal safety.

(c) ADDITIONAL MEASURES.—It is further the sense of the Congress that, in addition to the measures already taken or required to be taken by this title—

(1) because systematic repression in China continues, the President should urge the Export-Import Bank of the United States to continue to postpone approval of any application for financing United States exports to the People's Republic of China;

(2) under the direction of the Secretary of the Treasury, the United States executive directors of the appropriate international financial institutions should continue to oppose the extension of loans or any other financial assistance by such institutions to the People's Republic of China;

(3) if systematic repression in China deepens, the President should review—

(A) the advisability of continuing to extend most-favored-nation (MFN) trade treatment to Chinese products;

(B) all bilateral trade agreements between the United States and the People's Republic of China;

(C) the bilateral commercial agreements governing Chinese-American cooperation on satellite launches; and

(D) the Chinese-American Agreement for Cooperation on the Peaceful Uses of Atomic Energy, signed at Washington on July 23, 1985;

(4) if systematic repression in China deepens, the President should consult—

(A) with the members of the group known as the Coordinating Committee (COCOM) for the purpose of reviewing the current favorable treatment accorded to high technology exports to the People's Republic of China; and

(B) with the other signatories of the General Agreement on Tariffs and Trade (GATT) for the purpose of reviewing the People's Republic of China's observer status at meetings on GATT and reassessing the People's Republic of China's right to accede to GATT.

SEC. 902. SUSPENSION OF CERTAIN PROGRAMS AND ACTIVITIES.

(a) SUSPENSIONS.—

(1) OVERSEAS PRIVATE INVESTMENT CORPORATION.—The Overseas Private Investment Corporation shall continue to suspend the issuance of any new insurance, reinsurance, guarantees, financing, or other financial support with respect to the People's Republic of China, unless the President makes a report under subsection (b)(1) or (2) of this section.

(2) TRADE AND DEVELOPMENT PROGRAM.—The President shall suspend the obligation of funds under the Foreign Assistance Act of 1961 for any new activities of the Trade and Development Program with respect to the People's Republic of China, unless the President makes a report under subsection (b)(1) or (2) of this section.

(3) MUNITIONS EXPORT LICENSES.—(A) The issuance of licenses under section 38 of the Arms Export Control Act for the export to the People's Republic of China of any defense article on the United States Munitions List, including helicopters and helicopter parts, shall continue to be suspended, subject to subparagraph (B), unless the President makes a report under subsection (b)(1) or (2) of this section.

(B) The suspension set forth in subparagraph (A) shall not apply to systems and components designed specifically for inclusion in civil products and controlled as defense articles only for purposes of export to a controlled country, unless the President determines that the intended recipient of such items is the military or security forces of the People's Republic of China.

(4) CRIME CONTROL AND DETECTION INSTRUMENTS AND EQUIPMENT.—The issuance of any license under section 6(k) of the Export Administration Act of 1979 for the export to the People's Republic of China of any crime control or detection instruments or equipment shall be suspended, unless the President makes a report under subsection (b)(1) or (2) of this section.

(5) EXPORT OF SATELLITES FOR LAUNCH BY THE PEOPLE'S REPUBLIC OF CHINA.—Exports of any satellite of United States origin that is intended for launch from a launch vehicle owned by the People's Republic of China shall remain suspended, unless the President makes a report under subsection (b)(1) or (2) of this section.

(6) NUCLEAR COOPERATION WITH THE PEOPLE'S REPUBLIC OF CHINA.—(A) Any—

(i) application for a license under the Export Administration Act of 1979 for the export to the People's Republic of China for use in a nuclear production or utilization facility of any goods or technology which, as determined under section 309(c) of the Nuclear Non-Proliferation Act of 1978, could be of significance for nuclear explosive purposes, or which, in the judgment of the President, is likely to be diverted for use in such a facility, for any nuclear explosive device, or for research on or development of any nuclear explosive device, shall be suspended,

(ii) application for a license for the export to the People's Republic of China of any nuclear material, facilities, or components subject to the Agreement shall be suspended,

(iii) approval for the transfer or retransfer to the People's Republic of China of any nuclear material, facilities, or components subject to the Agreement shall not be given, and

(iv) specific authorization for assistance in any activities with respect to the People's Republic of China relating to the use of nuclear energy under section 57 b.(2) of the Atomic Energy Act of 1954 shall not be given,

until the conditions specified in subparagraph (B) are met.

(B) Subparagraph (A) applies until—

(i) the President certifies to the Congress that the People's Republic of China has provided clear and unequivocal assurances to the United States that it is not assisting and will not assist any nonnuclear-weapon state, either directly or indirectly, in acquiring nuclear explosive devices or the materials and components for such devices;

(ii) the President makes the certifications and submits the report required by Public Law 99-183; and

(iii) the President makes a report under subsection (b)(1) or (2) of this section.

(C) For purposes of this paragraph, the term "Agreement" means the Agreement for Cooperation Between the Government of the United States of America and the Government of the People's Republic of China Concerning Peaceful Uses of Nuclear Energy (done on July 23, 1985).

(7) LIBERALIZATION OF EXPORT CONTROLS.—(A) The President shall negotiate with the governments participating in the group known as the Coordinating Committee (COCOM) to suspend, on a multilateral basis, any liberalization by the Coordinating Committee of controls on exports of goods and technology to the People's Republic of China under section 5 of the Export Administration Act of 1979, including—

(i) the implementation of bulk licenses for exports to the People's Republic of China; and

(ii) the raising of the performance levels of goods or technology below which no authority or permission to export to the People's Republic of China would be required.

(B) The President shall oppose any liberalization by the Coordinating Committee of controls which is described in subparagraph (A)(ii), until the end of the 6-month period beginning on the date of enactment of this Act or until the President makes a report under subsection (b)(1) or (2) of this section, whichever occurs first.

(b) TERMINATION OF SUSPENSIONS.—A report referred to in subsection (a) is a report by the President to the Congress either—

(1) that the Government of the People's Republic of China has made progress on a program of political reform throughout the country, including Tibet, which includes—

(A) lifting of martial law;

(B) halting of executions and other reprisals against individuals for the nonviolent expression of their political beliefs;

(C) release of political prisoners;

(D) increased respect for internationally recognized human rights, including freedom of expression, the press, assembly, and association; and

(E) permitting a freer flow of information, including an end to the jamming of Voice of America and greater access for foreign journalists; or

(2) that it is in the national interest of the United States to terminate a suspension under subsection (a)(1), (2), (3), (4), or (5), to terminate a suspension or disapproval under subsection (a)(6), or to terminate the opposition required by subsection (a)(7), as the case may be.

(c) REPORTING REQUIREMENT.—Sixty days after the date of enactment of this Act, the President shall submit to the Congress a report on—

(1) any steps taken by the Government of China to achieve the objectives described in subsection (b)(1);

(2) the effect of multilateral sanctions on political and economic developments in China and on China's international economic relations;

(3) the impact of the President's actions described in section 901(a)(9) and of the suspensions under subsection (a) of this section on—

(A) political and economic developments in China;

(B) the standard of living of the Chinese people;

(C) relations between the United States and China; and

(D) the actions taken by China to promote a settlement in Cambodia which will ensure Cambodian independence, facilitate an act of self-determination by the Cambodian people, and prevent the Khmer Rouge from returning to exclusive power;

(4) the status of programs and activities suspended under subsection (a); and

(5) the additional measures taken by the President under section 901(c) if repression in China deepens.

TITLE X—MISCELLANEOUS PROVISIONS

SEC. 1001. INCREASING AMOUNT OF REWARDS FOR COMBATING TERRORISM.

Section 36(c) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2708) is amended by striking out "$500,000" and inserting in lieu thereof "$2,000,000".

SEC. 1002. ASSIGNMENT OF COMMERCIAL OFFICERS TO THE UNITED STATES MISSION TO THE EUROPEAN COMMUNITY.

Within 90 days of the date of enactment of this Act, the United States Foreign and Commercial Service shall assign to the United States Mission to the European Community in Brussels no less than three commercial officers and such other staff as may be necessary to support such officers.

SEC. 1003. BUY-AMERICAN REQUIREMENT.

(a) DETERMINATION BY SECRETARY OF STATE.—If the Secretary of State, with the concurrence of the United States Trade Representative and the Secretary of Commerce, determines that the public interest so requires, the Secretary of State is authorized to award to a domestic firm a contract that, under the use of competitive procedures, would be awarded to a foreign firm, if—

(1) the final product of the domestic firm will be completely assembled in the United States;

(2) when completely assembled, not less than 50 percent of the final product of the domestic firm will be domestically produced; and

(3) the difference between the bids submitted by the foreign and domestic firms is not more than 6 percent.

In determining under this subsection whether the public interest so requires, the Secretary of State shall take into account United States international obligations and trade relations.

(b) LIMITED APPLICATION.—This section shall not apply to the extent to which—

(1) such applicability would not be in the public interest;

(2) compelling national security considerations require otherwise; or

(3) the United States Trade Representative determines that such an award would be in violation of the General Agreement on Tariffs and Trade or an international agreement to which the United States is a party.

(c) DEFINITIONS.—For purposes of this section—

(1) the term "domestic firm" means a business entity that is incorporated in the United States and that conducts business operations in the United States; and

(2) the term "foreign firm" means a business entity not described in paragraph (1).

(d) APPLICABILITY OF PROVISION.—This section shall apply only to contracts for which—

(1) amounts are authorized to be made available by this Act; and

(2) solicitations for bids are issued after the date of the enactment of this Act.

SEC. 1004. SUPPORT FOR THE BENJAMIN FRANKLIN HOUSE MUSEUM AND LIBRARY.

(a) FINDINGS.—The Congress finds that—

(1) the former London residence of Benjamin Franklin is the only surviving home of Benjamin Franklin existing today and should be preserved to commemorate his great contributions to human liberty, science, and education; and

(2) the Friends of Benjamin Franklin House and the American Franklin Friends Committee are twin charities dedicated to the restoration, preservation, and maintenance of the Benjamin Franklin House as a museum and library open to the public.

(b) POLICY OF SUPPORT.—The Congress hereby—

(1) urges the people of the United States to recognize June 17, 1990, as the bicentennial of Benjamin Franklin's death and to celebrate Franklin's long and distinguished public service, his scientific and literary achievements, and his role as a Founding Father of our country; and

(2) calls on the relevant agencies and departments of the Federal Government of the United States to recognize the important goals of the Friends of Benjamin Franklin House and the American Franklin Friends Committee.

SEC. 1005. ASSOCIATION OF DEMOCRATIC NATIONS.

(a) FINDINGS.—The Congress makes the following findings:

(1) It is the policy of the United States to support and promote democratic values and institutions around the world.

(2) Over the last decade, the United States, in concert with other nations, has provided support to those working for democracy in many nations throughout the world.

(3) Such support has advanced the cause of freedom and democracy in those nations by providing international technical expertise on holding free and fair elections, providing international observers to document the conduct of the elections, and in offering economic and humanitarian support to newly established domocracies.

(4) On June 8, 1989, at the commencement ceremonies at Harvard University, the newest leader of a democratic nation, Prime Minister Benazir Bhutto of Pakistan, called for the establishment of an Association of Democratic Nations to support the right of peoples everywhere to choose freely their own government.

(5) The goals of the Association would be to promote—

(A) the holding of elections at regular intervals which are open to the participation of all significant political parties, which are fairly administered, and in which the franchise is broad or universal;

(B) respect for fundamental human rights, including freedom of expression, freedom of conscience, and freedom of association;

(C) international recognition of legitimate elections through international election observer missions at all stages of the election, including the campaign, the voting, and the ballot counting;

(D) the mobilization of international opinion and economic measures against the military overthrow of democratic governments; and

(E) the provision of economic assistance to strengthen and support democratic nations.

(b) POLICY.—It is the sense of the Congress that—

(1) the proposal offered by Prime Minister Benazir Bhutto of Pakistan would further the cause of democracy, freedom, and justice and is in the interest of the United States; and

(2) the President of the United States should give serious consideration to the implementation of the proposal, and should provide by December 31, 1989, a report to the Congress assessing the merits of and estimated annual costs of establishing such an Association of Democratic Nations.

SEC. 1006. POLICY REGARDING HUMAN RIGHTS ABUSES IN CUBA.

(a) FINDINGS.—The Congress finds that—

(1) the United Nations Commission on Human Rights in 1989 issued its first report on human rights in Cuba, the result of a year-long investigation that concluded on the 30th year of Fidel Castro's rise to power;

(2) that report extensively documented across-the-board human rights abuses, including cases of torture, missing persons, religious persecution, violations of civil and political rights, and violations of economic and social rights;

(3) the United Nations received 137 complaints of "torture, cruel, inhuman or degrading treatment or punishment";

(4) among the abuses reported to the United Nations were sensory deprivation, immersion in a pit latrine, mock executions, overcrowding in special cells, deafening loudspeakers, keeping prisoners naked in front of relatives, and forcing a prisoner about to be executed to carry his own coffin or dig his own grave;

(5) despite the Cuban Government's statements not to harass those who cooperated with the United Nations' investigation, many Cuban citizens who met, or attempted to meet with the United Nations team suffered reprisals;

(6) at least 26 Cuban human rights monitors and independent activists who were arrested in the aftermath of the United Nations investigation are currently serving prison sentences or being held without trial; and

(7) the United Nations Commission on Human Rights approved a resolution on March 9, 1989, calling on the Government of Cuba to cooperate with the Secretary General of the United Nations in settling unresolved questions of human rights.

(b) STATEMENT OF POLICY.—In the interest of promoting respect for internationally recognized human rights in Cuba, the Congress—

(1) calls on the Secretary General of the United Nations to act upon the resolution approved by the Commission on Human Rights March 9, 1989, calling on the Secretary General to take appropriate action to follow up on the Commission's report on human rights in Cuba; and

(2) calls on the Secretary General to specifically urge the Government of Cuba to release at least 26 persons still being held in detention because of their human rights activities.

SEC. 1007. CONCERNING THE SUBMISSION TO THE CONGRESS OF AGREEMENTS PERTAINING TO THE BOUNDARIES OF THE UNITED STATES.

It is the sense of the Congress that all international agreements pertaining to the international boundaries of the United States should be submitted to the Congress for such consideration as is appropriate pursuant to the respective constitutional responsibilities of the Senate and the House of Representatives.

SEC. 1008. REPORT TO CONGRESS CONCERNING OCEANIA.

Not later than 180 days after the date of the enactment of this Act, and one year thereafter, the Secretary of State shall prepare and submit an unclassified report to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate which—

(1) sets forth in detail the policy of the United States with respect to Oceania, which is comprised of Polynesia, Micronesia, and Melanesia;

(2) examines the nature, extent, and source of political, social, and economic instability affecting states in such region;

(3) assesses the impact and level of communist influence in Oceania;

(4) analyzes projections for the total economic growth of such region, with particular emphasis on the exclusive economic zones (EEZ); and

(5) makes recommendations for specific measures necessary to ensure a strong United States presence in Oceania that contributes to and strengthens democratic institutions and economic growth for the states of the region.

SEC. 1009. REPORT CONCERNING MEXICO.

Not later than 90 days after the date of the enactment of this Act, the Secretary of State shall prepare and submit to the Congress a report concerning the relationship between the United States and Mexico. Such report shall—

(1) analyze potential changes in political, cultural, diplomatic, economic, and other factors as the United States and Mexico move toward greater economic integration and cooperation;

(2) consider the feasibility and effect of a three-way meeting among Canada, Mexico, and the United States to discuss greater economic integration and cooperation;

(3) analyze political, cultural, diplomatic, economic, and other factors related to the development of an economically integrated and cooperative border region between Mexico and the United States; and

(4) evaluate the adequacy of the resources of the Department of State which currently address relations between the United States and Mexico, including a projection of future needs to handle the increasing work load requirements resulting from the growing flow of goods, services, and people across the United States-Mexican border.

SEC. 1010. ESTABLISHMENT OF A LATIN AMERICAN AND CARIBBEAN DATA BASE.

(a) AUTHORIZATION.—Of the funds authorized to be appropriated for fiscal year 1990 by section 101(a)(1), $1,300,000 are authorized to be appropriated to provide continued support for the establishment of a Latin American and Caribbean Data base.

(b) CONDITIONS.—In developing the data base described in subsection (a), the Secretary of State shall be required to satisfy the following conditions:

(1) Any agreement for an on-line bibliographic data base entered into for purposes of this section shall continue to be subject to full and open competition or merit review among qualified United States institutions with strong Latin American and Caribbean programs.

(2) The Secretary of State shall ensure that funds are not awarded to maintain services which are significantly duplicative of existing services.

TITLE XI—BUDGET ACT COMPLIANCE

SEC. 1101. COMPLIANCE WITH CONGRESSIONAL BUDGET ACT.

(a) LIMITATION ON SPENDING AUTHORITY.—Any new spending authority (within the meaning of section 401 of the Congressional Budget Act of 1974) which is provided under this Act shall be effective for any fiscal year only to the extent or in such amounts as are provided in advance in appropriation Acts.

(b) LIMITATION ON CONTRACT AUTHORITY.—Any authority provided by this Act to enter into contracts shall be effective only—

(1) to the extent that the budget authority for the obligation to make outlays, which is created by the contract, has been provided in advance by an appropriation Act; or

(2) to the extent or in such amounts as are provided in advance in appropriation Acts.

And the Senate agree to the same.

From the Committee on Foreign Affairs, for consideration of the entire House bill and the entire Senate amendment, and modifications committed to conference:

DANTE B. FASCELL,
LEE H. HAMILTON,
STEPHEN J. SOLARZ,
HOWARD WOLPE,
GEO. W. CROCKETT, Jr.,
SAM GEJDENSON,
MERVYN M. DYMALLY,
HOWARD L. BERMAN,

As additional conferees from the Committee on Armed Services, for consideration of sections 1016 and 1030 of the Senate amendment, and modifications committed to conference:

NICHOLAS MAVROULES,
DAVE MCCURDY,
JIM MCCRERY,

As additional conferees from the Committee on Banking, Finance and Urban Affairs, for consideration of sections 631, 632, 633, 1021, 1025, and 1030 of the Senate amendment, and modifications committed to conference:

HENRY B. GONZALEZ,
WALTER E. FAUNTROY,
MARY ROSE OAKAR,
CHALMERS P. WYLIE,
DOUG BEREUTER,

As additional conferees from the Committee on Energy and Commerce, for consideration of sections 221 through 229 of the House bill and sections 208, 701 through 707, and 1025 of the Senate amendment, and modifications committed to conference:

JOHN D. DINGELL,
EDWARD J. MARKEY,
MATT RINALDO,

As additional conferees from the Committee on Interior and Insular Affairs, for consideration of section 1041 of the Senate amendment, and modifications committed to conference:

MO UDALL,
DON YOUNG,

As additional conferees from the Committee on the Judiciary, for consideration of sections 138 and 213 of the House bill and sections 111, 114, 120, 131, 502, 503, 504, 1008, 1037, 1042, 1046, 1047, 1048, 1049, and 1057 of the Senate amendment, and modifications committed to conference:

DON EDWARDS,
BRUCE A. MORRISON,

As additional conferees from the Committee on Merchant Marine and Fisheries, for consideration of sections 1013, 1038, and 1044 of the Senate amendment, and modifications committed to conference:

WALTER B. JONES,
GERRY E. STUDDS,
ROY DYSON,
BOB DAVIS,
DON YOUNG,

As additional conferees from the Committee on Post Office and Civil Service, for consideration of sections 120, 121, 141 through 152, 161 through 164, 1011, and 1051 of the Senate amendment, and modifications committed to conference:

WILLIAM D. FORD,
GARY L. ACKERMAN,
GERRY SIKORSKI,
FRANK HORTON,
CONSTANCE MORELLA,

As additional conferees from the Committee on Public Works and Transportation, for consideration of sections 161 and 221 of the Senate amendment, and modifications committed to conference:

GLENN M. ANDERSON,
JAMES L. OBERSTAR,
DOUGLAS H. BOSCO,
JOHN PAUL HAMMERSCHMIDT,
THOMAS E. PETRI,

As additional conferees from the Committee on Rules, for consideration of sections 1002 and 1036 of the Senate amendment, and modifications committed to conference:

BUTLER DERRICK,
ANTHONY C. BEILENSON,

As additional conferees from the Permanent Select Committee on Intelligence, for consideration of section 1008 of the Senate amendment, and modifications committed to conference:

ANTHONY C. BEILENSON,
DAVE MCCURDY,
BOB LIVINGSTON,

Managers on the Part of the House.

CLAIBORNE PELL,
PAUL S. SARBANES,
CHRISTOPHER J. DODD,
TERRY SANFORD (except for consideration of section 111),
DANIEL PATRICK MOYNIHAN (except for consideration of section 111 only),
RICHARD G. LUGAR,
NANCY LANDON KASSEBAUM,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1487) to authorize appropriations for fiscal years 1990 and 1991 for the Department of State, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TITLE I—DEPARTMENT OF STATE

PART A—AUTHORIZATION OF APPROPRIATIONS; ALLOCATION OF FUNDS; RESTRICTIONS

The House bill (Sections 101-104) authorizes $3,397,443,000 for fiscal year 1990 and $3,661,087,000 for fiscal year 1991 for the Department of State.

The Senate amendment (Sections 101-104) authorizes $3,311,735,000 for fiscal year 1990 for the Department of State.

The conference substitute (sections 101-105) authorizes $3,329,600,000 in fiscal year 1990 and $3,676,851,000 for fiscal year 1991 for the Department of State. The following table summarizes the action of the Committee on conference.

H.R. 1487—FOREIGN RELATIONS AUTHORIZATION FOR FISCAL YEARS 1990–91

[In thousands of dollars]

	Fiscal year 1990 administration request	Fiscal year 1989 appropriation	Fiscal year 1990 appropriation	Fiscal year 1990 Senate bill	Fiscal year 1990 House bill	Fiscal year 1991 House bill	Fiscal year 1990 conference agreement	Fiscal year 1991 conference agreement

[1] Includes transfer authority of $51.2 million to either regular or security S&E from unobligated Acquisition and Maintenance appropriations from previous years.
[2] The Administration request for Migration and Refugee Assistance for Fiscal Year 1990 includes an anticipated supplemental request for $70 million.
[3] Television and Film Services are funded in the Senate bill through the general Salaries and Expenses account, and are not authorized separately as in the House bill. In arriving at its S&E total, however, the Senate indicated that it anticipated spending of $30 million for this service.
[4] The Administration requested $16 million for Television Marti in Fiscal Year 1990, but not as an add-on. Administration requested funds for TV Marti to be offset elsewhere in USIA budget.
[5] In most accounts, funding for VOA/Europe is included in VOA Salaries and Expenses. The Conference Agreement accounts break out VOA/Europe funding separately to illustrate retention of Fiscal Year 1988–89 authorization earmarks.
[6] The House bill includes a $125 million unallocated cut. The Conference Agreement allocates those cuts by reductions below the House or Senate levels in individual accounts.

EARMARKS

The House bill (secs. 101–104) contains several earmarks which are described below:

$250,000 for each fiscal year for the Bureau for International Communications and Information policy in support of international institutional development and other activities which promote international communications development;

$1,249,000 in fiscal year 1990 for the South Pacific Commission;

$25,000,000 in each fiscal year for resettlement of refugees in Israel; and

Such sums as may be necessary for each fiscal year to maintain a minimum of 53 full-time equivalent personnel and any associated costs for the Office of Munitions Control.

The Senate amendment (sec. 101–104) contains an authorization of $25 million in fiscal year 1990 for the resettlement of refugees in Israel.

The conference substitute retains the earmarks of the House bill and the Senate refugee authorization.

REDUCTIONS OF EARMARKS IF APPROPRIATIONS ARE LESS THAN AUTHORIZATIONS

The House bill (sec. 105) provides that if the amount appropriated for any fiscal year pursuant to any authorization provided by this act is less than the amount of the authorization, the earmarks by this act shall be reduced proportionately. The House bill also provides for such proportionate reductions in the event of a sequestration.

The Senate amendment contains no comparable provision.

The conference substitute (section 106) is the same as the House bill.

AVAILABILITY OF FUNDS

The House bill (sec. 106) provides authority for the Department of State to enter into 12-month contracts that bridge two fiscal years so long as all funds are obligated in the earlier year.

The Senate amendment (sec. 106) provides authority to transfer deobligated balances to the Buying Power Maintenance Fund. This authority applies only to deobligations of expiring balances and is not applicable to no-year funds. Once transferred, the balances could only be used for the purposes for which the fund was established. The Senate amendment also provides authority for the Department to enter into 12-month contracts that bridge two fiscal years so long as funds are obligated within the fiscal year for which they were appropriated.

The conference substitute (sec. 107) is the same as the House bill.

PROHIBITION OF NEGOTIATIONS WITH CERTAIN PLO REPRESENTATIVES

The Senate amendment (sec. 1043) prohibits the use of any authorized funds to be appropriated for the conduct of the current dialogue on the Middle East peace process with any representative of the PLO who the President knows and advises Congress has directly participated in the planning or execution of a terrorist activity which resulted in the death or kidnapping of an American citizen.

The House bill contains no comparable provision.

The conference substitute (sec. 108) is the same as the Senate amendment.

PROHIBITION ON CHANNELING OR DIVERTING FUNDS TO CARRY OUT ACTIVITIES FOR WHICH U.S. ASSISTANCE IS PROHIBITED

The Senate amendment (sec. 111) provides that if, after the date of enactment, assistance is prohibited by law to a country or group: (1) no U.S. government official shall solicit funds or materials for that country or group; and (2) no U.S. assistance shall be provided to a third party if the effect of that assistance would be counter to the prohibition in law, nor shall assistance to a third party be conditioned so as to circumvent the prohibition in law. Any person in violation is subject to up to a five-year imprisonment and/or a fine under 18 U.S.C.

The assistance covered under this section is that provided under the Foreign Assistance Act, the Arms Export Control Act, the National Security Act of 1947, the Central Intelligence Agency Act of 1949, and Executive Order No. 12333, excluding the provision on sharing of intelligence information.

This section shall not be construed to limit the full constitutional powers of the president to conduct foreign policy.

The House bill contained no comparable provision.

The conference substitute (sec. 109) provides that, whenever any provision of law expressly refers to this section and prohibits U.S. assistance from being provided to any foreign region, country, government, group, or individual for all or specified activities, no executive branch officer or employee may: (A) accept or use any funds or property; (B) use any U.S. funds or facilities to assist any transaction where funds or property are provided to a third party; or (C) provide any U.S. assistance to any third party, if the purpose of such act is the furthering or carrying out of the same activities for which U.S. assistance is expressly prohibited. This prohibition covers assistance provided under an arrangement conditioning, expressly or impliedly, action by the recipient to further those activities. Any person who knowingly and willfully violates this provision shall be imprisoned for not more than five years or fined in accordance with title 18 U.S.C. or both.

Whenever this section applies, if any executive branch officer or employee advocates, promotes, or encourages the provision of funds or property for the purpose of furthering or carrying out the same or similar activities, the President shall notify the Congress in a timely fashion of such advocacy, promotion, or encouragement.

The provisions of this section shall not be superseded except by a provision of law enacted on or after the date of enactment of this bill which specifically repeals, modifies, or supersedes this section.

Nothing in this section shall be construed to limit: (A) the ability of the President, Vice President, or any executive branch officer or employee to make statements or otherwise express his views; (B) the ability of an executive branch employee to express the publicly enunciated policies of the President; or (C) the ability of a U.S. officer or employee to communicate with any foreign country, government, group, or individual, either directly or through a third party, with respect to a prohibition on U.S. assistance covered by this section, including the reasons for such prohibition and the conditions under which it might be removed.

Nothing in this section shall be construed as waiving or otherwise derogating from any other provision of law imposing penalties or obligations with respect to any of the acts described in this section.

The assistance covered by this section is that provided under the Foreign Assistance Act, the Arms Export Control Act, the National Security Act of 1947, the Central Intelligence Agency Act of 1949, and Executive Order No. 12333, excluding the provision or sharing of intelligence information.

AUTHORIZATION OF CERTAIN OPERATIONAL ACTIVITIES

The House bill (sec. 121) amends section 13 of the State Department Basic Authorities Act of 1956 to provide permanent authorization for several operational activities that have, in recent years, been reenacted annually in the Department's Appropriations Acts. These authorities are necessary for covering obligations assumed in West Berlin after World War II, for the provision of certain telecommunications services, and for the provision of physical security in government properties and vehicles abroad.

The Senate amendment (sec. 112) is identical to the House provision.

The conference substitute (section 111) is identical to the House and Senate provisions.

PART B—DEPARTMENT OF STATE AUTHORITIES AND ACTIVITIES; FOREIGN MISSIONS

AUTHORITY OF DIPLOMATIC SECURITY SERVICE

The Senate amendment (sec. 114) clarifies the authority of special agents of the Diplomatic Security Service to make arrests without warrants for violation of offenses concerning passport or visa issuance or use.

The House bill contains no comparable provision.

The conference substitute (sec. 113) is the same as the Senate amendment. Under current law, in order for a special agent to make an arrest without a warrant for a felony violation of these offenses two requirements must be met: the agent must have reasonable grounds to believe that such person has committed or is committing such violation and, in addition, the person must be in or fleeing from the immediate area of the commission of the violation.

The requirement that an individual be in or fleeing from the immediate area of such violation is not a usual condition of comparable arrest authorities; for example, the arrest authorities of the Secret Service, the Federal Bureau of Investigations, the Bureau of Alcohol, Tobacco and Firearms, and the Drug Enforcement Administration do not contain such a requirement.

While this restriction may be appropriate for assault and similar violations it is particularly onerous for passport and visa offenses because these are document offenses and the crime is committed when the document is signed. Signing fraudulent documents, such as a passport or visa application, almost always occur outside the presence of a Department special agent. Section 113 removes this requirement and allows a special agent to make an arrest for passport and visa offenses without warrant if the agent has reasonable grounds to believe that the person has committed or is committing such violation.

Nothing contained in this section is intended to affect the law enforcement authorities of the FBI of any other law enforcement agency, nor affect existing agreements between the Diplomatic Security Service, the FBI or other law enforcement agencies. It is the understanding of the committee of conference that it is the intention of the Department of State that an interagency agreement be completed within 180 days by the Secretary of State, the Attorney General, and the Secretary of Treasury with respect to their law enforcement functions as required by subsection (c) of 2709. This agreement also should address the respective roles of such agency with regard to their protective responsibilities.

Arrest authority under Title 18 U.S.C. 1028 is conferred under this provision solely to allow special agents of the Diplomatic Security Service of the Department of State to arrest individuals that have entered or are attempting to enter facilities under the control of the Department of State through the use of false identification documents.

ACCESS TO CRIMINAL RECORDS

The Senate amendment (sec. 120) amends 5 U.S.C. 9101 to grant the Department of State access to state and local criminal records for use in security clearance investigations on the same basis as the Department of Defense, the Office of Personnel Management, the Central Intelligence Agency, and the Federal Bureau of Investigation. The Senate amendment also provides this authority only so long as the Department provides no less than the existing procedural protections for applicants and employees during the security clearance process.

The House bill contains no comparable provision.

The conference substitute (sec. 114) is similar to the Senate amendment.

PROCEDURES REGARDING MAJOR DISASTERS AND INCIDENTS ABROAD

The House bill (sec. 129) requires the Secretary of State to: (1) provide prompt and thorough notification of appropriate information to the next of kin in the case of a major incident abroad or disaster affecting citizens of the United States; (2) enter into discussions with international air carriers and other appropriate entities to develop standardized procedures for the implementation of this provision; (3) consider the feasibility of a toll-free telephone system to facilitate inquiries of next of kin; and (4) report within 180 days on plans for implementing this provision.

The Senate amendment (sec. 126) requires the Secretary of State to develop and implement policies and programs for the safe and efficient evacuation of U.S. citizens abroad in cases of war, civil unrest, and natural disasters.

The conference substitute (sec. 115) combines the two provisions.

During an airline crisis in a foreign country, there is immediate and intense interest from the American public regarding the identity and well-being of the passengers involved. The committee of conference, in adopting this provision, emphasizes the importance of establishing procedures between U.S. airlines and the Department of State for handling their respective responsibilities in such a crisis. There are obvious areas of overlap between the private and government sectors. The committee of conference therefore expects that a complete and detailed memorandum of understanding between U.S. international air carriers and the Department will be negotiated and agreed to no later than December 31, 1989. This memorandum of understanding should clearly define resource sharing and the timeframe for sharing such information. The committee of conference believes that it is essential to improve the coordination and dissemination of information between the private and public sectors as a way of ensuring that the families are treated in as humane and dignified way as possible. However, nothing in this section should be construed to preclude air carriers from notifying next-of-kin directly.

ACQUISITION OF DOMESTIC PROPERTY AS INTERIM STEP TO ACQUIRING PROPERTY ABROAD

The Senate amendment (sec. 116) provides the Department of State authority to acquire and dispose of property in the United States as an interim step to acquiring diplomatic and consular property abroad. The acquisition of such property will be conducted by the Office of Foreign Missions and would be paid for from funds authorized to the "Acquisition and Maintenance of Foreign Buildings Abroad" account. In addition, the Senate amendment allows funds realized from the sale of any property acquired under this section to be retained in the Foreign Service Buildings Fund.

The House bill contains no comparable provision.

The conference substitute (sec. 116) is similar to the Senate amendment, but requires congressional notification 15 days prior to entering into an agreement with a foreign government on an exchange of property.

The committee of conference intends that if property that has been acquired in carrying out section 203(c)(3) of the State Department Basic Authorities Act of 1956 is later disposed of by the United States Government, the proceeds shall include criteria that will be used to determine when the in-kind exchange benefits the United States Government to the same extent that the exchange benefits the foreign government. The committee of conference intends these standards to be specific and to include the beneficial geographic location of the properties, monetary value of the properties, and the square footage of the properties.

The committee of conference recognizes that there may be trade-offs among the criteria. For example, the size of a foreign building the U.S. may acquire may not be equal to the size of the building in the U.S. the foreign government may receive, but a beneficial location for the U.S. may offset this difference.

The Conferees intend that notice to be provided to specified congressional committees in section 204(f)(4) of that Act. In some cases, when an exchange agreement is entered into, properties in each country may not have been identified. Each country has simply agreed to enter into an agreement to meet their respective needs. Therefore, the Secretary of State shall inform the committees as the sites are identified and the exchange benefits are quantified. This will allow the Congress to perform adequate oversight before any funds are appropriated, or reprogrammed to execute the in-kind exchange.

DEBT COLLECTION

The House bill (sec. 138) requires the Secretary of State to enter into contracts for the collection of debts owned by a person, other than a foreign country, to the United States which arise from activities of the Department and which are delinquent by more than three months. The House bill also requires that any person contracted with by the Department submit a status report on collections every 6 months. The Secretary shall also, to the extent otherwise permitted by law, disclose any debt of more than $100 which is delinquent more than 31 days to those credit reporting agencies to which the Secretary reports loan activity information. The House bill (sec. 213) also includes an identical provision relating to debts owed to the United States Information Agency.

The Senate amendment contains no comparable provisions.

The conference substitute (sec. 117 and sec. 209) is the same as the House bill.

OFFICE OF MUNITIONS CONTROL

The House bill (sec. 124) authorizes the Office of Munitions Control of the Department of State to retain up to $500,000 of registration fees. These funds are to be used for expenses incurred for contract personnel to assist in the evaluation in the evaluation of munitions control license applications or for the automation of the munitions control functions carried out by this Office.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 118) is the same as the House bill.

The Senate receded on its amendment which set certain targets for the Office of Munitions Control (OMC). However, the conferees agree that, given the personnel and financial resources provided to OMC in the final bill, it is reasonable to urge OMC to set as targets by the end of FY 1990: (1) being able to determine within ten days of receipt of a license application whether that application will be referred to other agencies for review and (2) being able to make a final determination on most license applications for exports to NATO and other major allies within 30 days of receipt of such license requests. The House Foreign Affairs Committee and Senate Foreign Relations Committee anticipate requesting the State Department to report on how well OMC is doing in meeting these targets by the end of the first quarter of FY 1991 so that consideration can be given to further resource needs or changes in how licenses are processed.

FEES AND REIMBURSEMENTS

The House bill (sec. 133) allows reimbursement, fees or surcharges received for the use of Blair House to be retained by the Department of State. Such funds are available for use only for maintenance and other expenses of Blair House.

The Senate amendment (sec. 115) contains a virtually identical provision.

The conference substitute (sec. 119 is the same as the Senate Provision.

INTERNATIONAL CENTER

The House bill (sec. 134) gives the Department of State explicit authority to charge tenant U.S. Government agencies for use of facilities located at the International Center. It also provides the Department authority to retain such payments in a no-year account for general maintenance, utilities, and operations and for major repairs and alterations of such facilities.

The Senate amendment (sec. 117) contains a similar provision.

The conference substitute (sec. 120) is similar to the House bill with technical modifications.

ANTIGUA AND BARBUDA

The House bill (sec. 126) repeals section 123 of Public Law 100-204 which prohibited the use of any funds for the maintenance of diplomatic posts in Antigua and Barbuda subject to a Presidential waiver.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 121) is the same as the House bill.

ANNUAL REPORTS ON TERRORISM

The House bill (sec. 132) changes the date on which the annual report by the Secretary of State on terrorism is due from March 31 to April 30.

The Senate bill contains no comparable provision.

The conference substitute (sec. 122) is the same as the House bill.

CONSULAR OFFICER DUTIES

The Senate amendment (sec. 119) repeals 22 U.S.C. 4192 pertaining to the legal effect in the United States of marriages performed by consular officers abroad after the effective date of this Act.

The Senate bill contains no comparable provision.

The conference substitute (sec. 123) is the same as the Senate amendment.

AMERICAN COSULATE IN BRATISLAVA

The Senate amendment (sec. 122) expresses the sense of Congress that the President should take all practicable steps to reopen the American consulate in Bratislava, Czechoslovakia.

The House bill contains no comparable provision.

The conference substitute (sec. 124) is the same as the Senate amendment.

VOLUNTARY PILOT PROGRAM FOR INCREASED PARTICIPATION BY ECONOMICALLY AND SOCIALLY DISADVANTAGED ENTERPRISES IN FOREIGN RELATIONS ACTIVITIES.

The House bill (section 136) requires the Secretary of State to prepare a plan for the establishment of a voluntary pilot program aimed at increasing the participation of economically and socially disadvantaged enterprises in programs and activities of the Department of State and the U.S. Information Agency. Such plan shall be submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate 90 days after the date of enactment of this act.

The Senate amendment contains no comparable provision.

The conference substitute (section 126) clarifes the House provision by (a) stipulating that the pilot program is for fiscal years 1990 and 1991 only; (b) making clear that the program shall be implemented to the extent practicable; and by (c) providing a definition for the phrase "economically disadvantged person".

REPORT ON REORGANIZATION OF THE DEPARTMENT OF STATE

The House bill (section 131) directs the Secretary of State to establish a new bureau for South Asian Affairs to be headed by an Assistant Secretary of State.

The Senate amendment (section 124) requires the Secretary of State to submit a report on the advisability of reorganizing its regional and functional bureaus. The report shall include, but not be limited to, an assessment of the advisability of establishing a Bureau of South Asian Affairs, two bureaus to cover the present responsibilities of the Bureau of Inter-Mexican Affairs, an office of Diplomatic Security to be headed by an Under Secretary-level Director of Diplomatic Security, and an Office of Global Warming within the Bureau of Oceans, International Environment and Scientific Affairs.

The report shall also include an assessment of the advisability of transferring the jurisdictional responsibility for the Organization of American States from the Bureau of International Organizations to the Bureau of Inter-American Affairs, and of creating a high-level coordinator for United States policy toward Mexico.

The conference substitute (sec. 127) is the same as the Senate language with the addition of sense of the Congress language that the Secretary of State should give serious consideration to the establishment of a Bureau of South Asian Affairs.

PROHIBITION ON EXCLUSION OF DEPORTATION OF NON-IMMIGRANT ALIENS ON CERTAIN GROUNDS

The Senate amendment (section 503) repeals the sunset provision of section 901 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989, which provides that no alien may be denied a visa, denied admission into the United States, or subjected to deportation because of the alien's political beliefs. This section also makes a technical correction to section 901.

The House bill contains no comparable provision.

The conference substitute (section 128) is the same as the Senate amendment.

FOREIGN SERVICE INSTITUTE

The House bill (sec. 122) increases the authorization for construction of the new Foreign Service Institute facilities from $50 million to $62 million.

The Senate amendment contains no comparable provision.

The conference substitute deletes the provision.

DIPLOMATIC, CONSULAR, AND USIA POSTS ABROAD

The House bill (sec. 125) prevents the Department of State from using authorized funds to pay expenses related to the closing or downgrading of consular or diplomatic posts unless the Secretary provides written notification to Congress one year in advance of the proposed closing. The House bill (sec. 202) also contains an identical provision relating to the United States Information Agency.

The Senate amendment contains no comparable provisions.

The conference substitute deletes the provisions, leaving current law (sec. 122 and sec. 204 of Public Law 100-204) in effect. Current law prohibits the use of funds authorized by Public Law 100-204 and any other act to pay the expenses related to the closing of any U.S. mission or consulate abroad or to the Bureau of Administration if such a post is closed after January 1, 1987. Current law also provides exceptions to the prohibition if a post is closed due to a break or downgrade of relations, or a serious physical threat to Americans exists in the city where the mission is located.

STATE DEPARTMENT POST OFFICES ABROAD

The Senate amendment (sec. 121) provides authority for the Department of State to provide postal service to certain isolated posts abroad and to reimburse the U.S. Postal Service for costs incurred in transporting personal mail to such posts.

The House bill contains no comparable provision.

The conference substitute deletes the provision. The committee of conference deleted this provision in the expectation that separate legislation dealing with this provision would be forthcoming during the next session.

CONSULAR OFFICERS IN THE SOVIET UNION

The House bill (sec. 128) expresses the sense of Congress that the Department of State should assign more consular officers to the U.S. diplomatic mission in the Soviet Union to assist in effort to process the backlog of Soviet citizens seeking to emigrate.

The Senate amendment contains no comparable provision.

The conference substitute deletes the provision.

Since House passage of H.R. 1487 on April 12, 1989, three additional Russian-speaking INS adjudicators have been added to the staff at the U.S embassy in Moscow. This action brings total INS staffing in Moscow to 6 adjudicators and 6 support staff. The ceiling on INS staff in Moscow has also been raised to 22, allowing for 10 positions to be filled in the future. In addition, a new center will be created in the Department of State in Washington to assist in the processing from Moscow. Because of these actions, the committee of conference agreed that the House provision could be deleted. However, this deletion should not be interpreted as a lessening of the interest of the committee of conference in ensuring the most efficient support in the consular area.

STATE DEPARTMENT CONTRACTOR EXEMPTION TO POLYGRAPH PROTECTION ACT

The Senate amendment (sec. 134) provides an exemption from the provisions of the Employee Polygraph Protection Act of 1988 to enable the Department of State to request contract employees and employees of contractors and subcontractors, engaged in any counterintelligence function, to undergo polygraph examinations under the same regulations and protections that apply to Department personnel.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

PART C—DIPLOMATIC IMMUNITY, RECIPROCITY, AND SECURITY

EXCLUSION OF ALIENS

The Senate amendment (sec. 131) allows aliens to be denied visas or admission into the United States in cases where there is reason to believe that an alien has committed a serious crime in the United States, the adjudication of which has been prevented by the exercise of immunity from criminal jurisdiction. Previously, such individuals were not specifically barred from re-entering the United States because the exercise of immunity from prosecution precluded conviction for a criminal offense. The Senate amendment also requires a report from the Secretary of State on the merits of establishing a program to compensate U.S. citizens and permanent resident aliens for physical injury or financial loss resulting from criminal activity reasonably believed to have been committed by individuals with immunity from criminal jurisdication.

The House bill (sec. 145) contains a reporting requirement similar to the Senate amendment.

The conference substitute (sec. 131) is the same as the Senate amendment.

DIPLOMATIC CONSTRUCTION PROGRAM

The House bill (sec. 144) permits foreign contractors to bid on construction projects for facilities which are not intended for the processing or storage of classified material and where the value of the project does not exceed $500,000. The House bill also requires an annual report from the Secretary of State on the implementation of this provision.

The Senate amendment (sec. 206) contains a similar provision.

The conference substitute (sec. 132) is similar to the House bill, but deletes the reporting requirement.

USE OF CLEARED PERSONNEL

The Senate amendment (sec. 135) requires the Secretary of State to develop and implement policies to use persons with appropriate U.S. security clearances to perform maintenance and repair work in U.S. posts abroad and prohibits the use of non-cleared contractors from performing maintenance or repair work in certain U.S. diplomatic facilities abroad.

The House bill contains no comparable provision.

The conference substitute (sec. 133) is the same as the Senate amendment.

KIEV CONSULATE: UNITED STATES-SOVIET UNION RECIPROCITY

The Senate amendment (sec. 132) amends section 153(b) of Public Law 100-204 by removing the requirement that the United States have "secure permanent facilities" in Kiev before the Soviet Union is allowed to open any new consulate in the United States. The Senate amendment also allows the USSR to open a new consulate on a reciprocal basis with the opening of a consulate in Kiev.

The House bill (sec. 141) contains a related provision.

The conference substitute (sec. 134) authorizes the establishment of an interim unclassified facility in Kiev on the basis of reciprocity and requires the Secretary of State to report on a plan for the construction of permanent facilities.

CONSTRUCTION SECURITY CERTIFICATION

The House bill (sec. 143) directs the Department of State to provide a security certification for those buildings which were started prior to the enactment of current law (sec. 160 of Public Law 100-204) and requires the Department to establish plans for continued security maintenance review of new facilities.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 135) is the same as the House bill.

PARTICIPATION OF U.S. CONTRACTORS

The House bill (sec. 146) requires the Secretary of State, with respect to local guard contracts overseas which exceed $250,000 and are entered into after September 30, 1989, to: (1) establish procedures to ensure that such contracts are advertised in the Commerce and Business Daily; (2) establish procedures to ensure that appropriate measures are taken to assure that U.S. persons and qualified joint venture persons are not disadvantaged due to their distance from the post; and (3) give preference to U.S. persons and qualified joint venture persons where such persons are price competitive, properly licensed by the host government, and otherwise qualified to carry out the terms of the contract.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 136) is similar to the House bill with a technical modification.

PART D—PERSONNEL

TRANSFER OF RETIREMENT CONTRIBUTIONS

The Senate amendment (sec. 141) provides authority to allow Foreign Service National (FSN) employees to transfer contributions, contributions by the employing agency, and earnings to a local retirement plan or trust fund.

The House bill (sec. 157) contains a similar provision.

The conference substitute (sec. 141) is similar to the Senate amendment with technical modifications.

DISQUALIFICATION FOR SERVICE ON FOREIGN SERVICE SELECTION BOARDS

The Senate amendment (sec. 142) prohibits public members of a Foreign Service Selection Board from being an agent of a foreign principal, as defined by section 1(b) of the Foreign Agents Registration Act of 1938, or receive income from the government of a foreign country at the time of or during their appointment.

The House bill contains no comparable provision.

The conference substitute (sec. 142) is the same as the Senate amendment.

JUDICIAL REVIEW—SEPARATION FOR CAUSE

The Senate amendment (sec. 143) clarifies that the judicial review provision contained in section 1110 of the Foreign Service Act applies to separation for cause cases. Section 143 also prohibits an employee from continuing to receive pay in cases where such employee has been separated for cause and has been convicted of a crime related to the cause for separation.

The House bill (sec. 158) contains a similar provision.

The conference substitute (sec. 143) is the same as the Senate amendment.

VISITING SCHOLARS PROGRAM

The Senate amendment (sec. 144) authorizes the establishment of a Visiting Scholars Program at the Foreign Service Institute and provides guidelines for the selection process.

The House bill contains no comparable provision.

The conference substitute (sec. 144) is the same as the Senate amendment.

FORMER SPOUSES OF USIA AND AID EMPLOYEES

The House bill (sec. 151) amends existing law to extend retirement, survivor, and health benefits to a former spouse who was married to a former Foreign Service employee of USIA or AID before February 14, 1981.

The Senate amendment (sec. 146) contains a similar provision.

The conference substitute (sec. 146) is similar to the House bill with a technical modification.

CHILD CARE FACILITIES

The Senate amendment (sec. 133) authorizes the Secretary of State to make grants to subsidize a portion of the cost of day care facilities in Moscow, and on a case-by-case basis, other posts where the Secretary determines a similar situation exists.

The House bill (sec. 135) contains a similar provision.

The conference substitute (sec. 147) is similar to the Senate amendment, but limits the program to five posts with a two-year time limitation.

TRAVEL, LEAVE, AND OTHER BENEFITS

The House bill (sec. 159) amends section 901(9) of the Foreign Service Act to permit payments for emergency visitation by spouses or other family members of employees of the Department who become seriously ill while at posts abroad.

The Senate amendment (sec. 147) contains a similar provision.

The conference substitute (sec. 148) is the same as the House bill.

FOREIGN SERVICE INTERNSHIP PROGRAM

The House bill (sec. 152) amends the Foreign Service Act to establish a Foreign Service Internship Program designed to acquaint minority students with the Foreign Service.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 149) is similar to the House bill and provides for detailed assignment of interns to the Congress, requires a report on the Foreign Service examination, and includes references to Hispanic Americans, Asian Americans, and historically Black institutions.

Although this section is intended to address discrimination against Hispanic, Asian, Native and African Americans in particular, the internship program established pursuant to this section is not limited solely to these groups. The conferees are aware of the State Department's long-standing discriminatory hiring policies against individuals with handicapped conditions, especially against blind individuals seeking entry into the Foreign Service. Recently, the Department has decided to permit blind Foreign Service applicants to use readers and braille test materials during the administration of the Foreign Service exam. The Department has also agreed to find ways to accommodate blind employees who qualify for entry into the Foreign Service. In establishing this internship program, therefore, the Secretary of State should ensure that the benefits of this program are extended to blind individuals.

TRAINING IN INTERNATIONAL AFFAIRS

The Senate amendment (sec. 149) authorizes the Secretary of State to make grants to accredited educational institutions for programs aimed at increasing knowledge of foreign policy and foreign affairs, as well as interest in and awareness of the possibility of careers in the Foreign Service. To the extent possible, grants under this section will be made as part of the Department's minority recruitment program.

The House bill (sec. 153) contains a similar provision.

The conference substitute (sec. 150) is the same as the Senate amendment.

The conferees are aware of the State Department's long-standing discriminatory hiring practices against individuals with handicapping conditions, especially against blind applicants to the Foreign Service. Accordingly, to the extent possible, grants made to individuals pursuant to this section should also be awarded to individuals with handicapping conditions pursuing a career in the Foreign Service.

Handicapping conditions shall be defined by the Secretary of State. These definitions should be drafted with full consultation with the Senate Foreign Relations Committee and the House Foreign Affairs Committee, but need not be identical to the provisions of the Rehabilitation Act in respect to substance abuses or the mentally disabled.

DANGER PAY ALLOWANCES

The House bill (sec. 154) authorizes the Administrator of the Drug Enforcement Administration to provide danger pay allowances for any employee of that agency serving overseas under conditions presenting a threat of physical harm or imminent danger to the well-being of such employee.

The Senate amendment contains no comparable provision.

The conference sustitute (sec. 151) is the same as the House bill.

JUDICIAL REVIEW OF CERTAIN GRIEVANCE

The Senate amendment (sec. 150) provides that for the purposes of judicial review under section 1110 of the Foreign Service Act, any recommendations made by the Foreign Service Grievance Board before the enactment of Public Law 100-204 with respect to the tenure of a grievant shall be considered to be a final action of the Department of State, and any such recommendation shall be considered to be or have been within the authority of the Foreign Service Grievance Board.

The House bill contains no comparable provision.

The conference substitute (sec. 152) is the same as the Senate amendment.

The committee of conference is concerned that the Department has been intransigent in several grievance cases. In one case brought to the attention of the committee of conference, a grievant has twice won his case and the Board ordered the foreign service officer to be granted tenure, along with other forms of relief from a consistent pattern of discrimination and mistreatment, such as promotions and back pay. The Department has not complied and indeed has refused to comply with two Federal court orders to grant the officer tenure and other forms of relief. This provision is intended to put this and similar cases in which the Department has engaged in dilatory activities to rest, thus saving both the grievant and the taxpayers further expense.

CULTURAL AND ETHNIC DIVERSITY OF THE FOREIGN SERVICE

The Senate amendment (sec. 151) requires the Secretary of State to provide the Congress with a plan designed to ensure that equal efforts are undertaken in each of the regions of the United States to recruit policy and professional Government Service employees and Foreign Service Officers. This section also prohibits discrimination on the basis of geographic or educational affiliation and requires a report by the Inspector General on this geographic, racial, ethnic, and gender composition of the Department.

The House bill (sec. 162) requires the Secretary of State to report to Congress on Hispanic recruitment and on the status of underrepresented groups in the Department, and conduct an evaluation and review of the Foreign Service examination. In addition, the House bill authorizes the Secretary to establish a Foreign Service fellowship for academics in the area of international affairs particularly those teaching programs which serve significant numbers of students from cultural and ethnic groups underrepresented in the Foreign Service.

The conference substitute (sec. 153) combines the two provisions and makes technical modifications.

REPORT ON IMPLEMENTATION OF POLYGRAPH PROGRAM

The House bill (sec. 155) requires the Secretary of State to submit an annual report to the Congress on the implementation of the Department's polygraph program.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 154) is similar to the House bill, but limits the report to fiscal years 1990 and 1991.

SEXUAL HARASSMENT

The House bill (sec. 156) requires the Secretary of State to contract with an independent organization to conduct a study of sexual harassment at the Department of State and the United States Information Agency and to report on the occurrence of sexual harassment at the two agencies.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 155) is similar to the House bill, but makes a technical modification.

LIMITATION OF HOUSING BENEFITS

The House bill (sec. 161) prohibits the Secretary of State from providing housing allowances, differential payments, provision of housing, or other comparable benefits to any employee on the basis of representational status, except for ambassadors, deputy chief of missions, or senior representatives of agencies other than the Department. The House bill also requires a report on the allocation of representational benefits and a plan for a limitation of such benefits.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 156) requires the establishment of an appropriate policy on housing benefits for employees outside the United States. Aside from Ambassadors, Deputy Chiefs of Mission, Permanent Charges, or Consuls General, employees shall not receive housing based solely on representational status. However, this would not preclude the assignment of representational housing benefits to employees whose function requires such benefits. For example, the Secretary of State might choose to provide such benefits to the Economic Counselor in Tokyo, the Labor Attache in Poland, or other employees whose duties require such benefits.

AMENDMENTS TO TITLE V, U.S.C.

The Senate amendment (sec. 148) contains various amendments to Title V of the United States Code relating to: departure allowances for dependents; subsistence allowances for evacuees; prohibition on the inclusion of post differentials or hardships allowances in lump sum leave payments; education of dependents if an employee dies; combination of temporary lodging and post allowances; improvements in education allowance system; and post-secondary educational travel other than for undergraduate college education for dependents.

The House bill contains no comparable provision.

The conference substitute deletes the provision upon assurances from the committees of jurisdiction in the House that these issues will be addressed expeditiously.

OMBUDSMAN

The Senate amendment (sec. 152) directs the Director of the Office of Personnel Management to fill the position of Ombudsman for Civil Service Employees within 120 days after enactment of this Act.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

However, it is the intent of the committee of conference that the Ombudsman's office be professionally staffed. Further, the committee of conference intends to request information on the effective functioning, reporting authorities, and substantive powers of the Ombudsman. Finally, the committee of conference intends that the Office of Ombudsman, its location, and authorities be widely advertised.

MODEL FOREIGN LANGUAGE COMPETENCE POSTS

The Senate amendment (sec. 161) requires the Department of State to designate ten additional Model Foreign Language Competence Posts where each U.S. Government employee should possess an appropriate level of competence in the language of the host country.

The House bill contains no comparable provision.

The conference substitute (sec. 161) is similar to the Senate amendment, but phases in the establishment of the posts over a 3 year period.

FOREIGN LANGUAGE ENTRANCE REQUIREMENT

The Senate amendment (sec. 161) requires the Secretary of State to report on the feasibility of making a language requirement part of the Foreign Service entrance examination.

The House bill contains no comparable provision.

The conference substitute (sec. 161) is similar to the Senate amendment with technical modifications.

FOREIGN SERVICE PROMOTION PANELS

The Senate amendment (sec. 163) expresses the sense of Congress that Foreign Service Promotion Panels should promote to the Senior Foreign Service only those candidates who have demonstrated a prescribed level of foreign language proficiency.

The House bill contains no comparable provision.

The conference substitute (sec. 163) is similar to the Senate amendment with technical modifications.

LANGUAGE PROFICIENCY IN EMPLOYEE EVALUATION REPORTS

The Senate amendment (sec. 164) requires the Department of State, the United States Information Agency, and the Agency for International Development to include the score achieved on foreign language tests as a separate entry of officer evaluation and assessment reports.

The House bill contains no comparable provision.

The conference substitute (sec. 164) is similar to the Senate amendment with technical modifications. It is the understanding of the committee of conference that information on employee's language ratings and test dates is available to supervisors and is provided to promotion panels.

ADVISORY COMMITTEE ON INTERNATIONAL COMMUNICATIONS AND INFORMATION POLICY

While the committee of conference did not specifically address in this legislation issues pertaining to the need to ensure adequate personnel support for the Secretary's Advisory Committee on International Communications and Information Policy, the committee of conference wishes to make clear their strong support for the retention and/or detailing of necessary staff to ensure that the Advisory Committee is in a better position to fulfill its responsibilities pursuant to its charter.

Traditionally, such an advisory committee has relied on the staff of the bureaus and offices of the Department of State most concerned with the issues in its jurisdiction. However, with the dramatic changes which have been underway, the number and quality of issues that must be addressed by this advisory committee are growing exponentially. Thus, to ensure that this committee can continue to provide meaningful advice to the Secretary of State, the Committee on Foreign Affairs of the House of Representatives has under consideration clarifying legislation that would specifically extend to the Advisory Committee the same staffing authorities available to the U.S. Advisory Commission on Public Diplomacy pursuant to section 604(c) of the United States Information and Educational and Cultural Exchange Act of 1948.

However, in deference to new incoming leadership of the Bureau of International Communications and Information Policy, the committee of conference agrees that an opportunity exists to address this matter administratively prior to adopting legislation. The committee of conference expects that the Department will provide the necessary staff, as requested by the Chairman of the Advisory Committee. In the opinion of the committee of conference, this is necessary to relieve growing congressional concern. First, the Bureau of International Communications and Information Policy is hardly in a position to provide from its very small resources the increasing support that is anticipated in view of the growing need to draw on the advice and the participation of the private sector whose senior representatives compromise the membership of this advisory panel. The committee of conference views such participation by the representatives of the U.S. communications industry as critical to the elaboration of a sound policy on international communications and information matters that can support and enhance the objectives of U.S. foreign policy.

TITLE II—U.S. INFORMATION AGENCY

PART A: AUTHORIZATION OF APPROPRIATIONS AND AUTHORIZED ACTIVITIES

The House bill (sections 201 and 301) authorizes the appropriation of $960,445,000 in fiscal year 1990 and $1,050,423,000 in fiscal year 1991 for the U.S. Information Agency.

The Senate amendment (sections 201-205) authorizes $953,750,000 for fiscal year 1990 for the same purpose.

The conference substitute (sec. 201) authorizes the appropriation of $960,224,000 for fiscal year 1990 and $1,050,313,000, for fiscal year 1991 for the U.S. Information Agency.

RELEASE OF USIA FILM

The Senate amendment (sec. 220) permits the domestic release of the USIA film "The Long Journey Home", regarding the humanitarian crisis in Afghanistan. The House bill contains no comparable provision.

The conference substitute (sec. 203) is the same as the Senate amendment.

FULBRIGHT SCHOLARSHIP BOARD

The Senate amendment (sec. 213) renames the Board for Foreign Scholarships after former Senator J. William Fulbright. In addition, the Senate Amendment strengthens the protection of academic freedom of participants in the Fulbright and Humphrey Fellowship programs.

The House bill contains no comparable provision.

The conference substitute (sec. 204) is similar to the Senate amendment but renames the Board the "Fulbright Foreign Scholarship Board".

USIA SATELLITE AND TELEVISION

The Senate provision (section 208) repeals Section 209(e) of P.L. 100-204 and authorizes the Director of the United States Information Agency to acquire time on commercial or United States Government satellites for the purpose of transmitting materials and programs of the Agency to posts and other users abroad. The Senate provision limits programs that can be produced by the U.S. Information Agency to: interactive dialogues, coverage of current events, regular coverage of congressional and other government proceedings, and short news clips. The Senate amendment encourages USIA to acquire high quality cultural, artistic, and public affairs programming while effectively prohibiting in-house production of talk shows which proved so ineffective. The Senate provision also authorizes $1,500,000 for the purchase or use of programs produced with grants from the Corporation for Public Broadcasting or produced by United States public television networks. The Senate provision gives preference to programs produced by American commercial and public television over that produced by USIA., Finally, the Senate provision encouraged USIA to facilitate access to its satellite facilities for American broadcasters.

The House provision (section 206) repeals section 209(e) of P.L. 100-204, and provides that for FY 1990 not more than $12,000,000 may be obligated for Worldnet.

The conference substitute (section 205) provides the necessary authorities to the Director of the U.S. Information Agency to acquire, produce and broadcast television programs. The Director may also lease or acquire time on commercial or U.S. government satellite for the purpose of transmitting such programs.

In providing these authorities, the conference substitute specifies the types of programs that are allowed as well as subjects the activities of USIA/TV to the requirements of broadcast principles which are similar to those enunciated by the charter of the Voice of America.

Furthermore, the conference substitute sets cost requirements which give clear preference to the acquisition of programs produced by American commercial and public broadcasters and producers whenever the cost is less than that of in-house production. The conference substitute requires the submission of a quarterly report detailing the expenditures and providing justifications for materials produced by the U.S. Information Agency. The quarterly report shall also include a statement, for each case in which a program was produced by USIA, that no comparable commercial or public television program was available at a lower cost. The conference report authorizes no more than $12,000,000 for USIA-TV. The conferees understand that the cap on "USIA-TV" applies solely to those programs and activities which formerly comprised the Worldnet daily service.

Finally, the U.S. Information Agency shall submit, no later than one year after enactment a report, prepared by an independent television market survey company as defined by section 209 of P.L. 100-204, to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Foreign Relations Committee of the Senate containing (a) the best estimate of the number of persons who watch on a daily basis the programs of USIA/TV. Such estimate shall include the number of persons who watch a part of the daily non-interactive programs and the number of persons who watch such programs in their entirety. The report shall also include a description of the demographic composition and nationality of the persons watching such programs; and, the entire survey prepared by the entity conducting the survey.

U.S. ADVISORY COMMISSION ON PUBLIC DIPLOMACY

The House bill (sec. 208) reestablishes the U.S. Advisory Commission on Public Diplomacy as a panel nominated by the President of the United States with the advice and consent of the Senate and reinstates the bipartisan requirements removed by section 213 of Public Law 100-204.

The Senate amendment (sec. 210) contains a similar provision.

The conference substitute (sec. 206) is similar to the House bill with a technical modification.

FOREIGN LANGUAGE SERVICES

The House bill (sec. 212) amends existing law which requires USIA to give preference for hiring U.S. citizens for VOA language services whenever a position exists. Existing law provides preference for the employment of qualified Americans even if application of the preference would require the firing of alien employees who were hired at a time, and often at great expense, when no qualified U.S. citizens were available. The House provision would revise the existing preference for hiring U.S. citizens to apply it only at times when such positions are open, rather than whenever such positions exist.

The Senate amendment (sec. 211) contains a nearly identical provision.

The conference substitute (sec. 207) is the same as the House provision.

RETENTION OF FEES AND PAYMENTS

The House bill (sec. 203) allows USIA to retain fees and payments received for the use of the English Teaching and Library Service, agency produced publications, and motion picture and television programs which would otherwise be returned to the Treasury.

The Senate amendment (sec. 212) contains a similar provision.

The conference substitute (sec. 208) is similar to the House bill, but limits the revenues retained from motion picture and television programs to $100,000.

NARCOTICS INFORMATION NETWORK

The House bill (sec. 204) directs USIA to establish and maintain an international narcotics information network to disseminate prompt and accurate information to foreign governments in order to promote narcotics prevention and combat narcotics trafficking.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 210) is the same as the House bill.

AFGHANISTAN COUNTRY PLAN

The Senate amendment (sec. 219) USIA to continue to implement the country plan for Afghanistan submitted for fiscal year 1989 and requires a report describing the plan along with a specific outline on how the plan will be adapted for implementation within a free Afghanistan.

The House bill contains no comparable provision.

The conference substitute (sec. 211) is the same as the Senate amendment.

REPORT ON THE NATIONAL ENDOWMENT FOR DEMOCRACY

The House bill (sec. 211) requires a study by the General Accounting Office of the programs and operations of the National Endowment for Democracy.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 212) is the same as the House bill.

REPORT ON ACQUISITION AND USE OF PUBLIC PROGRAMMING MATERIALS

The Senate amendment (sec. 1035) requires the Director of USIA to report within 90 days on programming materials in fiscal years 1988 and 1989 from public television and radio entities, how that material was used, and projected use of such programming through fiscal year 1992.

The House bill contains no comparable provision.

The conference substitute (sec. 213) is the same as the Senate amendment.

PART B—BUREAU OF EDUCATIONAL AND CULTURAL AFFAIRS

AUTHORIZATIONS OF APPROPRIATIONS

The House bill (section 201) authorizes $153,000,000 for fiscal year 1990 and $152,120,000 for fiscal year 1991 for the activities of the Bureau of Educational and Cultural Affairs and to fund exchange programs of the Bureau. The House bill also earmarks $150,000 for training at the University of Maine for media personnel from developing French-speaking countries.
